Rev. Roy Murray left Monday for Spokane where he entered a hospital to undergo surgery.

Mr. and Mrs. P. G. Candler of Kellogg arrived here Monday at noon to spend several days visiting immediate members of their family and with other relatives.

Wickliffe R. Smith arrived home Monday from Leadore, Idaho, where he was superintendent of schools during the past term. After a few days here looking after business matters he will leave for the east for a visit with relatives and friends. He expects to go as far east as Boston, Mass.

Mrs. June Greene and Miss Yvonne Hunter were week-end guests at the home of Mr. and Mrs. Asa Choate, Sr., at Teakean.

Mrs. George Jones and children of Uniontown arrived last week to visit at the home of her parents, Mr. and Mrs. Wade Keene, and to attend the Graduation Week activities.

Russel Smith was a Moscow visitor Thursday, Friday and Sunday.

Arthur Fraser arrived home from Walla Walla last Friday, then went on to Spokane for a physical examination. He will remain at home this week to view Commencement activities.

Mrs. Flora Lenhard and Earl Rusco, Princeton, spent Saturday and Sunday here in the Everett Fraser home.

Roy Conger was an Orofino visitor Wednesday on business.

Miss Evelyn Farrington, Clarkston, spent Monday night and Tuesday in Kendrick with relatives.

Declamation Contest

Last Friday evening in the High school auditorium the Kendrick grade and high school held a joint Declamation contest. The classes and contestants were as follows:

Class A —
 Ronald Craig "My Shadow"
 Janice Christensen "The Picture"
 Joyce Armitage "Animal Crackers"
 Bernadine Glenn "We Thank Thee"
 First, Ronald Craig; second, Janice Christensen.

Class B —
 Buddy Holt "Nathan Hale"
 Gordon Murray "Independence Bell"
 Bobby McCall "The Strange Man"
 Marilyn Schupfer "Seein' Things"
 Mark Murray "A Nautical Ballad"
 First, Gordon Murray; second, Marilyn Schupfer.

Class C —
 Patricia Brocke "The Limitations of Youth"
 Patricia Noble "Seein' Things"
 Austin Blankenship "The Raggedy Man"
 First, Patricia Noble; second, Patricia Brocke.

Class D (Poetry) —
 Beverly Schupfer "The Barrel Organ"
 Ida Siflow "The Death of the Hired Man"
 Wilma Cuddy "The Congo"
 Annabel Cuddy "The Mountain Whippoorwill"
 Cleo Knykendall "The Highwayman"
 First, Wilma Cuddy; second, Beverly Schupfer.

 Jack Benscoter "All Gold Canyon"
 Agnes Baker "The Last Leaf"
 June Brown "Night of the Storm"
 First, Patty McCreary; second, Agnes Baker.

Attendance Not Large
 One of the smallest crowds ever to attend Baccalaureate services in Kendrick was in evidence Sunday evening at the Methodist church. Nearly always there is an over-flow of spectators, but this year, whether due to the smaller class or the inclement weather, attendance was quite light.

At the "Class Night" program Monday evening the attendance was very good, although the big gym could have held more people. The program was greatly enjoyed — it is something new here — and those in attendance found it quite pleasant.

Commencement, as usual, found the gym packed to the rafters with well-wishers, friends and relatives. The program for these events appeared in last week's issue of the Gazette.

Piano Recital
 Mrs. H. C. Schupfer will present her pupils in a piano recital Sunday afternoon, May 27 at 3:00 o'clock in the Methodist church.

Those taking part are Judy White, Jeanette Cridlebaugh, Maxine Slind, Danny Crocker, Patty McCreary, June Brown, Nancy Callison, Mary Beth Benscoter, Peggy Cox, Roger Jones, Chloe McKeever, Carrol Matton, Anita Johnson and Barbara Perry.

Senior Dance Scheduled
 Thursday evening (tonight) the Senior class of K. H. S. is having its final fling at merry-making. The class has engaged the same orchestra that furnished music for the Junior Prom — and are holding a public dance.

Members of the class canvassed the town for advance ticket sales to insure their financial security, as no time would be left in which to make up a deficit, should it occur.

Elected To Mortar Board
 Miss Lois Deobald, daughter of Mr. and Mrs. W. B. Deobald, Kendrick, has been elected a member of "Mortar Board," honorary for Senior women of high scholastic standing. Miss Deobald is a student at the U. of I.

Farewell Picnic Held
 A farewell picnic was held in honor of Everett Heimgartner, at his home in Clarkston, Sunday. He is leaving for army service soon. Many friends and relatives from our community were present. A pleasant day was enjoyed by everyone.

Leave It To The Japs
 Jap chemists are said to have created a "wonderful new food" of rotten wood. Well, if they can swallow their own propaganda, the new food should go down easy!

THIS TAKES GOOD MANAGEMENT!

It's a neat feat to navigate a windy corner with a pile of packages and keep skirts down to a modest level.

We're facing a somewhat similar problem during these stormy war years — carrying bigger power loads, higher costs, heavier taxes — and still keeping PRICES at low pre-war levels.

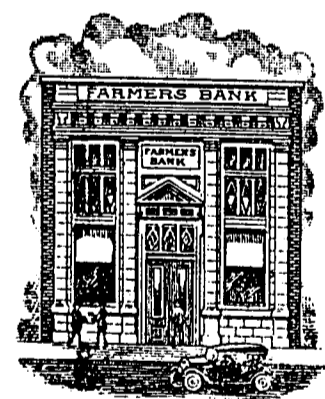

We're rather proud that electricity hasn't been rationed and hasn't gone up, like so many household necessities. In fact, the average family actually gets about twice as much electricity for its money today as it did 15 years ago.

This takes good management, too.

Save By Repairing

Approximately 50,000 canteens, listed as "critical" by the Army's Quartermaster Corps, are repaired each month at the repair sub-depot at Ogden, Utah. An average of \$20,000 a month, based on the cost of new canteens, is saved.

THE OLD JUDGE SAYS...

MARY: "Jim, didn't you say you wanted to ask the Judge something about grain, the next time you saw him?"

JIM: "That's right, I did, Mary. Is it true, Judge, that distillers recover part of the grain they use in making war-alcohol?"

OLD JUDGE: "That's absolutely true, Jim. Wherever the government has permitted distillers to purchase the equipment neces-

sary to reprocess the used grain, at least 50% of the feed value (25% by weight) of the whole grain is recovered. It comes back to farms like yours in the form of premium-quality livestock feed... rich in vitamins B₁ and B₂."

JIM: "Is the same thing true when distillers are permitted to make whiskey, Judge?"

OLD JUDGE: "Yes, every bit as true, Jim."

Snowplane Equipment Added
Game counts and winter patrol work of the Idaho fish and game department have been aided by the addition of a "snowplane," says a dispatch. The vehicle is driven by a propeller mounted at the rear and can run on snow or bare ground. Where there is snow the "doodle-bug" runs on skis. When on a bare surface it moves on small rubber tires. Three men and their field equipment can be carried in the cab. If two men are carried they can take supplies for a longer stay in the hills where the equipment will be used most of the time. Although it can be taken from one part of the state to another on its own power, the plane will be hauled by truck in most instances when the route is on a highway. The first job on which the snowplane is being used is a count of game on Payette river and in Bear valley, northeast of Lovman. It will be used in other parts of the state on numerous activities in the remote sections where travel is difficult in winter months. Herman Koeppes, range examiner and big game supervisor, is in charge. Tractor-type snow-mobles have been used by the department for several years, and they are still in service. The snow-plane is said to be more efficient in certain snow conditions that frequently prevail.

Household Waste Fats Needed
Homemakers of town and farm are again asked by the War Food Administration to come to the rescue of a war-time program. WFA states that it is looking largely to the people in agricultural areas to increase the quantity of salvaged fats this year to the 250,000,000 pounds needed to meet United States military, industrial and civilian requirements. Last year housewives turned in 170,000,000 pounds. WF. advises and asks all housewives to keep a tin can in a handy spot in which to pour the used cooking fats. When the can is full — can and all — should be taken to the local market where the butcher or grocer will pay two red points and up to four cents a pound for every pound turned in. Salvaged fats are used to help make munitions, medicines, synthetic rubber, military and civilian soaps, parachutes and scores of other war-time necessities.

Enough wood to build a new home grows in America every 12 seconds.

EDITOR CLEM
By Ralph Kemp

"It's powerful nice to edit this copy without havin' to clear with Tojo, and ifn you folks buy 'nough War Bonds we won't ever have to. Remember there are 35 million of 'em to beat."

About That Pocket Knife
The mystery of where that pocket knife you wanted to buy has gone is cleared up by an announcement of WFB. To meet the urgent need of bomber crews, ski troopers, sailors and other members of the Armed Forces for pocket knives, employment in the pocket knife industry must be expanded to a point that will permit production in the first half of 1945 of approximately 5,000,000 pocket knives per quarter. Each pocket knife is a miniature engineering project. Making the simplest kind of knife requires about 40 separate operations, while a more complicated four-bladed knife, containing some 20 pieces, requires about 100 operations.

Buy at least an extra \$100 bond during the Seventh War Loan Drive, which begins May 17!

Morgenthau Cites Types of Issues Issued to Public

A grateful Nation has girded itself for the eighth, seventh War Loan for 14 billions of dollars, half of which has been assigned as the individual sales quota. According to reports from state chairmen reaching Ted R. Gamble, national director of the War Finance Division of the Treasury in Washington, the Nation is ready for the huge task. Mr. Gamble was enthusiastic about results. He said "We're prepared to do the best job in the 7th War Loan." Mr. Gamble said that "not only is there more money available than ever before in each state, but individual income will be higher in the period of the 7th War Loan than in any previous War Loan period."

MORGENTHAU

Secretary of the Treasury Henry Morgenthau said seven billions of dollars has been assigned as the quota for individual investors and that the major emphasis throughout the drive will be placed on the quota for individuals. The individual quota is the highest established in any of the previous drives, the secretary said. The E Bond quota alone is 4 billion. The 7th War Loan seeks nearly as much in the one drive as was asked in the first two drives of last year which were held up to this time. The two drives of this year, therefore, will seek nearly as much as was sought in the three drives of 1944.

The Secretary stated that there is every evidence that Federal expenditures are going to remain at a high level for some time to come, and that the Seventh War Loan program was designed to obtain maximum funds necessary to prosecute the War from non-bank investors. The securities, which will be sold under the direction of the State War Finance Committees, are as follows: Series E, F and G Savings Bonds, Series C Savings Notes, 2 1/2% Bonds, 2 1/4% Bonds, 1 1/2% Bonds, 7/8% Certificates of Indebtedness. The 1 1/2% Bonds will not be offered in the Drive to corporations.

The Drive for individuals will extend from May 14 to June 30. However, an intensification of activities in the sale of Series E bonds began April 9, when millions of persons on payroll savings plans throughout the country were asked to enlarge their participation as a part of the Seventh War Loan. All Series E, F and G Savings Bonds and Series C Savings Notes processed through the Federal Reserve Banks between April 9 and July 7 will be credited to the Drive.

During the final phase of the Drive which will cover the period from June 18 through June 30, subscriptions will be received from all other non-bank investors for the 2 1/4% and 2 1/2% marketable bonds and the certificates of indebtedness.

True or False

Test your knowledge of your Government's War Bond Financing program. The answers to these questions, given at the end, should be known by every American. How good are you?

- 85 million Americans have purchased Series E War Bonds.
- 84% of all the money ever invested in E Bonds is still invested in them.
- If a Bond is lost, stolen or destroyed, it is just the same as if the owner had lost the money he invested.
- E Bonds may be cashed at any qualified bank for their full cost any time after 60 days from date of issue.
- The U. S. Government's promise to redeem War Bonds any time after 60 days from date of issue is just as strong as its promise to stand back of a dollar bill.
- You have to hold a Bond the full ten years to get any interest.
- The lowest-priced War Bond costs \$25.
- War Bonds are better than cash.
- Two persons cannot own a War Bond jointly.
- The only reason we should buy War Bonds is to help pay for food, ammunition, etc., for the armed forces.

ANSWERS

- True.
- True.
- False. War Bonds are registered in the names of their owners, and lost Bonds can be replaced.
- True.
- True. Compare wording on a Bond and a bill.
- False. Your Bond increases in value after one year. See the values on the back of the Bond. But you get a greater increase in value the longer you hold a Bond, up to \$1 at the end of 10 years for every \$3 you paid.
- False. A \$25 Bond costs \$18.75.
- True. They can be replaced if lost, they increase in value and they can be converted into cash in case of need.
- False. War Bonds can be owned by two people as co-owners or as owner and beneficiary.
- False. Your savings invested in War Bonds will also help to stabilize prices now and to provide for your own security in the future.

Allotments To Be Reduced

With civilian supplies of meats, sugar, butter and canned fruits and vegetables at the lowest point since the war began, OPA has announced two actions designed to bring the industrial use of rationed foods into line with the smaller supplies. Industrial users include bakers, manufacturers of beverages, medicines, fruit spreads and manufacturers of other unrationed products in which rationed foods are used as ingredients.

General has natural supply and transportation advantages in this market. On the other hand, all nine Conoco refineries are east of the Rocky Mountains. And anticipating intense postwar competition, we feel compelled to concentrate our distribution investment in areas where we are at no economic disadvantage.

In the future, General Petroleum Corporation will seek to supply our former customers here.

You and the Conoco Mileage Merchant—and we—have been friends. We've enjoyed it. As a way of expressing our thanks to you—as a way of keeping faith with him—we make this friendly suggestion: Just keep right on going to the same man—at his same station—and continue to get his fine personal service.

Writes War Poem

Jerry Blum, 11, fifth grade student at the Franklin School, Pullman, and a son of Mr. and Mrs. Gus Blum, former Kendrick residents, composed the following poem and recited it to his classmates on V-E Day:

The Second World War
On December 7th, forty-one,
Our part in the World War was begun
And the people were heard to say,
"This is to be a terrible day."
Hawaii was an island fair
With hundreds of people living there,
With people who were brave and free
And working hard for liberty.
The Japs were cruel as they could be:
They did not want us to be free.
They wanted the world to belong to them,
And to rule the earth, even all men.
Then came the Germans ready to fight,
And men were marching left and right.
Then off went the guns with a mighty sound
And many a man fell to the ground.
Holland was a country fair,
With many flowers growing there;
Children and parents all around
Tulips and daffodils on the ground.
Then came the Germans and took this place,
And marched right in at a terrible pace.
Thus they were invading soon,
Till scarcely a tulip was seen in bloom.
The Frenchmen built a Maginot line,
They thought it was so strong and fine.
But still the Frenchmen could not win.
Because the Germans came right in.
Many lands could not be free;
Holland, France and Italy,
Although the people went to fight,
And factories worked both day and night.
Then the people had a great day
When some of the Germans ran away.
Soldiers landed on Normandy's shore,
Hoping the Germans would fight no more.
Then came the Russians one spring day,
And the allies came from far away.
So they caught the Germans in a lion.
And captured nearly every troop.
The armies were just so glad to boast.
They went together and laughed for joy.
But still there's a job for every boy.
To San Francisco the delegates came
Many of them were of great fame,
To keep the peace the delegates planned,
But still some countries want more land.
The Russians have leaders to direct
The Poles.
But their leaders are not for the allies goals.
So right at the start they disagree,
Though all are seeking liberty.
Roosevelt wanted lands to be free,
And wished us all to have liberty,
And then one day he passed away,
And people were sad for many a day.
The peace with the Germans is here at last,
And many sorrows soon will be past.
Of course the Japs are fighting too,
But we'll keep right on them until we're through.

Note: The above poem was published in the Spokane Chronicle on May 12 — and we believe it well worth the re-publication here.

Little Increase in Clock Production.

Limitation Order L-275, issued on April 14, 1944, to control production and distribution of spring-driven and electric alarm clocks, has been revoked to permit manufacturers to increase production whenever the large military contracts they now hold are reduced and materials and skilled labor become available.

No sharp increase in production is foreseen, however, in the near future. Production currently is at about one-third of the pre-war rate, estimated at 12,500,000 alarm clocks per year.

Conservation Is Watchword

Proper care of radios, refrigerators, washing machines, stoves and electrical and mechanical appliances is more important today than ever before, says the O. C. D.

The increased need for war production means a delay in resuming production of household appliances and equipment. This factor, combined with the acute shortage of repair parts, makes it imperative that every effort be made to prolong the life of equipment now in use.

Householders are urged to save and care for their equipment by keeping moving parts properly oiled, taking care not to overload motors, washers and wringers, keeping all types of equipment clean, and avoid careless handling.

At the first sign of trouble, call a repair man. Don't wait until a real breakdown occurs.

To Handle General Petroleum

News of importance to local motorists was received Monday by E. M. Dammarell of Kendrick, which advised him of the purchase by the General Petroleum Corporation, marketers of Mobilgas and Mobiloil, of 65 bulk marketing plants and other marketing facilities of the Continental Oil company located in eastern Washington and Oregon, northern and western Idaho and Arizona, just announced by A. H. DePriest, vice president of General Petroleum. Purchase price was not revealed, but was understood to be in excess of \$1,500,000.00.

At the same time General Petroleum indicated that its policy will be to carry on an aggressive marketing activity in this area, and that it will utilize to the greatest extent possible the local Conoco distributing organization and facilities. Mr. Dammarell, who has been the agent for Conoco here for some years, will now distribute Mobil Products to gasoline stations, farms and industries previously served by him.

"This important transfer of properties reflects a new emphasis on the economics of gasoline distribution," said Mr. DePriest. "It also indicates an expectation of great vigor in the post war competition in the oil business."

"General Petroleum, as a major primary producer and supplier on the Pacific coast, has a naturally superior supply and transportation situation for its own gasoline in the area in which it will expand its marketing operations by the purchase of these Continental properties.

"On the other hand," DePriest continued, "we understand Continental has been at a growing economic disadvantage in this area and is concentrating its marketing investment in territory where there is a fully integrated operator and a sound original supplier. A number of Continental's nine refineries lie east of the Rocky mountains."

More POWs To Be Used

The War Food Administration announced that it has been assured by the War department that increased numbers of prisoners of war will be available this year for agricultural work. The WFA Office of Labor reported that a peak total of 85,000 war prisoners will be used in contact work in the period through July as agricultural laborers. Last year approximately 65,000 prisoners of war were available. The men will be assigned through the Ninth Service Command area of the army. The type of farm work they engage in will be determined by the directors of state extension services. WFA will request an even larger number of POWs for farm work in the peak of the fall harvesting season.

The British Empire suffered 1,043,554 casualties from September of 1939, to Nov. 30th, 1944, Prime Minister Churchill recently revealed in a message to the House of Commons. Of this number, 286,162 were killed; 386,374 were wounded, 294,438 are prisoners and 80,580 are missing.

American Prisoners say:
"WE WANT TO GET BACK AT THE JAPS!"

MATCH THEIR SPIRIT in the MIGHTY 7TH WAR LOAN DRIVE

YES, despite their long months and years of privation and suffering, those gallant men, just released from filthy Jap Prison Camps, still have their good old fighting spirit. They're itching to get back into the fight and give the Nips a taste of their own medicine.

Let's show them that we're not quitting either! Let's match their spirit with our dollars! Let's make this MIGHTY 7th War Loan the mightiest of them all!

But to come even close to matching their sacrifices, everyone here at home must buy War Bonds until it hurts. Buy double or treble the extra War Bonds you've bought in any previous drive. Remember, this is really two drives in one. In the same period last year, you were asked to subscribe to two War Loans.

So let's go, Americans. Our hard-fighting Soldiers, Sailors and Marines are giving their ALL. The least we can do is to lend our dollars.

Our Annual Meeting — Remember — Our annual meeting is coming up June 23rd. Plan now to attend this meeting as some very important matters are to be discussed and settled. There is also to be an election for two new directors. We urge all of you to attend.

Also Remember —

That with the coming of warmer weather greater care in the handling of cream and eggs must be exercised. Keep both in a clean, cool place, and bring or send them in as often as possible. Sweet cream makes the best butter. Better butter means a greater return in dollars and cents.

MORE ABOUT ARMED FORCES

(Lt. Mills has been in the states on furlough). Now that I'm this far I'll get to them if I have to "go over the hill" which I'm afraid I'd be tempted to do if they tried to put me in a different and newer outfit.

How did you all take yesterday's news? With us, at first, it just seemed utterly unbelievable and too good to be true, and then when the final announcement came we just heaved a great big sigh of relief and thankfulness. There was no shouting, no celebrating, hardly any talking; we were entirely too thankful for that. One would just turn to the other and say: "It's over." With those sighs went most of the tension we'd been living under continuously ever since our first baptism of fire way back in Africa, that November day in '42. I had no idea how much tension that actually was until news of the final surrender came. It was there in combat, in the rest areas in England preparing for what each of us knew was coming, and even while in the states recuperating. The cause, I think, was not especially fear of your own personal safety, but from seeing so many fellows pay the extreme price.

They told us before we left the states that we would be the last T. P. group to return to the E. T. O. again. Still, they made definitely sure that all of us did return. I guess I don't mind too much, though, as I had been kidding fate far too much to get much farther. According to the law of averages, my return was long past due. It's far better than the Pacific, anyway, and even if we do have to go there, we will get a longer rest.

Am still not back with the outfit, as I said, but hope to be in a short while. It is taking a little longer than I thought it would or care to have it, as long as I'm this far. We did have a nice trip, with calm water and good weather most of the time. They've been keeping us busy, however. At least they've been trying to.

Well, I'll be signing off for this time, and I'm hoping to hear from you soon.

As ever — Stan

Simple But Effective
An American flight commander in England took the opportunity of a bad day to give his men a taste of what it might be like to find their way back to an air field after a forced landing. He took them out in a bus through twisting lanes, 12 miles from base and six miles toward it. A hundred cigarettes were the prize for the first man back to the airfield. Later, the flight commander went to the orderly room to see if any of his flight had arrived. Two western sergeants had returned before him and left this pungent report: "Natives apparently friendly and using remarkably civilized methods of transport!"
