VOLUME 55

KENDRICK, LATAH COUNTY, IDAHO, THURSDAY, AUGUST 2, 1945

NO. 31

PERSONALS AND NEWS ABOUT KENDRICK FRIENDS

Mr. and Mrs. Arthur Fraser, accompanied by his grandmother, Mrs. Elma Scott of Walla Walla, drove up Saturday evening to be with the Everet Frasers over Sunday.

Mr. and Mrs. Robert Bakken and family are in Spokane, where Mr. Bakken has employment at the naval supply depot. They will remain there until school starts.

Mrs. A. O. Kanikkeberg and daughters, accompanied by her niece, Joyce Rodney, left Monday for Seattle, for a visit with relatives.

Mr. and Mrs. E. M. White and daughters were callers in the Walter May home Sunday evening.

Mr. and Mrs. Herman Schupfer and daughters left Saturday for Seattle, where they will spend a short vacation.

Carol Mattoon spent Sunday with Mrs. Walter McCall.

Miss Marion Lowry arrived last week to spend some time with her sister, Mrs. Marvin Long. Miss Lowry came from Seattle, where she has been attending the University of Washington.

Miss Marion Schupfer, accompanied by Miss Betty Boyd, will leave Saturday for Los Angeles. Betty will enjoy a month's vacation, while Marion will take up her old work in that city.

Mrs. Herman Travis and children are spending the week visiting in the home of her parents, Mr. and Mrs. George Christensen, Lewiston.

Mr. and Mrs. Floyd Millard had as their guests over the week-end her mother, Mrs. J. C. Eulen, and her uncle, Clarence Osburn, of Cullisac.

Mr. and Mrs. R. L. Blewett and son Billy came over from the ranch Monday evening to stay over Tuesday.

Mrs. R. A. Cross of Spokane, a daughter of Mrs. L. S. Thurber, spent three days at the Thurber home last week. On her return to Spokane she took her daughter, Sarah, who had been visiting her grandparents for the past two months, home with her.

Mr. and Mrs. Kenneth Powell and children spent Sunday and Monday in Spokane, visiting friends and on business.

Mr. and Mrs. Roy Ramey and daughter Jean left Monday to spend several days at the Bungalow on a fishing trip. On their return Roy will leave for Missoula, Mont., where he will enter the railway hospital for minor surgery. Mrs. Delpha Broemmeling of Genesee is acting as relief operator at the local depot while Roy is away.

Miss LaDonna Galloway of Seattle arrived here Monday afternoon to spend some time visiting friends and relatives. She accompanied Sgt. Lloyd Israel here, he having been in Seattle visiting at the Galloway home and with other friends.

Mr. and Mrs. Clarence Hund and children left for their home at Renton, Wash., Friday afternoon. They went by the way of Lewiston, spending Friday night with his folks, Mr. and Mrs. E. L. Pearson.

Mr. and Mrs. E. V. Weeks of Seattle, arrived in Kendrick Sunday to spend a few days visiting and looking after business interests. They are returning to their home today (Thursday). Mr. Weeks is still employed at the Boeing factory in Seattle, where he synchronizes and test fires machine guns.

Mr. and Mrs. Paul Lind went to Teakson Wednesday to visit with the John Linds.

Mrs. Ray Hathaway left for her home in Ellensburg, Wn., Wednesday morning, after having spent 10 days here with her mother, who has been ill.

Mr. and Mrs. Wade Keene had as Sunday dinner guests Mr. and Mrs. E. A. Deobald and son John and Mr. and Mrs. Tom Keene and son Rickie. Henry Emery arrived in town Wednesday to do some cleaning-up at the school house in preparation for the opening of school this fall.

Really Pumping Water

To get some idea of the large quantities of water consumed in Kendrick during the past week of hot weather, look at these figures — From July 23 to July 30, the city pump put out 338,265 gallons of water — and that does not include the spring water flowing by gravity into the system.

The springs, as near as can be determined, are pouring 45 gallons per minute into the system, which gives a total for the week of 453,600 gallons. The combined total of springs and well adds up to 791,865 gallons in a week! Real water consumption for a town of 463 population.

The results of this water, however, are clearly discernable about town, as lawns are green and smooth and the city park in tip-top shape.

In years gone by the watering of lawns had to be curtailed during the dry season, and as a result showed only a pale green.

Yes, the city well really means something to Kendrick.

Home Nursing Course Offered

The Red Cross is offering a Home Nursing course here, to start Monday, Aug. 6, if there are enough women enrolled to make it possible.

It will be a 12-hour course, spread over a two-week period. The tentative plan is to meet in the evenings for a two-hour period, three times a week.

This is a wonderful opportunity for mothers, and it is hoped many will take advantage of it. All those interested contact Mrs. Everett Fraser at Lone's Store and she will enroll you. Contact her not later than Friday evening.

Kills Big Coyote

Saturday morning of this week as it was just breaking day, Archie May heard his dog growling, and raising up in bed to discover the cause of the commotion, spotted a big coyote sitting on a hill-top against the sky-line about 200 yards away.

Archie piled out of bed, grabbed his trusty "gas-pipe special," fired, and when he came to town that day exhibited a fine coyote hide. He says he's going to collect the \$5.00 bounty to pay for the nine chickens missing on the ranch — and then get what he can for the hide.

FIRE CONSUMES TWO BARN, CONTENTS; AND LOG HOME

Thursday of last week was indeed a very busy day for the local fire wardens, Henry Jones and Clarence Perryman, and a very unlucky one for Wilbur Corkill, Stewart Wilson and Lester Weaver.

That morning about 4:00 a. m. the big barn on the Wilbur Corkill place, containing somewhere between 70 and 80 tons of chopped hay, was discovered to be ablaze. Little could be done except save the other building on the place and extinguish any falling fire brands. Some stock was in the barn, but doors were open and all made their way to safety. Wilbur believes dust from the chopped hay falling on a hot light globe was responsible for the blaze. Some insurance was carried.

That same evening (Thursday) about 6:00 o'clock fire broke out on the Stewart Wilson place on Cedar creek, where a hay chopper was in operation, the hay being blown directly into the barn. A spark from the engine, or possibly within the machine from a rock, is believed to be the cause. At any rate, the barn and its contents, the chopper and engine were destroyed. It is not known how much hay was lost or whether Stewart carried any insurance.

Again that evening on Cedar ridge the alarm was sounded when the big log home of the Lester Weaver family was discovered to be in flames. So rapidly did the fire spread that the Weaver family was able to save but a very few personal belongings — even their ration books and extra pairs of shoes going up in smoke. The cause of this blaze is unknown, as Mrs. Weaver said there had been no fire in the house for many hours. Neighbors and the local fire wardens responded to the alarm, and were able to save all the adjoining buildings, even though the heat from the big log house was intense.

Fire losses at any time are heavy and serious, but doubly so now that building materials are very scarce and the price, when obtainable, very high.

Another blaze occurred Sunday evening about 10:30, when the city vacant lot behind the Perryman building was discovered blazing by Raymond Hudson. Others, including Clarence Perryman, responded to his alarm and the grass fire was soon extinguished. A school bus was sitting but a few feet away, and had the blaze not been discovered when it was, the bus could well have gone up in smoke.

Wheat Harvest Underway

Locally, the wheat harvest seems to have gotten underway last week-end, being officially opened at Juliaetta Thursday by Stevens Brothers and Cletis Hoisington, who began hauling Forty Fold to the Juliaetta warehouse of the Lewiston Grain Growers. The wheat is said to be of good quality and the yield indicated, although complete returns are not available, is said to be very good.

Locally Glen Wegner broke the ice by delivering Forty Fold wheat to the Kendrick Rochdale, also last Thursday. The quality was good and the yield reported was 53 bushels and 10 pounds per acre.

Paul Richardson, Juliaetta, brought in the first peas to the Rochdale here last Saturday. The quality is said to be good and he reported a yield of 11 sacks per acre.

At the Lewiston Grain Growers here Otto Sillow and Walter Sillow both delivered Forty Fold wheat last Saturday (Wade's first). The quality of this wheat is said to be good, and although we have no yield report on Otto Sillows, that of Walter Sillow made 52 bushels to the acre.

Regarding the rivalry between the Lewiston Grain Grower establishments at Juliaetta and Kendrick, Ben Westendahl says Wade is going to have to get up earlier in the morning — and Wade maintains Ben is just "fool lucky."

Weather Somewhat Cooler

Locally, the weather has toned down just a bit, following 95 to 97 degree heat Thursday, Friday, Saturday and Sunday — heat which was doing thousands of dollars worth of damage to wheat, beans and peas.

The high heat was shriveling the kernels of much wheat in the "dough" stage, wrinkling the peas, and shortening bean pods.

Monday the thermometer hit a high of 80 degrees, and workers found the change a most pleasant one.

With the coming of cooler weather a rain would be most welcome for the beans, for wheat and peas it is now too late.

The high heat, also has brought on a very serious fire hazard, and Fire Warden Henry Jones asks that all trucks entering fields have mufflers and proper exhaust systems, and that extreme care be used at all times by machine operators and truckers alike. He suggests plowing fire-breaks wherever practical, and the placing of tools and water barrels in convenient locations.

NEWS FROM LOCAL MEN IN THE ARMED FORCES

Presque Isle, Maine (Official Dispatch) — Cpl. Harold A. Bartlett, 25, veteran of 39 months service as an assistant squadron leader in the European Theatre of Operations, arrived at Presque Isle Army Air Field July 25, aboard an Air Transport Command plane of the North Atlantic Division's "Snowball Fleet."

He has been awarded the following medals or decorations: American Defense Ribbon, Asiatic-Pacific Theatre of Operations Ribbon, One Star, E. T. O. Ribbon and Good Conduct Ribbon.

In commenting on his flight home via A. T. C. Bartlett said: "I personally think it was a swell trip." He is a son of Mr. and Mrs. L. A. Bartlett, Kendrick, Idaho.

"Snowball" is the name of an army air transport operation which has been running to Europe since July of 1944. During the winter and spring the outfit brought back over 7,000 litter patients from Orly Field, Paris. Currently the fleet is carrying ex-combat boys home for redeployment.

From S-Sgt. Roger P. Sheneman, Germantown, comes a brief note along with a change of address, as follows: July 18, 1945

Dear Friends:

I have been receiving the paper every week — surely appreciate it, too. Hope I get my new address soon.

As ever
Roger P. Sheneman
San Bruno, Calif.
July 25, 1945

Dear Mac and Bill:

I believe it is about time that I notify you of my change of address, although it will be for only a few weeks. I would hate to miss the papers.

My stay in Washington, D. C. was all pleasant, and now again the school days are over — and after a little commando training here I will be sent to Okinawa for shore duty. But I have no complaints — as it was what I requested.

Thanks a million to all for the paper, and will try and write more when I get another address.

Sincerely
Roy D. Hill

Report For Duty

Norman S. (Porky) Fry S2-c, and Wayne C. Arnett S2-c, left Friday to report back to San Diego, Calif., for reassignment, after spending a 10-day leave here with their respective parents and relatives and friends.

We did not get to talk to Wayne but Porky said he had 12 more weeks of schooling ahead of him, and then it was active duty. Just where he may be sent, he, of course, does not know, but hopes to make an aircraft carrier.

Linz, Austria
July 4, 1945

Dear Friends:

I'll bet you'll be surprised to hear from me. I am in the 65th Division, which is one division that will be in the army of occupation here for the next several months, at least, and personally I hope we don't have to go to the Pacific later.

By the way, when you make out the Honor Roll please change the spelling of my first name. It is Leroy. In other words, I don't capitalize the "R."

I have been getting the paper pretty regularly and it sure is swell. I want to thank everybody for it.

I have seen a lot of country since I left the states — but I wouldn't trade Idaho for any of it. One of the first things that you notice is that they measure their wealth by the display of "mineauer" in their front yard.

I'd heard a lot about the people of France, but as far as cleanliness and general characteristics go I don't see much difference in any of these European people.

Again I want to thank everybody who makes it possible for us to get the paper.

Well, it's chow time so I'll have to close for this time.

As ever
Pfc. Leroy O. Miller.

Ft. Douglas, Utah (Official Dispatch) — Back from the European theatre where he engaged in the operations of Nazi Germany, Pfc. Everett Neumann whose parents, Mr. and Mrs. Jacob Neumann, live at Southwick, Idaho, has been processed at Reception Stn. No. 12 of the personnel center here for his 30-day furlough and redeployment to further duty. His seven months service overseas have netted him the Combat Infantryman's Badge, the E. T. O. ribbon, Good Conduct Medal, and he wears three Bronze stars for campaigns in the European theatre.

Before joining the armed forces in 1944, Pfc. Neumann was employed as a farmer, working with his parents.

In the course of processing here Pfc. Neumann and the thousands of other soldiers reassembled from the widely scattered fronts, each man is issued the ribbons and medals to which he is entitled, paid, relothed and given a complete physical examination. Short orientation talks are given by trained army counselors who discuss the changes that have taken place in the community life to which the soldier returns for his furlough, and the problems ahead on the Pacific front.

All organizations which return as a unit are to be assigned to the Pacific after a period of additional training at an assembly station. Those who return individually are

reassigned after the furlough to newly formed units in the states where their experience will be employed in the training of recruits which they may accompany overseas.

Editor's Note — Everett arrived home last Thursday, beating the above dispatch by four days. He looks the picture of health, and says he has already gained back almost all the weight he lost while in active combat.

One decoration he wears, which the army apparently forgot to mention, is a long, jagged scar on his forehead of German shrapnel.

Presque Isle, Maine, July 21, 1945 (Official Dispatch) — T-5 Beryldean R. Grayson, 25, veteran of 26 months service as a Construction man in the European Theatre of Operations, arrived at the Presque Isle Army Air Field today aboard an Air Transport Command plane of the North Atlantic Division's "Snowball" fleet. He has been awarded the following medals and decorations: Three Bronze Battle Stars, Good Conduct Medal, E. T. O. Ribbon, three campaign ribbons, Driver's Medal and Sharpshooters Medal.

He is a son of Forrest Grayson, Southwick, Idaho.

More Souvenirs On Display

The Japanese Army rifle sent home some weeks ago by Everett Farrington, U. S. M. C. has been added to the display in Edgar Damarell's window. It can easily be distinguished from the others by the extremely short stock and the large bolt base. Otherwise it resembles the German rifles for finish and general shape.

Has Belgian Pistol

When Pfc. Raymond Hudson arrived home some three weeks ago he brought with him a Belgian army pistol, which he said he "requisitioned" from a dead German army officer, who evidently had acquired it from some Belgian.

This pistol closely resembles the .32 calibre brought home by Walter Zimmerman (and in turn both of these resemble our army .45's).

The Belgian pistol is a much better finished gun than the German or Russian, and indeed makes a fine souvenir. It uses the 9-mm. German Luger cartridge.

From Mrs. Roy W. Swanson, now at Lewiston, but who has been in Fairbanks, Alaska for many months, comes the following:

Please change my paper to my home address here in Lewiston, as we will be here now — as Jim (Jim Kuykendall) is on his way home."

Note: Jimmy has been overseas for over three years. He was one of the first to go, and we'll all be glad to see him.

Sgt. William L. (Lloyd) Israel arrived home Monday at noon to spend a 30-day furlough with his parents, Mr. and Mrs. Clem Israel, and other relatives. Lloyd spent 10 and a half months in the European Theatre of Operations, the last ten of which were spent in active combat in France, Belgium, Holland and Germany. Lloyd, who has gained a few pounds, is in the best of health.

He wears the Combat Infantryman's Badge, the Good Conduct medal and three Bronze Battle Stars. He brought home with him as souvenirs a 9-mm. German Luger pistol which he "borrowed" from a German officer who no longer had any use for it; a very fine pair of 6-power officers' field glasses; a German camera; German flag; and a number of other "odds and ends."

Lloyd says home never looked better than it does right now, and he is having the time of his life visiting with relatives and friends.

He wishes to thank all concerned for the paper: He got it on a "catch-as-catch-can" basis, but said that was the way all mail arrived during the hectic days of combat, and when he did get it, it was certainly more than welcome.

T-Sgt. Don Benscoter left Tuesday for Yuma, Ariz., where he will report at an airfield there for reassignment. Don has been home on a 20-day "delay enroute" between Denver, Colo., and Yuma. He spent his last day at home (Monday) driving a wheat truck.

Word has been received by Mr. and Mrs. Jim Farrington that their son, Cpl. Everett Farrington, U. S. M. C., on Okinawa, has been suffering from an attack of malaria. His first serious illness since entering the service many months ago.

Miss Evelyn Farrington, Clarkston, was up visiting friends here Saturday evening and Sunday, and brought word that her brother, Sgt. Lloyd Farrington, who is in Burma, is now suffering with his second attack of malaria. He had been hoping to get home, and what effect this attack may have is not known.

Paen Of War

Oh why did I join the navy, Oh why did I rush headlong, Into this terrible maelstrom of rivalry, bloodshed and song, Songs on the lips of my kinfolks, songs in the hearts of friends, Songs on the lips of my buddies, Friends for conquest and murder, Friends for money to gain; Friends for desecration of women, who suffer but feel not the pain, The pain of the birth of a nation, the pain of the birth of a son, The pain of their hearts dearest treasurers, being wounded and maimed and son —

Honored At Dinner

A dinner in the Kendrick park was given for Cpl. Walter B. Zimmerman home on furlough, Sunday of last week. Those present were his parents, Mr. and Mrs. Fred Zimmerman, his brother, Arnold Zimmerman, his sister, Mrs. Clarence Hund and husband and children of Renton, Wash.; Miss Dorothy Cook, Kendrick; Mr. and Mrs. E. L. Pearson, Mr. and Mrs. Edie Hunt and sons, Mrs. Ray Butler and daughter, Mrs. Oscar Torgerson and Miss Mildred Peterson, all of Lewiston; Mr. and Mrs. Walter Sillow and family of Leland; Mr. and Mrs. Stewart Wilson, Southwick, and the honored guest, Cpl. Zimmerman.

SPECIAL ELECTION FOR COURTHOUSE LEVY SOON

As most Latah County residents are well aware, on Saturday, the 4th day of August, 1945, between the hours of 1:00 and 8:00 p. m., at their respective polling places, Latah County resident taxpayers will have the opportunity of voting "Yes" or "No" on the proposed 3-mill levy for a number of years for the purpose of building a new courthouse at Moscow, Idaho.

Without, in any way expressing our own opinion, we have talked with a good many local business men and farmers in this area, and have heard but one man express the belief that a new courthouse should be built. All the others whom we contacted were opposed to the levy.

Here is the way one man put it: "The road between here and Moscow is so rotten that I never go up there if I can avoid it, so once or twice a year does me, and I go by train then. I don't seem to recall Moscow ever making any real effort to help get a road from Moscow to Kendrick, so as far as my business is concerned, they can get along with that court house very, very nicely. The only time Moscow ever has anything to do with this section, is when they want something out of it or us. If Moscow wants a new court house, let them build it just the same as they did the hospital when we wouldn't do it for them."

Said the lone man in favor of the new court house: "The offices up there are crowded, dark and poorly heated. No adequate court room facilities are available, and record storing room is at a premium, the old vault not being fire-proof, and that old building is anything but a beauty."

This man also said he was in Moscow quite often on business. "So, there you have both sides of it as we have heard it. However, locally, we do not expect it to carry."

Many Areas Closed

Gov. Charles C. Gossett last week issued a proclamation closing to the public three north Idaho forest areas as a precaution against forest fires.

The action was taken on recommendation of Stanton C. Reedy, state forester. The closure remains in effect until September 30, unless revoked sooner by the governor.

The areas closed to the public, except for those who receive special permits from district fire wardens are:

All of the land within the boundaries of the Priest Lake forest protective district; tributaries to Priest Lake and the Thoroughfare river in Bonner and Boundary counties.

The Potlatch Forest protective district; the Three Bear area, camp "R" area, Elk River area, camp 40 area and Beals Butte area.

Clearwater Forest protective district; Bertha hill area, Casey creek area, Washington creek area, Brown creek area, Musselshell area, Welppe area, Grangemont area and Cedar canyon area.

Ready said the action was necessary because of the extremely dry weather, enhancing the danger of forest fires, and the shortage of manpower available to fight such fires. He added that it may be necessary to close additional areas.

On other state, private and federal forest lands in Idaho, there is no restriction on entry, but no fires are permitted without a special permit.

Note: Consult Henry Jones for additional closures or restricted areas before planning that huckleberrying or fishing trip. It might save you a good many miles of travel and much time.

CIVILIAN SUPPLIES OF SOAP ARE TO BE INCREASED

Further steps were taken today by Secretary of Agriculture Clinton Anderson to conserve America's short supply of fats and oils, and to increase civilian supplies of soap, it is announced.

An amendment to War Food Order 42E, effective in two weeks, requires manufacturers to cut the use of fats in heavy duty (laundry type) soaps and increase the use of water-softening "builder" materials.

The change of formula will not decrease the cleansing qualities of these types of soaps, but it will enable manufacturers to increase the total quantity available to civilians by over 100,000,000 pounds during a 12-month period without requiring the use of additional scarce fats and oils. Army requirements for soap will also be lower during the coming six months.

In making this announcement, Secretary Anderson said: "All of this should result in a substantial increase in the amount of soap available for civilians, and should persuade housewives of this country to discontinue the practice of raiding the shelves of stores as soon as a new shipment of soap arrives. They have been doing this recently because they fear soap rationing. They have misinterpreted Gov. Lehman's statement concerning the needs of Europe as a tip that there might be soap rationing in America."

"If we were to have soap rationing," he continued, "it would be necessary for me, as Secretary of Agriculture, to authorize it, and I do not plan to issue such authorization. Operation of a soap rationing program is just too great a problem to undertake now. It would, however, be a lot easier on all of us if people would buy sensibly, buying only what is needed, instead of starting runs on scarce stocks. Supplies will continue to flow to retail outlets, so let's buy what we want as we need it."

According to the Office of Supply this action serves to re-emphasize the necessity for stretching short supplies of fats and oils as much as possible, and of the continued need for household salvage of used fats and grease. Every pound of fats and grease salvaged in the home means that much of an addition to our total supply. Many products, used both at the battlefield and at home are made partly from used fats and oils. Besides, the housewife gets two red points and 4 cents for every pound turned in to the butcher.

New Ration Books In December

War Ration Book Five, "smaller than a dollar bill" and containing just half as many stamps as the last book issued, will be distributed through the public school in December, Chester Bowles, administrator for OPA, announces. At the same time the new "A" gasoline ration book will be issued.

Distribution will take place at school houses or other public buildings throughout the nation from December 3 through December 15. OPA district offices will fix the exact time for each local area. The new "A" gasoline books will go into use December 22, and War Ration Book Five will be used soon after the first of the year for food rationing and for rationing shoes.

E. McProud Be Farm Agent

Elbert McProud, who has been extension agent for Boundary county two and one-half years, August 1 became Latah county extension agent, succeeding Reuben Bauer, who resigned a month ago.

He is being sent here with the consent of the Boundary county commissioners, and the approval of commissioners of Latah county.

Bauer served six months following the elevation of G. T. McAlexander to be north Idaho extension agent.

Before going to Bonners Ferry McProud had been Clearwater county agent three years. Prior to taking his post there he had been an art teacher for the department of agricultural education at the university, and teacher of vocational agriculture at Troy high school. In both these posts he became widely acquainted with farm populations of the Moscow and Troy areas.—Moscow Idahonian.

O. F. Hollingsworth Passes

Lenore, July 27 — Oscar Franklin Hollingsworth, 56, among the best known residents of Nez Perce county and a pioneer of Lenore, where he had resided the last 47 years, died of a heart attack this afternoon.

A native of Kansas, where he was born June 26, 1889, he came west with his parents in 1898 and located on Cream ridge.

Survivors include six daughters, among them Mrs. Oscar Raby of Clarkston, a former resident of Kendrick.

Advertising Wins Award

Featuring industrial advantages of the state of Washington, a series of advertisements of which an Inland Empire company is co-sponsor has been given a national advertising award.

The Washington Water Power company, Puget Sound Power and Light company, Pacific Power and Light company and the Northwestern Electric company have received a certificate of award from the Public Utilities advertising association for the 1944 series of advertisements sponsored by the four utilities.

Theme of the winning campaign, which is now continuing in its second year, is "Washington — the State — Has Everything!"

Designed to invite and attract new post-war industries to the state of Washington, the advertising campaign appears each month in national magazine and in newspapers of industrial and financial centers of the United States.

What About the Courthouse

John Citizen, resident taxpayer of Latah County and actively interested in any proposition affecting his welfare, cocks a prudent eye at his pocket-book and wants to know more about this courthouse proposal. He has heard a lot about it in the past few weeks but there are a few points upon which he wants further information before he is ready to cast his vote, so he asks:

- (1) **WHEN IS THIS ELECTION?**
Saturday, August 4th. Polls will be open from 1:000 p. m. to 8:00 p. m.
- (2) **WHAT IS IT FOR?**
To empower the County Commissioners to levy not more than three mills, the money from such levy to be placed in a sinking fund until such time as enough is accumulated for the erection and furnishing of a new County Courthouse.
- (3) **HOW MUCH WILL HAVE TO BE RAISED?**
Three mills would raise about \$44,000 per year or \$176,000 over a four-year period. This sum should be adequate for the purpose.
- (4) **WHY NOT FLOAT BONDS?**
Twenty-year bonds would cost the county about \$40,000 in interest whereas funds accumulated under the proposed plan, which have to be invested by law in listed securities would return about \$11,000 to the county over a four-year period. Common sense would indicate that the proposed plan is sound business.
- (5) **WHAT'S WRONG WITH OUR PRESENT COURTHOUSE?**
It is 57 years old, obsolete, inadequate, a fire-trap with no safe depository for irreplaceable records, crowded, expensive to maintain, and a county eye-sore. It costs the county \$2,700 per year to rent needed space outside the building.
- (6) **WHY NOT TAKE ADVANTAGE OF FEDERAL AID IF IT BECOMES AVAILABLE IN THE POST-WAR YEARS?**
Any system of Federal Aid has, in the past, required at least a 40% deposit of necessary funds by the sponsoring agency. Should such aid be made available in the future, which may or may not happen, the county would be in a position to put up the necessary matching funds under the proposed plan, in which case, a three-mill levy for only two years would be sufficient.
- (7) **WHY CAN'T THE ELECTION WAIT UNTIL FALL?**
The county levy has to be made in September, and therefore the election must be 30 days in advance.
- (8) **WHO CAN VOTE IN THIS ELECTION?**
Any qualified elector of the county who has been a resident for more than thirty days past and who is the husband or wife of a taxpayer whose name appears on the tax rolls of the county and is there assessed with unexempt real or personal property within the boundaries of the county.
- (9) **HOW LARGE A MAJORITY MUST BE CAST IN FAVOR OF THIS PROPOSAL?**
Two-thirds of all votes cast at the election must be favorable.
- (10) **WHERE WOULD THE NEW COURTHOUSE BE LOCATED IN THE EVENT ONE IS BUILT?**
Since it will take three or four years to accumulate sufficient funds and since such construction would have to wait upon the availability of materials and reasonable labor costs, this is a question upon which the sentiment of the people of the county would have to be secured and acted upon when the time comes to build.
- (11) **CAN THE FUNDS ACCUMULATED BY THE LEVY BE USED FOR ANY OTHER PURPOSE?**
No. It is positively forbidden by law to expend the fund for any other purpose than to build the courthouse.

Now possessed of more pertinent information, John Citizen is better prepared to vote intelligently on the issue. In any event he is going to cast a vote for he knows that this is the means by which the sentiment of the people can be registered and their wishes determined.

Many Game Law Violations
Seventy-four arrests were made by conservation officers of the Idaho fish and game department during June, James O. Beck, director, announces.

Most frequent violation was fishing in closed waters. There were 33 cases on that charge. Fourteen persons were arrested for taking more than the bag limit of trout. Twelve arrests were made for fishing without a license; and nine for fishing with improper license. Other violations were: Fishing with more than one pole and line, three; illegal possession of deer; illegal possession of antelope; killing bear out of season, and carrying an uncased gun in the field without a license, one each.

Adams county led the list with 17 cases. Canyon county was next with 13. In the other counties arrests were: Twin Falls, seven; Custer, five; Benewah, Butte and Clark, four each; Washington, Blaine and Boise, three each; Lemhi, Shoshone and Nez Perce, two each; Latah, Gem Boundary, Bonner and Clearwater. Largest fine of the month was \$150 for conviction in Lemhi county on a charge of illegal possession of antelope.

Dehydrating Quality Surplus Vegetables

Dried Products Ideal Winter Food Addition

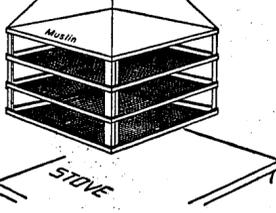

LACK of jars need not prevent the gardener from laying aside a large amount of this year's garden products for winter use.

Before drying, vegetables should be precooked in steam or boiling water. Steam cooking will furnish a superior product to those cooked in water. They should be removed as soon as tender and placed in the drier.

A satisfactory drier is illustrated here. Or it may be advisable to dry in the oven, or in the sun, behind glass. It is advisable to furnish air circulation means of electric fan, if possible. This process involves bringing currents of relatively dry air into intimate contact with the material to be dried.

The temperature in the drier should not be hot enough to cook the food, yet it should be of a suitable temperature to cause evaporation of moisture. The drying must be a continuous process in order to prevent the growth of organisms.

For best results foods should be cut into uniform sizes and spread evenly in thin layers to dry, stirring frequently. After the product has been dried, it should be condi-

tioned for about 10 days, but stirring from time to time, to prevent mold. After this period it may be placed in sealed air tight bags, such as cellophane or waxed paper, or in sealed jars, or placed in a stone crock, if desired.

Properly dried vegetables, as well as fruits, prove a welcome addition in the winter menus, and lose little of their value when properly handled.

Eight-Point Dairy Program Is Efficient

1. Grow plenty of high-quality roughage
2. Balance your herd with your feed supply
3. Keep production records on each cow in your herd
4. Practice disease control methods
5. Produce milk and cream of the highest quality
6. Adopt labor-saving methods
7. Take care of your land
8. Develop a sound breeding program

Age Effect in Calf

After the first calf is dropped, age has little or no apparent effect on cows getting in calf, according to E. J. Perry of Rutgers university. Bulls show a gradual reduction in breeding efficiency with advancing age, with the exception of the seven-year-olds. Heifers being bred for the first time require more services than the older cows. Breeding efficiency of the cows are not appreciably influenced by the length of time between calvings.

During the hot summer months cream and eggs both should be kept at temperatures of 50 degrees or less at all times. After separating, the warm cream should be kept separate until cooled to the above temperature. This cooling process should be done as rapidly as possible to avoid the growth of bacteria.

Good cleaning and sterilizing powder should be used on all milk utensils to eliminate the growth of bacteria. A chlorine product such as B-K powder has been found to be most satisfactory for sterilizing purposes on the farm. We have this for sale in quart size bottles for \$1.50. We also have a good cleaner and water softener for sale at 45c per package.

The use of these materials will be of great help during the hot weather in keeping your milk products sweet.

MORE ABOUT ARMED FORCES

The battle fields of this dreaded conflict, their treasurers suffer and die, No hand to sooth the suffering of the boy with the dream in his eye

Dreams of his home and his mother, of sisters and brothers too, Of dear old dad, who could guide him so well and true

The boy, a gift of heaven, whose baby blue eyes always followed, The form of a being so marvelous, his mother, staid and hallowed, Hallowed by years of devotion to that family, the pride of her soul

Hallowed by strife and emotion — emotion God's gift to us all, Emotion the passion of women — Emotion the birth of a song,

Emotion the kind deeds that follow the steps of one gifted by song; Years of devotion to duty, duty its own judge to be,

Duty the thought that possesses those hearts its call timely see, The boy catches a glimpse of heaven, in the eyes of his sweetheart true

Too late for him now, she's only a dream, and the dream has vanished too,

He closes his eyes for a moment, momentarily loses the beam, The beam of life he loved so well, has vanished along with the dream,

That's death my friends, and death pays off in money some pocket to line,

Whose pocket, I wonder, could this be you, all decked in jewelry fine,

Jewelry is fine, I love it myself, but let me give you a tip; The jewel of life is the boy whose death made possible that trip,

The trip you took when the deal was made, 'bought by the price of blood,

Did you buy that bond you intended? to give him the things he needed? Clothes, and food, and the tools of war, with which the enemy is weeded?

I'll buy that bond, why sure, what difference does it make to me? I can cash it in tomorrow — I've done my duty — I'm free,

Stop for a moment and lets inspect conditions as we see them today, Would it not be better to let it ride — in the future draw the pay?

But the boy is gone, and the money is spent,

Too late those things arrive, that could have given the boy a chance, the conflict to survive.

Geiger Field, Wn. (Official Dispatch) Pvt. James W. Albright, son of Mr. and Mrs. R. W. Albright of Juliaetta, has begun training as an aviation engineer of the Air Forces at Geiger Field, near Spokane, according to word received today.

Some of the skilled subjects being taught are, repair and operations of automotive equipment such as trac-

tors and graders used in airport construction, draftsmanship, camouflage technique, carpentry, operation of highway construction equipment, surveying and knowledge of the operation of weapons. Almost equal emphasis is placed on knowledge of weapons, because aviation engineer units often operate on the heels of invading troops and must be prepared to help clear airport sites of the enemy if necessary, or to defend their engineering work in case of attack. Some of the weapons studied are the 50-calibre machine gun, the mortar, bazooka, rifle, carbine and pistol.

Complete Address Important

Uncle Sam is getting more and more strict about second class mail matter, and we must have the correct and complete address of all army and navy men in order to insure their receiving the paper.

For example: Ensign Robert W. Burns, N. A. S., Hutchinson, Kan., is incomplete for a paper delivery. A letter will undoubtedly reach him, as directory service will be used. But the paper address should read like this: Ensign Robert W. Burns, Sqdn. 7; Flight 8, etc.; or Brks. No. 10, area 11, etc.

Army addresses likewise must be complete. Almost every day we receive one of these — so please advise us immediately of any change.

Leave For Service

George D. Calvert and Tommy M. Peters, Juliaetta, and Harry L. Harris, Kendrick, and Harold Brammer, Cameron, left Monday for Fort Lewis, Wash., to enter the Armed Services.

Mrs. Edwin Nelson received word Tuesday that her brother, Robert Wegner, in the South Pacific, had been promoted from 1st Lieutenant to Captain. He is in the Army Air Corps.

Capt. Wegner is well known here, having grown to young manhood at Cameron, the family's former home.

Col. Leon Lind arrived home last Friday from many months of service with a hospital corps in England. After visiting his parents here for three days, he left Sunday for Crescent City, Calif., where he will join his wife and baby son, who have been making their home with her parents during his absence.

Leon said he had the pleasure of seeing his brother, Eugene, before he came home. Eugene was stationed in Maxneute, Germany, and received a furlough, enabling them to meet in England. He says Eugene has sure grown, is now as big as any of the Texans in his outfit, and has even begun to talk their "lingo."

They will return here within the next couple of weeks.

Lt. Wm. A. Deobald arrived in town Tuesday evening from Santa Ana, Calif., on his way to North Carolina, where he will receive specialized training before being re-assigned. He will have ten days here.

Mr. and Mrs. Fred Siffow, Cameron, have received word that their son, S-Sgt. Emil Siffow, has arrived in the U. S., from the E. T. O. He will be hospitalized somewhere in the U. S. to receive medical care for a broken finger.
