TIGER TALES

PREPARED BY JOURNALISM CLASS OF KENDRICK HIGH SCHOOL

Last Home Game

The Tigers bowed to Lewiston 33 to 6 last Saturday afternoon on the home field. In the first quarter McCall, Kendrick fullback, sprained an ankle and went out for the rest of the game. Dick Benscoter, who had suffered a sprained ankle in practice earlier in the week, took McCall's place at fullback and did a really magnificent job, considering his injury. It was Dick Benscoter, on line plunges that set up the touchdown, drawing the Lewiston defense in for the winning pass.

Again, it was the Brocke-Long combination, with Brocke passing and Long receiving. Millard failed in the try for point. The score at the half was 13-6, Lewiston.

The Tigers threatened again in the fourth quarter, but didn't connect for another score.

The last Bengal touchdown was really a freak. With Millard attempting a pass, a Bengal line man broke through, blocked the pass, gathered it in before it hit the ground, and raced for a touchdown.

The Tigers journey to Lewiston

for their final game on November 4.

Annual Tickets For Sale

The Depository tickets for the K. H. S. 1945 Annual are now being sold. It will be necessary to have one of these in order to obtain the annual. The tickets are 50c, and the balance of \$1.50 is to be paid when the books are distributed. Those in charge of selling are Donna Hoffman, Lois Fey, Velma Hecht and Walter McCall. Besides the general high school news, grade and some alumni news will be introduced in this year's issue.

Freshman Meeting

A Freshman meeting was called Friday by Junior Brocke, class president. A committee consisting of Lloyd Larsen, John Deobald and Herbie Millard was elected, to see that Mr. Armitage had help at all times from the Freshman group on the paper drive work.

Two committees were also appointed to assist in Sales Day activities.

Sales Day Proceeds

All the proceeds derived from the Sales Day activities went into the K. H. S. Activity Fund. Two concessions were run by the school, the hamburger stand by the Band class and the ball throw by the K Klub. The football game, dance and all proceeds from the bowling alley were added to make a total of \$203.46.

The grades have been very successful in their sale of "Red Hearts," symbols of the Children's Home in Lewiston. A total of \$40.00 has been collected to date.

The seventh and eighth grades are making murals in art class. The girls are using as their theme "Fairy Tales;" seventh grade boys, "Junior Red Cross" and eighth grade boys "War Factories."

They will start their Junior Red Cross project as soon as these murals are finished.

In our softball game series the eighth grade wins once in a while. Some of the eighth grade boys are practicing football with the high school.

11,000,000 post-war plans

Get it over with. Get back home. Get a job. That is what our fighting men are thinking and talking about. First—victory. Next—nail down the peace.

Then they want to throw off the rigid regimentation of military life—and not run into the same sort of regimentation back home.

They want to set out for themselves, as Americans always have . . . to use their own heads and hands in fashioning their own destiny.

A job and an opportunity—in the American system of free enterprise. This is the post-war plan of men in uniform.

Government can't be expected to carry out these plans. It's up to every one of us at home to see that they're fulfilled—eleven million times.

We will do our part.

Save High Percentage Wounded
With highly skilled medical officers working in surgeries right up in the battle areas, many wounded

soldiers receive medical aid within a matter of minutes after they have been hit.
Prompt surgery, together with the

use of blood plasma, penicillin and the sulfa drugs, daily are saving many lives in every theatre of war. Delicate brain and chest operations frequently are performed in these front-line surgeries by medical officers working under canvas, with portable lights furnishing illumination.

Medical officers in this war, as a result, have been able to save the lives of 97 1/2 per cent of the wounded. Only 10 per cent of the cases brought in from the front ever develop infection, due to the excellent

precautions taken and the immediate administration of penicillin and the sulfa drugs.

But, as the war enters its final stage, the number of casualties becomes larger. More and more doctors are needed to assure our fighting men the best possible attention.

Sixth War Loan Drive Coming

The Sixth War Loan Drive will be launched November 20, and extend through December 16. Fourteen bil-

lion dollars is the total quota, with five billion to be raised from individuals.

With the accumulated success of our military operations, the people from her station in California for a placid, feeling that a relaxation in our financing efforts will not prove harmful. This is a most dangerous attitude, as the sale of War Bonds is more important now than ever before.

FACT OR FICTION?

A 47-SECOND TEST ON
RAILROAD DETECTIVES

Q. Stealing of freight cars by other railroads makes heavy work for Northern Pacific's car tracers. Fact or fiction?

A. Fiction. All U. S. railroads freely exchange freight cars... thus, other lines make extensive use of N. P. equipment. However, tracers keep close tab on all 39,000 N. P. cars.

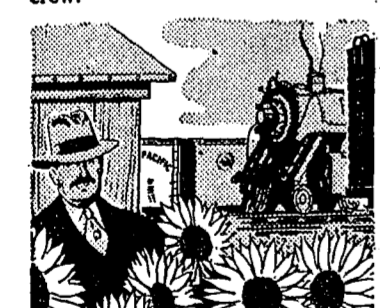

Q. Mysterious X sometimes found on N. P. rails is secret sign of well known gang of saboteurs. Fact or fiction?

A. Fiction. Patrol car with electronic detector instantly puts the finger on any hidden flaw in track, marks the spot with paint to guide repair crew.

Q. "Platform snooper" frequently seen poking around train trucks is hunting stowaways. Fact or fiction?

A. Fiction. He is checking journal boxes to see whether wheel bearings need oil, packing or new "brasses". All Northern Pacific trains are inspected, to forestall hot-boxes.

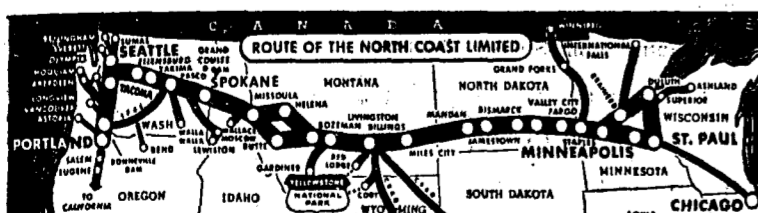

Q. A common variety of plant makes smart thieves wary of Northern Pacific freight cars. Fact or fiction?

A. Fact. Plant, in 'crooks' lingo, means an undercover police guard. Scores of railroad policemen protect the millions of dollars worth of goods moved annually via the Northern Pacific.

Q. Northern Pacific "freight detectives" have uncanny ability to predict movement of products of Northwest states. Fact or fiction?

A. Fact. They're the friendly, competent N. P. traffic agents... confidants and counselors to a host of shippers along the Main Street of the Northwest.

This Northern Pacific advertisement, one of a series highlighting important facts about the "Main Street of the Northwest", is now appearing in Time and four other national magazines.

Well Done
Of all the recoverable waste paper in this country, fully 62% is now being salvaged. This compares with a 70% total in England where the program has been under way for years and where there are strict laws against destroying waste paper. —All of which goes a long way to prove the often advanced theory that a people well-led will do better than a "driven" people.

At Home We Are Driving Toward Our U. S. O. Goal of \$630.00, Now On; And The Sixth War Loan Drive, Which Opens November 11th!

It's our duty to back up the boys in their "twin drives" with success in our "twin drives" at home.

It's our duty to give and give generously to the U. S. O. in order that those overseas may have all the comforts and pleasures possible under war-time conditions — both at home and abroad!

Those War Bonds you will purchase during the coming drive will provide the ships, planes, tanks, guns and ammunition so vital in the final drive toward victory.

So when you are approached on either of these "twin drives," invade that old pocket book. Give and buy till it hurts! Never let it be said that we "let our boys down!"

Remember — local boys are in both those drives — send your "local dollars" to back them up!

Bean Crop Prospects Down

Idaho dry bean prospects declined about 74,000 bags during September and production was forecast at 2,058,000 bags on October 1.

Frost, beginning about September 15, damaged a considerable acreage in southern Idaho. Extent of the damage could not be determined closely by October 1, but it appeared the main injury was to quality rather than yield per acre. Reports indicate that as harvesting progressed in many sections it became apparent that the set of pods per vine was limited and that in some instances the set of beans per pod was not heavy. Lack of summer rains hampered development of the crop in north Idaho.

It is now indicated (Oct. 18) that the crop will include 1,034,000 bags of Great Northerns; 281,000 bags of small reds; 40,000 bags of small whites; 163,000 bags of pintos and 540,000 bags of other varieties, mainly garden seed types.
 In the United States a probable dry bean crop of more than 17,000,000 bags (uncleaned) seems indicated by October 1 reports from bean growers. The indicated production of nearly all kinds, except California limas and blackeyes, is less than was expected a month ago.

Guns To Be Produced

Production of 495,000 new shot-guns and rifles and completion of a quantity of partially-fabricated guns for use in replacing essential civilian equipment has been authorized by the W.P.E. Essential users include police and other law enforcement agencies, farmers and ranchers. Pistols and revolvers are excluded from the program because of continuing military demand, but shot-guns and both center and rim-fire rifles are included. A few guns for sports use may become available toward the end of the production program.

"Iron Major" Scheduled

This week's offering at the local theatre, entitled "The Iron Major" is said to be one of the greatest sports pictures ever filmed. It portrays in fullest character the life and sports achievements of the late Coach Cavanaugh of everlasting football fame. And in the picture appears a dozen football classics.
 Ruth Warrick, Robert Ryan, Russell Wade and Bruce Edwards assist Pat O'Brien in the action.
 The usual cartoon and shorts will round out the evening's entertainment.

WORLD PEACE

Glen Taylor was raised on a farm. His business has for twenty years taken him into every rural community in the state. If elected Senator he will take council with the common people and strive to do their bidding.
 He is more interested in seeing that those presently engaged in farming are prosperous than he is in setting others up in competition with them.
 He will seek federal aid to develop projects in Idaho similar to Bonneville and Grand Coulee in order to bring new industries to Idaho. This will mean jobs for workers and returning veterans.
 Workers with paychecks mean cash customers for our merchants and close at home markets for our farmers.

Fat Patient (skeptically): "Did you ever take a good look at a hippopotamus?"

"You have never kissed so wonderfully before, Dinana. Why is that? Because we are in a black-out?"
"No. It's because my name is Helen!"

Successful farmers are saving money on oil... saving the time commonly wasted changing oil... and protecting their motors by installing FRAMS on their tractors.

There is no doubt that clean oil will last longer than dirty oil, nor that motors lubricated constantly with clean oil will cost less in repairs. The FRAM Oil and Motor Cleaner keeps both oil and motor clean and free of dust, dirt, abrasives, sludge and harmful acids. That is why successful farmers are equipping their tractors with FRAMS — saving money — saving their motors — saving time. Why don't you investigate?
