NEWS FROM LOCAL MEN IN THE ARMED FORCES

Hasn't Much To Report

Pfc. Earl Harris, son of Mr. and Mrs. C. E. Harris, latest of the local boys to arrive home on rotation furlough, says simply that he "hasn't much to report, despite the fact that he has spent more than two years overseas — England, France, Belgium, and just a little bit of Germany in those two years."

In "Transportation" Earl was one of those whose job it was to see that trucks and trains were there to transport the men and the equipment, and then the necessary supplies. For the first year he was stationed in England, the larger portion of this time being at Liverpool. From there, following D-Day he went to France, later Belgium and finally Germany, being in that country just before being sent home on rotation furlough.

Earl says that compared to most of the boys he had things comparatively easy, as he was always behind the lines, and generally billeted in a building of some sort, with more or less permanent headquarters as well as quarters. He does say, though, that some of the V-1 and V-2 rocket barrages they underwent were not at all pleasant — and a few times Jerry dropped bombs "here and there" around them.

Earl says home sure seems swell, and that his 30-day furlough is slipping away altogether too rapidly for comfort. However, he has compiled enough points that he does not expect to again be sent overseas.

Camp Swift, Texas September 11, 1945

Dear Mac and Bill: I suppose you think I have forgotten all about you and the hometown paper. No, I haven't — and the main reason for not writing sooner is the hope I had of shipping out of here a lot faster than it seems I'm going to.

I don't care too much for the "Lone Star State," as far as I'm concerned they can give it back to the Indians — only I doubt if they would accept it. It sure is hot down here, and with all "these nice creatures that crawl and fly in the night", it sure makes life miserable. You can't even turn a stone over, or you're sure to be staring a rattlesnake in the eye — or a Texan.

Uncle Sam hasn't decided for sure just what he is going to do with us, but whatever it is you can bet your sweet life it isn't going to be pleasant.

Camp Swift is about 40 miles from the capital (Austin). It's not nearly as large as I had pictured it would be, and with the 2nd division here you can almost walk up the street, that is, if you'd just had an argument with your pet skunk.

Well, here it is almost "lights out" time, so guess I'd better bring this to a close and hit the sack.

As ever Cpl. Walt Zimmerman.

His years of service behind him, T-Sgt. Don Benschoter, son of Mr. and Mrs. Frankie Benschoter, returned home last week from Fort Douglas, Utah, bringing with him his honorable discharge papers. Don, an Eighth Air Force veteran, has 35 missions over Germany to his credit, wears the Air Medal and nine Oak Leaf Clusters, the Presidential Unit Citation, etc.

Since his return on rotation furlough to the states early this spring he has just been marking time in various camps throughout the country. His plans are rather indefinite at this time. He may go back to farming with his father, or may resume his interrupted studies at the University of Idaho.

Among First In Tokyo

Two Kendrick brothers, Pfc. Allan R. Johnson, 22, and Pfc. Sidney M. Johnson, 21, entered Tokyo with the famed 11th Airborne Division, first American troops to occupy the Japanese capital, an army release from Japan said Friday.

With the division as paratroopers since its activities in February, 1943, at Camp Mackall, N. C., the brothers reached Tokyo via the "hard way" — New Guinea, Leyte and Luzon. Their unit, the 675th para-glider field artillery battalion, saw action in the mountains of Leyte. Their next action was the drive on Manila from the south, and racing 65 miles to capture Nichols Field.

The brothers attended high school at Kendrick, where the family has its home. Pfc. Allan Johnson was employed by the Oregon Ship Building Corp. at Portland before his induction and plans to become a commercial artist after his release from the service. Pfc. Sidney Johnson plans to become a mechanical engineer. He was employed in his father's garage at Kendrick before induction. — Lewiston Tribune.

Note: Another local young man, Pfc. E. C. Wilson, son of Mr. and Mrs. Stewart Wilson, Kendrick, is a member of the same division.

Fraser-Greene Nuptials

Mr. and Mrs. Everett Fraser received word Tuesday of the marriage of their daughter, Lt. Ethel Fraser A. N. C., and Lt. Edward L. Greene, M. N. C., of Atlanta, Ga., on Friday, September 14.

The ceremony was performed in the Little Church Around The Corner, New York City.

Both have been on the U. S. S. Ernest Hinds, a hospital ship, for the past 16 months.

In a long distance telephone conversation with her parents, Mrs. Greene stated that she did not yet

know whether they would be able to secure time to come here, but were still in port in New York awaiting orders. Further details are lacking at this time.

Pvt. Henry Freytag arrived in town Tuesday morning from Fort Riley, Kansas, where he has been stationed for many months past. Henry brought with him his honorable discharge papers, he now being over the desired age for army personnel. Henry's opinion of Kansas wouldn't look so good in print — and he says the Idaho woods are going to seem mighty swell again. He expects to return to P. F. I. employment after a few days spent in visiting relatives and friends.

Mr. and Mrs. R. L. Blewett have received word that his brother, Mjr. Aaron Blewett and family will arrive here Saturday to spend a short furlough with them.

Pfc. Ishmael Martin arrived at his home in Southwick last Friday to spend a 45-day rest furlough. Wounded in action during the Philippine campaign, he has been stationed at the Vancouver military hospital for some weeks.

S1/c Robert Fraser, who is stationed at the Naval Air Station, Sandpoint, near Seattle, arrived here Saturday at noon to spend a 10-day leave with his parents, Mr. and Mrs. Everett Fraser. Bob likes his station at Seattle very much but says he has serious doubts about the navy's ability to make a cook out of him. However, he is willing to take a chance, if the navy is.

Mrs. M. A. Deobald has received word that her nephew, Lt. Col. Harvey Deobald, an Eighth Army staff officer, is now in Tokyo.

He is well known here, having visited in Kendrick a number of times. His home is at Tonica, Ill.

Word has been received that Arnold Hoisington, son of Mr. and Mrs. Clotis Hoisington, is now stationed at Camp Roberts, Calif., having arrived there September 5th.

With the communication was the following poem:

Just A Blue G. I. Riding on a south-bound troop train Just a homesick, blue G. I. With a smile on his face for the world to see, Though his heart says he could cry.

He is just a ten-day soldier But he is not alone; There are hundreds more just like him Who would give a lot to be home!

He is going to take his basic Soon he'll change from a boy to a man; There will be tough training and heartaches But he's a Yankee, strong in both heart and hand.

There will be times when the going's the roughest That he will feel like giving in; Then he'll remember that furlough, And hit it once more with a grin!

When at last the training is over, He's learned to march, salute and handle a gun, He'll grab the first train northward, North Idaho — here we come! — Pvt. John Stanton, Craigmont.

Mr. and Mrs. E. A. Deobald received a letter from their son, Sgt. Charles A. Deobald, now stationed in Germany — that he expected to be home for Christmas. It is now almost two years since he was home on furlough.

Overseas Mailing Rules

Millions of Christmas gifts will go overseas again this year to our armed forces. It will be especially difficult to deliver these gifts safely and on time the army and navy point out, unless families of service men and women co-operate in starting them off right. The following rules are therefore suggested for mailing Christmas packages abroad:

If your soldier is enroute home or about to come home, don't send him a Christmas package.

Use his latest address and be sure it's complete and accurate — name, rank, serial number, organization and unit; APO, in care of postmaster at port of embarkation. Address it — then check it.

Mail Christmas gifts overseas from September 15 to October 15. In the army this is the only time you can mail a parcel overseas without a written request from your soldier.

But — If there's reason to believe he may move to a new location, it's safer to wait till you can mail your gift to the new address, even if this means asking him for a letter requesting your gift so that you can mail it after October 15.

Use a heavy box and strong cord. (Government approved over-seas boxes can be bought at retail stores).

Send only usable gifts like tinized dried fruit, canned luxury foods, razor blades, fountain pens, wallets, watches, etc.

Your package must not weigh more than 5 pounds. It must not be more than 15 inches long, or more than 36 inches in length and girth combined.

Navy gifts should be sent during the same period (September 15 to October 15). However, gifts destined for navy, marine or coast guard personnel may be sent throughout the year without a written request.

Mail Christmas cards at any time, but seal them and put on first class postage.

John Cargill Dies Wednesday

John Cargill, 85 years old, and a Kendrick resident for the past 15 years, when he retired from active farming, passed away at his home here Wednesday afternoon of last week. He was born in Illinois, October 22, 1859.

Mr. Cargill's passing came as a distinct shock to all who knew him, although he had not been in the best of health for some months. Death came as he slept on a cot outside his home, about 2:30 in the afternoon.

He leaves his wife, Minnie, at Kendrick; two sons, Willard Cargill, Potlatch and Bryan Cargill at Princeton; also one daughter, Mrs. Beulah Strohm of Cashmere, Wash.

Yields so far reported on beans are said to be "about average," of around five sacks per acre. Some, of course, went higher, some lower.

## WORTH KEEPING

War Bonds are not only the world's safest investment . . . they represent your faith in your country and are a symbol of the part you are doing to back up its fighting men. Too, they are a part of your future. Saved to maturity, they will mean added security, comforts and pleasures for you and your family. They are worth keeping!

Such assured dependability and low rates are worth keeping!

The time-tried dependability and low rates of the Washington Water Power are also worth keeping. Sound business management, technical skill acquired through long experience, and loyal and competent employees enable Washington Water Power to give you dependable electric service at low pre-war rates . . . and this despite increased cost of operation, greater demand and higher taxes.

# Potlatch Chief Sez

PUBLISHED BY THE KENDRICK CO-OPERATIVE CREAMERY

## REMEMBER FOLKS:

Jack and Jill came down the hill, To buy some dairy products, Jack fell down and broke his crown, While Jill sat on the curb eating a quart of delicious POTLATCH CHIEF ICE CREAM!

Can you blame Jill? Doesn't Potlatch Chief ice cream tempt you, too? We sell ice cream in cones, quarts and gallons in a variety of flavors. Serve it often to your family, as it is good tasting as well as good for you.

If you are planning a picnic or party, why not serve ice cream for dessert? By doing so you eliminate all work and worry which goes with having a good dessert — which is so necessary to top off any special meal.

For an extra special treat put a scoop of it inside half a Juliaetta cantaloupe. Y-U-M-M!

Always have Potlatch Chief ice cream on your shopping list. It satisfies!

A tobacco-chewing mountaineer saw a sign: "Women's Exchange" in a store window. He grinned and went in. "Can I help you?" asked the frozen-faced woman in charge. "Is this the Women's Exchange?"

"Yes." "Are you the woman?" "I'm in charge. What do you want?" "Wal," he said, shifting his cud. "I reckoned we might do some business, but now I guess I'll keep Sal."

The trouble with champagne is that it makes you see double but feel single.

A man may profit by his mistakes — provided he isn't a paratrooper!

report from Europe harps on the same theme. With increasing urgency they tell the grim story of an unfinished war. From France, Italy, Belgium, Holland, Greece, from every country the Allied armies have liberated, come disturbing accounts of hunger, stagnation, mass unemployment, incipient violence.

The graves of our dead are scattered over all of western Europe, and it would be a tragic blunder and betrayal on our part to withdraw the living armies which proclaim our intention to finish the job for which they gave their lives. Our immediate duty and interests are to see that this conflict is won. It cannot be won unless we play our full part in helping the war-torn countries to economic, social and political stability.

The task of the U. S. O. will be tremendous until demobilization is completed. Now armies of occupation, other armies in shifted bases in Hawaii, the Philippines, and demobilization camps, the constant call for aid at hospitalization and transportation centers, all emphasize the necessity for continuing vigorous activity by the U. S. O.

United Seamen's Service will also have to continue its work while our merchant fleets are engaged in the bringing of men and materials home.

Peace in the Pacific makes it possible to give increased aid to the Philippines and to give all possible aid to China, which has been engaged in war much longer than any other nation — more than eight years.

### IDAHO WAR FUND DRIVE WILL OPEN OCTOBER 1

End of the war in the Pacific has not changed campaign plans or quotas for the War Fund, which must be carried on until the last Service Flags are taken down from the windows of American homes. C. J. Strike, president of the Idaho War Fund, Inc., said in announcing that a War Fund drive to raise \$380,000 will get under way in Idaho on October 1st.

The drive this fall, however, will be the final appeal for the War Fund, which finances such agencies as the U. S. O. and Foreign Relief. Every cent of Idaho's quota of \$380,000 will be needed to help carry National War Fund through a 15-months' period or to the liquidation of the agencies of the fund.
