Hot Weather Continues

Thursday of last week the thermometer rose in the tube to a very modest 92; Friday showed 94; Saturday 93; Sunday 95; Monday a mere 90; Tuesday just 85 and Wednesday ...?

Sunday night was by far the hottest of the year. We didn't get up to look at the thermometer, but our usual 10:00 p. m. cool breeze failed to arrive until approximately 3:00 a. m., when the blankets had to be pulled up.

This is the longest hot spell for several years, but overlooking this fact life here in Kendrick is always bearable, for we do not have to contend with the high humidity that accompanies heat in the eastern sections of our country.

E. H. DAMMARELL, PIONEER, PASSED AWAY WEDNESDAY

Edgar H. Dammarell, 70, for many years a resident of central Idaho and southeastern Washington, former treasurer of Asotin county, Kendrick store operator and postmaster, and for several terms a member of the Kendrick council, died at Walla Walla Wednesday morning of last week. Death was sudden and was attributed to heart disease.

Edgar H. Dammarell was born at Prince Edward Isle, B. C., and came to the United States when a young man. He located at Asotin and was engaged in the general store of E. Baumeister. He was later elected Asotin county treasurer, a post he held for a number of years.

At the conclusion of this service Mr. Dammarell moved to Kendrick and in partnership with John Florence, operated the Kendrick Store company. Several years after the formation of this company he purchased Mr. Florence's interest and took in his sons as partners, disposing of the business in 1929, and becoming postmaster, a post which he held until 1933, when he moved to Walla Walla. He also at one time had business interests in Gifford.

Mr. Dammarell also took an active part in community affairs, serving a number of terms as village councilman. He was also deeply interested in fraternal and religious life, being an active member of the Masonic lodge and Methodist church.

Mr. and Mrs. Dammarell and family left here some 12 years ago, moving to Walla Walla, where he had since been engaged in business.

Mr. Dammarell is survived by his wife, two daughters and seven sons: Mrs. Phillip Asplund, Troy, Idaho; Mrs. Melvin Wirt, Seattle, Wash.; John H. Dammarell, Chehalis, Wn.; Frank K. Dammarell, Paul G. Dammarell and Roger Q. Dammarell, all of Craigmont, Idaho; Edgar Dammarell, Kendrick; Howard Dammarell, Baker, Oregon, and one sister, Mrs. Emma McBride, Clarkston, Wn. One son, Keith, preceded him in death.

Funeral services were conducted at the Grocose chapel at Walla Walla at 10:00 a. m., Friday, and the body brought to Lewiston the same day for interment, with the graveside services being held at Normal Hill cemetery at 4:00 o'clock. Active pallbearers at the graveside service were E. A. Deobald, Everett Fraser, Tom Long, Roy Florence, Edgar Long and G. W. McKeever. Honorary pallbearers were W. A. Watts, E. F. Nesbit, W. L. McCreary, N. E. Walker, Wade T. Keene and F. M. Long — all old-time friends and business associates of Mr. Dammarell.

The immense mounds of flowers and the large crowd at the cemetery gave mute testimony to the high esteem in which Mr. Dammarell was held.

Harvest Is Really On

As reported in last week's issue scattered lots of barley and wheat began arriving Tuesday and Wednesday, and as we go to press this week an almost steady flow of grain trucks can be seen going by their way to the elevators, and at the end of this week harvest is expected to be in full blast throughout this section — and the quality of the grain (as a whole) is reported as "excellent."

The local warehouses report some grain coming in that is too green and again voice their request: "Be sure that your wheat is ready before you begin harvesting operations."

The producer should bear in mind that he stands to lose rather than gain by beginning combining too soon. Green cut grain will heat, will mould, and even if finally dried shows a shriveled kernel that is almost sure to bring a grade dock.

Bids Be Called Next Week

Mr. and Mrs. G. F. Broke were Boise and Twin Falls visitors on a combination business and pleasure trip, Saturday through Monday.

In Boise they attended the Idaho State Democratic convention, and Mr. Broke was a caller in the state highway department offices and the governor's office. At the highway offices he learned that bids for the new American ridge road are to be called for next week. It will, however, probably be the first of September before actual construction work can begin.

Mr. and Mrs. Broke report a most pleasant trip, although they found the weather plenty warm.

Bretheran!

The preacher looked over his large congregation on Easter Sunday and said: "I realize that there are many here today who will not be with us again until next Easter, so I take this opportunity to wish them a Merry Christmas."

Examine Your Children's Health

The toll of school bells is a far away thought in the minds of school children at present, but it's an excellent time for parents throughout the state to make a complete inventory of their off-spring.

Dr. L. J. Lull, director of Local Health Services, Idaho Department of public health, suggests that while the parents are having their children checked by the family physician that they see to it that the child is given protection against smallpox and diphtheria.

"Many states have laws requiring that school children be protected against smallpox by vaccination and against diphtheria by immunization," he said, "and these two types of protection against disease should be considered as 'musts' for any child."

Dr. Lull also urged that parents head their physicians' advice in any other immunization the doctor recommends to provide additional health security.

Treatment or correction of physical defects found by the physician or health clinic should be undertaken at once so that when the child enters upon the new adventure of going to school he or she, as the case may be, will be in the best physical condition.

Good health and physical vigor will add to their enjoyment of this new experience and will help the child take the best advantage of the opportunity to learn.

Canning For Hot Lunch

To insure the continuance of the Hot Lunch program at the school this year for a nominal fee, the P-T-A. sponsored a movement last year whereby the women of the community would can surplus fruit and vegetables. This is strictly on a volunteer basis, so if you are willing to take a turn and help out in this work please notify Mrs. Ben Westendahl or Mrs. Kenneth Brocke, as they are arranging a group to go Friday and can apricots.

On Monday of this week a group of women went to Lapwai and canned 200 quarts of apricots at the canner there, which will be used in the Hot Lunch program this year.

Those going Monday were the Mesdames Ben Westendahl, Ross Armitage, Kenneth Brocke, Kirk Wilson and Hiram Galloway. They report the canner as ideal to can in quantities, with their pressure cookers and modern equipment it doesn't take long. So if you would like to help out on this worthy project just call Mrs. Westendahl or Mrs. Brocke.

Red Cross Sewing Here

Mrs. Edgar Long, production chairman for the local Red Cross unit, announces another shipment of wash cloths arrived to be finished.

Those willing to do some of this simple sewing, contact Mrs. Long.

"Jammed To The Gills"

The streets and business houses of Kendrick Saturday evening clearly showed that the harvest rush was on.

From the Kendrick Garage on the east to the Davidson home on the west, Kendrick's Main street was a solid line of cars and trucks, with all the side streets, alleys and vacant lots also packed full.

The stores were jammed with shoppers, and groups stood about the streets in the warm evening air visiting and discussing harvesting operations.

Truly, Kendrick may well be said to be "Saturday night town."

"However, business is business, and local merchants and businessmen have long believed that farmer service, at the time most convenient to them, is a 'must.'"

INTERESTING NEWS BITS FROM JULIAETTA AREA

Mr. and Mrs. Ralph Roberts spent the week-end with their daughter and son-in-law, Mr. and Mrs. Henry Black.

A horse, said to have been owned by Marion Grocose, was killed on the highway Sunday evening when struck by a passing truck.

Harvest is now in full swing in this area — and everybody is busy.

Be Careful With Fire!

Grass, brush and stubble fires, started through carelessness, may result in interruptions in electric service for many people, Herman Schupfer, local manager for the Washington Water Power company, warned today.

"Last week a grass fire in the company's Poudre division, started through carelessness, burned down 11 poles on a major distribution line, causing service interruptions and requiring the services of line crews for three days before the blaze was extinguished," Mr. Schupfer said.

Just now, most fires are started by smokers who throw matches and stubs of smokes from cars. Later in the season, farmers and ranchers will begin burning straw and stubble, and care must be observed that these fires are not allowed to burn the bases of poles. Even though the pole may not be burned completely through, they may be weakened so that a heavy wind can topple them later.

Care in preventing the start or spreading of fires may save interruptions in your electric service.

If you know of such a damaged pole, please report it, even though it may not be on or even near your ground.

Pest Spraying Done

A two-truck pest control spraying outfit was operating in town Tuesday about a number of homes and other premises, using DDT.

The treatment is said to very effectively control earwigs, moths, flies, etc. for a considerable period of time.

It is too bad that the entire town could not have been organized for a complete treatment, as the cost is nominal and would certainly be a relief to be able to walk where you pleased without tripping over an earwig!

ABOUT THE RE-ACTIVATED OPA AND GOODS PRICES

Tuesday morning of this week the Gazette received from OPA headquarters at Spokane a large envelope filled to over-flowing with OPA information. To even think of using all of it is out of the question, so we picked out the following parts which we believe will be of interest to our readers:

Immediately upon presidential signature of the new legislation extending the emergency price control act, current facts and interpretations of the functions and duties of the agency will be needed by businessmen and consumers alike.

For your information and use, immediately upon signing of the bill, here is an analysis of the status of enforcement and rent. The new legislation will not substantially affect enforcement policy, and since June 30 the regional and district enforcement divisions have continued vigorously to investigate violations that occurred prior to that date. A number of cases have been filed and action is now under way.

OPA enforcement will continue to investigate intensively in commodity fields having a major effect upon the cost of living, including the fields of lumber and building materials in which violations seriously affect the home building program.

The agency will continue to investigate cases of past violation in the food field — prior to June 30 — even though the bill provides that controls may not be restored until August 20, and prosecution will be begun where the facts show violations.

John Gerber, acting director, emphasized that under the Price Control Extension Act of 1946, signed by President Truman, all ceilings go back to where they were on June 30, except where the new law specifically makes other provisions. These restored ceilings will serve as the basis for any adjustments made necessary as a result of the new act or because of any adjustment in process on June 30.

All industries and businesses, buyers and sellers covered by OPA price schedules, regulations or orders on June 30, Mr. Gerber pointed out, are now "automatically subject to those same regulations as if the new act had become law on June 30."

Approximately 40 percent of all foods remain under control. It is erroneous to assume that all agricultural commodities are removed from price control until the Secretary of Agriculture certifies on September 1, items which are in short supply. The act exempts livestock, poultry and eggs or food or feed products manufactured in whole or substantial part from them, along with grains and livestock or poultry feeds made from grains. Until September 1, all agricultural commodities now under ceilings will remain under ceilings unless decontrolled. OPA will very shortly announce the special actions to cover changes in subsidies and other factors relating to coffee, flour, corn meal, etc. And, under major food regulations, all sellers go back to their June 30 ceilings until notified of changes in their suppliers' ceilings.

OPA has issued a supplementary order providing methods by which sellers operating under cost-plus regulations shall figure their prices. The action relates to all manufacturers, processors, service suppliers, wholesalers and retailers whose ceilings are set through application of mark-up to the cost of goods and covers those situations where goods were delivered to them July 1 to July 25. These sellers, like all other sellers, must in general go back to June 30 as a basis for their calculations. The supplementary order provides that they must determine their lawful ceilings price as authorized by any OPA action issued before August 15, 1946, and in effect on or before the time the goods are sold.

Until August 21, or until further notice, the items listed below are exempt from price control: Live hogs and live cattle, all edible meat including horse and goat meat, all edible by-products containing 20 percent or more meat, all natural casings, all products from livestock going into animal foods, and animal feeds containing 20 percent or more of livestock by-products.

Ceiling prices of both new and used passenger cars is effect June 30, 1946, were restored when the new price control bill became effective July 25, and will remain effective until new schedules are issued.

All commodity price lists for dry groceries and perishable foods that were in effect on June 30, are being rechecked. Price lists for fresh fruits and vegetables will be revised and re-issued, and will come effective today (Thursday, August 1). The largest of the price lists, the so-called dry grocery list, which included such items as canned milk, canned fruits and vegetables, cereals, lard, shortening and sugar, will be revised and re-issued within a short time, as many of the items previously on this list have been decontrolled, and others are required to be re-priced. Price lists for beer sold for off-premise consumption will be continued unchanged, where the list in effect on June 30 reflected the price increase granted to brewers on June 25.

Our Note: Understand all of it? Frankly, we do not!

town.

Herman Travis left Monday for Orofino, where he will put his truck in operation on a log haul.

Mowell DePeel of Watertown, S. D., arrived here Monday morning for an extended visit with his brother, R. F. DePeel and family. Mr. DePeel has just received his discharge from the army after spending 19 months in the South Pacific and 11 months in Europe. It is the first time the brothers have seen each other for years, and a pleasant time is expected.

Kendrick residents in Lewiston Friday met J. M. Lyle, who stated that he was now discharged from the army, had purchased a home in Moscow, and would soon be settled there, where he would be employed by the Veterans' Administration. He, with Mrs. Lyle and children, expect to visit old friends in Kendrick soon.

To Play Exhibition Golf

Arrangements were completed this week for Byron Nelson and Harold (Jug) Spaden, two of the nation's leading professional golfers, to play a 36-hole exhibition match on the University of Idaho's student-owned course on Sunday, August 11.

L. E. Huff, president of the Moscow Ad club, sponsors of the exhibition, informed Gale L. Mix, graduate manager, that plans for the appearance of the two golfers had been completed.

Opponents for the two professionals will probably be chosen from among local golfers, probably winners of the university's summer tournament, it was reported.

While at the university the pair will be invited to return this fall for a hunting and fishing trip in Idaho. Huff told Mix. Last year Nelson and McSpaden played in Moscow and then were taken on a hunting trip in the Lolo Pass region.

Installs New Ice Cream Cabinet

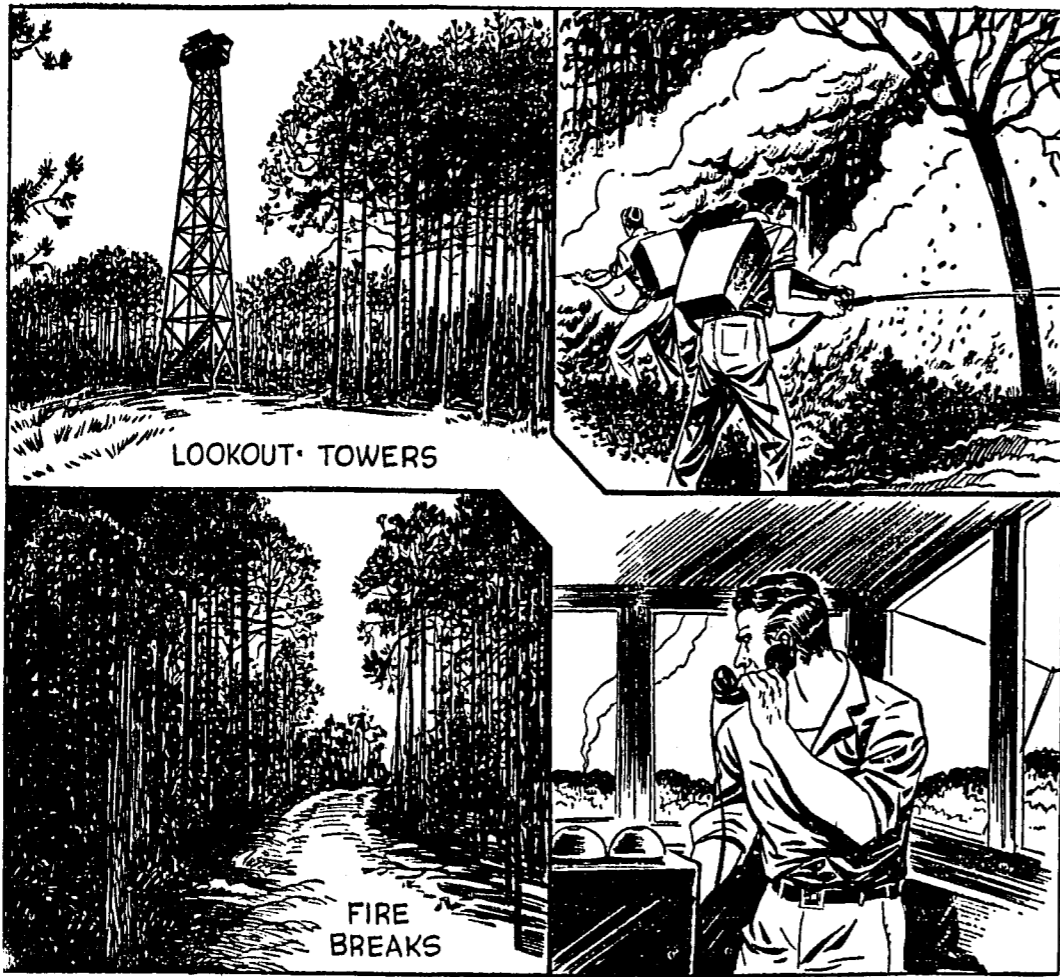

The Red Cross Pharmacy does not handle ice cream, or have a soda fountain—yet it has an ice cream cabinet.

Tom Keene, owner, needed refrigeration for the storage of syrups, yet was unable to buy a refrigerator—so he did the next best thing, and purchased an ice cream cabinet, which he now has in use at the rear of his store.

Move To Brocke Apartment

Mr. and Mrs. Hugh McDowell are now living in the Kenneth Brocke apartment, moving in last week-end when Hugh came home from his woods work.

FIGHTING FIRE IS A WAR THAT NEVER ENDS

Everyone can serve in the war against forest fires . . . and the duration is from now on! Any one of us, by a thoughtless act of carelessness, can cause a disastrous forest fire. The most effective way to fight forest fires is never to start one. Always remember that one bad fire can wipe out hundreds of good jobs.

YOUTH FELLOWSHIP MEETING
 Last Wednesday evening following
 church practice at the Community
 church the Youth Fellowship group
 enjoyed a meeting. Beverly Schup-
 fer, Agnes Baker and June Brown
 held a panel discussion on the topic:
 "A Treasure Hunt."
 Games were played at the close
 of the evening and refreshments
 served. Patty McCreary being the
 hostess.

The group planned a picnic and
 swim party at Spalding beach for
 the following week.

The art of carpet making may be
 traced to Turkey, to Persia and to
 the East Indies. Its actual origin is
 unknown.

Mr. and Mrs. Ishmael Martin have
 purchased a home in the Lewiston
 Orchards.

TEAKEAN GOSSIP

The Tussock moth (caterpillar)
 has begun its devastating work in
 the woods here — within the last
 few days. Work of this pest begins in
 tops of trees and at the outer end
 of the branches. Henry Jones, fire
 warden, reports that a spray of 5
 percent DDT will destroy them —
 which makes it possible for anyone
 to save shade trees that may become
 infested.

Visitors at the Carroll Groseclose
 home Sunday afternoon were Dallas
 Groseclose and daughter Daisy, Huse
 Groseclose, Mr. and Mrs. Gifford
 Brown and children and Mr. and
 Mrs. Merton Preussler and family.

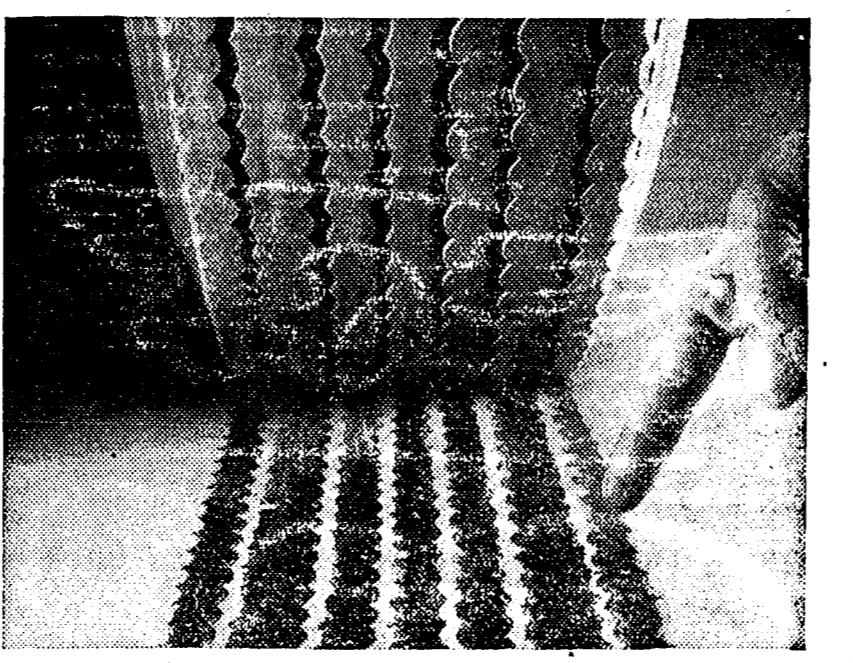

Daily Vacation Bible School began
 Monday, with "Sunday School" John-
 son and Miss Aida Choate directing.
 The Cavendish children are being
 brought to the Teakean church for
 instruction.

Merton Preussler took Mrs. Carrie
 Herring to Lewiston Tuesday for
 treatments.

Potlatch Chief Sez

PUBLISHED BY THE KENDRICK CO-OPERATIVE CREAMERY

HI, THERE, FOLKS:

For you busy farmer wives during harvest days, here's a suggestion you can't afford to ignore. These busy days you should by all means serve Potlatch Chief Ice Cream for dessert. It requires no before-hand preparation, and is more satisfying than any other dessert. We have a variety of flavors — Vanilla, Chocolate, Maple Nut, Cherry Nut, Strawberry, Hawaiian Delight, Butter-scotch, Black Raspberry and Lemon-Custard.

Buy ice cream by the gallon, you will find it much more economical. One quart cost 50c, while a gallon is only \$1.75. Take home a gallon with you now!

The railway carriage was crowded as the young man opened the door and asked in a sarcastic voice: "Is this Noah's Ark?" "Yes," was the reply from a grumpy man in the corner. "We are all here except the ass. Come

in."

A haughty dowager visited the hospital to see her chauffeur, badly injured in an auto accident. The head nurse hesitated. "He's a very sick man and should see no one but his family. Are you his wife?" Highly indignant, the dowager blurted out: "I certainly am not — I'm his mistress."

A farmer in great need of extra help at haying time finally asked Si Warren, a town character, to help him out.

"What'll you pay?" asked Si.

"I'll pay you what you're worth," said the farmer.

Si scratched his head a minute, then announced: "I'll be darned if I'll work for that."

Always ask for "Potlatch Chief" brand butter by name.

Market your products the "Co-operative Way." It pays!
