VOLUME 57

KENDRICK, LATAH COUNTY, IDAHO, THURSDAY, FEBRUARY 27, 1947

NO. 9

## KENDRICK WINS VALLEY TOURNEY CHAMPIONSHIP

Lapwai, Feb. 20 — Culesac and Kendrick moved closer to the district title by nosing out Lapwai and Genesee, respectively, here tonight.

Kendrick defeated Genesee 39 to 37 in a thriller that had a large crowd witnessing both contests on its feet most of the third and fourth quarters. Culesac, after sharing a 31-31 tie with Lapwai most of the fourth quarter, surged ahead in the final minutes of play to win 37 to 33.

With seconds to go in the fourth quarter of the Kendrick-Genesee contest, Herb Millard, Kendrick forward, dropped in a field goal from the key to decide the final score.

Millard led the Kendrick scoring with 12 points, while Don Johnson with 12 high-pointed for Genesee.

When the first quarter ended the score was tied 7-7, and Kendrick led at the half-time 19-12. However, Genesee shoved ahead in the third quarter and paced Kendrick 30 to 27 when it ended. During third-quarter play Genesee led Kendrick as much as eight points.

Short box score for Kendrick: Easterbrook, f, 5; Millard, f, 12; Dammarrell, c, 3; Brocke, g, 8; Miller, g, 3; Medalen, g, 4; Brown, f, 1.

For Genesee: Lee, f, 2; Johnson, f, 9; Peterson, c, 8; Springer, g, 9; Bennett, g, 6; Jenkins, g, 5; Semmes, g; Schwene, f; Heimgartner, g.

Matt Engle and Mac Gould officiated for both contests.

## Genesee Defeats Culesac

Lapwai, Feb. 21 — Genesee gained a district tournament spot by defeating Culesac 24 to 23 in a Valley league tournament game at Lapwai. Genesee led Culesac 10 to 7 at the half. Kendrick and Genesee meet Saturday evening at 8 for the championship, but both teams are assured places in district play and the eight class B teams have all been selected. Rankings of first and second, which determine opponents in district play have been settled in the North Prairie League and Valley League. In the former, Orofino goes as first place, and Nez Perce second. In the latter: Kendrick, first; Genesee, second.

In the preliminary game the Lapwai girls defeated the Genesee girls 36 to 21. Dorothy Kirby and Margaret Slickpoo, with 14 points each, led the Lapwai attack, while Myrna Carubhn led Genesee with 11.

The Lapwai girls met Kendrick Saturday evening at 7:00 in the preliminary game for the girls' championship of the Valley league.

The game between Genesee and Culesac was closely fought throughout with Genesee keeping a slight edge. Quarter scores with Genesee leading were: 6-3, 10-7, 20-16 and the final 24-23.

## Kendrick Captures Tourney

Lapwai, Feb. 22 — A rested, ram-paging Kendrick cage quieted smashed Genesee's tired basketweavers 44 to 11 here tonight to win the Valley League district tournament. Genesee bowed to Kendrick while playing its fifth tourney contest of the week.

Despite the loss, Genesee, along with Kendrick, is assured a place in district play.

Thornton and Herb Millard, each with 7, spearheaded the easy Kendrick win. Kendrick led throughout the game, pacing Genesee 10 to 4 at the end of the first quarter, 23 to 4 at the half time, and 30 to 3 at the end of the third quarter.

In a girls' preliminary Lapwai defeated Kendrick 28 to 21 in a lively, hard-fought game. Dorothy Kirby led the Lapwai attack with 14, while Barbara Stedman paced Kendrick with 7.

The Kendrick girls had the Lapwai lassies at bay in the first quarter, which ended 6 to 5 in favor of Kendrick. However, Lapwai forged ahead in the second quarter and led at the half-time 15 to 12. They maintained their lead throughout the third period, which ended 20 to 17.

The box score for the championship boys' game follows:

Kendrick (44)	FG	FT	PF	TP
Easterbrook, f	2	2	3	7
Thornton, f	3	1	4	7
Millard, g	2	3	2	7
Brown, g	2	0	4	4
Dammarrell, c	1	3	2	5
Medalen, f	3	0	6	6
Miller, f	2	1	0	3
Brocke, g	2	0	1	4
Halseth, g	1	0	2	2
Totals	17	10	11	44

Genesee (11)

Genesee (11)	FG	FT	PF	TP
Heimgartner, f	0	2	0	0
Liberg, f	0	0	2	0
Lee, g	1	0	1	1
Jenkins, g	1	0	1	2
Peterson, c	0	0	2	0
Semmes, g	0	0	0	0
Springer, g	0	0	0	0
Schwene, g	1	0	2	2
Bennett, g	0	1	0	0
Johnson, f	0	1	0	1
Totals	4	3	11	11

Officials in these games, as in all others, were Matt Engle and Mac Gould. — Lewiston Tribune.

Our Note — The Tribune failed to mention the presentation of the Tourney Trophies by Supt. Cermack of the Lapwai schools. The girls' championship trophy went to Lapwai; the boys' to Kendrick, and the runners-up cup to Genesee. These beautiful trophies were the gift of the Kendrick Bean Growers' Association, Inc., of Kendrick, who have for years made the gift.

## Our Comment:

One, whole side and a large part of the balcony in the big Lapwai gym, were filled to capacity with Kendrick rooters. Almost all of the local students attending the U. of I. were present, as were other fans who had bucked bad roads and driven for many miles to see the contest. One carload of Kendrick fans was even present from Grangeville.

## Still Doing "Trapping"

Archie May is still busy running his "predatory" trap line, although he says he will have to discontinue it soon, with the coming of Meadowlarks, Robins, and other friends of man.

To date he reports the capture of 11 large owls and 14 hawks, and one skunk.

The skunk, however, didn't mean much, as coyotes killed it while still in the trap. And the other day, they killed and ate a large hawk caught in one of the traps — Archie having but a small portion of one leg left of the bird.

## Wickliffe R. Smith, Southwick Old-Timer, Passes On

Wickliffe R. Smith, 71, who represented Nez Perce county as state representative for one term (1906-08), and a resident of the Potlatch ridge area for more than 50 years, died at St. Joseph's hospital, Lewiston, shortly after 8:00 o'clock Thursday morning, February 20. His home was at Southwick.

Smith entered the hospital Feb. 13 and was then in critical condition. His health had been on the decline for several months and death was attributed to a general breakdown.

A native of Tennessee, he came west in young manhood and located at Cavendish. He taught school at Cameron, on Cream ridge and at Southwick, and between times published the "Potlatch Star" at Southwick. About 1932 he gave up school teaching and carried mail on the Star route from Kendrick to Southwick for a number of years, giving up this work in 1941, and going to Leadore, Idaho, where he taught school for a year. Following this he accepted employment as a plant guard at Portland, and at the conclusion of the war returned to his home at Southwick, retiring from active work at that time.

Mr. Smith was a student of astronomy and articles written by him on this subject frequently appeared in the Gazette and Lewiston Tribune.

Survivors include three sisters and two brothers: Mrs. Mary Mitchell, Decatur, Ill.; Mrs. I. W. Napier, of Kentucky; Mrs. J. P. Corey, Staunton, Texas; Webster Smith, Milton, Ill.; and Muncie Smith, Lafayette, Ill.

Funeral services were held at 2:00 p. m. Tuesday from the Southwick church, with the Rev. George Cawert, a friend of many years, bringing the message. Interment was in the Southwick cemetery.

Vassar-Rawls Funeral home, Lewiston, was in charge of arrangements.

## Among The Sick

Mrs. N. B. (Grandma) Long, has been quite ill for the past two weeks, suffering with a severe cold in her chest. At the present time she is showing slight improvement. She is 86 years of age.

P. C. McCreary has been confined to his home the past week, suffering from high blood pressure and arthritis. He is improving steadily at this time.

Puzzled expressions began to appear on these fans faces when, the score standing 6-1 in favor of Kendrick at the end of the first three minutes of play, Coach Hammond of Genesee, "pulled" Lee, who had three fouls on him, and seconds later "pulled" another man, and just as the quarter ended, put in his entire second string — the score then standing 10-2, Kendrick. From that point on, the game was a rout, Coach Armitage substituting freely, and at times changing the entire team.

As time passed, the fans realized they were not to see a real game, and tempers began to flare. In fact, so "hot" did they become under the collar that at the games end, when the presentation of trophies was to take place, and Coach Hammond of Genesee was offering an explanation of why he did not try to win, the fans "tendered" him one of the best "b-o-o-ings" ever heard. So strong was this sentiment that he gave up the attempt to talk. In this action, Kendrick had the assistance of many Lapwai and Culesac fans who, too, had expected to see a real game.

It was a mad crowd who poured from the gymnasium, many making the comment: "I wish I knew where to go to get my money back!" True sportsmanship was observed by the crowd, however, during the presentation of the trophies to the teams.

It is indeed regrettable that the lack of a real game should mar the tourney's end — and no blame should be attached in any way to the officials in charge.

## Kendrick Team Statistics

From Coach Ross Armitage comes the following figures, which will be of real interest to every basketball fan:

Games played	22
Games lost	3
Total games won	19

Of the above total — Games played with A schools ..... 4 Games lost to A schools ..... 1 (By just 1 point)

Kendrick's average score per game (points) ..... 42 As we go to press (Wednesday, 2:30 p. m.) Genesee is playing Troy in the district tournament at Lewiston, and at about 3:45 Kendrick meets Kamiah (conceded to be one of the tough teams of the tourney). These games are being broadcast by station KRLC, Lewiston, as will almost all the other tourney games. If you can't go, listen in!

## COMMERCIAL CLUB BOOKLET OF 1909 COMES TO LIGHT

Mrs. Herman Travis is the possessor of a "booster" booklet sponsored by the Kendrick Commercial Club in 1909, and published by the Kendrick Gazette. It was handed down to her by her grandfather, R. M. Wright, an early settler here.

The cover of the booklet is in full color, picturing Kendrick's Main street. In it appear the advertisements of The Kendrick State Bank, Albert Moskop, George Clem, Ziemann Bros. & Hoehn, Farmers Bank, Kendrick Roller Mills, Barnum Lumber & Construction Co., Fred S. Beckwith, McCrea Hardware Co., Lewis Jewelry, Success Restaurant, Inland Empire Copper Mining Co., the Kendrick Hardware and Implement Co., T. P. Loring, Idaho Meat and Provision Market, Marr Merchandise Co., D. J. Rowlands Furniture Store and Undertaking, Kendrick Brick Yard, and the Lewiston Milling Co.

At that time the resources of the Kendrick State Bank were \$156,710.46; and the Farmers Bank \$102,124.10.

City council members are listed as: S. Mellison, clerk; W. O. Marr; W. M. McCrea, treas.; Roy Dickey; Guy M. Lewis; E. D. Bradbury, mayor; and John Lauterbach.

Of all the firms listed in the booklet, but two still remain, at least doing business under their original names: "The Farmers Bank" and "The Kendrick Gazette."

We reproduce this week the write-up of the local school system — bear in mind that the year is 1909: "Schools and churches are two of the magnets that attract or repel settlement. Beautiful for situation and picturesque in its setting, Kendrick's school house, like that in the "Bonnie Brier Bush," invites to please and scholarship.

On the edge of the bluff, overlooking the Potlatch river, three canyons diverging in Alpine variety and Italian beauty, rippling water, rugged rocks clad with aromatic pines, resinous fir, green grass, hanging moss and trailing vines — farms nestling on sunny slopes, orchards and fields in checkered abundance, with the bluest of skies and pure ozone — the location is almost ideal. To it, gravitate, as tributaries to the main stream, or trade to the stores, a procession of young folks from the outlying ridges.

Ten grades form the curriculum — competent, trained and experienced teachers and an excellent esprit-de-corps are features of the school throughout.

Idaho has uniform state questions for grade scholars for entrance into the high school. In grade work Kendrick is thorough and the examinations have been met and mastered by every aspirant. Many of the high school scholars are young men and women who room in town, "batch," or do light housekeeping, and on Friday afternoons ride five or six miles to their homes on the farm, returning Sunday afternoons for their week-day school tasks. Taught to be self-reliant, they prize their opportunities and form the habit of turning to vantage their advantages.

The school tax is generously levied and cheerfully paid, and the aim is to pay adequate salaries to the teachers and to leave to their honor and capacity to give the value received for the money received — to the main stream, or trade to the stores, a procession of young folks from the outlying ridges.

The moral tone is high and all parents need have no fear of evil surreptitiously entering or allowed to remain when discovered; equipment is modern and it is adequate to the demand. Free text books are provided and the ambitious youths can find at their very door opportunities for a common school education.

The Board of Trustees are: E. D. Bradbury, W. M. McCrea and M. V. Thomas. J. P. Baraackman has been superintendent for six years.

Among the many able principals of our school, none have advanced it more rapidly or are entitled to more credit for its high standing than the present incumbent."

The booklet is badly worn, so we have returned it to its owner rather than put it out for public display.

## Fred R. Dorendorf Passes Away

Fred R. Dorendorf, 48, passed away at the Coeur d'Alene hospital February 8, the immediate cause of death being heart failure.

Mr. Dorendorf was born at Jewell, Minnesota, May 29, 1899, and when a year and a half old moved with his parents to Southwick, where he grew to young manhood, leaving there some 25 years ago for Kellogg.

For the past 20 years he had been an employee of the Page mine at Kellogg, but was well known here, coming back often to visit.

Survivors include his wife, Mary, and four daughters, Viola Roberts, Kellogg; Lillian Brown, Renton, Wn.; Della, Margaret and Carol, at home, and two sons, Floyd and Theodore, both of Kendrick. His father, Andrew, Kellogg; four sisters and two brothers also survive, as follows: Anna Baker and Adeline Swanson, both of Southwick, Matilda Riley of Kendrick and Martha Bleisner of Spangle, Wash.; Henry of Kellogg and Walter of Kennewick, Wash.

Funeral services were held at Kellogg, Tuesday, Feb. 11, with interment in the Kellogg cemetery.

## Marriage Is Announced

Mr. and Mrs. E. M. Dammarrell announce the forthcoming marriage of their daughter, Dorothy Marie, to John Herbert Branting, Troy.

The ceremony will take place on Sunday, March 2, at 2:30 p. m. at the First Methodist Church in Moscow.

## NEWS ITEMS ABOUT LELAND RESIDENTS AND FRIENDS

L. S. L. A. To Meet Feb. 28  
The L. S. L. A. will meet Friday, February 28, at 2:00 o'clock at the school house, to discuss what is to be done about the school lunch program. All mothers are urged to be present. Again we repeat — all mothers!

Homemakers Club To Meet  
The Leland Homemakers Club will meet with Mrs. Harold Parks on Thursday, March 6, for an afternoon meeting, beginning at 1:00 o'clock. Miss Lucille Eyrich will be present and demonstrate the use of stencils.

Other News  
The chili supper and show given by the L. S. L. A. last Wednesday evening was well attended, and the sum of \$60.00 was cleared.

Mr. and Mrs. Ed. Johnson, accompanied by Mr. and Mrs. Laurel Flesman and daughter Peggy, all of Kellogg, arrived Tuesday evening. Mr. and Mrs. Johnson were the guests of Mr. and Mrs. Herman Johnson, while Mr. and Mrs. Flesman and Peggy were the guests of Mr. and Mrs. Lloyd Craig.

Mr. and Mrs. Chester Vincent and daughter Carol Lynn were Clarkston visitors on Wednesday and Thursday.

Mr. and Mrs. Laurel Flesman and Peggy, Mr. and Mrs. Ed. Johnson, Mrs. Lloyd Craig and Jeanne and Mr. and Mrs. Robert Smith were Wednesday dinner guests of Mr. and Mrs. Herman Johnson.

Mrs. Elvin Salisbury and children, and Mr. and Mrs. Roland Jack and children, all of Moscow; Mr. and Mrs. Robert Smith and J. M. Woodward were Thursday dinner guests of Mr. and Mrs. Harry Smith. Mrs. Salisbury and children were overnight guests. Mr. Salisbury joined them Friday and all remained until Saturday.

J. M. Woodward took Mr. and Mrs. Robert Smith to Genesee Friday, where they were the dinner guests of Mr. and Mrs. Glen Brazier. On returning that evening all were the supper guests of Mr. and Mrs. Harry Smith.

Mrs. Dora Heffel was a week-end guest of Mr. and Mrs. Jesse Heffel. Mr. and Mrs. Chas. Hoffman were Sunday dinner guests of Mr. and Mrs. Donald Morgan at Lenora.

Mr. and Mrs. Robert Brock of Wenatchee, Wash., were the guests of Mr. and Mrs. Jesse Thornton on Thursday and Friday.

Mrs. Lloyd Craig and daughter Jeanne were Sunday dinner guests of Mr. and Mrs.ONEY Walker.

Mr. and Mrs. Roy Craig were the week-end guests of Mr. and Mrs. George Baugh at Orofino. Paige Craig visited at the Chas. Craig home.

Mr. and Mrs. Robert Robinson of Clarkston, Mr. and Mrs. Robert Draper, Ervin Draper and John Vincent were Sunday dinner guests of Mr. and Mrs. Chester Vincent, the occasion being Mrs. Robinson's birthday anniversary.

Mr. and Mrs. Lloyd Craig and daughters attended a party at the Chas. Craig home on Saturday evening, the occasion being Mrs. Chas. Craig's birthday anniversary.

Mr. and Mrs. Harry Smith and sons were Sunday dinner guests of Mr. and Mrs. Ben Hoffman.

Mr. and Mrs. Lavanna Williams were Sunday dinner guests of Mr. and Mrs. Jesse Thornton.

Mr. and Mrs. Herbert Wolff and son of Meridian, Idaho, and Mr. and Mrs. Robert Smith of Nyssa, Oregon, left for their homes on Sunday, after spending a week here visiting relatives and friends.

## P.-T. A. Meeting

The regular Kendrick P.-T. A. meeting was held Monday evening at the high school auditorium with Mrs. Herman Travis, president, presiding.

Following the reading and approval of the minutes of the previous meeting, Mrs. Travis announced that the government aid fund for the Hot Lunch program was depleted, and beginning next week the school lunches would be 20c.

Mrs. H. C. Schupfer announced the committee had purchased a piano for the school from J. G. Travis for \$150.00. It was voted that the P.-T. A. pay half, and the grade school would assume the balance.

Attention was then called to the Membership roll, which has jumped to over 100 members, and a vote of thanks was extended Mrs. Hiram Galloway, Membership chairman, on her splendid work.

Supt. Nutting recommended that the group send a telegram to Boise, indicating the local P.-T. A. as being in favor of the emergency fund appropriation new before the legislature.

A little pageant, "The Shining Road" was then presented, commemorating the 50th anniversary of the National P.-T. A. organization. Those taking part were the Messdames A. O. Kanikkeberg, Wm. Holt, and Kenneth Brock, and Marilyn Schupfer, Anne and Donna Kanikkeberg and Joyce Armitage.

Other numbers on the program were a piano solo, "Lento," by Dick Coulter, a vocal number, "The Desert Song" by Beverly Schupfer, June Brown, Marilyn Schupfer, David and Dick Coulter; a piano solo, "Nocturne," by Beverly Schupfer.

Refreshments were then served by the teachers in the Home Ec. room.

## Collision Saturday Morning

A 1941 sedan, driven by William J. Maier, Asotin, and a pickup truck driven by Ralph Stucker, Kendrick, were involved in a collision on the road between Kendrick and Southwick Saturday morning. Damage to the two vehicles was estimated at \$200.00.

No one was hurt.

## Road Work Progressing

The Osberg Construction Co., Seattle, received another large power shovel last Friday, and as more and more equipment arrives, will make better progress on the construction of the new Brady Gulch road.

They have a "trail" bulldozed some hundreds of feet up the hillside, preparatory to putting the two shovels and their trucks to work.

The biggest hindrance to date is the "lob-lolly" at the foot of the hill, which will have to be filled before too much heavy equipment can be sent up the sidehill.

## INTERESTING HAPPENINGS FROM JULIAETTA AREA

Mr. and Mrs. John Kite, Jr., of Council, Idaho, have been spending the past week visiting in the Woodrow Nye home. They left Sunday to return to their home in Council.

Sunday night Mr. and Mrs. Ernest Walsh had as supper guests the following: Mr. and Mrs. Woodrow Nye, Miss Donna Nye, Mr. and Mrs. Eugene Taylor and son Charles, Mr. and Mrs. Johnny Walsh and son Ernest and daughter Sharon, and Lee Walsh. The dinner honored Mr. Walsh's birthday anniversary.

Mr. and Mrs. Bruce Sherman and son Jackie have returned home from a visit with Mr. Sherman's parents, Mr. and Mrs. Bert Sherman, at Kookkia, Idaho.

Frank Holmes of Camas, Wash., spent several days here with his family, Mrs. Holmes, daughter and granddaughter, returning with him from Camas. Mr. Holmes returned Sunday to Camas, where he is employed.

Mr. and Mrs. Warren Moore from Wallowa, Oregon, are visiting at the home of his parents, Mr. and Mrs. Clifford Brown.

Mr. and Mrs. Lewis Lindquist spent Saturday and Sunday in Moscow at the home of their parents. The occasion was to celebrate Mr. Lindquist's father's birthday anniversary — his 88th.

Mr. and Mrs. Woodrow Nye, Buzz Nye and Donna Nye motored to Lewiston Saturday.

Julietta Rebekah Lodge No. 9 held its regular meeting last Thursday night in the lodge hall, Mrs. John Kite, Jr., of Council, Idaho, being a guest. After the regular session refreshments were served by Mrs. Earlen Taylor and Mrs. Mae Walsh.

Last Friday night a slumber party was held at the Frank Holmes home, Miss Arlene Holmes being the hostess. Guests bidden were the following girls: Shirley Baker, Helen Johns, Doris Lingenfelter, Marjorie Johns.

Mr. and Mrs. Loye Tacker of Crane, Missouri, have recently purchased Millards' Grocery store.

Mrs. Woodrow Nye was a Lewiston shopper on Tuesday.

Frankie Peters spent Saturday night in the Claude Clark home.

Rev. and Mrs. Paul Foresberg have returned from a trip to California that took them as far as Los Angeles and San Bernardino.

Mr. and Mrs. Jasper Nutting of Kendrick were Sunday dinner guests of Mr. and Mrs. Martin Show.

Mrs. Margaret Covington and daughter Jane were Monday night dinner guests of Mr. and Mrs. James Reid of Lewiston.

The Senior class of Juliaetta High school spent last Monday in Lewiston, having their graduation pictures taken.

Little Jane Covington was the hostess at a Saturday afternoon party for a number of her friends. Guests were Carol Anne Swears, Francis Freeman, Connie Freeman, Charles Taylor, Eunice Young, Erma Young, Geneva Groseclose and Arlene Denler. Out of town guests were Polly, Jill and Nina Hansen. Games were enjoyed and delicious refreshments served — which were in keeping with the Valentine motif.

Mr. and Mrs. P. A. Millson of Genesee visited at the home of Mr. and Mrs. Ed. Taylor Monday afternoon.

The Primary room had a Valentine party on the 14th of February. Fifteen little brothers and sisters attended the party, besides the regular pupils. Ice cream and sandwiches were served. Valentines were distributed from the regular Valentine box by little postmen.

Two new pupils have swelled the Primary room enrollment to 32. Those entering are Carol Jane Dillman from Helmer, first grade; and Sue Tacker from Missouri, fourth grade.

Jane Covington and Eunice Young brought buttercups and pussy willows to school, so spring must be here. We wrote verses and made appropriate mottos and pictures for Lincoln's and Washington's birthdays.

Valentine's Day the whole school was favored with a technicolor picture show of "The River of No Return," by Mr. and Mrs. Christians of Los Angeles, Calif.

## Taken Charge Of Hotel

Mrs. Marion Runion and sons of Lewiston, new owners of the local hotel, took charge of that institution a week ago. One son, Donald, in the eighth grade, has entered the local school. Her elder son, attending high school at Lewiston, will join the family here when school is out.

## Basketball Boys Feted

Mrs. Don Miller served a sumptuous chicken dinner Tuesday evening to the Kendrick Tigers, their manager, Elroy Kuykendall, Coach Armitage and the Yell Queens, Nellie Fry and June Brown.

## PERSONALS AND NEWS ABOUT KENDRICK FRIENDS

Mrs. Everett Keys arrived last Wednesday to spend some time, called by the serious illness of her mother, Mrs. N. B. Long.

Mickey Harris, Lewiston, was home for the week-end, bringing with her her room mate, Christine Harvey. Mr. and Mrs. Ed. Ingram and Elmer Mathes, Bovill, were also week-end guests in the C. E. Harris home.

George Brocks, Sr., was a Spokane visitor Friday. He brought back with him new suits for the Kendrick Tigers, who will wear them in their tournament play at Lewiston.

Mr. and Mrs. Ed. Dammerall and sons and Bud Fairfield drove to Lewiston Monday evening to see the "Globe Trotters" play basketball.

Mrs. Everett Fraser and son Wallace left for Seattle Thursday morning upon receiving word Wednesday evening that her son, Donald and wife, were the proud parents of a baby boy. Wallace returned Saturday, but Mrs. Fraser will stay for a couple of weeks.

Tom Keene was a Pullman visitor Monday evening, going up to see the basketball game.

Wade T. Keene and L. C. Smith were Spokane visitors over the week-end.

Mr. and Mrs. E. G. Linderman, former proprietors of the local hotel left Tuesday morning for Deary, where they will visit a day or two, then go on to Garfield, Wn., for a visit at the Ross Dial home. Mr. Linderman will go on from there to California to look after business interests, while Mrs. Linderman will remain at Garfield for a time, and join him in that state later.

Mrs. F. A. Varo, Eugene, Oregon, arrived here Monday morning to be with her mother, Mrs. N. B. Long, who is ill.

Mr. and Mrs. Floyd Millard were Lewiston business visitors Monday morning.

Mr. and Mrs. Russel Smith and daughter Betty Ann were Moscow visitors Saturday.

Miss Loretta Schuler, Boise, accompanied the Latah County Health nurse on her call here Friday at the school house. Miss Schuler, former Public Health nurse here, spent the time visiting with friends.

Frank Nesbit spent the week-end in Moscow with his son and family.

Henry Emery left Monday for a visit with relatives at Palouse, Wn.

Mr. and Mrs. Paul Lind and son Eugene, accompanied by Mrs

**WHAT CAMERON FOLKS ARE DOING THESE DAYS**

Mrs. Annie Longseth and son John, and Thor and John Meland were Sunday guests of Mr. and Mrs. Harl Whiting.

Mr. and Mrs. August F. Wegner spent the first of the week with Dr. A. Wegner and sons at Pullman.

Mrs. Geo. Wilken was the honor guest at a surprise birthday anniversary party Tuesday evening. Those present were Mr. and Mrs. George Wilken, Mr. and Mrs. Fred Newman, Mr. and Mrs. Glen Wegner and family, Mr. and Mrs. Walter Koopp and family, Mr. and Mrs. Edwin Mielke and daughters, Mr. and Mrs. August Brammer and daughter, and Mr. and Mrs. Glenn Newman. The evening was spent in showing local motion pictures and playing pinocle. High scores were won by Mrs. Glen Wegner and Fred Newman; low scores went to Mrs. Fred Newman and George Wilken. The "galloping goose" was also won by Fred Newman. A delicious lunch

was served at the close of the evening.

Wayne and Vern Wegner were visitors in Lewiston Monday.

Mrs. George Wilken spent a few days of last week with her sister, Mrs. Glen Betts and family.

Mr. and Mrs. Walter Koopp, Mr. and Mrs. Gus Kruger, Mrs. Harold Silflow and Mrs. Fred Newman were Lewiston visitors Friday.

Mr. and Mrs. Gus Kruger and Mrs. Herman Silflow spent Thursday evening with Miss Emma Hartung and Mrs. Ida Stoneburner.

Mrs. Harold Silflow and Mrs. Emil Silflow were hostesses at an all-day Ladies Aid meeting Wednesday.

A "World Day of Prayer" service was held at the Trinity Lutheran church at Lewiston Friday afternoon.

Mrs. Theo. Meske, Mrs. Henry Wendt, Miss Emma Hartung and Mrs. Herman Silflow were among those who attended the services.

Mrs. Ida Stoneburner and Miss Emma Hartung visited with Mr. and Mrs. Ted Weyen Sunday evening.

Mr. and Mrs. Glen Wegner, Mr.

and Mrs. Ted Weyen, Mrs. Fred Newman, Ed. Mielke, Albert and Eldon Glenn, Harold, Cecl and Mildred Brammer, Elsie and Dorothy Kruger, Glenn, Harry and Wally Newman, Gladys and Roy Silflow, James Whiting, Kenneth Wilken and Mr. and Mrs. Walter Koopp attended the basketball tournament at Lapwai.

Mr. and Mrs. Ed. Mielke and daughters visited with Mr. and Mrs. L. S. LaHatt in Pomeroy, Sunday.

**BIG BEAR RIDGE NEWS**

Mrs. Johanna Nelson returned to her home Monday, having enjoyed several weeks vacation in Moscow.

Mr. and Mrs. Wallace Emmett were Sunday guests of Mr. and Mrs. Homer Emmett.

Electric lights were installed in the Bethany Lutheran church.

Hans, Andrew, Henry and Evan Lien, and Mr. and Mrs. Stanley Sneve and son were Sunday guests at the Sneve home, the dinner honoring Herman Sneve's birthday anniversary.

Donald Jones returned Tuesday from an extended trip in the east.

Mr. and Mrs. Oscar Slind and Mr. and Mrs. Halvor Lien were Lewiston shoppers one day this week.

Evan Lien returned Thursday from a five-week vacation trip to Los Angeles.

George and Milo Slind were weekend guests at the homes of Oscar Slind and Halvor Lien.

Mr. and Mrs. Ronald Jones entertained Mr. and Mrs. Roy Emmett and Mr. and Mrs. Homer Emmett at dinner Friday evening.

Ed. and Arnold Halseth visited in Spokane the past week-end.

Word has been received that Ed. Lien, Opportunity, Wash., is much improved. He suffered a stroke recently.

Lenten and Communion service will be held at 7:30 o'clock Thursday in the Bethany Lutheran church.

Mr. and Mrs. Henry Kortemeier and Paul called on Mr. and Mrs. Halvor Lien Sunday afternoon.

Mrs. Henry Kortemeier was a Spokane shopper Monday.

Joe Forest, Hans Lien and Melvin Sneve visited last Tuesday with relatives in Spokane and Coeur d'Alene.

Mr. and Mrs. George Jones and daughters were dinner guests Saturday evening in the home of Mr. and Mrs. E. H. Jones.

Achievement Day in Kendrick was well attended and much enjoyed by our boys' and girls' 4-H clubs.

Mr. and Mrs. Earl Wilson and family of Lewiston Orchards were recent dinner guests in the home of Mr. and Mrs. Henry Kortemeier.

Bertina, Joe and Edwin Forest enjoyed a church dinner and social time in the Lutheran church at Clarkston Friday evening.

**Ice Has Its Uses**

Rofino — The car driven by Ralph Smith escaped submersion in what officers described as a "one in a hundred" chance when the car left the highway and came to rest on a thick formation of ice 20 feet below without overturning or causing injury to its passengers.

**PERSONALS AND NEWS ON AMERICAN RIDGE**

Rita Cain spent the week-end with Dora Dee May.

Lottie Wilson of Troy spent Thursday night with her grandparents, Mr. and Mrs. Robert Cain.

Mr. and Mrs. Bruce Glenn and daughter Joan were Sunday dinner guests of her brother and wife, Mr. and Mrs. Carl Pearson, at Troy.

Lois Lawrence of Southwick spent Wednesday night at the Nora Callison home.

Mrs. Bruce Glenn was a Wednesday guest in the home of her sister, Mrs. Guy Kitch, Troy.

Mr. and Mrs. E. F. Roberts attended the V. F. W. meeting and danced in Kendrick Saturday evening.

Mr. and Mrs. George Mattoon of Clarkston and Mr. and Mrs. Bud Fey of Kendrick were Sunday dinner guests of her parents, Mr. and Mrs. Perry Mattoon and family. Mr. and Mrs. Geo. Davidson of Moscow were evening callers.

Mrs. Harry Bencoter and Mrs. George Havens called on Mrs. Sam Bigham Monday. Mrs. Bigham is on the sick list and Dr. Christensen was called to see her Tuesday.

Mr. and Mrs. Henry Brammer spent Sunday afternoon with Mr. and Mrs. Jack Travis. Evening callers in the Brammer home were Mr. and Mrs. Mike Hedler of Juliaetta.

Many folks from here attended the basketball game in Lapwai Saturday evening, and were would also like to mention that they all had to be pulled through the mud hole above the Andy Cox place on their return home — which kept Andy pretty busy for a while. At present there has been some rock hauled in so we can at least get to town. We are all certainly looking forward to our new road — which can't be completed soon enough to suit us.

Mr. and Mrs. Ed. Kent, Mrs. Wayne Davis and Mrs. Frankie Bencoter were Moscow visitors on Saturday.

Mrs. Harry Langdon is helping out with the cooking at the Kendrick school.

Mr. and Mrs. Harry Bencoter have received word from their son, Dick, who is in the Veterans' hospital at Boise, that he is getting along O. K.

Mr. and Mrs. Harry Bencoter spent Sunday afternoon with Mr. and Mrs. Henry Kilda and with Mr. and Mrs. Virgil Hurlbert, on upper American ridge.

Mrs. George Havens entertained at dinner Sunday in honor of her husband's birthday anniversary. Guests were Mr. and Mrs. Ira Havens of Moscow; Mr. and Mrs. Stanley Mills and daughter Judy of Garfield, Wn. Mr. and Mrs. Henry Brammer and Mr. and Mrs. Werner Brammer were also invited guests, but due to our bad road, were unable to attend.

Mr. and Mrs. Ed. Kent and Mr. and Mrs. Wayne Davis were Sunday guests of Mr. Davis' parents, Mr. and Mrs. Burt Davis at Fullman.

Bert Cox of Winchester is visiting his nephew and wife, Mr. and Mrs. Andy Cox.

Albert Cox of Moscow spent Sunday with Mr. and Mrs. Andy Cox.

Harry Langdon was a Lewiston business caller Monday.

Mr. and Mrs. George Havens and son Rayner were in Moscow Wednesday, while there George did some electrical wiring in the home of his parents, Mr. and Mrs. Ira Havens.

**There Is Danger In Kites**

Now that skates and sleds have been put aside by youngsters for the thrilling sport of spring kite flying, E. V. Olson, acting safety director for the Washington Water Power company, has issued a note of friendly warning against the dangers to be encountered by participants in that grand American sport.

"There is no reason why children cannot continue to enjoy this popular pastime if a few simple rules of construction and operation are impressed on their minds by parents, teachers, or instructors," Mr. Olson said.

He has pointed out that the use of tinsel or metal string, or even damp string, in kite construction will lead to tragedy if the kite comes in contact with high voltage lines. H. C. Schupfer, local power company manager, has explained that the string acts as a conductor for the electric current, and is therefore highly dangerous.

The first rule to be followed is to use plain cotton kite strings only—never tinsel or wire. The second rule is to keep well away from all electric lines, and refrain from climbing poles or throwing rocks to disentangle kites which have lodged in the lines. The third rule is to keep away from highways and main-traveled streets.

Mr. Schupfer emphasized it is a part of the W. W. P. company's safety policy to warn of the hazards of kite flying near its power lines, but at the same time encourage the sport for those who follow simple safety rules.

**Idaho's First White Settler**

Idaho's first settler and civic leader, Lieut. Col. William Craig, was honored recently in ceremonies dedicating a memorial stone placed along the North and South highway two miles east of Jacques Spur in the Lapwai valley. The memorial was placed near where Craig died in 1869, and where his wife passed away in 1886.

Although the first white people to settle within the present limits of Idaho were Rev. and Mrs. Spalding and Rev. Asa Smith, who established the Lapwai Mission in 1836, the first real settler in Idaho was undoubtedly William Craig.

In 1840 a number of trappers met at Fort Hall, most of them determined to go to the settlements along the Columbia river. The exception was William Craig, who took up land on the Clearwater about 10 miles from the Lapwai Mission. Craig's wife was half Indian.

Colonel Craig's career showed him to be a man of great importance to the development of the district and the state," declared Dr. Francis Haines of North Idaho Teachers College at the dedication. "He was acquainted with the entire west but chose this valley as his permanent home. He was a member of that historic clan, the mountain men, which opened up the western country."

**LADIES**

During the past week we have held "CARA NOME WEEK" at our store, at which time a well known beauty specialist, Miss Mary McGough, has been giving Free Facials and Beauty Advice.

During this same time a \$1.00 CARA NOME item has been given away free with each \$5.00 purchase of CARA NOME products.

We have decided to extend this time so that you may take advantage of this offer, until March 15th.

This is a large saving, so be sure and take advantage of this offer. We are doing this in order to help you get acquainted with CARA NOME. It is a good product, and we are proud to stock it.

You've spent hours brooding over blue prints. But — have you checked your WIRING PLANS?

There's more to electrical living than an array of new appliances! The contractor's wiring plan for the house above included

- 8 regular circuits      12 switches
- 7 special circuits      30 convenience outlets
- 21 lights                  4 special outlets

Without these, a carload of electric marvels — doors that open when they see you coming, screens that electrocute pests — would not make that house livable.

Modern magic in your home of tomorrow? The wizardry is in the walls — it's in the wiring! Make sure your new home has Certified Wiring.

#### Determines Individualistic Strains of Flu Viruses

The influenza virus, an almost infinitesimally minute living particle, not only exists in several forms but these forms are quite different and individualistic, as if they were different species of animals, Dr. Jonas E. Salk of the University of Michigan concluded after studies. Determination of differences between strains is essential for effective vaccines.

Since virus particles are too small to be seen differences can be found only in their behavior in certain psychological and chemical tests. It has been recognized for some years that there are two major types—Influenza A and Influenza B. The maladies caused by these are indistinguishable so far as overt symptoms are concerned, but their immunological reactions are quite different. A vaccine prepared from A virus is of relatively little value in protecting a person from influenza caused by B virus. The vaccine used by the army is prepared from a mixture of both.

Dr. Salk's experiments show that within these two types there are highly individualistic strains. Since the flu viruses were first isolated several continuous hereditary lines have been maintained at various laboratories. He tested some properties of these strains—especially a blood-agglutinating ability—under various degrees of heat. Quite marked differences were found.

#### Estimate Cost of Atomic Power Plant for East

Atomic power for peacetime industrial use can be produced at a cost roughly comparable to coal power costs, Dr. Charles A. Thomas disclosed in an atomic power cost survey prepared for the United Nations Atomic Energy committee. Dr. Thomas said that an atomic power plant producing 75,000 kilowatts could be built in the eastern United States for about \$25,000,000, and added:

"On the assumption that the plant would operate at 100 per cent capacity and that interest charges on the investment would be 3 per cent, the plant could produce power at approximately 0.8 cents per kilowatt hour. This figure has been computed by different groups of engineers working independently."

A coal power plant would cost \$10,000,000 under the same conditions, he said, and added bituminous coal could be delivered to this plant in the eastern United States at about \$7 per ton. He concluded: "The cost of producing power in this plant would be approximately 0.65 cents per kilowatt hour."

#### Ecuadorian Bamboo

In the Ecuador highlands a five-foot trumpet made from one inter-node of a thin-walled native bamboo serves as a counterpart of our dinner bell or conch shell in calling farm workers to dinner or to end the day's work, Dr. F. A. McClure of the office of foreign agricultural relations writes. A trumpet with a "bocina," as it is called goes ahead when a herd of cattle is going to market, "blaring the warning to weary travelers on foot to retire to a place of safety." The Ecuadorians, Dr. McClure finds, are ingenious in using native bamboos for construction, for furniture, and in weaving baskets and hats. Children make bamboo toys of many kinds. Two oriental species have reached Ecuador from California where they are also under test. Dr. McClure does not anticipate that these will grow to the size they do in Asia, but for some purposes are likely to develop into better construction material than any of the native bamboos.

#### Making Slipcovers

Slipcovers require too much time, money and work to make them of inferior material which will not wear. To avoid wrinkling, stretching and pulling at the seams, one should choose a strong fabric. It may be light in weight if desired, but it should be closely woven and firm. Many rural homemakers have found that feed sacks dye well and make very attractive slipcovers, but here again it is important to select ones that are firmly woven. If covers are to be laundered rather than dry-cleaned, they should be pre-shrunk before they are made. To look well, they must fit snugly and any shrinking thereafter may make them too small to use. Any fabric that is marked colorfast or vat-dyed on the selvage, label or end of the bolt will probably launder satisfactorily so far as color is concerned, but a smart homemaker will be wary of any others.

#### Preparing Fish

For broiling, fish should be cut lengthwise and the backbone removed. The fish is wiped dry and salted on both sides. Then the fish is placed skin down in a shallow greased pan. After 20 to 30 minutes under the flame of a moderate oven, the fish should be delicately browned and tender. Larger, thicker fish should heat for a few minutes in the oven before being placed under the broiler. For baking, fish is stuffed with a bread dressing. Bake it at a high temperature for 10 minutes, then lower the heat. As fish is a protein food, it should be cooked at a low heat. So, aside from having the pleasure of eating your catch, you have the added satisfaction of eating a nutritious food.

#### Little St. Bernard Pass Strategic Alpine Route

Although historians argue whether the Carthaginian general, Hannibal, crossed the Alps at the Little St. Bernard pass, it is known that the Romans found it useful. In the century before Christ, Roman legions made sure of the pass by conquering neighboring mountain tribes which had sought to bar it or to exact tolls for its use.

Long afterward, the House of Savoy found the Little St. Bernard a convenient cross cut between its Alpine possessions. Napoleon, recognizing it as one of the main routes over the Alps, surveyed and planned a military road over it. A carriage route was opened there in 1861, and eventually a modern highway sped motor traffic between French Moutiers and Italian Aosta. Toward the end of World War II, when the Little St. Bernard pass was still held by the Germans, French and Italian members of the Maquis resistance forces operated from nearby mountain valleys and pockets.

Normally, the Little St. Bernard pass is closed to travel between the middle of October and the middle of June. Because of its northern position and height, it has come to be used less than some of the other major Alpine routes along the high border land between southeast France and northwest Italy.

#### Use the Lowly Mouse to Measure Pain-Relieving Drugs

An accurate test, based on mouse squeaks from electric shocks, to measure the strength of pain-relieving drugs from aspirin to morphine was reported to the American Chemical society's fall meeting. The electrical shock is applied through the mouse's tail, and the number of shocks at 15 volts tolerated before the mouse squeaks gives a measure of the potency of the drug given to the animal.

The test makes it possible to compute drug potency in terms of an established standard—morphine—and has given satisfactory assays for alcohol, acetophenetidin, acetanilid, antipyrine, aminopyrine, acetylsalicylic acid (aspirin) and demerol, scientists said.

A strong enough electrical shock on the tail will make a mouse squeak, it was explained, and it was found that drugs commonly used for the relief of pain increase the animal's tolerance of such stimuli by a measurable amount. Since this increase is proportional to dosage, drug activity may be assayed in terms of morphine.

#### Vacuum Cleaners

Vacuum cleaners are classified according to cleaner methods and design: Straight suction cleaners—in upright, and tank or cylinder types; motor-driven brush cleaners; motor-driven agitator cleaners. For the best job, the nozzle must make a good seal with the rug, so loosened dirt can be suctioned off. One model has wide front wheels and narrow rear wheels to maintain perfect balance. If there isn't such a "built-in" balance, find out about the method of adjustment. In the tank cleaner, the pressure exerted makes the adjustment between high- and low-pile carpeting. If the machine has a rotating brush, find out about the method of replacement. Since bristles wear down on any type cleaner, manufacturers have made it easy to lower the brush roll by pin, screw, or lever, or replace the brush strips. One cleaner has two types of brushes, designed to get all the dirt—one stiff and penetrating, the other soft and sweeping.

#### Square Farming

In "square farming," rows run according to the compass, not across the slope. The result is that each down hill or furrow forms a water-course along which the surplus from rains can flow, picking up soil and concentrating the muddy water into rills and streamlets that grow into gullies—as well as favoring the sheet erosion of "washing" that accounts for the loss of so much valuable topsoil. In farming "on the level" the good manager often breaks his sloping fields into comparatively narrow strips and alternates row crops that are truly "on the level" with bands of close-growing crops such as mixed hay, alfalfa or clover. Then if a heavy rain causes some runoff from a cultivated strip, the silt-laden water flowing down the slope soon reaches the protective strip of sod where the soil particles are likely to be filtered out and held by the stems of the grasses.

#### Purer Potato Chips

Potato chips can now be made uniform in color, or even snow white, eliminating one of the chief headaches of the potato chip makers. The raw potato slices are briefly treated with hot water under controlled conditions before they go into the hot oil bath. Hot water extracts the traces of amino acids and reducing sugars which would react chemically during frying to produce the brown color so objectionable in potato chips. Chip manufacturers have considerable difficulty putting out a uniformly colored product, it was pointed out, since they are at the mercy of a natural raw material. In spite of great care in selection of varieties, buying, and still temperature storage, there are still losses due to batches which are too brown before frying.

#### Proper Attention Increases Life of the Refrigerator

Experts say proper care of a refrigerator increases its usefulness from three to nine years. Here are a few rules to help make the most of an aging refrigerator, until new ones are available in quantities again.

Keep it in a place where it will get no direct sunlight, and away from the stove, water heater, or radiator. Outside heat increases operating costs, besides being harmful to the finish.

Make sure your refrigerator sets level, for best operation of the mechanism.

If there are nicks in the enamel, rust spots will form. Using an enamel paint, touch up these nicks with one of the children's paint brushes. Use safe soap and water for cleaning cracked enamel.

Defrost every week, or whenever the frost gets pencil-thick. Never scrape off the ice crystals with a knife or ice pick.

No matter how old your refrigerator may be, if it is kept clean and bright it will continue to be an ornament to your kitchen. Wash the inside walls every time you defrost, but the outer walls need washing more frequently, especially if there are "little" fingerprints in your household.

#### Growth Hormone Reduces Body Loss of Nitrogen

In one of the first clear-cut demonstrations of a basic mechanism of growth, a group of University of California scientists have shown that the growth hormone, a magic fluid manufactured by the pituitary gland, is a major factor in helping the body conserve nitrogen and in the synthesis of proteins.

The experiments were done in rats with fractured legs. It had been shown previously in both rats and man that, after a bone fracture, there is a severe loss of nitrogen due to general tissue breakdown in the body. In rats with two legs fractured, the injection of minute quantities of growth hormone cut down the loss of nitrogen to a negligible quantity. These animals also lost no weight, while in uninjected rats with fractures the loss of nitrogen and weight were marked.

The researchers emphasized that the growth hormone cannot be applied yet to assist in the treatment of human fractures, since at the present time the substance can be purified only in minimum quantities so minute as to limit its use to experiments with small animals. However, the experiments throw new light on biological processes which will be helpful in application.

#### Minerals in Animals

As a part of its broad program of studies to learn the subtle and interlocking relationships between soils and plants and animals, the Plant, Soil, and Nutrition laboratory of the department of agriculture at Ithaca, N. Y., has been observing mineral reserves in young animals. The investigators have found that copper and manganese—two elements needed in the animal body in very small quantities—behave in opposite ways. Rats, rabbits, and guinea pigs, they found, are born with a reserve of copper in their livers but with little or no manganese. During the suckling period, however, the copper is depleted and the manganese steadily increases. Milk contains an inadequate amount of copper to add to the supply of the infant animal, the initial store being usually just enough to tide the baby over the suckling period. Manganese, on the other hand, appears to be present in milk in large enough quantities to build up a supply in the suckling.

#### Bees Perform Vital Work

Fertilization of flowers is so important that beekeeping must be carried on to maintain a profitable agriculture. The service rendered to agriculture by the beekeepers in furnishing the public with pollinating insects has commonly been overlooked. In orchard areas, for example, and in alfalfa fields, it is frequently noted that crops are more abundant in outlying fields that border on rough uncultivated lands or wooded tracts where wild bees nest. Specialized farming with wide acreage devoted to a single crop is unfavorable for bees in providing only a single blossoming season. Farmers and fruit growers may pay special attention to favoring the conservation of a variety of plants favored by the bees, and then keep bees, recognizing that honey is a by-product of the work the bees do as pollinators.

#### Hearing Defects

Catarrhal conditions and diseases which involve high fever are the major causes of hearing impairments in childhood; circulatory diseases such as high blood pressure are the major cause of advancing deafness in older age groups, according to experts. Any youngster suffering from a chronic catarrhal condition should have his hearing checked at least once a year; any child who has had a disease involving a very high fever should have his hearing tested as soon as practicable thereafter. An estimated one and one-half million children have minor hearing defects which should receive medical attention in order to correct them or prevent them from progressing into serious handicaps, it is said.

**WEIGHT HAS ALWAYS BEEN ONE OF MAN'S PROBLEMS**

From the earliest days of stone castles and ponderous hardwood furniture man has burdened man with heavy things to lift, both in his work and at home. Many mechanical aids have been invented to help him with his lifting and carrying problems, but most of these have, in themselves, been heavy and required large quantities of fuel to release their mechanical energy.

Tomorrow will bring us the age of lighter weights. In this new era, the things we have to move, either by our own efforts or through mechanical fuel-burning contrivances, will weigh much less. The result — greater economy and efficiency in accomplishing these tasks.

Aluminum, magnesium, beryllium — the world's lightweight champions in metals — are being produced in greater quantities than ever before, stimulated by the vast and varying needs of World War II. Now they are ready to make their contributions to peacetime comfort and utility. For most uses these lightweight metals serve best as alloys, either combined with themselves or with other metals. These alloys are usually designed to have special characteristics, such as extra strength, corrosion-resistance, or electrical conductivity. In addition to their light weight, while the cost, at present, of the lighter weight metals is more than that of steel, pound-for-pound the buyer of light metals gets more in volume for his money. Aluminum, only one-third the weight of steel, and magnesium, one-third lighter than aluminum, offer the key to a future of lighter lifting and pulling that will save our world much in physical effort and fuel consumption.

Here are some of the "lightweight" possibilities in our world of tomorrow: Airplanes, automobiles, baby carriages, bicycles, business machines, busses, barrels, bridges, building materials, doors, elevators, electrical equipment, outboard motors, pianos, refrigerators, ranges, tools, trucks, trailers, tractors, washing machines, water tanks, to mention just a few.

Your car of tomorrow probably will have a motor weighing 350 pounds or less. It will look like an over-size motorcycle engine compared to the 600-pound varieties in use today. Light weight metal chassis and lighter body will lop another 750 pounds or more from the present-day weight of cars.

How long is a freight train? — Too long, says the motorist who has had to wait at the crossing, but for every present-day boxcar weighing 45,000 pounds, a locomotive should be able to pull three of the 15,000-pound aluminum variety. The aluminum box sections for a freight car can be made in a single operation at great savings in labor and the difference in weight between the lighter and heavier cars should represent substantial savings in cost of operation. Steel passenger trains, busses, truck and other passenger and freight carriers can reduce their dead-weight loads through the use of lighter materials. An ocean liner using 160,000 horsepower engines, if constructed of the lighter metals, could operate with 100,000 horsepower.

Can you lift a piano? — Perhaps, in your home of tomorrow, you will have a piano that anyone can move with ease. Other furniture and household equipment, too, will be correspondingly light. New lightweight alloys offer many opportunities to the manufacturers of washing machines, refrigerators, ranges, cabinets, pianos and furniture for models of greater beauty that will be lighter and often take up less space. Perhaps your home, itself, will be constructed of these metals. Who can tell what the future will bring.

**DDT Spraying At Stockyards**  
Cattle that go through stockyards can now be sprayed with DDT and returned to pastures or feed lots practically free of bothersome insects, an official dispatch says. The first such installation has been made at the Kansas City stockyards, where great numbers of stockers and feeders are handled. The Kansas City yards offer the spraying as an optional service to the owners of cattle at 15c a head. Equipment, along an enclosed chute, delivers the spray from nozzles above and below the cattle. In addition, a mobile unit is available. Other yards are arranging similar services.

Get your fresh and cured meats, fresh vegetables, breads and pastries at Blewett's Grocery-Market. You will like our service. 9-ladv.

**FARM ROADS AND SOUND ECONOMICS POLICIES**

Proposals for higher gasoline taxes currently are being made in some of the states under the pretext that the increased revenue is needed to finance secondary highways or farm-to-market roads. Frequently, when such agitation begins, farmers and other rural residents are selected as the targets of propaganda designed to convince them that, if they submit to tax increases, they will be richly rewarded with new rural road construction. Little, if anything, is said about the enormous automotive tax burden farmers in many states are already carrying.

The automotive tax bill paid by farmers to the states amounted to \$300,000,000 in 1941, the last normal peacetime year, without counting the special automotive taxes imposed by the federal government. The average motorist pays in special taxes alone 37 per cent of the total revenue collections of the states from all tax sources, while, in addition, he had to pay all the general taxes levied upon other citizens.

Because of the very essential nature of automotive transportation to the farmer, he must, at whatever sacrifice, endure the rate of taxation which his state and federal government see fit to impose upon him as a highway user.

Speaking of efficient program, Albert S. Goss, master of the National Grange, touched on this very point when he addressed the Highway Transportation Congress held in Washington, D. C., recently. He told the congress that he thought those responsible for highway administration should adopt a policy of conservatism, especially on "tourist" roads, as an aid to bringing about normal conditions, and emphasized that shortages of labor and materials are the chief factors contributing to the inflationary pressures which tend to make construction so costly.

Mr. Goss said that if the entire \$3,000,000,000 federal aid program, assuming 100 per cent matching by the 48 states is not carefully watched to get the most road per dollar, "we are all going to receive a much smaller return on the huge investment than was anticipated when the legislation was being formed."

**More And Better Birds Released**

Bigger and huskier pheasants were grown and released by Idaho's two game-bird farms at Lapwai and Jerome, in 1946, the fish and game department states, the two farms releasing 40,460 birds. Production of young birds was 25,500. Most of the birds were 10 to 12 weeks old at the time they were liberated. The year before most of the hatchery pheasants were eight weeks old on release. In 1945 the department raised and planted 30,300 young birds. Pheasants raised by the state in 1946 included the following: 25,500 young birds; 3,960 broodstock, and 11,000 day-old chicks. The chicks, it was emphasized, were raised by various clubs to a suitable size before being turned out on their own. As they were taken from the game farms more room was provided for later hatches and for the healthy growth of pheasants that were kept at the farms.

"During 1946," the report declared, "a thorough survey was made of the farms and it was decided to bring the number of birds down to the rated capacity. This reduced the number of birds liberated in the field, but it is thought that by producing stronger and better birds, the final survival would be higher than by releasing smaller ones."

"A program has been submitted which will substantially increase the number of birds to be released throughout the state in suitable pheasant cover. The plan would increase brooder and pen capacities at both farms, and suggests the building of a new game farm."

"With the aid of federal funds," the report adds, "a research program has been set up for the study of pheasants. Two men have been employed by the department to work on this research. A phase of upland game work being given careful study is the establishment of small refuges throughout the state to provide protection, food and cover."

Continued protection of hen pheasants was advocated. This is the second year for the "no-hen" law in Idaho. This regulation has been partly responsible for the increase in numbers of pheasants in 1946. It is one of the most essential factors in

maintaining the pheasant population." Our note: Ray Kernan, game conservation officer was here last week releasing pheasants in this area, and admitted frankly that the department could not explain the almost total absence of pheasants in this area, and further, that no investigation had been made as to "the why of it." We think this area would be a swell place in which to begin an investigation! More and better birds may be in some sections — but absolutely not in this one!

**Lumber — Stump To House**

Idaho pine trees are being turned into finished lumber within two or three weeks from the time the tree is cut. "The Family Tree," a Potlatch Forests publication, states, "Today the product of standing trees can be unloaded at a lumber yard, hundreds of miles distant, in a matter of two or three weeks," the publication reported.

And there is no lumber shortage at all, according to SC. L. Billings, general manager of the company. "All of us who work in the industry are being frequently asked, not always in a very gentle way, why the lumber shortage exists," explained Billings. "Those of us in

this company might answer by saying that there is no shortage, but that demand has gone out of all bounds."

It used to require months from the time Idaho trees were cut until they were turned into finished lumber, but that was in the days when most of the work was done by hand. Today, with modern machinery and improved methods of handling logs and lumber, the months are reduced to weeks. Formerly the drying or seasoning of lumber required a considerable time, depending on wind, rain and sunshine. The dry kiln shortened the process.

At the Clearwater dry kiln, drying time will range from 72 hours for Idaho white pine "two-by-fours" to 432 hours for "ten-by-fours."

**It Really Grew!**  
From Pearl Harbor to V-J Day, the United States navy grew from fewer than 345 to 1,300 combatant ships; from 7,800 vessels of all kinds to nearly 93,000; from 426,000 officers and men to over 4,000,000 at wartime peak strength, including Marine Corps and Coast Guard personnel.

Disability compensation or pensions were being paid to 70,238 Northwest veterans at the end of November.

**Take It Easy With Chickens**

If you notice a neighbor knocking on the henhouse door or talking to himself as he approaches the laying hens, don't jump to the conclusion that he has lost his mind — he's simply following a good management practice of warning the flock of his approach before he bursts through the door.

We all know what happens when a flock of a Mediterranean breed such as the White Leghorn, is startled by some unexpected interruption or commotion.

By the same token a frightened

cow won't eat, and she'll hold up her milk. Also, the average farm housewife won't get much work done if there's a mouse loose in the kitchen. The same principle holds true in the management of the laying flock. A contented, calm flock will spend more time eating and laying, if it doesn't suffer frightening interruptions. Just remember, those chickens have nerves, too.

Lenten foods of all kinds are available at Blewett Grocery-Market. A phone call will bring them to a route patron. 9-ladv.

 Prayer Meeting Thursday, 7:30 p. m. at the home of Mrs. Holmes, Juliaetta. Bible study and prayer.

**Would Change Highway Name**  
 Lewiston — The name "North and South Highway" doesn't mean much, says M. A. (Mark) Means, yet historically it is one of Idaho's most famous trails. Near this highway were the gold discoveries of Silver City, Florence, Warrens, the Salmon river, Dixie, Elk City, Thunder Mountain and Pierce City. Means points out. He suggests the highway be called "The Gold Trail" so that it can take its place with the Lewis & Clark highway, Oregon Trail and Mullan Trail.

**LINDEN**

The Friendly Club met with Mrs. Arley Allen Thursday. A pleasant time was spent visiting and sewing. Attending were the Mesdames Alva Craig and Judy, Clem Israel, James and Felix Holt and children, Pederson and two sons, Chas. Keeler, Addison Alexander, Stewart Wilson, Lester Weaver and Arthur Foster, and Ed Smith. Frank Lyons and Clem Israel, who were working at the church, joined the group at noon.  
 Among those attending the basketball games at Lapwai Thursday and Saturday evening were Mr. and Mrs. Clem Israel, Robert Chiherr, Mr. and Mrs. Arthur Foster, Mr. and Mrs. Harley Perryman, Mr. and Mrs. Dan Kester, F. C. Lyons and George Lyons, and the Misses Pearl Brown and Anna Helen Smith.  
 The Forest Grayson family entertained at a party Saturday evening for Mr. and Mrs. Belts, Mr. and Mrs. Underwood, Mr. and Mrs. Sam Weaver and John Cuddy.  
 Mrs. James Farrington and two children and Mrs. Annie Weaver and Clarence Weaver were Lewiston shoppers Monday.  
 Mr. and Mrs. Loyd Israel, Moscow, spent the week-end with Mr. and Mrs. Clem Israel.  
 Mr. and Mrs. B. G. Linderman spent Saturday evening and Sunday with Eve Smith, and Sunday evening and Monday with the Israel family, before leaving this section for California.  
 Mr. and Mrs. Adolph Denmler and children of Juliaetta and Stella Weaver of Kendrick spent Sunday with Mrs. Annie Weaver and family.  
 Mr. and Mrs. Ed. Brown and Mrs. Emulus Brown and son of Kendrick spent Sunday evening in the Smith home.

**Many Calls For Information**  
 Lewiston — Members of the North Idaho Scenic-Land association staff with headquarters at Lewiston, have become the "know-it-all" of northern Idaho agriculture, industry and recreation.  
 Their "board of experts" staff came about as a result of daily proofs to answer inquiries from every corner of the United States for information on every conceivable subject, ranging from silver mining operations to Kootenai trout, and from wheat farming conditions to the price of a hunting license in Idaho.  
 Inquiries originate from large metropolitan cities to small villages. Many of the requests for information concerning vacationing possibilities in certain areas are passed on to the North Idaho Scenic-Land representatives in the specified regions for detailed replies.  
 NISLA officials answer all inquiries, whether pertaining to recreation, agriculture or industry, for they feel that "new agriculture and industry are the natural result of inducing tourists to visit an area."  
 Typical of requests for information are the following:  
 "I would appreciate receiving information about North Idaho resorts. I want to make a trip to them by car. I want to see all the points of interest that I can, and also do some fishing at places that are easily accessible. What month of the year is the climate most mild?"  
 "I have a son that has just returned from three years in China. He wishes to purchase a ranch in northern Idaho. Will you please mail me data on Bonner, Boundary and Kootenai counties."  
 "Please send material describing the Snake River country."  
 "We are planning an automobile trip this summer and would like to see the North Idaho region. Would appreciate any information you can give us about condition of roads, the cost of a ride up to Hells Canyon, etc."  
 Most inquiries are the result of articles and newspaper publicity turned out by the NISLA press relations department. Others come from persons who have "heard their friends discussing a vacation in northern Idaho."  
 Fifty percent of the requests for information come from vacation-minded Californians. Many inquiries are also received from Arizona, New Mexico, Oregon, and the mid-western states.

**Sugar Stamp News**  
 (OPA Official Dispatch) — There will be no special sugar stamps issued for canning this year.  
 This reminder to housewives has been issued by OPA sugar rationing officials following changes in regulations announced recently in Washington, D. C.  
 The change from 5 to 10-pound stamps does not mean that consumers will have twice as much sugar. The housewife must spread 10 pounds to cover longer periods and must set aside sugar for home canning, because no special home canning stamp will be issued.  
 The first 10-pound stamp becomes valid on April 1. The current 5-pound stamp, No. 53, expires on March 31, instead of April 30, as originally intended.  
 The sugar supply picture cannot be foretold until later in the year, OPA said, but it is hoped to bring in a new 10-pound stamp every three months. This will give a total of 35 pounds per person for the year — 10 pounds more than was issued in 1946.  
 Making future stamps good for 10 pounds extends the use of the present ration books, and avoids an expenditure of \$2,000,000 for new books.  
 We repeat — There will be no canning stamps this year. The housewife must set aside from regular supplies for this work!

**Unemployment Up In 1947**  
 Unemployment among veterans covered by the Servicemen's Readjustment Allowance Act, as well as among industrial workers, took a sharp increase in Idaho during the first two weeks of 1947, says a dispatch.  
 During the first two weeks of January 5,494 unemployed veterans applied for benefits and received a total of \$102,018, as compared with 3,085 applications and payments for \$30,996 in the same period in 1946.  
 Claim load of the Unemployment Compensation division during the first two weeks of this year totaled 3,053, while the number during the same period in 1946 was only 1,873. Total amounts of benefits paid to these unemployed workers in the first two weeks of 1947 was \$32,920 as against \$16,694 during the first two weeks in 1946.

**Some Pay Needn't Be Reported**  
 Veterans in training under the G. I. bill, who receive National Guard or Naval Reserve drill pay need not report such income when filing their report of earnings, says the VA.  
 Many veterans drawing subsistence while training have been in doubt as to whether such income must be reported and the ruling by the VA clarifies the point. Combined "productive labor" and subsistence cannot exceed the \$175 and \$200 ceilings imposed by congress.

**GOLDEN RULE (Delayed)**

Mr. and Mrs. Carl Finke and George Finke, Jr., were among the Lewiston visitors the past week.  
 Jim McDaniels of Siltco visited at the Glen Betts home Wednesday.  
 Roy Southwick and Bill Winters called Wednesday evening at the Glen Betts home.  
 Mrs. Oscar Laurence visited Mrs. Carl Finke Thursday.  
 Mrs. Jennie Sharp and daughter Thelma visited with Mrs. Abner Cowger Friday.  
 Mr. and Mrs. Carl Finke called at the Gil Erlwine home Thursday.  
 Mr. and Mrs. W. A. Cowger and Mabel took Mrs. Jennie Sharp and daughter to Lewiston Monday to start their return trip to California, after they had visited here.  
 Mr. and Mrs. Gil Erlwine and son spent Sunday at the Carl Finke home.  
 George Finke and son George, Jr., and Mr. and Mrs. Glen Betts and Eugene enjoyed Sunday at the George Wilcox home, Cameron.  
 Donna Walcott spent Sunday with the Kazda and Laurence girls.  
 The Martin family of Lewiston spent the week-end at their home here.  
 The Lyle Goffinett family of Orofino spent Sunday at the W. A. Cowger home. The Ernest Cowger family were also visitors.

**STONY POINT NEWS NOTES**

A marriage license was issued on Tuesday to Miss Kathleen Steigers and Lauren Ratliff. They will be married in the Methodist church at Lewiston, Wednesday evening.  
 Mr. and Mrs. Glenn Stevens gave a birthday anniversary dinner Sunday, honoring his mother, Mrs. Elsie Michels.  
 Mart. Klopfer was a Lewiston business visitor Monday.  
 Mr. and Mrs. Alvin Steigers and family visited with her parents, Sunday.  
 The children of the neighborhood attended a birthday party honoring Robert Steigers one day this week.  
 The Friendship Club meets this week with Mrs. Charles Kerby.  
 Miss Inez Heath spent the week-end with her sister, Evelyn Heath, in Lewiston.  
 Several of the farmers of this vicinity have started spring work.

**Color Film To Be Shown**

A color film is to be shown at the Church of the Nazarene, Juliaetta, on Tuesday evening, March 4th, at 7:00 o'clock. Some of the film taken by the pastor while in the navy will comprise scenic views of England, Azores, France, Spain, Italy, North Africa, Egypt and the Holy Land. This film is shown in conjunction with the Sunday school contest now in progress taking everyone on an imaginary trip around the world. Later on a film will be shown of India, China, Japan, Philippines, Hawaii, Alaska and Canada, to complete the "trip." All pictures are in full color. Everyone is cordially invited to attend.

**Fresh Idaho Hash**

4 medium-size Idaho russets.  
 1 pound hamburger  
 1 medium-size Idaho sweet Spanish onion.  
 1 1/2 teaspoons of salt.  
 Pepper to taste.  
 Peel and cut the potatoes in small cubes or slices, or shred coarsely. Mash meat in pan and cook for a few minutes over moderate heat. Add cut or shredded potatoes and onion (chopped). Season with salt and pepper. Cover pan and cook over low heat, turning several times until potatoes are tender. This should cook in about 25 to 30 minutes. Cream may be added (1/2 cup) for a wet hash, or add broth or half can of condensed tomato soup. Serves six.

# Pottatch Chief Sez

PUBLISHED BY THE KENDRICK CO-OPERATIVE CREAMERY

## HELLO, THERE, FOLKS:

### About Those Baby Chicks:

As spring comes closer and closer you think it time to again remind you that now is the time to order those baby chicks. Remember, chickens supply meat as well as eggs, and the sooner you place your order, the sooner you can enjoy a big platter of sizzling, golden brown fried chicken. Can't you just smell that delicious aroma and taste that meat?

Remember, we handle Irving's Winlock Hatchery Chicks, and an order placed now will assure delivery when you want them.

### About Those Dairy Products:

Remember, when you buy dairy products of any kind, to always ask for "Pottatch Chief" brand by name. It is your assurance of quality — Butter, Cream, Milk, Ice Cream, Cottage Cheese, Eggs. And there is no better, quick dessert than "Pottatch Chief" Ice

cream. Available in all the popular flavors. Take home a quart today.

A young widow commissioned a monument cutter to inscribe on her husband's tombstone: "My Sorrow Is More Than I Can Bear."

Before the work was finished, the widow married again, and the cutter asked her if she still wanted the inscription.

"Yes," she said, "but just add the word 'Alone!'"

The irate prosecutor whirled on the defendant: "Madam," he said, "trying to prove a vital point, while you were taking your dog for a walk, did you stop anywhere?"

"Sir," she said quietly, "did you ever take a dog for a walk?"

Just as soon as we make a good resolution, we get into a situation which makes its observance unbearable.

### NEWS AND SHORTS

Show Begins At 7:00 P. M.  
35c Admission 15c

### INTERESTING NEWS BITS FROM THE SOUTHWICK AREA

Mr. and Mrs. Given-Mustoe and Jack were Lewiston visitors Sunday.

Mr. and Mrs. Earl Brown spent the week-end with Mrs. Brown's parents.

Mr. and Mrs. Cora Lettenmaier and Gary Smith have returned home, after a visit at Spokane and St. Maries with relatives and friends.

Mr. and Mrs. Gordon Harris spent Sunday evening in the Howard Southwick home.

Mr. and Mrs. Ben Pressnall and George were recent Spokane visitors.

Mrs. Annie Longeteig and John and Thor and John Meland were dinner guests of Mr. and Mrs. Earl Whittinger Sunday.

Mr. and Mrs. Virgil Harris called on Hank and Chris Tschantz Sunday evening.

Mr. and Mrs. Aaron Wells spent Sunday in the George Wells home at Cavendish.

Bobby Bales of Lewiston spent Sunday with Mr. and Mrs. Don Cantrell.

Mr. and Mrs. L. J. Southwick and Mr. and Mrs. Wm. Winters and son and Mr. and Mrs. Dick Cuddy of Orofino were Sunday dinner guests in the Arnie Cuddy home.

Miss Annabelle Cuddy of Lewiston and Miss Kathryn Cuddy of Cathelmet, Wn., were week-end guests.

Mr. and Mrs. Wade Candler were Lewiston visitors Saturday.

Mae Southwick and Mr. and Mrs. Clude King were Sunday visitors in the Wilmer Hanks home.

### Southwick School Notes

The seventh month of school began this week, and report cards were distributed for the past six weeks work.

The Health nurse is expected to come this week to make some eye tests.

In the "State and Capitals" test given to the four upper grades last week, 100 per cent grades were made in both tests by Audrey Beck, Nina Lohman, James Finke, Darrell Hanks, Margaret Kazda and Allen Whittinger. One hundred percent was made in one of the tests by Virginia Cuddy, Bernadette Kazda, Joe Tschantz, Arlie Armitage, Ronald Benjamin, Gary Lohman and Ronald Perry.

In the final test of 50 questions on Idaho history, grades of 96 or above were made by Ronald Benjamin, Bernadette Kazda and Nina Lohman, while Audrey Beck made 100.

The sixth grade class is beginning the study of decimals this week.

The upper grade children are building a map of Southwick village, molding the homes from natural clay and then painting them.

The lower grades have been working this past week to complete their "Health Houses." Each house is built with a door which can be left open to show the snap-shot of the owner of the house, providing he (or she) passes inspection. Otherwise the door must be closed.

The upper grade club is planning a party to be given near St. Patrick's Day.

Those having perfect attendance for the past six weeks in the lower room are: Charles Cuddy, Gary Gertje, Roy Thornton, Vernon Hanks, Kenny Hanks, Stanley Davis and Joe Cuddy.

Those making 100 per cent in the spelling test for the six weeks just past are: Third grade — Mary Lohman and Joan Davis; fourth grade, Richard and Ronald Lohman, Kenny Hanks and Fern Jennings.

Douglas Harris visited school in the lower grade room Wednesday afternoon for the annual "corn pop."

Patsy Cuddy is back in school after a three-week absence, due to illness.

We are beginning school at 8:45 each morning now, and dismissing at 3:15, instead of 3:30 as before.

James Finke and Darrell Hanks both have a perfect attendance record for the six months of school just completed.

### CRESCENT CLIPPINGS

Mr. and Mrs. Ben Baker and Mrs. Alfred Swanson returned Wednesday from Kellogg, where they were called by the death of their brother, Fred Dorendorf. They stayed with their sister, Mrs. Otto Bleisner and family, of Spangle, Wn., a part of the time.

Mrs. Alfred Swanson went to Spokane Saturday after Alfred, who is working near there on a road construction job. He spent the week-end here and went to Kellogg Monday with Mrs. Swanson. Lee and Sonja Swanson stayed with their grandparents, Mr. and Mrs. Charlie Baack, while their parents were away.

Mr. and Mrs. George (Bud) Magee and family stayed at the Ben Baker home, while Bakers were away and did the chores.

Lloyd Farrington and Kenneth Wolff have brought part of their machinery up and will start logging operations soon. They are purchasing the sawmill from John Darby, and expect to put through a large cut.

Mr. and Mrs. Wm. Babb went to Lewiston Saturday and took Miss Phyllis Babb with them to Spokane, where they visited Sunday with another daughter, Helen and family. Mrs. Babb remained to be near her sister, who was operated on the first of the week. Mr. Babb returned home Monday.

Mr. and Mrs. Aaron Wells and daughter, Mrs. Francis Martson and baby, of Moscow, visited Sunday with his sister and family, Mr. and Mrs. Frank Souders.

Mrs. John Darby visited from Wednesday until Saturday with her sister, Mrs. Roy Drury, in Spokane.
