NEWS FROM LOCAL MEN IN THE ARMED FORCES

1-Sgt. Leo E. Peters arrived home Saturday evening to spend a Christmas furlough with his parents, Mr. and Mrs. A. G. Peters, and other relatives and friends. He reports back to his command at Camp Roberts, Calif., January 3rd.

Leo and Wayland Davis called at the Gazette Tuesday and looked over the Jap souvenirs on display. Leo said the Jap mortar shells didn't look like much compared to the American, but were plenty deadly at that.

RT-2c Vern Wegner, son of Mr. and Mrs. Aug. F. Wegner, Cameron, arrived home Saturday evening to spend a Christmas furlough with his parents, and other relatives and friends. Vern is convalescing at Sun Valley, Idaho, from a long illness. Vern called at the Gazette office Tuesday to thank all concerned for the paper. He states that he is now beginning to feel like himself.

Vern said there was about ten inches of snow when he left Sun Valley, and that they had had much below zero weather as a result of which winter sports were in order. He had indulged in skating, but didn't like the looks of the outdoor swimming pool, even though the water was warm.

T-Sgt. Clem Lyons, son of Mr. and Mrs. Frank Lyons, Southwick, arrived home Wednesday evening of last week from New Britain Island, South Pacific, to spend a 30-day furlough with his parents, Mr. and Mrs. F. C. Lyons, and with other relatives and friends.

Clem is a veteran of almost three years in the Pacific area, and this is his first furlough in many, many months.

From A-C Kenneth Woody, who is stationed at Kingman, Ariz., comes a Christmas card, wishing to all the joys of the season.

Camp Cooke, Calif. Dec. 17, 1944

Dear Mac and Bill: Guess it's about time I wrote a few lines to you. Have been getting the paper every week and I surely enjoy it very much. One thing I particularly like is the letters the other boys in the service write to you. That is one way of getting an idea of where they are and what they are doing.

Last week was a very pleasant one for me. Bernadine was here to visit me, as you probably already know, and we went up to Paso Robles and saw her brother. He is the first fellow I have seen from home since I've been in the army. We had quite a visit. It sure seemed good to talk to someone from home, even if he hasn't been home for ten months either. Guess he'll make it home for Christmas — or so he said.

I expect to make it home about the middle of January (or so). I'm sure hoping to, anyway. Would like to be there for Christmas, but a little late is a lot better than never.

I want to extend my thanks to all the people of the Gold Hill community for the Christmas-card they sent me. It was really swell, folks, and I thank each and every one for it.

I also want to thank you and all the others for sending the paper. I really enjoy each and every copy.

Well, I've got to go now, so until next time, or until I see you, I remain, as ever —

Pfc. Raymond E. Hudson.

From Helen Halseh AMM 3-c, WAVE, comes a beautiful Christmas card, wishing all the best the season affords.

New Guinea December 8, 1944

Dear Mac and Bill: Have been thinking every week I would settle down and write you a few lines again, but never did. So this evening I finally settled down to do so.

As you notice, I'm at a new place again, so that's my reason for writing at this time, to give you my new address, so the good old home town paper will keep on coming. It has been quite some time now since I have received any papers — but know they will catch up eventually.

Had heard so much about this country before coming up, and when arrived here, found it all very interesting. There really is not anything new I can write about this place, as the boys who have been here before have done a good job in telling what they can about it in their letters to the paper.

Will close for now, again thanking you for the paper — and will try and write again — sooner next time.

Always Sgt. Joseph Forest.

Mrs. F. A. Varo of Eugene, Ore., arrived Tuesday night to stay until Sunday with her mother, Mrs. N. B. Long. Mrs. Varo came by the way of Spokane with her son, Everett, where he remained with an aunt. The other son, Gordon, is in the navy, somewhere in the Pacific.

Stores To Close

All the local stores, bank, etc., will be closed on New Year's Day, Monday, January 1, so better do your shopping for Sunday and Monday on Saturday.

It is not often that local business houses observe a holiday, so no one should complain at this one.

All stores and business institutions in the surrounding towns will also be closed — so just relax and enjoy the day.

Mr. and Mrs. Virgil Harris spent Tuesday at the Ed. Torgerson home at Lapwai.

Win Two More Games

The Kendrick Tigers emerged victorious from two basketball battles the past week.

On Friday evening the Tigers met and defeated the Troy quintet on the local floor, 33-16.

On Tuesday evening of this week the Tigers went to Grangeville for an exhibition game with that squad — and again emerged victorious, despite the long, cold ride.

The game was fast, rough and interesting. At the half the score stood 22-18. During the latter part of the game the Tigers turned on the heat and the final score stood 36-27 for Kendrick. This is the first time this season that Grangeville has been defeated on their own floor.

High point men for Kendrick were: Millard, 10; Easterbrook, 7; Brocke 7.

Among The Sick

Mrs. Lester Crocker has been quite ill with "strep" throat. Last week Lester was down with the flu, and just managed to be up in time to help care for his wife, Mrs. Judson Lee is helping at the bank during their absence.

Norman Fry had an abscess on his neck opened December 21.

Peggy Cox, daughter of Mr. and Mrs. Andy Cox, underwent a tonsillectomy Tuesday of this week.

Homar Parks fractured his right wrist Tuesday, when he attempted to crank a tractor.

Otto Rauschke underwent a hernia operation at St. Joseph's hospital on Wednesday morning.

There are many suffering with severe colds and flu in this community.

We Extend Our Thanks

Our sincere thanks for help in sending the Kendrick Gazette to local men and women in the Armed Forces goes to:

The Crescent Community, who last Saturday night sold box suppers at a dance, and raised the sum of \$12.75, which was presented to us for that purpose.

Mr. and Mrs. Doy Tout, Portland, Oregon, \$3.00.

Mr. and Mrs. Edgar Dammarell, Kendrick, \$2.00.

Mr. and Mrs. Wade Candler, Southwick, \$1.00.

Ice Cream Cakes

"On 'display', if you can call sitting in a quick-freeze room on display, last Saturday, were six of the prettiest ice cream cakes anyone ever saw — a product of the local Kendrick Co-operative Creamery.

Not only were they beautifully and colorfully iced and worded, but the cakes themselves were of two layers, vanilla and fruit.

We didn't get a chance to taste them, but will bet they were just as good to eat as they were to look at.

No "White Christmas"

Kendrick may or may not have had a White Christmas, depending upon a definition of that term. There was a little snow on the ground, and the soil and grass showed through in most places — but there was a little snow.

Roads ranged from bare and good to icy and dangerous, depending on the location. There was not, however, much Christmas travel, at least for any distance.

Christmas Program

A simple but lovely Christmas program was enjoyed at the Community church Sunday morning, when the children and young people portrayed the Christmas Story, with the Manger scene, costumes and songs.

The program was under the direction of Mrs. W. B. Deobald.

Red Cross Officer Election

The local Red Cross Unit will hold an election of officers next Wednesday afternoon, January 3, at 2:30, at the Surgical Dressing station. All members are urged to attend.

1945 . . . Happy New Year!

AT THIS TIME of resolution-making it might be apropos to recall the words of a wise old philosopher of a long-forgotten era. He said:

"Every first of January we arrive at is an imaginary mile-stone on the track of human life; at once a resting place for thought and meditation and a starting point for fresh exertion in the performance of our journey. The man who does not propose to himself to be better this year than he was last must be either very good or very bad indeed."

Farm Machinery Behind Schedule
 One measure of the concentration on war needs is the fact that the WPA finds output of farm machinery, exclusive of wheeled tractors, repair parts and attachments, about 25 per cent behind manufacturers' schedules for the four months ending October 31. Military needs, more critical in recent months, are creating shortages in components for farm machinery.

Coal Production Short
 Although the nation's output of bituminous coal reached a new peak in the last 12 months, consumption requirements will exceed production by from 10 to 16 million tons in the fuel year. This situation reflects the unprecedented requirements of industry and means continued consumer pledges to save on home heating are necessary.

CASH WHEAT PRICES ARE STEADY AND UNCHANGED

Domestic wheat market news was without distinction during the week ending December 23, and turned trading dull and lifeless within a narrow range, according to reports to the W. F. A. from the U. S. D. A. Feed grains, led by corn, showed independent weakness. Liberal new crop offerings from the current large crop forced prices well below ceilings early in the week but at the lower levels country pressure lessened and the situation became more stabilized as the week closed. Oats and feed barley followed corn at midwestern markets and reacted toward somewhat lower price levels during the period. The shortage of box cars continued to be a factor in limiting country movement of all grains.

Only slight changes occurred in cash wheat prices at Portland during the past week and at the close quotations were unchanged on most classes of wheat, with ordinary soft white and hard red winter up 1c per bushel from last week. Trade reports again indicated an extremely quiet cash wheat market situation at all Pacific Northwest terminals. Demand was almost entirely lacking from most classes of buyers, while mills were in the market for only limited amounts of high grade hard winters and hard whites. On the other hand, growers were not offering freely in country points. Light trading and movement was indicated by a further decline in wheat receipts at Puget Sound and Columbia river terminals to only 335 cars for the week, of which Portland had 72 cars. The CCC support price on cash wheat was reported at \$1.51 for Columbia valley wheat and \$1.52 per bushel for eastern Washington wheat, basis "on track." Portland. Seeding of fall wheat continued in Oregon, being three-quarters finished in some areas, but in some sections less than a quarter done, due to extremely dry soil conditions. In large areas soil moisture has been inadequate for germination.

Bid prices for cash wheat on the Portland Grain Exchange showed: Soft white, \$1.51; soft white (no Rex) \$1.51; white club, \$1.51; western red, \$1.51 and hard red winter, \$1.51 per bushel, all basis No. 1 grade, in bulk, 15-day shipment, coast delivery.

According to a report issued by the Pacific coast headquarters of the federal grain supervisor at Portland, 4.4 per cent of the carload wheat receipts at Puget Sound, Spokane and Columbia river terminals, during the month of August, graded smutty, as compared with 3.8 per cent during August 1943.

The San Francisco wheat market remained quite firm with moderate offerings meeting a fairly active demand from Bay region dealers and industries. Prices were unchanged at 2½c per 100 higher compared with a week ago. Light offerings, particularly of top quality wheat, continued as an outstanding market feature. Central California growers generally were holding remaining supplies quite firmly and were mostly asking higher prices than current bids, which were around \$2.50 to \$2.52½ per 100, country warehouse receipt basis for No. 1 hard and soft white wheat, sacked.

On the cash wheat market at Kansas City, widening spreads in the prices for wheat according to grade were more pronounced, qualities that met the milling requirements for blending, were wedged against ceiling limits, while lower prices and wider discounts prevailed for the poorer classes. Processors provided a ready outlet for supplies suitable for their needs. Demand for the poorer grades was moderate due to the fact that storage interests were operating more freely in feed grains and soybeans. Car shortage remains a tremendously important factor in the movement of all grains.

The cash wheat market at Minneapolis was strong with an exceptionally strong demand. New Flour business was light, but shipping directions on old contracts were generous, so that flour production in the northwest held near capacity levels. Thus, mill demand for wheat to replace current grindings was quite active.

Supplies of grains for the 1944-45 season, according to current estimates, are about 2 per cent under those of last year despite record crops of wheat and corn. Increases in production of wheat, corn and oats are more than offset by decreases in the rye and barley crops and by materially smaller stocks of all grains carried over from the previous season. Stocks of wheat on October 1 totaled 1,106,645,000 bushels, or about 4,000,000 bushels less than a year ago.

Sowing of winter wheat is practically completed in the main belt east of the Rockies. In Kansas, wheat is growing well and is being pastured. Need for rain has become quite general except in the Atlantic states. Dryness is delaying the completion of work and is retarding proper germination in many sections.

Paid High Taxes
 The Washington Water Power Co. paid \$9,336.82 in taxes on its real and personal property in Latah county, Monday, December 18, according to J. H. Lucas, district manager for the electric service company. Checks for the taxes, representing payment of first half taxes for 1944, were handed to Edna M. Thierault, tax collector for Latah county and Walter Q. Taylor, county assessor, Monday by Mr. Lucas. Payment of the second half of the taxes for 1944 will be made in June.

Eight other counties — Kootenai, Lewis, Nez Perce, Clearwater, Bonner, Benewah and Shoshone also received tax payment checks Monday. Total amount of taxes paid the counties Monday was \$114,532.99.

The W. W. P. Co.'s total real and personal property taxes for the nine Idaho counties for the year is \$232,218.25. In addition to these taxes, the company also annually pays approximately \$100,000 in other taxes to the state of Idaho.

A Pittsburgh business man recently wrote the St. Regis hotel in New York reserving a double room with a corner parlor on the fourth or fifth floor for four days: The day before, the day of, and two days following the war victory celebration.

NO ONE GRAIN IN IDAHO SET NEW RECORD YIELD

No one grain in Idaho established a new record for yield, yet the total production of all grains for the crop year of 1944 will be the greatest in the history of the state, according to "Economic Facts For Idaho Farmers," a publication issued by the University of Idaho Extension Service.

While total grain production has topped previous records, the feed grain carryover from last year has been smaller, resulting in a total supply about the same as last year, the publication stated. However, grain consuming livestock units are down 15 per cent, making the supply available per animal substantially larger. In spite of possible greater supplies per animal, feed grain prices in the western states have advanced in recent weeks, due to advances in the wheat market.

Little change in the hay situation is indicated. A slight decrease in the estimated October production has been offset by the decrease in animal units and the supplies in the state this season should average about 2.98 tons per animal unit compared with 2.86 tons for last year and 2.83 the year before, as against a 1937-41 average of 3.25 tons per animal unit.

Dairy production remains high, the release said, and grain fed to milk cows is at record high levels for this time of year. Idaho farmers were feeding grain at the rate of 3.9 pounds per milk cow as compared with 2.5 a year ago.

Hog marketing was anticipated as being nearly 25 per cent below that of a year ago for the period of six months starting October 1, and pork purchases by the military forces are anticipated as larger for the same period.

Dry ranges were given as the cause of early movement of Idaho range lambs and indications are that in the United States fewer lambs will be fed through the winter. In Idaho, however, it is expected that approximately the same number will be fed through the winter as last year.

The report indicated that continued heavy marketings of beef can be expected the balance of the year with the proportion of well-finished cattle small. The danger of serious market gluts apparently has disappeared for this year, due in part to improved feed prospects. Demand for beef will continue strong as long as the size of the armed services remains at its present level.

War Bonds Are Safe

About the safest and surest thing in this world of uncertainties is a War Bond, issued by the United States government. Here is an investment worth as much in a depression as a boom. It is backed by all the wealth of America. If lost or destroyed in any way it can always be replaced.

First of all is this matter of safety. War Bond is as safe as the dollar bill in your pocket. The same security guarantees payment of both. At the end of 10 years you are certain to get 100 good, solid American dollars for every 75 invested.

Seventy-Six Game Violations

Seventy-six arrests were reported by conservation officers during the month of October, the fish and game department announced today. The number is the largest for a single month in 1944 and is a big increase over September, when 39 arrests were reported.

The figure does not include several arrests made during the last few days of October, as they were not reported to the department until early November, and the list includes only those cases filed during the month.

Fishing closed water was the most frequent offense. There were nine arrests on that charge. Failure to tag deer and carrying an uncased rifle without a license resulted in eight arrests each. Seven persons were charged with possession of pheasant out of season.

Other charges were: Shooting from highway and shooting ducks with unplugged guns, five each; fishing without proper license, four; exceeding the limit of pheasant, hunting without proper license, hunting in game preserve, illegal possession of elk, hunting ducks without federal stamp, and illegal possession of blue grouse and sagehen, three each; shooting more than one deer, waste of game and illegal dipping of whitefish, two each; illegal shipping of birds, hunting ducks from motor boat, shooting elk out of season, trapping in closed season and hunting deer with artificial light, one each.

Cassia county reported 11 arrests; Ada had eight; Power, seven. The number of arrests in other counties was: Canyon and Adams, six each; Bannock and Payette, five each; Twin Falls, four; Latah, Shoshone, Idaho and Bonner, three each; Kootenai, Valley and Custer, two each; Gem, Oneida, Bingham, Bear Lake, Bonneville and Blaine, one each.

Dry Bean Report

The November 1 estimate of total United States dry bean production reduces the size of the crop substantially below earlier forecasts. At 17,114,000 bags it would be 19 per cent smaller than last year's crop and only 13 per cent above the 1933-42 average.

Idaho production was estimated at 2,058,000 bags, down 74,000 bags from the September estimate. Early frost did some damage and the set has been lighter than expected. An Idaho crop of this size would be 17 per cent below last year and 28 per cent above the 1933-42 average.

Two Shows Scheduled

This week end the local theatre will show "The Merry Monarchs," a laugh riot and fun fest, starring Donald O'Connor, Peggy Ryan, Jack Oakie and Ann Blyth. But not only is this a laugh riot, but has a real story plot as well. It will, undoubtedly, provide real entertainment.

On Sunday and Monday night a New Year's show is scheduled. It is in technicolor and is entitled "Home In Indiana," said to be one of the season's best shows. Starred are Walter Brennan, Lon McCallister, Jeanne Crain and Charlotte Greenwood.

Sugar Consumption Up Slightly
 Before the war each American consumed an average of nearly 100 pounds of sugar each year. About 55 pounds of this was consumed directly in the home for table uses, cooking and canning. The other 45 pounds was added by manufacturers to food products such as candies, syrups, canned fruits, jams, ice cream, and soft drink mixes. In 1941, with increased buying power, the per capita consumption of sugar reached a new high of 107 pounds. Within eight months of rationing in 1942, consumption was cut to about 75 pounds. In 1943, with somewhat better supplies, total consumption reached 79 pounds per person. Consumption in 1944 will be still greater because of larger use for homes and commercial canning and increased military and industrial needs.

Don't forget to call for one of those good calendars — we have a few left.

This has been a very successful year for your creamery. May we take this opportunity to express our appreciation for the loyal support you have given us. Only through this support has our success been possible.

We wish each and every one of you a
HEALTHFUL AND PROSPEROUS NEW YEAR
and may this new year bring the boys back home!

A colored boy took a flight in an airplane. As he climbed out of the ship on return to the field, he turned to the pilot and said: "Boss, Ah sure thanks you fo' dem rides."
"What are you talking about? You only had one ride," said the aviator.
"No, suh, boss," said the boy, "Ah had two — mah fust and mah last!"

A Chinese visitor says: "Funny people, you Americans. You take a glass — you put in sugar to make it sweet and lemon to make it sour; you put in gin to warm you up and ice to keep you cool; you say, 'Here's to you,' and then drink it yourself!"

Hello All:

Just a few lines to give you my new address and to thank you very much for the paper. I have enjoyed it greatly in the past, and will no doubt enjoy it even more in the future.

Having moved five times in the past five weeks thought it would be needless to write, although it looks now as if this may be my address for some time to come.

Must close now — with a Merry Christmas and a Happy New Year to all.

As ever
Earl D. Harris.

An Eighth Air Force Bomber Station, England (Official Dispatch) — S-Sgt. Vern G. Spekker, 30, of Cameron, Idaho, was "runner" on the Eighth Air Force B-17 Flying Fortress "Smoky Liz III" has been awarded a third Oak Leaf Cluster to the Air Medal for "meritorious achievement" while participating in AAF bombing assaults against Nazi industrial and military installations in the toughest theatre of aerial warfare.

Sgt. Spekker is a member of the 452nd Bomb Group, a unit of the Third Bombardment Division, the division that received a Presidential Citation for its now historic England-Africa shuttle bombing of the Messerschmitt aircraft plants at Regensburg, Germany.

The German airman considers an attack against "Tiger" tank factories at Regensburg, Germany, to be his toughest mission.

"The flak wasn't any heavier than usual," he recalled, "but two bursts were sufficient to make us sweat out the rest of the trip. The first knocked out one of our engines, and fifteen minutes later, we lost a second one."

"Smoky Liz" dropped out of formation and started back for England as the crew began to salvo all equipment not necessary to keep the plane airborne.

"One of the other planes reported enemy fighters in the vicinity," continued Sgt. Spekker, "and that's when the fun began. I've seen the Jerries 'gang up' on a straggling Fort and rip it to pieces and could picture the same thing happening to us. Luckily, the enemy fighters didn't put up an appearance and although hit a few more times by anti-aircraft fire, we made it back to Belgium, where we spent two days, before being flown back to our home base."

S-Sgt. Spekker, a son of Mr. and Mrs. A. E. Spekker of Cameron, was a forest guard for the Nez Perce national Forest before entering the AAF in November of 1942.

Clyde (Sonny) Daugherty, Jr. was a week-end visitor in the Herman Johnson home over the week-end. Sonny has been stationed in Texas,

and said when here that despite a five-day lapse before landing in Kendrick, he was still extracting sand from between his toes. His opinion of Texas coincides with that of all the other fboys from this country who have been stationed in that state.

Pfc. Wallace Fraser left for Gowen Field, Boise, to report back for duty, after spending a two-week furlough here with his parents, Mr. and Mrs. Everett Fraser, and other relatives. Wallace said he hated to return before Christmas. He was glad to get the furlough he had had.

Pvt. Harry Groseclose, who has been serving overseas for 29 months, is now spending a 21 day furlough with his father, Blaine Groseclose, his sister, Mrs. Ted Taylor, and his grandmother, Mrs. Laura Groseclose.

Pvt. E. T. Long, Jr., will leave on January 1 to report to Fort Lewis, Washington. He is at home on furlough.

Labor Saving Display Scheduled
A special farm and home labor saving display, including free educational motion pictures on labor saving equipment, will be held at the Grange Hall in Moscow on Monday, January 8, starting at 10:00 a. m., states Reub. Bauer, county agent.

The purpose of this labor saving equipment display is to give farmers and housewives of Latah county an opportunity to exhibit and observe many of the labor saving gadgets, equipment and machines which have been developed to save labor and make a farm and home job easier.

Only by exhibiting these can the worth-while ideas be passed on to any great extent. Therefore, farmers and women who have developed or invented some labor saving gadget, machine or equipment are requested to bring the same to the display. By doing so they will be rendering a great community service during this war time farm labor shortage.

Any special kitchen or home labor saving device may be exhibited or a plan drawn and submitted.

The Agricultural Engineering department of the University of Idaho is cooperating by exhibiting 300 feet of panel boards containing many plans, pictures and small models of labor saving equipment, and also a special kitchen exhibit of panels will be of special interest to women.

This is an educational meeting for the benefit of the farmer and housewife and we hope all can arrange to attend, stated Mr. Bauer.

No Change In Tax Rates

There has been no change in regulations or rates governing the filing of State Income Tax returns for the taxable year 1944.

Any individual whose net income for the year amounted to \$700, if single, or \$1,500 if married and living with husband or wife, is required to file an income tax return regardless of the nature of his or her occupation within the state.

Forms have been shipped to local banks, courthouses, city halls, public accountants, country post offices, large employers, and others, so that the appropriate forms can be readily obtained if and when needed. Taxpayers are urged to obtain the necessary forms early, even though returns are not due to be filed prior to March 15, 1945.

Address all communications intended for the State Income Tax Department to: Tax Commissioner, Box 1399, Boise, Idaho, and mail your state income tax returns so as to reach that office not later than March 15, 1945.

Any Of This Yours?

There is approximately \$25,000,000 waiting to be picked up by some 30,000 veterans of the last war at the Veterans Administration if they will apply for it before the maturity date of their service certificates (bonus), which in most cases is January 1, 1945. It is stated by Brig. Gen. Frank T. Hines, Administrator for Veterans Affairs.

All these veterans have to do to collect this money is to exercise their rights in connection with their adjusted service certificates. Some 15,000 veterans can collect up to \$625 each, part of which is interest they are now being charged on loans and part interest they are losing by not having applied for the bonds that were issued in exchange for certificates. The others can collect in addition to the face value of their certificates an average of \$250 each in bond interest by exchanging their certificates for bonds now.

Duck Season Ends January 1
Season for shooting ducks and geese throughout Idaho ends January 1, 1945. Fowl may be shot on New Year's day — that is the final date. The season is 10 days longer than it has been for several years, and in most parts of Idaho it has been successful from the hunter's standpoint.

Ducks and geese may be kept in possession 45 days after January 1. There is no time limit on the possession of upland birds or game animals legally taken.

Violations of migratory bird laws have been more numerous this winter than usual, night shooting having caused difficulties in several areas. Eighteen hunters were recently fined for such offenses in a recent patrol near Pocatello.

There is no open season on swan or any white goose.

Changes In Tonsorial Possibilities

This week saw the closing of the Kendrick Beauty Shoppe, operated for the past several months by Mrs. Marcella Schroder of Arrow, and the sale of its furniture and fixtures to J. G. Travis, who has it for sale or rent (he not being a beautician).

This week also saw the reopening of the local barber shop by Ed Salvis, formerly of Juliaetta, and it is a mighty welcome addition to our town, as we have been without a barber for several months.

Looks like the women lost and the men gained during the past week.

Gramp—When I was young, it was my ambition to have a gig and a gal.

Pop—When I was a lad I wanted a flivver and a flapper.

Son—So you can't blame me if I want a plane and a Jane.

Escapes Serious Injury

Darrell Brocke, six-year-old son of Mr. and Mrs. George Brocke, narrowly escaped serious injury last Saturday while coating at the Ross Armitage home. The big sled on which he was riding got out of control and careened into a tree, throwing Darrell forward. The left side of his face was terribly scratched and bruised and his left eye blacked.

Juliaetta School Notes.
