HOW WILL YOU HAVE YOUR

Grand Coulee Power?

Today Grand Coulee power is flowing over Washington Water Power lines to war industries of the Inland Empire. After the war this power can be brought to your home over present Washington Water Power lines.

Electricity in the Inland Empire is cheap—about half the national average. Your present rates, when you consider the tax contained in your electric bill, are lower than so-called Bonneville rates.

It is for you to decide how you are to receive Grand Coulee power—under business management . . . or under political control.

 In addition, the usual shorts will complete the evening's entertainment.

TIGER TALES

PREPARED BY JOURNALISM CLASS OF KENDRICK HIGH SCHOOL

Kendrick Scores
 Kendrick's football team finally connected for a touchdown as they scored in the first and second quarters in the game against Troy on the home field last Friday.
 In the first quarter Kendrick pushed down to the 30-yard line, where a pass from Brocke, quarterback, to Dick Benscoter, end, put the ball over McCall's drop-kicked for point.
 In the second quarter it was again a pass that scored for the Tigers. It was Brocke again who threw the pass, and Maurice Long who made a beautiful catch, and was tackled on the goal line. The Tiger line didn't hold, and McCall's kick was blocked.
 The Trojans scored in every quarter to win the game 60-13.
 The Tigers meet the Lewiston B squad, October 21, on the home field. Kendrick travels to Lewiston November 4, to wind up their first football season in many years.

Driving that's easy on passengers and cars is one far-reaching good outcome of War!

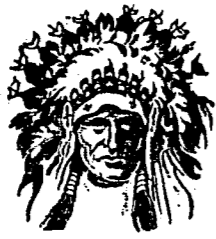

Handling the wheel and pedals like a professional became a wartime necessity. It favored the car—and quit scaring the rear-seat riders. Now it's a great point of pride. Yet an even more envied proof of fine car-sense is to own an engine that isn't showing its age. That demands sparing your engine from acids; from fiercely corrosive acids inside. You can do it by having your engine OIL-PLATED. All you need is a change to Conoco Nth motor oil... oil that OIL-PLATES.

In the extra-limited seasonal driving that's now the rule, your engine "hoards" a surplus of acids. Every explosion adds to these acids. You don't drive enough for engine heat to eject them safely. But they won't go biting right through OIL-PLATING! This highly corrosion-resistant surfacing is attached all over your engine's fine inner finish as if by magnetism—an effect you must credit to costly pioneer research, responsible for the special ingredient in popular-priced Conoco Nth oil, patented.

You can't apply keener intelligence to the car that must last you, than to equip it with an OIL-PLATED engine—simply by changing to Conoco Nth oil for Winter. Your Mileage Merchant's Conoco station knows your correct grade. Go now. Continental Oil Co.

A well known and forceful automotive jobber turned to his blonde and glamorous secretary. "Miss Spell," said he, "take a letter please."

The secretary poised her pencil. "Drizzle, Droopy and Halfthere," he began, "Drizzle Place, Chicago," "Gentlemen," he went on.

The secretary looked up. "I beg to differ with you," she stated coldly. "I've been out with all three of them!"

"I propose to show you," said a professor of biology, "a very fine specimen of a dissected frog which I have in this parcel."

Undoing the parcel, he disclosed some sandwiches, a hard boiled egg, and some fruit. "But surely, I had my lunch!" he exclaimed.

Recruiting Officer (sarcastically): "I suppose you want a commission."

Recruit: "Gosh, no. I'm such a rotten shot that I'd rather work on a straight salary."

MORE ABOUT ARMED FORCES

Candler, Juliaetta, and with relatives and friends here and at Kellogg. Cpl. Candler is in the Air Corps, and has been in the army now for almost three years.

Cpl. Candler called at the Gazette office Tuesday to thank all concerned for the paper. He looks the very picture of health, but states he would like to draw some overseas duty, however, in the army you take what you are given and "like it." He reports back to his post Oct. 21.

Helen Halseth AMM 1-c, WAVE, who is stationed at Terminal Island, San Pedro, Calif., arrived home on Wednesday of last week on a brief leave, and departed for her station Tuesday morning.

Miss Halseth called at the Gazette office just before her departure to thank all concerned for the paper. She states that other WAVES at the Island receive big daily papers from the east, and make considerable sport of "her little paper," but that they read it just as she does, and now feel that they know everyone here.

Miss Halseth said that she saw Don Jones just before he left for overseas duty, and that he was the only local boy or girl she had seen since entering the service. She also said she liked her work very much.

Mr. and Mrs. J. M. Woodward, Kendrick, have received indirect information about their son, Lieut. C. W. Woodward, a bombardier in the A. A. F., who now is in France. This word was received from the pilot on whose plane Cliff was the bombardier. This pilot had completed his 65 missions, and wrote the letter from New York. He stated that Cliff had completed 58 of his required 65 missions at the time he left France, and that he wouldn't be surprised but what the full number had been completed at the time he wrote the letter.

Supporting his belief Mr. Woodward said that Cliff had sent home is "foot locker" with instructions to take out his overcoat and have it cleaned. He also sent home his Air Medal, but was required to keep and wear his Oak Leaf clusters.

Mr. and Mrs. Woodward have high hopes that their son may be home for Thanksgiving — and all who know him join with them in this wish.

WILL *Fight...*

... to PRESERVE FREE ENTERPRISE

Between March 14, 1936, and June 29, 1944, the New Deal issued 76,541 directives, rules and orders regulating our lives down to the minutest detail. The New Deal is rapidly taking all personal rights, privileges and opportunities from the people.

If we are to SAVE our American Form of Government we must have men in Congress who will fight for it. We must have men like C. A. Bottolfesen who believe in our American system of Free Enterprise, and all the other Freedoms that are a part of it!

C. A. Bottolfesen will fight to preserve the form of government that made America great. He will fight to restore individual opportunity for returning servicemen and all of us in America.

In this hour of national peril when our rights as citizens are threatened we need men like Bottolfesen in the United States Senate.
