SUPPOSE TH T YOU COULD FLICK A SWITCH AND GET A SIZZLING STEAK

Be wonderful, wouldn't it?

But steaks are scarce and expensive. Steaks are rationed. Steaks have gone to war. There are good reasons why.

But is it any less wonderful that you CAN still get electric service at the flick of a switch-without shortage or rationingat low pre-war prices—when vast amounts of electricity have gone to war tlants?

Our folks have done their war jobs so quietly and well that it's easy to take 'em for granted. But we hope that you won't.

What you CAN take for granted is the fact that your friends in this company will provide plenty of low-cost electricity to run the mechanical marvels in your post-war home.
