VOLUME 57

KENDRICK, LATAH COUNTY, IDAHO, THURSDAY, MARCH 20, 1947

NO. 12

## COMMERCIAL CLUB MEETING PROVES INTERESTING

The regular monthly meeting of the Kendrick Commercial Club was held Wednesday evening of last week with the 6:30 dinner being served at the Kendrick Cafe, with 21 members and one guest present.

After dinner adjournment was made to the City hall where the regular business session was held.

Following the reading and approval of the Minutes, the secretary, Rev. J. H. Coulter, read a copy of a letter written to James Reid, director of Highways, and Mr. Reid's reply regarding the Kendrick-Juliaetta Highway.

In his reply Mr. Reid stated that he had been but a short time in Boise that he had no definite information to give as to just when the road could be rebuilt, but assured the Club that he was well aware of its terrible condition, and would keep the matter in mind.

H. C. Schupfer of the Industrial committee reported that Robert Young of Juliaetta was using a bulldozer and leveling off a landing strip across the Potlatch bridge below Juliaetta, on which small planes might land — which strip he planned to use for his own plane.

Tom Long of the Highway committee reported construction work ahead of schedule on the Brady Gulch road, and said that the Osberg Construction company was now using two shifts. He also reported that he, W. A. Watts, Gerald Ingel, and John Galloway had attended a Latah County Chambers of Commerce meeting at Genesee in late February, at which meeting roads were the principal topic, and learned that 3.8 miles of oiling was to be done on Big Bear ridge by the Highway department this summer.

After considerable discussion of "Why We Had No Game Birds in This Area", W. A. Watts agreed to accept the chairmanship of the Fish and Game Committee, and said he would make every effort to keep this matter before the state department.

On motion the club voted unanimously to extend to Axel Oberg a vote of thanks for his most liberal gift to the Area Living War Memorial Swim Pool Fund, and to issue to him a life membership in the organization.

The matter of the invitation of the Lewiston Chamber of Commerce to meet with them for a dinner and discussion of road matters, was then taken up, and Tuesday, March 18, at noon, at Burt's Confectionery was set as the date and hour.

Henry Jones, local deputy state fire warden then introduced District U. S. Forest Ranger Powell, of Moscow, Idaho, who gave the club a talk on the Tussock moth and Looper, enemies of our forests. Mr. Powell said that the Tussock moth is a native of this country, and that the first infestations in this section were observed near Farmington, in the late summer of 1944. In 1945 the infestation appeared much worse, and in 1946 had spread from Farmington to the Bear creek drainage and Tensee.

This moth hatches from the egg in May emerging as a fuzzy caterpillar, which feeds on the under-side of the needles of red and white fir trees — although it will eat any conifer. This caterpillar travels on a web about 18 inches in length, the wind carrying it from tree to tree. The caterpillar pupates in August as a cocoon, lays its eggs, and then dies. On this basis, there is no way to tell until hatching time whether or not the pests will emerge, or have been destroyed by their natural enemies — the "sweat bee." Therefore, the problem of whether or not to spray with DDT can hardly be known until time for the actual operations to begin.

He said present plans called for the establishment of airfields for landing the spraying planes at Tensee, Clarkia, Farmington, Pullman, Burnt ridge, Hog Meadow, Elk River and the Clem Israel ranch on Cedar ridge. A survey of this territory has been made and ownership of the infected timber determined as far as possible. The cost of the spraying campaign, however, will have to be borne almost entirely by the state and federal government, although most of the infestations are on private lands.

Mr. Powell stated that tentative estimates called for a train-load of fuel oil — and DDT by the ton! He said that plans called for a plane every 40 minutes, which would be required to fly not more than 100 feet above the tree tops! Ten days were estimated as the length of time required to do the job — which must, of course, be with small planes, since they must dip into canyons and edge hillside.

Ranger Powell stated that the hillside adjoining Kendrick was on the list for a spraying job — which was certainly good news, for loss of that timber would ruin completely one of the beauties of Kendrick.

Jasper Nutting then gave a short talk on the local schools. He said that everything was going nicely, and vacation but nine weeks away. He also said that the future looked better for all the schools of Idaho under the new reorganization bill, as indications were that larger and better staffs and a greater variety of subjects could be offered. Mr. Nutting also said that the Hot Lunch program was "now on its own," with a change of 20¢ per meal being made. March was to be the test month, as it would show very plainly whether or not this program could be self-sustaining. He added that the canning done by local women for the school last summer had proven an invaluable help and was sincerely appreciated.

## Bonner-Neumann Nuptials

Geraldine Bonner, Lewiston, and Allen Neumann, Southwick, were married by the Rev. Orin Conser at the Lutheran parsonage, Lewiston, at 10:30 a. m., Monday, March 17th.

The bride wore a gray traveling suit with black accessories, and a corsage of pink carnations.

The ceremony was witnessed by the contracting parties respective mothers, Mrs. Rose Carr and Mrs. Jacob Neumann.

Shortly after the ceremony the young couple left on a honeymoon trip to Spokane, Coulee Dam, Coeur d'Alene, and other points of interest. They will make their home at Lewiston, returning there the last of this week.

## MRS. N. B. "GRANDMA" LONG, BELOVED PIONEER, PASSES

Mrs. Flora Lena Long, 85, beloved resident of this section for more than half a century, and known to her legion of friends as "Grandma" Long, passed away Monday morning at 11:55 at the family home in Kendrick following a month's illness, which began with a severe chest cold. She was the widow of N. B. Long, pioneer merchant of this community, who passed away in 1928.

Mrs. Long was born in South Carolina, August 20, 1861, and was united in marriage with N. B. Long on March 2, 1883. She, with Mr. Long, came west in 1889 and took up a homestead in the Cedar Creek area, where they resided for seven years, moving from this homestead to Leland, and then to Kendrick in the year 1909, purchasing a home and maintaining it here since that time.

Mrs. Long was a charter member of Canyon Chapter No. 67, Order of Eastern Star at Kendrick, and a member of the Kendrick Methodist church.

"Grandma" Long was beloved of all who knew her, and took a keen delight in her home and garden, and always had a friendly word to neighbors and passers-by — a smile being almost a part of her.

Mrs. Long saw three wars come and go, with their attendant ebb and flow of prosperity. She saw good roads and telephones and electric lights replace the mud, the messenger and the kerosene lights of the past, and with each step forward enjoyed life all the more. Her passing leaves a gap in community life that will be felt for a long time.

Flora Lena Long is survived by five children, E. T. (Tom) Long, Edgar Long and Marvin Long of Kendrick; Mrs. Anna Varo of Eugene, Oregon, and Mrs. Beulah Key, Spokane. Also surviving are three brothers and three sisters, nine grandchildren and two great-grandchildren.

Funeral services will be held today (Thursday, March 20) at 2:00 p. m. at the Kendrick Community church, with the Rev. J. H. Coulter as officiant. Interment will be at the Mountain Gem Abbey mausoleum, Lewiston, by the side of her husband.

Short's Chapel, Moscow, will be in charge of the services.

## About Slot Machines

From the office of J. M. O'Donnell, prosecuting attorney for Latah county, comes the following open letter:

"I am using the newspapers of the county as a means of requesting that all clubs and individuals within Latah County, State of Idaho, cease and desist in the operation of all slot machines and to remove all slot machines from their club rooms not later than 12:00 o'clock midnight, Saturday, March 15, 1947. I am taking this action pursuant to information received from the office of attorney general of the State of Idaho, Boise. The machines must be removed so they are not accessible to any player. All machines not removed pursuant to these instructions will be confiscated without further notice.

"All slot machines located outside of the corporate limits of any incorporated city or village within this county and state must be permanently removed. All machines located within the corporate limits of any incorporated city or village shall cease operation under the order until the local authority of their respective city or village authorizes the operation by licensing acts as authorized by the existing laws of the State of Idaho. — J. M. O'Donnell, Prosecuting Attorney for the County of Latah, State of Idaho."

## Who Said Summer Resort?

Dixie — Dixie residents, in the recent news because of elaborate plans for a resort, report that March entered like a lion, raising the snow measurement to 40 inches.

Ross Armitage of the Sports committee reported that all the Kendrick basketball players had undergone rigid physical examinations in preparation for the Coeur d'Alene tournament — and all had been found perfect. He also reported that baseball practice would begin on March 14.

Rev. J. H. Coulter then brought up the matter of Good Friday, which comes this year on April 4 — and after a brief discussion all present agreed to close their places of business from 2:00 until 3:00 p. m. — and go to church.

After a round-table discussion of sports, the club unanimously adopted a resolution requesting the school board to investigate the possibilities of lengthening the gymnasium, and making other improvements. The next meeting of the club will be held on the second Wednesday of April — the 9th.

## PERSONALS AND NEWS ABOUT KENDRICK FRIENDS

Mrs. Lily of Lapwai was in town Sunday visiting her son-in-law and daughter, Mr. and Mrs. Irvin Halsette.

Ossie Kanikkeberg, Charles and Teddy Deobald spent the week-end here with their parents.

Mr. and Mrs. Joe Watts and daughter Janey of Moscow spent Sunday here with home folks.

Mr. and Mrs. Alvin Sheneman, accompanied by Mr. and Mrs. Jack Aggar, took a trip to Bonners Ferry last week. The Shenemans visited Mr. and Mrs. Perry Everhart, old neighbors from Nebraska, while the Aggars visited her daughter and family, Mr. and Mrs. Ed. Higley. They also made a trip into Canada, since they were so close to the border.

Mr. and Mrs. Ralph Baker of Lewiston took Mrs. Harry Baker and Jim Brown to Spokane with them Tuesday, where they heard the choir from the Multinomah Bible school singing at the Fourth Presbyterian church. Agnes Baker, daughter of Mr. and Mrs. Harry Baker, was one of the vocalists in the choir.

Harold Thomas and his mother, Mrs. Lucy Thomas, Lewiston, were in town Tuesday on business.

Mr. and Mrs. W. L. McCreary and Parker were supper guests at the Oscar Slind home Sunday evening.

Henry Emery returned Wednesday from Palouse, where he has been visiting a sister the past few weeks.

Mrs. A. O. Kanikkeberg was a passenger for Moscow Wednesday.

Mr. and Mrs. Roy Ramey were Moscow visitors Monday.

Mrs. Herman Travis and Mrs. O. Salsus were Lewiston visitors on Tuesday.

Mr. and Mrs. Rol Bryant returned Tuesday from a business trip to Plains, Montana, leaving here Sunday. They report terrible roads, especially in Montana, frost having heaved and broken paving.

Mr. and Mrs. L. E. Eldridge and family left Friday for Spokane.

Mr. and Mrs. Burton Souders were Lewiston visitors Monday and Tuesday on business.

Gay Deobald, U. of I. student, was home over the week-end.

Mrs. Kenneth Powell and children of Troy were in town between trains Friday, visiting friends.

R. L. Blewett was a Moscow business visitor Tuesday.

Stanley Kuykendall left Saturday for Lewiston, where he will spend a couple of weeks at the home of his mother, Mrs. Roy Swanson.

Rev. and Mrs. J. H. Coulter, Dick Coulter, Beverly and Marilyn Schupfer and Danny Crocker attended the concert of the Adelphian Concert Choir of the College of Puget Sound at the Lewiston Methodist church Tuesday evening.

Everett Key of Spokane arrived here Tuesday to stay until after the funeral of his mother-in-law, Mrs. N. B. Long.

Mrs. Bina Raby is spending this week in Clarkston with her son and family, Mr. and Mrs. Oscar Raby.

Eugene Lind spent the week-end in Clarkston with Sidney Johnson.

Mr. and Mrs. Boyd Cook and sons Laurence and David were guests at the Paul Lind home Thursday.

Paul Killian and son Alfred, Mabton, Wn., the former a brother of the late Mrs. N. B. Long, arrived here Wednesday to stay until after the services.

Among those attending the tournament in Coeur d'Alene were Coach and Mrs. Ross Armitage, Mr. and Mrs. Ed. Dammarell, Mr. and Mrs. Floyd Millard, Mr. and Mrs. E. M. White and Mr. and Mrs. George Brockie, their cars carrying the Tigers and their manager and equipment — leaving here Wednesday. On Thursday Charley Candler went up, taking a load of local fash.

Mr. and Mrs. Wade Keene had as guests Sunday Mr. and Mrs. George Jones and daughters of Uniontown; Mr. and Mrs. Carl Richardson of Portland and Mr. and Mrs. Tom Keene and children. Mr. Richardson and Tom Keene are old friends, having traveled on the road together.

Willis Rigby and Robert Brownell of Conrad, Montana, visited a few days last week in the home of Mrs. Edna Nelson and family.

Harry Harris left Monday to work on a ranch near Pullman.

Mr. and Mrs. Halvor Lien, Big Bear ridge, are moving to their new home in Moscow today (Thursday).

Mr. and Mrs. E. H. Jones will move to the Halvor Lien farm, recently purchased by Mrs. Johanna Nelson.

Mr. and Mrs. Roy Maples and son left Sunday for Boise, Idaho, where Mr. Maples will enter a hospital for a physical check-up, and Mrs. Maples and son will visit relatives and friends. They will be away a week.

## New Equipment Being Added

The Kendrick Co-operative Creamery received a new combination filter and pump last week for attaching to their milk pasteurizing unit. This new device does away with the necessity for lifting cans, as well as providing double filtering of the milk at the unit.

Blewett's Grocery Market received a new electric slicing machine last week, and it is now in use. It is entirely of porcelain and stainless steel, and equipped with every possible safety device to protect the operator.

## Slot Machine Ordinance

A special meeting of the Village Trustees was held Tuesday evening of this week for the purpose of formulating a new slot machine ordinance in compliance with the new state law.

The new ordinance is not yet ready for publication.

## GRAIN MARKETS CONTINUE TO ADVANCE STEADILY

Grain markets generally, both futures and cash, were very irregular, showing rather wide fluctuations but reached high levels during the past week according to reports to the Production and Marketing Administration by the U. S. D. A.

Wheat appeared to be especially strong with a broad and active demand. March wheat on the Chicago board of Trade advanced about 18c and September 15½c during the week. A dominant factor contributing to the strength in the wheat market was an unconfirmed report that May export, allocations for relief would include large quantities of wheat and flour. Cash wheat markets in the Pacific Northwest reflected only partially the sharp advance in the eastern futures and cash wheat. Prices on the ordinary classes of wheat advanced 11c per bushel during the period. The demand was principally from the mid-western market, but with the priority order in box cars for movement of Commodity Credit Corporation wheat to Pacific Northwest terminals, it was impossible to guarantee wheat shipments to eastern markets. As a result of the car situation, current sales of wheat for eastern shipment were very limited.

The cash wheat market at Portland was very active, with sharp advances in prices during the week ending March 13. The demand was principally for export types of wheat, located in the area taking favorable rates, for shipment to mid-western markets. There was very little doing in wheat for shipment to the Pacific Northwest terminals. The Commodity Credit Corporation was entirely out of the market and mill interests were buying only limited quantities of special types of wheat for immediate needs. Hard white (baart) was in slow demand and prices advanced only about 5c per bushel while ordinary types of export wheat advanced 11c per bushel for the week. Reports in the trade indicate that the stocks of wheat remaining in the hands of growers in Oregon, Washington and northern Idaho are unusually low for this time of the year. Trade estimates are that not more than 8 per cent of last season's crop remains in first hands as of this date. Receipts at the terminal markets continued to drop during the week with only 169 cars reported at Columbia river terminals and 331 at Puget Sound, compared with 344 and 368, respectively, for the previous week.

Bid prices on the Portland Grain Exchange were as follows: Soft white, \$2.32; soft white (no. Rex), white, western red and hard red winter, all \$2.33 per bushel, basis No. 1, 15-day shipment, coast delivery.

Wheat receipts at Ogden improved materially during the week with a total of 129 cars reported. Prices showed substantial advances especially on export grades, with hard winter, northern spring, hard white, soft white and western white all quoted at \$2.48 per bushel.

The San Francisco wheat market maintained an upward trend during the week, largely influenced by the strength in the general trade situation and scarce offerings. While local demand appeared much less urgent than at other centers, offerings were placed more readily than in other recent weeks and prices advanced 10c per 100 to a new high point since shortly after the first World War. Stocks in central California producing areas were reported reduced to unusually low levels and remaining supplies generally were being firmly held. Receipts from other sections also were very small, with quotations on Pacific Northwest and Intermountain wheat generally above the San Francisco market. Local demand was far from urgent, with considerably less wheat used by central California feeds than in other recent years. Mills purchased occasional lots, but flour demand was not especially active and this limited mill interest in wheat.

Prospects for the 1947 wheat crop in Europe are uncertain due to the severe cold weather over much of the continent. Seeding was accomplished under generally favorable conditions and the total winter wheat acreage seeded to January 1 appeared to be larger than a year ago. Wheat entered the winter in good condition but severe cold weather with insufficient cover, reduced the prospects in some areas and subsequent cold weather caused additional damage.

The 1946 world wheat production of 5,900,000,000 bushels was 600,000,000 above the short 1945 crops, but nearly 100,000,000 below the 1935-39 average of 6,000,000,000 bushels, according to the latest estimate. Out-turns were larger than in 1945 in the major producing areas, except in Australia and India. The wheat production in North America was the largest on record with a crop of 1,156,000,000 bushels in the United States, exceeding the previous year's record by 18,000,000 bushels. The crop was 46 per cent larger than the average 1935-1939. The Canadian crop of 421,000,000 bushels was 35 per cent above average.

Unusually large wheat import requirements for Europe continue as a result of another below average harvest of wheat and other grains, depletion of stocks, the necessity of increasing national food levels and shortage of other foodstuffs. A production of 1,350,000,000 bushels in Europe in 1946 was midway between the small 1945 crop and the 1935-39 average. Asia's total wheat harvest in 1946 was estimated to be a near-record crop, mainly because of the Chinese reported large out-turn. Of-

## Lovely Spring Weather

No one could ask for more beautiful spring weather than the Potlatch section has enjoyed this past week. Warm, sunshiny days, clear cool (not cold) nights, with just a bit of white frost showing in the early morning.

Farmers are busy hauling and spreading land plaster, repairing machinery, and in general getting ready for plowing and seeding, which, if the present warm, dry weather continues, can begin within a few days.

About town the smoke of "clean-up" fires dots the sky almost all the time, and forsythia and daffodils are blooming.

## LEWISTON C. OF C. DELEGATION MEETS WITH CLUB

Tuesday at noon the Highway committee of the Lewiston Chamber of Commerce met with the Kendrick Commercial club for a luncheon at Burt's Confectionery, following which the group adjourned to the city hall for a business session.

Present from Lewiston was John Shepard of the Lewiston Grain Growers; Elbert Stellman of Cox, Ware and Stellman; M. M. Belknap, real estate; Gunder Kjosness of Madison Lumber Co., Art. Fewell of the Manhattan Cafe; Tom Cunningham, secretary of the Lewiston Chamber; Don Chapin of Chapin Transportation Co.; M. B. Mikkelsen, Prairie Flour Mills; O. D. Shook, Lewiston Motors; Mark A. Means, Frank Kettenbaugh and E. D. Potvin.

At the business session L. S. Thurber introduced Mr. Stellman, chairman of the Lewiston delegation, who took over the gavel and presided at the meeting.

Mr. Stellman stated that Lewiston was in favor of good roads in this district — anyplace, and that the one between Juliaetta and Kendrick on their way here — was certainly a disgrace to the Idaho highway system, and certainly was in need of immediate rebuilding and oiling — and pledged the help of the Lewiston Chamber in securing this improvement.

Mark Means spoke of the advantages of good roads, not only to local residents, but to tourists as well, and stated that he believed Idaho had overlooked many hundreds of thousands of dollars in income from tourists by not having through roads and proper highway designations to capture their interest.

Mr. Shepherd spoke of the proposed Columbia and Snake river dams for the development of low cost transportation — tying them side by side with good roads and railroads. He stated that appearances looked good for the development of the McNary Dam at Umatilla, with a hearing to be held in May. From this step it was hoped four could be built on the Snake.

E. D. Potvin spoke on the Lewis Clark highway, stating that a contract had been let from the Powell Ranger station "heading this way" for some eight miles, and two other contracts from the mouth of Old Man's creek on the Lochsa up Black Canyon toward the Powell station.

This road, when completed, will bring many tourists into this area, famous for its scenic beauty and historical background, and he said he believed it necessary to have the best possible local roads awaiting their arrival. Therefore, he heartily endorsed the immediate improvement of the Juliaetta-Kendrick road.

G. F. Brocke and George Wilken then lead a discussion of the necessity of completing the Wauchter Gulch road and improving the road from Southwick through to Wauchter Gulch — all of which is in Nez Perce county — and the delegates left in cars to inspect this road at the conclusion of the business session.

Kendrick sincerely appreciates this gesture of friendliness and the offer of help on the part of the Lewiston Chamber of Commerce — and we all hope that it can be made to bear "fruit" soon — for we do need the roads.

## V. F. W. Election of Officers

Saturday evening of last week the local V. F. W. post held an election of officers for the coming year, with results as follows: Ervin Halseth, commander; Ervin Draper, senior vice commander; Neal Craig, junior vice commander; Don Dammarell, quartermaster; Joe Forest, adjutant; Pete Benschoter, post advocate; Roy Weber, officer of the day; Eugene Lind, chaplain; Ray Hudson, trustee (one year term).

The business session was followed by a public dance which was well attended and enjoyed by all present.

## Purchase Thomas Property

A deal was consummated Tuesday of this week whereby Mr. and Mrs. R. L. Blewett became the owners of the Mrs. Martin Thomas property in the east part of town, just across the street from the Wade Keene and Frank Crocker homes. Approximately three-quarters of a block, or 14 lots including the house were involved in the transaction.

Mr. and Mrs. Blewett will obtain possession within 30 days, and plan to occupy the residence.

Official data is not available on the Soviet Union, but the wheat harvest was estimated to be slightly larger than in 1945. It is still substantially below the pre-war level.

In the southern hemisphere the 1946 wheat crop was considerably below average. Production in Argentina showed an improvement over 1944 and 1945. Wheat production in Australia was only about 70 percent of normal.

## PERSONALS AND NEWS ON AMERICAN RIDGE

Mr. and Mrs. Walter May entertained at dinner Sunday in honor of Mr. and Mrs. Alfred Johnson of Agatha, who were married Friday in Lewiston. She was Dora Woodcock of Vancouver, Wash. Mr. and Mrs. Warney May acted as attendants at the wedding. Other guests in the May home were Mr. and Mrs. Don Johnson and family of Agatha, Mr. and Mrs. Warney May and son Warney, and Walter May's half brother and sister and family of Seattle, whose names we were unable to learn.

Mr. and Mrs. Norla Callison and family were Sunday dinner guests of Mr. and Mrs. Hugo Eberhardt of Lenore.

Mr. and Mrs. Geo. Havens and sons Ira and Rayner, Mrs. Dot Stanton, Mr. and Mrs. Andy Cox and daughter Andrea and Mr. and Mrs. Norla Callison and son Bobby were in Moscow Tuesday.

E. P. Roberts returned home Saturday from Seattle, Mrs. Roberts remaining for a longer stay.

Mr. and Mrs. Perry Mattoon and family and Mr. and Mrs. Bud Fey were in Opportunity, Wash., Sunday, visiting Mr. and Mrs. T. B. Denny.

Mrs. Etta Smith of Spokane came Friday and spent that afternoon in the Henry Brammer home, going on to spend the week-end with her granddaughter, Mrs. Werner Brammer and husband at Southwick.

Mr. and Mrs. Warney May and son Warney were Moscow visitors on Wednesday.

Mr. and Mrs. Ray Knutson and daughter were Sunday dinner guests of Mr. and Mrs. Lyle Knutson at Lenore.

Mr. and Mrs. Perry Mattoon and daughters Carrol and Kathryn and Mrs. Bud Fey were Lewiston visitors Tuesday.

Mr. and Mrs. Geo. Davidson of Moscow spent Friday with Mr. and Mrs. Perry Mattoon.

Mr. and Mrs. Henry Brammer were Sunday dinner guests of Mr. and Mrs. Werner Brammer at Southwick.

Bob Cain is on the sick list this week.

The Ridge Red Cross met Friday with Mrs. Norla Callison, with election of officers a part of the business session. Mrs. George Havens was elected president, succeeding Mrs. Bruce Glenn. Mrs. Walter May and Mrs. Wayne Davis were re-elected to their respective offices.

Mrs. Bruce Glenn spent Tuesday with her sister, Mrs. Guy Kitch and baby, in Troy.

Larry Langdon made a trip to Cedar creek Friday after seed wheat. Dr. and Mrs. Dan Guy, Walter Nelson and Ray Benschoter, all of Lewiston, spent the week-end with Mr. and Mrs. Frankie Benschoter. Ray Benschoter is now employed at the J. C. Penny store in Lewiston.

Mr. and Mrs. Harry Langdon and son Larry were Sunday dinner guests of Mr. and Mrs. Henry Jones in Kendrick.

Harry Langdon and son Larry were in Moscow Thursday on business.

Joe Langdon was a caller at the home of his parents, Mr. and Mrs. Harry Langdon, Tuesday morning.

Mr. and Mrs. Ray Knutson and daughter were Tuesday evening callers at the Geo. Havens home.

Mr. and Mrs. Wayne Davis and Mr. and Mrs. Frankie Benschoter were in Moscow Wednesday.

Mr. and Mrs. Walter Benschoter and daughters Priscilla and Marybeth and Mr. and Mrs. Frankie Benschoter were Lewiston visitors Saturday.

Ben Callison, Lewiston, spent the week-end at the Walter Benschoter home.

Mr. and Mrs. Wayne Davis were in Pullman on Thursday.

Harry Langdon is reported to be the first out doing field work on this ridge. Others will start in a few days.

Mrs. Wayne Davis was out collecting for Red Cross Monday. The sum of \$35.00 was sent in for the drive.

Mr. and Mrs. Harold Roberts and family were Sunday dinner guests of Mrs. Laura Chapman. Later that afternoon they visited with her sister, Mrs. Hogaboom and family, at Lapwai.

Mr. and Mrs. Wayne Davis were Sunday guests of Mr. and Mrs. Dale Busch at Albion.

Mr. and Mrs. Ed. Kent left Saturday by train for Tacoma, Wash., where they will visit with relatives for a week or ten days.

Mr. and Mrs. Clarence Dougharty were Sunday afternoon callers at the home of Mrs. Sam Bigham and son Walter.

## Many Enjoy Lunch And Shows

The Kendrick Bean Growers Association played host to an estimated 450 guests at their free noon lunch Thursday of last week, and the theatre was filled to capacity at both the 2:00 and 8:00 p. m. shows in the local theatre — the Bean Growers and the International Harvester company being joint sponsors of the latter two events.

The dinner and shows have become an annual affair.

## Freak Fall Breaks Arm

Burton Souders, Jr., had the misfortune to fall and break his left arm Tuesday evening in a freak accident.

Burton was standing on the top of a fire plug, and as he moved to jump off, his pant leg caught on the large shut-off control nut at the top of the plug, causing him to lose his balance and fall, with the result that both bones were broken in his left arm.

# SUGAR STAMP WARNING!

**STAMP NO. 53 Expires at midnight March 31st. Don't lose out. Spend it here before that time.**

**STAMP NO. 11 Good April 1st. Of this 10 pounds, 5 are for canning.**

### INTERESTING NEWS ITEMS FROM KENDRICK SCHOOLS

**High School News**  
The baseball season has now begun, and regular practice is being held.  
The Bob Woods' Show was presented to the Assembly, Friday of last week. That same afternoon a film of the New York City College basketball team vs. The University of Idaho, at Madison Square Garden, Dec. 3, 1946, was also shown.  
The Tigers, Coach Armitage and Manager Elroy Kuykendall left Wednesday at noon for Coeur d'Alene. They meet Post Falls in the first game of the Northern Division championship play-off Thursday evening at 7:30 o'clock. These games (we understand) are to be broadcast over the Coeur d'Alene radio station, whose wavelength is around 1400.

**Grade School News**  
Perfect attendance for the past nine weeks in the first and second grade rooms was had by Betty Jean Candler, Phyllis Hudson, Jean Jones, John Wary, Jack Easterbrook and Helen Luman. Chris Maples has been absent for the past week. He is visiting with his parents in Boise.  
The ones receiving 100 in the nine-week Spelling test in the fifth and sixth grades are: Joyce Armitage, Janice Christensen, Ann Kanikkeberg, Donna Kanikkeberg, Arlene Maynard, Unis Westendahl, Zelma Candler and Sharon Sturman.

The officers selected for the last nine-week period in the fifth and sixth grade room are: Zelma Candler, president; Albert Clemenhagen, vice president; Janice Christensen, secretary-treasurer; Bernadine Glenn and Donna Kanikkeberg, librarians.  
Students having perfect attendance in the fifth and sixth grade rooms are: Jerry Brown, Zelma Candler, Kenny Gruell, Lee Jones, Donna Knox, Joyce Armitage, Janice Christensen, Ronald Craig, Arlene Maynard and James Travis.  
The seventh and eighth graders are now playing softball.

**Vacationing in New Mexico**  
From a recent personal letter written up by K. D. Ingle, from Zuni, N. M., we have taken the liberty of borrowing some of the interesting sections, as follows:  
"We are in your old home state. (New Mexico). Such a nice country to look at. We are at Zuni, 45 miles south of Gallup, on the Zuni reserve, where the Indians have lived for centuries. Their records go back to only 1540 — and from their they do not know how much farther — but "many, many snows." The elevation is between 7,000 and 8,000 feet and the land has been farmed ever since they came — and no one knows when that was.

"The soil is red and sandy. The hillsides are red, gray, blue and black — almost straight up, and rise to a height of 1,000 feet above the valley. The sun shines brightly during the day now but the nights are cold — freezing ice about an inch thick!  
"What is called the pasture land has sage brush and a short grass that makes feed for their cattle and sheep. The value of such land is about \$3.00 per acre. By drilling 200 to 400 feet there seems to be plenty of water, many of the wells being artesian, some with as large as a 24-inch stream!

"This pueblo or city of Zuni is located on the Zuni river, which flows into the little Colorado. Zuni has 2,500 people, their own schools and government. They have an election every two years. Their governor acts as a judge, and tries 95 per cent of the cases that come to "court."

"The 'Painted Valley' is a sight that no one could ever forget — nor could we describe it. When you stand on the brink and look down it almost takes your breath away. The colors amaze you, but when you think of the waste and destruction you cannot help feeling sad when you turn and walk away."

**Suppository Warning**  
Cooperating with the United States Food and Drug Administration, L. J. Peterson, administrative director of the Idaho Department of Public Health, has wired public health officials and sanitarians throughout the state to track down all supplies of Analbiss suppositories.

The suppositories were recently believed responsible for some fourteen death among children under six years of age. These suppositories are applied rectally for various illnesses. Dr. L. J. Lull, director of local health service, has warned all physicians and hospitals in all communities to stop using these suppositories at once and to have all stocks on druggists' shelves withheld from sale. Department officials indicated that no deaths or illness from Analbiss suppositories have been reported in Idaho, but that "it is possible that many druggists, hospitals and doctors may have supplies of the dangerous drug.

Recall of this drug, which has been distributed in Idaho, is being carried out through the cooperation of the state board of pharmacy, the state hospital association and other linked branches.

The local drug store, the Red Cross Pharmacy has not handled or sold any of these suppositories. However, in line with the government request, if you have any of these, please turn them in at the local drug store, where they will be turned over to the State Health Department for analysis and destruction.

**Dog Leaves "His Mark"**  
Monday evening of this week Ellsworth Weaver, Clarence Perryman, Walt and Orville Sparber completed the laying of a new concrete walk at the rear of the Blewett Grocery — and Tuesday morning when they came to work, found a large dog had left his footprints in almost every square — and the concrete was too thoroughly set to make repairs possible.

**Community Sales Successful**  
Shoshone — Two auctioneers were needed in Shoshone for the second annual community farm machinery sale, sponsored by the Chamber of Commerce last week, in an effort to distribute available surplus machinery and furniture.

### WHAT CAMERON FOLKS ARE DOING THESE DAYS

Mr. and Mrs. Herman Silflow and Carl L. Wegner of Pullman left for Portland Friday to visit with their brother Ed Wegner and sister Mrs. George Ehlers and other relatives.

Mr. and Mrs. Marion Silflow spent a few days of last week in Spokane.

Misses Marjorie and Esther Wendt of Pullman spent the week-end at home with their parents Mr. and Mrs. Henry Wendt.

Mr. and Mrs. Russel Rodgers were Sunday dinner guests of Mr. and Mrs. Earl Whittinger.

Mrs. Walter Koepf and daughter Judy were guests of Mr. and Mrs. Otis Hilton of Moscow Friday and Saturday. Friday evening they motored to Pullman and visited with Mr. and Mrs. Roy Ramey Jr.

Mr. and Mrs. Carl Koepf, Ernest Helmgartner and son Ernie spent Monday evening with Mr. and Mrs. Henry Wendt.

Mr. and Mrs. Ted Vaughn and son were Sunday evening visitors in the home of Mr. and Mrs. Glen Wegner.

Mr. and Mrs. Ed Nelson spent Sunday evening with Mr. and Mrs. Gus Kruger.

Wayne and Vern Wegner were week-end visitors in Wenatchee, Wn. Mr. and Mrs. Gus Kruger and daughters were visitors in Moscow Saturday.

Mr. and Mrs. Glen Wegner and family were Tuesday evening visitors in the home of Mr. and Mrs. Glenn Newman.

Mr. and Mrs. Harold Silflow, Mrs. Ida Stoneburner, Miss Emma Hartung, Ernest, Irene and Ernie Helmgartner, Harry and Wally Newman and Ted Mielke spent Thursday evening in the John Schwarz home. The time was spent showing local moving pictures.

Mrs. Earl Whittinger called on Mrs. Fred Newman Wednesday afternoon.

Mr. and Mrs. Walter Koepf and family were Sunday dinner guests of Mr. and Mrs. Henry Wendt.

Mrs. John Schwarz and sons and Ted Mielke were supper guests of Mr. and Mrs. Walter Demmler on Fix ridge Sunday evening.

Mr. and Mrs. John Blankenship and family of Clarkston spent the week-end here with relatives.

**New Equipment Be Demonstrated**  
A demonstration of the "Stubble Buster" being built by the Genesee Trading Co. will be held on the Old Thomas farm on American ridge, now being farmed by Andy Cox. The demonstration is being arranged for by Russell Smith of the Soil Conservation Service through the makers of the implement. The time is set for 1:30 p. m., Friday, March 21, providing the spring weather holds out.

The "Stubble Buster" has been demonstrated throughout the Palouse territory. It has been widely accepted as the most promising piece of equipment seen to date for the utilization of heavy crops of grain straw, these crops having been the stumbling block of many farmers insofar as establishing a complete conservation program on their farm, Smith said.

The company representative who will bring the equipment here for the demonstration will also bring a new type of "spring tooth." This implement likewise holds promise of being a great aid in handling heavy straw crops.

**Homemaking 4-H Club Objective**  
Valuable incentives to rural girls who aspire to become successful homemakers are being offered in the 1947 National 4-H Girls' Record program. In this activity, which is conducted under the direction of the Extension Service, participants learn all phases of homemaking through 4-H club projects which serve to develop housekeeping skills and home management ability. To buy wisely and use farm and home resources intelligently are featured in their training.

A typical 4-H girl's record in homemaking shows that during eight years in club work she prepared and served 5,081 dishes for family meals; sewed, made over or mended 107 garments and canned 3,292 jars of food. She also made 80 home improvement articles, raised 12½ acres of garden, prepared 2,771 packages of food for freezing, gave 59 demonstrations, and served her club as junior leader. In addition, her home ground beautification achievements won state honors.

**Working At Cemetery**  
A small group met at the Cameron cemetery Monday to straighten the leaning tombstones and seed the ground in blue grass and clover.

Plans were made to get a power mower. Small cash donations from those with relatives buried in the cemetery would be appreciated.

Many of those who have helped with this work are not those with plots but those who think a cemetery of rose bushes, sunflowers and bachelor-buttons is a disgrace to the Cameron community.

Mrs. Herman Meyer, Mrs. Carl Koepf and Mrs. August F. Wegner are the committee appointed by the Cameron Ladies Aid to take charge of this work — but the Aid is making, or wants, no profit on this work.

**Enjoy St. Patrick's Party**  
The Senior M. Y. F. were entertained with a St. Patrick's party and program at the church on Sunday evening by Mrs. H. C. Schupfer and Mrs. J. H. Coulter. In the discussion following, it was decided to meet every Wednesday evening, alternating choir practice and regular M. Y. F. discussion meetings.

Next Wednesday there will be practice of Easter music at the home of Mrs. Schupfer.

**Entertain Basketball Teams**  
The Kendrick Tigers and Tigresses basketball teams, their managers, the yell queens and Coach and Mrs. Ross Armitage were the guests of honor at a 7:00 o'clock pick-up supper given by the Kendrick Grange Tuesday evening of this week, with the supper followed by a short program and dance.

All report a most enjoyable time.

Place your order for Easter ham now at Blewett's Grocery-Market. Quality is assured.

12-1

## NOTICE To Clover Seed Owners!

Next week, March 24 to 29, inclusive, we will custom clean Clover Seed.

If you have any to clean, please have it in by Monday.

## Garden Seeds

We have a large selection on hand

## SMALL SEEDS

If you have not placed your order for Clover Seed and Alfalfa Seed, please place this order with us as soon as possible.

**Kendrick Bean Growers Ass'n**  
KENDRICK Phone 971 IDAHO

## NOTICE

**SEE US FOR YOUR INSURANCE NEEDS**

Have you checked your coverage lately? Have you ample protection according to present values? We represent the Home Insurance Company of New York — one of the largest and strongest companies.

We also solicit farm mortgage loans and any other loans consistent with good business.

United States Savings Bonds May Be Purchased At This Bank

### Peach Tree Borer PDB Control Urged

Pest Biggest Peach Problem in America

By W. J. DRYDEN

Fall is the time to forestall the 1946 peach borer. Material increase in the average productive life of peach trees can be brought about by the effective control of peach tree borers.

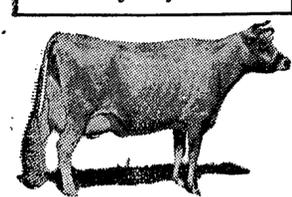

Masses of gum mixed with sawdust-like refuse at or near the base of the trees reveal the presence of infestations. The injury may extend about a foot above or below the ground line.

Best control is obtained by applying powdered crystalline paradichloro-benzene (PDB) to the ground in a ring around the tree as shown in the illustration. The ring should be mounded with three to five spadefuls of earth.

The amount of PDB to be used will depend upon the age of the tree. For trees 1 year old, use 1/2 ounce; 2 years old, 1/2 ounce; 3 to 5 years old, 3/4 ounce, and for older trees, from 1 to 2 ounces.

### Know Your Breed Jerseys

Originating in the Island of Jersey, the Jersey breed of dairy cattle first was imported into the United States about 1850.

Jerseys are said to be more evenly distributed in the United States than any other breed. They possess to a great degree those qualities ideal for dairy types. Alert, clean-cut, angular and refined in conformation they still have large barrels.

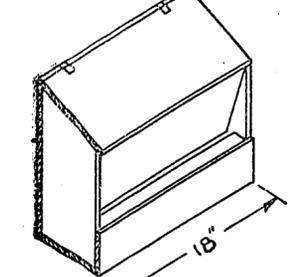

Their milk test is right and cost of butterfat production is low. Average butterfat content is 5.35 per cent, highest of all breeds.

### Fall Versus Spring Fertilized Pastures

It is becoming increasingly evident from tests at New Jersey station and other states that except on very sandy soils fertilizers containing nitrogen for grassland and pasture sods, may be applied in late summer or early fall.

Fertilizers containing phosphoric acid and potash only, such as the mixtures usually recommended for alfalfa and Ladino clover fields, can be even more efficiently applied in the fall than in the spring.

### Mineral Hopper for Hens

Laying hens and growing chicks need a constant supply of calcium in form of oyster shell or limestone. This hopper may be hung on the wall of the chicken house.

### Conquering Flax Wilt By Resistant Strains

During the early 20th century the flax industry was faced with a serious problem. "Flax-sickness" was making the industry unprofitable. It was found that "flax-sickness" was the result of a flax disease called wilt. This wilt fungus was introduced into the new soil when cropped to flax, where it lived and multiplied ready to attack later flax crops. The remedy was the introduction of new wilt-resistant varieties of flax.

### Double-Cross Corn Not Fit for Reproduction

All plants in a field of corn planted with hybrid seed of a given strain are related—first cousins. The seed coming from such a field is definitely inbred and should not be saved for seed, points out the USDA. Reduction in vigor and grain yield is always the result of inbreeding in corn. The alternative is to plant each year the freshly crossed seed of tested strains of hybrid corn.

### Heavy Eating Bees Must Be Well Fed

Annual Requirements Six Times Bees' Weight

By W. J. DRYDEN

Some colonies of bees gather a type of honey in the fall that they cannot digest during the winter. All bees need about six times their own body weight a year in feed, which means that a 10-pound colony requires 60 pounds of honey and four or five combs of pollen stored in the hive to carry them through the winter.

When bees are lacing in honey they can be fed sugar syrup im-

Sugar syrup being given to hive of bees at USDA testing laboratory.

mediately after the fall honey flow ceases, to provide them with food for the winter.

When bees are confined their rations must be watched. If they run out of pollen, it may be furnished by feeding soybean flour. The flour should be fed on top of the frames where they can get it during bad weather when they need it most.

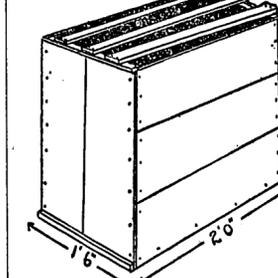

When new bees are housed, a can of sugar syrup may be placed in each hive, as shown in the illustration. This same method may be followed when bees run short on honey for any reason.

### Flea Beetle Control Must Be Started Now

Flea beetles often feed and breed on various types of weeds, closely related to garden crops. They spend the winter in the adult stage hidden away under leaves, grass or other protection in the garden along fences or in adjoining waste areas, later moving to garden.

Control means that weeds never be allowed to grow or trash to accumulate that will serve as a winter housing project. The use of calcium arsenate or arsenate of leadlime dust, rotenone or pyrethrum dusts have proven effective as sprays or dust.

### Light Shipping Coop

When it becomes necessary to ship breeding stock or show poultry, this light-weight shipping crate will be found satisfactory. It may be marked for return, in which case, if kept clean and disinfected, it may be used over and over again.

### Use of Dry Ice Proves Death to Pesty Rats

Not only will dry ice rid storage houses of rats, mice and other pests but will aid in reducing scald, experiments at Rhode Island station show. In the tests 25 pounds of dry ice for each 100 cubic feet of storage space was used in tightly closed buildings. The ice, fanned by electric fans, will produce a 20 per cent carbon dioxide concentration, sufficient to kill all rats and mice present.

### 2,4-D Known to Kill Many Weeds Outright

Among the weeds that 2,4-D will kill are buckhorn, burdock, chicory, cocklebur, dandelion, dog fennel, elderberry, fanweed, ground ivy, lambsquarters, legumes, locust, morning glory, nettles, pepper grass, pigweed, plantain, ragweed, sow thistle, sumac, sunflower, wild top, wild buckwheat, wild carrot, wild radish, yellow rocket, yellow trefoil and Austrian cress. Others are added daily.

### To Attend Tournament

George W. Greene, University of Idaho director of athletics, and Guy P. Wicks, basketball coach, left Moscow Wednesday of this week to attend the south Idaho Class A and B high school basketball tournaments at Pocatello.

The two athletic officials will meet with members of the Idaho High School Coaches association while away, and Wicks will conduct a basketball clinic at Pocatello.

### NOTICE OF ADMINISTRATOR'S PRIVATE SALE OF REAL PROPERTY

In The Probate Court Of The County Of Latah, State Of Idaho

In The Matter Of The Estates Of EFFIE M. WARE AND N. E. WARE, Both deceased.

NOTICE IS HEREBY GIVEN that R. H. RAMEY, the Administrator of the Estates of Effie M. Ware and N. E. Ware, both deceased, will sell at private sale in one parcel to the highest and best bidder upon the terms and conditions hereinafter mentioned, and subject to the confirmation by said Probate Court on or after the 8th day of April, 1947, all of the right, title, interest and estate of Effie M. Ware and N. E. Ware at the time of their deaths and all right, title and interest that the estate has by operation of law or otherwise acquired other than or in addition to that of the said deceased at the time of their deaths, of in and to the following described real property situated in Latah County, State of Idaho, to-wit:

Beginning at a point One Thousand Six Hundred Sixty-two feet North (1662) and Nine Hundred Seventy-five and eight-tenths (975.8) feet East of the Southwest corner of Section Nineteen (19), Township Thirty-eight North (T38N) Range Two West (R2W) Boise Meridian, being the Southwest corner of the Guy Foster land or lot, whose land has been formerly described by deed and transfer, the last being, Dora M. Hull and H. P. Hull to Guy Foster, recorded in Book 87 of Deeds Page 553 on Feb. 27th, 1929, from said point, the Southwest corner of Guy Foster land, running in a northerly direction along the west line of said land, Two Hundred Sixteen (216) feet, to the Northwest Corner of Guy Foster land, thence in an easterly direction, along the north side of said land Two Hundred One (201) feet to the Northeast corner of Guy Foster land, thence diagonally from this corner to where the Big Bear Ridge and Creek Road makes its first bend or switch back, starting up the hill, this distance being approximately One Hundred Thirty Four (134) feet, crossing the road and following the left edge of said road continuing up the hill until said road intersects the Quarter line of the Northwest Quarter (NW 1/4) of Section, Township and Range above described, thence West along said Quarter line, taking in possibly a small corner off the Northwest corner of the Southeast Quarter of the Northwest Quarter (SE 1/4 NW 1/4) of the above section, all of the Southwest One-fourth of the Northwest One-fourth (SW 1/4 NW 1/4), which lies west of the Big Bear Ridge and Creek Road, all of which land being in the aforesaid Section, Township and Range. Excepting and saving a spring of water situated on above described land together with the deed of Right-of-way to T. J. Moser as recorded in Book 62 of Deeds at Page 367, dated March 4th, 1910. Continuing this deed it shall include all lands east of the Big Bear Creek, all in the Southeast One-fourth of the Northeast One-fourth (SE 1/4 NE 1/4) Section Twenty-four (S24) Township Thirty-eight North (T38N) Range Three West (R3W) and continuing from the Southeast corner of the Northeast quarter of above Section, Township and Range, running due South along the Section line between Sections Nineteen and Twenty-four being the line between Ranges Two and Three, until said line intersects or reaches the Potlatch River, which is the County line between Latah and Nez Perce Counties, State of Idaho, following up said Potlatch river in an easterly direction, until a point shall be reached which is directly opposite and in direct line with the west line of said Guy Foster land, thence in a northerly direction until the point of beginning has been reached or the Southwest corner of Guy Foster land, said land being in Section Nineteen (S19), Township Thirty-eight North (T38N), Range Two West (R2W) Boise Meridian, all of which is in the County of Latah, State of Idaho.

Subject to Right-of-Way easement for highway recorded in Book 93 of Deeds at Page 279 of the official records of Latah County, Idaho, and Right-of-Way easement for electrical distribution line recorded in Book 5 of Leases and Agreements at Page 578 of the official records of Latah County, Idaho. Together with all the tenements, hereditaments and appurtenances thereunto belonging or in any-wise appertaining.

TERMS AND CONDITIONS OF SALE: Cash, lawful money of the United States, the Buyer to pay the taxes for the year 1947, deed and revenue stamps at the expense of the estate, abstract of title to be continued at the expense of the estate to and including the Order Confirming Sale, 10 per cent of the purchase price to be paid at the time of sale and the balance on confirmation of sale. All bids and offers must be in writing and may be left with the Administrator in Kendrick, Idaho, or may be filed at the office of the Clerk of the above entitled Court at any time after the first publication of this Notice and before making of the sale.

DATED this 17th day of March, 1947.

R. H. RAMEY, Administrator.

First pub. Mar. 20, 1947.

Last, pub. Apr. 3, 1947.

L. E. Huff, Atty., Moscow, Idaho.

### Tractor Numbers Growing

Idaho may have as many as 20,436 tractors rumbering over its farm lands by 1950, under the impetus of a vigorous nation-wide drive toward complete agricultural mechanization. This number would be the state's quota of the 3,000,000 tractors expected to be in use on all U. S. farms by 1950, according to an agricultural report. This full total is dependent, however, upon the south mechanizing to the same degree now prevailing in the middle Atlantic states.

The demand for farm machinery, particularly tractors, is the heaviest in history, states the report. Tractors are sorely needed to help the farmer to offset the lost manpower and increased acreage needed to continue to meet high food production goals.

Idaho farms had an estimated 17,332 tractors on July 1, the study disclosed. Of these, between 2,329 and 3,071 are past their normal junking period, and 800 more are wearing out annually.

The farmer is in the best financial condition he has ever known, the report added, going on to say the demand for, and supply of farm equipment is expected to continue a profitable relationship for some time.

New tractors now on the drawing boards and just beginning to come off production lines will be lighter in weight, but will have better resistance to wear and corrosion. They will be equipped with anti-friction bearings that require fewer repairs and less frequent lubrication, and will be easier and less expensive to operate.

### A MESSAGE FROM THE SECRETARY OF WAR

How you can help

YOUR ARMY DO ITS

PART FOR PEACE

With the President's proposal for the discontinuance of Selective Service on March 31, America will rely on voluntary enlistments for the maintenance of the Regular Army at authorized strength.

In view of world conditions today, this is a step of the gravest importance to every American citizen. Never before in history has any nation raised and maintained a million-man army by the volunteer system alone. Our ideals, our belief in individual freedom, our safety and our duty to promote world peace — all are bound up in this decision.

This is your Army, and voluntary enlistment is your choice. It must not fail. With your help it will not fail. The Army must continue to provide adequate occupation forces overseas, to supply these forces, and to help in keeping America strong and secure.

Your help and understanding can do much to encourage a steady flow of 3-year voluntary enlistments, necessary to sound training and the efficient performance of the Army's task.

When you discuss this subject with your sons, brothers, husbands or friends who may be considering an Army career, bear in mind the advantages offered by a 3-year enlistment. Among them are the choice of branch of service and of overseas theater where openings exist, and the opportunity for thorough training in valuable skills.

A job in the new Regular Army compares favorably with the average in industry, and has more opportunities for promotion than most.

You can help by giving your respect and support to the man who enlists voluntarily — to do his part in carrying out your country's world-wide obligations to build a peace that will endure.

ROBERT P. PATTERSON

SECRETARY OF WAR

to operate.

Veteran's Business Humming When most business men get stung on a business deal, they don't brag about it, but Morris W. McKnight, former navy yeoman, gets stung sometimes 10 or 15 times a day, and to him it's just part of the job. McKnight, who lives near Seattle, made use of his G. I. loan privilege and bought a part interest in a bee business — "a honey of a business!"

He has 240 colonies in his apiary, and each colony includes some hundreds of thousands of bees. McKnight has never gotten around to taking inventory — too busy.

### Aboard Again—the "Great Big" Baked Potato

Travelers remember with satisfaction the 1000 miles of magnificent mountain scenery along the "Main Street of the Northwest" and the warm spirit of hospitality aboard the North Coast Limited and our other trains, but what tickles them most? It's that symbol of doing things abundantly well—the Northern Pacific's delicious "Great Big" Baked Potato, which is now restored for your delight on all dining cars of the NORTH COAST LIMITED.

R. H. RAMEY, Local Agent  
Phone 672  
Kendrick, Idaho

**Potato Picker Postwar Aid To American Agriculture**

More than 15 years ago a potato harvester was developed at the Pennsylvania Agricultural Experiment station. Today that research project provides the basic design for machines now being manufactured, and which are popular with potato growers. The machine eliminates the back-breaking job of picking potatoes after they have been dug loose from the soil.

When the potato harvester was developed, the depression gripped the nation, labor was plentiful, and manufacturers were not interested, so the plans were shelved. Prof. R. U. Blasingame of Penn State college said, Later, when wartime demands revived interest in the machine, critical need for wartime metals relegated the picker to non-priority ratings.

Now, with interest revived in mechanical devices to aid farm production, the potato harvester is being produced commercially, along the same basic lines as the original model. Potato pickers are being made as independent units, permitting growers to use digging machines they already own. In the new device, pickers ride the side of the machine, sorting and cleaning clods of dirt from the potatoes. A conveyor belt carries the potatoes to a platform, where they can be sorted, cleaned, and immediately bagged or placed in crates.

**Germans Worked on Brain Control of Artificial Limbs**

An artificial leg activated by impulses from the human brain was the goal of German experiments during the war according to a report on an interrogation of German scientists revealed by the army air forces.

One of many "physic-mechanical" experiments of the Aeronautical Research Institute of Munich, the leg used electro-mechanical devices wired to the severed nerve endings. The Germans believed that Galvanic electricity flowing along the nerves would supply the power impulses and that these could be controlled mentally, manipulating the leg according to the wishes of the wearer.

Investigators believe that varying degrees of concentration were to be employed by the amputee on the theory that mental intensity would act like a rheostat, controlling the amount of nervous electricity and moving the leg in the manner desired. The Germans were as much interested in proving the disputed point of the existence of nervous electricity as they were in perfecting a fool-proof artificial leg.

**Investigate Nutriculture**

An intensive study of the possibilities of nutriculture as a means of providing fresh vegetables and certain fruits for troops stationed in locations throughout the world, where normal culture would be impossible will be conducted by the Quartermaster Corps, the war department announced. Nutriculture, known also as hydroponics, soilless culture and chemical gardening, consists of growing vegetables and fruits in sand, gravel, volcanic cinders or other inert materials with the chemical elements necessary to produce growth contained in an aqueous solution. During the war, several nutriculture units were operated on isolated island posts with the purpose of supplying fresh vegetables to the troops stationed there. A number of experimental gardens were maintained on Pacific islands and on an island off the coast of South America. The Zone of Interior Unit, including an experimental garden and laboratories, was conducted at Pratt General hospital, Coral Gables, Fla.

**Cold Meat Broth**

Meat broth or any clear soup made of meat and vegetable juices is a popular first course for dinner the year around. Generally it is preferred piping hot in winter and cold and jellied in summer. The following suggestions for making it to serve cold are offered by a food specialist. When served cold, many people like a little more seasoning or more concentrated flavor. Added flavor may be given with a bit more salt, and a touch of spice, or fresh herbs. True consommé is made of several different kinds of meat which give it a characteristic blend of flavor. Many people like tomato juice and meat broth combined and jellied. Jellied broth is most attractive when it is served clear without a trace of fat. To remove fat from meat or chicken broth, first strain the hot soup and let it cool. Then skim off the hardened fat from the surface.

**Acute Mastitis**

Injuries to teats and udder frequently cause acute mastitis in dairy cattle. Damage to the teat opening and canal may allow infectious agents to enter or may increase the activity of bacteria already present. Consequently all measures designed to eliminate teat and udder injuries pay dividends in improved udder health. Each herd presents a different problem, but some things to guard against are cuts and bruises caused by loose fencing, trash piles, machinery in lots and pastures, insufficient bedding, overcrowding, excessive or rough milking by hand or machine and use of milk tubes and teat plugs.

**Changing Styles Do Not Affect Home Decoration**

Although new colors, patterns and designs in home furnishings are emphasized from year to year, there is no rigid and quick-changing "style" in home decoration in the same sense as there is in feminine millinery and clothes, professional decorators point out. A home is a permanent affair; when the decorative motif is set, it remains for years. If the arbiters of home decoration say that Persian blue is the color mode of the year, homemakers don't feel obliged to redecorate immediately. Or if the furniture manufacturers are featuring round dining room tables, families do not scrap the square tables in their homes.

This absence of "style" in home decoration is easily visualized. Suppose a woman has a breakfast desk in the living room, a reproduction of a type popular during the hoop-skirt era. The breakfast, mingling with modern pieces, adds charm to the setting. The homemaker is very proud of her possession. But she would feel very self-conscious and ill at ease if she greeted her guests in a hoop-skirt.

Smart women do not worry much about current style furnishings but decorate their homes to achieve gracious living in the modern spirit according to their own concepts of cheerful, pleasing surroundings. Furniture and decorative accessories of older design are mingled freely with modern designs to achieve convenience and comfort.

**Good Planning Will Ease Task of Preparing Meals**

One hour of good planning will make your meals go smoothly for you. Check these points as you plan them:

Heavy, well-balanced meals are needed by active workers.

Be sure your daily menu calls for milk, eggs, green and yellow vegetables, meat, cereal, fruits and sweets.

Do not serve too many foods at one meal. But have plenty of what you do serve.

Cook and season the food so it is tasty and serve it nicely—nothing fancy, but clean and attractive.

Peel enough potatoes in the morning for the entire day. Fix other vegetables early too.

Make biscuits the night before. Keep them cool and bake them in the morning.

Use your pressure cooker. It is good for less tender cuts of meat, dry beans and other vegetables. Brown the pressure-cooked meat in the oven 15 minutes before serving it.

Cold meat for supper is good if you cook enough in the morning for two meals.

Have your equipment ready, sharpen your knives, get out your large kettles ahead of time.

**Controlling Chiggers**

Dusting sulfur over lawns and grassy places will help materially to control chiggers. One pound for every 800 to 900 square feet should be used. To keep from being bitten by chiggers, a person can dust sulfur into his socks and use a sulfur ointment on his ankles and legs. Some of the new repellents now on the market are not so messy as the sulfur ointment and are free from displeasing odors, say specialists, who recommend their use also. If a person caught without repellents will take a hot bath, using plenty of soap, within a few hours after exposure, he will likely get rid of the chiggers. External applications of acetone or alcohol to chigger bites will sometimes reduce the irritation. Scratching may lead to serious infection and a prolongation of the irritation.

**Clear Shrimp Mystery**

Prior to 1937 scientists knew that microscopic shrimp appeared in the Gulf coastal waters throughout the spring and summer. Growing to a length of as much as five inches in a few months, they disappeared at spawning time, and were not seen again. The mystery was: What became of the adult shrimp after spawning? It was found that shrimp that escaped the trawlers in their early months moved farther offshore to commit their countless eggs to the waters less than a day before hatching time. Continuing their seaward journey, they reached the shoals that are their retirement haven. There they were found to complete their life cycle of 12 to 18 months, sometimes growing to the jumbo size of 14 inches, but never spawning again.

**Cows Prefer Quality**

Long ago, cattle raisers observed that cattle eat more high-grade hay than they do low-grade hay. The more feed value cattle get from home-grown hay the less they will have to get from more expensive purchased grain feed. So it is important for farmers to learn how much more high-grade than low-grade hay cattle will eat. Figures from some trials the department of agriculture made over a three-year period at Huntley, Mont., show that Holstein cows ate U. S. No. 3 alfalfa hay at an average rate of little more than 33 pounds a day. But when fed U. S. No. 1 alfalfa hay, the cows ate more than 40 pounds a day. Stated another way, the cows ate over 20 per cent more of the high-grade alfalfa hay than of the low-grade.

**Food Enrichment Program Improves National Nutrition**

The enrichment of flour, bread, cereals and other food products with vitamins and iron has been carried out extensively for a number of years as a sound, practical and inexpensive method for the achievement of better national nutrition. This practice has been promoted by the food and nutrition board of the National Research Council, particularly for products which are relatively inexpensive and consequently consumed extensively by low income groups whose diets are most in need of enrichment. In cases where it was believed necessary to relieve widespread dietary deficiency enrichment has been made mandatory by both federal and state legislation.

The nutrients most commonly added to bread, flour and cereal products are vitamin B1 (thiamine), vitamin B2 (riboflavin), niacin (nicotinic acid) and iron. The vitamins are usually added in the synthetic crystalline form; the iron supplement may be in the form of reduced iron.

The usual enrichment practice consists of adding a relatively small proportion of a high-potency preparation of the vitamins and iron such as a flour premix, corn meal premix or bread enrichment wafer, to the unenriched product and mixing thoroughly. The desired level of enrichment is attained by control of the amount of high potency premix added.

**Brazil's Wildest Indians Make Overtures to Whites**

Long wooed by gifts dropped from airplanes, Brazil's wildest tribe of Indians — the little-known Chavantes — has made its first friendly overtures toward the white man. Representatives of the tribe are reported to have brought gifts to a government mission.

The Chavantes occupy a rich section of Mato Grosso province, in the isolated interior of the country, says the National Geographic society. They crossed the Araguaia river almost a century ago, settling along a west bank in the vicinity of the Rio dos Mortes (River of Death) and the Rio Crystallino. Travelers rarely have visited their communities.

Photographic studies from airplanes show that the Indians build circular huts of palm thatch, about 30 feet in diameter, with arched roofs rising to 10 feet and more at the center. Their settlements are semi-circles of huts, with the bachelors' hall or men's club in the center. Ample space is left within the circle for council meetings, dances and other festivities. The people are estimated to number 3,500. They wear no clothing and stripe their bodies with paint. One Indian tribe calls the Chavantes "Curcurton," meaning "unclothed."

**Boilermaker's Ear**

"Boilermaker's ear," a condition in which the hearing may be normal or nearly normal in the middle and lower ranges of sound but cannot register high pitched tones, is a widespread impairment, resulting generally from long-continued exposure to noise. Foundrymen, riveters, welders, boilermakers, punch press operators, and tractor operators are often victims of this ailment. Elevator operators in high buildings are also subject to it. This ailment is being intensively studied by many large concerns, with brief regular rest periods found of preventive value. The ailment also crops up mysteriously among persons with no history of exposure to noise. Many persons with this trouble are unaware that a part of their hearing range is impaired or gone; they often fail to hear a telephone bell or even a warning siren, if it is pitched within their "lost" hearing range.

**Waterproof Fabrics**

Waterproof fabrics have been known for a number of years, and undoubtedly will increase in number and popularity, for civilian use. Shrink-proof wool, developed during the war and used especially for shrink-proofing servicemen's socks, has already appeared in limited quantities for civilian socks. Other wax and plastic treatments, offering a variety of effects, are gradually appearing. Wax rinses will make washable fabrics resist soil and dirt and shed water. Plastic coatings can be used with almost any fabric, and may be woven, knitted, braided, twisted or crocheted and made into draperies, upholstery, slipcovers, curtains, shower curtains, handbags, shoe fabrics and fashion accessories.

**Source of Pectin**

Sugar beet pulp is a rich source of pectin commercially used in the preparation of jams and jellies and also in the field of medicine. The pulp, now used as a stock feed, is richer in pectin than are other sources such as citrus fruits, apple pomace or quince, it was disclosed. Purified beet pectin is identical with citrus and apple pectins in chemical composition, researches disclosed. It differs from them in that it does not form as brilliant and strong a gel with sugar, water and acid. The explanation for this has not yet been determined and active inquiry is underway to provide what may be the key to open an as yet closed treasure box.

**THE DOOR IS STILL OPEN TO YOU!**

Realizing that there are undoubtedly many who have not yet given to the Area Living War Memorial Swim Pool Fund, for some reason or another, but who will want their name on the final list of donors, the committee in charge has decided to "hold the door open a little longer."

Frankly, there is on hand at this time sufficient money to assure the completion of this project — but a little more added here and there would permit the installation of better bath houses and nicer equipment throughout.

In a permanent installation of this type, the more refinements that can be added the better. So, "the door is still open."

If you wish your name on the list of donors, any Commercial Club member will be glad to receive it and issue a receipt.

Do not feel that a gift today will not be appreciated — for it will be!

We are prompted to sponsor the above ad. through our desire to serve the best interests of our community in every way.

**Hoof and Mouth Disease**

These days warnings are being issued right and left about that foot-and-mouth disease which has broken out in Mexico.

The American Veterinary Medical Association even goes so far as to warn all cattle raisers to take special precautions if many Mexican laborers are shipped up this way. It's known that the germs of this deadly disease can be carried on the skin and clothing of human beings, as well as by livestock and meat shipments. Deer, wild hogs and other cloven-hoofed animals can also spread the disease.

Of course, our government clamped an embargo on the shipment of Mexican cattle into this country just as soon as the disease was identified below the border. However, some infected cattle were most likely shipped into some of our southern and southwest states before the border was closed.

This is one of the main reasons why so many authorities are urging all of you folks to keep a sharp look-out for signs of hoof-and-mouth disease and if you see anything that even remotely suggests the malady report at once to veterinary authorities.

**To Hold P. E. Meeting**

School superintendents and instructors from ten north Idaho counties will convene at the U. of I., Moscow, Saturday, March 29, to discuss problems of health and physical education.

Leon Green, associate professor of physical education, is in charge of the meeting, which is being jointly sponsored by the university health

service, school of education and department of physical education.

The meeting is being held, Green said, "to reorganize health and physical education associations in Idaho Districts 1 and 2, and to initiate action for the reorganization of the state association."

**Watch Out For Cattle Lice**

Remember, this is the time of year to get after those cattle lice — if there are any on your cattle.

With the cooler weather of early winter, this is the time when the lice begin to be troublesome problems for some livestock raisers. There's quite a bit of interest in a new veterinary research report that explains the seasonal nature of this kind of infestation.

It seems that in the direct light of the summer sun, a cow's hide gets so hot that all but a few of the hardest lice are killed. Some of these parasites, however, find shelter in shady spots, such as the ears or behind the lower parts of the cow's bodies. Then, when the weather cools off, these survivors get busy multiplying and the infestation gets bad. Cattle lice can be a serious problem. They cut down the animal's vitality, and, of course, curtail growth as well as milk production.

**In Memoriam of Grandma Brammer**

About 49 years ago I met a friend in Idaho; When she was of the age of forty and some In the pleasant village of Cameron.

She was good and helpful and kind. To share the good things she could provide, With her three sons as one of her own.

As neighbors later we lived side by side, In the kindest harmony and neighborly peace;

Cheerful greetings daily were exchanged as time passed by, And mutual helpfulness on that could we rely.

Although we had to part as destined by fate, Our friendship never ceased though far away,

She in Idaho and I in Iowa, Greetings were exchanged on every birthday.

But now she has passed on at the age of ninety six, Beyond human time to eternities' bliss, For this can I vouch without a doubt,

As she clung to her Savior and relied on his word.

A new birthday is hers in the land of pure delight, To enjoy the glories that are prepared on high;

She belongs to the host in the mansions above, Who have taken possession of that which has been prepared for them in love.

We shall not mourn her departure but delight, For she belongs to the multitude clad in white;

Who with palms in their hands rejoice around the throne, Of Jesus her Savior who called her now home.

—Rev. Gustav Meyer, Merrill, Ia.

**Include ELECTRICAL LIVING in your plans**

Plan definitely for the "basic three" in your home:

1. A modern electric range . . . for a clean and gleaming kitchen . . . for delicious foods cooked to perfection---automatically---while you're out.
2. A new electric refrigerator . . . to keep food fresh and safe, cut down bills.
3. Electric water-heating, absolutely automatic . . . carefree. "Install it and forget it."

Some things you may have to wait for---but it's never too early to plan!

PUBLISHED BY THE KENDRICK CO-OPERATIVE CREAMERY

## HELLO, THERE, FOLKS:

**About Those Baby Chicks:**  
We are still taking orders for baby chicks, so hurry and place your order. The hatchery is filled up until April 15th, as Erving's Chicks are very much in demand. However, if you order now, you can still get them by the latter part of April. For the best in chicks, order Erving's Winlock Hatchery baby chicks. The prices are as low, or lower than you will find anywhere else. — So, place that order with us now — today!

**About DDT:**  
We have a complete line of Miller's DDT on hand, so if you are planning your spring house-cleaning be sure to get your supply, and free your buildings from flies and insects. For lasting results always use Miller's DDT — it's the best in the west.

**About That Cream:**  
Remember, we are always in

the market for your cream and eggs. Bring it in often, for as the weather warms up, danger of spoilage increases.

The jury had just brought in a verdict of acquittal in a very sensational murder trial. The judge frowned, adjusted his robe, and snapped: "What possible reason can this jury have?" The foreman responded: "Insanity, Your Honor." The judge leaned forward: "All twelve of you?"

"Pop, why do you sign my report card with an 'X'?"  
"I don't want your teacher to think anyone who could read and write would have a son as dumb as you!"

A sign in the window of a mid-western beauty parlor reads: "Don't whistle at a girl leaving here. It may be your grandmother."

## NEWS ITEMS ABOUT LELAND RESIDENTS AND FRIENDS

Mrs. Herman Meyer accompanied Mr. and Mrs. Marvin Silflow to Spokane Friday returning home Friday evening.

Mrs. Charles Craig and sons Dale and Darrel were Thursday afternoon callers at the Jesse Thornton and Roy Craig homes.

Mr. and Mrs. Donald Morgan and son Roger were Sunday dinner guests of Mr. and Mrs. Charles Hoffman.

Mr. and Mrs. La Verne Williams were Sunday dinner guests of Mr. and Mrs. Jesse Thornton.

Mr. and Mrs. Robert Draper, Ervin Draper and John Vincent were Sunday dinner guests of Mr. and Mrs. Billy Deobald at Moscow. The occasion being Mrs. Deobald's birthday anniversary. Mrs. Chester Vincent accompanied them to Moscow and were guests of Mr. and Mrs. Wm. Rogers.

Mr. and Mrs. Fred Heinje and daughters were Sunday dinner guests of Mr. and Mrs. Leonard Wolff.

Mr. Amos Spekker and Vern Spekker were Sunday afternoon callers in the home of Mr. and Mrs. Walter Silflow.

Mr. and Mrs. Herman Johnson, Mrs. Betty Johnson, Mr. and Mrs. Onay Walker and son Neal were supper guests Thursday of Mr. and Mrs. Harry Smith, the occasion being Mr. Walker's birthday anniversary.

Mr. and Mrs. Charles Decker and Charles, Mr. and Mrs. Robert Olsen, all of Spokane, Mr. and Mrs. Raymond Hudson and son David and Mr. and Mrs. Gordon Peters and daughters and Elmer Peters were Sunday dinner guests of Mr. and Mrs. A. G. Peters.

J. M. Woodward and Mr. and Mrs. Harry Smith and sons were Sunday dinner guests of Mr. and Mrs. Onay Walker.

## LINDEN

The pie social and program held at the hall Saturday evening was a very pleasant event, and a financial success. The sum of \$113.00 was realized from the sale of pies, auctioned off by Clarence Weaver. The money will be used for improvements in the cookhouse. Roy Ramey, Kendrick, sang several numbers, accompanied on the piano by Mrs. Ramey. Frank Lyons and Arthur Foster played a number of violin selections, accompanied on the piano by Mrs. George D. Calvert. W. R. Johnson showed two sets of moving pictures. All the entertainment was greatly enjoyed. Those in charge wish to thank everyone for their help in co-operation in making this event the fine success it was.

W. R. Johnson of Lewiston and Mr. and Mrs. George D. Calvert of Liaetta were Saturday night guests in the home of Mr. and Mrs. Clem Israel.

Mrs. E. L. Mitchell of Polson, Mont., arrived Wednesday for a visit with her sister, Miss Eva Smith.

Mr. and Mrs. Fred Zimmerman of Kendrick and Mr. and Mrs. Rollin Armitage and children of Southwick attended the pie social Saturday evening.

Mr. and Mrs. Arthur Foster have made several trips to Lewiston, where Arthur has had his eyes treated.

Mr. and Mrs. Al Pederson and family were Sunday dinner guests in the home of Mr. and Mrs. Frank Lyons.

Miss Pearl Brown was a dinner guest in the home of Mrs. Annie Weaver, Sunday.

Mr. and Mrs. Claud Pippinger and

Mr. and Mrs. Edgar Bohn and daughter of Orofino spent Sunday with Mr. and Mrs. Arley Allen.

Clem Lyons returned Friday evening from Monrovia, Calif., where he has been visiting.

Mrs. Sylvester Konen visited on Monday with her mother, Mrs. Riley, at Pine Creek.

Stewart Wilson and Sanford Weaver are grading the roads this week.

Mrs. Clem Israel went to Woodland, Wash., Sunday, for a visit with her daughter, Mrs. James Cuddy and family.

## GOLDEN RULE

Mr. and Mrs. Oscar Laurence and family were Lapwai visitors Sunday. Grandma Laurence spent the day with her son, Alex, and family. Mr. and Mrs. Abner Cowger and family were Coeur d'Alene visitors Wednesday.

Anna Kazda went to Orofino Saturday, where she has employment.

The Oscar Laurence family and the D. V. Kuykendall family attended the show and dinner at Kendrick Thursday of last week.

Mrs. Glen Betts is nursing a cracked rib, which she received in a fall last Monday.

Mrs. Abner Cowger visited with Mrs. Glen Betts Sunday. Chester Martin and Vivian Rugg received a marriage license in Moscow on Thursday, March 13.

Fred Stage is feeling better, after spending the past week entertaining the flu.

Carl and George Finke, Jr., left Monday on a business trip to Seattle.

The Ernest Cowger family and Mr. and Mrs. W. A. Cowger spent Sunday at Harpster, with the Frank Cowger family.

Donna Walcott is back in school after a week's absence, due to the flu.

Mr. and Mrs. Carl Finke and family were Sunday guests in the Loyd Ware home in Kendrick. Ivorah Hoisath of Lewiston spent the week-end at the Fred Stage home.

Mr. and Mrs. Ishmael Martin, Mrs. Roy Martin and Mary Jane of Lewiston spent Saturday night and Sunday at the Martin home here.

Mr. and Mrs. Wm. Cuddy, Mr. and Mrs. Wm. Sherman and "Buck" Heminger were Lewiston visitors on Tuesday of this week.

## SOUTHWICK NEWS

Mr. and Mrs. Charlie Harris and family were Sunday dinner guests of Mr. and Mrs. Jim Ailor, at Deary.

Mr. and Mrs. Don Cantril and daughter spent Sunday in the home of Mrs. Annie Longteig.

Mr. and Mrs. Virgil Harris were business visitors in Spokane Monday. Barbara Perry spent the week-end with girl friends in Kendrick.

Mr. and Mrs. Gordon Harris were Sunday visitors in the home of Eva Smith at Linden, Sunday.

Mr. and Mrs. Elton McCoy and Mr. and Mrs. Denzil Kuykendall entertained at a pinochle party Saturday evening. High scores went to Mrs. Clara Candler and Darwin Tarry; lows to Given Mustoe and Mrs. Darwin Tarry.

The Homemakers Club will meet March 26th with Mrs. Tommy King.

Mr. and Mrs. Darwin Tarry called on Mrs. Emma Tarry at Cavedish, Sunday.

## Watch Hog Litters

In view of the way hog prices have been acting lately, this little item in Hoard's Dairyman should be of special value.

"The policy of letting pig litters run together, regardless of age, is unsound. Harry Moxley, extension specialist in animal husbandry at Michigan State College, says the older pigs rob the younger animals of food.

"He cites an example of two litters born on March 1 of last year. A week later, another litter was born. They were all allowed to run together with a feeder available. At the 56-day weighing period the two older litters averaged 44 and 55 pounds each. The pigs from the younger litter averaged but 28 pounds. All the pigs were from similar stock, but the older pigs "robbed" the younger animals of their share of the feed.

This specialist advises separating litters even when there is just a few days' difference in age."

## Name Given Hog "Jitters"

Veterinary science has just given a new name to the mysterious disease that causes jitters in baby pigs.

Until now, the condition has been variously described — under such names as "jitters," "shivers," "shakes," "trembles," and "dancing pigs." The other day veterinary journals announced that authorities at the University of Minnesota have given the disease a two-word scientific name — Myoclonia Congenita. The cause remains unknown, but the condition is characterized by severe muscular spasms, especially in the legs and shoulders. Some pigs recover within six weeks, veterinarians say, but mild symptoms may continue for over a year. Intensive work is under way to try to find a solution to the problem, which is now costing farmers many thousands of dollars a year.

Remember — There are no parking meters on Kendrick's streets. It's merchants and businessmen welcome you.

## This Makes Your Motor Last Longer

Let us show you how a Fram Oil and Motor Cleaner gives your motor two important kinds of protection. (1) It removes grit and abrasive particles. (2) It impedes the formation of acids and corrosives. If your car does not have an oil filter—we'll install a Fram in a jiffy. If it does, we'll install a Fram Replacement Filter Cartridge which gives you the benefits of Fram's Extra protection. Drive in today.

# Going To Raise A Garden?

OUR GUESS IS THAT YOU ARE — PROBABLY A BIG ONE!

If such is the case, you will find our displays and selection of garden seeds will meet your every requirement.

We cannot say exactly what the seed situation may be at a later date — so recommend an early selection. They won't spoil between now and planting time.

## In The Meantime:

SOUTHERN-GROWN FRUITS AND VEGETABLES ARE BECOMING MORE PLENTIFUL

And we are carrying as good a selection as the market affords. Shipments are received regularly — so you are assured of freshness and quality.

## STOCK FEEDERS

The unprecedented demand for flour for foreign shipment has caused an immense surplus of MILL RUN AND BRAN.

To help move this surplus, MILL RUN and BRAN are now being offered at very low prices.

As a result — MILL RUN and BRAN are the cheapest feeds you can buy!
