About The Swimming Pool

Word on the Area Living War Memorial Swimming Pool is progressing slowly but steadily these days. Slowly because of the limited crew and the fact that detail or finishing work must go hand-in-hand with the pouring of the walks, pump house roof, etc.

WHEAT MARKETS TREND DOWNWARD; UNSETTLED

With extension of OPA price regulations and the uncertain position of grain under the new legislation, the trading in cash wheat has largely been suspended in most markets until the situation can be clarified, according to the Production and Marketing Administration, as supplied by the U. S. D. A.

Game Seasons Are Set

The following dates were set by the Idaho State Fish and Game Commission at its quarterly meeting at Boise in July:

Chinese, Mongolian and Mutant pheasants — Latah, Lewis, Clearwater and Idaho counties — October 26 to November 11, inclusive. Bag and possession limit, three cocks. The killing of hen pheasants is prohibited throughout the entire state.

Hungarian Partridge — Latah, Lewis, Clearwater, Nez Perce and Idaho counties — October 26 to November 11, inclusive. Bag limit and possession is five.

No open season of sagehens, blue grouse, ruffed grouse, bob white quail, mountain quail or chukar partridge. It is also unlawful to shoot at, hunt or kill any game bird with a rifle of any kind, including air rifles. Destroying evidence of a pheasant's sex is also unlawful.

Deer — In most areas October 5 to November 10. In Latah, Lewis, and Nez Perce counties and most of Clearwater county — November 1 to November 30.

Elk — In most areas October 5 to November 10. In Latah county and that portion of Clearwater county lying south and west of the Clearwater river, and north and west of the Ahshaka-Dent-Elk River-Hemlock Butte road to the Shoshone county line — Nov. 1 to Nov. 30.

The dispatch goes on to list areas and counties for all types of hunts. If in doubt — see your local game warden or pick up a booklet listing the areas, which should be obtainable where you purchased your hunting license.

Issues Another Warning

Following the fire of last Friday, the first local one, Fire Warden Henry Jones states that he wishes to point out a few safety precautions for everyone, but especially truck drivers for logs and wheat:

1. Be sure your truck has a muffler or the exhaust pipe sticking straight into the air.
2. Do not allow wheat straw or bark chips to accumulate anywhere on the truck, but especially in the

motor splash guards or frame where they can come in contact with the exhaust pipe or hot motor.

3. Carry a water bag and an old sack with you all the time. If going into the timber, carry any axe and shovel as well.

4. Don't flip any cigarettes or matches away. If you must smoke, use an ash tray — and put water in the bottom of it.

5. Be careful — all the time.

6. Notify the warden's office of any blaze discovered — no matter how big or little.

VA Representatives To Visit

Weekly itinerant service to 132 Idaho towns by 34 contact representatives of the Veteran's Administration was resumed this week, Del Flores announced last Saturday.

Designed to bring the V. A. to veterans in the more remote communities of the state at least once each week, the itinerant service was temporarily curtailed two weeks ago due to shortage of travel funds. Notice was received by Flores Saturday that more funds have been approved and it is now possible for the V. A. to bring this important service to Idaho veterans again.

Mike Dillon, contact representative, will resume the regular weekly schedule, leaving Lewiston each Monday for Lapwai, Juliaetta, Kendrick, Orofino, Weippe and Pierce.

Mr. Dillon will make his headquarters at the Kendrick and Juliaetta postoffices, arriving in Kendrick at 1:30 and Juliaetta at 2:45. If you are unable to be at the postoffice during that time, leave your name and address with the postmaster, and an effort will be made to contact you.

Hot Lunch Canning

Last Friday Mrs. Kenneth Brocke, Mrs. Ben Westendahl and Mrs. Geo. Brocke again went to Lapwai to can apricots for the school hot lunch and report 300 quarts canned in all.

The Hot Lunch Canning committee, Mrs. Kenneth Brocke, Mrs. Ben Westendahl and Mrs. Ross Armitage are reminding P-T. A. members that it will soon be time to can peaches, and if they haven't volunteered help, they will be called by the committee, so try to plan your work so as to give a day to this project.

With the gradual but steady increase in the cost of food, the price of school lunches will have to be increased over last year unless this canning can be done, says A. O. Kanikkeberg of the school board.

Any women in the country that can or are willing to help on this program are asked to please contact a member of the above committee.

Wind Shatters Grain

Following two weeks of almost uninterrupted hot weather, the temperature took a drop to around the 70-degree mark Wednesday — to be followed by a day-long windstorm that scattered brown leaves and broken twigs over the streets and sidewalks of Kendrick, but doing no damage except filling the houses with dust.

On the ridges, however, the wind is said to have done many hundreds of dollars worth of damage to wheat — since it was violent enough to shatter the ripened heads, especially on the hill tops, where it could get a full sweep. In the draws, as a general rule, the grain was not so ripe, although some lodging is said to have occurred in these parts.

Injured In Logging Accident

Herman Travis suffered multiple injuries in a logging accident at Orofino last Thursday evening.

Herman brought in a load to the yards, released his binders and kicked the trip. Part of the load rolled off, and part stayed on. Herman, thinking all had come that would without hand labor, crawled out from under the truck. Just as he stepped out the balance began rolling off, pinning him into a narrow space beside the truck. X-rays disclosed three breaks in one spinal vertebra, multiple bruises and a badly broken right foot. He was taken to the Orofino hospital, and then brought home the following evening to convalesce.

Seed Cleaner Put In Operation

The Kendrick Bean Growers association began operation of their new seed cleaner Tuesday evening, and began the run with a night session on rape seed.

This new cleaning plant, with its attached elevators, blowers, etc., is said to be as modern a plant as can be found anywhere.

This new plant will serve not only to provide steady local employment

but will keep many dollars in seed values at home — dollars formerly spent for this work in out-of-town plants.

Peas, of which there are considerable growers in this section, are reported of extra good quality, the damp, rather cool spring being just to their liking.

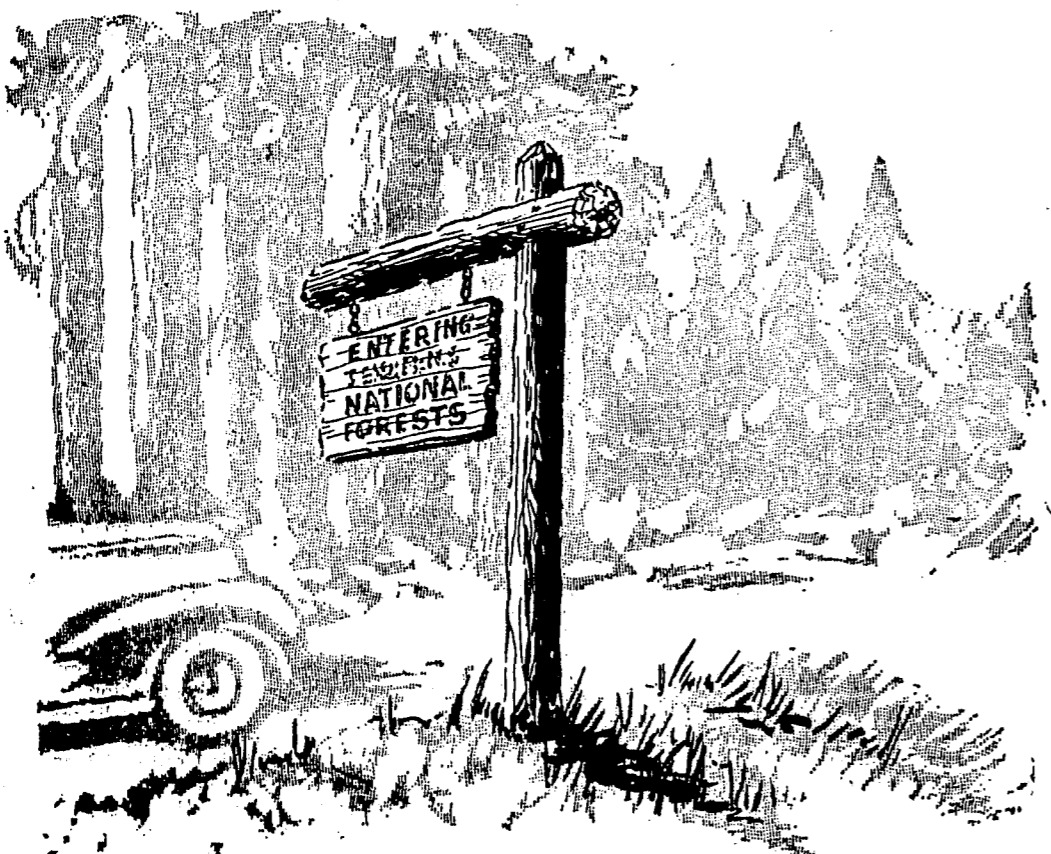

Clover combining is also just beginning, but no yield or quality reports are yet available.

We believe what may well be a real record in trucking for this section was set one day last week by George Denner of Fix ridge, who, with one truck, and no relief driver, delivered 147,000 pounds of wheat to the Lewiston Grain Growers at Juliaetta in one day — making 11 trips.

Local warehousemen report that they have heard of no unusually large yields, but that the wheat is generally better than that of last year, being higher in test weight.

Potlatch ridge, including the Cameron and Leland districts are getting pretty well cleaned out of fall grain; Big Bear and Cedar ridge just beginning harvesting operations.

Politics — And Your Money
 Lost in the welter of news concerning the A-Bomb, the United Nations Conference, and other items of cosmic importance, is a fact which should be known to all the people of the United States. That fact is: This country, for the first time in many years, can have a balanced federal budget.

All the American people should also consider the words of President Truman when he said: "For fiscal 1948 we must plan not only a balanced budget but for a . . . reduction of the national debt. . . . Sizeable debt reduction is nothing short of obligatory."

As Time magazine put it, the President's budget policy "might not please practical politicians, but would be applauded by practical fiscal experts." Its principal points are that

tax reductions shall not be made at the present time, and that strict economy prevail in government spending.

Just what is going to happen to this policy remains to be seen. It is evident that congress (as pointed up by the 79th which just closed) is about as free with the people's money as ever. It was still voting money for needless waterpower developments, to name one source of gigantic waste, and other useless luxuries. But of course, this is an election year.

We will have economy in government only if the people make it clear to the next congress that unbridled spending is the road to political defeat, and not the road to eternal reelection. And if we don't have government economy, we will have inflation and eventual economic ruin on a scale unprecedented here. Profligacy can be as destructive to a nation as to an individual.

Humpf!

It was long after midnight in the home of the famous author. He looked haggard and worn, for he had been working on his latest novel.

"Darling," called his wife, "are you coming to bed?"

"No, I'm not," muttered the author. "I've got the pretty girl in the clutches of the villain and I want to get her out."

"How old is the girl?" asked the wife.

"She's twenty-three," replied the writer.

"Then for goodness sakes put out the lights and come to bed," snapped the weary wife. "She's certainly old enough to take care of herself!"

Potlatch Chief Sez

PUBLISHED BY THE KENDRICK CO-OPERATIVE CREAMERY

HI, THERE, FOLKS:

A Question:
Do you have Potlatch Chief ice cream on your shopping list today? These hot sultry days ice cream is just the thing to finish off a good dinner. During these sugar shortage days you will find ice cream a real life-saver. It's a swell dessert when combiners are with you.
For afternoon snacks or mid-night lunches there is nothing easier or quicker to serve than delicious, tempting Potlatch Chief ice cream. Keep it in the refrigerator at all times for a treat that can't be beat.

Remember:
Always ask for Potlatch Chief dairy products by name — it pays!

Mrs. Ginsburgh awakened one night to hear her husband snoring so loudly that she was unable to go back to sleep. She tied a blue

ribbon around his nose to keep him quiet and went back to sleep.
Next morning Mr. Ginsburgh was looking at himself in the mirror, when his wife walked in. She said: "Where were you last night?"

Mr. Ginsburgh replied: "I don't remember; but wherever I was, I won first prize!"

When the newlyweds boarded the train, the embarrassed groom tipped the porter generously, to not disclose that they were just married. Next morning, on the way to breakfast in the diner, they were greeted with many grins, stares and craning neck. Furiously the groom upbraided the porter.

"Nassuh, Boss," George replied, "Ah didn't tell 'em. When dey ask me if you was just married, ah says, 'No suh, dey is just chums'."

The age of discretion is reached when one has learned to be indiscreet discretely.

Reserve Corps Be Organized

General "Vinegar Joe" Stilwell's Sixth Army Headquarters today announced that the country's first organized reserve corps unit will be activated in seven western states on August 1, to initiate the army's post-war program of organizing and training in times of peace units capable of rapid mobilization, expansion and development in the event of an emergency.

This is the first step in a program which, together with the National Guard and regular army, is designed eventually to provide an over-all force of 4,500,000 men thoroughly trained in the methods of modern war. Sixth army headquarters plans to activate soon large numbers of additional units in all eight western states in the army area and expects that the whole program will be under way before the end of the year.

Units will be activated in all types and sizes to insure a well-balanced, self-sufficient force capable of engaging in any type of operation. It will range from small technical units up to full strength infantry and armored divisions.

Units now being activated will be staffed with a minimum of 60 per cent officer strength. Initial personnel will be obtained from veterans who served honorably in World War II. Assignment of duties will be made on past experience and training and promotions may be earned on the same basis as in the regular army.

To Recall Officers

The War Department has announced the increase in quotas for recall to active duty, of 1,000 National Guard and reserve officers of all grades for service with the Civil Affairs division, an additional 40 for service with the Intelligence division, 35 for service with foreign liquidation commission and 50 additional for service with the Finance department.

This and previous authorizations make a total of 7,589 vacancies available to officers who have gone on inactive duty or terminal leave, but who desire further active duty. War department representatives indicated that this number may be increased in the near future.

Although the War department is authorized to recall officers to active duty without their consent during the emergency, it is desired to fill these vacancies with volunteers. Accordingly, quotas have been established to meet the needs of each of the branches of service whose personnel

problems have been made acute by the rapid demobilization of the army.

Volunteers under this program may elect to serve for an unlimited time, or for a 12, 18 or 24-month period. At present the War department cannot foresee any circumstances which would cause separation of an officer prior to the completion of their volunteer period.

Forethought is cheap; afterthought often expensive.

Tourist (in art gallery): "I knew an artist who painted a cobweb so realistically that the maid spent several hours trying to get it down from the ceiling."

Chance Acquaintance: "I just don't believe that."

Tourist (belligerently): "Why not? Artists have been known to do such things."

Chance Acquaintance (calmly): "Yes, but not maids."
