What's the idea? 3 tickets!

SEEMS hard on the man, yet there he is, with practically 3-cars-in-1... First, that's his pre-war car... Second, it became his wartime car... And third—long may it live postwar! For not even record-smashing new car output in 1945 can keep millions from being forced to wait until 1946 or so—most likely including you.

Then go the limit shielding your priceless motor car by having its engine OIL-PLATED. That's your sure gain in switching to Conoco Nth motor oil. Made of finest paraffin-base stock, refined by latest processes, Conoco Nth oil actually tops all that by OIL-PLATING your engine's insides. This extra inner surfacing checks even cruel acid corrosion.

In fact, no straight liquid oil—always wanting to slide off—can ever fight wear like Conoco Nth oil's high-strength liquid film PLUS unprecedented OIL-PLATING. And the less wear, the less carbon and sludge... the more gasoline mileage and battery life, too. There's your whole fistful of reasons for getting patented Nth oil. It costs a mere trifle extra, but how it

will help to conserve your car! Change to an OIL-PLATED engine today at Your Mileage Merchant's Conoco station. Continental Oil Company

WHAT IS OIL-PLATING?

It's the lubricant that becomes almost an actual part of the cylinder walls, piston rings, bearings and shafts. That's how closely OIL-PLATING is attached by Conoco Nth oil's added ingredient—developed by endless far-sighted, costly research. Even after your car stands cold, the OIL-PLATED parts are still ready-lubricated—before any mere liquid oil could circulate. And out goes the worst winter starting wear... another boost for car life!

Helen L. Mielke, San Francisco, Calif., \$5.00.

Mr. and Mrs. Charley Hoffman, Star Route, Kendrick, \$2.50.

Hope this is satisfactory with everyone. —'The Homemakers Club.'"

Seats Nearing Completion

The new four-tier wood and steel seats being constructed by the Kendrick Athletic Club for use in the gymnasium and at the ball park, are nearing completion, the first one having been assembled Monday evening at the creamery warehouse.

The seats and risers are of heavy plank, but are re-inforced with welded steel angle iron, making them strong enough to support a far greater weight than they will ever be called on to carry.

The construction is such that they may readily be "knocked down" for storage or transportation. They are painted a battleship gray, enamel being used, which makes a smooth hard surface, weather and wear resistant.

It is expected that the new seats will be completed and in place in ample time for the sub-district tournament here next month. These new seats, carrying four tiers, will add considerably to the seating capacity of the gym.

Back On Duty

Sunday Like Late Spring

Sunday was like a late spring day, for following the warm rain which fell all of Saturday night, cutting rapidly into our three inches of snow, the wind began to blow early Sunday morning, the sun came out—and the thermometer hit a high of 62 degrees!

By evening every particle of snow and ice was gone, and none could even be seen from town.

Many local residents took advantage of the warmth to stroll about town or up and down the railroad tracks.

"Hitler observed his 58th birthday in silence," says a news item. Yeah, except for bursting bombs.

Two employees from rival airplane factories were arguing about the speed of their companies in building planes.

"Talk about speed," said one. "Last week we built a four-motor plane in eight hours flat. Five minutes later a pilot took off in it. Six hours later the plant received a cablegram from him saying: 'Am in Australia. Please send motors!'"

"What's the idea of sticking me in a ward with that crazy guy?" Nurse: "Well, the hospital is rather crowded just now. Is your roommate troublesome?" "Why, he's nuts. He keeps looking around and saying, 'No lions, no tigers and no elephants' — and all the time the room is just full of them."

"The Sullivans"

While the title will recall to many the five brothers from Iowa who fought their last battle together in the Pacific, "The Sullivans" is not primarily concerned with war or patriotism or tragedy, although each of these play a part. It is, above all, a picture of family life, of clean-cut American boys whose home was richer in spiritual values and a bit poorer in material things than most, and of the fullness of the life they had before death came.

When the tragic news comes, the family is shaken but staunch, and five Sullivans — mother, father, sister, wife and son — launch the battleship which will keep the boys' name afloat.

MORE ABOUT ARMED FORCES

V-Mail Chopbeat
They tell our folks to use V-Mail instead of sending it first class. But for my part they can take V-Mail. And jam it, brother, jam it!

They de-hydrate all our wonderful chow. To keep it from getting stale. And now those politicians are trying to feed us De-hydrated mail!

They say we're saving plane space by using de-hydrated mail. But I'd rather get a first class letter. Even though it is a little stale!

They say if our folks use V-Mail then they'll be doing all they can. But I'll tell the folks if they do. Then morale won't be worth a damn!

For whenever we read a V-Mail it's hard on the eyes and mind. And if we had to read them all the time. Then the troops would all go blind!

So why don't you wise up. And send us our mail by air? And we'll send you a V-Mail from Tokyo. Just to keep things fair and square!

The following poem was sent to Mrs. Ben Westendahl by her brother, Cpl. Gerald Candler, U. S. M. C., from the Pacific area.
