

KENDRICK GAZETTE

ONE HUNDRED FIFTY-ONE CARS IN TOWN SATURDAY

A count of the cars and trucks in town Saturday evening showed a total of 151, their owners and passengers shopping and attending the free watermelon feed put on by the Kendrick Commercial club. The younger generation especially, enjoyed their fill of watermelon.

As the evening wore on local girls circulated among the crowd seeking financial aid toward the construction of the Living War Memorial swimming pool — and were well rewarded for their efforts, the sum of \$622.30 being turned in.

Two farmers who gave made the statement: "I'm heartily in favor of this memorial, I don't believe a finer thing could be done in the memory of local boys who gave their lives, and if you need more money at the close of this campaign, say so, I'll give some more."

The club wishes to thank all who have given to date. By your actions you have approved ours. In a project of this kind we all must work and pull together, for this is not in any sense of the word a "Kendrick Pool," it is to be a Living War Memorial Pool for all from this area — an area pool!

The question has been raised as to just how much this pool will cost. The club admits frankly that it does not know. A very good estimate of the material costs by M. C. Halliday is from \$3,500 to \$4,000. This sum includes concrete, sand, reinforcing steel, form lumber, fencing, etc. It is very difficult to arrive at a compressive labor estimate, since cost of excavation and the construction of forms may vary with the type of rock and soil encountered below the surface. Too, it is very difficult to put an estimate on the cost of labor next spring — so, frankly we do not know what the total cost of the pool may be.

The club feels, however, that sufficient money can be raised to permit construction next spring. It is afraid that if we have to wait for post-war government aid, that the cost, like that of W. P. A., may spiral to excessive heights — therefore it would be better if the project were financed completely locally.

Perhaps all of you have heard the saying: "Life Begins At Forty." Frankly, we don't think so. We think life begins with the toddling child. That youngster loves to play in the water. The wading pool at one end would give him that chance, and as he grew older and learned to swim — what better place than a clean, properly supervised local pool?

Think it over! Then dig down in the old sock and help put over this Living War Memorial.

Leland School Opening

The Leland school will begin its fall term with registration on Monday, Sept. 3. Texts and materials will be issued and assignments given for the regular classes, which will begin on Tuesday.

Miss Waddell of Garfield, Wash., will teach the lower grades this year, with G. F. Criddlebaugh in charge of the upper grades.

The hot lunch program this year will be sponsored by the Leland S. L. A. Club, of which Mrs. Herman Meyer is president; Mrs. Homer Parks, secretary and Mrs. Fred Glenn, treasurer. Questions pertaining to the hot lunch should be addressed to one of these officers.

High school students attending the Kendrick High school will receive the same transportation accommodations by the Southwick bus as they did last year.

KENDRICK PUBLIC SCHOOLS TO OPEN SEPTEMBER 10TH

The Kendrick Public Schools will open on Monday, September 10th, with registration on that day, and regular classes meeting the following day, instead of September 3 and 4, as previously announced.

There will be two new members open on the High school faculty this year: Ralph Joslyn from Boise, Idaho with a B. S. degree from the U. of I., will teach science.

Mrs. Elsie Deobald, formerly of the grade school, will teach Home Economics, Typing and Glee Club. Mrs. Deobald received her training at Lewiston Normal and Spokane Business College.

New members of the grade school faculty will be Grace Hammond, first and second grades, and Janice Jones, fifth and sixth grades.

Other members of the faculty returning from last year are: Robert Bakken, superintendent, Social Science; Joyce Brammer, principal, English and Math.; Ross Armitage, grade principal, coach, seventh and eighth grades; Crystal Gruell, third and fourth grades.

Subjects Offered Are: English I, II and IV; Algebra, Geometry, General Science, Chemistry, Typing I, II and III, Home Economics I and II, World History, U. S. History, Government, Bookkeeping, Art, Commercial Law, Vocations, Geography, General Business, Problems of Democracy and Physical Education.

Extra-Curricular activities include: Dramatics, Glee Club, News Writing, Football, Basketball and Baseball.

Fees this year will be, in some respects the same as in the past, in others slightly higher. On the whole, however, they are considerably less than most schools: Textbook fees for grade and high school, \$4.00; Activity fee for high school (includes tax) \$3.00; Typing fee for typing students, \$3.00. Football men will pay \$1.00 insurance fee, which covers all sports. Football candidates must take their physical and dental examinations before they will be issued suits. Physicals can be taken the afternoon of Monday, September 10, and dentals Monday and Tuesday mornings, September 10 and 11, or Wednesday afternoon, Sept. 12.

The Hot Lunch program will be available on October 1.

The building is being renovated by Harry Baker and Hank Emery. New class room arm chairs will arrive for the English and Science rooms. The Agricultural room is being converted into a Commercial room and the former Typing room will be the school library. A new trophy case will stand in the Assembly, flanked by two new glass-enclosed bulletin boards.

An extensive visual education program is planned, consisting of classroom educational films and "March of Time" films. New library books of interest to high school boys and girls and a new "ditto" machine have arrived.

A faculty meeting will be held at 2:00 p. m., Sunday, September 9. School Annuals — Having made a personal visit to Leo's Studio on behalf of our School Annual, I am prepared to report that we will not get them until October or November. Of 80 or more school annuals in this establishment, only two have as yet been completed. The reason for this is obvious — when you go into a drug store and ask for films for your camera — there just aren't any. Work on these annuals, which usually starts in January or February, has been held up until now, due to this inability to get supplies. Needless to say, we believe these annuals will be worth waiting for. — Robert Bakken.

Letter From Fonda New York

Mrs. Frieda Heinje writes from Fonda, New York, to say, in part: Will you please renew my subscription for the Gazette for two years. Enclosed you will find money order for \$4.00. I would not be able to get along without it. My husband and I are always glad when Monday comes and we receive it — it is just like a long letter from a friend.

I think about Kendrick and all the people I know around there a lot, and of course we are very much interested in what they are doing, how the weather is, and everything that happens around there, good or bad.

I wish that I were there a lot of times, especially in the winter time when we have blizzards and snow storms and some 20 below zero weather — but in the summer I am glad that it is not so hot here. When it gets about 85 in the shade here, people think that is awfully hot.

NEWS FROM LOCAL MEN IN THE ARMED FORCES

S-Sgt. Emil Silflow, son of Mr. and Mrs. Fred Silflow, Cameron, came into the Gazette office last Wednesday afternoon to extend his thanks to all for the paper, which he said he received quite regularly, especially after the close of hostilities in the E. T. O.

Emil was with a tank training and maintenance repair unit in France and Belgium, having landed there after a brief period in England. His specialty was the new heavy tank — and so that is his favorite. He says they are a wonderful machine and more than a match for anything the Germans had to offer.

While on duty after the close of the war Sgt. Silflow was injured, and so, after his return to the states with his unit, was hospitalized he having reported to the Madigan General hospital at Fort Lewis, and from which point he was granted a 60-day recuperation furlough. At the end of that period he reports back to that establishment.

Emil said that he had a number of good opportunities to visit farms in Europe, and took full advantage of them. He said their soil seemed to be excellent, but that their methods were far behind those employed in the state. Their small farms would not lend themselves to our modern machinery to any great extent, but he felt that considerable improving and a great deal of efficiency could be added by reasonable "doses" of American machinery and methods.

He added that the people with whom he came in contact were quite friendly, but that conversation was difficult to maintain due to the language differences.

Right now Sgt. Silflow and his wife are staying with his parents at Cameron, and he says he is very thoroughly enjoying farm life again and will be glad when he receives his "sheepskin" so that he can settle down.

Two Medals To Lt. Dammarell

Lt. Howard T. Dammarell, son of Mr. and Mrs. E. H. Dammarell, former Kendrick residents, but now of Walla Walla, has been awarded the Bronze Star and Silver Star medals, his parents reported this week.

The Bronze Star was awarded to Lt. Dammarell for heroic achievement in Luxembourg in January of 1945, in leading a tank platoon through deep snows and mine fields to positions from which to support an infantry battalion attacking Bourscheid. Swiftly appraising the situation, Lt. Dammarell deployed his tanks so that he was able, in spite of intense mortar and artillery fire to surround the town. During this engagement he destroyed an enemy assault gun and tank killing crews and materially aided in liberating Bourscheid. Lt. Dammarell was commissioned a first lieutenant and was awarded the Purple Heart in addition to the Bronze Star.

The Silver Star was awarded the lieutenant for gallantry in action in April near Brüsselburg, Germany. When his tanks were subjected to enemy artillery and machine gun fire, he advanced alone on foot to locate enemy positions. Returning he successfully led his platoon in destroying the enemy guns.

"His courage and aggressive leadership and sincere devotion to duty exemplifies the highest traditions of the United States Army," the accompanying citation read. — Lewiston Tribune.

A soldier from Alhambra (Calif.), Sgt. Frank H. Rider, 24 son of Mrs. Mildred Rider, 811 West San Marino Ave., is touring with the "Here's Your Infantry" show, scheduled to play at Moor Field at 8 p. m. Thursday, his sister, Miss Allene Rider, a California Bank employe, said.

Sgt. Rider spent two years in the Aleutians and has a battle star for the Aleutians campaign. He returned from overseas in June, 1944, and was assigned to motorcycle police duty at Ft. Benning before receiving his show assignment. He attended the University of Idaho before entering the army in August, 1942. His family have lived in Alhambra for about five years, moving there from Kendrick, Idaho, where Sgt. Rider grew to young manhood.

In the communication inclosing the clipping from which the above article was taken, Sgt. Rider's mother says: "I so hope Frank will get to come home now. He was one of the 200 sent to New Brunswick to teach their soldiers how to use the American weapons of war — and as they won't need to know now, maybe he'll get to come home. He was through here two days last June on the Seventh War Loan Drive."

Note: The show reference above is June.

Pvt. Rex Taber arrived home last week from Camp Roberts to spend a 10-day furlough at his home in Juliatta. Rex is a son of S. S. Taber of that city.

Friday Rex came into the Gazette office to thank all concerned for sending the paper. When at home he said he read it in a perfunctory sort of way, but while at Camp Roberts, California, read every line of it — and it was certainly more than welcome. He says he now realizes just how much the home town paper means to the boys in service — and knows it will mean even more when it follows them overseas.

Rex reported back to Camp Adair, Oregon, Monday — and from there expects ultimately to land on the shores of the "Land of the Setting Sun."

Will Leave Friday

Sgt. Arnold Halseth, son of Mr. and Mrs. Ed. Halseth, Big Bear rotation furlough from the E. T. O., will leave Friday of this week for Santa Ana, Calif., to report for re-assignment on September 8th. Arnold is leaving early in order to visit with his sister, Helen Halseth, WAVE, at Terminal Island, Calif., and Mrs. Margaret Cox, ANC, at Van Nuys, Calif.

Sgt. Halseth, who was a member of the 9th Troop Carrier Command, landed in North Africa on the 20th of May, 1943, where they were stationed until August of that year, when, after taking part in that invasion, they were stationed there. They remained in Sicily until March 5 of 1944, when they were transferred to England. The unit remained in England until March 14 of this year, when they were transferred to Amiens, France. This city remained their headquarters until July, 1945, at which time they were transferred to Antwerp, Belgium, from which port they embarked for home, landing in the states on July 31.

Sgt. Halseth wears seven Battle stars: Sicily, Normandy, Central Europe, Rhineland, Holland, Adriennes and Southern France. He also holds the Unit Presidential Citation with Cluster and the Good Conduct Medal.

Arnold received his training in the glider mechanics school, and until the final four months of the war in Europe was engaged in keeping the big troop carrying gliders and transport gliders in condition, mechanics often landing with the troops to repair gliders on the spot. However, the last four months of his service he was transferred to the plane repair division. Arnold has 89 points, and hopes to be able to report back, draw his "sheepskin" and come on home in time to help with the fall work. However, he says the ways of the army are inscrutable, and all he can do is hope.

Arnold wishes to thank all concerned for the paper. He says it was just a great big letter from home, and that he had pretty good luck getting it, in fact, he believed it came through about as good as regular mail letters. He says the army may talk about their libraries of "pocket books" and current magazines, but the only place these are found are in rest camps at the U. S. O.'s and Red Cross, and don't do good man on active duty a bit of good. He prefers the "home town paper."

August 11, 1945
Luzon Island

Dear Friends:

I thought I had better give you my new address so I can get the paper sooner. I haven't received one for some time but I know they will catch up with me someday.

I am now stationed on Luzon Island and what a place! Although there is a lot better than Okinawa. The people here are very friendly to us and are willing to help us any way they can. They sure can tell us some terrible things the Japs did to them. They certainly hate the Japs and you can't blame them.

The city of Manila is sure an awful sight. It's a shame how the Japs destroyed everything.

I hear that Henry Ford has said that we shouldn't use this new atomic bomb. Brother, that burns me up, for if some of those "big shots" could see how they (Japs) treated the other fellow they would certainly feel different. All of those fellows should ride in an amtrac in the first wave and get their heads whistling around and their arms or maybe some would get an arm or leg shot off. When they hit the beach they would have to dig like a rat to keep from getting killed.

Yes — I just wish that they had to do that and I'll bet they wouldn't say that we shouldn't use those bombs!

Do you think they wouldn't use them on us if they had it? Hell yes! They would! But some think we are being unfair. There is nothing unfair in war, at least so far as the Japs are concerned. Do they give the G. I. a warning before they stab him in the back? No, then why should we be easy on them? I have "blown my top" but that is what all of the service men on the front feel, and you can't blame them!

Well, I'll be looking for my next copy of the paper.

As ever
Jim Miller.

Wreck Saturday Evening

Four Kendrick young folks had a very narrow escape from serious injury if not death Saturday evening when the car owned by Frank G. Harris and driven by a guest in his home, Bob Haines, Lewiston, crashed into the left rear corner of Herman Travis' big truck, which was parked just across the street from the beauty parlor.

The car struck the left rear of the truck rack, which tore along the side of the car, ripping out the center body post and tearing off both of the left doors.

The car contained, besides the driver, Miss Villa Lou Harris, Dick Harris and Miss Barbara White.

Had the car been traveling very fast results might have been quite serious, as it was the occupants escaped with a good shaking up. The truck was almost unscathed.

WHAT CAMERON FOLKS ARE DOING THESE DAYS

Come On Folks, Let's Build That Living War Memorial Swimming Pool Now!

TO THE PUBLIC:

We are asking you to contribute to a fund, which will be used to construct a Living War Memorial, in the form of a swimming pool, to the boys of this area who have given their lives in this war, so that our America can live.

Believing as we do, that the future of America lies in the children who will soon be our leaders, it is certainly up to the grown people of this area to provide decent and healthful recreation. The action of our club in sponsoring this drive is to put these things within the reach of all.

We have pledged ourselves to construct a pool, modern in all respects, with proper supervision to protect the health and lives of all who use it.

Give generously and help us to put this over at once, so that we can have it in operation next year.

Sincerely yours,
KENDRICK COMMERCIAL CLUB
George F. Brocke, Chairman

You'll Help, Won't You?

Friends:

The local boys who gave their lives in this great conflict didn't stop to count the cost! Let's give till it hurts to honor their memory!

We are prompted to sponsor the above ad. through our desires to serve the war effort and our interest in community welfare.

 Everyone is invited to be present.

Fun Fest Coming
 This week's offering at the local theatre will be a real fun fest — in technicolor. Entitled "Greenwich Village" it has as its stars Carmen Miranda, Don Ameche, William Bendix and Vivian Blaine.
 The production is said to be a riot of fun, music, songs and dancing.
 The usual news, shorts and cartoon will also be shown.

PERSONAL MENTION
 Mrs. Delphia Broemmeling, N. P. relief agent who has been here the past three weeks while Roy Ramey was vacationing and in the hospital, left Tuesday morning for Oakesdale, Wn.
 Mr. and Mrs. F. E. Griffith and granddaughter, Joan Shelton of Spokane, were week-end guests in the W. L. McCreary home.
 Mrs. N. M. Leavitt of Genesee and her father, F. S. Casebolt of Yakima, Wn., were Monday evening callers in the McCreary home.
 Dr. and Mrs. G. W. McKeever and daughters returned Saturday evening from a week's vacation trip to Seattle and other coast points.
 Roy Johnson, who is employed by P. F. I. at Headquarters, spent the week-end at his home here.
 Henry Emery returned Saturday from Walla Walla where he had been visiting.
 Mr. and Mrs. R. L. Blewett came over from Gifford Sunday and spent Monday at their home here.

 Use the nearest of 4,000 United States Employment Service offices to locate a job or a worker for a job. By using these clearing houses you will avoid turnover, duplication, and lost time and travel in the job shifts during reconversion.
 Eat and store potatoes to avoid spoilage of this nourishing, cheap and plentiful food. The 1945 crop is expected to be one of the largest on record.
 Postpone your pleasure travel a few months longer. Leave the trains free for more comfortable journeys for troops, who will soon be returning at the rate of more than 500,000 a month.

All Newspaper Users Limited
 Washington, Aug. 27 — All users of newspaper were placed under consumption limitation order L240 today, the war production board announced.
 Magazine, booklet and other print paper users who last week were exempt from consumption controls on all papers now must conform to the wartime restrictions still imposed on newspaper publishers in the quota consumption of newspaper.

Household Goods This Fall
 Household washing machines, ironers and aluminum kitchenware will be back in the stores this fall at 1942 prices, according to OPA.
 Manufacturers will be required to tag the pots, pans, skillets, washing machines and ironers with their ceiling prices. Models will vary in style and price much as they did before the war.

Come on, let's build the Swimming Pool

When you see a "Pig on a pole" it's "HOT STUFF!"

TRAILBLAZERS
 CARL E. ("BROWNIE") WORTHEN joined the Washington Water Power in May, 1906. He was just a young man, but a trained lineman. Soon he was working with "hot stuff," carefully and thorough always.

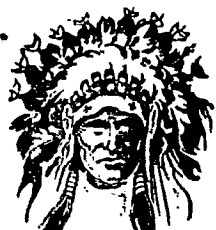

Yes, plenty hot—but Brownie can handle it! There may be thousands of volts flowing through those power lines. One false move, one careless moment, and trouble would result. Brownie knows this, but handling "hot stuff" is his job, and doing it safely and well is his pride.

Brownie Worthen has been with Washington Water Power for 39 years, and for many years has been a class A crew foreman. He has strong, steady hands, a cool head, "know how" and a healthy respect for the powerful stuff he works with. He uses "hot sticks" on high-voltage work and "pigs" for protection where they should be used. Brownie has blazed trails for electrical power throughout the Inland Empire for nearly four decades.

Washington Water Power and its workers have blazed trails together for the pioneer past, and we are going forward together—TRAIL-BLAZERS ALWAYS!

PUBLISHED BY THE KENDRICK CO-OPERATIVE CREAMERY

REMEMBER FOLKS:

The following figures give an idea of how bacteria multiply in cream of different temperatures: In a temperature of 50 degrees the micro-organisms in cream may number one million per cubic centimeter at the end of 24 hours; 47 million at the end of three days, and 65 million at the close of the fourth day.

Now let's examine cream kept in a 70-degree temperature. At the end of the first day the micro-organisms number six million, at the end of the third day, 96 million, and at the end of the fourth day 417 million. In other words, at the end of the fourth day seven times as many are present in a 70-degree temperature, as in the cream kept at a 50-degree temperature. Step up the temperature of the cream to 80 degrees, and the picture becomes very much worse.

Since milk and cream are never

wholly free of bacteria, this multiplication process goes on at an accelerated rate unless interfered with by a lowering of the temperature to at least 60 degrees—50 degrees or lower is the ideal goal. Even a 20-minute delay in separating milk or letting the cream stand before cooling may give the bacteria a head start that cannot be stopped, no matter what excellent care and attention may be given it later.

Small Boy: "What do you call a man who drives a car?"
Pedestrian: "It all depends, son, on how close he comes to me."

Guest to the host in new house: "Hello, Bud, how do you find it here?"
Host: "Just walk upstairs and then two doors to the left."

MORE ABOUT ARMED FORCES

arrived home Tuesday to spend a 15-day leave with his parents. The hospital ship, of which he is a medical crew member, is in a Pacific port for repairs.

Boyd has been in the South Pacific the past six months.

Carlsbad, N. M.
23 August, 1945

Dear Mac and Bill:
I have a different address now and if I want to get the paper I guess I had better tell you where I am.

I have been here taking a short course in bombing for training in Radar. Now that the Japs have called things off, I don't know whether they will continue my training or not. I can't see any use in giving Radar training to us now.

Since I have been here I went out to see the Carlsbad Caverns. It is really "quite a hole," and is well worth seeing if you ever get the chance.

Guess by this time harvest is really rolling. As usual this time of the year I get the yearning to be there. It would be swell to be with a combine again. From what I have heard the crops are turning out pretty good, and I hope that is true.

Well, I will give you my address and stop this so-called letter. I'll always thank you and all the others for the paper.

Always
Ken Woody.

Note: Kenny — Harvest is rapidly drawing to a close, and bean harvest is expected to begin this week. Yields are good, but not the bumper ones hoped for earlier, as the hot, dry weather cut them short.

Fort Douglas, Utah (Official Dispatch) — Stationed at this post as a member of the permanent cadre of the Personnel Center is Major Aaron E. Blewett, whose brothers, Milford and Nye Blewett, live at Lewiston, Idaho.

Assigned to the ground forces as liaison officer his duties are to supervise the processing of army ground forces personnel for discharge, redeployment and induction. At the time Maj. Blewett entered active duty in July, 1939, he was

just graduated from the University of Idaho at Moscow. His wife, the former Helen Leininger, daughter of Mrs. Helen Leininger, 5805 Southwest Kelly Ave., Portland, Ore., is making her home with Maj. Blewett and their children, Sharon, 3; and infant son, John, at Salt Lake City, Utah.

The Personnel Center in which Major Blewett is employed handles the processing of personnel sent here in the course of induction, discharge and redeployment.

Soldiers discharged here are paid in full and counseled in the Separation Center with regard to the problems of readjustment to civil life. Those who are deployed for further duty are given 30 days furlough after Reception Station No. 12 has processed them for their new assignment. The induction station provides physical examinations for new recruits and administers the oath of enlistment, after which the reception center issues uniforms and equipment and ships them to a basic training center.

A brother, Richard, lives at Kendrick, Idaho, where Maj. Blewett, in his student days, was employed during summer vacations.

Cpl. Leon Lind left for Fort Douglas, Utah, Monday, after spending a 30-day rotation furlough here with his wife and son, and also visiting at Crescent City, Calif.

Leon spent almost two years overseas with a hospital unit in England.

Interesting Letter Received

The following letter, received last week, is self-explanatory. We find it quite interesting, and so are passing it along:

Merrill, Iowa
August 11, 1945

Dear Sirs:
Inclosed find check for \$2.00 for the Gazette for a year. Many years ago I used to be a resident of Cameron, then lived near Leland and later Southwick. I still recall many of my old-time acquaintances and of course it goes without saying that I am in constant correspondence with my relatives out there, such as Henry Brammer and Herman Meyer, and some close acquaintances. In the 34 years since I left the Big Potlatch I have returned a number of times for a visit, the last being in 1942.

The west seems to have a certain attraction, after one has made it his home for years. Although I must confess that, when for the first time I viewed the steep hills around Kendrick and climbed the rough roads, I harbored the wish: "If I could only get out of here again." But it did not take long to get over such unfair feelings, for indeed the west is one of the finest territories I have ever lived in and would make it my home now, if the calling of mine would not prevent it. As a minister of the Gospel I have served my present charge for almost 23 years and I am really bound to this congregation by ties that are hard to sever.

But I am not only interested in the good people out there which are dear to me, but also in the country as such, in the crops of all kinds, and its prosperity.

It may interest you to hear a little about Iowa, where the "tall corn grows." I am located about 20 miles north of Sioux City, Iowa, which is a city of about 100,000 population. The soil here is very productive if it receives plenty of moisture, and such has been the case this year. The oats which are now being threshed, are yielding from 50 to 75 bushels per acre. The corn looks good, but is behind in growth about two weeks as the spring was very late here. An early frost, of course, would spoil many a prosperous field.

Respectfully yours
Rev. Gustav Meyer.

What better memorial can there be than a swimming pool? Your financial aid will be appreciated!
