Buy St. Maries Farm Word comes from Mr. and Mrs.

W. F. Behrens, former residents. who the past five years have lived at Spokane, that they have purchased a farm at St. Maries. In a letter Bill says:

"We have purchased a fine 207acre farm three miles north of St. Maries, where we will now move. This soil is all under dike No. 5, all level and deep, rich black soil. We have the St. Joe river at hand (the finest of trout streams), then the thousands of ducks, chinks, etc. —and what more can a person ask for. In the city it is just a mad rush for existence.

Today, in America's Army General Hospitals, there are men who ask for water . . . and must wait. There are men who need fresh surgical dressings or bandages . . . and must wait.

Every day, a parade of stretchers more than a mile and a half long brings one thousand more wounded veterans home. But even now, our hospitals are dangerously short of women medical technicians . . . and nurses are over-burdened to the point of nervous breakdown.

Must our men endure unnecessary pain, and discomfort, and bitterness, because there is no woman's hand to help them? These may be cruel words . . . but they are printed only to tell you that this is one responsibility we must meet-NOW.

America has plenty of hospitals. Plenty of comfortable beds, and clean white sheets, and medical equipment of every kind. What we need-and need desperately-are women to serve as Medical Technicians, in the Women's Army Corps. These women will be trained in the finest of schools . . . trained to handle a dozen kinds of specialized hospital work. They may serve with other women of their own localities, if they wish, in some designated hospital where returning men from their own communities are being sent. As they put on the uniform of the WAC Medical Technicians, these gentle, compassionate women will bring the greatest gift of human kindness to the men who have fought our war.

Mail the coupon below. Don't wait . . . don't wonder . . . don't hesitate. Clip the coupon, sign it, mail it, and get the facts. Your inquiry will not obligate you . . . but it will speed the process of sending help to the wounded.

224 S. W. Temple St.

Sall Lake City, Utah

PLEASE send me full information about the WAC MEDICAL TECHNICIANS and the Purple Heart Units now being organized.

WHAT YOU GIVE:

As a WAC Medical Technician. you will give care, and comfort, and relief from pain, in many wonderful ways. You may help with blood transfusions . . . or assist a helpless man to eat . . . or aid in keeping medical records. As a Surgical Technician, you may wear a sterile mask and work in the operating room ... or assist in a surgical patient's care. As a Medical Stenographer, you may write the doctor's case records. And every duty is noble work, indeed.

WHAT YOU GET:

Upon your enrollment, you will get the usual six-weeks basic training. Then come six additional weeks in some specialized training school. You get the full wardrobe of distinguished WAC uniforms. Your medical, dental, and hospital care will be free. All rights of military service, including those of the G. I. Bill of Rights, are yours in full. You'll have a happy, well-ordered life among people you know . . . and you will build a career with fine opportunities for postwar progress.

CAN YOU MEET THESE REQUIREMENTS?

You do not need hospital or nursing experience to join the WAC Medical Technicians. If you are between 20 and 49, an American citizen, in good health, with no children under fourteen, and have had two years of high school (or equivalent), you are fully eligible. If you have had special training of suitable kind, there will be especially attractive openings for you as a WAC Medical Technician. The coupon will bring you full details. Mail it NOW!
