THE OLD JUDGE SAYS...

HARRY: "I don't know what they'll weigh up, Judge, but my cattle and poultry sure have been gettin' fatter since I started to use distillers' dried grains in their ration."

OLD JUDGE: "You're about the tenth one who has told me that, Harry. How do you account for it?"

HARRY: "The by-product recovered from grains used by distillers is very high in vitamin and protein content. It's the best feed supplement we can get to balance the rations we feed our dairy cows, livestock and poultry. Mixed with original grain, these dis-

tillers' dried grains have a much greater feeding value than the original grain has."

OLD JUDGE: "Have any trouble getting all you need?"

HARRY: "Yes, at times, even though the distillers produced 1,200,000,000 pounds of it for the year endin' last June. I hope they'll be in a position to produce a lot more next year."

OLD JUDGE: "Then I guess nobody can tell you grain is wasted in distilling."

HARRY: "Not me, Judge... I know."

THE LAST DAY
FOR MEN NOW IN THE ARMY TO RETAIN THEIR PRESENT GRADES BY REENLISTING ...

Men now in the Army who reenlist before February 1 will be reenlisted in their present grade. Men honorably discharged can reenlist within 20 days after discharge in the grade they held at the time of discharge, provided they reenlist before February 1, 1946.

There's a long list of attractive reenlistment privileges in the new Armed Forces Voluntary Recruitment Act of 1945. The ability to keep your present grade is only one of them, but this privilege expires on January 31.

There are plenty of other reasons why many thousands of men have enlisted, and more thousands are enlisting every day. You'll certainly want to know all of the opportunities open to you. If you'll read them carefully, you'll know why a job in the new peacetime Regular Army is being regarded today as "The Best Job in the World."

HIGHLIGHTS OF THE NEW ENLISTMENT PROGRAM

1. Enlistments for 1½, 2 or 3 years. (1-year enlistments permitted for men now in Army with 6 months' service.)
2. Enlistment age from 17 to 34 years inclusive, except for men now in Army, who may reenlist at any age.
3. Men reenlisting retain present grades, if they reenlist within 20 days after discharge and before February 1, 1946.
4. The best pay scale, medical care, food, quarters and clothing in Army history.
5. An increase in the reenlistment bonus to \$50 for each year of active service since such bonus was last paid, or since last entry into service.
6. Up to 90 days' paid furlough, depending on length of service, with furlough travel paid to home and return, for men now in Army who enlist.
7. A 30-day furlough every year at full pay.
8. Mustering-out pay (based upon length of service) to all men who are discharged to reenlist.
9. Option to retire at half pay for life after 20 years' service—increasing to three-quarters pay after 30 years' service. All previous active federal military service counts toward retirement.
10. Benefits under the GI Bill of Rights.
11. Family allowances for the term of enlistment for dependents of men who enlist before July 1, 1946.
12. Opportunity to learn one or more of 200 skills and trades.
13. Choice of branch of service and overseas theater in the Air, Ground or Service Forces on 3-year enlistments.

A Nice Christmas Present
Eleven thousand veterans of World War I have a Christmas present averaging \$250 each coming to them as a result of a policy change in interest charges on loans made on Adjusted Service certificates, the Veterans Administration has announced. Total additional payments will amount to more than \$2,750,000.

Interest on loans made on certificates, according to word received by Charles Laurensen, contact representative of the administration, with offices in the post office building at Moscow, now will be charged from the date of the loan until October 1, 1931. Formerly interest was computed from date of loan to maturity, which in most instances was January 1, 1945.

Veterans will not be required to file additional claims, and checks are now or soon will be mailed to veterans who have already received settlement of their certificates. All checks are being mailed from Washington, D. C., and no other local information is now available.

While most World War I veterans have cashed their Adjusted Service certificates, the administration still holds \$17,517,152 belonging to 17,858 veterans who so far have failed to step forward and apply for certificate payment. The administration wishes the veterans would step forward and claim the money due them.

Ammunition production between January 1, 1940, and July 31, 1945, totaled 17,886,398 tons, or the equivalent of the explosive effect of 895 atomic bombs, says an army dispatch.

Yes, he does ride cheap!

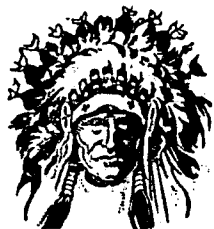

RIDING THE RODS or running a business, it's easy enough when you don't have to pay the freight. You simply get a free ride at somebody else's expense.
Maybe you run a store or service station or dress shop. Would you like to have a next-door competitor who has little or no rent, or taxes, or interest to pay, and who is kept in business partly by your tax money?
Yet this is what happens with government and municipal electric power systems. They are not required to pay federal taxes; often get money from the public treasury at little or no interest; make up losses out of your pocket as a taxpayer.
Meanwhile, on the average, America's business-managed electric companies turn back to the people as taxes about 25c out of every dollar received. And these companies—owned and operated by millions of folks like you—meet all other obligations without benefit of special privileges.

Better yet—at a time when most things cost more—business-managed companies still deliver electricity at low pre-war prices. This record is your assurance that cheap, plentiful, dependable electric power will be yours in the era ahead.

PUBLISHED BY THE KENDRICK CO-OPERATIVE CREAMERY

SOME BUTTER HISTORY

What is believed to be the first creamery established in the U. S. A. was the one built by R. S. Woodhull at Campbell Hill, Orange County, New York, in 1856. The first butter maker was a George George, who later became owner and manager of the plant. Other creameries sprang up in various sections of New York State, and gradually in the states to the west. By 1870 the movement had reached Illinois, where late in the summer of that year Dr. Joseph Tefft opened the Elgin Butter Factory — the first creamery west of the Great Lakes. Here I. H. Wanzer, who gleaned his knowledge of buttermaking from the farm homemakers in the locality usually adept at the art, presided as superintendent and buttermaker. Westward, ever westward, the creamery industry continued its steady and sure way and soon creameries were dotted over all the Middle West states,

and beyond.

This change of butter from a farm to a factory commodity is well mirrored in the statistics of the United States Department of Agriculture. In the year 1850 the U. S. A. produced 313,345,506 pounds of butter. This was all farm-made butter. In 1910, exactly sixty years later, the country's butter output was 1,619,415,263 pounds, approximately 60 per cent of which was made in commercial plants. Today, commercially produced butter represents 85 per cent of the total produced in this country.

Uncle: "You boys of today want too much money. Do you know what I was getting when I married your aunt?"
Nephew: "No, and I'll bet you didn't either!"

MORE ABOUT ARMED FORCES

found in the army yet. Work about four hours a night every other night and the rest of the time is my own. The biggest problem is what to do with my time off. Sleeping is a good pass-time though, and sure have been doing plenty of that. Guess when you sum it all up we 'really have it made.'

Alaska isn't such a bad place, but old Idaho sure would look good to me now. Guess no place looks good to a fellow when he is in the army but home — no matter how good a deal he has.

Well, guess I have "talked" long enough without saying anything, so thanks again for the paper.
Yours truly

He wears the Victory Medal, Submarine Combat Insignia, American Area Campaign Ribbon, Asiatic-Pacific Area Ribbon, Good Conduct Medal and the Presidential Unit Citation. He entered the service at Boise, Idaho, Aug. 10, 1942, and received his honorable discharge December 13, 1945.

After a short visit with his parents' and relatives he went to work for P. F. I. at Camp 36. He is very glad to be home again and says this life suits him fine. He wishes to thank each and every one for the paper while in the service, and says it was very nice to get, even though sometimes many weeks late.

John and Esten Lee arrived home December 18, about half an hour apart. They had not seen each other since John entered the service, so they had a nice visit.

Kenneth G. Wilken FC 2/c, son of Mr. and Mrs. George Wilken, Cameron, left Wednesday for Bremerton, Wash., where he reports again for duty aboard his ship, the U. S. S. Killen, a destroyer.

Kenneth has been enjoying a 30-day leave. He says that as near as he can figure it, at least at the present "point" rate, he should get his discharge sometime next summer.

Pvt. Harry Harris, son of Mr. and Mrs. C. E. Harris, left Tuesday for his station at Fort Douglas, Utah, after spending a Christmas furlough at his home here.

Reduction In Clothing

Consumers will pay on the average, about 5 per cent less for men's and boys' shirts, shorts and pajamas, as a result of a new regulation reducing manufacturers' margins for these goods, says OPA.

The new regulation, effective January 1, 1946, is designed to halt the inflation in manufacturers' prices, to restore as nearly as possible the 1942 level of prices, and to place prices in their proper relationships as regards type of garments.

The combined action of the new regulation and of the maximum average price order should help to get more lower priced shirts, shorts

and pajamas to stores, says OPA. Eventually the average decrease may be even larger than 5 per cent, depending on how completely manufacturers shift to their normal patterns of production and sales, including the normal proportion of now cost goods, states OPA.

"E-m-m-m, maybe it will work. But our guess is that that 5 per cent cut in price will mean an even greater percentage cut in production. Have you tried to buy any of the beforementioned articles recently?"
