## EAN-UP! PAINT-UP!

When spring rolls around our thoughts naturally begin to revolve about the problems of cleaning up and painting up our homes - both inside and out — and that is as it should be.

While paints are not too plentiful, we have a very good selection of Kem-Tone, Wall-Tone and Kalsomine for walls and ceilings — and a good selection of interior enamels, stains and varnishes for woodwork and floors.

For exterior painting, as in the past, we handle Fullers — since '49. Most all the standard colors are still available. However, we suggest that you make your purchase early.

For that house cleaning job you will find waxes, polishes, cleaners, etc., on our shelves. These items lighten the labor for "the little woman" and their cost is very little.

Team Has Picture Taken The basketball team went to Troy Monday afternoon to have their pic-ture taken for the annual. They were taken in Millard's and Brocke's cars.

## IS LIGHTNING ZIG-ZAG

Old Jupiter's lightning was Z-shaped. Today's lightning-fast cameras prove that it really flashes beautiful curves. Shows how weather bears watching, and now in Spring, so does the car that must last you! It's time to drain unfit Winter oil, and you'll get far more than an oil change by having your engine's insides OIL-PLATED.

All you need is Conoco Nth motor oil to bond OIL-PLATING direct to working parts-really a built-on layer of lubricant. This special wear protection-a great research achievement-is surfaced to metal by Conoco Nth oil's strong "power of attrac-tion." And Nth oil provides tough liquid film, too.

OIL-PLATING and oil film are both fighting wear every mile.
