Truck Goes Over Bank

The Ford dump truck, belonging to the Kendrick Highway District, and with Bud Harris at the wheel, plunged over the bluff near the Henry Brammer home Tuesday afternoon, turned over one-and-a-half times and landed at the edge of the railroad track, near the creek, and just out of the water.

Bud was coming this way, and, as we understand it, in rounding the curve, got too close to the edge and the soft shoulder "sucked" the truck over. Mr. Harris received a good shaking up, but was otherwise uninjured. The truck seems rather "the worse for wear."

Warns Of Discension
—All friends of education in Idaho should stand for the positive completion of the state-wide education program enacted by the 1947 Legislature, stated Alton B. Jones, state superintendent of schools. Idaho children should not be saddled with the paralysis of analysis which is characterized by the delaying action of the recent suit arising in Payette county attacking the constitutionality of some phases of the new program.

Naturally there are a few "bugs" in the mass of laws passed by the last legislature; that not only applies to education but it applies to other laws. This series of laws represent a strong chain of educational opportunity and better quality of instruction for our boys and girls. To play now to pick the program apart only fouls up the work of the next group of legislators.

If there are any changes in the law to be made it is the business of the legislature to make or change the laws. They represent the people. Remember this program had the overwhelming support of the last legislature. It is the program to which we are committed.

The state department of education will stand loyally behind the welfare of the school boys and girls of Idaho. We will do no less, said Jones.

SHORT NEWS ITEMS FROM OUR LOCAL SCHOOLHOUSE

Kendrick Defeats Genesee
Kendrick's red-clad Tigers sank their claws into the ball to score 16 points in the final quarter of play while holding Genesee to 7 points, to win 45-37 in a contest in the local gym. Friday evening. The Kendrick B squad came from behind to defeat the Genesee B's 34-25 in the warm-up game.

Slow in sharpening their claws the Tigers trailed the first three quarters — 11-8; 21-17 and 30-29. Then the boys really turned on the heat and with Easterbrook pacing the play and tallying 13 points, rapidly overhauled and passed the Genesee Bulldogs. Herbie Millard dropped in total of 16 points to lead all scorers.

Bennett with 11 points was outstanding for Genesee and set up the Bulldog plays. Peterson chipped in 8 points to aid the Genesee cause.

The score by quarters: First, 8-11; Second, 17-21; Genesee; third, 29-30; Genesee; final, 45-37, Kendrick. Officials were Walker and Newland.

The Kendrick gym, was packed to the rafters with cheering and booping fans — and even if a shoe horn had been used it was doubtful if another onlooker could have been jammed in.

Entertainment between the halves and between games was provided by the Kendrick band and Kendrick's "twirlers" or majorettes, then by Max Clemenhagen, champion foul shot of the school, who displayed his skill by sinking 16 baskets in 20 tries.

Kendrick Wins At Tournament
Winchester, Kendrick and Lapwai basketball squads took an early lead in opening night Valley league sub-district play Monday evening, with Winchester downing Juliaetta 33-25; Kendrick marching over Gifford 35-25, and Lapwai defeating Culesac 58-24 on the Lapwai gym floor.

Kendrick's Herb Millard, with 16 counters, racked up most points of the game in pacing the Tigers to victory over Gifford. High for Gifford was George Heitman with 12.

Highlights of the evening's play for many fans was the sight of the Juliaetta cheer leaders leading Kendrick's rooting section, assisted by the Lapwai band, in cheers — and the playing of the combined Lapwai and Kendrick bands, which were directed by Paul Forsberg of Kendrick.

Such displays of friendship and sportsmanship go far toward making a tournament a success.

Wins Foul Shooting Contest
Tuesday evening in the U. of I. gymnasium, in competition with other school children 14 years and under, Max Clemenhagen from Kendrick won the foul shooting contest, dropping in 14 out of 20, with the next competitor, a Moscow youth, getting 13 out of 20.

Schools participating were Southwick, Juliaetta, Kendrick, Bovill, Elk River, Deary and Moscow.

Wednesday evening Max went to Genesee to shoot against the representative of that school, as well as others, whose names we did not learn.

The winner of the contest in this area will go with the Idaho Vandals to Seattle for Northwest competition, and the winner there will go on to Portland in the search for still more honors.

The group taking part in the contest were taken through the Daily Idahoian and shown the different steps taken in publishing a daily paper.

Glorious Spring Weather

Saturday the weather began warming up a bit — Sunday we were hit with a real old-fashioned chinook wind, one that made you pull up the zipper on your coat, but also rapidly cut the snow from the north slopes and the ice from the ground. Monday the wind was gone but the temperature climbed swiftly, followed by a half-day of heavy rain — and Tuesday was one of the most beautiful days that anyone ever saw — and local residents readily admitted that it wouldn't take many days like it to bring out severe cases of spring fever.

SLIGHT CHANGES MADE IN RE-ORGANIZATION PLAN

A letter from Louis A. Boas, chairman of the County School Reorganization Board, Moscow, to the Gazette, under date of February 12, carries the following pertinent and official information:

"The county committee, meeting at Moscow later, made several slight modifications which we believe will meet the objections raised at the hearing (Kendrick, Monday, Feb. 9).

"In designating Kendrick as the place for a high school attendance unit we added: 'Or at such place as the trustees might designate,' and the same phrase after the designation of Kendrick as the site of the district's administration.

"All of Leland and Welker districts now go to Kendrick — which the county committee had requested in the first place but could not obtain from the Nez Perce county committee.

"About 200 acres on American ridge were added also to bring one resident within the Kendrick district.

"The Kendrick trustee sub-district (No. 2) was enlarged slightly to meet objections that all five trustees could not, though not probably, come from 'larger Kendrick'."

"The committee is hopeful that when the plan is put to a vote it will win overwhelming support."

Consolidation Plans Approved
Boise, (AP)—The state board acted favorably on a Kendrick-Juliaetta school district merger.

Consolidation of school districts in Nez Perce, Latah and Clearwater counties into one unit known as "Kendrick Joint Independent District No. 283" braved a storm of public objection before winning approval by affected residents.

Road Is Really A "Dilly"
With the coming of warmer weather Sunday, the frost began to leave the ground, and by Monday, following a torrential downpour about three hours, water was really flowing everywhere — and the stream running down Brady Gulch was certainly no exception — for, running down the top of the rock pile at the foot of the Gulch, it spread out all over the ball diamond, covering the road this side to a depth of about six inches, and most of the road from the gully to the Henry Brammer place with from two to six inches of water. This situation was plenty tough for those who have to travel it — but added to this group were the many cars going to the basketball tournament at Lapwai.

Little, if any trouble was experienced in crossing going down, most of the cars making that between 5:30 and 6:30 — but coming home it was a different story. The water had come up several inches, and the creek was busily rolling rocks into what had once been a road.

As a result, Ernest Brammer of the state highway crew, was manning Dee Shepherd's big bulldozer, and was forced to "doze" out a path for almost every car — and in addition, push many of them through, for the water "drowned" many a distributor, or else the car hung up on hidden boulders in the swirling waters. Wet floor boards and cushions and occasionally feet were no novelty, and just how much damage was done to cars it is impossible to estimate.

Mr. Brammer stayed at his post a-top the dozer until midnight — and says he was busy every minute.

The finger of criticism might be pointed here and there for the condition of this so-called "highway," but all we can say is that it is a disgrace to the highway system of any state, county or community.

Important Hardware Deal
A deal has been consummated whereby Frank Abrams will become the owner of the hardware and electrical department of the Kendrick Bean Growers, taking charge on March 1st.

The Kendrick Bean Growers Association will hold their annual "Family Day" lunch and show on February 23rd, and that will be the final day of hardware department operation for the association. They will close that evening for inventory, and when the store re-opens on March 1st, it will be known as Abrams' Hardware.

A complete statement of the lines to be handled by the two businesses will appear in next week's issue.

Grange Pinochle Party
Tuesday evening Kendrick Grangers enjoyed an evening of pinochle, followed with a pie social.

High scores were awarded Mrs. E. M. White and Alex Weaver; with Mrs. Roy Glenn and Clarence Weaver. The "galloping goose" followed Ernest Roberts home.

P. T. A. Monday Evening
The regular business meeting of the Kendrick P. T. A. will be held Monday, Feb. 23rd, in the High school auditorium.

The Cameron ladies will be the hostesses for the evening.

HEAVY LIQUIDATION IN MARKETS LOWERS PRICES

Heavy liquidation in the grain markets both in futures and cash throughout the country continued in full swing at the close of the past trading week, according to reports to the Market News Service of the U. S. D. A. For the five-day period May wheat at Chicago declined 29 1/2¢ and May corn was down 26¢ per bushel, while in the cash markets of the Pacific Northwest bid prices on the export classes of wheat declined 40¢ per bushel for the same period. At the close of the period for the two weeks, May wheat in Chicago had declined 49 1/2¢ and bid prices on export wheat at the Portland market dropped 78 1/2¢ per bushel during the same period.

Trading became demoralized and buying interests in the market were almost lacking; while on the other hand, near the close of the period, growers generally were reported not pressing for sales at prices that were being currently quoted. All classes of the trade were very cautious and appeared to be awaiting more stable conditions before taking a position in the market.

Oats and barley did not decline as much as wheat, but in the absence of trading values were difficult to determine.

Trading in cash wheat in the Portland market during the past week was practically at a standstill, largely as a result of drastic declines in the futures and other cash markets. Maximum declines in the futures market for three days in succession caused the local cash markets to become somewhat demoralized and most buyers withdrew entirely from the market. As the outlets for wheat narrowed, the ideas of value between buyers and sellers covered a very wide range — as much as 15¢ per bushel on one day. Buyers for flour mills were not active in the markets, taking only very limited quantities of grain with no bid posted for milling wheat except on the last day, and then, only for the highest grades. The local office of the Commodity Credit Corporation did not report any purchases during the past week.

Flour prices in this area were reported to have dropped 40¢ to 45¢ per 100 during the week, but no changes were reported in bread prices as bakers are reported to have stocks of high-priced flour on hand.

Shipments of wheat to the terminal markets continued to decline with 224 cars reported at the Columbia river terminals and 161 cars at Puget Sound terminals for the week, compared with 284 and 302 respectively, for the previous period.

Bid prices on the Portland Grain Exchange were principally confined to the export classes of wheat on the markets close and were as follows: Soft white, soft white (no Rex), white club, western red hard red winter, all \$2.02, basis No. 1, bulk, 15-day shipment, coast delivery.

Wheat receipts at Ogden during the week totaled 32 cars. Prices quoted by Ogden mills were: Hard white \$2.22 and all other classes \$2.02 per bushel, basis No. 1, bulk, f. o. b. Ogden. Country prices averaged 20¢ per bushel under Ogden.

The San Francisco wheat market suffered further sharp declines during the week, reflecting largely the weakness in other markets. While offerings of wheat from growers in nearby producing areas remained relatively light, Pacific Northwestern and Intermountain shippers were pressing for sales and quotations were as much as \$1.00 per 100 under those of a week ago. Demand appeared somewhat improved at the lower prices but takings were restricted largely to immediate requirements. Most Bay region dealers and industries were afraid to make any important commitments until the market reached a more settled condition.

The slump in grain values at Kansas City continued uninterrupted throughout the week, except for the short-lived spurt of strength which appeared for a short period, and wheat futures suffered full declines of the 10¢ daily limit during five out of the seven business days. The general lack of confidence in high prices appeared as the principal influence behind the sensational

Potlatch Chief Sez

PUBLISHED BY THE KENDRICK CO-OPERATIVE CREAMERY

HELLO, THERE, FOLKS:

About Ice Cream:
POTLATCH CHIEF Ice Cream for flavor, texture and quality—get some today for lunch or dinner. For a delightful change we have added Maple Nut to our long list of flavors—so come in and buy a quart or two and treat the family to their favorite dessert.
 We are still carrying a supply of "Toppers" in different flavors—which will add real enjoyment and make that naturally fine vanilla ice cream even more tasty to your guests. It enables you to serve a "sundae" at home.

Who's got the bottles?
 Please, folks, we must have our bottles in order to refill them for you. Keep all milk bottles cleared away at your house by returning them promptly to the creamery.
 Look over that back porch, the

cellar and broom closet—see if you can't find us a few.

About Baby Chicks:
 Have you ordered your **BABY CHICKS** yet? If not, get busy and do so right away to insure delivery at the time you want them. Remember—the sooner you get those chicks the sooner you will be tasting delicious fried chicken. Erving's chicks excel all other baby chicks available, and when compared with grade A chicks from other hatcheries, they are much cheaper.
 Ask for our price list now, and get that order placed at once.

Critic: "It strikes me as being an impressive statue, yet isn't that rather an odd posture for a general to assume?"
 Sculpture: "Well, it isn't my fault. You see I had the work half completed when the committee decided they couldn't afford a horse for the general."

Feeling Like The Weather? . . . 'Sorta Droopy?

If you are, let us "Prescribe" now!

FOR BREAKFAST—A big glass of chilled fruit juices, followed with a stack of steaming flapjacks, covered with honey or syrup. Or, if you prefer, make it bacon, eggs and toast.

FOR LUNCH—A crisp, fresh vegetable salad, its content's selected from our frozen food display case—followed by thin slices of fresh fried fish, potatoes and vegetables. And for dessert, a pudding or gelatin chosen from our stock.

FOR DINNER—A sizzling steak with all the trimmings—need we say more?

Follow These Directions And You Can't Help But Lose That "Droopy Feeling!"

Idaho Facts Worth Knowing
 The navy's gun re-lining plant at Pocatello is said to be the most modern plant of its kind in the United States. The navy operates only one other plant in Maryland, for the re-conditioning of its big guns. The plant at Pocatello employs about 1,200 persons.
 In south central Idaho (Seven Devils, Salmon and Snake river areas) are the largest primitive areas remaining in America. An immense, unspoiled wilderness of forests, lakes, rivers and mountains where deer, elk, bear, mountain goat, cougar and mountain sheep are still found in large numbers.
