

KENDRICK GAZETTE

VOLUME 56

KENDRICK, LATAH COUNTY, IDAHO, THURSDAY, JULY 4, 1946

NO. 27

CASH WHEAT MARKET AT AN ABSOLUTE STANDSTILL

Trading in cash wheat has been at a complete standstill with no available supplies of free wheat in the markets during the past week, according to reports to the Production and Marketing Administration by the U. S. Dept. of Agriculture. Prices remain firm at full callings with an urgent demand from the feed trade, flour mills, and manufacturers of formula feeds, whose stocks in most cases are practically exhausted. All industries using wheat in their operations have been forced to close or reduce their output to a small percentage of normal on account of the grain shortage.

The growing wheat crop in the Pacific Northwest is reported to be making good progress and maturing rapidly with the warmer weather during the week. Harvesting of the fall seeded wheat is expected to become general about the middle of July. Indications now are for a crop about 11 percent larger than last year in this area and conditions appear to be favorable for good quality. Storage facilities in the producing districts are more nearly cleaned out than for many years and will be in fine shape to handle the large crop.

At Portland there has been no trading in the market for some time, but selling prices continue to be bid from day to day, with no offerings, however, the prices are largely nominal, but serve as a basis for settling claims when an official market price is required. Mills and feed interests are actively interested in purchasing wheat both for immediate and future delivery but there are absolutely no offerings, and there is apprehension in the grain trade as to whether there will be much free wheat selling when the new crop begins to move. Receipts at terminal markets during the week were 400 cars short of the previous week, consisting of only 457 cars at Columbia river, and 323 cars at Puget Sound terminals during the week—all of which was C. C. C. grain.

Bid prices at the Portland Grain Exchange were as follows: Soft white, soft white (no Rex), white club, western white, western red and hard red winter, all \$1.81½ per bushel, bulk, basis No. 1, 15 day shipment, coast delivery.

At San Francisco the wheat market held unchanged during the week with the scarcity of supplies still the outstanding feature. While there was a keen demand from all classes of trade and full ceiling prices were being bid, most needs went unsatisfied. Flour mills were reported as being forced to operate at only a small portion of capacity and production of mixed feeds also was curtailed by the manufacturer's inability to secure sufficient supplies of wheat and other ingredients. Harvesting of the new central California crop was still restricted to earlier areas and growers in these sections were generally showing a very strong holding tendency. Bids at maximum prices averaged around \$3.30 per 100 for No. 1 hard white and No. 1 soft white, sacked, f. o. b. cars at country sidings, failed to attract any important marketings. Dealers reported inability to make any purchases in Pacific Northwest and Intermountain markets, which generally ship considerable wheat to the Bay region.

New crop wheat arriving at Kansas City in good volume. Receipts of 971 cars for the week represented approximately 75 percent new crop grain. Average test weight remains high at around 62 pounds. The bulk of the wheat arrivals went direct to mills or elevators and was earmarked for resale to the C. C. C. Open market trading consisted of less than a dozen cars, which brought the ceiling price of \$1.88 per bushel.

Wheat movement at Minneapolis eased off, and almost all of the little bit moved through C. C. C. channels. Minneapolis had 633 cars, approximately half of last week's total, and Duluth reported 615 cars, about a third of last week's number. Buyers were still bidding on new crop grain for future delivery but country shippers showed little or no interest. No pickup in wheat movement is expected until harvest is well under way and producers are forced to market because of the lack of storage space. Cash board quotations were entirely nominal and did not include permissible markups, since no wheat was available in any event.

Wheat crop prospects improved about 7,000,000 bushels during the past two weeks, according to the report of the Crop Reporting Board. Winter wheat prospects increased 34,000,000 bushels and totaled 809,000,000 bushels, while spring wheat prospects declined 27,000,000 bushels for a total of 224,000,000 bushels. Favorable conditions, both for filling the heads and harvesting improved the prospects for winter wheat materially in Texas, Oklahoma, Kansas and Nebraska. The dry weather in mid-June was principally responsible for the decline in spring wheat prospects, with the heaviest declines in Montana and the Dakotas.

Harvesting of winter wheat was nearing completion in the more southern states and was active northward to southern Nebraska and the Ohio valley. The condition of winter wheat in the main belts is mostly good, although there were local complaints of the hot weather ripening grain too fast for best filling. The weather generally was favorable for the growth and development of grain in the Pacific Northwest.

Adds To Swim Pool Fund

From Donald Stroth, ex-instructor in the Kendrick schools and ex-G. I., who is now attending the summer session of the U. of I., Moscow, comes the following note:

Dear Bill:

I was down to Kendrick this past week-end and saw the fine progress on the swimming pool. It will really be fine when finished. I see in the paper that you are still in need of funds, so am enclosing a check.

Sincerely
Donald Stroth

Our note: The check was for \$10. And thank you.

POPULAR YOUNG COUPLE MARRIED AT SOUTHWICK

Miss LaDonna Galloway, daughter of Mr. and Mrs. Hiram Galloway of Kendrick, Idaho, became the bride of William Lloyd Israel, son of Mr. and Mrs. Clem Israel, Saturday afternoon, June 29, 1946, at the home of the groom's parents, the Rev. Walford Johnston of Lewiston officiating at the ceremony in the presence of the immediate families.

Big baskets of syringas, lilies, pastel columbine and roses decorated the room and furnished a beautiful background for the simple but impressive wedding ceremony.

The bride was lovely in a cream wool suit with white accessories, adorned with an orchid corsage.

Mrs. Paul Abrogast, Pasco, Wash., a sister of the bride, attended as bridesmaid. She wore a rose net afternoon gown and her corsage was of carnations.

Donald Fry, Kendrick, a life-long friend of the groom was best man. The bride's mother, Mrs. Galloway, wore a gray suit, and the groom's mother, Mrs. C. P. Israel, a navy blue suit. Both wore gardenia and talisman rosebud corsages.

A reception was held immediately after the ceremony. The table was beautiful with white candles and pink rosebuds decorating it, and centered with a huge three-tiered wedding cake. After the first piece of cake was cut by the bride and groom, Miss Aletha Israel, sister of the groom and her mother, Mrs. C. P. Israel served.

Mrs. Lloyd Israel is a graduate of the Kendrick High school with the class of 1942, as were the other three members of the wedding party, the groom, Jeannette Galloway Abrogast and Don Fry.

For the past three years Mrs. Israel has been employed as a secretary at the Boeing Aircraft factory in Seattle. Lloyd Israel was attending the University of Idaho when his education was interrupted by three years of service in the U. S. army in Europe. He has resumed his studies at the U. of I., majoring in mechanical engineering.

Following a few days wedding trip Mr. and Mrs. Israel will reside at Southwick, Idaho, until school starts in the fall, when they will be at home at Moscow.

Takes River Trip

C. W. Jessup of Juliaetta made an over-night trip up the Snake river one day last week on one of the McGrady boats, picking the one 60 feet long and 12 feet wide.

The run from Lewiston, elevation 700 feet to Sanquist Bar, elevation 1250 feet and a mileage of 95, took 11 hours. This bar, where a lodge is being built, is just at the mouth of Hell's canyon, where cliffs tower 4,000 feet above the water.

Mr. Jessup reports that the animals he saw on this trip were one dog, two burros and a pet fawn. However, he thoroughly enjoyed the free show at the lodge, consisting of pictures of the river. He also enjoyed watching the sturgeon fishing, in which several five to six feet long were caught, and the minnows (3-footers) turned loose.

The return trip to Lewiston took but five hours, and for anyone who wants a wild ride, Mr. Jessup recommends this return trip.

Awarded Honorable Discharge

Pvt. Ishmael G. Martin, son of Mr. and Mrs. Roy B. Martin, of Southwick, Idaho, and husband of the former Pauline Powell, of Lenore, Idaho, has been discharged from the army at the Fort Douglas separation center, says an official dispatch dated June 27.

Pvt. Martin, who served six months with the 35th Infantry Regiment as a Rifleman, is authorized to wear the Asiatic-Pacific Theatre of Operations Ribbon with two battle stars; Philippine Liberation Ribbon, Combat Infantryman's Badge, American Theatre Ribbon, Bronze Star, Purple Heart, Good Conduct Medal, and the Victory Ribbon.

Prior to entering the army, Sept. 18, 1944, Martin was employed in farming operations at Lenore, Ida.

Celebrates Birthday Anniversary

C. W. Jessup celebrated his 84th birthday anniversary by taking a trip to the home of his nephew, Warren Stanley, Dalles, Oregon. His sister, Mrs. Mary Stanley, from Moscow, Calif., was also visiting there, and his half-sister, Mrs. Aletha Miller of Tucson, Ariz., was visiting her son in Portland. Mr. Jessup and the Stanleys drove over for a few hours.

Mr. Jessup and Mrs. Miller had not seen each other for 62 years, she being only three at the time of their parting. While at Portland he also got to see Mrs. Ethel Carson, his granddaughter, her husband, and their three children, who drove in from Yakima. He also made a trip to Mt. Hood, above timberline, to Timberline Lodge, where snow was piled 2 to 20 feet high.

Brazil possesses some of the world's largest deposits of manganese — used for hardening steel.

PERSONALS AND NEWS ON AMERICAN RIDGE

Mr. and Mrs. Norla Callison and Mr. and Mrs. Harry Benscoter attended the Masonic dinner and dance in Kendrick last Thursday.

Mr. and Mrs. Geo. Havens and family were Thursday dinner guests of Mr. and Mrs. Ira Havens and Grandmother Keene at Moscow.

Mr. and Mrs. Harold Roberts and family attended a camp meeting at Colfax on Sunday.

Mr. and Mrs. Grant Bateman and sons Don and Jerry spent Sunday evening with Mr. and Mrs. Manning Onstott and family.

Mr. and Mrs. E. M. White and family were visitors in the home of Mr. and Mrs. Frankie Benscoter Sunday evening.

Mr. and Mrs. James Morrison and daughters and Joe Morrison of Lewiston were Sunday dinner guests of her parents, Mr. and Mrs. Grant Bateman and family.

Mr. and Mrs. Norla Callison and family were Thursday visitors of Mr. and Mrs. Bruce Glenn, calling to see the weather balloon.

Mr. and Mrs. Grant Bateman helped serve at the Grange Livestock sale in Lewiston Saturday.

Mr. and Mrs. John Fricknecht and six daughters of Moscow were Sunday guests of Mrs. Mary Deobald at a picnic dinner. That afternoon they were callers at the Walter Big-ham home.

Ernest Brammer spent Monday and Tuesday with Mr. and Mrs. Werner Brammer.

Mr. and Mrs. Bruce Glenn and daughter were Sunday afternoon visitors of Mr. and Mrs. Robert Cain.

Mr. and Mrs. John Wilson and daughters of Troy and Mrs. Bob Cain were Lewiston visitors Saturday.

Mr. and Mrs. Bob Draper and son Ervin were Sunday dinner guests of Mr. and Mrs. Frankie Benscoter.

Mr. and Mrs. Andy Cox and family and Mrs. Ed. Kent went to Spokane Thursday, returning Sunday.

Mr. and Mrs. Archie Morgan of Moscow, were Sunday dinner guests of Mr. and Mrs. Ed. Kent.

Bobby McCall spent Friday night at the Walter Benscoter home.

Marybeth Benscoter spent the week-end Kendrick with friends.

Mr. and Mrs. Carl Whitney and daughter and Don Berriman of Hamilton, Montana, spent several nights with Mr. and Mrs. Wayne Davis, leaving for their home Tuesday morning.

Mr. and Mrs. Stewart Fockler of Pullman, Wn., were Sunday evening visitors at the Wayne Davis home.

Mr. and Mrs. Warney May were Sunday afternoon visitors in the home of Mr. and Mrs. Harry Lang-don.

Robert Cain was a Sunday morning caller in the Warney May home.

Mr. and Mrs. Harry Benscoter were Sunday morning callers in the home of Mr. and Mrs. Walter May, and Sunday dinner guests of Mr. and Mrs. Walter Benscoter and family.

Harry Benscoter attended a soil conservation meeting in Troy Tuesday evening, while Mrs. Benscoter visited in the Ed. Carlson home.

Mrs. Marvin Chaney visited with Mrs. Harry Benscoter Tuesday afternoon.

Dick Benscoter called home from California Sunday evening, saying that he would not be able to come home on his furlough this time.

Bud Eichner has been quite ill with the measles the past week.

Mr. and Mrs. Bud Fey and Mr. and Mrs. Ray Knutson and daughter were Sunday dinner guests of Mr. and Mrs. Perry Mattoon and family. That afternoon all went to the M. C. Halliday ranch to pick cherries.

Beverly Mattoon returned home Friday evening from Moscow, where she had spent the week.

Geo. Havens and sons Ira and Teddy went to Moscow Tuesday morning, and from there accompanied Ira Havens to Wawawai to get apricots.

PERSONALS AND NEWS ABOUT KENDRICK FRIENDS

Mrs. George Brocke and Mrs. Chas. Andrus were passengers for Lewiston Tuesday.

Those attending the game at Kamiah Sunday from here were Mrs. A. O. Kanikkeberg and daughter Ann, Paula McKeever, Mrs. Werner Brammer and Jean Ramey.

Among those attending the ball game at Lewiston Sunday evening were Charles Easterbrook, Maurice Long, Mr. and Mrs. Roy Ramey and Mr. and Mrs. A. O. Kanikkeberg and family.

Mr. and Mrs. Charlie Oliver, of Elk River, Minn., left Thursday after spending several days here visiting her brother and family, Mr. and Mrs. Kenneth Powell. Mr. and Mrs. Oliver went from here to Bengen, Wn., to visit another brother, Irvin Powell and family.

Mr. and Mrs. Arthur Fraser and baby left Tuesday for Seattle to visit Mr. and Mrs. Donald Fraser and S. I. C. Bob Fraser, who is now stationed at Bremerton.

Mr. and Mrs. Chauncey Kennedy of Colfax came down to spend Sunday with Mr. and Mrs. Marvin Long, bringing with them Miss Marion Lowery who will spend some time visiting her sister, Mrs. Long.

Mr. and Mrs. Edgar Long and son Roy spent Sunday at the James Benjamin home on Little Bear ridge.

Mr. and Mrs. Frank G. Harris and sons Dick and Jerry and daughter Villa Lou were visitors Tuesday in the Paul Lind home.

Donald Stroth, who is attending the U. of I., came down Saturday to spend the week-end visiting in the Paul Lind home.

Frank Andrus of Troy was down to spend several days visiting his brother and family, Mr. and Mrs. Charles Andrus.

Mrs. Parkins of Troy was in town this week visiting her daughter, Mrs. Charles Andrus.

Mr. and Mrs. Kenneth Powell and children were in Lewiston one evening last week visiting her parents, Mr. and Mrs. Harry Vale.

Mr. and Mrs. Paul Abrogast and little daughter, Pamela, of Pasco, Wn., who have been here the past week visiting her parents, and to attend the wedding of her sister, LaDonna and Lloyd Israel, will leave for their home after the 4th.

Mr. and Mrs. Elwood Rosenau of South Dakota, Mr. and Mrs. Charles Fey and Mr. and Mrs. Roy Fey were dinner guests in the home of Mr. and Mrs. Bud Fey last Tuesday evening. Later in the evening Mr. and Mrs. L. W. Heimgartner and Mr. and Mrs. Arthur Fraser were callers.

Mr. and Mrs. Elwood Rosenau have departed for their home in South Dakota after a visit in the home of Mr. and Mrs. Charlie Fey.

Bobby McCall has been visiting this week at the Walter Benscoter ranch.

Parker McCreary joined Mr. and Mrs. N. H. Rhodes of Lewiston on a fishing trip to Winchester lake Saturday.

Mr. and Mrs. John Knutson of Tumwater, Wash., accompanied by Sidney Knutson and Mr. and Mrs. Charles Gilbert, spent Thursday and Friday in the A. Riley home.

G. A. and Edward Darby of Chico, Calif., and their nephew, Don Keller, of Coeur d'Alene, Idaho, who are visiting in the home of their brother, John Darby, Southwick, were calling on old friends in Kendrick last Thursday.

F. T. Aitken left Tuesday for his home at La Crescenta, Calif., after a visit with his daughter, Mrs. Lester Weaver and family, Southwick. He went by plane from Lewiston to Pocatello, and will go on from there by plane or bus, as conditions will permit.

Elanche and Jimmie Diehl of Los Angeles, Calif., arrived here early last week to spend the summer in the home of their grandfather, Frank Wilken. Katherine and Karen Wilken also arrived last week from Portland to spend a couple of weeks with him. Mr. Wilken went to Portland to get them Sunday, arriving back here Tuesday.

Mr. and Mrs. Herman Schupfer and family returned home Sunday evening after a two-week vacation motor trip into California. They report a most pleasant time.

Capt. and Mrs. Rex Blewett arrived here Monday evening from Emmett, Idaho, where they had been visiting her parents. Capt. Blewett returned from duty with the army of occupation in Germany on June 19, and was met at Fort Douglas, Utah, by his wife. They spent a few days there with his brother, Major and Mrs. Aaron Blewett and family before going to Emmett and then coming to Kendrick. They will visit here a few days with his brother, Mr. and Mrs. R. L. Blewett and son. Rex looks the picture of health, but says he doesn't care too much for army of occupation duty "lots of paper work." He is now eligible for a discharge but doesn't know whether to take it or stay with the army.

Walter Thomas of Greenacres, Wn., arrived here last Friday, bringing down his mother, Mrs. Lucy Thomas, who had spent the winter in his home. He returned to Greenacres on Saturday, taking Allan Johnson home with him. Walter and family will be here again the Fourth. Mrs. Lucy Thomas will remain here for the summer.

Rev. J. H. Coulter and family arrived Tuesday evening from Shoshone Idaho to take up their assignment here. Rev. Coulter is the new pastor of the Kendrick Community church.

Barbara White accompanied by Mrs. Lester Crocker and Jean were Lewiston visitors Thursday.

KENDRICK WINDS UP GOOD SEASON WITH TWO WINS

Following a 10 to 1 win over Weippe at Orofino a week ago Sunday, the Kendrick baseball team finished their league season Sunday by shutting out Kamiah 5-0 on the Kamiah field.

A. O. Kanikkeberg on the mound for Kendrick held Kamiah to six hits while fanning eight batters. W. Brammer and E. Brammer each got 2 for 4 to account for four of Kendrick's seven hits. Fike and Wessels each got two hits for Kamiah.

Kendrick's big inning was the seventh, when they bunched two hits, a base on balls and a Kamiah error for three runs. The other two runs came one in the third and one in the sixth.

Batteries for Kamiah were Frank, Fike (7) and Wessels. For Kendrick: A. Kanikkeberg and O. Kanikkeberg. The team record follows:

Player	Pos.	G	AB	R	H	Pct.
A. Kanikkeberg	1b-p	10	38	12	316	
R. Watts	cf	6	27	8	296	
W. Brammer	2b-cf	10	43	12	279	
Armitage	2b-cf	10	43	12	279	
O. Kanikkeberg	ss	4	16	4	250	
E. Brammer	2b	4	17	4	235	
K. Powell	rf	10	37	7	189	
C. Andres	3b	3	11	2	182	
L. Trout	p-1b-3b	10	40	7	175	
T. Deobald	c-rf	7	23	4	174	
H. Travis	3b	9	24	4	167	
J. Kanikkeberg	r-1b	9	30	5	167	
Lyda	p	3	11	1	091	
Totals		10	354	80	226	

Pitching records:
Lyda pitched three games, winning two and losing one for a percentage of .667.
A. Kanikkeberg pitched four games for a percentage of .667.
L. Trout pitched six games for a percentage of .250.
The game record shows the following:
Orofino, 2 — Kendrick 1.
Lapwai, 10 — Kendrick 5.
L. Roundtable 13 — Kendrick 3.
Kendrick 8 — Weippe 6.
Kendrick 11 — Kamiah 4.
Orofino 4 — Kendrick 2.
Kendrick 5 — Lapwai 4.
L. Roundtable 7 — Kendrick 3.
Kendrick 10 — Weippe 1.
Kendrick 5 — Kamiah 0.
Kendrick 53 — Opponents 51.

It should be remembered, too, that the Kendrick team was severely handicapped by lack of practice, the wet ball diamond preventing early workouts, and the cloudburst of May 26 putting the finishing touches to a diamond that was being put into shape - in fact, so finished is the field that it will be many months before anything but softball can be played there.

Stocks Beans, Peas, Down

Combined farm and warehouse stock of dry beans were 301,000 bags, and of dry peas were 176,000 bags on June 1, says a U. S. Department of Agriculture dispatch. Farm stocks amounted to only 3,000 bags of beans and 9,000 bags of peas out of the total. On June 1 a year ago the combined stocks of beans were 350,000 bags. There were no measurable farm stocks of peas a year ago.

The total stocks of beans included 2,000 bags of pea and medium white; 180,000 bags of Great Northern; 6,000 bags of pintos; 51,000 bags of small reds and 62,000 bags of other varieties, chiefly garden seed. Stocks of Great Northern and of garden seed varieties were materially smaller than last year, while pinto stocks were nearly twice as large.

Total pea stocks were less than 40 percent of stocks on hand a year ago. This year's holdings included 100,000 bags of Alaska and other smooth green varieties; 14,000 bags of First and Best, and other smooth white or yellow varieties, and 62,000 bags of other varieties, chiefly the wrinkled types grown for seed.

A United States survey of stocks of dry beans and dry peas indicates that on June 1, 1946, there were 310,000 bags of dry beans (uncleaned) on farms and 1,076,000 bags (cleaned) stored in the usual commercial warehouses and under Production and Marketing Administration storage contracts in or near producing areas. On the same date there were 55,000 bags of dry peas (uncleaned) on farms and 543,000 bags in usual Production and Marketing Administration storage places in producing states. About 12,000 bags of dry beans and 184,000 bags of dry peas stored for the Production and Marketing Administration are included in the totals in commercial storage on June 1, 1946. Estimated stocks do not include dry beans and peas already in direct consumption trade channels (store and wholesale grocery stocks, etc.).

About G. I. Bill Of Rights

Various phases of the G. I. Bill and provisions of other laws affecting the veteran, administrator by the Veterans Administration, will be explained by James A. Daly, contact representative of the V. A. upon his regular weekly trips to Genesee, Troy, Kendrick, Deary and Juliaetta each Wednesday.

Aid will also be given veterans, their dependents or beneficiaries in applying for any of the rights and benefits to which they may be entitled. Mr. Daly will appear at the post office in the towns of Latah county on the following schedule, Wednesday of each week:

9:00 a. m. to 10:00 a. m., Genesee.
11:00 a. m. to 12:00 noon, Juliaetta
1:00 p. m. to 2:00 p. m., Kendrick.
2:30 p. m. to 3:30 p. m., Deary.
4:00 p. m. to 5:00 p. m., Troy.

Mr. Daly, a veteran of World War II, recently completed an intensive three-month course of instruction and is thoroughly competent in advising the veteran of his rights.

Wins More Prize Money

At the Uniontown, Wn., Rodeo and Stock Show on June 29 and 30, Jack Maynard, Kendrick, won third place in the bareback riding contest on the 29th and first place on the 30th, making an average of second place for the two days in a field of 13 riders.

Jack left Monday morning for McCall, Idaho, where he will take part in their Rodeo on July 3 and 4. He will then come back to Nezperce, Idaho, to take part in that Rodeo July 5 and 6.

Old Sol Turns On Heat

Monday was without a doubt the hottest day of the year to date — with the thermometer crawling to a firm 90 degrees about 2:00 p. m.

However, three warm days in succession were too much, and a light rain began falling about 8:00 p. m.

Tuesday morning dawned with cloudy skies, but by mid-morning the sun was again at work. However, the thermometer was able to hit but a modest 85.

The weather prediction is for clear, so all are in hopes that we will have a fine sunny day the Fourth.

Bible School Success

The Bible school held the past two weeks at the Full Gospel church came to a happy end Friday when all enjoyed a picnic.

The past two weeks have been most pleasant ones for all concerned with 68 pupils enrolled. A program was enjoyed Thursday evening when parents and friends were invited to come and see and hear the things the children had learned.

Thanks For The Paper

From Dave Cuddy AMM 2/c, at Miami, Florida, comes the following brief note:

Dear McCreary's:

I have been receiving the paper regularly for quite some time now and have certainly enjoyed it. It keeps you in quite close contact with what's going on at home.

I wish to thank you and all concerned for making possible the sending of it — but as I am leaving soon and my next change of address will be home, you can strike my name from the mailing list.

Sincerely yours
Dave Cuddy.

INTERESTING NEWS BITS FROM JULIAETTA AREA

Mr. and Mrs. Don Candler and children have moved to Bovill, where Mr. Candler is employed.

Mrs. Bertha Beard of Yakima, Wn., has been visiting her mother, Mrs. Dumbauld, here, also her sister, Mrs. Eva Perryman, Kendrick.

Mr. and Mrs. Arlie Nye and three children of Clarkston, accompanied by Miss Donna Jean Nye, left for Council, Idaho, to spend a week with Mr. and Mrs. John Kite and other relatives. Mr. and Mrs. Woodrow Nye and Buzz Nye left for Council on Wednesday, where they will join the family for a visit and fishing trip.

Miss Nellie Taylor has returned home after teaching Bible school for two weeks at the Full Gospel church in Kendrick.

Gust Hansen, Wallace Hutchinson and Lloyd Weber spent Sunday fishing in Atwater lake.

Mr. and Mrs. Chas. Hicks motored to Lewiston on Saturday.

Mr. and Mrs. Dave Denner and children were Saturday shoppers in Lewiston.

Mrs. Raymond Steen of Eckman, North Dakota and Miss Wilma Schultz spent Friday and Saturday with her parents, Mr. and Mrs. Chas. Schultz, and her sister, Mrs. Gerald Schmidt of Leland. Mr. Steen was highly impressed with the beautiful gardens and splendid grain crops, because in the Dakotas they have had a very dry, hot season.

Mrs. George D. Calvert took a group of ladies from Juliaetta and some from Lenore to Cream ridge Saturday to attend the annual Conference of the Ladies Missionary Society of the United Brethren church.

Miss Esther Nystrom from the University of Idaho was a Monday caller at the George D. Calvert home here.

Following the funeral services held for Mrs. Chas. Wright a lunch for 36 was served at the George D. Calvert home. Members of the immediate family and relatives were the guests.

Mr. and Mrs. Earl H. Hobe, son and daughter-in-law of Mrs. John Brandt left Monday morning for their home in Minneapolis, Minn., after a visit here.

Ben F. Adams of Grangemont, Idaho, spent Monday at the home of his sister, Mrs. John Brandt.

Last Friday Mr. and Mrs. John Brandt and Mr. and Mrs. Earl Hobe motored to Moscow, where they spent the day with Mr. and Mrs. Eben Adams.

Sunday Mr. and Mrs. John Brandt were host and hostess to twelve supper guests at a lawn party. Those present included Mr. and Mrs. Eben Adams, Mrs. Keith Adams and son Michael, Mrs. Lola Sutherland and Mrs. Amanda Alexander, all of Moscow, and Mrs. Alexander's grandson, Gary Adams, from Spokane. All reported a most enjoyable time.

Mr. and Mrs. Howard Hutchison called at the Walter Cochran home on Sunday afternoon.

Mr. and Mrs. Christ Molden motored to Lewiston Sunday evening.

Mikey Hedler spent a few days with his parents the past week, and on Monday returned to Kalotus, Wn., where he is employed.

Day-Schultz Nuptials

Ensign Margaret Schultz, daughter of Mr. and Mrs. Albert Schultz, Moscow, and Jack Day, son of Mr. and Mrs. J. A. Day, Porterville, Calif., were united in marriage on June 15, in California, with only members of the immediate family present for the ceremony.

The bride wore a green gaberline suit with brown accessories. Her corsage was a gardenia with rose buds. The matron of honor was the twin sister of the bride, Mrs. Taylor Parker. She was attired in a rose wool suit with brown accessories, and her corsage was a gardenia.

Following the ceremony a reception was held at the home of the bridegroom's parents.

The bride's traveling costume was of red silk gaberline.

Following a short honeymoon trip the young couple will make their home in Lindsay, Calif., where the groom is employed.

The bride served one year as a navy nurse at the Shoemaker Naval hospital. Previous to that she was employed three years in the Oakland, Calif., Children's hospital and one year in Idaho hospitals.

The groom spent four years in the service of his country.

The Schultz family resided at Cameron for a number of years, and are well known here.

Riley-Gilbert Nuptials

Miss Alice Riley, daughter of Mrs. Amelia Riley, Kendrick, and Charles Gilbert, U. S. N. R., were united in marriage Friday evening at Seattle, Wn.

The happy young couple will make their home in Olympia, Wn., where the groom is employed.

Have you given to the Living War Memorial Swim Pool Fund?

NEWS ITEMS ABOUT LELAND RESIDENTS AND FRIENDS

Mr. and Mrs. Woodrow Flesman and daughter Yvonne and Karen of Richmond, Calif., are spending several days here visiting at the Herman Johnson home, and with other relatives and friends.

Mrs. Billy Deobald spent Wednesday and Thursday with her parents, Mr. and Mrs. Robert Draper.

Mrs. Ida Silflow spent Thursday afternoon with Mr. and Mrs. Walter Silflow.

Dale Craig of Nezperce spent last week with his uncle and aunt, Mr. and Mrs. Roy Craig.

Mr. and Mrs. G. F. Cridlebaugh and daughters Jeanne and Shirley Ann returned Wednesday from a vacation of several days spent with relatives and friends at Spokane.

Mr. and Mrs. Laurel Flesman and family of Kellogg arrived Friday to visit at the home of Mr. and Mrs. Lloyd Craig and with other relatives and friends.

Mr. and Mrs. Robert Draper and Ervin were Sunday afternoon visitors in the home of Mr. and Mrs. Frankie Benscoter on American ridge.

Mrs. Lloyd Craig and daughters and Mrs. Laurel Flesman and family were Saturday dinner guests of Mr. and Mrs. Oney Walker.

Mr. and Mrs. Woodrow Flesman were Friday evening callers in the home of Mr. and Mrs. Roy Craig.

Mr. and Mrs. A. G. Peters and Mr. and Mrs. Gordon Peters and daughters attended the wedding of Burton Harrison, son of Mr. and Mrs. Lyle Harrison, on Sunday, at Lewiston.

Mr. and Mrs. Lloyd Craig and daughters were Sunday dinner guests of Virgil Flesman at Clarkston.

Mr. and Mrs. Orval Walker and sons were Sunday dinner guests of Mr. and Mrs. Oney Walker, the occasion being Orval's birthday anniversary.

Paige Craig is spending several days this week in Nezperce at the Charles Craig home.

Mr. and Mrs. A. G. Peters were Sunday dinner guests of Mr. and Mrs. Lyle Harrison at Lewiston.

Mr. and Mrs. Chas. Craig and family of Nezperce, John Vincent and Mr. and Mrs. Jesse Thornton and son Keith were Sunday afternoon and evening callers in the home of Mr. and Mrs. Roy Craig.

Mr. and Mrs. Chas. Hoffman were Thursday dinner guests of Mr. and Mrs. Donald Morgan at Lenore.

Barbara and Marlene Silflow returned home Friday from Pullman where they spent several days visiting their aunt and uncle, Mr. and Mrs. August O. Wegner.

Mr. and Mrs. Delbert Hoffman and daughter Diana are spending this week with Mr. and Mrs. Chas. Hoffman.

Mr. and Mrs. Chas. Hoffman were Thursday dinner guests of Mr. and Mrs. Donald Morgan at Lenore.

Diabetes Takes Rising Toll in This Country

About four million people in the present population of the country will become diabetic some time during their lives, according to estimates made by statisticians of the Metropolitan Life Insurance company. The number of diabetics now is well above 500,000. Each year at least 50,000 persons are added to the list, while the reported number of deaths is about 40,000 annually.

The chances of eventually becoming diabetic are distinctly greater for women than for men. Of the population under 50, just over 4 per cent of the females and a little more than 2 per cent of the males will become diabetic at some time.

One-half the total cases of diabetes in this country are concentrated at age 60 and over, though the population at these ages comprises only one-ninth of the total. One-fourth of the diabetics are under 50 years of age, while the remaining fourth are between 50 and 60. The rise in the diabetes onset rate with age is greater for women than for men. Between 40 and 50, the rate for women is more than twice that for men.

Overcrowding of Chicks Costly in Poultry Raising

Overcrowding of growing chicks is one of the most common and most costly errors in the poultry business. It not only leads to waste of feed, poor growth, disease and cannibalism, but it may also be the indirect cause of weakened stock. Avoid loss from overcrowding by starting only as many chicks as your brooder house will accommodate and by providing room for expansion as the chicks grow.

A 10 by 12 foot brooder house will take care of from 250 to 300 chicks. If straight run chicks are brooded, the cockerels should be removed as soon as possible to provide more room for the pullets. If sexed pullets are brooded, another house should be provided for them when the pullets are six or eight weeks old.

A wire-floored sun porch, the size of the brooder house, is an excellent means of providing extra space for growing chicks. They may be fed on the sun porch where they will get the benefit of sunshine and fresh air.

The Hope Diamond

The fabulous blue diamond, weighing 112 1/4 carats uncut and about 68 1/2 carats after cutting, was stolen in 1642 from the breastplate of an idol in a temple near Lhasa, Tibet, by a French adventurer, according to one version of its history while others claim it came from a mine in southwest India. The French jeweler, Baptiste Tavernier, sold it to Louis XIV in 1669 and it remained a possession of the French crown until the robbery of the crown jewels in 1792. At one point it turned up in the shop of William Fals, an Amsterdam gem cutter, but his son stole it and no trace of it was found until a London dealer, David Eliason, sold it in 1830 to an English banker, Henry Thomas Hope, for \$90,000. Meantime the point of the original heart shape had been cut off to disguise the famous stone so that it weighed 44 1/4 carats by this time. In 1861 Hope's daughter Henrietta married the sixth Duke of Newcastle. Her son, Lord Francis Hope, inherited the diamond and it was worn by his wife, May Yohe, American musical comedy queen, whom he married in 1894. About 1908 Habib Bey acquired the jewel for nearly \$400,000 and in 1909 it was auctioned in Paris and purchased by a dealer named Rosenau for about \$80,000. The firm of Cartier sold it in 1911 to Edward B. McLean for nearly \$400,000 as a gift for his wife, Evelyn Walsh McLean, the present owner.

Poison Ivy

The best cure for poison ivy is to avoid the stuff. The waxy three-leaved vine-like plant is easy to identify but once you are affected by it you are in for plenty of discomfort. On summertime tramps through the woods it is best to wear high shoes or boots. If you know you've walked through poison ivy clean your footwear carefully before removing. Bathe your feet and ankles or other exposed parts in warm water and laundry soap. Swab on alcohol. For treatment, procure at a drug store one ounce of tincture of iron, containing approximately 15 per cent ferric chloride. Dilute this with one-half ounce alcohol and one-half ounce water. This makes two ounces of remedy with a ferric chloride content of about 7 or 8 per cent, which is the maximum strength advised. Paint this liquid on the infected parts with a camel's hair brush.

Vitamin A Potency

Milk fat has long been established as the most important source of vitamin A, which largely governs growth, development, vision and maintenance of buoyant health in the animal body. As a result of one of the most comprehensive research projects ever undertaken on a nationwide scope, the bureau of dairying has announced that the weighted average vitamin A potency of all butter is between 15,000 and 16,000 units per pound. This is almost double the vitamin A potency originally assigned butter by early and limited investigation.

Where Are You Going To Live?
 About the latest proposals regarding government housing activities come from President Truman, who asks congress to consolidate all housing activities under the National Housing Administration. The veterans' emergency housing bill has been before congress for a long time and the object of this emergency measure is to establish a National Housing Expeditor. The president's proposal would perpetuate certain emer-

gency war powers and give the chief executive authority over housing. The capital of the United States is an outrageous sample of inflation in real estate and the scarcity of houses. Prices of residential property in Washington is two and three times as high as it was before 100,000 people from the district went to war. It is almost impossible for Washingtonians who have come back home since the end of hostilities to find living quarters for themselves and

their families. Most people call it a "shortage," but it looks to us as if the right name for it was "inflation," both in dollars and cents and in numbers of government employees, who vie for what living accommodations are available. The same condition, although in a lesser degree, and minus the government employees, exists throughout the nation, and is not confined to city property but extends into the agricultural communities as well. The net result is that there is a tremendous and unreasonable boom in land and real estate values. Call it inflation and you will still be correct in your definition. Or, recognize the danger of a general collapse in real estate values and you will be right.

This same condition existed after World War I, and the same result will cause countless thousands to mourn over their real-estate losses unless real reasoning accompanies a purchase.

It's really a wholesale form of real estate gambling.

Looking At The Record
 In reviewing the record of congress for the past year one may feel impatient with the lack of definite action on such problems as universal military training, a unified command, and adequate legislation to promote industrial peace. Certainly, these items could stand immediate attention.

But among the things on the credit side of the ledger is the successful effort of congress to prevent pressure groups from driving through a program of socialistic legislation which would cost the taxpayer billions of dollars, largely regulate their personal lives and push the government deeper into business competition with its citizens.

On this latter point, one of the main efforts of pressure groups has been to get congressional approval of legislation that would put the electric light and power business through the establishment of additional TVA's. Advocates of such a move talk about "cheap" power generated under government control. But they skip lightly over the enormous cost to the public treasury to produce that "cheap power."

They also ignore the tax loss to the federal, state and local coffers when private utilities and associated businesses are forced out of business. So, while congress may be criticized for its inactivity on many vital issues, it is to be commended on its resistance to the inroads of socialism and socialism's inevitable bedfellow—regimentation.

Tire Prices Go Up
 Ceiling prices for passenger car replacement tires have been increased at manufacturing, wholesale and retail levels by amounts equal to 3.3 per cent of the existing retail ceiling prices. Truck, bus and industrial replacement tires have been increased by the equivalent of 1.4 per cent, though no change is made in retail ceilings for these tires.

GOSPEL TENT MEETINGS

Rev. G. P. Kendall

will commence a revival meeting in the big Gospel Tent in Kendrick

Thursday, July 4th

SERVICE EVERY NIGHT EXCEPT SATURDAY

Sponsored by the Full Gospel Church, Kendrick

SMOKEY SAYS—
 To help stop floods, erosion
PREVENT FOREST FIRES

Bread Price Rises
 Effective June 12, consumers began paying 1 cent per pound more for bread and 1 cent a dozen more for bread-type rolls. On most loaves the increase amounted to 1 cent a loaf, says O. P. A.
 The ceiling increase does not apply to rye bread, which was recently granted an interim increase of 2 cents a pound. This action, based upon extensive O. P. A. and federal trade commission cost data covering the entire baking industry, is designed to assure consumers of an adequate supply of bread and bread-type rolls as is consistent with the President's Famine Emergency program.
 Kendrick is your home town. Be loyal to it. Trade at home!

Prices Of Nails
 Steps to increase the production of nails to meet requirements of the Veterans' Emergency housing program and eliminate a critical bottleneck were announced.
 The actions consist of a \$10 a ton price increase by O. P. A. and concurrent action by CPA in setting up specific production goals for all manufacturers of nails. In the same action, O. P. A. increased the price of bale wire ties.
 Nails were increased an additional 50c per 100 pounds, which amounts to a net increase of \$10 per ton, and covers all types and finishes of steel nails and staples.
 New York and Pennsylvania produce over two-thirds of the buckwheat grown in the United States.

Develop New System Of Drying Vegetables

A revolutionary new method of drying fruits and vegetables, which promises to add substantially to our supply of preserved foods, has just been developed and is known as anhydrous. "Anhydrous" refers to the nearly moisture-free final condition of the foods as the consumer receives them, rather than to the process by which the result is attained.

The new process, invented and developed by Clarence Birdseye, who also gave us quick-frozen foods, differs from earlier drying processes in that it is much more rapid, averaging 1 1/2 hours instead of 18. As a result, the attractive appearance of fresh food can reportedly be retained and the foods can be rapidly rehydrated. Since foods dried by this process require no soaking and a minimum of cooking (carrots need be boiled only 6 to 8 minutes), the nutritive value and the flavor compare favorably with cooked fresh produce.

Whereas by older drying processes the carrots, potatoes, apples or other foods were arranged in thin layers on trays or a belt, over which warm dry air was passed, in the anhydrous process pieces of foods are dried throughout by a combination of conduction, convection, and infrared radiant heat. This mass attack by all kinds of heat at once avoids long exposure or scorching, and is said to insure adequate drying without "case-hardening."

Warn Faulty Wiring Cause of Many Fires

Nearly every day someone loses a home by fire due to faulty wiring and specialists advise these precautions to avoid damage from imperfect electrical connections:

- Do not stand on damp ground or wet floor while attaching, detaching or using an electrical appliance.
- Determine the cause of a blown fuse before installing a new one, since blown fuses indicate a too heavy load on the circuit.
- Make certain that only fuses of the proper size are used.
- Do not change fuse unless switch is open.
- Do not use any substitute for a standard fuse plug.
- See that all gears, rotating parts and belts on electrical equipment are enclosed or properly guarded.
- Replace extension cords when they become frayed or worn.

Three Gold Balls

The sign of the three brass balls which hang over pawnshops is derived from the coat of arms of the great de Medici family of medieval Italy. The members of this family were at one time engaged in the medical profession. According to legend, Averoardo de Medici, an officer under Charlemagne, slew the giant Mugello, on whose mace were three gilded balls, whereupon he adopted this as a family device. As the de Medici family became prominent in medicine the symbol became attached to that profession. In the 13th century when pawnbroking flourished in Italy the earliest money lenders were the Lombards and the Jews. Members of the de Medici family gained the same prominence in this field as they had in medicine. Thus the ancient symbol gradually was transferred from the medical profession to the pawnbroking business. Other legends have it that the three balls either represent three pills (when they symbolized medicine) or that originally they were three flat golden coins, or effigies of byzants, laid heraldically upon a sable field, and later were changed to balls to attract more attention.

Heel Flies

Although some dairymen have noted an attendant loss in milk production, many farmers have failed to realize that the heel fly causes severe pain to the milk cow as well as considerable damage to the hide and meat. Every heel fly is capable of laying approximately 500 eggs on the hairs of the leg just above the hoof. Within two to six days, they hatch into small worms which penetrate the skin, causing some pain. As they increase in size during the following 10 months, they work their way to the back of an animal, and if not killed, develop into what farmers call "wolves," also known as ox marbles or grubs. Emerging through the skin, they drop to the ground and hatch into heel flies. Tests indicate that cattle, given the grub treatment, which is simple and inexpensive, gained from a fourth to a half pound more than untreated cattle during the first 60 days following treatment.

Port Privately Developed

Baltimore is largely a private enterprise port. Most of its large ocean facilities are railroad-owned and operated, although there are some other privately owned terminals and some city-owned piers in the upper harbor. The legislature, many years ago, passed an enabling act which permitted the city, upon approval by the voters, to issue bonds, the proceeds of which would be used for harbor improvement installations, providing such improvements would be wholly self-liquidating. This has resulted in the construction of only needed facilities of absolute economic merit, one of which is now railroad-operated under long-term lease.

Wherever You Drive...

Depend on me—
 Your friendly Independent Mobilgas Dealer

ONE OF THOUSANDS OF INDEPENDENT MOBILGAS BUSINESS MEN

Merch Graham has been in the petroleum business for more than a quarter of a century. In 1939 he established his present business in South Tacoma, which has prospered and expanded steadily since that time. He is well and favorably known in his community; is married; has a family; and owns his own home. He is a lodge member, is active in the South Tacoma Business Club, and participates in many civic activities.

I'm an independent Mobilgas dealer...in business for myself. That's why you can depend on me to serve you better.

And all over the west there are more like me...more Mobilgas dealers now than ever before...to make your summer driving more pleasant, wherever you go.

As you drive, depend on friendly, independent Mobilgas dealers to furnish dependable motoring service and top-quality products like Mobilgas and Mobiloil. They are identified by the famous sign of the Flying Red Horse. And you'll find them eager to please because they, like me, know that satisfied customers come back. Stop at the sign of the Flying Red Horse, wherever you go, and get acquainted with the car care service that is prompt, courteous and intelligent.

Economical Milking Parlor for Farm

Saving in Capital And Labor Costs

Economy, both in initial cost and labor, is the chief attribute of the pen-type dairy barn with attached milking parlor used by many dairymen. It is particularly advantageous when adding to the size of the herd. The cows are allowed to run loose in the barn and are milked and fed in an adjoining lean-to milking parlor.

The total cost for materials of the lean-to shown in the sketch would be approximately \$900, including a

fire-resistant asphalt roll roofing and gypsum exterior walls. This will permit the farmer to qualify for producing Grade A milk.

The six-stall parlor is large enough for a 30-cow herd. It does increase the amount of bedding needed by nearly 50 per cent. This results in a corresponding increase in manure value.

One of the main advantages of this type construction is that the herd may be added to without expense of new stanchions.

Farm Safety Week to Stop Accident Gains

Making life on the farm safer for children and adults is the basic aim of Farm Safety Week. President Truman, in proclaiming the week, July 21 to 27, suggested "that the

Proper confinement for the bull may save lives.

farm people of the country observe the week by resolving to eliminate at least one hazard a day until their farms are as safe as they can possibly make them."

Open wells, improperly fenced dangerous animals, ladders, dangerous parts of machinery unprotected, cluttered barnyards, all take toll of thousands of farm children and adults annually.

Grit and Shell Box

An easy to build grit and shell box for the laying house may be made of box lumber but should be strong enough so that it can be nailed to the side of the house, six inches above the litter.

Concrete Measuring

A box for measuring sand and gravel is shown in the illustration. For a 1:3:5 mixture the frame should measure inside 4 feet seven inches, 2 feet wide and 1 foot deep. On the inside and 33 inches from one end, a partition is placed.

Ants in Garden May Be Controlled by Pyrethrum

Ants in lawns, fields and gardens can be controlled with a concentrated pyrethrum product, according to W. A. Price, Kentucky experiment station. A preparation containing 2 per cent in a vegetable oil soap is recommended. The dosage should be applied at the rate of one tablespoonful to a gallon of water. A gallon is sufficient for a hill 12 inches in diameter and two inches high.

Electoral College Names President of the U. S.

Voters cast ballots not for the President directly but for electoral candidates who are nominated in various ways according to state laws and who are pledged to vote for the candidate of their party. Each state has as many electors as it has U. S. senators and representatives combined.

The electoral vote and not the popular vote elects the President. Twice a candidate having the larger popular vote failed of election because he did not win the electoral vote—in 1876 when Hayes won over Tilden and in 1888 when Harrison won over Cleveland.

The electors meet on the first Monday after the second Wednesday in December at a site directed by their state legislatures to cast their votes. The ballots then are sealed and each electoral college appoints a member to deliver the vote of that state to the president of the senate. The senate and house of representatives meet in joint session at 1 p. m. on the following January 6 to hear the vote counted. Electors do not receive a stipulated salary. Traveling expenses and entertainment are the only expenses incidental to the meeting of the electors.

Postpone Pruning of Spring Flowering Shrubs

When warm weather gives you that urge to grab the pruning shears and start cutting shrubs, you had better think twice. Horticulturists believe shrubs are more damaged by excess pruning than by being left alone.

All spring flowering shrubs should be left until after flowering. Every piece of live wood cut out now is cutting off flowers that might add to the color effect in the flowering season. Shrubs like forsythia and lilac and other spring bloomers should have only the dead or diseased branches or leaders removed at this time. Right after flowering is the best time to trim spring shrubs, but pruning on the whole should be practiced the year around. Whenever dead or diseased wood appears, it should be cut away.

Summer flowering shrubs may be pruned in the spring. Some spring flowering shrubs also produce ornamental berries, and the person who prunes these is puzzled as to when to do the pruning. The pruning of these shrubs should be done in part in the early spring and in part during the growing season.

Cancer Research

Independent research by members of the staff of the Roscoe B. Jackson memorial laboratory, Bar Harbor, Me. (1933), and Korteweg (1934) of Holland demonstrated that some maternal influence was of great importance in the development of breast cancer in mice. In the various experiments it was found that when females of high breast cancer strains were mated to males of strains with low incidences, the progeny showed high incidences; when the opposite crosses were made, the progeny had low incidences. This maternal influence was later found to be transmitted in the milk of females of the cancerous strains (Bittner, 1936). In these studies mice born to females of cancerous stocks were removed soon after birth and were fostered by females of strains with low incidences of breast cancer. In the initial experiment the incidence was reduced from 95 per cent to 8 per cent; other groups have been fostered with a reduction to 1 per cent. In the first experiment some animals were not removed from their mothers until after they had nursed; a delay of 24 hours has little effect on reducing the incidence.

Stone of Destiny

The rough sandstone block, 26 inches long, 16 inches wide, and 11 inches thick, fixed into the British coronation chair by clamps of iron, is called Lia Fall, Gaelic for Stone of Destiny, as it was believed no one would be king of Scotland unless he had sat on it when being crowned. The patriarch Jacob, according to tradition, used it as a pillow when he dreamed of the heavenly ladder. Stories about the Stone of Destiny recount that it passed from Egypt to Spain with a son of Cecrops and about 700 B. C. was brought to Ireland by the Grandson of Cecrops when he and the Milesians invaded that country. Irish monarchs were crowned on it on the Hill of Tara until Fergus the Second, founder of the Scottish monarchy, took the stone to Scotland, where King Kenneth deposited it in the monastery at Scone. Another story claims Scotia, daughter of Pharaoh, brought it to Scotland, and from her Scotland is supposed to have received its name. The chair is now kept in Westminster Abbey.

Mark-Resistant Floors

Test showed that two or three coats of water emulsion wax were helpful in making any floor resistant to marking. The best method of procedure is as follows: After cleaning off the marks by gently rubbing with a damp cloth, wipe the area with clean water and immediately dry with a dry cloth. Use as little water as possible and dry it rapidly. When dry, apply a thin coat of water-emulsion wax with a cloth or applicator. Allow to dry for 30 minutes before applying the second coat.

Electrical Drying Soft Corn Practical

Ohio Farmer Develops Own Economical System

The problem of drying soft corn is not the difficult chore it once was, according to farmers who have experimented successfully with fan-operated, forced air systems installed in their own cribs.

Heat is not an essential factor in most installations, particularly when drying operations are conducted in the fall or early spring. The danger in cribbing immature corn is that it may spoil before cold weather arrives to restrain spoilage processes during the winter, or mold during the first few warm spring days.

Forced air drying is practical and economical without heat in temperatures as low as 50 degrees. Higher temperatures, however, speed up and cut costs of drying operations. Karl Mohr, Ohio farmer, for example, reported having spent \$10 for electricity to crib-dry 60 tons of immature corn by forcing air through it for 100 continuous hours during a period when daytime temperature reached 80 degrees.

Mohr's drying arrangement is typical of workable, successful types which farmers can install

Karl Mohr is shown watching his electrically-driven fan force moisture - removing air from a crib of immature corn.

themselves. His 35 by 10-foot, tight-sided crib has a slatted floor, with 1 1/4 by 2-inch slats installed edge-wise and spaced five-eighths of an inch apart. A 42-inch fan, driven by a 5-horsepower motor, blows air into a closed tunnel extending under the entire crib. Air, forced under the crib, moves up naturally through the slatted floor and out vents in the top of the crib, taking excessive moisture with it. Smaller fans and motors will work just as well with less extensive drying operations.

Mohr's crib vents serve a double purpose. In addition to being exhausts for air, they also serve as openings into which corn is elevated for storage in the crib.

Farm Made Wheelbarrow

Six pieces of scrap pipe, a few lengths of scrap iron, a standard rubber tired wheel, and a few minutes use of arc welder will produce this handy wheelbarrow for the farm.

Short pipe sections fused to the front end of the pipe frame and handle members made ideal bearings for the wheel axle.

Know Your Breed Polled Hereford

By W. J. DRYDEN

Since 1902 American cattlemen have developed within the Hereford, a naturally hornless strain—the Polled Hereford. Since the early work done by Benjamin Tomkins in 1742, with English oxen, the breed is now classed as one of the greatest of beef cattle.

Vaccinate for Control Of Sleeping Sickness

Horses should be vaccinated in areas where sleeping sickness has been a problem in recent years. It is believed that the virus of the disease is carried over from year to year by birds, and it has also been found that chickens can harbor the virus, according to the American Foundation for Animal Health. Mosquitoes and other blood-sucking insects pass the virus on to the horses and human beings.

"Be It Ever So Humble . . ."

"Be it ever so humble there's no place like home."

But the acute housing shortage throughout America has produced a new version of that old adage: "Be it ever so humble there's no place!"

Worried officials in Washington are discussing many "cures" for the situation. The trouble with these remedies, however, is that they are mainly aimed at relieving the situation temporarily rather than permanently correcting it. Much emphasis is laid on the control of building materials and their prices, and also on the use of flimsy houses and barracks intended originally for occupancy only during the war.

It hardly need be said that the only real answer to the housing problem is the construction of more permanent housing facilities. When home building gets started on a large scale, construction should be designed as much for the long-range demand as for the satisfying of immediate needs.

The well-equipped home of tomorrow will have many electrical conveniences. Homes built now and in the future should have, therefore, sufficiently heavy wiring and enough outlets installed to make possible the full use of electrical facilities when they become available. The steady decline in electric rates of privately owned power and light utilities enables even the most modest homes to enjoy the conveniences and labor-saving provided by electric equipment.

Millions of homes must be built in the next few years if the housing headache is to be licked. But if the Washington officials would spend less time trying to figure out a quick cure and more time toward getting trees, lumber and red-tape cut, the problem will at least be one step nearer solution — and strikes don't build homes either.

A Castle For "Ike"

It's no secret that the people of the British Isles are fond of General Eisenhower. His excellent work as supreme commander in Europe together with his likeable manner makes their fondness toward him understandable. But until now there had been no indication that they would try to win him away from America.

That's why the offer to him of a permanent residence in Scotland — in a castle, no less — comes as a surprise. It isn't likely, though, that "Ike" will accept. He's pretty well satisfied with living here, and besides, he has a bit of a job to do as chief-of-staff of the United States army.

Castles are nice to read about but they aren't so practical for everyday living. By the time one walks from the dining room to the living room it's time to go back for the next meal. Then, too, castles are not the warmest type of dwelling. This castle may have a furnace, but the heating bill, we'll wager, would be enough to chill any enthusiasm "Ike" might have for living there.

Advertising is a business insurance that pays its own premiums.

Grandma's Tub Was Safer

One of the dairists in Queen Elizabeth's time wrote:

"The Queen hath built herself a bath, where she doth bathe herself once a month, whether she requires it or no."

Although the old Romans and Greeks rivaled Hollywood in the size of their swimming pools, which they called "bath," it appears that the society folk of the Elizabethan era were not overly concerned with what even their best friends accepted in polite silence.

We have come a long way in personal hygiene since that time, but the National Conservation Bureau, accident prevention division of the Association of Casualty and Surety Executives, warns that the modern bathroom is one of the most dangerous rooms in the most dangerous place of all — the home.

Three contributory factors, frequent usage, dangerous equipment and complete privacy give full play to accident occurrence in the bathroom.

A few of the more common hazards lurking in the bathroom, which kill and injure people each year include electric shock due to the high conductivity of water, poisons from the medicine chest, falls on slippery porcelain and tile floors.

Safety specialists advise: Keep your hand off electric fixtures while bathing, keep lethal medicines under lock and key, use a rubber mat on smooth floors, step in and out of the tub with caution.

Cotton Flannel Work Shirts

An increase granted in the manufacturer's price of cotton flannel work shirts, to meet the requirements of law, will mean about a 12 per cent increase in the retail prices of the shirts.

This action, effective June 17, is a companion piece to an earlier action increasing the prices of all other types of cotton work clothing.

The trouble with most conversation is the conversationalists.

ANNOUNCING

WESTERN ELECTRIC HEARING AIDS

Now Available In Moscow

We have been selected to represent this fine instrument in this locality. Come in and discuss your hearing problem with us, and prove to yourself that "To HEAR again — is to LIVE again."

There is no obligation and you will not be unnecessarily annoyed as our interest lies in rendering a helpful service.

A fresh stock of hearing aid batteries is carried for your convenience.

HADDOCK'S

403 SOUTH MAIN MOSCOW, IDAHO

WORTH KEEPING

Independence Day commemorates not only the birth of a new, self-governing nation, but also the beginning of a new, free way of life for man . . . The spirit of independence and of respect for human rights—the belief in progress for all through individual initiative—proclaimed in the Declaration of Independence have been cherished and defended for 170 years by many generations of Americans. These principles are indeed Worth Keeping.

The Washington Water Power Company, created over half a century ago through the private initiative of far-sighted pioneer citizens, has maintained a record of progressive extension and improvement of electrical service at rates among the lowest in the nation. Such service, too, is Worth Keeping!

Steady Rise in Living Costs

The Office of Economic Stabilization states that the price of food for the first two weeks in June amounted to an increase of 1 1/2 per cent in living costs. There has been an increase of 1 cent a quart in milk; 6 cents a pound for cheese and 11 cents a pound for butter; 1 cent a pound in retail bread prices. Farmers are blamed by government "brass hats" for not marketing their livestock. Official government estimates say that meat is going higher. Nevertheless the Department of Agriculture has determined that 27 per cent less meat was produced for the week of June 8, as compared with the same week a year ago.

Everything that goes wrong seems to be laid on the farmer or some other industry by O. P. A. To our way of thinking there are too many "agencies" and too much red-tape everywhere.

"Flame Of Barbary Coast"
 The week's offering at the local theatre will be a tale of the days when San Francisco was a bawling, lusty frontier town. It is entitled "Flame of the Barbary Coast" and has as its stars John Wayne, Ann Dvorak, Joseph Schildkraut and Virginia Grey.
 Selected shorts, cartoon and news will also be shown.

PERSONAL MENTION

(Continued from first page)
 Wade Keene attended a grain grading school sponsored by the Lewiston Grain Growers in Lewiston last Thursday.

BIG BEAR RIDGE NEWS

Mr. and Mrs. Virgil Wampler of Bremerton, Wash., and Mrs. Ray Carlson of Spokane are visiting their parents, Mr. and Mrs. A. Kleth. Mrs. L. Morrison and children of Moscow also spent last week at the Kleth home.

Mrs. Norman Nethkin of Kamiah spent last week with her parents, Mr. and Mrs. K. D. Ingle.
 Mrs. Boyd Leland of Clarkston spent last week at the Ed. Halseth home.

Mrs. Johanna Nelson and Mr. and Mrs. C. Holm of Deary attended the funeral services for Miss Esther Martinson in Genesee Thursday.

Mr. and Mrs. Henry Galloway and Larry, Mrs. Oscar Huffman and Mrs. D. J. Ingle visited Mrs. Tom Stone in Troy Sunday afternoon.

A marriage license was issued in Moscow Friday to Glenn O. Babcock, son of Wilbur Babcock, and Miss Helen M. Phillips.

The Roy Emmett and Ronald Jones families picnicked at Spalding park Sunday.

Mr. and Mrs. Ivan Whitcomb and children have returned home to Deary from a visit with his mother and sister in California.

Wallace Emmett was called to Spokane last week by the illness of his wife, who is receiving medical treatments there.

Miss Anna Smith is working for Mrs. Kate Galloway.

Mrs. Estella Leith, Mr. and Mrs. W. L. McCreary and children, P. C. McCreary and Micky Harris were Sunday dinner guests in the Oscar Slind home.

Mrs. Dwight Ingle and children spent Thursday and Friday with Mrs. D. J. Ingle. Dr. Dwight Ingle will return this week from California and the family will spend a few days here before returning to Kalama, Michigan.

A family reunion was enjoyed at the A. Kleth home Sunday.

Mrs. Oscar Slind entertained the 4-H girls and their mothers at her home Thursday afternoon.

Miss Gail Ingle has returned to Seattle, having visited her parents, Mr. and Mrs. H. L. Ingle.

Mrs. Rose Long spent last week with her daughter, Mrs. Ronald Jones.

ARROW HAPPENINGS

Mrs. Joyce Feemster of Aberdeen, South Dakota, spent a week at the Raleigh Albright home visiting.

Mrs. Lockwood and Mrs. Brackett have gone to Reubens to spend the summer.

Arthur Laird has sold his Seattle property and plans to start a milk farm on his island here.

June 26 a shower was given at the home of Mrs. Ed. Layes at Spalding, honoring Mrs. Donald Gibbs. Mrs. Gibbs received many lovely and useful gifts for the expected new member of the family.

Mr. and Mrs. B. R. Gibbs have made several trips to Colfax to visit their daughter, Mrs. Laurence Kress, who had a major operation at the Colfax clinic. Mrs. Kress has been brought home now, and is recuperating nicely.

Mr. and Mrs. Ben Krantz of Montana were recent visitors in the B. R. Gibbs home.

A stork shower honoring Mrs. George Groseclose was given at the Raleigh Albright home Friday of last week, and in spite of the inclement weather a goodly group attended. Mrs. Groseclose was pleasantly surprised when her mother and four sisters came from Moscow, and another sister from Clarkston. Mrs. Groseclose received many nice gifts. Refreshments of sandwiches, cookies and tea were served. The decorations for the table was a lovely display of sweet peas and clarkia.

Mr. and Mrs. Geo. Anderson of Orofino were Sunday callers at the H. M. Sampson home.

Mrs. Mary Wahl of Genesee was a business visitor at the Ed. Groseclose home one day last week.

A week ago Mrs. Howard Wunderlich and children visited at the Ed. Groseclose home.

NOTICE OF HEARING ON PETITION FOR SUMMARY SETTLEMENT OF ESTATE
 In The Probate Court Of Latah County, State Of Idaho
 In The Matter Of The Estate of George M. Buckallew, Deceased

Notice is hereby given that Eliza A. Buckallew has filed with the Court a petition alleging that George M. Buckallew died on or about the 8th day of February, 1939, at Juliaetta, Idaho, and praying that the Court determine the time of death of the said George M. Buckallew, and for the determination of his heirs; and that the Court determine the said estate to be the community property of said decedent and his surviving spouse, Eliza A. Buckallew; and that the Court decree said property to Eliza A. Buckallew; said petitioner further represents that the decedent owned at the time of his death, a community interest in and to the following described real property in Latah County, Idaho, to-wit:

Lot Ten (10) in Block Nine (9) in the Town of Juliaetta, as shown by the recorded plat thereof.
 All creditors or heirs of the said George M. Buckallew, or any other parties in interest are hereby notified that said petition will be heard on the 14th day of August, 1946, at 10:00 o'clock A. M. in the Court room of the Probate Court in the Court House, at Moscow, Idaho, at which time and place any parties in interest may appear and show cause why the prayer of said petitioner should not be granted.
 L. G. PETERSON,
 Probate Judge.
 First pub. June 27, 1946.
 Last pub. July 25, 1946.
 Robert W. Peterson, Atty., Moscow.

Machinery Revolutionized

World's Farming Methods
 Up until 1800, farming methods had remained much as they had been in the days of Julius Caesar, and humanity continued to suffer from inadequate food supplies. The change from iron-covered wooden plows to cast iron plows had marked agriculture's chief mechanical progress.

Most of the farm machinery which has done so much to revolutionize the world's agriculture originated in the United States. The reaper was invented in 1831, the mower and threshing machine in 1834, the first combine in 1836. These implements reduced the time required to harvest an acre of wheat from 36 man-hours to less than 12.

Today various labor-saving machines on U. S. farms are estimated to number in excess of 10 million. Further, this same mechanization of farming methods has been extended to practically every land, through the export of American machines. Before the war, U. S. manufacturers exported approximately 125 million dollars worth of farm machines a year, a fourth going to Europe. Farm implement factories in the United States, about 1,200 in number, have made a direct contribution to the war, turning out war machines and parts. Some of the larger factories have been engaged 75 per cent in war work.

Burners Need Frequent Cleaning for Efficiency

Surface burners need regular, thorough cleaning. Take them out, brush away food or dust particles with a stiff brush. Use a brush also to clean the air shutter. If openings in the burners are clogged, use a fine wire to clean them. Beware of toothpicks; they may break and further clog the burner.

Clean cast-iron burners by boiling them for a short time in a solution of washing soda, one tablespoon to three quarts of water. Then wash in soap and water. Use a bottle brush to clean the inside of the tube leading to the burner head. Rinse the burners in clear water, and wipe dry. Put them upside down in the warm oven for a few minutes to dry thoroughly before replacing.

Burners of materials other than cast iron should not be boiled in soda water. A soap and water bath will usually clean them satisfactorily, with the aid of a scratchless scouring powder and fine steel wool.

Mowing Machine

There is probably no piece of farm equipment that suffers more from poor adjustment and lack of care than the mowing machine. Most cutting troubles of the mower can be traced to the cutting bar. This bar is a vital part of a mower and consists of a series of shears whose blades must be kept sharp for best results. The two parts forming the shears are known as knife sections and ledger plates, and they must be properly adjusted along the entire length of the cutter bar. The knife holder must keep the sections down against the ledger plates without binding and without too much clearance. In repairing a mower it is necessary to remove all the broken or badly worn knife sections by shearing them off. This is easily done over the anvil by cutting out the rivets. If the guards have become dulled, they may be sharpened by grinding them to a blunt point. Guards that are too badly worn or have broken ledger plates should be replaced. Badly worn shearing plates or knife holders can also be replaced, and it is very important that all guards fit snugly against the cutter bar.

Calf Care

Calves should be kept in individual pens, where practical, until they are three to four months old. After reaching that age they may be housed in groups of two to four. Their pens should be kept dry, clean, and freshly bedded daily. Small calves should not be exposed directly to hot summer sun for long periods. A constant, fresh supply of water should be kept available to the calves. After the calf is four to six months old, it should have access to all the tender grazing it will take. Spring and early summer calves will need daily feeds of dry hay and sufficient grain to keep them in growing condition through their first year. Late summer and early fall calves should be ready to turn to pasture by late spring. However, they should be watched to make sure that they continue to grow.

Most From Soap

To get full cleaning power of soap, use just enough and dissolve it thoroughly. Mild soap is best for ordinary washing; stronger soap, for very dirty or greasy clothes. Strong soap or chemicals are hard on both fabrics and washer.
 Soap flakes, chips, beads and powder save time by dissolving quickly in water, but bar soap, shaved or grated and then made into a soap jelly with a little boiling water, may be cheaper. Whisk the water about as the soap goes in, to dissolve it completely before the clothes go in. This prevents soap spots on clothes. Use just enough soap to make suds about two inches thick. Too much or too little soap does not wash satisfactorily. If the suds thin out in washing, more soap may be added.

Fighting Those Bugs
 DDT continues to hold top place as a weapon against farm animal parasites, according to the American Foundation for Animal Health.
 In recent tests it was found that dusting powders containing 4% and others containing just 1% DDT were almost equally effective against biting flies, lice and fleas — and perhaps against all mites.
 On the other hand, authorities say that DDT has not been useful in controlling screw-worm flies, bot flies or other flies that visit the animal just momentarily to lay eggs. So — you don't need a very strong DDT powder to treat animals for the parasites which this powerful insecticide kills.

PUBLISHED BY THE KENDRICK CO-OPERATIVE CREAMERY

HI, THERE, FOLKS:

Please, Folks, return our one-gallon ice cream jackets and jiffy bags before the 4th of July. Everyone will want ice cream that day and we will, no doubt, have use for all the ice cream jackets we have. Look around, and if you have one, bring it in immediately. This will certainly be appreciated.

About Eggs . . .

Bring your eggs to the creamery. Our price today is 35c, and we intend to keep paying Lewiston prices. We can use all the eggs you have to sell, and remember we pay cash immediately after you deliver them!

He was gazing rapturously at a huge oil painting of a shapely girl dressed in only a few strategically arranged leaves. The title of the picture was "Spring," and painted by a famous artist. Suddenly the voice of his wife

snapped: "Well, what are you waiting for, Autumn?"

The dinner started with cream of tomato soup. The main course was a giant rib roast, with mashed potatoes and broccoli. Soft rolls of white flour were served with two patties of butter to a plate. Dessert was apple pie with ice cream. There was coffee with cream and sugar. The speaker cleared his throat. "We are a bankrupt nation . . ." he began.

Inebriated gentleman, to splendidly uniformed bystander: "Shay, will you call me a cab?" "My good fellow, I'm not a doorman. I'm a naval officer."

"Okay, then call me a boat!" One upon a time there was a little bee, and it was so very happy because it got a little bumble from heaven!

Market your products the "Co-operative Way." It pays!

WHAT CAMERON FOLKS ARE DOING THESE DAYS

Mrs. Ernestine Riggers of Nez Perce was a guest of Mr. and Mrs. Carl Koepf from Saturday until Monday.

Mr. and Mrs. Laurel Flesham and family of Kingston, Idaho, spent the first of the week with Mr. and Mrs. Fred Siffow.

Margaret Wilken returned home Tuesday, having spent two weeks with her uncle and aunt, Mr. and Mrs. W. R. Johnson, at Peck.

W. C. Mielke and son Jack of Vancouver, Wn., are visiting relatives here.

Ted Mielke was honored with a birthday party at his home Tuesday evening. Those present were Mr. and Mrs. Edwin Mielke and daughters, Mrs. John Schwarz, Miss Emma Hartung, Mrs. Fred Newman, Frederick Mielke, Herbert, Ernest and Lawrence Schwarz and Harry Newman.

Mr. and Mrs. Walter Huffman and family of Riverside, California; Mr. and Mrs. Loren Pitcher of Bremerton, Wash., and Mr. and Mrs. Maurice Hudson and daughter of Lewiston were Tuesday and Wednesday guests of Mr. and Mrs. Glenn Newman.

Mr. and Mrs. Henry Wendt and daughter Esther, Mr. and Mrs. Herman Siffow, Mr. and Mrs. Harold Siffow, Miss Irene Heimgartner and Ida Marie Siffow spent Sunday evening with Mr. and Mrs. Walter Koepf and family.

Elsie Kruger and Esther Wendt left for Parkland, Wash., Monday, to attend the Youth Leadership Conference at Pacific Lutheran College.

Mr. and Mrs. Gus Kruger and family spent Wednesday with relatives in Pullman.

Mr. and Mrs. Walter Koepf and Mr. and Mrs. Gus Kruger were Lewiston business visitors Monday.

Mr. and Mrs. Reinhardt Wilken and daughter Marga, Frank Wilken and grandchildren Blanche and Jimmy Diehl and Catherine and Karen Wilken were Sunday afternoon visitors in the home of Mr. and Mrs. George Wilken.

Mr. and Mrs. Harl Whiting spent Sunday evening with Mr. and Mrs. Ray Whiting in Lewiston.

Mrs. Ida Siffow left for Pullman Wednesday to visit with relatives.

The Missionfest at the local church was more than well attended, with worshippers coming from Gifford, Lewiston, Juliaetta, Lenore and Kendrick. The church was filled to overflowing. A German service was held in the morning, followed by a dinner at the Ladies Aid hall at noon, the English Missionfest service coming at 2:30 p. m. Rev. Crouath of Colfax brought the message for both services. The collection for the day, which goes to Mission work, was \$575.00.

The carnation is a native of southwestern Europe. It has been cultivated for more than 2,000 years.

LINDEN

Captain and Mrs. Jim Farrington and children of Monterey, Calif., and Mr. and Mrs. Chester Cramblet and baby of Eugene, Oregon, arrived on Saturday to visit Mrs. Annie Weaver and family. The left on Monday for Maryland, where Capt. Farrington will report at camp, and other members of the party will visit relatives.

Mr. and Mrs. Adolph Denner and children of Juliaetta visited in the Annie Weaver home Sunday.

Mr. and Mrs. F. C. Lyons and sons, Mr. and Mrs. D. W. Whybark, Mr. and Mrs. Addison Alexander, Mr. and Mrs. Louis Alexander and Mr. and Mrs. Clem Israel attended Conference at Cream ridge Sunday.

Mr. and Mrs. Ray Cuddy and family spent Sunday with Mr. and Mrs. Rollin Armitage at Southwick. Edward and Arthur Darby of Chico, Calif., visited in the Arley Allen and Addison Aleander homes recently.

Mr. and Mrs. Ted Vaughan and son of Kendrick and little Donny Keeler of Spokane visited Mr. and Mrs. C. H. Keeler Sunday afternoon. Donny remained to visit with his grandparents until after the 4th.

Capt. and Mrs. Jim Farrington and children visited with Mr. and Mrs. Lester Weaver Sunday evening.

Mr. and Mrs. Robert Grayson of Pierce spent the week-end in the Grayson home.

Mr. and Mrs. David Gilchrist and son of Longview, Wash., visited old neighbors here the first of the week. The Gilchrist family lived here for several years, leaving 23 years ago.

Mr. and Mrs. Elmer Chilberg and two children from Schenectady, New York, are here visiting his parents, Mr. and Mrs. Wm. Chilberg and his brother, Bob and family. The Chilberg's plan to have a family reunion the 4th of July.

Jimmy, Dicky and Jeanette Cuddy returned from Woodland, Wn., with their grandparents, Mr. and Mrs. Clem Israel, June 23, to spend the summer visiting at the Israel and Mr. and Mrs. Ray Cuddy homes. Tommy Israel, Portland, a nephew of Mr. and Mrs. Clem Israel, also returned with them to spend the summer "on the farm."

Mrs. C. P. Israel gave a dinner in honor of the bride-to-be, Miss LaDonna Galloway, and their son, Lloyd Israel, Saturday, prior to the wedding ceremony. Those present, besides the honored guests were Mr. and Mrs. Hiram Galloway, Mr. and Mrs. Paul Aborgast and daughter Pamela, Don Fry, Miss Nellie Fry, Mr. and Mrs. Israel, Miss Aletha Israel, Donald, Ma-lin and Tommy Israel and Jeanette Cuddy.

SOUTHWICK NEWS

(Delayed)

Recent visitors in the Wilmer Hanks home were Mr. and Mrs. Clarence Grant and son Arthur from Canada; Mrs. Ellen Downing of Cleveland, Ohio; Mr. and Mrs. Harry Smith and family of Leland; Mr. and Mrs. Clyde McGee, Lois Grier and Gene Pontius of Clarkston; Waldo Smith and son; Mrs. Bessie Kimes and children of Pomeroy; Katherine Sundstrom of Lewiston; Mr. and Mrs. Foster McFadden and son of Cream ridge and Mr. and Mrs. Elton McCoy.

Mrs. Essel Stalnaker was a recent visitor in the Tom Armitage home.

Mr. and Mrs. Everett Neumann have moved into one of the Ladies Aid houses.

Ronnie Perry has been visiting in the Cecil Hayward home in Lewiston.

Mr. and Mrs. Wade Candler of the Bungalow Ranger station were recent visitors here.

Larry and Dona Armitage are spending some time with their grandparents, Mr. and Mrs. Tom Armitage.

STONY POINT VICINITY

A shower was held in honor of Mrs. Fred Thompson (nee Elnora Hall) at the home of her grandmother, Mrs. Evans, at Spalding.

Clarence, Wilber and Earl Heimgartner were fishing Sunday. We did not learn their luck.

Mrs. N. E. Heath went to Kennewick, Wash., to attend the funeral of her uncle, William Cochran.

Mrs. Elsie Micheal, who has been quite ill, is greatly improved. Miss Kathleen Steigers was home over the week-end from her work.

Hugh Parks and Newt. Heath spent Thursday in the timber near Bovill looking after their cattle.

Coal Prices Are Upped Increases averaging 40% a ton have been allowed in producer's ceiling prices of bituminous coal, OPA has announced. In increases, which range from 10c to \$1.47 a ton, depending on the producing district and whether the coal comes from strip mines, can be passed on at other levels of sale, including sales to consumers.

The first building and loan association in the United States was organized in Philadelphia in 1835.
