GOSH, ONLY A PENNY!

Once a penny was a fortune to a six-year-old. It could buy yards of licorice shoe-strings, an all-day sucker, or a syrup-smothered scoop of shaved ice.

Nowadays, a penny won't buy much for a little boy. But it purchases a lot of labor-saving electricity.

Sonny may sniff at a penny for running an errand—yet that same penny will (at average household rates) do any of these jobs—

- Run a sewing machine all afternoon
- Keep a refrigerator cold for 4 hours
- Vacuum clean 10 large rugs
- Light a 50-watt bulb for 6 hours
- Run the washer for 6 tubs of clothes
- Give you the correct time for 7 days
- Keep a radio playing for 3 hours

Yes, a penny is still big money—electrically. Actually, the average family gets just about twice as much electricity for its money as it did 15 years ago. Keeping electric service cheap, friendly and dependable—even all through the war—is a tribute to the careful business management of your electric company, and to the hard work and experience of all the men and women in it.

From the lower room Larry Thornton and Ronald Lohman were absent last week. Many book reports have been completed in the upper room during the past week. Several have their entire number required for the year completed.

The upper grades have begun memorizing their poetry lines in English. Each week we have a stanza and the author of a well-known poem. Jean has rearranged the library books and classified them. At least the library looks much better.

The seventh and eighth grades have finished their Civics outlines and are now studying for an examination. The fifth and sixth grade boys have brought to life a phase of pioneer history, molded in clay. They have a covered wagon pulled by mules and surrounded by cowboys in big sombreros, chaps and six-guns, meeting a number of hostile Indians, mounted and carrying bows and arrows.

The lower grade pupils have made dainty snow flakes for a border for their room, and have made snow men to decorate their windows. The third graders have started on their new reader: "More Streets and Roads."

In third grade English they are studying the months and holidays. The seventh grade have finished their hygiene and taken the exam. They will now take up "Science" in its place until the end of the term.

"For years," she said, "I didn't know where my husband spent his evenings. One night I came home early — and there he was!"

An old gentleman sat smoking a cigaret in the waiting room of a bus terminal when a porter came along and said: "Can't you read that notice on the wall over there, 'No Smoking Allowed?'" "Certainly I can read," replied the old gentleman, "but I can't keep all your rules. There is another sign on the wall which reads, 'Wear Girtle Girdles!'"

Father: "Well, son, how are your grades?"
 Son: "OK, Pop, except in one. But in that one I'm just like some of our famous men... Washington, Lincoln, Coolidge."
 Father: "How's that?"
 Son: "I've gone down in history."

There's no place like home — if you can find one!

MORE ABOUT ARMED FORCES

home, etc. He added that on the whole mail service was much better while the war was going on than after its close. It frequently happened that he received his Gazette within two weeks of its publication date — it coming by air. But after the war's close, it frequently took all three of them pooling their papers to get a "regular issue."

Don extends his sincere thanks to all for the paper. He says it was a link with home that couldn't be beaten.

Don plans on catching up on his visiting for a while, and then going to work until the fall session of the U. of I., where he will enroll at that time.

Dear McCrearys:

I guess I should have written you long ago to thank you for the Gazette and give you my new address. I have been moved around so much lately that I usually have a new address every couple of months.

I really enjoy reading the Gazette and always look forward to receiving it, even though it is sometimes two or three months old — and when it does come, I usually get three or four at a time.

How is everything back home? I suppose that most of the winter is now over and spring will soon be rolling around. I also suppose that a lot of the boys are home and discharged by now. It shouldn't be too long before we will all be home again.

Are there any of the local boys located in the Tokyo-Yokohama section? I was with Jim Whittinger most of the time but we were finally separated on Luzon.

Well, Mac, I must close for now and thanks again for the paper.

Sincerely
 T/5 Roy O. Silflow

Note: Roy's address is Hq. and Hq. Co., 594th EB & SR, A. P. O. 503, c/o P. M., San Francisco.

As to other local fellows we aren't too sure, Roy, but you might try the following: Pfc. Howard R. Hoffman, 408th QM Co., APO 488; Pfc. Raymond E. Hudson, 97th QM Co., APO 445; Pfc. Thomas E. Fort Ord, Calif.

Dear Mac and Bill:

How is everything around the old home town now days? O. K. I hope. I got here at Fort Ord yesterday and haven't been doing much yet, but will have nine days of intensive training, starting Monday, before we leave here.

We have been issued all our new

clothing and equipment, and have them stamped for shipment.

I am writing this mainly to inform you of my new address, and wonder if you would continue mailing the Gazette?

Well, I guess this is all for today.

As ever,
 Arnold Hoisington.

S/c Don Dammarell left Friday morning to report aboard ship, the U. S. S. Saratoga, following a 5-day leave spent at his home here.
