Paper Not All It Should Be

We apologize for this week's issue of the Gazette, realizing it is far from what it should be. However, due to illness, with its attendant loss of help, and the fact that the "mechanical force" is nursing torn ligaments in an ankle due to a fall on an icy street Saturday morning — we feel that we were just "plain lucky" to get out a paper in any form.

Please bear with us.

Give to the Living War Memorial Swim Pool. Remember, it's yours, not Kendrick's!

Kendrick Loses To Moscow

Friday evening of last week the Kendrick Tigers fought a rough and fast basketball game on the local gym. floor with the A string of the Moscow Bears, losing by a 1-point margin, 29-30 — Moscow.

It seemed for a time as if the local team could break-up the stalling tactics of the Bears in the final minutes of play, for Moscow called so many "time outs" that they suffered one technical foul on that point. However, the Tigers just couldn't coax the Bears "to come out and play" in the closing minutes of the game.

We regret very much not having access to a score book for the game statistics.

The "Senior Hop" dance which followed the game was enjoyed by a good-sized crowd. The cold weather probably cut attendance at the dance — but not at the game.

We Were Misinformed

In the write-up of the grade school operetta in last week's issue we made the statement that it was directed by Mrs. Claude Jones. It seems that this was not the case, for Mrs. Jones says, in a brief note: "I was not the director. It was planned, arranged and supervised by all the grade teachers."

Our apologies. We are glad to correct this mis-statement.

Dispose of Confectionery

A deal was consummated last week-end whereby the partnership of Aggar & Salhus became the new owners of White's Confectionery.

Mr. Aggar is very well known here, having lived here for some months previous to moving to headquarters something over a year ago. Mr. Salhus is from Lewiston.

We understand both are experienced in this type of business.

The White family will continue to make their home here, at least until school is out next spring. They say they hate to leave, as they have found Kendrick one of the friendliest and nicest places in which to live that anyone could want.

MISS WILMA SCULTZ BRIDE OF RAYMOND STEEN

Sunday afternoon, December 22, at 2:00 o'clock in Christ Lutheran church of Magnolia Park, Burbank, California, Miss Wilhelmina (Wilma) Schultz of Juliaetta, Idaho, daughter of Mr. and Mrs. Charley Schultz, Juliaetta, became the bride of Raymond Steen of Eckman, North Dakota, son of Mr. and Mrs. Carl J. Steen, also of Eckman, the Rev. C. H. Bopp officiating at the simple but impressive ceremony.

The bride wore an alice blue sheer crepe dress, street length, with cape sleeves and peplum skirt. Her accessories were in blending shades of smoke-tone and black. Her corsage was of white carnations and pink rose buds, and about her neck were pearls, with earrings to match.

The bride's attendant, her sister, Mrs. Gerald Schmidt of Kendrick, Idaho, wore a brown two-piece crepe dress with a corsage of yellow rosebuds.

The bride's niece, Irene Schmidt, was flower girl. She was attired in a blue chiffon velvet dress, and wore a corsage of American Beauty rosebuds.

The best man was Gerald Schmidt of Kendrick, Idaho.

The interior of the church was beautifully decorated with white chrysanthemums and American Beauty roses.

The wedding dinner was at "Cliffons" in Los Angeles, where the bride party were the guests of Mr. and Mrs. Chester Benedict of that city. At "Cliffons" the newlyweds were honored by having the selection "Always" played in their honor.

Following the dinner a tour was made of Los Angeles and down the famed "Santa Claus Lane" of Hollywood.

The bride is well known here, having lived at Cameron and attended school and grown to young womanhood there.

The groom is a student at Cal-Aero at Glendale, Calif. He served three years in the navy as an aviation metalsmith, serving in the Hawaiian Islands, and on the west coast. Previous to entering the service he lived and attended school at Eckman, North Dakota.

The newlyweds will make their home at 1106 Burbank Blvd., Burbank, Calif.

Canyon A Bower of Beauty

Following the cold snap over the week-end and Monday, the mercury began rising early Monday morning to be followed by about three inches of crisp, white snow — and about 10:00 o'clock Tuesday morning a brilliant sun appeared, and the canyon, throughout its entirety, was indeed a beautiful sight. The evergreen on the hillside adjoining town presenting a delayed "Christmas" dress to Kendrick residents.

This snow was welcomed by the farmers, for, added to the three to six inches they already had atop the hills, it assured protection for winter wheat, and relief from the mud in which they had been forced to travel for some months.

It presented road travel problems, however, in that most of the grades were icy, and this fall made travel conditions all the more hazardous. The clank and rattle of car and truck chains can now be heard from every vehicle on the streets.

Wednesday night the thermometer began dropping, and Thursday morning readings were reported in the canyon of from 8 below to zero.

As a result of this Jack Kuykendall was plenty busy with the city thawing machine, a considerable number of frozen water systems being reported. The kids, however, were enjoying the situation to the utmost — skating being "the tops" and coasting almost as good.

We didn't see an official reading from Lewiston's weather station, but will bet their "bananas" got a darn good case of frost-bite!

Kendrick Loses To Asotin

Asotin, Dec. 31.—In a one-sided session which saw Asotin take the lead at the start and hold it all the way, Kendrick went down to defeat 41-28.

Score at the half was 21-17 for Asotin. Asotin scored the win without the aid of their high-scoring, Weza, who was laid up with the flu.

High scorers for Asotin were: Lonberg, 15; Appleford, 10. For Kendrick, Brocke 11 points, Easterbrook 6.

Asotin won the B squad tilt 38-34 in an overtime period. The Kendrick grade school, however, trounced Asotin's "Unstarts" 9 to 8. — Lewiston Tribune.

The little fellow was born at the home of her parents, Mr. and Mrs. Albert Heimgartner.

DIGEST OF THE RECENT PEABODY SCHOOL SURVEY

Feeling that information in the recently completed Peabody school survey was possibly not widely enough distributed, Jasper Nutting, our local superintendent of schools, has prepared the following introduction and digest:

Many citizens of the Kendrick community have heard of the recent survey that was made of the Idaho public schools and have no doubt wondered what it is all about. It is vitally important that all citizens of Idaho who are interested in maintaining an educational system within our state, that prepares the youth adequately for life's problems, be informed as to the conditions of our public education system. May it be added that these problems are of a serious nature and much corrective work needs to be done. Although Idaho has lagged behind most western states educationally for years, the seriousness of the situation was not felt until the war intervened and many teachers were called into the service or went into war work, which was so necessary, and which paid much larger salaries.

As a result of this intense teacher shortage, provision was made by the State Board of Education to issue teaching permits to almost anyone who had ever been near a school. Many excellent teachers were obtained in this manner, but in the main it lowered teaching standards so greatly that the pupils today are the unfortunate victims of circumstances.

The legislature of 1945 realized the seriousness of the situation and appropriated funds sufficient to hire experts to make a complete and thorough survey of public education in Idaho. These experts came from various state and educational institutions, but the director of the survey staff was Dr. John E. Brewton, Division of Surveys and Field Services, George Peabody College for Teachers, Nashville, Tenn., hence the report they made is most often referred to as the "Peabody Report."

These educational experts worked one entire school year surveying and studying each school in Idaho and on Nov. 22, 1946, revealed the result of their labors to the public. It is an excellent work, and views the good and bad features in an unbiased manner. Many recommendations were made as to ways in which we can correct the difficulties. The question now is: "What will we do with the report? Will the legislature of 1947 go ahead and act in a constructive way so that education may not suffer further, or will they drop the matter, as has been done in the past when questions of educational improvement have arisen?" If that happens this time there will be many more schools unable to open their doors next fall than was the case last September. As it is, there are some schools going to have to close in February unless emergency appropriations are made to keep them running. Now is the time for our legislature to act if we are going to improve our standards and move forward in Idaho, as other states are doing.

It is hoped that many will familiarize themselves with the report as fully as possible, and if and when the occasion arises that the Peabody Report be endorsed in its entirety to legislators who will be dealing with this problem in the near future. Anyone wishing to read the complete report may obtain a copy of the same from the school office.

Pertinent Report Items

Progress — Public education in Idaho has enjoyed consistent growth in many respects. Idaho has one governing board for all public educational institutions. The principal of a minimum program of education has been established. Most schools have a term of nine months. Idaho has a basically sound teacher-retirement law. The State Board of Education has an excellent plan for the selection of textbooks. Idaho has an active state association of school trustees, and a strong organization of parents and teachers. In realizing these achievements, the people of Idaho have demonstrated their ability to plan cooperatively. Idaho leads the nation in the percentage of children of school age who are enrolled in school, the report showing Idaho as 96 percent; the nation, 84 percent. Idaho schools have an excellent holding power. In 1941-1942 the loss in high school pupils in a four-year period was: Idaho, 25 percent; the nation, 34 percent

She Knew Her Man!

Oakley, Idaho —When the preacher was reading the ceremonies for Jim Nelson and Gene McEvers and came to the "Do you take this man for your lawfully wedded husband?" the bride interrupted and demanded: "Before I say I do, just write in there, 'And no potato picking'."

"How about it?" the preacher asked the groom.

"Guess you'd better put it in."

"Most unusual," the preacher said, "but I guess you know what you're doing," and he proceeded with the wedding.

Vets Can Change Insurance

Veterans who objected to National Service life insurance because their beneficiaries could not obtain lump-sum settlements, may now choose from several types of payments, the Veterans Administration explains.

The new insurance law provides for optional settlements, including lump-sum payment. Under the first law, the only settlement authorized were monthly or annuity payments.

Any veteran who wishes to change the type of settlement on his policy should contact the V. A. immediately. If no change is requested, payment will be in 36 equal instalments.

REDDY IS AT YOUR SERVICE

Much of the wealth and health of the great Inland Empire springs from the fertile, rolling farmlands that stretch in endless acres from the Rockies to the Cascades.

To keep these fertile acres of rich top soil from being washed away, leaving the land desolate and unproductive, Soil Conservation Districts have been formed. Much work is being done to save the good earth for our own and future generations.

The Washington Water Power Company, through its greatly expanded Farm Development Department, places at the service of Inland Empire farmers its full cooperation.

MY HOME
 My home is on the Potlatch,
 A rugged, mighty stream,
 Where roses bloom on every hand
 And the water lilies dream.
 My house stands beside the road,
 Beautiful only to me,
 Where friends are always welcome,
 To call and have a cup of tea.
 O, little home on the Potlatch,
 It's there I love to be
 To hear the wild birds calling
 And the bullfrogs melody.

Three absent-minded professors were so absorbed in conversation that they didn't hear the train come in or the conductor's "All Aboard," call until the puff of the engine attracted them. Then they all rushed for the train and two of them scrambled on. The third looked on sheepishly.

The agent standing near-by said, "Too bad, Mister, but you should not feel so badly. Two out of three made it — that's a pretty good percentage."

"Yes," sighed the professor, "but they came down to see me off!"

He was frail; she was sweet and receptive — but still realistic.

"When I crush you in my arms like this," he whispered, "what are you thinking of?"

Without hesitation she replied: "The man-power shortage!"

PEABODY SURVEY

There is no specialist in attendance and personnel services.

The average county superintendent is not a college graduate. The median level of training is three years of college. Some states require a master's degree for such an important position. Furthermore, county superintendents are subject to county politics, and their term of office is only two years. Idaho county superintendents, but the procedure for securing a superintendent offers no guarantee that a qualified person will be continued in office.

Teacher Supervision: Idaho employs more than 4,000 teachers. The state department of education has one elementary supervisor for approximately 2,650 teachers, and one high school supervisor for approximately 1,350 teachers and admin-

strators. No county employs an instructional supervisor. Only a few of the larger cities employ instructional supervisors. School superintendents do very little supervision of instruction. Their time is taken up with administration.
Small School Cost: Seventy-one percent of the schools of Idaho employ not more than three teachers. These small schools usually have few pupils per teacher. Many of these schools, 44 percent, employ only one teacher, some enroll only six pupils. In 1945-46 the small schools cost the people \$902,670.30 more than they would have cost if they had been large schools. However, Idaho will always have to maintain some small schools in isolated areas, but many of her small schools can be combined into more efficient units.

As We See It

THE SUGAR DEAL

A great deal of pressure is being brought to bear on the Department of Agriculture and Congress to loosen up on this sugar deal. — The pressure is to keep the sugar we have at home to relieve the tight situation here — rather than to send it to Europe and Asia.

The first quarter of 1947 the personal allotment will be one stamp valid and good for 5 pounds — to last from January 1 to April 30th.

The industrial and institutional allotments will be the same as for 1946 — but we are supposed to have a little increase the second quarter of 1947.

Scarce articles should be more plentiful shortly after the first of the year — with the exception of those requiring sugar in their manufacture. This scarcity, of course, will be widely felt.

As sugar will still be short the first half of 1947 (at least), we suggest merchandise that saves sugar, in stead of using it.
