STATE HOSPITAL UNDER DEPT. OF PUBLIC HEALTH

Boise — At the request of Gov. Charles C. Gossett, the Idaho Department of Public Health, under L. J. Peterson, administrative director, has assumed temporary jurisdiction of the State Hospital, South, at Blackfoot. The administration of the institution by the Health department became effective July 21.

Dr. G. R. Smith, director of the hospital, who was relieved of his duties Saturday, was succeeded by Dr. L. J. Lull, medical consultant for the State Health department. Dr. Lull will be acting medical superintendent.

Placing the hospital under temporary control of the Health department came as a result of the recent investigation of conditions there by a five-man committee named by Gov. Gossett. The lengthy report was made public last week.

In a prepared statement, Gov. Gossett said: "The State Hospital, South, at Blackfoot, will be temporarily put in charge of the Department of Public Health. I am writing Dr. O. F. Swindell, president of the State Medical association, at Boise, to recommend a competent psychiatrist to be employed as the medical superintendent of that institution, and when such a man is recommended he will be employed and put in charge."

"I am also turning over to the attorney general and the prosecuting attorney of Bingham county the transcript of the testimony and the recommendations of the commission appointed by me for the investigation of this institution, for further study and investigation of any criminal prosecutions."

"I am fully determined that if any crimes have been committed against the inmates of this institution that I will ask the Attorney General, if necessary, to join with the prosecuting attorney of Bingham county to request the district judge of that district to call a grand jury to investigate the crimes."

"After reading and studying the report of the special commission appointed by me to investigate conditions at the State Hospital, South, I am putting into effect the recommendations as rapidly as possible, and as governor of the state of Idaho, I wish to state that if it is necessary to call a special session of the legislature to raise the necessary funds to carry out the recommendations of the commission, I will immediately convene the legislature in extra session to act upon these recommendations."

In accepting temporary responsibility for medical attention of the patients in the hospital and its operation, Peterson said: "The entire resources and personnel of the Idaho Department of Public Health are available to properly carry out the assignment we have been given by Gov. Gossett."

Kendrick Defeats Bengals

The Kendrick baseball team nosed out Erb's Bengals here Sunday in a well played and evenly fought ball game.

Trailing 3 to 7 going into the first of the eighth, the visitors put on a rally in that round that threatened to pull the game out of the fire for the Lewiston nine.

Kendrick piled up an early lead, scoring once in the first, three times in the third, once in the sixth and twice in the seventh. Lewiston scored one run each in the first, third and seventh, then put on a three-run rally that fell just one short of tying the score.

W. Brammer of Kendrick and Mac Frost of the Bengals hit homers, while K. Peterson, Les Ball and W. Newman clouted out triples for extra bases in the game.

Ken Peterson, filling the mound for the Bengals, fanned eight and didn't walk a man.

Kanikkeberg, occupying the same position for the home club, fanned three and walked three.

Erb's Bengals showed 6 runs; 8 hits and 12 errors. Kendrick showed 7 runs, 7 hits and 1 error.

NEWS FROM LOCAL MEN IN THE ARMED FORCES

Souvenirs On Display

Sgt. Donald K. Heath, son of Mr. and Mrs. Newt Heath, Juliaetta, has placed on display the larger part of his war souvenirs, and they may be seen in the General Petroleum Co. office (Edgar Dammarell & Son) and we want to say they are certainly worth anyone's time.

Included are three 8 mm. German army rifles, dated 1939, 1941 and 1944; a German automatic weapon which is an imitation of our own Garand rifle; a German .22 calibre single shot target rifle; a German double barreled rifle, which appears to be of about our old 45-90 calibre; a German three-barreled rifle, the upper two barrels being 16-gauge shotgun and the lower rifle, the calibre of which appears to be about 9 mm. or .35; a large German flag; pieces of a German camouflaged parachute (silk) and a goodly assortment of medals of various kinds. Also included were a couple of German bayonets.

In the same window may be seen Cpl. Walter Zimmerman's display of trophies, which include a German double-barreled shotgun, a German .32 calibre automatic pistol, which appears to be a copy of our Colt .45 or .38 super, as issued to our troops; a Russian .44 calibre pistol (if you ever saw a pocket model cannon, this one's it); a number of German medals of various kinds and sizes; a German Nazi arm band; a German compass; a German officers' army belt; German cap insignia, and to cap it all off — a folding silk opera hat!

In talking with Walt we found out the history of the shotgun, he having sent this weapon home some time ago. Here is the story as Walt tells it: "His tank was rolling through a little German village during the latter part of the break-through, when a German woman stepped out on the front porch of her home and raising this shotgun let go with both barrels at his tank. The net results of the shots were a little of the camouflage paint knocked off — and before she could reload the shotgun Walt piled out of the tank, and grabbed it — and from that minute on it was his property."

The Russian .44 pistol also has a quite interesting story. Walt says that as their tank, in company with others, rolled up to a Russian slave labor camp to liberate the prisoners, one of the Russians produced this pistol, hidden for many months, and killed one of the German guards, who he evidently hated, with it. The shot struck the German between the eyes and almost lifted the whole top of his head off. Then, says Walt, the Russian wished to get rid of the weapon, so he handed it to him. It decorated the inside of the tank until Walt left it — then came home with him.

Cpl. Zimmerman says there is no history connected with the .32 calibre German pistol. He just saw a dead German officer by the side of the road and "lifted the weapon and cartridge belt from him, as he obviously had no further use for it. Walt says he shot the ammunition and that the pistol is a good one."

The wrecked villages through which they rolled, with their abandoned homes, produced the opera hat, medals, coins, etc. He has two medals which he says are the type given German women for bearing a certain number of children — for Hitler just had to have his "cannon fodder."

The compass Walt has, he says is superior to any of our own make that he has yet seen. It is jeweled, in a bronze case, and the end of the needle pointing toward the north is luminous, as are the three north bearing or compensating marks. The lid contains a mirror, which will reflect directly on the face of the compass so that it might be seen clearly in a dim light.

We do not know the history of Sgt. Heath's souvenirs — we wish we did. Perhaps when he comes home we can tell it.

T-4 Marvin Souders arrived home last week from the E. T. O., to spend a 30-day furlough with his parents, Mr. and Mrs. Frank Souders, and with other relatives and friends.

S-2-c Norman (Porky) Fry and Wayne Arnett, arrived home last Saturday night to spend a 10-day leave at their respective homes. The boys have completed their boot training and expect to be assigned to further school or to ships on their return to San Diego. Both of them appear to be in the "pink of physical condition."

RM 2-c Ernest Brammer arrived home Saturday night to spend a 30-day leave here with his parents, Mr. and Mrs. Henry Brammer, and with other relatives and friends.

Ernest, who has seen 44 months of navy service, is enjoying his first leave in 19 months, and we rather imagine "enjoying" is the correct word.

Ernest has been riding a small coastal patrol vessel off the coast of Brazil in the South Atlantic for many months and says it's mighty fine to get home on leave and hear the English language spoken when on the shore. He is entitled to "states" service upon his return to duty, and sincerely hopes they haven't forgotten that part of it.

Ernest said he wished to extend his sincerest thanks to all concerned for the paper. It was indeed a very welcome arrival on his boat. He said after he had read it, all the other fellows did too, even though the names meant nothing to them.

It took from a month to six weeks to reach him, but always got there.

U. S. N. R. B. San Diego, Calif.

Dear Bill and Mac:

I think it is about time that I thank you and all the others for the paper. Most of the guys in my dorm. come from the big cities or towns — they get a big paper, but the little Kendrick paper is still read by all.

There isn't much that I can write about. I've been welding in 10-hour shifts since I've been at this base. Some of the ships that come in here for repairs look pretty darn bad — but we fix 'em. Just let the Japs try and wreck 'em.

This is a good base, every night is a liberty and every week-end we get off. I go to Los Angeles every week-end. I certainly don't think much of "Diego."

I don't need to say anything about California. A lot of the fellows before me have already said it! No good! It's Idaho for me!

So far I've seen one guy from Idaho, or I should say Kendrick — it was the Huffman boy.

Right now it looks like that before long I'll make a trip. Oh, well, all good things must come to an end.

This is about all I can say about things here. But this might be of some news — I married a girl from Long Beach, Wn. My wife's maiden name was Kathleen Briggs. We were married in Los Angeles. It was quite an affair. The navy even gave me a two-day extra liberty, so we sort of had a three-day honeymoon.

Well, thanks again for the paper. It is sure swell to get it.

As ever,
Milton Wilken S-2-c

Note: Mighty glad to hear from you, Milton, and congratulations. Bill Davidson, Walt, McCall, Jr., and Harvey Thornton are also at San Diego. Keep an eye peeled.

Marine Private Charles C. Davis, 18-year-old son of Ben H. Davis, 218 West Nora Ave., Spokane, is proud of his platoon. In a recent drill contest held at a Pacific base by a regiment of the veteran Fourth Marine Division, Davis and his platoon mates won first place.

The event is one of the most colorful and keenly anticipated contests within the regiment and hundreds of Marines lined the parade ground to witness the competition. Davis, who attended Kendrick High school, worked in Portland, Ore., before entering the service in March, 1945.

Receives Bronze Star

From Gen. Millikin, commander of the 13th Division, comes the following:

"Emil F. Silflow, S-Sgt., Inf., Hq. Co., A. I. B., for demonstration of merit in connection with military operations against the enemy from April 10, '45, to May 3, '45, in Germany, S-Sgt. Silflow, Motor Sgt., was instrumental in maintaining an exceedingly low rate of vehicular deficiencies in his company during operations. Because of his tireless efforts the task force to which he was attached was enabled to operate at full strength. Despite an injury, S-Sgt. Silflow performed his duties in an outstanding manner. His conduct demonstrated devotion to duty worthy of commendation. Entered military service from Cameron, Idaho." — Bronze Star.

Sgt. Bill Cuddy called briefly at the Gazette office Saturday to thank all concerned for the paper. He stated that while in France, Belgium and Germany, in combat, he received (as he remembers it) but six Gazettes, but says they were just more than welcome, and read from cover to cover and then re-read, not only by him, but by other fellows in his outfit. However, he considers the six papers a pretty good average, as first class mail was also very slow, he having received but a very few letters, despite the number he knew were being written to him.

Bill looks the picture of health. He wears the E. T. O. ribbon and three bronze battle stars.

Bill says Germany, in the farming and small village areas, is a very pretty country, with neat farms and clean villages (where they were not destroyed), but that it's Idaho for him. He likes the hills, the trees and the rolling farm lands.

Ervin Draper SK 2-c, after spending 30 days visiting his parents, Mr. and Mrs. Robert Draper, and other relatives and friends left Sunday for Helena, Mont., where he will report for naval reassignment.

Ervin has been some 19 months overseas, and hopes to draw "states" duty this assignment.

For Ray Jones, Coxn., U. S. N. R., it's just plain Ray Jones now, for last week he received an honorable medical discharge, after spending the past several months in naval hospitals, suffering with stomach ulcers.

Ray has seen some 33 months of naval service.

He says he doesn't know just how this business of being a civilian again is going to feel, but so far he is enjoying it to the limit, especially the home cooking and real beds.

Pfc. Tommy Brown left Wednesday morning for Portland, where he will spend several days visiting his father and sister. From there he will go to Fort Lewis, to enter the convalescent hospital there. He has been home on furlough for the past 45 days.

Lt. Wm. A. Deobald left Wednesday morning for Camp Beale, Calif.

Fire Thursday On Little Bear

Thursday morning the local fire warden's office was notified of a fire raging on Little Bear creek, near Troy, and Clarence Ferryman, deputy warden, the local section crew and several volunteers from here responded. The fire was along the railroad tracks, and raced up the small timber and brush toward Burnt ridge.

The local fire fighters were joined by all the farmers in that area and a goodly number of volunteers from Troy, and by evening the blaze was under control — a total of about 80 acres having been burned.

It is believed hot brakes from a passing train started the blaze.

WALTER LOVEDAY joined Water Power in 1923 as a mechanic in the garage. In 1927 he transferred into the operating end as an electrical mechanic's helper at the Post Falls hydrogenerating plant. He rapidly became expert in keeping the big generators running smoothly, and in 1934 was made a wheelman at the Upper Falls hydrogenerating plant. There he serves you through long watches of the night, so that you may have light when you wish it... and your morning coffee and waffles!
Walt, the "Wheelman,"* and his pals at the hydro-generating stations of Washington Water Power are important factors in the production of the dependable, inexpensive electricity you use to cook that appetizing breakfast. Night and day they're on the job, and at your service.
Walter Loveday was just a young man with an aptitude for mechanical things when he came to work for Water Power 22 years ago. Now Walt is an expert wheelman. It is his job to see that the great generators keep humming in well-oiled content. The generator is the heart of hydroelectric production. It transforms the power of rushing waters into steady streams of electrical energy to serve your needs.
Washington Water Power and its workers have blazed trails for the pioneer past, and we are going forward together—Trailblazers always!

He: "Do you shrink from kissing?"
She: "If I did I'd be nothing but skin and bones!"

A clergyman was being shaved by a barber who had evidently become unnerved by a previous night's dissipation. Finally he cut the clergyman's chin. The latter looked up at the barber reproachfully, and said:
"You see, my good man, what comes of hard drinking."
"Yes, sir," the barber replied consolingly, "it sure makes the skin tender, don't it?"

Son: "Say, Dad, what does it mean when the paper says some man went to a convention as a delegate at large?"
Dad: "It means his wife didn't go with him, son."
