"Peace In Our Time?"
The most destructive war in the history of mankind ended just a little over a year ago — or did it? To millions of young Americans who answered the call of their country and to many more millions who waited at home the unconditional surrender of Japan meant that at last the World could have the peace it had prayed for during the long years of war. The enemies — Italy, Germany and Japan — had been so soundly and thoroughly defeated that they would be impotent for many years. The only countries capable of waging war were the victorious allies — and it was unthinkable that any of them wanted more war.

Yes, the picture was very rosy in August of 1945, but how that picture has changed in the short space of one year! The allies who fought so well side by side for four years now find it hard to agree on what day it is. Out of the war the United States and Russia emerged as the two greatest powers on earth. With these two nations cooperating in keeping world peace, the possibility of another global conflict in our time seemed extremely remote.

But it soon became evident that Russia had no intention of cooperating with the United States, the United Nations, or anybody else. Conferences have been held in San Francisco, New York and Paris and each time Russia has provoked the rest of the world with a contentious attitude. In order that the United Nations would not fall before it got started we allowed Russia to have its own way repeatedly. Now voices are being heard throughout our country awakening the people to the danger of this policy of appeasement

and demanding that it shall not continue. Recently in a speech titled "Let's Demand Peace," John Steele, National Commander of the American Legion, stated: "It is high time we became hard-boiled about our determination to have lasting peace through international teamwork. Let's quit vacillating. Let's quit making all the concessions. Let's get off the road of 'appeasement.' It can only lead to disaster. We tried that with Hitler, Mussolini and Tojo. "Most observers believe that Russia is bluffing, that the Russians are as fed-up with war as we are. However, a feeling is growing among our ex-GI's — the peace-loving young men who brought the mighty Axis militarists to their knees — that if Stalin intends to enforce his unreasonable demands with might — let's have that showdown now."

Pruning And Trimming Trees
Jack Kuykendall was busily engaged Monday and Tuesday, and Herman Schupfer part of Tuesday in pruning and trimming some of the big locust trees along Main street, but particularly around the drug store, post office and confectionery corners — and a real improvement it made in appearances. After the long, hot, dry summer the big locusts have quite a number of dead limbs in them — and a bit of trimming helps a whole lot.

Idaho Births Exceed Deaths

That tired old bird, the stork, forgetting such details as a 40-hour week, double time for night work, etc., visited an average of 38 families in the state every 24 hours of the day in July, John W. Wright, director of vital statistics, Idaho department of public health, reports this week.

During the month a total of 1,188 babies were born with every county represented in births reported. Ada county topped the list with 156; Canyon county was second with 114; Bannock third with 104. Of the total births 1,135 were born in hospitals. During the same period an average of 11 persons died every day, and of the 361 deaths reported, a majority were persons over 40 years of age. Thirty-five of the deaths recorded were children less than one year old.

The five leading causes of death and totals were: Heart disease, 89; accidents, 65; cancer, 50; cerebral hemorrhage, 27; prematurity, 21. Some of the lesser causes included: Tuberculosis, 5; pneumonia, 5; syphilis, 3; whooping cough, 2; appendicitis, 2; rocky mountain spotted fever, undulant fever and meningitis, 1 each.

Accident fatalities continued to be the second highest cause of death for the third consecutive month, with 10 listed as occupational; 13 in the home (including two drownings; 20 motor vehicle; and public (not motor vehicle) credited with 22, including 17 drownings. Total drownings for the first seven months of 1946 totaled 45, compared with 43 reported for all of last year.

Notifiable diseases were 23.5 per cent lower than the number reported a year ago, which made July of this year the first month in two years to show a decrease from the corresponding month of the previous year.

Whooping cough was the most prevalent disease, with 73 cases reported in the state. Franklin county alone reported 28 cases.

Where Are The Adults?

That's what we want to know! The young people are at the church singing in the choir. Every Wednesday night the young people spend the evening preparing for an empty church on Sunday. Why is it empty? It isn't because of the young people. We have been earnestly trying to make the church service bigger and better, but an empty church is discouraging. Is one hour out of 168 too much for you? — Community Church Choir. 37-1x

Bounties Still Being Paid

Predator trappers and hunters are again reminded by the fish and game department that the season for payment of bounties on coyotes and wildcats throughout Idaho continues until November 15. The game department bounty is \$3.00 for each animal. All four feet with bones of front legs intact to the knee must be turned in.

With the approach of cooler weather trapping of predators is increasing after a lull during the summer months when fur is in poor condition.

A magpie bounty of 5c a head will be paid until October 15.

Cougar hunting will be renewed when winter has arrived and snow covers the mountains. Bounty on the big cats is \$50.00 the year around.

Family Dinner

Mr. and Mrs. Tom Long entertained with a chicken dinner in their home last Friday evening.

Those present were Mr. and Mrs. Edgar Long and daughter, Lt. Barbara Long, P. T., Mr. and Mrs. Roy Long and children, Mrs. Anna Varo and son Gordon and Mr. and Mrs. Marvin Long.

Watch For School Children

Now that school has begun, it's time to think always of the safety of the children, whether on their way to or from school or at play. Remember, the local school and the children on the streets are not the only place care must be used for their safety. Slow down and watch carefully at all school buildings in the country — and watch for the school buses. It is against the law to pass a school bus while in the act of discharging or taking aboard its passengers. A minute lost to you behind a school bus doesn't mean a thing — but it may be the difference between life and death to a school child.

Notice For Publication

NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A. M. on the 12th day of October, 1946, at Moscow, County of Latah, State of Idaho, before J. M. O'Donnell, Notary Public, proof will be submitted of the application to beneficial use of 0.04 cubic foot per second of the waters of Potlatch Creek in accordance with the terms and conditions of Permit No. 19,881 heretofore issued by the Department of Reclamation of the State of Idaho. The name and postoffice address of the person or corporation holding said permit are Grace and Ed. Grant, Kendrick, Idaho.

The use to which said water has been applied is Fish Pond and irrigation.

The amount applied to beneficial use is 0.04 second feet.

The place where said water is used NE 1/4 NW 1/4 NW 1/4 Sec. 35, Township 38 N. Range 3 W.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Grant's Fish Pond.

The right to take water from such work is based upon Permit No. 19881.

The source of supply from which such water is diverted is Potlatch Creek, a tributary of Clearwater River.

The date of priority which said user is prepared to establish is July 10, 1946.

Crime Never Pays

J. Edgar Hoover, director of the FBI, reports that crime increased 13 per cent in the first six months of this year as against the same period last year. This is the highest rate of increase of crime in the United States since 1930, when national figures on the extent of crime were first compiled.

The survey reflects increases in robberies of 31.8 per cent; murders, 28.5 per cent; manslaughter by negligence, 19.2 per cent; burglary, 17 per cent; auto theft, 15.5 per cent; aggravated assault, 10 per cent; larceny, 9.8 per cent and rape 1.6 per cent.

While a 13 per cent increase in crime was recorded on a nationwide basis, crime in rural areas increased 19.6 per cent. Rural crime increased 48.4 per cent for robbery; 34.3 per cent for auto theft; 23.8 per cent for aggravated assault; 22.9 per cent for negligent manslaughter; 20.9 per cent for murder; 17.9 per cent for burglary; 13 per cent for larceny, and 8.3 per cent for rape.

In the first six months of 1945 crime increased 8.4 per cent over the same period in 1944, and the increase in the first part of 1945 gathered momentum until at the end of last year crime had increased 12.4 per cent over 1944.

About Harvesting Squash

James Kraus, of the horticulture department of the U. of I., Moscow, says: "Don't store squash in a cellar. They require cool, dry storage. Let them cure in the field a few days after harvesting. Then store the squash at 40 to 50 degrees in a dry place. Be sure to handle them with care so as not to bruise — and never put a squash on a cement floor. A board floor is fine for them — but not cement.

"Squash is ready to harvest when the skin gets hard. The best way to test them is to run your thumb nail along the skin. If the nail doesn't break through easily, then the squash is ready to store.

"When you harvest squash, be sure to leave the stems on."

Fresh Fruits

Bananas and oranges are the only fresh fruits that are under price control during the month of September, J. J. Gerber of O. P. A. states. Prevailing prices for oranges is 13c per pound, and 14c per pound on bananas.

Bananas are to be community priced on the dry groceries list in areas that are community priced — and are on a markup basis in areas that are not community priced. Oranges are on a markup basis for all areas in the Inland Empire.

Altogether Fitting And Proper

Guest: "What a pretty name your maid has!"

Hostess: "Oh, that isn't her real name. We just call her 'Dawn' because she's always breaking."

Dimwit: "Do you have any trouble with 'shall' and 'will'?"

Dimbulb: "No. My wife says 'You shall' and I say 'I will!'"

OUTWEAR PREWAR TIRES

"For safety's sake," says Mr. R. W. Thompson, driver of Yellow Cabs, Louisville, Ky., "I want the protection of the new B.F. Goodrich Silvertowns. No prewar tires I ever rode on could match them for ruggedness and traction."

Over 17 million miles of tests were run on taxi fleets, police cars, and on the B.F. Goodrich test fleet.

From these tests came proof that the new B.F. Goodrich Silvertown was a superior tire that outperformed, outlasted, and outwore prewar tires—even at high speeds.

Supplies of this new tire are still limited. However, we'll do our best to keep your car rolling until we can get new tires for you.

A man was filling out an application for life insurance. His

father had been hanged, but he did not want to admit the fact. When it came to filling in the "cause of father's death" he wrote the following: "Met death at a public function, during which the platform on which he was standing gave way beneath him."

Sergeant: "I suppose when you get out of the army you'll be waiting for me to die so you can spit on my grave."

Rookie: "No, Sarge. After I shed this uniform I never want to stand in line again."

The hour of midnight struck just as father appeared at the top of the stairs. "Mary," he called, "is that young man of yours asleep?"

"Sh-sh, father!" called back Mary. "He has just asked me to marry him and make him the happiest man in the world." "Father grunted. "As I thought," he said. "Wake him up!"
