Shower Cools The Air

A gentle rain began falling late Monday evening, and continued for a couple of hours, laying the dust and cooling the air. It was the first what might be called "rain" for several weeks, and was welcomed by all, even though it will effectively stop harvesting operations for a couple of days.

Some say it will improve threshing conditions, as it will stop considerable shattering on dead-ripe grain and make the handling of cut beans much easier.

Anyway, it washed the dust from trees and bushes, cleared and cooled the air and made living much more pleasant.

Clover Seed Crop Increased

Idaho production of white clover seed is expected to be 1,300,000 pounds of cleaned seed. If realized, this crop would be nearly double the size of the 1945 crop of 690,000 pounds, and nearly three times as large as the 1940-44 average of production.

Yields per acre are expected to be slightly greater than last year, but most of the increased production results from the sharply expanded acreage in North Idaho and Valley county.

Idaho is the leading state in white clover seed production this year, with prospects that production will exceed that of Wisconsin, the second ranking state, by more than 50 per cent.

W. S. C. S. Postponed

Homecoming Dates Are Set

Plans for the U. of I.'s first post-war homecoming celebration were tentatively set that week at a meeting of alumni committeemen, who report it will be the "biggest" in the university's history. Homecoming will be held October 26, and will feature the Idaho-U. of Oregon football game.

Homecoming festivities will begin Friday afternoon, October 25, with registration. This will be followed by a football rally led by the pep band, fireworks at MacLean field and a mixer at the Student Union building.

Open house will be held by university living groups Saturday morning, to be followed by the Idaho-U. of O. football game in Neale stadium in the afternoon. After the football game a buffet supper and the annual alumni ball will be held.

About Meat

OPA price ceilings are back on meat. On and after Sept. 9, all meat must be sold at or below ceiling prices.

Ceiling price lists will be back on that date in stores that sell meat. These lists show the highest prices that can be charged for different cuts and grades of meat. The lists must be displayed in or near the meat counter in such stores. They show the exact ceiling prices of different grades of beef, veal, lamb and mutton and the prices of all pork cuts.

Life is what you make it; work safely, steadily, and make it happy.

School Notes

Our school opened Monday and was kept in session for a half day, during which time students were enrolled, texts and materials issued and short class session held. Although the vacation period seemed short, most of the students seemed pleased to again return to their school work.

The primary room is in charge of Miss Hennis, and the intermediate room of Mr. Cridlebaugh.

Beginning students this year are: Paul Dageforde, Kaye Weyen, Elaine Heffel and Paige Craig. In the second grade three are enrolled; in the third grade, four; and the fourth grade is made up of three members. In all there are five boys and nine girls for a total of 14 in the primary room.

Seventeen students are enrolled in the intermediate room, and more are expected during the week. There are eight fifth graders; two sixth graders; five seventh graders and two eighth graders. Eight boys and nine girls make up the intermediate room enrollment.

A primary election for officers in the intermediate room was held this week. A general election will be held next Tuesday to determine the winners for each of eight offices.

Most of the mothers were present at the meeting held Monday morning, when it was decided that because of the sharp rise in the cost of commodities, it would be necessary to raise the price of the hot lunches from 10c to 15c per day. Payment for lunches is to be made monthly and is payable at the beginning of each month. Those not having already paid are requested to do so, figuring for 16 days of lunches in September at 15c per day.

Mrs. Sturge of Lewiston, who will be in charge of the cafeteria this year, is expected to arrive here Wednesday. The cafeteria will be opened next Monday, Sept. 9.

School will be dismissed Friday afternoon so that Miss Hennis and Mr. Cridlebaugh may attend a teachers' meeting in Lewiston.

School Again — Happy Days!

Tuesday morning saw scores of children, scrubbed and shining, trudging up the school house hill, or climbing out of busses — heralding the opening of school.

Whether the kids were anxious to get back or not is a moot question, but by this stage of the summer, who cares what the children like. That old school bell is music — to the parents of children in town anyway. For, after having them underfoot all summer, swimming in the creek, playing in the streets, falling out of trees and shouting at the top of their voice — the teachers could name their own price.

Almost without a question every parent will agree by the last of August, that school is a wonderful institution.

Supt. Nutting reports everything under control, with good prospects for a successful year. To date there are 125 enrolled in the grades and 95 in the high school, with prospects good that the high school enrollment will reach 100.

Supt. Nutting has been so busy this week getting schedules arranged and classes planned that no regular school notes are available this week, but are planned for the near future.

Bridge Party

Mrs. Roy Ramey complimented Mrs. O. E. Havens, who was visiting here, with two tables of bridge in her home last Friday afternoon.

Those present were the Mesdames W. A. Watts, L. J. Herres, W. L. McCreary, Estella Leith, Frank Abrams, O. E. Havens, and the Misses Rilla Davidson and Jean Ramey.

High score for the afternoon was awarded Mrs. Frank Abrams; low to Mrs. L. J. Herres, with Mrs. Havens being presented a guest prize.

A delicious lunch was served at the close of the afternoon.

New Arrival

Mr. and Mrs. Roy Osborn of Texas ridge are the proud parents of a baby girl, born to them Sept. 3, at the Davidson Nursing home.

Commercial Club Meeting

The regular monthly meeting of the Kendrick Commercial club will be held Monday evening of next week, with the 6:30 dinner at White's Confectionery preceding the business session in the city hall.

Installation of officers and a discussion of the Swim Pool are the two main items of business. It is hoped that all farmer members and any others interested will attend the meeting.

Remember the day and hour and be there.

J. G. Travis or an assistant will make the rounds in town Monday reminding all of the meeting.

HARVESTING OPERATIONS NEARLY OVER IN AREA

Harvesting operations in the area adjacent to Kendrick are rapidly nearing a close, with barley and oats about the only grain crops yet remaining in any quantity. A few isolated fields of late-sown spring wheat remain, but they are few and far between.

Bean cutting has become quite general on Pottlatch and American ridge, with yields reported running from four-and-a-half to five sacks being general. Some, of course, will go higher than that, some lower. Late-sown beans on Texas and Big Bear ridge probably will not be cut for another two to three weeks — some longer than that.

Bud Heffel, Pottlatch ridge, was, so far as we know, the first to begin cutting operations, and he finished threshing last Tuesday, reporting a yield of 4½ sacks per acre. He said that had the high wind of ten days ago not hit his beans while they lay in the winnows, he figured he would have gotten about seven sacks, as about a third were distributed over the field and blown into the canyon. He is making an effort to salvage what he can of these.

Locally, no wheat has been piled on the ground, and although warehouses are chock-a-block, some shipping was done, and all wheat, oats, barley, beans and clover can and will be put under roof.

Kendrick is very fortunate in having such warehouse capacity, and also undoubtedly lucky that local farmers were patriotic enough to dispose of their grain completely — even before the "35c bonus" that has caused so much hard feeling — and you can't blame the farmers for that!

A Week Explanation!

To clarify a general misunderstanding, John J. Gerber, director of O. P. A. today emphasized the fact that Spare Stamp 51 in family ration books became valid September 1, for five pounds of sugar for regular consumer use — but must last until Jan. 1, 1947. At the same time Gerber pointed out that spare stamp 49 will continue to be good for five pounds of sugar through Sept. 30.

Mr. Gerber pointed out that present civilian sugar allocations do not permit an increase in consumer rations in excess of five pounds of sugar per person for each four months of this year. These allocations generally are limited because of uncertainty as to supplies available from Cuba and Puerto Rico and because of continuing requirements for shipment to famine stricken countries. No definite indications can be given as to the level of consumer rations for the first four months of 1947, until after the next Cuban sugar crop begins to be ground in the latter part of January, 1947. Present plans call for validation of the next spare stamp for five pounds of sugar on January 1, 1947.

Warehouses in Oregon, California, Washington and Idaho may be bulging with sugar, due to reported shortage of cars, but in some parts of the country there hasn't been enough sugar to honor ration stamps. Efforts are now being made to distribute sugar in areas of plenty to other areas where there is a definite shortage.

Our Note: Sounds pretty weak to us. Rum is made from sugar and the shelves of liquor stores are bulging with that fiery drink — imported of course! And we'll bet there has been no break-down of the distribution of that "commodity" to any great Yes, there's rum — but in the meantime fruit rots on the trees for a lack of canning sugar. Better think up another one!

Where Is Everything?

The question everyone is asking these days is: "Where is everything?" For you can't buy such simple items as nails, electrical safety outlets, washing powders and soaps, gelatine dessert powders, etc., just to mention a few items.

In the larger category try to buy a popular size tire, an electric motor, lumber, saws, repair parts for your car, truck or tractor, just to mention a few items — and yet the "swivel-chair experts" tell us such things are pouring from the factories in a volume never seen before, and they are now worrying about a surplus!

Well, they may be right, but in our opinion they hit the "total" key on the calculator they were supposed to be using instead of the "subtract" key, and have been so busy keeping their chairs cushion warm that they haven't yet found out their error.

Or, it may be, that these things we so badly need are being shipped to Yugoslavia (where they shoot down American planes) on a relief basis, to Russia, Mexico, or elsewhere by UNRRA, instead of being made available to the American public.

Anyhow, the items mentioned, plus many others, are badly needed — and just can't be found.

WHEAT MARKET REMAINS IN STATIC CONDITION

The cash wheat market situation in the Pacific Northwest is largely unchanged, with the shortage of box cars for the movement of wheat to the terminal markets becoming more serious with each passing week, according to reports to the Production and Marketing Administration from the U. S. D. A. Large quantities of wheat, estimated by the North Pacific Grain Growers to be approximately 7,000,000 bushels, are piled on the ground at shipping stations in the producing areas, without any protection from the weather, some of which is reported to have been damaged already from local rains. Wheat prices remain firm at or above ceilings, depending on delivery, but with the uncertain shipping situation and the very large crop to be marketed, there is not much incentive to the trade to make large purchases. The Commodity Credit Corporation, however, is reported to be making extensive purchases as they have priority on cars under S. R. 454 and are able to move the wheat to the terminals for export.

Trading in the Portland cash wheat market has been light as a result of the shipping situation and the slackening of demand for wheat. Early in the month past the feed trade furnished an important outlet for cash wheat, but that market has been supplied, at least for the present, and the flour mills do not appear to be active in the market for the ordinary grades of wheat but in the highest milling grades. Receipts at the Columbia river terminals during the week consisted of 471 cars and at Puget Sound terminals 297 cars, compared with 314 and 536, respectively for the previous week. Shipments would have been much larger if cars could have been secured.

Bid prices on the Portland Grain Exchange were as follows: Soft white, soft white (no Rex), white club, western red and hard red winter, all \$1.93 per bushel, basis No. 1 grade, bulk, 15-day shipment for coast delivery.

The San Francisco wheat market was quiet but maintained a steady to firm tone during the week ending August 29, with prices largely unchanged compared with other present weeks. Local demand was not very active but the strong holding tendency among central California growers and moderate offerings from other areas were sustaining factors. Offerings from Intermountain and Rocky mountain states and the Pacific Northwest appeared about in line for movement to California, but shipments were restricted by difficulties in obtaining freight cars.

In the Kansas City market demand for cash wheat was generally characterized as good until the last two days, when even the smaller receipts met a lessened demand. At the close of the week No. 1 hard winter was quoted at \$1.93 to \$2.05, unchanged.

At Minneapolis spot grain markets as a whole were mainly influenced by the car situation during the week. Offerings of cash wheat increased as much as the car situation would permit, while milling demand slackened. Millers claimed they could not pay current prices for wheat and profitably manufacture flour at present ceilings, and as a result cash prices went off 3c to 4c on bread type wheat. Minneapolis receipts of all wheat were 1,982 cars for the week.

The wheat harvest in the United States has been practically completed although there is still some combining and threshing to be done in the extreme northern portions of the north central states and on the western slopes of the Rock mountains. A few "spotted" areas also remain in the Pacific Northwest, where in a few areas showers delayed operations. The Canadian wheat harvest in the prairie provinces is well under way and will be general even in the northern sections in a week or ten days. Snow and light showers have delayed harvesting in many Canadian areas and warm, dry weather is now urgently needed. No estimate of production is yet available but trade reports indicate a harvest 100,000,000 to 150,000,000 bushels larger than that of last year.

Rainfall in western Europe has recently been excessive and storms have flattened some of the crops. Some damage to quality also appears likely. In Bulgaria, however, the big drought is unrelieved and crop prospects are poor. Harvesting has been completed in southern France but heavy rains have delayed harvests in northern sections of that country. Russian growers are being urged to hasten harvesting and bread rationing will be continued into next year due to drought which has reduced wheat yields.

While reports on production are still incomplete for European countries, present indications are that supplies of wheat in the four principal exporting countries and in Europe for the 1945-46 season may be as large as last year despite the sharp reduction in carry-over stocks. According to estimates by the Office of Foreign Agricultural Relations, stocks of wheat July 1, in Argentina, Australia, Canada and the United States, amounted to a little over 370,000,000 bushels compared with about 825 million bushels a year earlier. Production in those countries, from present indications, will total about 1,985,000,000 bushels if average yields are obtained on the reported acreage in Argentina and Australia. The prospective return in European countries for which estimates have been received will total around 830,000,000 bushels this season, compared with 647,000,000 bushels for the same countries in 1945.

A HARD LUCK STORY (By C. W. Jessup)

Three lads — Charlie Schultz, Johnny Johnson and C. W. Jessup decided to go fishing, huckleberrying and have a general good time, out the other side of Pierce. They wound up at Rocky Ridge lake about 1:00 o'clock. Two went fishing, tother made camp and got the frying pans hot. Two came in late, hadn't gotten a nibble — dined on bacon and mulligan.

Storm! Lightning and thunder something terrible and in the middle of the night all bedlam broke loose — wind, rain, hail and snow. A torrent came down the mountain and struck Johnny squarely on the head, and tore on through the bed — he being in the middle. We others got our share, however, as it took all three of us to keep the tent from blowing away — what a mess.

Toward morning one said he knew a short-cut to the Lochsa with a downhill grade, and the rest said "Let's go." We landed 10 miles above Pete King's cabin trail and creek at about noon — no breakfast. Spread out our tent, bedding and selves to dry. Two went fishing, tother made camp and got the frying pans hot. Two came in late, hadn't got a nibble. Fell back on bacon and mulligan.

Two fished up the river, tother drove the car as far as the road, where big road equipment was working, a bull-dozer weighing over 30 tons and shovel to match, with all the fixings — and what a road. We fell, our Dodge stopped and we took turns looking it over. The only damage was the hind bumper. Finally one found the rod connecting the feed to the engine had shaken loose, and that fixed she went like a house-afire. Went to camp, hadn't had a nibble, fell back on bacon and mulligan again.

One said he knew where there were five kinds of fish in one puddle — tothers said "let's go."

Got up early, loaded up, hopped in Dodge — wouldn't budge. Looked her over, nothing the matter but the loose bumper. Hailed a neighbor: "Can you fix our car?" He said: "Yes." He found a spring tucked in among the distributor points broken in two — and 40 miles from town. Says he: "My buddy is asleep, don't wake him. He has a Dodge. I'll take his gadget and put it in your car. He had to work it over, but he got our car out in the road and says it will go down-grade, but don't try to climb a hill!"

We glided down to Kooskia. Not a gadget in town.

We glided down to Kamiah — one gadget. We grabbed it. Leaving Kamiah we saw where a boy had run his car into the Clearwater. We didn't stop, afraid we couldn't get the car started, and there was a mob already.

We reached the promised puddle about 1:00 o'clock. Two went fishing, tother made camp and got the skillets hot. Late evening, two came in — one cat fish almost 3 inches long (it's on exhibition in Juliaetta) and two perch a little longer!

We are still fishing for the other three kinds.

"We'll be seeing you!"

PERSONAL MENTION

accompanied by Lynn and Skippy Koepf, visited in the Roy Ramey, Jr., home in Pullman Sunday.

Marion Lowery of Everett, Wn., and Mrs. Frank Lowery and son David of Pullman, were guests in the home of Mr. and Mrs. Marvin Long Friday and Saturday.

Mrs. Ted Vaughan was a passenger for Spokane Wednesday.

Mr. and Mrs. Howard Rukgaber of Seattle brought her sister, June Brown, home Saturday, after she had spent two weeks visiting in the Rukgaber home. The Rukgabers returned to Seattle Monday.

Mrs. Maude Skeffington of Spokane came down to visit Mrs. LeCornu over Labor Day. Mrs. George Rowe, who had been visiting at the LeCornu home for some time, returned home with her.

Mrs. John Laws and nephews, James, Clarence and Dickie, visited last week with the latter's grandparents, Mr. and Mrs. Bud Harris.

Mr. and Mrs. Wade Keene entertained O. E. Havens, Mr. and Mrs. Tom Keene and Mrs. Estella Leith at dinner Thursday. Sunday dinner guests were Mr. and Mrs. Stol Crowe, Mr. and Mrs. George Jones and children of Uniontown, Mr. and Mrs. E. H. Jones and Donald Jones.

Mrs. Estella Leith went to Coeur d'Alene Saturday to attending the wedding of her granddaughter, Patty Flaig, to Donald Kuykendall, son of Mrs. Letha Swanson, Lewiston. She returned Tuesday.

Jean Crocker returned home this week after spending a week at Lake Chatolet with friends.

Mickey Harris left this week for Lewiston, where she will attend the Lewiston Business college.

Miss Jean Ramey will leave for Moscow Saturday morning to attend a teachers' meeting, before taking up her duties Monday morning as a teacher in the school there.

Lots Of Tags Ordered

One hundred thousand deer tags and 35,000 elk tags, the largest number in the history of the state, have been received by the Idaho Fish and Game department and are being distributed to license vendors in all areas. The shipment also included 2,000 goat tags.

Thirty tags for bull moose and 35 tags for mountain sheep rams will be sold to persons drawing permits for these special hunts.

The record order of deer and elk tags was made by the game department because of the unprecedented number of licenses issued this year. Thus far there has been an increase of more than 50 per cent over the record-breaking total of 162,000 fishing and hunting licenses in 1945.

In previous years 75,000 deer tags and 25,000 elk tags have been sufficient to meet demands. The metal tags are locked to the carcass of a game animal immediately after the kill. Number of each tag is recorded on the hunting license.

Tags are required for all big game animals except bear.

Move Equipment To Home

Mrs. Ross Armitage has moved her beauty shop to her home from the Perryman Building, where it has been located for several years. She will continue her beautician service as in the past.

Thanks Are Extended

The Hot Lunch committee of the P. T. A. wishes to thank the following for help donated so far for canning for the school: Mrs. Kirk Wilson, Mrs. Hiram Galloway, Mrs. Ross Armitage, Mrs. George Brocke and Mrs. Bonnie Easterbrook. Also Deobald's for the use of their pickup in hauling apricots to and from the cannery, and Kenneth Brocke for the use of his car for transportation.

Friday at noon we will begin canning peaches for the hot lunch and will appreciate help from anyone interested. — Mrs. Ben Westendahl, Mrs. Kenneth Brocke.

CONSTITUTIONAL AMENDMENTS
 (H. J. R. No. 3)
 "Shall Section 18 of Article 4 of the Constitution of the State of Idaho be amended to read as follows:
 "The Governor, Secretary of State and Attorney General shall constitute * * * a board of examiners, with power to examine all claims against the state, except salaries or compensation of officers fixed by law, and perform such other duties as may be prescribed by law; Provided, that in the administration of moneys in cooperation with the Federal Government the legislature may prescribe any method of disbursement required to obtain the benefits of federal laws. And no claim against the state, except salaries and compensation of officers fixed by law, shall be passed upon by the legislature without first having been considered and acted upon by said board?"
 (H. J. R. No. 1)
 "Shall Section 23 of Article 3 of the Constitution of the State of Idaho be amended to read as follows:
 "Section 23. COMPENSATION AND MILEAGE OF MEMBERS — Each member of the legislature shall receive for his services a sum of ten dollars per day from the commencement of the session; but such pay shall not exceed for each member, except the presiding officers, in the aggregate, \$600 for per diem allowances for any one session; and shall receive each the sum of ten cents per mile each way by the usual traveled route.
 "When convened in extra session by the governor, they shall each receive ten dollars per day; but no extra session shall continue for a longer period than twenty days. They shall receive such mileage as is allowed for regular sessions. The presiding officers of the legislature shall each, in virtue of his office, receive an additional compensation equal to one-half his per diem allowance as a member; provided, that whenever any member of the legislature shall travel on a free pass in coming to or returning from a session of the legislature the number of miles actually traveled on such pass shall be deducted from the mileage of such member."
 (S. J. R. No. 3)
 "Shall Section 7 of Article 4 of the Constitution of the State of Idaho be amended to read as follows:
 "From and after July 1, 1947, shall the pardoning power now vested in the Governor, the Attorney General, and the Secretary of State be vested in such board as may hereafter be created or provided by legislative enactment?"
 (S. J. R. No. 4)
 "Shall Section II of Article 9 of the Constitution of the State of Idaho be amended to provide that the permanent endowment funds other than funds arising from the disposition of University lands belonging to the state, * * * be loaned on United States, state, county, city, village or school district bonds, or state warrants under such regulations as the Legislature may provide?"

Watch For Tuberculosis
 Poultry raisers are reminded today that frequent examinations of birds and houses for the presence of mites and lice is a highly important detail of flock management in late summer and early fall. These parasites multiply very rapidly in warm weather, and they cause a real slow-up in egg production and poultry growth because of the great discomfort experienced by the birds.
 And to a great extent, they say, the problem can be solved by a sort of segregation between swine herds and poultry flocks. — Try it.
Tire Prices To Go Up
 Retail ceiling prices on passenger car, motorcycle, truck and bus and industrial tires have been increased approximately 2½%, to meet the requirements of the new price control act that distributors be allowed their percentage mark-up of March 31, 1946, OPA announces.

Potlatch Chief Sez

PUBLISHED BY THE KENDRICK CO-OPERATIVE CREAMERY

HI, THERE, FOLKS:

Your family deserves a good treat — so treat them to Potlatch Chief Ice Cream. It's tempting and delicious, as well as a sugar-saving dessert. We have a large assortment of flavors, such as: Banana Nut, Butterscotch, Chocolate, Strawberry, Vanilla, Hawaiian Delight, Lemon Custard and Peppermint. By the way, have you tried our Peppermint ice cream? It's a real treat. Take some home today.

We pack ice cream in one gallon containers for \$1.75. Buy ice cream by the gallon, as it is by far the most economical.

About Milk Bottles:

Not to change the subject — but the creamery is very short of quart milk bottles. Please don't let them stack up, as we need them.

Dig out your cellar and back porch, and bring us all those milk bottles that you have neglected

to return.

This action will be greatly appreciated.

"Stand up," shouted the evangelist. "Stand up if you want to go to heaven."

Everybody stood up except one old man.

"Don't you want to go to heaven?" asked the preacher.

"Sure I do, but I'll be daddummed if I want to go with an excursion," replied the oldster.

Smart Tourist (in village store): "Whattya got in the shape of automobile tires?"

Clerk: "Funeral wreaths, life preservers, invalid cushions and doughnuts!"

The rear-drive principle promises a thrilling new experience for the speed-maniac motorist. Instead of coming to with the engine in his lap, it may be picked out of his sacroiliac.

Pre-Ticketed Items

OPA today repeated information previously given in regards to ticketed items during the period when there was no price control.

On "big ticket" items, which include major appliances such as refrigerators, vacuum cleaners, stoves and washing machines, the re-established regulations state that retailers or wholesalers must not change, remove or in any way disturb the price ticket applied by the manufacturer. Therefore, if retailers or wholesalers did remove or change the tickets between July 1 and 25, they must not sell any of these items until they have received new, correct price tags from their supplier or until they have replaced the tags they removed.

Pre-ticketing regulations that cover clothing items, small appliances and housewares and radios, provide that retailers are required under the regulation to make certain the prices on these commodities are correct. Therefore, if retailers or wholesalers have removed, changed or in any way disturbed the tickets on these pre-ticketed commodities, they must re-attach the correct, or ceiling price, as of June 30, 1946, before offering these items for sale.

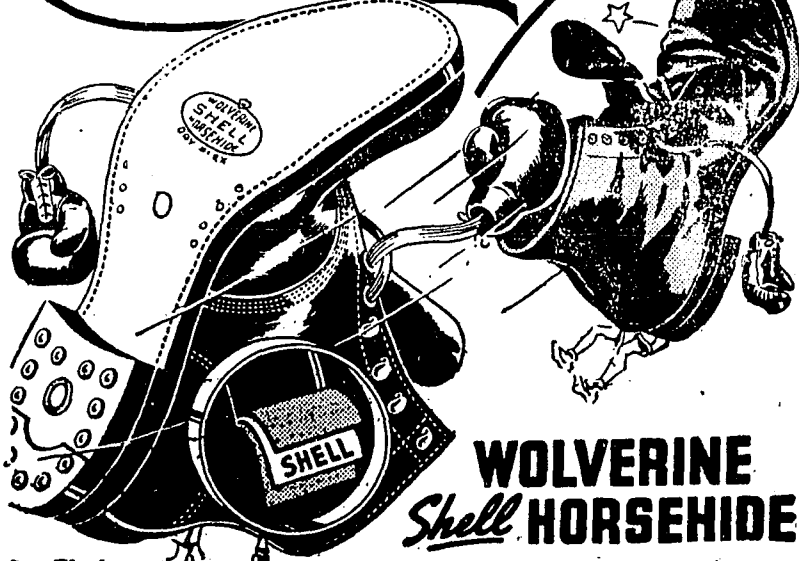

Dove Shooting Again Allowed

First bird shooting of the 1946 season in Idaho began September 1, when hunting of mourning doves became legal. The hunting season is September 1 to 10 inclusive, and the bag and possession limit is 10, says the Idaho state game department.

Doves were not hunted in Idaho last year. Game officials have reported an increased crop that promises fairly good shooting in some areas.

more than three shells, chamber and magazine combined. Daily shooting hours are from one-half hour before sunrise until sunset.

Pheasant hunting begins October 26 and lasts until November 11 in northern and southwestern Idaho; until November 3 in the far eastern counties.

A federal duck stamp is required for hunting ducks and geese, which season opens October 26 and runs to December 9, inclusive.

Contrast Makes Successful Meal

While good food value unquestionably comes first in planning meals, an ounce of "contrast" is worth a pound of persuasion in putting over "what's good for you." As one means to that end, serve at least one dish that's different from the rest. For example: A cool salad or frozen dessert with a hot meal; a hot soup or scalloped vegetable with a cold meal.
