

# KENDRICK GAZETTE

VOLUME 57

KENDRICK, LATAH COUNTY, IDAHO, THURSDAY, DECEMBER 11, 1947

NO. 50

## PERSONALS AND NEWS ABOUT KENDRICK FRIENDS

Roy Long, Spokane, came down this week, taking his wife and children home with him Sunday. His mother, Mrs. Edgar Long, accompanied them, and will visit a couple of weeks in their home.

Mrs. A. O. Kamikkeberg and daughters Donna and Ann arrived home from Seattle Sunday evening, where they have been visiting relatives for the past ten days.

Mr. and Mrs. Hiram Galloway drove to Pasco this past week-end to be with their daughter and family, Mr. and Mrs. Paul Arbogast.

Mrs. Emulus Brown left Saturday for Seattle, where she will visit for a time with her daughter and son-in-law and new baby, Mr. and Mrs. Howard Rukgaber.

Dr. J. H. Coulter and Mr. Prideaux attended the meeting of the Methodist laymen held at Pomeroy on Tuesday evening. Some 40 laymen and ministers from Culedeas, Kendrick, Juliaetta, Lewiston, Clarkston, Anatone, Walla, Walla and Pomeroy were present. Virgil Flesham of Clarkston spoke on "Stewardship." He pointed out that the principles of Christian stewardship cover the use, not only of money, but of our abilities and opportunities for everyday helpfulness.

Mr. and Mrs. H. C. Schupfer and daughter Marilyn, accompanied by June Brown, were Spokane visitors Saturday. Enroute they stopped at Moscow and picked up Beverly Schupfer, who accompanied them. She is attending the U. of I.

Among those attending the game at Moscow Tuesday evening were Mr. and Mrs. E. M. White and family, Mr. and Mrs. Geo. Brocke, Mrs. Medallin and daughter Delores, Mrs. Geo. Brocke, Jr., Mr. and Mrs. Ed. Brown and family, Mr. and Mrs. Burton Souders and Burton, Jr., accompanied by Verne Easterbrook, Pat Long and Parker McGreary, Mr. and Mrs. Jack Travis, Donna and Shirley Trundy, Mr. and Mrs. Floyd Millard, Nellie Fry, Mr. and Mrs. Kenneth Brocke, Mr. and Mrs. Walter Brocke and daughter Patty, Mr. and Mrs. Dick Cuddy, Mr. and Mrs. Chas. Andres and Mr. and Mrs. Art Rundhaug.

Mr. and Mrs. Leon Lind and family of Gifford spent the week-end here with his parents, Mr. and Mrs. Paul Lind.

Mrs. Roy Ramey and Mrs. Bruce Ebert were Moscow visitors Tuesday.

Mr. and Mrs. Roy Ramey drove to Clarkston Sunday for a visit in the N. E. Walker home.

Mr. and Mrs. Jasper Nutting and children spent the Thanksgiving week-end with relatives in Spokane. Mrs. Bernard Riggers and baby returned Sunday from the Gritman Memorial hospital at Moscow, Mr. Riggers driving up for them.

Mrs. Wade Keene left Sunday for Kennewick, Wash., where she will visit in the home of her daughter, Mrs. George Jones and family.

A butchering bee was held Monday at the Harry Benscoter home on American ridge, with 16 hogs being killed.

Mr. and Mrs. Claude Craig and Mrs. Wayne Kuykendall were Lewiston shoppers one day last week.

Mr. and Mrs. Enoch Harrison and Mrs. Hill, all of Lewiston, visited with Mrs. Myrtle Kuykendall, Friday.

Neal Craig of Richland, Wash., visited with his parents, Mr. and Mrs. Oral Craig, Sunday.

Evron Chase of W. S. C. Pullman, visited over the week-end with his sister, Mrs. Elmo Eldridge and family.

Kaye and Carol Weyen of Leland spent Sunday with their grandparents, Mr. and Mrs. Oral Craig.

Mr. and Mrs. Claude Craig left Tuesday for Richland, Wash., to visit their son, Mr. and Mrs. Ivan Craig and family, and then will go on to Portland to visit Mr. and Mrs. D. E. Flesham. They expect to be back for Christmas.

Mr. and Mrs. Oral Craig visited Mrs. Jesse Thornton, who is a patient in St. Joseph's hospital at Lewiston, Monday.

Mr. and Mrs. Burton Souders and family took Mrs. Grace Souders to Moscow Sunday, where she visited her brother, Aaron Wells.

Mrs. W. W. McAllister left last week for Moscow, where she will spend the winter in the J. Abel home.

University students home over the week-end included Bob Watts, Teddy Deobald, Bob Lind, Gay Deobald, Tom Brown, Harold Brammer and Patty McGreary. The latter was accompanied by three schoolmates, Arlene Hinchey, Cynthia Kjosness and Patsy Tuller.

Miss Barbara White, who is employed in Lewiston, spent Monday night and Tuesday here with her parents, Mr. and Mrs. E. M. White.

**Marionette Show**  
The Marionette show given by the seventh and eighth grades Monday afternoon and evening at the school house was well attended and received with much enthusiasm by an appreciative audience.

The play, "Dickens's Christmas Carol," came to life as the little characters took their places on the miniature stage. Mrs. Jasper Nutting, who directed the play and the making of the characters, is to be congratulated along with the students, for the novel and entertaining program.

**Purchases Biddison Farm**  
Mr. and Mrs. Chester Boyce, formerly of Moscow, have purchased the Creighton Biddison farm on Potlatch creek, above the mouth of Cedar creek, and took possession last week.

Mr. and Mrs. Boyce have three small children. The consideration was not made public.

## And More Of The Same

Locally, the weather has been the same old story — rain and snow — "and more of the same."

A storm began Sunday which left about six inches of fresh snow on the ridges and drenched Kendrick with moisture which it didn't need. However, Tuesday morning it began snowing in the canyon and by 10 a. m., when the storm ceased, about an inch of soggy whiteness covered the ground. About noon a light rain began falling, which decreased the snow considerably.

The clank of car and truck chains has become a familiar sound, for there isn't much traveling on country roads without them.

## L. A. "JAKE" GRINOLDS CALLED BY DEATH SUNDAY

The entire Potlatch area was shocked and saddened Sunday to learn of the sudden passing of L. A. "Jake" Grinolds, pioneer business man and farmer of this territory, at the Gritman Memorial hospital in Moscow, where he had been taken Saturday to receive treatment for pneumonia.

Mr. Grinolds failed to respond to treatment and passed away Sunday morning at 6:20 o'clock.

L. A. "Jake" Grinolds was born in 1885, coming to Kendrick in 1907, where he purchased and operated a livery stable for a number of years. He had the first "for hire" car in this area, calling it an "auto livery."

In 1912 he was united in marriage to Louise Behrens of Juliaetta, the ceremony being performed at Moscow. Shortly thereafter he disposed of the livery stable and moved to a farm on Potlatch ridge, and there the couple's two children, Ted and JoAnne, were born.

After several years on the farm the family moved to Kendrick where Mr. Grinolds purchased a garage. They made their home here until 1920, when he disposed of the business and moved to Odessa, Wash., where he opened a battery shop.

About 1923 they disposed of this and purchased a farm in Lewiston. Mr. Grinolds lived there until about 1929, when they purchased and moved to the present home on Cedar ridge.

Jake was a man who made friends easily, and held them. He always had a smile and a friendly word for everyone, and spoke ill of no man — and as a result of this he was known far and wide and liked by all. His sudden passing leaves a gap in the community that will long be felt.

Funeral services were held Tuesday at 1:00 p. m. from the Brower-Wann parlors in Lewiston, with Mr. Renshaw, a Christian Science reader, bringing the message. Solos were sung by Grover Barton, accompanied by the parlor's organist. Pallbearers were W. A. Watts, R. L. Blewett, Arly Allen, Louis Alexander, Harry Benscoter and Bob McGreary, all old-time friends of Mr. Grinolds.

Interment was in Normal Hill cemetery, Lewiston.

We regret the brevity of this item, but we were unable to contact any member of the immediate family for further details.

**Proper Mailing Assures Delivery**  
Christmas greetings will not come to an ignominious end in the dead letter office this year if Yule cards are sent by first class mail, entitling them to both forwarding and directory service. Fred Stedman, postmaster, said this week.

Each year a large number of Christmas cards have to be destroyed because they are incorrectly addressed and carry only third class postage. Postal regulations do not require that more than one effort be made to deliver third class mail because it is carried at a lower postal rate. Undeliverable third-class mail is not returned to the sender.

Only first-class mail may be forwarded from one address to another. Cards bearing a 3-cent stamp are also entitled to "Directory Service," which means that postoffice clerks will seek to trace down addressees who have moved since you made out your Christmas card list last year.

Only cards that are sent first class may be sealed. You are permitted to sign your name on a card sent third class, but if you decide to write a card, every line to an old friend or tuck in a little social note, be sure to put a 3-cent stamp on the envelope.

Birth announcements and party invitations carrying written matter, even if only a few words, such as filling in blanks, require first class postage. Parcel post packages may be sealed if printed notices advising that the parcel may be opened for postal inspection, are affixed.

Christmas Seals are permitted, but may be affixed only on the back of cards or letters and not on the address side or over folded edges on parcel post, unless a printed postal declaration is affixed. A typed or hand-printed declaration is not permissible. If sealed against postal inspection and carrying no printed declaration, first class postage will be required.

Cards bearing mica, tinsel or glass must bear first class postage and be sealed.

Packages should have only one address, but where letter is affixed, the address on the letter is not considered sufficient address, and requires another address on the package for delivery assurance.

Mr. Stedman stated that adherence to these rules would greatly speed up the acceptance and delivery of letters, cards and parcels in time for Christmas.

There are many hot and cold streams in Idaho, with more than ordinary mineral content. Most of those which are hot are heated by hot ashes and lava in volcanic areas.

## INTERESTING HAPPENINGS FROM JULIAETTA AREA

Mrs. Daisy Stonebreaker of Orofino visited over the week-end in the home of her daughter, Mrs. Edgar Lackey.

Edgar Lackey was a Monday business visitor in Orofino.

Mr. and Mrs. Ed. Groseclose of Arrow spent Sunday in Juliaetta with the Cliff Nelson family.

Mr. and Mrs. Everett Farrington of Kendrick visited with the Loye Tacker family Sunday.

Mrs. Edgar Lackey spent Tuesday in Lewiston.

The children at the Juliaetta school have been enjoying the recent snow to the utmost. Snowmen and snow forts abound on the school grounds.

Mr. and Mrs. Arnold Zimmerman of Texas reidge spent Sunday with her parents, Mr. and Mrs. Asa Cook and family.

Mrs. Earl Gaskill was a Kendrick business visitor Tuesday.

Rose Marie, infant daughter of Mr. and Mrs. Dallin Groseclose is receiving medical care at the Davidson Nursing home in Kendrick.

Frankie Peters spent the week-end with her sister, Mrs. Everett Farrington, in Kendrick.

Mr. and Mrs. Woodrow Nye, Mr. and Mrs. Lewis Lindquist and Lloyd Nye spent Saturday in Clarkston. Mr. Lindquist installed a sink in the newly built kitchen at the Alvin Nye home.

Week-end guests of Mr. and Mrs. Woodrow Nye were Mr. and Mrs. Alvin Nye and children of Clarkston.

Mr. and Mrs. Einar Twait (nee Virginia Nye) of Spokane, were the week-end guests of Mr. and Mrs. Onal Cope (nee Donna Nye) and Mr. and Mrs. Woody Nye.

Sunday dinner guests in the Woodrow Nye home were Mr. and Mrs. Bruce Sherman and son Jackie, Mrs. Frank Barton and daughter Charlene, Mr. and Mrs. Alvin Nye and three children of Clarkston, and Lloyd Nye.

Mr. and Mrs. Neil Packer and Mae Walsh and Sandra were Moscow visitors on Monday.

Lewis Lindquist is confined to his home with a rather severe case of the flu.

Last Saturday night Margie Johns was the honored guest at a birthday surprise party at her home.

Guests bidden were the following: Clinton and Gale Clark, Doris Lingelfelter, Bob Lingelfelter, Armetha Sams, Jayne Hadley, Helen Johns, Beverly Swears, Dick Johns, Jack Holmes, Mr. and Mrs. Phil Johns and the guest of honor, Miss Margie. All wished her many happy returns of the day. Birthday cake and jello were served. The party later progressed from the Johns' residence to the Rebekah dance.

Dick Johns is nursing a severely sprained ankle on his left leg. Billy Boone is also nursing an injured knee on his right leg. We'll all miss Dick and Bill on the J. H. S. basketball squad.

The Misses Joanne and Frankie Peters were in Lewiston Monday on a Christmas shopping tour.

A Christmas party is in the making for the Rebekah members and their families. The party will be held on Sunday evening, Dec. 21st, at the I. O. E. hall. A hot-luck supper is scheduled early in the evening to be followed by a Christmas tree with a gift for each person. Each member is to bring a gift for each member of his family attending.

Mr. and Mrs. Henry Lingelfelter and daughter Doris were Lewiston shoppers Saturday.

Mrs. Laura Molden and Mrs. Gordon Swears motored to Lewiston on Tuesday.

Latah County United Overseas Relief headquarters for Juliaetta is at the Tacker Grocery. Let's each one try and give at least one item to this worthy cause. Thank you, Fern Lindquist, local chairman.

On a cold December morning at 3:00 o'clock the peace and solitude of our village was disturbed by the local fire siren. Pajamas and night apparel was seen in gay display at the new E. A. Kirkpatrick mill, where a sawdust truck operated by C. O. Meyer, better known as "Hap," was all ablaze by the time the village was aroused. The fire was extinguished and all of the crowd went back home and to bed to resume their slumber.

Mr. and Mrs. Jack Mead spent the week-end in Coeur d'Alene.

Mr. and Mrs. Fred Hadley were Lewiston business visitors Saturday.

The Juliaetta Grade school and high school are planning a joint Christmas program for the evening of December 18. Remember, kiddies — Santa Claus will be there.

Shirley Hadley and Harry Newman motored to Lewiston Saturday.

Mr. and Mrs. L. M. Clink and children, Norma Jean and Melvin Lee, were guests of Mr. and Mrs. Frank Spray for Thanksgiving dinner. Mrs. J. J. Lynch of Palouse, Wash., a sister of Mrs. Spray, was also a guest.

Mr. and Mrs. C. A. Maginity and daughters of Lewiston were callers in the Frank Spray home Sunday.

Mr. and Mrs. William Kerby and son of Ferdinand and Mrs. Prater were Sunday callers in the Frank Spray home.

Mr. and Mrs. Roy Hill and daughter Mary Linda were callers in the Frank Spray home Sunday, as was Melger Eaton.

Jay Fowler was a Thanksgiving dinner guest at the Frank Spray home.

Mrs. J. J. Lynch left for her home at Palouse Wednesday of this week, following a ten-day visit in the Frank Spray home.

## SHORT NEWS ITEMS FROM OUR LOCAL SCHOOLHOUSE

**Kendrick Defeats Juliaetta**  
The Tigers took a conference game from the Juliaetta Pirates here on Friday evening, Dec. 5, by a score of 89-18. This game was the first of the season for the Tigers.

The first part of the game looked like it might be a close one, but as time went on the Tigers pulled away. The score by quarters was: First, 24-4, Kendrick; second, 37-11, Kendrick; third, 57-15, Kendrick; final, 89-18, Kendrick. The scoring went as follows:

Kendrick —  
Gene Brocke ..... 20  
Allen Medallin ..... 14  
Kenneth Brown ..... 11  
Geo. Brocke, Jr. .... 10  
Herb Millard ..... 10  
Frank Dammarell ..... 8  
Gordon Cook ..... 6  
Don Millard ..... 4  
Ray Easterbrook ..... 3  
Boyd Thornton ..... 3

Juliaetta —  
Bill Boone ..... 14  
Cliff Cook ..... 0  
D. Johns ..... 0  
Jr. Cook ..... 0  
Jack Holmes ..... 0  
Groseclose ..... 1  
Rex Knight ..... 3  
C. Brown ..... 0  
J. Hammond ..... 0  
Total ..... 18

**Moscow Defeats Kendrick 29-28**  
The Tigers lost the game with Moscow, played at Moscow Tuesday evening, Dec. 9. The game nearly ended in a riot, but difficulties were settled. Scoring for both teams was low, attesting to a hard-fought game.

Kendrick —  
A. Medallin ..... 8  
H. Millard ..... 5  
K. Brown ..... 5  
R. Easterbrook ..... 2  
E. Brocke, Jr. .... 2  
Eugene Brocke ..... 2  
Gordon Cook ..... 2  
Don Millard ..... 2  
B. Thornton ..... 1  
Frank Dammarell ..... 0  
Total ..... 28

Moscow —  
B. Kelly ..... 10  
B. Barstow ..... 8  
D. Kelly ..... 4  
Kloyes ..... 3  
Simmons ..... 2  
Dalk ..... 2  
Kablinger ..... 0  
Sinsma ..... 0  
Total ..... 22

The Tigers won the B game with Moscow 32-21. Bob Ware was high for the Tigers with 7 and Rieten for Moscow with 9 points.

There has been a keen demand among our basketball fans for season tickets. To comply with this desire it was decided to have some printed. These will soon be on sale for \$5.00 each, and will admit the owner to eleven home basketball games. The next home game will be on January 2nd.

**Season Tickets Kalsomining Gym.**  
Several men of this community under the direction of Lloyd Ware and Floyd Millard kalsomined the ceiling and painted with white cold-water paint the walls of the gymnasium last week. This face-lifting of the interior of the gym certainly makes its appearance brighter and cleaner, and will help to make the games more enjoyable for the fans. The school and community appreciate this action and wish to thank the men who freely donated time and labor to this worthy cause.

The girls P. E. class kalsomined the walls of their shower room last week.

Coach Armitage and some of the boys built partitions for the shower rooms within the various dressing rooms, which helps to keep the floors and lockers dryer. These improvements are of much help to the P. E. and gym classes.

**Grade News**  
There are two new pupils enrolled in the first and second grades — John Dunham in the first and Richard Dunham in the second. They were former pupils at Elgin, Oregon.

Third and Fourth Grades — The third and fourth graders have been decorating their room in preparation for the Christmas season.

Fifth and Sixth — The fifth and sixth grade pupils have been making block prints, which will be used for Christmas cards.

Seventh and Eighth — The Marionette show presented by these grades grossed the sum of \$36.80. They will use some of this money to buy material for metal work in their art classes.

**Grade Team Defeats Juliaetta**  
The seventh and eighth grade team met the Juliaetta grade team at an eye-opener last Friday evening, and defeated Juliaetta 30 to 9. Scores by quarters were: First, 10-2, Kendrick; second, 16-6, Kendrick; third, 28-6, Kendrick; final, 30-9, Kendrick.

Kendrick Grades —  
Parker McCreary ..... 12  
Chas. Christensen ..... 11  
Burton Souders ..... 0  
Chas. Paarks ..... 2  
Lloyd Arnett ..... 2  
Roger Jones ..... 1  
David Crocker ..... 1  
Kenney Gruell ..... 0  
Bob McCall ..... 0  
Max Shreffler ..... 2  
Juliaetta Grades —  
Carlson ..... 0  
D. Bisbie ..... 0  
Taylor ..... 3  
B. Bisbie ..... 4  
Boone ..... 2

The oldest institution of higher learning in Idaho is the College of Idaho. It was established in 1891 under the auspices of the Presbyterian church.

## Santa Coming Twice

Two visits of Santa Claus to Kendrick are scheduled for the approaching Christmas season.

His first trip to town will be on Saturday, December 13, at 2:00 p. m., when he will visit the Kendrick Bean Growers Assn., and bring with him treats for the little children.

Santa's second visit to Kendrick will occur on Saturday, December 20, at 2:30 p. m., when he will arrive with treats for the youngsters — this visit being under the auspices of the Kendrick Commercial Club. On this visit a short program is being planned.

Christmas comes but once a year — so bring the children to town and let them see Santa.

## SPEED IS IMPORTANT IN GIVING TO OVERSEAS RELIEF

Dr. J. H. Coulter, chairman of the local United Overseas Relief Drive, which, of course, is a part of the Latah County and nation-wide drive, states that to date items have been coming in very slowly — and it is important that giving be speeded up if we are to have any quantity for shipment on the Christmas ships which are due to sail from Seattle in time to reach the Orient and Europe for Christmas.

No doubt you have, about your home, something that will help to relieve the suffering of the war destitute — and what finer Christmas spirit can we show than sharing our plenty with those who are suffering.

Gift suggestions for this great relief drive are: Wheat, peas, beans, corn, etc.; clothing, new or used (please be sure it is clean and in good repair); shoes (please tie in pairs, used or repairable); rubbers and galoshes (please tie in pairs); scarfs, mittens, gloves (please tie in pairs); underwear, socks, etc.

Bedding is another vitally needed item. Give blankets, quilts, sheets, pillow cases.

Baby clothing, too, so scarce, is requested. Anything and everything (including booties, shoes, etc.).

Miscellaneous items are acceptable. They include: Needles and thread, pins, buttons, tape, yarn (new or used), knitting needles, crochet hooks and like items; cotton and woolen materials (new or used); combs, toothbrushes, soap, razor blades, wash cloths, etc.

School items, too, are in need — paper, pencils, crayons, rulers, scissors, etc.

Many, many miscellaneous items are in demand, such as: New and old candies (stubs or remolded), old silverware; purses (new or used); canned meats, fish, lard, etc. (in tins only), also dehydrated soups.

If you have some of these items which you no longer use (and who hasn't?) bring them in and help someone along life's way with your Christmas gift. If you like, include a good-will message with your gift. Perhaps a snapshot of yourself with a message on the back. And, if you would like a reply, enclose a self-addressed envelope and a sheet of paper.

If you prefer to give cash — and many may desire to give money along with food and clothing — you can deposit your donation in any business house in town — in the handy little cans sitting on their counters — for that purpose.

**Tull-Cuddy Nuptials**  
Miss Carolyn Tull, daughter of Mr. and Mrs. Leonard Tull of Orofino, and David Cuddy, son of Mr. and Mrs. Arne Cuddy Southwick, were united in marriage at the First Methodist church at Bremerton, Wash., on Saturday, Nov. 29th.

Then they visited coastal points before returning to Lewiston, where Mrs. Cuddy is employed at "Klings" and Mr. Cuddy is attending the North Idaho College of Education. (We are sorry we do not have more details.)

On their return from their honeymoon a dinner was given in their honor at the Arnie Cuddy home last Sunday. Those present were Mr. and Mrs. Leonard Tull of Orofino; Mr. and Mrs. Dick Cuddy of Kendrick; Rollin Cuddy of Moscow; Annabelle Cuddy of Lewiston; Mr. and Mrs. L. J. Southwick, Mr. and Mrs. Howard Southwick and Mae, Mr. and Mrs. Wm. Winters and son, Mr. and Mrs. Wm. Cuddy, Mrs. James Holt and children, Mr. and Mrs. Rollin Armitage and family and Mr. and Mrs. Ray Cuddy.

**Better Pay Those Taxes**  
Now that all property owners have been properly reminded by their county tax assessors of the amount of their 1947 taxes — payment of the same seems to be a coming "must," and you are reminded that to escape a delinquency penalty, the date for payment of the first half is Monday, December 22nd.

Locally, it is not necessary to go to Moscow to make your payment — it may be made at The Farmers Bank in Kendrick, which is a county depository.

And, by the way, final quarterly payments on your 1947 Income Taxes will soon be due — and right at Christmas time!

Seems like somebody is always taking the joy out of life.

**Prize Offered For Essay**  
A Sheaffer lifetime pen and pencil set is being offered as a prize by the Latah County United Overseas Relief for the best essay submitted.

Relief for the best essay submitted by a high school student in Latah county on "Why I Should Give to Overseas Relief."

These essays should be submitted to Keith Carlson, chairman, Latah County United Overseas Relief, P. O. Box 225, Moscow, Idaho, and must be mailed before midnight, Saturday, Dec. 13.

## GRAIN MARKETS HIT HIGH POINT — THEN DECLINE

When Chicago December wheat in the futures market reached new high points for 30 years during the week, Pacific Northwest advanced to the highest levels in the history of the Grain Exchanges, according to reports to the Market News Service of the Department of Agriculture. The net gain in price for the period, in the Chicago December wheat bracket was 9½¢ per bushel, but the net gain in bid prices for all classes of wheat in the local cash markets was only 1 cent per bushel, while the spread between the high and low was 6 cents during the period. The higher prices which were in effect for only one day in the local markets did not have the effect of stimulating large offerings and trading was reported as comparatively light. Feed grains, reflecting the higher wheat prices, also reached new high levels, with oats and feed barley each up \$1.50 per ton.

The cash wheat market at Portland was firm but only partially followed the sharp advance in the futures markets during the period. While there was active interest in the market on the part of operators mill buyers were not inclined to follow the advance on account of slow demand for domestic flour and car restrictions. The Commodity Credit Corporation furnished the principal outlet for wheat (reporting purchases from noon November 19, to noon November 25, of 107,875 bushels, which was very light compared with other recent period purchases.

Bid prices on November 24 for ordinary export classes of wheat were \$3.01 per bushel, and for the higher milling grades \$3.24 and \$3.25, representing the highest prices ever bid for these classes in the history of the Portland Grain Exchange.

Bid prices at the Portland Grain Exchange were as follows: Soft white, soft white (no Rex), white club, western red and hard red winter, all \$2.96 per bushel, basis No. 1, bulk, 15-day shipment, coast delivery.

In the Kansas City market, cash wheat prices followed the action of futures and premiums were adjusted to reflect additional values for the higher milling grades. Offerings fell off sharply with arrivals of only 1,103 cars, or about 160 under a week ago. At the close the general basis for trading was 2½¢ to 3½¢ over December for No. 1 hard ordinary, or \$3.05 per bushel. Good demand was divided between mills and storage interests.

In the Minneapolis market cash wheat dropped sharply as the close of lake navigation neared, and bids for shipment via Duluth, which have been strong and the main market support were withdrawn. Premiums on ordinary wheat were off 1¢ compared with the trading basis a week ago.

The 1947 world bread grain production is now indicated at 5.8 billion bushels of wheat and 1.5 billion bushels of rye, according to estimates of the Office of Foreign Agricultural Relations. The wheat crop currently estimated to be about the 1946 level is 1 percent less than the 1935-39 average. Record crops in the United States and Australia bring the world total near average, despite much below average crops in Europe and the Soviet Union. The 1947 rye crop is 4 percent above 1946, but only 88 percent of the 1935-39 average.

The wheat crop in North America, now placed at 1,764 million bushels is moderately smaller than the previous estimate, mainly because of the downward revision in the Canadian crop, which is now estimated at 341 million bushels. Europe's wheat production is now estimated at 1,020 million bushels, which is 280 million bushels or 22 percent smaller than in 1946, and 86 percent less than the 1935-39 average. Since continued deterioration was reported in many countries, reductions from earlier forecasts were made for the Danube basin countries and for Czechoslovakia, Spain and Italy. The reduction in European bread grains crops places most of the continent in a serious food position again this year. A reduction of such magnitude in bread grains means that import needs will be greater than during the past season.

In the Soviet Union good wheat yields are reported. Acreage was considerably lower than the prewar average, however, and production appears to have continued well below the pre-war average, although larger than in recent years. Wheat production in recent years was placed at 1,490 million bushels, slightly above average, though not up to the high 1946 figure. Expanded acreage in China is slightly above average, giving a total output about 45,000,000 bushels larger than in 1946 and 20 percent above average. Less favorable conditions are reported for most other countries, especially India, and yields in other areas of Asia are reported to be below average. The wheat crop in Africa is still estimated at 130,000,000 bushels, about 7 percent less than in 1946, and also below average.

World exports of bread grains in 1947-48 may exceed the 1946-47 total of about 13,000,000 short tons by 10 percent or more. This increase will be offset to some extent, however, by reduced availability of the coarse grains for export as bread grain supplements. Thus, with only a moderate increase expected in the world grain exports this year, and with production sharply reduced from a year ago, bread rations have recently suffered further reductions from their already low levels in a number of European countries.

### INTERESTING HAPPENINGS FROM THE LINDEN AREA

**Bazaar Is Success**  
 Friday evening was a big event at the Gold Hill community hall and "cook house." Supper was served to approximately 125 people, and netted a profit of \$31.90 after all expenses were paid.

The program which followed seemed to be much enjoyed, judging by the applause and laughter. It consisted of a home talent play, "Elmer Cleans Up;" music by Mrs. Bill Cuddy; Arthur Foster, accompanied by Mrs. Gil Erlewine, and Frank Lyons, accompanied by Arthur Foster, and the climax of the program, a mock wedding. Miss Inez Pederson, who sang the solos for the wedding, "brought down the house."

Many useful and fancy gifts were sold at auction. Not only the neighborhood ladies who helped in the articles sold, but donations were received from Pennsylvania, South Dakota, Spokane, Ritzville and Clarkston. The sum of \$198.35 was taken in for articles sold; \$21.25 of this amount being for work done by the "Harvesters," who also sold home made candy, which netted an additional \$7.02.

The gift from Pennsylvania was a pair of pot holders, sent to Lester Weaver and made by his "adopted" mother for the sale. They were made to resemble ears of corn, and were very attractive. The fact that the maker was over 90 years young added value to the gift.

The W. M. A. wish to thank everyone who helped make the evening a success.

**4-H Club Holds Meeting**  
 The Cedar Ridge 4-H club held their monthly meeting at the Phil Bahr ranch on December 4, at 8:30 p. m. Richard Konen presided at the meeting, of which the election of officers was an item of business. Those chosen were: Jake Riebold, president; Robert Grim, vice president; Alex Weaver, secretary, treasurer and reporter.

Other members of the club are Gerald Erlewine, Neil Erlewine, David Grim, Richard Konen and Theodore Weaver.

Members working on projects at the present time are: Alex Weaver, Richard Konen and Theodore Weaver. The other members expect to have theirs underway about the first of the year. The next meeting will be December 18, also at the Phil Bahr ranch.

**Other News**  
 Mr. and Mrs. Phil Bahr returned this week from a visit in the home of Mrs. Bahr's sister at Mohler, Wn., and friends in Spokane and Ritzville. A very enjoyable week was reported.

Mr. and Mrs. John Keeler and baby arrived Saturday afternoon to visit home folks over the week-end.

This neighborhood was terribly shocked to learn of the sudden death of our old friend and neighbor, L. A. Grinolds, better known as "Jake" to his many friends here. Further particulars are not known at this writing.

Mrs. Arthur Foster spent Sunday in the Arley Allen home.

**O. E. S. Holds Election**  
 Mrs. Alice Tarry was elected Worthy Matron of Canyon Chapter No. 67, O. E. S., Tuesday evening at the Fraternal Temple. Other officers elected were: Dr. Geo. W. McKeever, Worthy Patron; Mrs. Nell Crocker, Assistant Matron; Lester Wallace, Assistant Patron; Mrs. Anne Deobald, secretary; Mrs. Ruby McKeever, treasurer; Mrs. Earline Taylor, conductress, and Mrs. Mamie Kanikkeberg, assistant conductress.

A joint installation of Eastern Star and Masonic officers will be held at the Fraternal Temple, Dec. 20 at 8:00 o'clock. Each person is asked to bring an inexpensive gift for the gift exchange, which will be held at the Christmas party following the installation.

**Parents Of Son**  
 Mr. and Mrs. Wayne Davis are the proud parents of a 6½-pound son, born to them Friday morning, Dec. 5, at the Gritman Memorial hospital in Moscow. The name "Bruce Berne" has been chosen. Mother and babe are doing nicely.

**Game Law Violations Decrease**  
 Violations of Idaho fish and game laws decreased in November, compared with the same month a year ago, T. B. Murray, director of the fish and game department, said this week. Conservation officers made 176 arrests in November of 1947. In November of 1946 there were 259 cases. For October and November this year the totals of arrests were almost the same — 173 in October and 176 in November.

During the year as a whole, however, arrests have been more frequent. The combined figure for 11 months is 1,020 compared with 877 last year.

"The department feels some encouragement in the November report," the director declared. "It would seem to indicate that people are becoming more careful about the taking of wildlife. Officers have been and will continue to be vigilant in apprehending violators. When an active staff of field officers can impress hunters and fishermen with the fact that it does not pay to break the conservation rules it is a forward step. The department would rather prevent a violation than be obliged to make an arrest."

**Steadily Improving**  
 Latest word from Hugh McDowell, injured in a logging accident near Avery some three weeks ago, comes from his wife, who returned home from his bedside Sunday.

Mrs. McDowell states that he suffered a badly broken right leg and broken pelvis, as a result of three logs rolling over him — but that he is now recovering satisfactorily, although a long hospital siege is in prospect for him.

**In Moscow Hospital**  
 Axel Swanson, who has been an arthritis invalid for the past three years, was taken to the Moscow hospital Thursday of last week for specialized treatment.

At last report he was felling better, but did not like the hospital beds, and arrangements were made this week to send him on up to him. It is not known just how long he will be at the hospital.

**Really "Got The Bird"**  
 Archie May, Leland, was exhibiting a huge gray owl about town Monday, which he caught in a trap. Archie said the big bird had a 58-inch wingspread — but its weight didn't amount to much.

With the coming of snow this bird and others was decimating a flock of hungarian partridges — so Archie got busy with his traps.

**Appointed Grand Representative**  
 Mrs. Crystal Gruell, Worthy Matron of Canyon Chapter O. E. S. has been appointed Grand Representative of Nebraska in the State of Idaho. Her appointment was made by Mrs. Rachel Paulson, Worthy Grand Matron of Idaho, last month.

**Re-elected To Highway Board**  
 At the Kendrick Highway District election held last week E. T. Long was re-elected to the board of commissioners.

His name was the only one filed, and evidently people must have been quite well satisfied with his services for there was not a single write-in — he receiving every vote cast.

**Elected To Highway Board**  
 At the election of road district No. 3, held at Deary on Dec. 1st, two commissioners were elected. New members chosen were A. C. Wilson of Big Bear ridge and Henry Jones of Texas ridge. The third member of the board is Kenneth Nickins of Avon.

**Little Notes About Idaho**  
 A small quantity of wood chips, believed to be of very ancient origin, were recently donated to the Idaho State Museum. The chips were found on Santa creek in Benewah county. They were identified by forest laboratories as redwood, believed to be 500 to 1,000 years old.

Fresh frozen fruits, berries, juices, vegetables, fish and poultry are obtainable at Elwett's Grocery-Market. Remember: "For a Better Buy, Buy Bird's Eye." 1-adv.

**Proper Care of Mattress**

**Assures Comfort, Longer Wear**

If sleep equipment is given good care, it will offer more comfort and longer service. Innerspring mattresses should be turned side for side at two-week intervals and occasionally end for end. Cotton or hair-filled mattresses need turning every week. This procedure distributes the wear and fluffs up the upholstery. Springs need the same sort of treatment about twice a year.

Every morning, windows should be opened and the bed clothing thrown back, permitting the air to penetrate the mattress and keep it fresh. When there is a bit of winter sun, the mattress can be moved up to the window and given a sun bath. The sun's rays act as germ killers and help to prevent the filling from packing down.

A removable cotton mattress cover which can be laundered protects the mattress from soil. In addition, mattresses deserve a regular cleaning with a vacuum cleaner attachment or soft brush. Boxsprings may also be cleaned with the vacuum attachment, and metal bedsprings with a soft cloth.

**West Indies Isle Boasts**

**One of Oldest Parliaments**

Establishment of a governor's cabinet in Barbados calls attention to the fact that this West Indies island has one of the oldest parliaments in the British Empire. Unique among its neighbors for its continuous loyalty to one flag, Barbados celebrated the tercentenary of its assembly in 1939, recalls the National Geographic Society. Only in London and Bermuda are there older British legislative bodies.

Barbados is the easternmost of the islands that separate the Caribbean sea from the Atlantic ocean. When the officers and crew of a British ship landed in 1605, they claimed the island for their king, James I. The first English settlers arrived in 1628, twenty years after the founding of Jamestown, Virginia.

Because English customs, architecture, and characteristics were brought to the island, Barbados acquired the name of "Little England." But its immigrants even in the early days were not all English. It became a land of exile for Irish and Scots who had become troublesome at home. The Scots were attracted to the island's northeast region by its Highlands appearance.

**Better Hybrids**

Iowa was one of the pioneer states in introducing hybrid varieties, but as recently as 1934 only four of the Iowa hybrids were available to farmer seed producers and corn growers. One was recommended for the northern part of the state, one for the southern and two for central Iowa. These were the "better" corns that took the place of open-pollinated varieties, and swept the fields until open-pollinated corn is now a real rarity in Iowa. Today not one of these "better" hybrids of 1934 is growing on substantial acreage, having given way to "still better" hybrids. Yield has been maintained or increased, plants are less likely to lodge or drop their ears and they are more resistant to diseases and easier to harvest by machinery.

**Gourmet's Paradise**

The potato is a staple food in the Chileans' diet, and they use it in many ways with their fine sea food and high grade meat dishes. Add to this the vintage wines for which the country is famous and you have a true gourmet's paradise. A typical Chilean meal, for instance, consists of a "cazuela," chicken or lamb soup with potato, half an ear of corn and string beans. This is followed by "empanadas de horno," baked meat pie, containing chopped meat, onions, olives and a slice of hard boiled egg. To aid digestion and stimulate the appetite one has the choice of the finest white or red wines.

**Rinse Coffee Cups**

If dishes must stand before washing, be sure to empty and rinse out coffee and tea cups. Otherwise these beverages may leave a dark stain that is hard to remove. If a cup becomes so stained that soap and water will not remove the discoloration, rub with a moist cloth dipped in soda or baking powder. Do not scour china or pottery. Hard rubbing and cleaning powders may cause color or gilt to fade and damage the smooth surface. Chipped or cracked dishes or those with the glaze off are not sanitary, even after they are washed.

**Fertilizers Add Nutrients**

Fertilizers have definite influence on the nutritive value of pasture plants and on the physical conditions of the animals grazed on them, according to experiments conducted at the department of agriculture's experiment station. Nitrogen applied to Kentucky blue grass increased the crude protein 12 per cent. The addition of phosphate and potash also increased the crude protein content. Not only that, but when phosphate was applied, it increased the phosphorus content of the grass by 25 per cent and the calcium content by 16 per cent. Also, the addition of phosphate to white clover, increased the phosphorus in the clover by 28 per cent and the calcium by 12 per cent and also gave some increase in the crude protein.

**ONLY ABOUT ONE HUNTER IN THREE BAGGED GAME**

Lewiston — More than 11,000 hunters, the largest number ever to swarm into the north central district killed 3,324 elk during the recent season on the Lochsa, Selway and adjoining ranges. Harry V. Palmer, chief conservation officer, reported this week. Hunters also took 1643 deer, 19 goat and 114 bear. The figures were taken from checking station records and do not include game killed in some sections and not brought through a station.

Harvest of elk, despite the increased hunters, was lighter than last year by approximately 1,800 head. A smaller kill in 1947 was anticipated by the game department. Game surveys had indicated too large a take in recent years for the perpetuation of the herds. A shorter season was ordered this year, and two refuges were set aside to give game a chance to recuperate. The season was October 1 to October 31. In previous years there has been hunting during the first ten days of November, in addition to most of October.

Greatest number of hunters went through the Kootz station and it was through this outlet that the largest amount of game was reported. Palmer's record showed 2,683 hunters. They shot 906 elk, 264 deer, five goat and 11 bear; Powell, 1,570 hunters, 646 elk, 36 deer and six bear; Deep creek, 884 hunters, 195 elk, 260 deer, one bear; Cedars, 784 hunters, 208 elk, 39 deer, one bear; Lost Horse, 436 hunters, 184 elk, 58 deer and three bear; South Fork, 1,520 hunters, 336 elk, 246 deer, three goat and 12 bear.

Renshaw's — 53 hunters, 46 elk, 48 deer; Moose Creek ranches, 29 hunters, 24 elk, three deer; Moose creek station, 35 hunters, 19 elk, 10 deer; Fish Lake, 20 hunters, 19 elk, four deer. All these stations were reached by airplane parties.

Reported by Charles Gallaher, officer at Grangeville — 59 elk, 120 deer and 10 bear. Reported by Wallace Wakefield, officer at Riggins — 15 elk, 350 deer and 20 bear.

Our Note: Since publication of our editorial about big game some three weeks ago, we have received considerable favorable comment, especially on the proposal to limit kill to each hunter to one animal — whether

elk or deer. And we might comment further on the above, that kill figures bear out our statement of lesser numbers, a fact known to the game department — yet publicity was sent our encouraging out-of-state hunters to come into Idaho. Further, the shortened season was in actuality an average of five days, since it used to open October 5th and run until November 10th — and no mention was made of "special hunts!"

These practices, and that of spotting game from a plane, such as has been practiced near Bovill for the past several days, will have to stop or Idaho's elk and deer herds will join the American Bison!

**"Home Work" For Staff**

Boise — How much "home work" should the Idaho State Chamber of Commerce do for school children? That is the question in ethics that has stumped members of the staff in the State Chamber office headed by Earl W. Murphy, secretary.

Meanwhile, a little girl named Ida, living in a town in New Jersey that must remain unnamed for obvious reasons, probably received a low grade in her social studies class.

Ida's request for information about Idaho was forwarded to the State Chamber of Commerce from the North Idaho Scenic Land Assn., to which it was originally addressed. After pointing out that a speedy reply was important because the home work was due to be turned in at an early date, Ida concluded her request for detailed information about Idaho's industries, climate, crops, marketing, motto, state flower, state bird and similar facts, with this post-script:

"Have them down and typewrite them in order so I can hand them in right away. Do not put your name or address on the sheet or you'll spoil it."

Ida got the information, but not in such shape that she can hand it to her teacher without rewriting it, Murphy said.

Challis National Forest, comprising 2,468,067 acres, is the largest unit administered as a national forest in the United States.

Like Huckleberry pie? You can get the huckleberries at Blewett Grocery-Market. 1-adv.

**Already Killing Cougar**

Wilbur Wiles, a lion killer of Big Creek, Ida., who took third place in the catamount derby of 1947, had four cougar to his credit this week as the new winter season got underway. He delivered three skins to the game department last week. His first kill was made earlier.

Since October 1, when the fish and game department began paying a bounty on fresh lion hides instead of skulls, seven cougar have been destroyed. One each is credited to George Bentley of Spokane, R. L. Maxwell of Garden Valley and Ray Kenper of Clayton.

The state pays \$50 bounty on each mountain lion killed anywhere in Idaho at any time. The skins with all four leg bones intact are delivered to the state for proof. After branding, the skins are returned to the owner.

For two years there have been cougar derbies, with special cash prizes donated by sportsmen. This year no derby is planned because game officials feel the number of cougar have been reduced in most districts to a point where these predators can be kept under control.

Leading hunters of 1946 and 1947 were Bob Donley of Carden Valley and Pat Reed of Boise. Donley shot 26; Reed 24. As snow has come back to the mountains, both expect to be chasing lions before Christmas.

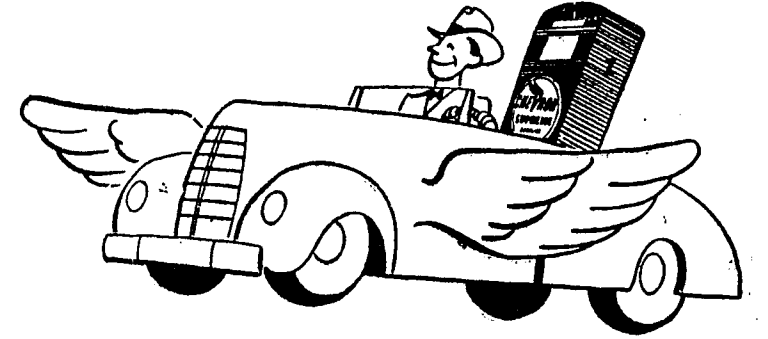

**Brief Idaho Facts**

Fifty million board feet of timber could be cut annually from the Boise National forest without depleting the timber stand or disturbing the water flow.

About 80 percent of the total ore produced in Idaho comes from the Coeur d'Alene region.

Idaho leads the nation in per acre average production of sugar beets.

### State Tax Collections Soar To Six Billion in 1946

The nationwide total of \$5,950,000,000 in state tax collections for the fiscal year 1946 scored an all-time high and continued the uninterrupted upward trend begun in 1937, the council of state governments reported. Total collections in the 12 months preceding July, 1946, represent a 6.2 per cent increase over receipts for fiscal 1945 according to calculations based on bureau of census figures. This year's total also marks a 34.7 per cent gain over 1941 collections, and exceeds 1937 collections by 77.2 per cent.

Payroll, general sales, motor fuel and income taxes account for 61.6 per cent of all 1946 state tax revenues. Payroll taxes alone accounted for 17.4 per cent of state tax receipts, totalling 1.03 billion dollars. Though the biggest single item in 1946 collections, this figure is still somewhat less than last year's 1.25 billion dollar total. The decline is accounted for by reduction of overtime pay, shift of war-workers to lower-paid jobs, and effect of strikes throughout industry.

Motor fuel tax receipts, following termination of gasoline and tire rationing, surged upward to second place in nationwide state tax collections for 1946 with a 900 million dollar total, greatest since 1942's 942 million dollar all-time high. The 1946 total amounts to 15.1 per cent of the total state tax revenues for the year.

### Wyoming Grasshoppers Eat 792 Lbs. Forage Per Acre

A rate of feed consumption for grasshoppers which may even run ahead of the forage production on native range was described here by the Wyoming experiment station. R. E. Pfadt, entomologist, reported that when grasshopper populations reach as high as 35 to the square yard, the insects can consume native forage at a rate faster than it is produced on the mixed prairies of eastern Wyoming.

Pfadt's report is based on a study of the feeding habits of one of the common range grasshoppers, *Aulocara Elliotti*. This species was caged and its feed consumption measured. The experiment was conducted at Manville, Wyo.

When these grasshoppers were begun at a level of 35 to the square yard, they ate at a rate of 792 pounds of forage per acre during one season, he revealed. Where there were 25 to the square yard, they ate at a rate of 489 pounds per acre, and where there were 15 to the square yard, they ate at a rate of 406 pounds per acre.

**Investments in Cuba**  
Direct investments of 560 million dollars by the people of the United States in Cuba were larger than those in any other country except Canada at the outbreak of World War II. The 560 million dollar figure is based on the latest available compilation by the department of commerce, and represents about 8 per cent of the grand total of United States direct investments throughout the world. The department's figure, it is pointed out, represents a value after "technical adjustments" at which certain of the investments were carried. Nearly half of the total United States investment in Cuba was in agricultural enterprise amounting to 241. million dollars, mostly in the sugar industry. The bulk of the remainder consisted of: public utilities and transportation, 233 million dollars; manufacturing enterprises, 27 million dollars; businesses concerned with distribution of products, 12 million dollars; petroleum, 10 million dollars; and mining and smelting, 7 million dollars.

**Indian Myth**  
Where the Colorado river cuts through a westward-running spur of Arizona's Black mountains stand the gigantic doorposts of the house of Matavilya, chief ancient diety of the Piute Indians. They are two black bluffs, the eastern one more than 500 feet high, facing each other across the river. Matavilya, in Indian mythology, was the first great supernatural being to inhabit the earth—the child of earth and sky. He created the animals who, in their gratitude, banded together to build him a house. At that time there was no river. But even the great god—so great that he never appeared to Indians even in a dream—was mortal. When he died it was the duty of his eldest son to free his earth-bound spirit by destroying his house. This he did by creating the river and leading it through the site. It destroyed all of Matavilya's house except the extant remains.

**Cuba Good Customer**  
Cuba became the third best cash customer of the United States during the war years, exceeded only by Canada and Mexico, according to department of commerce figures. On a per capita basis, Cuba ranks second only to Canada in goods bought from the United States. The extent of Cuba's ability to buy this country's goods depends directly on the extent of Cuban sugar sales to United States. In 1932, when imports of Cuban sugar into this country fell to the lowest point in many years, amounting to only 39 million dollars, Cuba's purchases from this country declined to about 29 million dollars.

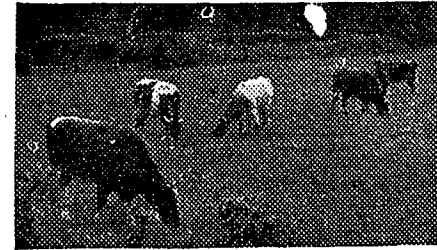

### How Ohio Farmer Reclaims Pasture

#### Uses Quality Livestock In Marketing Hay Crop

Gail Heckley, a successful Licking county, Ohio, farmer, has proven that proper soil treatment for pasture land will pay dividends. In the fall of 1938 and spring of 1939 he used two tons of ground limestone and the equivalent of 500 pounds of 20 per cent superphosphate per acre. In 1944, he gave it a second application of both lime and fertilizer.

Originally the pasture consisted largely of broom sedge, poverty grass, some red top, some cinquefoil and briars, together with other weeds. Today he has a good stand

of blue-grass and white clover. The pasture carries four to five times as much livestock as it did before treatment.

Summing up the beneficial experiences Heckley and other Ohio farmers have had with well-managed pasture improvement programs, Dr. D. R. Dodd, Ohio State university agronomist, declared:

"The application of adequate lime and fertilizer to what were formerly unsatisfactory permanent pasture areas and low yielding hay lands has taken the discouragement out of farming and put additional profit into the annual income. One very important item should not be overlooked. The high quality pasture and hay must be utilized by high quality livestock if maximum profits are to be obtained."

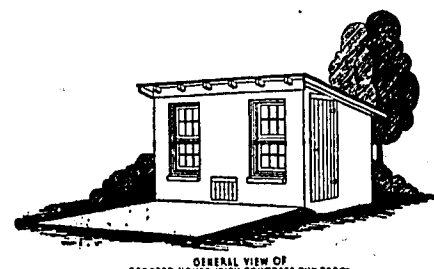

### Newcastle Outbreaks Continue to Increase

New outbreaks of Newcastle disease, the serious chicken ailment which had appeared in 21 states, must be detected promptly if further rapid spread is to be checked.

The American Foundation for Animal Health has urged farmers to be constantly on the alert for signs of nerve disorders in their flocks, such as trembling, throwing the head backward, or pulling the head down between the legs. Ruffled feathers, difficult breathing, or a condition that looks like a "cold" may also be danger signs.

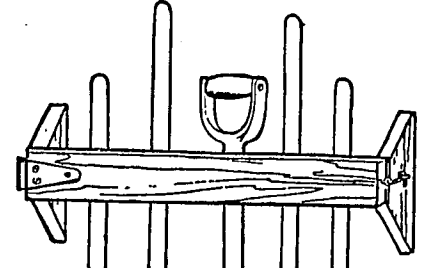

Because this is a virus disease, and the symptoms may often be obscure, the veterinarian generally has to resort to laboratory tests to be certain that the disease is present.

### New Brooder House

A stationary concrete brooder house and sanitary sun porch, as shown, provide maximum protection for chicks. Disease problems become greatly reduced when concrete sun porches are provided. The concrete is also a safeguard against fire in the brooder house.

### Broom and Rake Rack

The life of brooms, hoes, rakes or pitchforks used around the barn will be materially increased if rack is made so that they may be hung on the wall. This rack needs only scrap lumber and a hinge. If necessary a leather hinge may be used.

### Hexachlorocyclohexane

**Proven New Insect Foe**  
Locust, house cricket, cockroach, body louse, bedbug, aphid, cabbage worm, winter moth caterpillar, clothes moth, melon worm, southern army worm, beet webworm, pea weevil, flea beetle, mustard beetle, apple blossom weevil, bean weevil, granary weevil, hide beetle, mosquito, housefly, sheep tick, wasp, ant, flea, red mite and wood louse, all can be killed by gamma isomer of hexachlorocyclohexane.

### Industry Provides Health Aids to Protect Employees

Improved drugs and methods are being used today in industrial medicine to assure the health and comfort of employees. One of the most modern innovations is Ford's mobile X-ray unit. Manned by four trained technicians, it is designed to X-ray the chests of employees at regular intervals. The X-ray unit is housed in a specially-built trailer and is moved from department to department.

The company's industrial health laboratory has developed many protective skin creams for use by workers on jobs where possible irritations might arise. Last year 65,000 pounds of these creams were manufactured in the company's own pharmaceutical laboratory. The use of these creams and rigid hygienic investigation and methods have brought cases of skin inflammation to the lowest in the industry.

Ford employees continually are under health supervision by the company's hospital staff. Besides the portable X-ray unit, the company has a rehabilitation program which assures that suitable employment will be provided for men recovering from illness and for those workers with disabilities or allergies. At the direction of the medical transfer department four inspectors tour the Rouge plant constantly seeking assignments for employees who have physical deficiencies. The use of penicillin and sulfa drugs has reduced the possibility of future disability through infection.

### Urge Caution in the Use Of Electrical Equipment

Before using electrical equipment make sure that hands and feet are dry, and that you aren't standing on a damp spot. Keep the equipment away from moisture.

Here are some other electrical don'ts:

Don't use more than one piece of portable equipment on one outlet.

Don't use metal sockets in farmstead wiring; use porcelain or other approved non-metallic ones.

Don't use pull-chain switches unless they contain an insulating link or cord.

Don't overload your motors. Don't let the braid or insulation on wires get frayed; make repairs or replace cords at the first sign of danger.

Don't tamper with permanent wiring unless you have first cut off the current at the fuse box or master switch.

Avoid the use of more than one or two extension cords in any one outlet. More convenient outlets may be needed.

Beware of the high voltage power lines, don't touch them or allow any high equipment, loose wire or other item to contact them.

Never use electric wiring or equipment for playful experimenting or practical joking.

### Washing Cloth Rugs

The small, light colored, cloth rugs that are so popular nowadays must be washed frequently to keep them bright and attractive. Vacuum or shake the rug vigorously before washing to remove surface dust. After soaking 10 to 15 minutes in lukewarm suds to loosen the soil, run in the washer for 4 to 6 minutes. Wash one rug at a time, unless rugs are the same color, and small enough not to overcrowd the machine. If necessary, use a second suds for extra dirty rugs. Rinse once in warm water, and twice in lukewarm. Follow the same rules for washing by hand, but save your hands by using a rubber plunger instead of scrubbing. Squeeze out the excess moisture from the rug, and if the surface is napped, give it a good shaking. For drying, place on parallel clothes lines so the circulating air can speed the process.

### Young Fowl

Young, well-fattened turkeys are best for roasting. Marks of youth in a bird are a flexible cartilage on the rear end of the breast bone, tender skin, soft meat and soft, smooth feet. Turkeys in the roasting class are those five to nine months old. Other marks of quality include a well-rounded body, a well-fleshed breast, a good coating of fat under the skin, and few pin feathers. As for size, about three-fourths of a pound to one pound dressed weight should be allowed for each person to be served—dressed weight meaning the picked but undrawn bird. In the case of chickens, about one pound of dressed weight for each person to be served is a good average and in the case of a fat duck, about one and one-half pounds of dressed weight. The marks of youth and quality in a chicken or duck are much the same as in the turkey.

### Tropical Island

Sumatra, one of the islands in the East Indies chain, is sparsely settled, with less than ten million people in an area larger than all New England, New York and Pennsylvania. Its tribesmen, especially in the mountains and remote interior, were slow to accept European conquest. This hot and humid land astride the equator is spread with vast forests and jungle, where tropical birds and monkeys chatter, and plants, like Jack's beanstalk, grow a foot or more a day. Still common are elephants and tigers; crocodiles, pythons, and cobras; the lumbering orang-utan and the agile gibbon.

**Pay Big Tax Bill**

Latah county tax collector Edna M. Theriault received a check on Wednesday of this week for \$14,027.15, representing the first half payment of the Washington Water Power company's 1947 property taxes. Full payment to the county for the year will amount to \$28,250.53, an 11.7 percent increase over last year.

Total tax payment by the W. W. P. company in nine Idaho counties for this period amounted to \$170,438.17 according to J. H. Lucas, district manager for the electric company who presented Edna M. Theriault with Latah county's payment.

"The company's total property tax in Idaho for 1947 will be \$343,522.99, a 16.8 percent increase over last year," he said. The increase is due to new property construction by the W. W. P. which was added to the tax rolls this year, and heavier expenses of

the various taxing units," Mr. Lucas stated. Additional taxes will bring the total W. W. P. tax bill in Idaho to approximately \$469,806.00 for the 1947.

Following is the amount of property tax paid Wednesday to eight other Idaho counties in which the company has sizeable holdings: Benewah, \$8,663.83; Bonner, \$713.44; Clearwater, \$4,690.74; Idaho, \$7,684.37; Kootenai, \$59,560.75; Lewis, \$3,473.61; Nez Perce, \$49,073.20; Shoshone, \$22,533.03.

**Accident Total Still Climbing**

George E. Vaughn, Idaho state safety director stated this week: "Comparative figures on traffic accidents for the first nine months of 1946 and 1947 are: There were 1422 accidents in 1946 and 1,800 accidents with 133 fatalities for 1947. This increase is an alarming fact that we can no longer ignore. In nearly all instances it was not an 'accident,' it was caused by the carelessness of the human element involved."

"We receive in our office very few reports of accidents that were totally unavoidable. The part that human error and carelessness plays is unlimited and unnecessary. Proper driving habits and courtesy will do much to correct this very serious situation."

**Married Veteran Wins**

First prize in an essay contest conducted by the Western Forestry Conservation Association at Portland was won by Charles F. Sutherland, Jr., Moscow, senior student in forestry at the University of Idaho, it was announced this week. Subject of the essay was: "History of the Association and Accomplishments in Promoting Private Forestry in the Five Western States and British Columbia." Sutherland competed with students in forestry schools of six Pacific Coast colleges. He has been invited to Portland to a meeting of the association December 11, to read his paper. Son of Col. Charles F. Sutherland, who formerly taught at the university, Mr. Sutherland is a married veteran.

**Big River Of Milk**

Enough milk is produced annually in the United States to fill a river 3,000 miles long, 40 feet wide and three feet deep. If all the milk produced in the U. S. in one year had been put in quart bottles, side by side, they would extend almost 150 times around the world.

**Idaho Notes**

Sun Valley, the famous winter sport resort in Idaho, was a naval convalescent hospital during the war. Idaho varies in elevation from 738 feet at Lewiston to the summit of Mt. Borah, 12,665 feet.

PUBLISHED BY THE KENDRICK CO-OPERATIVE CREAMERY

HELLO, THERE, FOLKS:

**Every Stop To Think?—**  
If fresh, whole milk were not available, what sort of problems would arise in your kitchen? Really, there isn't any substitute for good, whole milk, and you run into all sorts of difficulty if you tried to substitute for such a fine, wholesome food as whole milk.  
Not only is whole milk one of the most healthful foods available, but also it is one of the cheapest when compared to others. For 18c, the price of one quart of milk — just how much meat could you buy? The food value in an 18c piece of meat could not begin to compare with the food value of a quart of milk.  
Likewise — Cottage cheese is a very good substitute to use in place of meat. For the small price of 30c you receive a pint of delicious cottage cheese, and for the same amount of money it

would hardly begin to pay for a good cut of meat.  
Such money-saving tips in the kitchen should be remembered when you go shopping, and are trying so hard to live within the family budget.

**And Remember:**

When buying dairy products of all kinds, come to the creamery, or go to your grocer — and insist upon "Potlatch Chief" Brand Dairy Products, the name is your assurance of freshness, purity and quality.

"Joe, you look all in today. What's the trouble?"  
"Well, I didn't get home until after daylight, and I was just undressing when my wife woke up and said, 'Aren't you getting up pretty early?' Well, rather than start an argument I just put my clothes on and came down to the office."

### WHAT CAMERON FOLKS ARE DOING THESE DAYS

Mr. and Mrs. Herbert Schwarz were given a charivari by a large group of friends and neighbors Monday evening. The "serenaders" were generously treated by the newlyweds.

Mr. and Mrs. Harl Whiting were guests of Mr. and Mrs. Loren Taylor in Lewiston Saturday evening, and Mr. and Mrs. Ray Whiting, also of Lewiston, on Sunday.

Mr. and Mrs. Wilbert Brunstiek entertained Rev. and Mrs. Meske and family and Helen and Ted Mielke at dinner Thursday evening.

Mr. and Mrs. Herbert Schwarz, Mrs. John Schwarz and sons Ernest and Lawrence and Ted Mielke were Sunday evening visitors in the home of Mr. and Mrs. Walter Dennler.

Mr. and Mrs. John Blankenship were visitors in Moscow on Monday. Mr. and Mrs. Herman Silflow and family were dinner guests of Mr. and Mrs. Wilbert Brunstiek Tuesday evening.

Mr. and Mrs. Ed. Mielke and daughters spent Saturday and Sunday with her parents, Mr. and Mrs. L. S. LaHatt and other relatives in Pomeroy.

Mr. and Mrs. Walter Koepf and family, Mr. and Mrs. Henry Wendt and Mrs. Harold Silflow visited with Mr. and Mrs. Carl Koepf Wednesday evening.

Rev. and Mrs. Meske and family and Henry Bleck were dinner guests of Mr. and Mrs. Harl Whiting on Wednesday evening.

Mrs. Marvin Silflow entertained a large group of women at a quilting party Wednesday. She served a delicious lunch at noon.  
Ted Mielke, Cecil Brammer, Roy Silflow and Wally Newman attended the Kendrick-Moscow basketball game at Moscow Tuesday evening.

Mrs. Herman Silflow and Mr. and Mrs. Leonard Wolff were Spokane visitors Monday and Tuesday.

### SOUTHWICK NEWS

Mr. and Mrs. Charlie Harris and family were Sunday visitors in the home and Henry and Chris Tschantz.

George Hayward of Salem, Oregon, is here visiting with friends and relatives.

Mr. and Mrs. Aaron Wells were Lewiston visitors Sunday.

Mr. and Mrs. Virgil Harris and sons were dinner guests of Mr. and Mrs. Russell Rodgers, Sunday.

Sammy May has returned to his home in Lewiston after spending some time in the home of Mr. and Mrs. Clay King.

Mr. and Mrs. Harve Triplett are spending the winter in their home here.

Mrs. Nancy King has gone to Lewiston to visit for some time with her daughter, Mrs. Ora Russell.

Louis Jassman and Les Peck of Spokane were recent visitors in the Virgil Harris home.

### Lots Of 2,4-D Used

U. of I., Moscow — Using rigs all the way from hand sprayers to big power outfits with 50-foot booms, Idaho farmers spread three times as much 2,4-D on their weeds in 1947 as in the previous year, reports Lambert C. Erickson, agronomist in the special weed research program at the University of Idaho. Wild morning glory received most of the attention, for university research clearly indicated that this weed could be controlled while growing a grain crop.

During the past two years, under the special research program, the University of Idaho has gathered a

great amount of information on how 2,4-D performs on such old standby pests as wild morning glory, Canada thistle, white top, and other weeds that contribute to Idaho's estimated \$10,000,000 annual weed bill. The big jump in 2,4-D use is a direct result of farmers putting those research results into operation.

Checking the use of 2,4-D in six of the counties where the weed war has been most intensive, Erickson found that one county alone, Twin Falls, used in 1947 more of the weed killer than was used in the entire state last year. The six counties reported using a total of 46,510 pounds of pure 2,4-D acid, compared with 14,454 pounds in 1946, a three-fold increase. The breakdown by counties follows:

Twin Falls, 30,000 pounds this year, 10,000 last year; Madison, 4,818 and 400; Ada, 4,320 and 1,320; Bonneville, 2,989 and 1,494; Washington, 2,400 and 1,060; Fremont, 2,000 and 280.

Last year the university's state-wide research program involved more than 600 test plots widely scattered throughout the farming sections of the state. This year it passed the 1,000 mark. Expansion in the weed research work followed the addition of C. I. Seely, formerly engaged in weed research with the U. S. department of agriculture, to the Idaho staff. Seely is devoting his attention to projects in the non-irrigated farming sections. Erickson has been specializing in weed control in the irrigated areas.

### Kamloops Season Over

The curtain has fallen on a spectacular seven-month-long Kamloops rainbow trout fishing season at north Idaho's big Lake Pend Oreille, and fishermen have stowed away their gear for the winter, awaiting 1948's opening next May 1.

During 1947, the Kamloops, now but six years of age, gave anglers from all over the nation a string of thrills. Records of the Pend Oreille fishing derby show that 366 rainbows, ranging in weight from two to 37 pounds, were entered for awards. Their gross weight was 8,165 pounds, for an average of 22½ pounds per fish.

Seven rainbows were taken which exceeded in size the former world's record fish — a 32½ pounder taken at Pend Oreille in 1945. Largest for the year was the 37-pounder caught in the final week of November by Wes Hamlet of Coeur d'Alene, Idaho. On May 1, a 36-pounder was landed. The other big fellows were two 34½-pounders, a 33½-pounder and two 33-pounders.

Besides rainbows, anglers entered thousands of native cutthroats, dolly varden, blueback salmon, bass, perch, crappies, whitefish and bluegills for derby awards. The big lake contains 14 varieties of game fish, all of which are eligible in the derby.

May was top angling month of the year, with 140 rainbows weighing a total of 3,103 pounds being netted. November was second, with 86 fish turning the beam for a gross of 2,029 pounds.

Derby records show that 215 of the big fish were taken on salmon plues, while various lake spoons and wobblers accounted for the remainder. Even bass plugs proved to be game getters.

Jess Puckett, Jr. of Athol, Idaho, and Clarence Russell of Bayview, Idaho, were leading contenders for the title of the lake's "hottest fishermen." Each had more than 30 big rainbows to his credit for the season.

During the warm summer months anglers turned to monel and leaded lines and took the big rainbows at depth ranging up to 50 feet. For spring and fall fishing, surface lines did the trick.

Wakiest catch of the year was registered by Ed. Hall of Whiskey Rock, Idaho, who snagged a 23-pound rainbow in the tail with a No. 6 hook while trolling for bluebacks. His wife rowed him ashore, where six witnesses verified that he won a lengthy tug-of-war with the big scrapper.

### News Very Scarce

This is another of those weeks when it seems as if there is just nothing going on that will make news. Perhaps it is the natural "let down" following the Thanksgiving holidays, or perhaps it's the very inclement weather. But be the cause what it may, news is very, very scarce.

Why travel slippery roads any further than necessary? Do that trading in Kendrick!
