SHORT NEWS ITEMS FROM OUR LOCAL SCHOOLHOUSE

Kendrick Defeats Lapwai

Kendrick high school took a long step toward the Class B second district football title by trouncing Lapwai 20 to 0 in a game played at Lapwai Wednesday of last week. Both schools entered the game undefeated in league play.

The Tigers from Kendrick struck for the first touchdown in the middle of the second quarter, counted again in the third and got the remaining third one with 28 seconds remaining in the game. The Tiger aerial attack set up all three touchdowns after the scoreless first quarter.

Robert Ware turned in a thrilling run around his own left end in the third quarter that was good for 65 yards and a touchdown as he streaked along the sidelines. The first touchdown came as a result of a 25-yard pass to Gordon Cook and a 15-yard run.

The final touchdown resulted from a sustained 55-yard march by the Tigers with mixed ground and aerial plays. Clinton Smith took the ball over from the six-inch line.

Lapwai threatened four times during the game but could not reach pay dirt when the Kendrick forward wall stiffened inside the 20-yard line. First down showed Kendrick with 11 and Lapwai with 9.

Brocke, Thornton and Easterbrook sparked the Kendrick attack while Flechner and Wilson were the spark-plugs for the Lapwai Wildcats.

Kendrick defeated Genesee on the Genesee field Tuesday afternoon of this week in a conference football game by a score of 25-12.

Kendrick's Tigers received the ball on the 40-yard line and they made four successive first downs to score — Thornton carrying the ball over for the first touchdown and six points, but the try for conversion was blocked.

Genesee took the ball on the five-yard line and started to throw a pass, when Jack Mustoe and Clarence Alexander knocked the ball into Douglas Christensen's arms and he made a touchdown. The kick for point was wide.

Thornton went through the line for another six points and Gordon Cook ran the ball over for the extra point.

Bob Ware carried the ball around the left end for another six points, but again the try for conversion failed — the score at the end of the half reading 25-0 — Kendrick.

The second squad took the field at the beginning of the third quarter and played all of that, and part of the fourth quarter. Genesee scored on a pass in the third quarter and again in the fourth quarter, to give them 12 points.

Seventh And Eighth Grades

The seventh and eighth grades went out doors and painted pictures of the trees they saw. Monday they are becoming real artists. Yell leaders were chosen this week as follows: Shirley Travis, Judy White and Doris Shreffler. Many of the students have composed new yells and the leaders are checking through them and getting ready to teach the best to the group.

Some of the seventh graders have finished making models of fur trading posts for Idaho History. Others have made attractive charts showing the missionaries who established stations in Idaho and their respective dates.

Fifth And Sixth Grades

Those receiving 100 on the six-week spelling test in the sixth grade were Sylvia Herr, Janice Christensen, Donna Kanikkeberg, Joyce Armitage and Arlene Maynard. In the fifth grade Frances Dammarell received 100.

Third And Fourth Grades

In the third and fourth grades Junior Westendahl and Jack Easterbrook had perfect lessons in Spelling for the first six weeks, so they did not have to take the test. Sheila Westendahl in the fourth grade also had a perfect record.

First And Second Grades

The first and second grades made "leaf men" out of regular leaves, and filled in the details with a pencil. The second graders were reading about fire trucks, when a fire drill was called.

Getting Ready For Business

The last two of E. A. Deobald's big oil storage tanks arrived Friday of last week by transport truck, and are now perched on their concrete foundations, the job of "squaring them with the world" and installing piping is now occupying the lime-light. On Tuesday the truck for his delivery arrived — and now it too must be fitted with tanks.

The big aluminum-colored cylinders present quite a "forest of tanks" appearance.

Wins Two Firsts At Portland

Howard Wolff, Kendrick won two first prizes at the Pacific International Livestock Exposition last week in Portland. His Poland China barrow took champion honors and his pen of four hogs was the best on display in judges' opinions. The pen won reserve champion prize against all other entries, the Poland China third.

Wolff sold his champion hog to Carson Packing Co., Portland, for \$150 per pound. It weighed 193 pounds.

His pen of four, which won top Idaho honors, weighed 800 pounds and brought 55c a pound from Lewis Bros., Portland.

Howard shared these honors with his brother, Walter, as Walter was the owner of the Poland China barrow.

The mothers of these pigs were purebreds, purchased last year from the U. of I., and brought blue ribbons at the fair in Lewiston last year.

THREE LOCAL VEHICLES INVOLVED IN CRASHES

Lawrence F. (Larry) St. Marie, 37, one of the owners of the Ilo Club at Craigmont died at St. Joseph's hospital at 5:00 a. m. Sunday of injuries received four hours earlier when the car he was driving collided with a truck on the North & South highway between Spalding and Lapwai.

In reconstructing the tragic happening Lt. Bob Love, state police, who joined Deputy Sheriff Earl Wormel and State Traffic Officer George Pierce in the investigation, gave this version: A truck belonging to Sam Nye, Juliaetta, and driven by Harry Groseclose, backed off the highway on a straight-away and landed in a shallow ditch. Groseclose arranged for another truck to pull the vehicle back onto the highway. The rescue truck arrived with "Shorty" Whipple at the wheel. Whipple was arranging to hook a cable to the truck driven by Groseclose when the St. Marie car was seen approaching from the distance. To guide traffic around the Groseclose truck Deputy Earl Wormel and two others used flashlights. Lt. Love said the St. Marie car crossed the center stripe by two feet and hit the rear of the Whipple truck, knocking it 46 feet. The truck was damaged about \$700 and the sedan driven by St. Marie was demolished.

Lt. Love said that the impact was so great that the windshield and hood of the St. Marie car rested in the back seat.

Ward-Merz Collision

Cars driven by Pete Ward, 720 16th Ave., Lewiston, and Melvin J. Merz, Kendrick, collided at 10:00 p. m. Saturday on the North & South highway one mile east of the Lewiston city limits. Merz escaped with a cut lip and his wife, (nee Barbara Stedman) a passenger, had one tooth knocked out.

The accident resulted from bright lights interfering with the vision of Ward, officers said. The third car involved was driven by Vernon McPherson, Lewiston. Lt. Bob Love, state police officer said Vernon was unable to regulate the lights on his car. This blinded Ward and caused him to cross over the center stripe about three feet to collide with the car driven by Merz. Each car was damaged an estimated \$150.

Weaver Car Wrecked

Early Saturday evening the Oldsmobile sedan belonging to Ellsworth Weaver, with Walter Zimmerman of Kendrick driving and Mrs. Weaver as passenger, was wrecked two miles beyond Anatone, Wash., on the Grand Rhonde road, when it left the highway, struck a stump and then rolled over. The exact cause of the mishap is unknown — but Mr. Zimmerman and Mrs. Weaver escaped with minor injuries.

Mr. Zimmerman was driving Mrs. Weaver to Troy, Oregon, where she planned on visiting her sister. The car was almost a total wreck, and how the occupants escaped serious injury is not known.

Big Strike Ends

The 67-day old strike of the International Woodworkers of America (C. I. O.) against Potlatch Forests and other logging and lumber companies in the Northwest, ended on Monday night of this week, and for the first time since the strike started, night crews were at work in the big P. F. I. mill at Lewiston.

P. F. I. payroll records showed that wage losses for the strike-bound period would run approximately \$871,850. These figures were based on records for the period in 1947 before the strike began.

Company production records revealed that the loss in lumber was approximately 35,000,000 board feet. Using a contractor's estimate that it takes about 10,000 board feet of lumber for a six-room house, this would be enough lumber for approximately 3,500 houses of that size.

Our Note: While we do not doubt the company figures on wage and production losses so far as they are concerned, we do not believe the wage loss will run near their figure, for many of their employees took other jobs while the strike was in progress, many of them being employed in local mills and timber operations.

Purchases Building Lots

Walter Sparber purchased two lots on the hill behind the Community church a couple of weeks ago and has been busy the past few days cutting and burning the accumulated brush and debris on them in preparation for building a home.

The late Linda Hamley home once stood upon one of them.

Charged With Killing Horse

Orofino, Oct. 11 — Wesley Hochrien, 42-year-old Lewiston mill worker, was in the county jail here tonight after a hunting accident that resulted in killing a horse ridden by Kenneth K. Dehnert, Lewiston, and wounding Dehnert in the leg.

The shooting occurred at 11 this morning, two miles beyond the Cedars ranger station on the north fork of the Clearwater river, 40 miles east of the Bungalow.

Mochrien appeared voluntarily at the jail tonight at 7:00 after Dehnert had signed a warrant charging him with "shooting and killing a horse and shooting a man." The deputy sheriff said the offense was being considered a misdemeanor.

Hochrien, according to the deputy was hunting with three companions when he saw Dehnert on horseback several hundred feet below him, mistaking the horseman for an elk. Hochrien fired one shot with his .345 Winchester rifle. The bullet, coming from above, passed through the horse's head, shattered into three pieces and struck Dehnert in the left leg below the knee.

Note: This case is of considerable interest to local residents because at the time of the shooting Dehnert was accompanied by Russell Smith of the local Soil Conservation Service, and the two men were sitting on their horses "winding them" as they ascended the steep hillside. Russell says that when something of this kind happens in your sight "you really get a funny feeling."

Sunday School Party

Mrs. Ross Armitage entertained her Sunday School class with an out-door party Monday evening at her home. The yard was made festive with lighted Japanese lanterns hung around the out-door fireplace. A weiner roast and picnic lunch was enjoyed by the group, after which games were played.

Those present were Donna and Ann Kanikkeberg, Joyce Armitage, Nancy Callison, Beverly Mattoon, Verna Knox, Arlene Maynard, Jimmy Travis, Ann White, Francis Dammarell, Sylvia Herr and Dawn Marie Nelson.

Study Class Held

The W. S. C. S. Study Club held its first meeting at the home of Mrs. J. H. Coulter last Friday afternoon. Mrs. E. O. McAllister of Juliaetta is teaching the class. The book being used at present for study, is "The Great Prayers of the Bible."

Weather Like Spring

Local weather the past ten days has been just like that of spring — warm, generally sunny days, with a bit of rain or a heavy dew each night.

The hills about town are the soft, velvety green of spring, meadow larks and robins can be heard, and wild flowers of several varieties can be found in bloom. Pussy willows are also said to be showing sprouts beneath their present green leaves.

Farmers say the ground is just a bit too wet for fall plowing, but seeding is moving at a good clip and other fall work is also progressing.

Some beans, clover and wheat still remain in this area — but hopes are still held out that they can be saved.

SALES DAY DISPLAY LISTS NOW COMPLETE

The local bowling alley has received its polishing in preparation for its use for agricultural displays Sales Day — next Saturday, October 18, when the following prizes will be offered:

All entries must have the owner's name and address attached and must be registered at the Kendrick Cafe on or before Sales Day. All entries (with the exception of the roosters) become the property of the Kendrick Commercial Club, which in turn will auction them off at the conclusion of the regular sale for the benefit of the Living War Memorial Swim Pool Fund. In case of a tie, the prize money will be divided equally.

Entries for Exhibit may be left at the Kendrick Cafe prior to day of exhibit if so desired.

Bring in your articles for the displays and the Big Free Auction Sale. Spend the day visiting and comparing notes with your neighbors. See the Flower and Agricultural Exhibits. Auctioneer Glenn predicts a big crowd and many items for the sale. Norla Callison will be the sale clerk.

The Auction Sale will take place on the street between the Red Cross Pharmacy and the Kendrick Cafe — or, if the weather is inclement, in the Kendrick Auto Freight depot. Farmers are asked to bring in their articles in sufficient time to have them listed by Ira Foster or Edgar Long at the City Hall — so bring them in any time you feel like it.

And — In the afternoon there will be a football game on the local grounds between Kendrick and Genesee. And, if you don't like football, Schupfer Bros. are putting on a free show in the local theatre. And — that evening, there will be a big dance in the High School gym., with Harvey's Orchestra of Spokane furnishing the music.

And — of course, as is the custom, the Kendrick merchants will have many Sales Day Specials to offer you. Scan the ads. for these items.

It's just one big day — plan to take advantage of it.

Upsets 'Half A Truck'

Bud Harris had a very unusual experience Tuesday morning while hauling gravel for the Kendrick Highway District in one of their trucks.

Bud had the dump bed hoisted up and was spreading gravel on the road going into the Clarence Dougherty home, when suddenly he found the truck cab leaning over against the bank, prevented from tipping further by the steepness of the pitch. He crawled out of the cab and investigated — to find that the frame of the truck had broken on one side, and the other side twisted over, following the tilt of the cab.

After getting rid of the load he was able to jack the two sections together close enough to apply "hay wire" and drove the truck back to town under its own power.

Calls Family From Tokyo

Sunday evening Bernard (Buddy) Langdon called his parents, Mr. and Mrs. Harry Langdon, from Tokyo, where he is a member of the army of occupation. The main purpose of the call was to wish his mother a happy birthday — it being her birthday anniversary. All members of the Langdon family at home were present and got to say "hello" to him.

The call came through at 7:00 o'clock Sunday evening — but it was Monday in Tokyo, there being 17 hours time difference.

GRAIN MARKETS MAKE EXTENSIVE GAIN DURING WEEK

Grain markets in the Pacific Northwest, reflecting the actions of other markets, covered a wide range and showed extensive gains during the past week, according to the Market News Service of the Department of Agriculture. Grain markets generally, throughout the country appeared very unsettled, reacting very readily to news out of Washington in reference to quantity of grain to be exported during this crop year, also the possibility of further deterioration of the corn crop. Cash wheat prices in the markets of this area fluctuated as much as 20 cents per bushel and at the close showed net gains on the export classes of wheat of from 12c to 13c per bushel for the week. At the high point in the market offerings from growers were reported to have been very liberal, especially from the Palouse country and northern Idaho, where selling up to this time had been slow, resulting in a rather large volume of business being worked.

The cash wheat market at Portland was very active with prices following the Chicago futures up and down, showing a spread of as much as 10 cents per bushel in a single day and a fluctuation of 20 cents during the week. The net gain for this period, however, was only 12c to 13c per bushel for the low protein wheats, and 9c to 11c for the higher milling grades. The Pacific Coast regional office of the Commodity Credit Corporation furnished the principal outlet for the low protein wheat, which reported purchases of 2,114,572 bushels. The milling interests appear to be more interested in medium and high protein grain.

Shipments for the week to the terminal markets declined sharply with 294 cars at Columbia river terminals and 452 cars at the Puget Sound terminals, compared with 418 and 463, respectively, for the previous week.

Bid prices at the Portland Grain Exchange were as follows: Soft white, \$2.58; soft white (no Rex), white club, western red, hard red winter, all \$2.59, basis No. 1 bulk, 15-day shipment, for coast delivery.

Wheat receipts at Ogden totaled 226 cars for the week with shipments of 23 cars to Los Angeles; 22 cars to eastern markets; 20 cars to Omaha; 15 cars to Vallejo, Calif., and 2 local. Prices quoted for hard white wheat were \$2.61, and for all other classes \$2.51 per bushel, basis No. 1 bulk f. o. b. Ogden. Prices generally quoted f. o. b. country shipping points averaged about 16c under Ogden.

The San Francisco wheat market strengthened materially during the week with prices advancing around 25c per 100 to the highest point on record. Sharp advances in other markets early in the week and slow local offerings contributed to the strong market tone. Offerings from shippers in the Pacific Northwest and Intermountain areas were small. Demand was not broad and mostly for immediate requirements, but offerings sold quite readily, particularly for needs of the central California feed trade.

In the Kansas City market cash wheat not only followed the advance in futures but high milling grades developed decided strength which resulted in 20c to 28c higher values on hard wheat and 13c to 25c increase on red compared with a week ago. At the close of the period the basis of trading was 3c to 3½c over December for ordinary No. 1, or \$2.80 to \$2.90½.

In the Minneapolis market cash wheat was a veritable powerhouse as mills and elevators scrambled for supplies, while government buyers took large lots off the market. In addition to a gain of 16 cents in wheat futures, cash premiums were up 9 cents, so that cash values were 25c higher than a week ago.

Dry, cool weather hurried maturity of corn in the main belt during the last week in September, and so far this month. Heavy frosts which occurred on a few mornings as far south as northern Iowa and the southern lake region, favored advanced fields, but caused some damage to immature corn.

World production of barley and oats in 1947 is estimated to be only about 6 percent below average, according to reports to the O. F. A. R. This year's oat production is estimated at 4,120,000,000 bushels, or about 3 percent below the 1946 crop; while barley at 2,222,000,000 is about 10 percent less than in 1946. The smaller oat harvest is due to a sharp drop in North America's output. In the southern hemisphere the harvest will not begin until the latter part of 1947, and production forecasts are based on the assumption of average yields.

Purchase Thomas Holdings

A deal was consummated some ten days ago whereby Andrew Cox of American ridge and W. A. Watts of Kendrick purchased the balance of the former Martin Thomas estate holdings on American ridge, approximately 640 acres of farm land and 160 acres of pasture being involved.

Mr. Cox purchased the land adjoining his, and Mr. Watts that lying next to the Wayne Davis farm. The considerations were not made public.

To Haul Bananas

Freight cars from the Blue mountains of Oregon started the journey to Honduras last week. The narrow gauge equipment, once used on the Baker to Bates line, has been sold and will probably haul bananas in Honduras. The freight cars passed through the Weiser railroad yards loaded on five flat cars.

Mrs. Otto Schuster visited with her mother, Mrs. Mary Deobald on Tuesday evening.

Hear Prominent Speaker

Dr. J. H. Coulter accompanied by Ross Armitage, Jordan Kanikkeberg and Jasper Nutting attended a lecture on "Atomic Energy" at the Anatonie Methodist church Tuesday evening. This meeting was sponsored by the Methodist Men's Crusaders group.

The after dinner musical program was provided by three ladies of Anatonie and a male quartet from W. S. C. Dr. Stevenson, professor of physics at W. S. C. brought a challenging message as he discussed "Atomic Energy." He dealt with two questions (a) "What Is Atomic Energy" and (b) "To What Use Shall Atomic Energy Be Put?" The second is the pressing problem now, for it can be destructive or constructive. The answer really lies with each of us. There is need that everyone give more attention to how to live with others and the general purpose of life. We must accent the genuine Christian outlook and attitudes. The matter is squarely up to each of us to see that this tremendous energy is used for peaceful purposes.

Relief Depository Changed

Seattle — Due to the increased volume of clothing given for overseas relief this fall, the United Church Relief depository is again located at 2247 East Marginal Way, Seattle, 4, Wash., Rev. Chester S. Ramsey, director, said today.

Sorting and baling of clothing was located in other quarters during the summer while the original quarters were being enlarged.

The depository serves as a relief clothing warehouse for Washington, Idaho, Montana, Wyoming and Oregon. Clothing is sent from churches in these states to the depository and from Seattle is shipped overseas to both Europe and Asia.

Junior M. Y. F. Meets

The Junior M. Y. F. of the Community Church held its first meeting at the parsonage Tuesday afternoon. The following officers were chosen: Donna Kanikkeberg, president; Ann White, vice president; Arlene Maynard, secretary; Ann Kanikkeberg, treasurer. After the meeting the group enjoyed an apple roast.

Future meetings will be held on Wednesdays, after school.

More Money For Burials

Ogden, Utah — An increase of \$25.00 in the maximum allowance to be paid by the War Department to the next of kin for final burial of World War II deceased was announced this week by Col. Graves E. McGary, commander of the Utah General Distribution depot, Ogden.

The increase raises the total maximum for interment expenses from \$50.00 to \$75.00.

Military escorts, who accompany remains from the distribution center to the final destination, will carry the forms on which the next of kin may list the burial expenses and request payment not to exceed the maximum of \$75.00.

If the cost of burial is less than \$75.00, next of kin will be paid the exact amount. But if the interment expense is in excess of the maximum allowance, the War Department will reimburse the next of kin in the amount of \$75.00.

Bodies To Arrive Soon

Ogden Utah (Official Dispatch)—Next of kin of World War II deceased being returned to the Intermountain area for final burial are advised there will be a considerable lapse of time between arrival of the repatriation ships at the ports of New York and San Francisco, and delivery of remains to the final destination.

The time factor, of course, will depend largely upon distances in the intermountain area. It is probable there will be as much as three weeks between the arrival of the repatriation ships at the ports of entry and delivery of the decedent to the final destination.

Every effort will be made to expedite the program, consistent with the various problems involved, and

next of kin will receive positive information as to date and time of arrival of remains at the final destination as soon as such information is available at the distribution center.

The first ship from the Pacific theatre will arrive at San Francisco October 10. The first ship from the E. T. O. is due at New York October 25.

The area served by the distribution center at Utah General Distribution Depot, includes the states of Utah, Colorado, Wyoming, Montana, Idaho, eastern Oregon and Nevada.

Double Season On Ducks

Duck hunting, the crowning event of the outdoor year for many sportsmen, offers a double-header to Idaho shotguns this fall. For the first time in history the shooting season

is divided into two parts. The first period is October 7 to October 20. The second half will be December 2 to December 15. Both periods to apply throughout the state, the game department said today. Seasons and regulations for hunting of ducks and geese are established by the federal fish and wildlife service.

Two major changes are called to hunters attention for 1947. The daily bag limit has been trimmed to four ducks. Shooting time on the opening day of each period will be 12:00 o'clock noon. On all other days ducks and geese may be shot from sunrise until one hour before sunset. Daily bag limit for geese is two. Possession limit for ducks is eight, including not more than one wood duck.

There are no local ducks in this area, so prospects for the first season appear nil. Prospects for the December period have been brightened recently by reports from the prairie provinces of Canada, where a large share of Idaho's ducks originate, that flocks are large.

An Idaho hunting license is required of every waterfowl hunter in the state. Every hunter 16 or older must have a federal duck stamp. Shotguns must be plugged to hold not more than three shells. Live decoys are forbidden.

Idaho Still 'In The Red'

Boise, Idaho, Oct. 8. — Idaho is still among the half dozen states shown in red on all national safety charts. This means that we are among those who have the highest per capita of accidental deaths in the nation.

We must all work to improve this situation through organized efforts to make all Idahoans more safety conscious — not only on the highways, but in everyday life. And with the hunting season fast approaching, and two accidental deaths already recorded — safety efforts

must be redoubled. It's up to everyone to do their part — and take Idaho "out of the red."

"Column Right"

The echo of the military command "Column Right" could almost be heard at the opening of the new Pine Hall cafeteria on the University of Idaho campus.

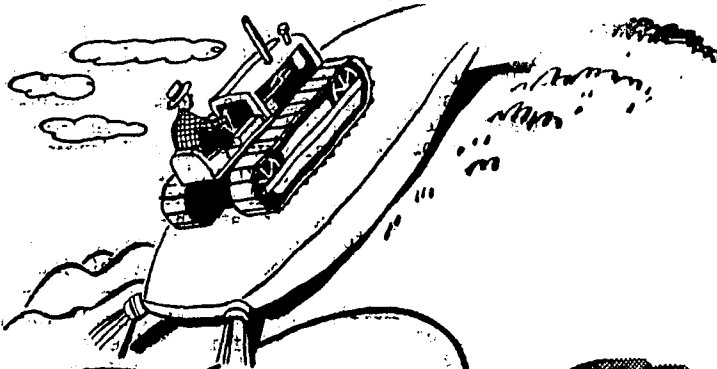

The line poised at the entrance waiting for the door to open was with the exception of a sprinkling of women students, predominantly ex-servicemen. Many of them still wore pieces of service uniforms. The dome roof, Quonset type building is a former military possession, and even the majority of the cafeteria equipment has seen former duty in an army kitchen or navy galley.

The military illusion ended when the door was thrown open by a motherly appearing dietitian. The line disappeared rapidly into the spacious interior to lose no time filling former army food trays at a long line of steam tables.

The cafeteria was built primarily to accommodate the occupants of near-by Pine Hall, another war surplus building housing 386 men. In addition to the men living in the hall, students from private residences in town, and women students from the Idaho Club are served at the new cafeteria.

Robert F. Green, director of dormitories, estimates that a maximum of 600 students can be fed at the cafeteria in the time allotted for each meal. Part-time student employees augment the services of the regular kitchen staff.

Fresh frozen vegetables of all kinds are to be found in the display case at Blewett's Grocery-Market in Kendrick — and they're Bird's-Eye, too. Try them. 1-adv.

HERE IS A 4-UNIT DIESEL FREIGHT LOCOMOTIVE NOW OPERATED BY 2 MEN (1 ENGINEER AND 1 FIREMAN)

2 BRAKEMEN AND 1 CONDUCTOR COMPLETE THE CREW OF THIS TRAIN [One brakeman usually rides in the locomotive in freight service]

—BUT THE UNION LEADERS WANT 15 EXTRA "SITTERS" ON THIS TRAIN . . . 3 ENGINEERS, 3 FIREMEN, 6 BRAKEMEN AND 3 CONDUCTORS . . . TO GO ALONG FOR THE RIDE AT FULL PAY!

It's to your interest to know about this proposed **feather-bedding!**

For sheer feather-bedding, this mock work proposal takes the cake. But it is only one of 44 "rules" demands filed by the leaders of the operating unions. If all these demands were granted, they would cost the railroads an added BILLION DOLLARS A YEAR.

Increased Wages, Too

On top of these "rules" changes, the leaders of the operating unions have filed an additional demand for a wage increase of over 30 per cent. If granted, this would be an added cost to the railroads of \$400,000,000 a year.

\$468,000,000 To Non-Operating Employees

In addition to this, an Arbitration Board has just granted a wage increase of 15½ cents an hour to the million employes represented by the 17 non-operating unions. This will cost the railroads \$468,000,000 a year.

Where Will The Money Come From?

Where will all the money come from to pay these increases? They total several times as much as the railroads made in 1946 or will make in 1947.

In July, the railroads filed an application for increased freight rates to close the gap which then existed between wage and material costs, and railroad revenues. Since then it has been necessary, because of further increases in wages and material costs, to supplement that petition and to ask for an additional freight rate

increase. No other course is open:

Railroads Do Not Run For Employees Alone

Railroads are operated for the benefit of not one, but several groups—shippers, passengers, employes, stockholders, and the general public. The interest of all must be served—and that cannot be done unless the railroads can operate efficiently and economically, and unless they are allowed to earn sufficient revenue to provide the kind of transportation service this country MUST HAVE.

**LOOK BEFORE YOU SHOOT
— IT MIGHT SAVE A LIFE!**

Alarmed by shooting accidents that have claimed the lives of two men this fall although big game season has not begun, the state fish and game department today renewed a safety campaign and called upon all hunters to be extremely cautious in the handling of firearms.

"Look before you shoot; know your target; don't shoot until you're sure, be careful," are the safety slogans of the campaign.

Particular cause for concern is seen in the fact that demand for hunting licenses is greater than ever. Among the thousands of gunners who will soon be in the mountains after deer and elk there will be many inexperienced hunters. In all, approximately 80,000 men and women will be in the field for big game. Seasons have been shortened in many areas. This will mean a greater concentration of gunners during the open period.

Safety with firearms can only come about, the game department declared, if every individual hunter practices caution whenever he has a gun in his hands. To remind hunters of their responsibility, the department is distributing safety posters and automobile bumper strips throughout the state. The placards that appear at checking stations and other strategic points bear the legend: "Look before you shoot. Kill cleanly. Don't shoot 'til sure." The theme is also carried out on the bumper strips that are available to any sportsman.

Last year there were seven recorded fatalities in Idaho charged to hunting accidents with firearms. Early in September of this year a Boise man was shot to death while cleaning a shotgun, and a Bonners Ferry man was fatally wounded while dragging a rifle through a fence on a bear hunt.

Better be safe than sorry. Use care. Know your target before you shoot.

Big Swine Sale Scheduled

Consignments of 57 head of the finest swine breeding stock in Idaho will go on sale at the county fair grounds in Moscow October 16, when the Northern Idaho Purebred Swine Breeders' auction opens at 1:30 p. m. It is the largest consignment of purebred hogs ever consigned to the sale, according to Elbert McProud, Latah county agent, and manager of the auction.

McProud said all of the 57 head of swine this year were confined to three breeds — Durocs, Chester Whites and Poland Chinas. Consignments have come from counties in the extreme northern and southern portions of the state with a good sprinkling of animals from localities lying in the mid-section. Catalogues describing the swine are off the press and will be in the hands of known prospective buyers soon. Requests for the catalogues will receive prompt attention at McProud's office.

All animals that have not been permanently immunized against hog cholera and swine erysipelas at least 30 days before they reach the sale ground will get serum shots as a precaution against both diseases as they come onto the grounds.

The 17 boars and 40 gilts making up the sale will be judged as a part of the morning's show and will go into the sale ring in the same order as they placed.

The auction will follow the U. of I. sponsored swine-type conference

at the fairgrounds October 15. Many breeders have signified their intention to attend the conference and remain for the sale on the second day.

Bounty System Changed

Mountain lions that have been giving up their skulls at \$50.00 each need no longer sacrifice their heads. The bounty plan will be different, beginning Oct. 1.

T. B. Murray, director of the fish and game department, announced this week that bounty will be paid on cougar skins. It won't make any difference to the cougar, but cougar hunters will make some alterations in the method of getting bounty that has been in effect the last two years.

Skulls have been the article on which the bounty has been paid. After the end of September lion hides must be turned in at the Boise headquarters of the game department. Each cougar skin must have attached to it the front and hind leg bones intact from the knee joint down. Skins will be branded by the department. The leg bones will be removed and the hide will be returned to the hunter. Amount of the bounty remains the same — \$50.00.

Since early 1946 when the \$50.00 bounty was offered more than 200 of the big predatory cats have been killed in Idaho. Robert Donley of Garden Valley and Fat Reed of Boise, the leading hunters, have accounted for nearly 50 each.

Cougar hunting, dormant during the summer, will revive again with the coming of winter's snows.

The Crisis in Paper

Fifty years ago the first business conference of "top industrialists" was held at the White House, and President Theodore Roosevelt was given definite notice that there would be a timber famine in this country before 1950. Emphasis at that time was laid on forest fires. But that seems to have turned out to be "only the half of it."

Now comes a statement from the United States Tariff Commission showing that our newsprint paper is coming almost entirely from Can-

ada and that our neighbor to the north "is the world's largest newsprint producer — that country having made about two-thirds or more of the world's total of newsprint in 1946."

In 1905 everyone believed that the supplies of United States lumber, paper and other products of the forests were "inexhaustible."

Federal reports show that the newsprint industry in the United States has been badly flattened out by the diminishing supply of available pulp timber and that domestic costs are sky-high.

Our own southern states are still producing pulp timber, but the rising costs of labor, competition by other wood consuming industries, and the ability of Canada to compete in the most important seaboard markets have created a crisis in paper.

The total annual capacity of the 13 paper mills operating in the United States in 1947 is estimated at about 850,000 tons. In comparison, the capacity of the 34 Canadian mills is nearly 4,350,000 tons. The Canadian industry is now supplying the United States market with newsprint with about 75 percent of Canada's total output.

Food For Thought

In the "Second Annual Report to the Food and Agricultural Organization of the United Nations," there is a foreword by director-general Sir John Boyd Orr, which contains some rather staggering statements.

"The food position of the world today is no better than it was a year ago, and, unless measures are taken to provide the war devastated countries with agricultural equipment, fertilizers, and other requisites for the harvest of 1948, a severe food shortage will last for at least two years more.

"The hope of economic development or social and political stability is illusory in countries where the majority of the people are wholly absorbed in the problem of finding food.

"Meanwhile the paradox of the years between the wars shows signs of being repeated. The increase of

agricultural production achieved by exporting countries in their efforts to relieve the world shortage may well lead to the sudden occurrence of unmarketable surpluses. Already a surplus of wool is threatened and surpluses of cereals, sugar and certain other products may soon appear. Unless measures are taken in advance to deal with these surpluses, they may well again bring ruin and misery to millions of land workers and will endanger the stability of the whole economic system.

"This would be a demonstration that the pre-war economic system, however well it may have worked in the past, will break down if it cannot carry the burden of the material wealth that modern science can create.

"Looking still further ahead, we are faced with the problem whether the earth will be able to produce the food needed to support its population. It is estimated that, taking account of the probable increase of world population, food production would need to be doubled in the next 25 years to provide everybody with a diet capable of maintaining health and working efficiency. The problem is aggravated by the fact that the topsoil of the earth is being washed away at the rate of hundreds of thousands of acres a year."

Food for thought, isn't it?

To Appear in Concert
Lewiston, Ida., Mjr. William F. Santelmann will raise his baton before the United States Marine Band — "the president's own" here October 28, when that world famous organization appears in two benefit performances at the N. I. C. E. gymnasium.

Proceeds from the concert will be divided between the North Idaho Children's Home at Lewiston and the St. Joseph's Orphanage at Slickpoo. The band's appearance is sponsored jointly by the Lewiston Tribune and the Lewiston Junior Chamber of Commerce.

The United States Marine Band was officially recognized as the "President's own" on July 11, 1788, when President John Adams approved a bill that established the band. It has been the official White House musical organization since the time of George Washington. It has played for the inauguration of every president since Thomas Jefferson and has supplied the musical setting for every White House wedding, including those of Nellie Grant and Alice Roosevelt.

Grange Open House
The public is cordially invited to a Halloween Party and Pie Social sponsored by the Kendrick Grange, Tuesday evening, Oct. 21, at 8:00. If it's fun your looking for, well, this is the place to come. The men—bring your appetite — ladies bring a pie. We'll be "witching" for you. 42-1

Arrests Numerous In September
Eighty-three arrests for violation of fish and game laws were reported during September, said a state fish and game report. The number is five more than during September a year ago.
The September cases brought the total for the year to 671, compared with 525 for the first nine months of 1946.
This month is expected to be the busiest month for conservation officers in view of the fact that big game season will be open in most of the state and ducks will be hunted during a portion of the month.

Leland School Notes

Dr. Max E. McQueen, director of the North Central District Health unit, assisted by Mrs. Donna Crossley, R. N., will examine children and give immunization Friday (tomorrow) at 1:30 p. m.

Report cards for the first period ending last Friday, were issued Wednesday.

The great Sing Ling Brothers and Harnum & Halley's Combined Circus, which is being sponsored by the student body of the Leland school, has been given permission to set up on the school property. This greatest of all circuses will present the greatest collection of wild animals ever viewed by anyone at any time. Many of these animals, through years of patient training, have been taught to perform unheard of things in the animal world. There will also be aerial artists performing their death defying feats high in the air with no net or other safety devices, should they fall. You are assured an evening of much fun and entertainment, so hold tight to your purse strings until Friday, October 24th, at 7:00 p. m., at the Leland school house.

LINDEN ITEMS

Mrs. Clem Israel entertained the W. M. A. Thursday with an attendance of 12 ladies. They were: Myrtle Darby, Lilly Wilson, Beth Pressnall, Mary Bahr, Clara Alexander, Mrs. Grimm, Dorothy Chilberg, Margaret Craig, Gertrude Pederson, Inez Pederson, Mrs. McDowell, Pearl Alexander.

James and Felix Holt and Ramey Hunt left on a big game hunt Thursday morning.

The James Holt family, Mrs. Butler and Mr. and Mrs. Ray Cuddy were guests in the Rollin Armitage home at Southwick, Sunday.

Mrs. Felix Holt is visiting her mother this week at Stites.

Mr. and Mrs. Alva Craig were dinner guests in the Ben Baker home Sunday.

Mrs. James Holt, Mrs. Butler and John Gentry were guests in the Gil Erlewine home Sunday.

Inez Pederson left for work as a nurse in a hospital at Colfax, Wn.

Mrs. Earl McDowell called at the Pederson home Monday.

Mr. and Mrs. Clem Israel left for California Monday, going by the way of Portland. Mrs. Israel plans to bring her grandmother home with her to spend the winter.

Marvin Garner, Riggins, accompanied by his sister-in-law and children (Mrs. Melvin Garner) were guests in the Arley Allen home on Sunday.

Mr. and Mrs. Arthur Foster called at the Allen home one day this week.

Word has been received that the Ted Vaughan family were leaving the James Keeler home the middle of this week, where they have been visiting. Mr. and Mrs. Keeler and family live at Tracy, Calif. We understand the John Keeler family are accompanying the Vaughns. This will be John's first visit home since his discharge from the service, and marriage. In fact, they have a daughter nine and a half months old. Mr. and Mrs. Chas. Keeler are looking forward with real pleasure to meeting a new daughter as well as a little granddaughter. This is what makes life worth living.

Helen Keeler Berreman was united in marriage to Louis Conrad, both of Lewiston, on Thursday, by Judge Elmer Roise, justice of the peace. No further particulars are available at this writing.

Gold Hill School News

The school club received its order of a basketball, pump, soft ball, and bat, which were paid for from funds on hand. They have a football yet to come. They are also planning to equip a first aid kit for the school in the near future.

The Beginning class in reading is nearly half through its second pre-primer. In numbers the addition combinations of 1 and 2 added to all numbers up to 10 are being studied. The class can count and write to the number 20.

The Lower grade farm poster is now finished and for art work everyone is making Halloween room decorations.

The fourth and seventh grades have finished their Indian village project in connection with the study of Idaho Indians. The fourth grade is very enthusiastic about its new Idaho History.

The Phonics class has finished the consonant sounds of the alphabet and the short vowels.
