Chairmanship of Frank E. Tripp, is recent weeks, demand was not very Mrs. Jack Johnston, Spokane, ard proving most helpful to our program, broad, but offerings were light and rived Monday to spend a few days and all of us here at the Treasury this made for firmness. California at the home of her parents, Mr. and sincerely appreciate the outstanding farm stocks of wheat were reported support that newspapers are giving as somewhat heavier than in other recent years, but growers were generally marketing remaining supplies very slowly. Scarce local supplies were being supplemented to some extent by receipts of Intermountain and Pacific Northwest wheat for

both milling and feed purposes. On the cash market at Kansas City, scarcity of adequate spot offerings provided buoyancy of prices for carlots of hard and dark wheat. Mill buying was good for all types suitable for grinding requirements and to secure cars for reloading with flour

Offerings of wheat in the cash market at Minneapolis was very light since only 519 cars of all kinds were received. The trading basis was about 1c per bushel higher, and steady. Mills were active buyers, needing box car equipment even more than the grain it contained. Inspections showed 21 cars of winter wheat and 50 cars of durum on the week's receipts.

Severe drought and smaller acre-

age have reduced the 1944-45 wheat crop in Australia and Argentina. Preliminary estimates place production in these countries at 217 million bushels, compared with 358 million bushels harvested in 1943-44, and 397 million bushels the 1933-42 average. Carry-over stocks at the beginning of the season were considerably less than last year, but more than three times the 10-year average of 97 million bushels.

With larger crops in the United States and Canada, production of in 1944, compared with 1.482 million in 1943 and 1,510 for the 10-year are incomplete.

The C. C. C. reported 1944 wheat crop under loan, on January 6: At Kansas City, 69,885,000 bushels; Minneapolis. 50,870,000 bushels; all others, 44.518,000 bushels, making a total of 165,273,000 bushels, compared with a total of 101,725,000 bushels of the 1943 crop under loan

## Lighting Research is "MOVING the SUN"

HIS could be your living room of tomorrow, except for one thing—instead of moving your furniture outdoors, you can bring sunshine indoors.

Yes-you will be volenced by all the benefits of sunshine, day or night, winter or summer—thanks to the research which has re-created the beneficial rays of sunshine and the sethem available at the snap of an electric switch.

- ★ Softer, more abundant light for easy seeing.
- \* Ultraviolet that produces essential Vitamin D.
- \* Short-wave ultraviolet that kills germs.
- ★ Soothing, penetrating heat.

Why not plan now to enjoy all of the priceless benefits of sunshine in your home. Because any home, old or new, can have this modern kind of lighting when the war is over. Please feel free to ask us for advice.

Don't Waste Electricity—Use its Benefits Wisely.

Sports

Third quarter score 22-14, Kendrick Final score, 25-18, Kendrick. Kendrick committed 12 fouls, Lewiston 9.

Lewiston started the scoring by converting a gift toss. Kendrick then took the lead and was never headed throughout the game.

The Lewiston squad consisted of five from the A group and five from the B group. Lewiston, for some reason did not send their entire A squad, which was a disappointment to the for the game, the gym. being almost! completely filled.

Cattle lice, between now and

The signal! Well, God, I'll have to go; I like you lots, this I want you to Look, now, this will be a horrible fight -Who knows, I may come to your house tonight.

Well, I have to go now, God. Good-Strange, since I met you, I'm not afraid to die! — Author Unknown.

On Wednesday, January 10, Mrs. Glen Betts received a letter from her son-in-law, Pvt. Donald E. Christensen, who is with an infantry de-tachment in Germany. The letter was dated December 7th. He stated that he had received some mail that day — the first since he left England.

He is back with his outfit again, after spending some time in the hospital with a cut hand.

Mrs. Adella Christensen received a telegram Wednesday stating that her husband, Pvt. Donald E. Christensen: was slightly wounded in action in Belgium, December. 23. Further details are lacking at this time.

Why G. I. Mail Is Often Late There are good reasons why all mail service from overseas is speed-It knocks the spots out of gloom direction, Ninth Service Command with such engaging stars enacting officials point out.

> the army's efficient postal service. The most important factor in delay, they say, is the rapid advance and constant shifting of our troops. Letters destined for overseas, therefore, usually must go through

vals. However, on either side of an ocean it must wait for transportation and daily letters will accumulate as long as the mail must be held for

we have a stove fixed up and I have a pretty nice set-up. It's just about the best break we've had since we started, but we'll probably move out of it any time. This is almost too good to last. Of course we are in the front lines but it's coment with walls. Air mail, too, must wait. If planes are available, the oldest air mail is shipped. When a fast surface vesser is about to make a journey, sufficient letters, including delayed air mail letters, are carried to clear the backlog. As a consequence, letters may front lines, but it's cement with walls two feet thick, practically a fort, so patches immediately followed: surface shipments will reach the ad-

Personnel abroad are being advised to encourage their correspondents at some home made candy that was home to use V-Mail. V-mail always really devoured fast by the fellows — moves by air, is faster and, above but I've learned to take care of my- all, eliminates usage of valuable cargo space.

Every effort is made to deliver lege. I thought it was very good. It was found on a dead soldier in Italy, whose identity has not been established.

However, evacuation to a hospital means mail must be forwarded from its original destination. This may be complicated by another series of Guess I'd better stop writing and copy the poem for you. I'd send the original but I want to keep it. Bye

Mail from home, even a few lines a day, is the greatest morale builder in the world. Keep those letters com-Look, God, I have never spoken to ing, and try to understand the delay in receiving supplies, is the advice of the army postal service.

It may take time, but wherever the army goes, the mail follows.

Many Cattle Have Lice

Observations in various parts of your sky figured right then they had told can easily be controlled by dusting me a lie. or spraying the animal with Rote-Had I taken time to see things you none Dust (commonly known as peaweevil dust) states Reub Bauer,

county agent. An animal infested with lice is usually unthrifty, it will not produce later to get all the newly hatched Moscow. maximum results from the feed it lice. consumes or it may refuse to eat a full day's ration.

Cattle lice are of two types, the biting louse usually found on the upper portions of the body, and the sucking louse, usually found on the under sides of the body and about Well, I guess there isn't much more the face. Both types create an irritating effect, causing the animal to to say,

ritating effect causing the animal to

But I'm sure glad, God, I met you rub and producing a restless disposition. In severe cases hair will shed, leaving parts of the body exposed to the weather, thus endangering the animal with colds and pneumonia. Cattle lice, between now and late spring, will multiply rapidly so that an animal slightly infested now may be heavily infested by spring. Therefore, all animals should be treated now to avoid this heavy infestation later.

To treat animals, the Rotenone dust-powder can be sprinkled over the animal and rubbed under the Though I wasn't friendly to you hair by lightly brushing against the before, properly dust an animal on its under your door?

your door?

side, a porous bag may be filled with Rotenone and by gently tapping the body. A good dust blower may also be used to treat the animais, especially if a considerable number
