## Re-thread 85-foot Flag Pole

The cable on the Juliaetta flag pole had been broken for some time, and as the Fourth approached, it was found desirable to re-thread it. A number were requested to undertake the job, but all refused.

Finally Phil Johns, Otto and Herman Schupfer undertook the contract, and did the job from the ground by the system of running a wire through a small pipe, and gradually extending the pipe a section at a time. An elbow was used on the top length of pipe, and the threading directions called out by Herman, who stood back with a pair of field glasses, and who could see the pulley's eye.

## WILLIAM M. WRIGHT, PIONEER PASSES AWAY

Funeral services were held Friday afternoon at 2:30 at the United Brethren church, Southwick, for William M. Wright, Southwick pioneer.

William M. Wright was born on March 14, 1894 at Southwick, Idaho, where he grew to young manhood. He passed away July 10, 1945 in Spokane, Wash., aged 51 years, three months and 26 days.

On Feb. 15, 1915 he was united in marriage to Alace Wilmot in Boise, Idaho, and to this union five children were born, three of whom preceded him in death.

Survivors are his wife, Alace, of Spokane; two sons, Norman of Kelso, Wn., and Morrison of Portland, Oregon, and one grandson; a sister, Mrs. George Christensen of Lewiston, Idaho. Three half-brothers also survive: Ralph of Southwick, Idaho, Clinton of Longview, Wn., and Earl of Portland, Oregon; and four foster brothers, J. M. Cuddy of Vancouver, Wn., Ray and Arnie Cuddy of Southwick, Idaho, and Frank Cuddy of Patholoma, Wn.

At the time of his passing Mr. Wright was employed by the government as a consultant-engineer. He was a member of the Electrical union.

Rev. George Calvert officiated at the services. Hymns were sung by the Rev. and Mrs. Murray Wells of Juliaetta, accompanied at the piano by Miss Alice Fry. Pallbearers were old-time friends, L. J. Southwick, Howard Southwick, Giver Mustoe, T. J. Armitage, Elton McCoy and Darwin Tarry. Interment was in the Southwick cemetery.

## Rebuilding Warehouses

The Kendrick Rochdale Co. and the Kendrick Bean Growers Assn. are busy these days remodeling their east warehouses.

The Kendrick Rochdale Co. is installing a 70,000-bushel capacity bin. This bin, built of 2x6's laid flat, will be braced with 5-8-inch cable with turn-buckle adjustments to care for side and end stresses. The latest type of flexible grain augers are to be installed for handling the contents of the bin. These augers will connect directly with the elevator itself for easy handling for cleaning and loading of cars. The remaining space in their east warehouse will be used, as in the past, for sacked grain and beans, or baled hay.

The Kendrick Bean Growers have almost completed the remodeling of their east warehouse, including new piers, siding and roof. The siding is of the modern brick-design asphalt, which matches their other warehouses, and the whole presents a very neat and clean appearance, as well as restoring the complete use of the building.

Both managers say they expect bumper crops, and want to be ready to receive them.

## Weather Moderating

Following 95, 96 and 97 degree days all of last week, the temperature began to drop a bit, and Sunday was indeed a very pleasant day, the highest reading seen being 85 degrees. Monday, too, was "just right" in more ways than one, for the high heat was cutting seriously into the pea crops, as well as that of berries. Beans were not far enough advanced to have suffered damage, but the moisture saved by the cooler weather will undoubtedly be needed late on.

Fall sown wheat fields are rapidly turning to the golden brown that means harvest is not far away, and local warehousemen are predicting new grain before the end of the month.

## Take Paper To Spokane

J. G. and Herman Travis took a truck-load of scrap paper to Spokane Thursday for the school. There is not quite enough left of the big pile to make another load at this time, so the remainder will possibly be baled and shipped at a later date.

This shipment made three truck-loads to go out this year — which plainly shows it pays to save that waste paper.

## Move To New Locations

Sunday of this week Mr. and Mrs. R. L. Blewett moved to one of the apartments in their building, and that same day Mr. and Mrs. Herman Travis and family moved to the former Blewett home, which they purchased some weeks ago. They were assisted in moving by Mr. and Mrs. Lloyd Ware.

## Returns To Home

Gust Lucken returned last week from the Deaconess hospital, Spokane, where he had undergone major surgery.

Gust is again up and about, and says he is feeling better by the day. Following the operation he underwent a number of blood transfusions.

## NEWS FROM LOCAL MEN IN THE ARMED FORCES

Cpl. John Keeler left Tuesday to report back to his station at Gulfport, Mississippi, after spending a 10-day furlough here with his parents, Mr. and Mrs. Chas. Keeler, and other relatives. At that time John is engaged in repairing the gigantic B-29 bombers, having received his training for that work in the factory at Seattle.

While home here he said he found our climate "just right," after the heat in Mississippi, and our cool nights were perfect for "catching up on his beauty sleep."

## Arrive Home From Europe

Sgt. Jay Q. Mills and Bill Cuddy arrived home last Saturday from the European Theatre of Operations — on 30 day furloughs.

We did not see Bill, but Jay said the two were at the same camp in New Jersey, and on different sections of the same train in their journey to the west coast, but were unaware of each other's presence until they arrived in Lewiston.

Jay said he stopped off in Boise and had a nice visit with Mr. and Mrs. Dan Ziemann; and at Lewiston visited over-night with George and Werner Ziemann before coming on home.

Jay was with the Eighth Air Force, stationed in England, and wears four gold service bars, the reward of more than two years overseas, as well as the Presidential Unit Citation and the E. T. O. ribbons.

Bill Cuddy saw considerable action in France, Belgium and Germany, before arriving home for re-deployment.

Jay says the old home town sure looks sweet to him — and we bet it does to Bill, also.

c-o P. M., San Francisco June 29, 1945

Dear Bill:

It's been a real long time since I last wrote you to say "thanks for the paper." I received some the other day, which were March editions, but it was still swell to get them. I finally got straight on the ball games the fellows played this year through them. I just missed Everett Farrington, and sure would have liked to have seen him.

I finally got to the place where we do our part and it makes you feel pretty swell. Sometimes I wish I was home again during those times, but so far it's been nothing a box of dried-up K-Rations wouldn't cure.

Guess this is all for today.

As ever  
Sonny Daugherty.

## Island of Saipai

Island of Saipai, 7 July, 1945

I was glad to receive my first over-seas Gazette today, it was dated July 7th. I really missed it during the time that I was enroute.

Since I wrote you last I have traveled quite a few miles, so will left a few lines. On May 19 we left ..... for a destination in the Pacific, unknown to us. It is a rather queer feeling to be going somewhere and not know where you are going. We stopped in Honolulu for a day, but were not allowed to get off the boat, and it happened that that day was my birthday. Of all the places to be on one's birthday and not be allowed to get off the boat to see what there is to see! That is one birthday for some time. What we did see of the island and city from the harbor is very beautiful. I would like to tell

## Island of Guam

Island of Guam, Undated

I have just received my first copy of the Gazette, so you see it takes quite a while. My E. O. has been different for some time, but I didn't know if I would get the paper I did not bother to let you know of the change, which is now ..... the rest of the address is the same. I am at present on the island of Guam — but for how long I don't know.

I have read the paper I have over many times.

Sincerely  
Cpl. C. S. Wilson.

Note: Glad to hear from you, Calene, and now that we have your new A. P. O. it will probably reach you much faster.

## On The Old Pacific Ocean

On The Old Pacific Ocean July 8th, 1945

Dear Mac:

The parcel post mail has finally caught up with us and I was very glad to see some of the good old town's paper in it for me. It was quite some time, but have gotten all of them that I was behind, and I am really glad to be able to read about home in them.

I cannot say much because of the censor, but just the same I want to thank you very much for the paper, and all the rest of the folks making it possible for us fellows to get it. It means a lot to us out here.

Everything is going the best that could be expected, and I am sure

## Anti-Venom Used On Dog

On Monday of last week, Nigger, cocker spaniel dog belonging to Mr. and Mrs. Harley Eichner of American ridge, was bitten by a rattlesnake while in the field where the men were shocking hay.

There was a supply of anti-venom at the local phone office, maintained there by the W. W. P. Co., and when, after a phone call, it was ascertained the supply could be replaced immediately, Harley secured and used an ampule on the dog.

It worked perfectly, and now Nigger is as good as ever—but probably a considerably wiser dog.

## Seventh Loan Well "Over Top"

A final tabulation of Seventh War Loan sales in Idaho shows that the state has exceeded its quota both in E Bond buying and in general sales.

John A. Schoonover, chairman of the state war finance committee, announces these figures: E Bonds — Sales \$13,145,000; quota, \$13,000,000. Total bond sales — \$41,709,000; quota, \$29,000,000.

Schoonover said the total quota for the Seventh War Loan was exceeded in Idaho by a greater amount than in any previous drive.

Sales of E Bonds was greater than in previous drives and the quota was larger. "The unusually long drive period was in part accountable for the large volume of sales," Schoonover said. The drive ended in Idaho July 7th.

The state war finance chairman added: "This was the biggest job ever undertaken by the war loan sales organization. As usual Idaho has come through with flying colors. I want to compliment every man and woman who took part in this great war assignment. I congratulate every Idahoan who participated in its outstanding success by purchasing extra war bonds during the mighty Seventh."

Nez Perce county had an assigned quota for the Series E bonds of \$568,000 and sold \$640,334, or 109 per cent of quota. Total quota of all bonds was \$1,488,000, and they sold \$2,193,710, for a total of 147 per cent of quota.

Latah county had a Series E quota of \$489,000, and sold \$386,064, for a total of 79 per cent of quota. Total quota of all bonds was \$979,000, and sales were \$1,070,849, or 109 per cent of quota.

## County Roads Receive Oil

Two small surface oiling projects on state highways within Latah county were completed the past week, James Reid, district highway engineer at Lewiston says in his regular weekly report.

An oil surface treatment was applied to a 500-foot section in Kendrick to stabilize the surfacing of a sharp curve and to overcome the dust hazard. (This stretch is near the J. G. Travis home in the east part of town). At Princeton the highway was given a bituminous surface treatment over a half-mile stretch to eliminate excessive dust caused by logging trucks.

The district crew, headed by Edgar Long, rebuilt a small wooden culvert on the road between the Oscar Slind and E. H. Jones farms on Big Bear ridge.

## THURBER'S

#### New Shoe Stamp Valid Aug. 1

The new shoe stamp that OPA announced would become valid August 1, will be Airplane Stamp No. 4 in War Ration Book No. III, the agency says. Airplane Stamps Nos. 1, 2 and 3 are good indefinitely, the agency adds. The last stamp was validated Nov. 1, 1944. OPA points out that the intervals between validation of stamps depends on the available supply of shoes.

That the supply of shoes for civilians will be increased is indicated in the downward trend in the production of army footwear. The War Department announces that production of army combat boots will be reduced in September from 2,100,000 to 1,500,000 pairs, and

that of army service shoes from 700,000 to 350,000 pairs during the same period. This decreased schedule will be continued throughout the fourth quarter of 1945. Announcement at this time of the reduction in army footwear needs will provide a 60-day span during which the shoe industry will be able to prepare for increased civilian production.

To increase the serviceability of non-rationed shoes for juveniles and men, manufacturers will be permitted to use leather welts and lightweight leather insoles in these types of shoes. Straight or short-shield tips and backstays of pig-skin leather also will be permitted.

#### Maximum For Canning 15 Pounds

Fifteen pounds of sugar is the maximum to be allowed to any one person for home canning, OPA emphasizes, correcting a misunderstanding by housewives concerning home canning sugar. Only housewives planning to can enough foods to require this amount of sugar may be eligible to receive this much, and they will receive it only where the local sugar quotas permit such allocation, OPA says. In order to secure this amount, the housewife must establish to the satisfaction of her local rationing board, that she actually is going to do this much canning.

In other words, local rationing boards are empowered to allot only the amount of sugar to each individual "up to 15 pounds" required for her actual canning needs.

#### Rationing Reminders

Meats, Fats — Red Stamps K2 through P2, expire July 31; Q2 through U2, expire August 31; V2 through Z2, expire September 30; A1 through E1, expire October 31.

Processed Foods — Blue Stamps T2 through X2, expire July 31; Blue Stamps D1 through H1, expire September 30; J1 through N1, expire October 31.

Sugar Stamps — No. 36 now good. Expires August 31.

Fuel Oil — Period 1, 2, 3, 4 and 5 coupons, good for ten gallons per unit, continue valid throughout the country for the rest of the heating year. New period 1 coupon in the 1945-46 ration may be used anytime.

Shoes — Airplane Stamps Nos. 1, 2 and 3 in Book III continue valid indefinitely.

Cash — 10 coupons now good for 6 gallons each. Must last until September 21.

#### Should Fill Fuel Tanks

Announcing that powering the Pacific war will take 8,400,000 gallons more of petroleum products daily at its peak than is being used today, OPA cautioned fuel-oil users that home-heating supplies will be tight next winter, and joined in an appeal to householders to fill their fuel-oil storage tanks immediately.

Military needs for fuel oil are continuing to increase and will reach a peak this winter at the time when civilian fuel-oil needs too are heaviest. Obviously, demands on the nation's already heavily burdened transportation system will follow a similar pattern, making it imperative for householders to stock up early this summer so that dealers can refill their own storage tanks for the winter months.

#### More "Dress Print" Feed Bags

The farm woman who likes to have animal and poultry feed delivered in bags she can make into dresses and household articles, will be permitted a continuance of this war-time aid, WPE says. A ceiling approximating the 1944 peak year "cut-up" of such material, has been established on the use of dress prints for making new commercial bags.

#### Card Of Thanks

Our deepest thanks go to all those who so willingly aided us in our hour of bereavement. — Mrs. Will Wright and Family.

**CHECK YOUR ANSWERS HERE:**

1. Fiction. That's a popular local joke, but the name is actually from the Indian language and means "flowing water". Some N. P. towns and cities were named for soldiers who guarded the railway's survey parties (e.g. Custer, Miles City) ... others for early N. P. presidents (Billings, Perham, Villard, Oakes, Hannaford) ... still others for pioneer railroad workers, their daughters and wives. Eltopia, Washington was first named Eltopai ("Hell-to-pay") because a cloudburst washed out the railroad there, during construction days.
2. Fiction. The fringe, a safety device which warns trainmen on tops of cars to duck instantly, is called a "tell-tale".
3. Fiction. Fish plate was name given old-time rail fastening, now known as joint bar. It takes more than half a million of them to link the N. P. main line from St. Paul to the Pacific.
4. Fact. High, grassy plateaus in these hills once supported thousands of spirited horses. Today most have disappeared. However, Northern Pacific carries what now grown high in Horse Heaven.
5. Fiction. As the Northwest grew, many of its important population centers flourished on the Northern Pacific—thus, the line has become the "Main Street of the Northwest".

PUBLISHED BY THE KENDRICK CO-OPERATIVE CREAMERY

## WELL FOLKS —

Please try to arrange your deliveries of cream and eggs so that they will not have to be delivered on Saturday night. During the hot weather it is impossible for us to properly care for this produce late Saturday night and it deteriorates rapidly. This means less money to you, and more work for us.

Of course, we realize you are very busy at this time of the year, and gas is short, but we see different parties in town three and four times during the week, and then Saturday night they bring in their cream and eggs.

We need this produce and are certainly willing to cooperate, but we do hate to be imposed upon. We are perfectly willing to take care of any produce which of a necessity must be brought in on Saturday night. However, we cannot believe it is necessary to take care of as

much produce after 6:00 o'clock Saturday night, as we get in any other two full days of the week.

Customer: "I'd like to try that dress on in the window."

Clerk: "Sorry, Miss, but you'll have to use the dressing room."

Diner: "I want this meal put on the cuff."

Weary Waiter: "I'll throw the whole thing in your lap if you want me to."

The artist kissed his model. "I'll bet you do that to all your models," she said.

"No," he said, "you are the first."

"How many models have you had?"

"Four," he answered, "a rose, an onion, a banana, and you."

The class yell of the school of experience is "Ouch!"

### MORE ABOUT ARMED FORCES

there are some certain people (the Japs) who wish they had never heard of such a thing as war. We aboard ship hope to see this over soon and I am sure that everyone at home feels the same.

Sincerely  
Earl C. Choate S1-c.

Bob and Dick Bencoter, twin sons of Mr. and Mrs. Harry (Pete) Bencoter, left Friday for Fort Lewis, Wn., for preliminary A. A. F. processing. From Fort Lewis they are scheduled to go to Kessler Field, Miss., to begin their Army Air Corps training. They are expected to reach that point between the 23rd and 28th of this month.

The two boys enlisted some months ago, and have since been awaiting their call. Dick attending W. S. C. at Pullman, and Bob, who is married, has been employed at the Adams Auto Sale in Lewiston.

### Receives Souvenirs

Mr. and Mrs. E. E. McDowell last week received a package from their son, Cpl. Herbert McDowell, from Germany. In it were three Nazi flags of assorted sizes, one was a big fellow, another smaller, and then a little one, the latter evidently being about the size flown by a tank or some other armored vehicle. Herb. said in the accompany letter that he was in excellent health.

Note: New postal regulations for both army and navy are being given us almost daily — and we ask that the minute you have or know of a change in address for Service men or women that we be notified at once. The new regulations prohibit forwarding of second-class mail, so we must have the address if the paper is to reach its destination — and that address must be complete. For example: Ensign Robert Burns, N. A. S. Hutchison, Kansas, is incomplete for second class matter. It must also contain the squadron or flight number, or the barracks and area number.

Also, any A. P. O. numbers over 1199 are temporary. Please give us the permanent number as soon as possible. Papers will follow an A. P. O. number, but not the change from one A. P. O. to the other, as in the past.

### Passed Physical Exam

Lewis B. (Tom) Keene, was among a group of selectees going to Spokane from Colfax a couple of weeks ago for preliminary physical exams, and Tommy was among the number who passed. He expects to be called for final examination and service about the middle of August.

Official Dispatch — Lexington, Va.: Among the graduates of the 13th Education and the 12th physical Reconditioning courses at the School for Personnel Services, Lexington, Va., this week were Lt. Wm. W. Ingle, son of Mr. and Mrs. K. D. Ingle, Kendrick.

The term "Reconditioning," as used by the Surgeon General, denotes those activities beyond the scope of the usual medical and surgical treatment carried on in army service forces stations, regional and general and convalescent hospitals to prepare our sick and wounded soldiers for return to duty or civilian life.

Through physical reconditioning, the patient is given exercises to bring about a speedy recovery of the injured parts of his body. The next step is occupational therapy, which provides work for muscles grown flabby through inactivity and, at the same time, shows him that he is able to do a lot of things he didn't expect he could. Educational Reconditioning seeks to stimulate the mind of the patient to an aggressive acceptance of his own responsibilities toward his convalescence. The mental deterioration that accompanies hospitalization is compensated for by a planned program of guidance, orientation, military education, elective education and recreation in the form of handicrafts and entertainment. Every attempt is made to restore his self-confidence by practice in the business of living.

Lt. Ingle, by virtue of his graduation, is qualified to fill a key position as an instructor in the reconditioning program in one of the many army hospitals.

He spent many months in Iran and adjacent territories, so understands pretty thoroughly the service men who he will be instructing.

Lt. Deryl Ingle left last week for the A. A. F. base and redistribution center at Santa Ana, Calif. Where he will be sent from that point he does not know.

Lt. Ingle, a B-17 pilot, has completed all his missions, and was allowed a 40-day furlough which he spent here with his parents, Mr. and Mrs. H. L. Ingle, and other relatives.

Mr. and Mrs. Frank Wittman of Cavendish have received a quite interesting letter from their son, T-4 Martin Wittman, now with the army of occupation in Italy, and, have given us excerpts from it:

June 17, 1945  
Strambiuo, Italy

Dear Mom and Dad:  
Just made it back from a rest camp today, and your letter was waiting for me. I spent most of last week at a rest camp in Venice. I don't think too much of the place, but it does have some beautiful scenery and buildings. Most of the buildings are very old. Went through the Cathedral of St. Mark, it being the place where he was buried, so naturally it is very old. Aside from its historic value there is another, the ceilings are all covered with gold. We were told that it was considered one of the richest churches in the world, and after looking at the ceilings, one could believe it. And when anyone tells you that all the streets in Venice are water, they don't know what they are talking about. For there are quite a few streets, but they are not run cars or trucks on them, they are not built in that manner. The streets and canals, of course, were there a long time before cars were even thought of. Most transportation is by water, and if you don't own a boat you are lost, for you can't go far without one.

The rest camp was on an island. It is really a part of Venice, but it is called "Lido." It used to be used just for tourists, so everything there still costs a lot.

It's getting late in the evening and there is some work to do, so I had better close. I am just fine, hope all at home are too. Write again and perhaps with luck I'll be home before too long.

Love —  
Martin.

From Cpl. B. E. (Gene) Groseclose, who sends us a change of address, comes a brief note, which says: "How are things along the old Potlatch. I am sweating out the C. B. I. here the Bavarian Alps. Have 88 points, and five battle campaign stars amassed at present."

Cpl. Walter Zimmerman, son of Mr. and Mrs. Fred Zimmerman, ar-
