

KENDRICK GAZETTE

VOLUME 58

KENDRICK, LATAH COUNTY, IDAHO, THURSDAY, APRIL 29, 1948

NO. 18

SHORT NEWS ITEMS FROM OUR LOCAL SCHOOLHOUSE

Music Festival This Week-end
On April 30 and May 1 the great spring Music Festival is to be held in Lewiston and will be attended by the various schools of this area. Kendrick's school band and chorus is proud to attend this event this year — the first time in several years. It will last two days, with all competitive events on Friday, and the massed group rehearsals and performances on Saturday. A parade through downtown Lewiston will be held on Saturday at 1:15 p. m.

Below is a tentative program or schedule of events to take place in the Senior high school, Lewiston:

Friday —
8:00 a. m. to 9:00 a. m., registration.
9:00 a. m., and continuing throughout the morning and afternoon, solo and other competitive events. Both choruses, girls' and boys' glee club, and various instrumental numbers.
1:30 p. m., Junior high band, orchestra, and band sight reading.
2:30 p. m., Baton twirling, Junior high school play field.

7:45 p. m. Class D. C. B. bands. Kendrick high school band will have a performance for 30 minutes, during which time they will play several marches, two overtures and an alto horn and sax selection.

Saturday's Program —
7:45 to 10:45, orchestra.
10:45 to 12:00 noon, chorus.
1:15 p. m., parade. Forms at Lewiston-Clarkston bridge on Snake River avenue.

2:15 to 4:45, band, Senior High auditorium.
8:00 p. m., Festival program — massed orchestra, massed chorus, massed band.

Again Lewiston sincerely hopes that their effort will be successful to the point that all will look forward to these spring music festivals, year after year. We would cordially invite all parents and friends from Kendrick and the surrounding territory to attend this year.

Music on May 7th
Both chorus and band at the K. H. S. will give an entertainment of music Friday evening, May 7, at 8:00 p. m., to be held in the gymnasium. The grade school will also participate with a music number from each grade.

This will be the first presentation at concert for both chorus and band. The chorus, under the direction of Mrs. J. H. Coulter, and the band under the direction of Paul Forsberg, are working diligently for this program. All parents and friends are cordially invited to attend.

Smoker Scheduled

There will be a smoker featuring the athletes of the Kendrick grade and high schools on Tuesday evening, May 4, at 8 p. m. Boxing and wrestling will be the chief items of interest and such familiar Kendrick names as Basterbrook, Millard, Greenhalgh, Hanks, Thornton, Armitage, Brocke, Wallace, Shreffler, White, Grim, and many others will be seen in action.

Frank Young, boxing coach, will be on hand to referee these bouts. He will also have with him four of his boys (including Herb Carlson, national champion) who will appear in exhibition matches.

Proceeds from this entertainment will go towards the purchase of a mat and ring and installation of the ring.

Players Are Coming

A group from N. I. C. E. with their instructor, Miss Silverthorne, will entertain the community with three one-act plays, to be presented at the high school gym. on Thursday evening (tonight) at 8:00.

Freshmen Entertain

The Freshmen of K. H. S. gave a party Monday evening for all the high school students — and about 30 were present. There was dancing and refreshments were served.

Sophomore Class Give Party
The Sophomore class gave a party Wednesday evening of last week. Each class member was to ask another high school pupil to attend. Dancing occupied the evening, with refreshments being served. Twenty-three were present.

Kendrick Defeats Deary

The Tigers rolled on to victory over the Vikings of Deary last Friday, April 23, at Kendrick, the first ball game held on the local diamond. The game was not completed on account of rain. In the fourth and final inning the score was 4-0, Kendrick. It was a conference game. Batteries were Hanks and Brown. Deary got no hits — Kendrick 2.

Lewiston's Defeat Tigers

The Lewiston B squad defeated the Kendrick Tigers 12-4 in a non-conference game at Lewiston Tuesday. Batteries for Kendrick were Hanks, H. Millard, Brown and D. Millard.

The boys who did not play at Lewiston will go to Deary Wednesday for a game. The team will comprise one Senior, the rest Juniors.

Present Assembly Program

The first and second grades gave a most enjoyable assembly program last Friday — consisting of a variety of acts from "darkies" to the "grown up" type. It was highly enjoyed by all.

Tea Party

A delightful tea party was given by the first and second grades and their teacher, Mrs. E. Brammer, on Thursday afternoon. The mothers and fathers were invited for the occasion.

Services For Harold Glenn

Funeral services for Cpl. Harold Clifton Glenn, U. S. M. C., son of Mr. and Mrs. John Glenn of Fairview, will be held Monday afternoon, May 3, at 2:00 o'clock at the Brower-Wann Chapel, Lewiston, with Dr. J. H. Coulter, Kendrick, bringing the message.

The graveside services to follow will be of the military type.

We regret that further information is not available at this time.

Cpl. Glenn gave his life for his country February 26, 1945, on Iwo Jima.

CALDWELL PLEADS FOR AID IN LOCATING PLANE

The Gazette is in receipt of the following letter from the Caldwell, Idaho, Chamber of Commerce, which is self-explanatory:

"Gentlemen:
"No doubt from the daily press and possibly from your news service you have learned that Mayor R. H. McNeill, Mrs. McNeill, and Mr. and Mrs. Don Baldrige, all of Caldwell, have been missing on an airplane flight from Coeur d'Alene, Idaho, to Boise, Idaho, since April 18th.

"There is reason to believe that they are down in your locality. The plane was a blue, four-place Stinson. The City of Caldwell requests your cooperation in spreading the word that this plane is missing to your readers, and hope that any of them who saw such a plane on the day in question will get in touch with your sheriff's office. The word will then be forwarded to the State Director of Aeronautics.

"Vacationists, fishermen, lumbermen, hunters, hikers and others who might have cause to go into the forests in your locality are urged to be on the lookout for any fragments of this plane, or baggage, or other clues which might lead to locating the parties.

Ground search headquarters are being set up at the Kootenai Inn at St. Maries, Idaho, by "Gopher" E. Wright, secretary of this organization. We request that you get in touch with Mr. Wright before your next publication date, and perhaps he can give you more recent and better localized information.

"A. C. Garber, President."

Slim Clue Found

A new lead for ground parties searching for the missing Caldwell airplane was found Monday by Bert Zimmerly of Zimmerly Air Transport. While flying six miles northwest of Pierce at 3:00 p. m. Zimmerly spotted "eight or ten" broken tree tops. However, a close inspection of the nearby area failed to reveal any signs of plane wreckage.

A ground crew left Orofino Tuesday to investigate the report.

The Associated Press at Spokane reported two C-47's, a B-17 bomber and two L-5 planes of the air force search and rescue service assembled Monday at Felt's Field to continue the search. The craft arrived from Denver, Colo., and Tacoma, Wash.

Searching in the Orofino area on Monday and Tuesday were other Z. A. T. planes carrying Mr. and Mrs. Stanley Hepler of Southwick, Arlos Shoemaker and Ralph Jordan. —Lewiston Tribune.

Celebrate Birthday Anniversaries

Mrs. Claude Craig, Mrs. Ervin Swenson, Mr. and Mrs. Alva Craig and family, Mr. and Mrs. Burton Souders and family and Mr. and Mrs. Julius Caesar and family called Saturday evening to help Jack and Gene Basterbrook celebrate their tenth birthday anniversaries.

Ice cream and cake were served. Raymond having his "basketball" gift cake made for a birthday cake for them.

Show, girls: Recitations, "A Little Boy's Ma," Leonard Eldridge; "Nothing But Work" (Negro skit), Donald Travis and John Ware; "A Sad Story of Jack-Be-Nimble" (choral reading by all the children). Committees were: Doorknockers, Glendon Davis, Larry Arnett; Pass Napkins, Harvey Millsap, Jeanine Swanson, Douglas Hudson; Pass Spoons, Ronald Parks, Robin Magnuson and David Jones; Pour Tea, Karen Loudon, Judy Koehn; Kitchen Helpers, Alice Cann, Marilee Westendahl; Serve Tea, Bernice Fraser, Donald Travis, John Ware, Rav Onstott, Phyllis Hudson, Bruce Clemenhagen; Pass Sugar and Lemon, Eddie Galloway, Reggie Weener, LeRoy Brocke; Pass Cookies, Patricia Mielke, George Garner, John Dunham; Pass Mints, Glendon Davis; Collect Dishes, Jean Jones, Randy Wallace, Patty Stephens; Serve to Children, Richard Dunham and Douglas Millsap.

Mrs. Henry Jones surprised Jean Jones with a birthday party Friday afternoon, at the first and second grade room, having the pupils as guests.

Third and Fourth Grades

Friday of last week Wilma Benscoter taught the third and fourth grades while Mrs. Gruell accompanied her mother to Spokane to consult an eye specialist.

Robert Dunham was the only pupil from the third and fourth grades to go to Poltatch for the 4-H club meeting there.

Fifth and Sixth Grades

The fifth and sixth grades went on a Nature Hike, collecting flowers and rocks for their collection. Lunch was prepared, and a good time had by all.

Eighth Graders Lose

Thursday of last week the seventh and eighth grades played a softball game with the Freshmen — the result favored the Fresh, 11-7.

Mrs. W. L. McCreary served cup cakes and ice cream cones to the whole room, honoring Parker McCreary's birthday anniversary.

PERSONALS AND NEWS ABOUT KENDRICK FRIENDS

Mr. and Mrs. Marvin Long had as dinner guests Tuesday evening Capt. and Mrs. Jack Maxwell and baby daughter, who just returned from Japan, and Mrs. Maxwell's parents, Mr. and Mrs. Edgar Long.

Mrs. C. E. Harris was a Troy visitor Tuesday.

Mrs. Anna Marie Oslund, (Idaho's Model Mother) of Troy visited her niece, Mrs. Jack Maxwell (nee Barbara Long) Sunday. Accompanying her were Mrs. Wm. Chaney and son and Mrs. Wilbur Cox of Moscow, who are cousins of Mrs. Maxwell.

Mr. and Mrs. Otto Schupfer were callers at the home of Mrs. Mary Deobald, Sunday.

Mrs. Harry Benscoter underwent a major operation at the Lewiston Clinic, Monday.

Mr. and Mrs. Otto Schupfer and Mr. and Mrs. Walter Meyer and daughter Judy, the latter of Long Beach, Calif., visited with Mrs. Meyer's grandmother, Mrs. Mary Deobald, Tuesday.

Capt. and Mrs. Jack Maxwell and baby and Mr. and Mrs. Edgar Long were dinner guests Monday evening in the Paul Lind home.

Mrs. Fred Siffow was a Moscow visitor Wednesday.

Harry VanGordon was a Moscow caller Monday.

P. F. Ebert, Cheney, Wn., was a guest Sunday in the home of his son, Mr. and Mrs. Bruce Ebert.

Mr. and Mrs. N. H. Rhodes of Lewiston were dinner guests in the McCreary home, Sunday.

Mr. and Mrs. Raleigh Smith and family of Spokane visited her mother, Mrs. Ida McAllister, Sunday.

Mr. and Mrs. Elmer Kirby and son Larry of Clarkston visited Sunday in the Julius Caesar home.

Mr. and Mrs. Leroy Anderson and daughter Janet, and Mr. and Mrs. Robert Lee and son Gary of Lewiston were Sunday guests of Mr. and Mrs. Oral Craig.

Ernie Hudson took Hugh McDowell to St. Maries, Sunday, for a check-up. Hugh is now moving about quite freely with the help of crutches.

Mr. and Mrs. Claude Craig visited in the Jay Stout home at Lapwai, Tuesday.

Mrs. Bertha Wells of Moscow is visiting her sister-in-law, Mrs. Grace Souders, this week.

Mrs. E. Eldridge and children and Mrs. W. W. Eldridge were Lewiston shoppers Monday.

Mr. and Mrs. E. A. Deobald were Spokane business visitors Monday.

U. of I. students home over the week-end included Beverly Schupfer, Ida Marie Siffow, Bob Watts, Teddy Deobald and Tom Long.

Mrs. J. G. Travis received word on Monday of the critical illness of her mother, Mrs. Anna Hagen of Bow Island, Alberta, Canada, and she, in company with her sister, Mrs. Effie Bakken of Billings, Mont., who was visiting here, and Mr. and Mrs. Roy Bryant, left at noon of that day by car for her mother's bedside.

Mr. and Mrs. Walter Meyer and daughter of Long Beach, Calif., arrived here Monday to spend a ten-day vacation with her parents, Mr. and Mrs. Otto Schupfer, and other relatives.

Mr. and Mrs. Russell Smith and daughter were Moscow visitors Saturday.

Carl Eich, Endicott, Wash., spent the week-end here with his son, Larry, and brother, Theodore.

Joe Piper, Lenore, spent Monday here attending to business and visiting with friends.

INTERESTING HAPPENINGS FROM JULIAETTA AREA

Mr. and Mrs. Ralph Magnuson, accompanied by her father and brother from Minot, North Dakota, motored to Bonners Ferry on Friday, returning Tuesday.

Mr. and Mrs. Woodrow Nye and little daughter Ardene motored to Lewiston on Sunday with Lloyd Nye, who is employed there with the R. E. A. travel service.

Mrs. E. C. Dick of Lewiston visited her daughter, Mrs. Jack Hammond and family, Tuesday.

Mr. and Mrs. Louis Lindquist motored to Moscow Sunday, where they visited with Mrs. Lindquist's mother, who has been at Euphrata, Wn., for the past two months.

Mr. and Mrs. Arnold Zimmerman and son Larry spent Sunday at the home of her parents, Mr. and Mrs. Asa Cook.

Mr. and Mrs. Warren Peters and family have moved into the Lura Nelson residence on Water Street.

Mr. and Mrs. Gordon Swears and daughters Beverly and Carol Ann have moved into the Kirkpatrick apartment house on Main street.

Mr. and Mrs. John Woodruff of Clarkston; Mr. and Mrs. Paul Woodruff of Lewiston and Mr. and Mrs. Chet Woodruff, also of Lewiston, visited in the H. L. Groseclose home Sunday.

Mr. and Mrs. Jack Browning motored to Lewiston on Sunday.

Mr. and Mrs. Carl Hueth of Wallace are visiting Mr. and Mrs. Bob Youne.

Chloe McKeever, Marilyn Schupfer, Maribel Schupfer, Helen and Margie Johns motored to Lewiston to a movie, Sunday.

Ruth Anderson, Mable Voage, Mr. and Mrs. Martin Shove and son David, Mr. and Mrs. Benny Weatherby and son, Mabel Taylor, Mrs. Beulah Peters and Mrs. Eleanor Hammond motored to Lewiston Sunday to attend the concert of the Cappella Choir from Nampa College at the Nazarene church in Lewiston.

Mr. and Mrs. John Trombetta and Dick Johns spent Friday, Saturday and Sunday on a fishing trip in the Selway country.

Mrs. Anita Brandt is enjoying a visit from her sister from Boise, Mrs. Hazel Porter. They spent the week-end in Moscow, where they visited at the home of their brother, Eben Adams and family.

A deal was consummated last week whereby Asa Cook became the owner of the Phil Johns property near town. The Cooks, who will not take possession until after October 1st, will make it their winter home.

Mrs. Nellie Biddison gave a birthday party honoring Rose Marie Wilson's 11th birthday anniversary. Guests were Connie and Frances Freeman, Catherine Coles, Sue Tackler, Mona Hammond and Karen Nelson from Juliaetta. Out-of-town guests were Rose Marie, her mother, her sister Dorothy, Mrs. Maxine Fry, Geraldine Onstott, Wilma Jean Wilson and Bobby Vaughan, all of Kendrick, and Wilma Marie Wilson of Southwick. Refreshments of sandwiches, cake, ice cream and kool-aid were served. Rose Marie received many lovely gifts. Mrs. Wilson and Mrs. Fry assisted in serving.

Guests at the Laura Groseclose home over the week-end were Mr. and Mrs. Ted Taylor and children of Pullman, Wash.

Mr. and Mrs. Gerald Taylor and three sons of Hermiston, Ore., were week-end guests of relatives and friends here. Mrs. Lizzie Mitchell, who had spent the winter at the Groseclose home, returned with the Taylors to Hermiston, for an indefinite stay. She is Mrs. Taylor's aunt.

Mrs. Etta Van Horn left for Seattle on Wednesday for a month's visit with her sister.

Mrs. Loye Tacker was a Kendrick business visitor Tuesday.

Parents Receive Medals

The Air Medal and Purple Heart Medal have been received by Mr. and Mrs. Frank Thornton Southwick. The medals were awarded them, son, Flight Officer Harold A. Thornton. He was killed in action on July 5, 1944, off the coast of Ceram island of the Dutch East Indies.

Flight Officer Thornton enlisted in the army air force in January of 1941. Other medals previously received by his parents include the presidential citation with an oak leaf cluster, the Pacific theater of war medal with five battle stars, and the Victory and good conduct medals. —Lewiston Tribune.

Boy Scouts Busy

Saturday morning saw 12 of the Boy Scouts, with their Scoutmaster, Eugene Lind, working to clean the cemetery of the winter accumulation of debris.

Tuesday evening Troop 149 met at the city hall for their regular session. They are working on rank advancement, endeavoring to get the whole troop through to second class Scouts. There are four new members that will have to pass the Tenderfoot tests as well.

With the coming of nice weather the group is planning an out-door session for the next meeting. The setting will be Lukens' flat, with a camp fire and out-door cookery.

Laymen's Dinner

The Laymen's dinner and fellowship meeting at the Community church Tuesday evening was well attended, there being 55 present.

A musical program was presented by Paul Forsberg, Danny Crocker, Dick and David Coulter and Charley White. Dr. Brower of the Long Beach, Calif., Baptist church, was the speaker of the evening.

The 7:00 o'clock dinner was served by the Kendrick W. S. C. S.

Bride To Be

Mr. and Mrs. Silvie Cook of Lewiston announce the forthcoming marriage, May 9, of their daughter, Margaret Eleanor, to T/Sgt. Lloyd W. Frazier, son of Mr. and Mrs. Rolla H. Frazier, W1214 Tenth, Spokane.

Miss Cook is a graduate of Lewis and Clark high school and is attending St. Luke's school of nursing.

Sgt. Frazier is a graduate of John R. Rogers high school and has been in the Okinawa area of occupation for the last 14 months.

The wedding will take place at the Methodist church in Lewiston.

Other News

Mr. and Mrs. Chester Vincent and children returned to their home on Tuesday, after spending several weeks in Clarkston with Mrs. Vincent's parents, Mr. and Mrs. Robt. Robinson.

Mr. and Mrs. Weyne Weyen, accompanied by Mr. and Mrs. Robert Draper and Mr. and Mrs. Marvin Vincent were Spokane visitors on Thursday.

Mrs. Jesse Thornton returned home Friday after spending nearly two weeks in St. Joseph's hospital, Lewiston.

Mr. and Mrs. Harvey Thornton of Spokane were Saturday over-night guests of Mr. and Mrs. Jesse Thornton.

Mr. and Mrs. Ervin Draper were Sunday dinner guests of Mr. and Mrs. W. A. Deobald at Moscow.

Mr. and Mrs. Wm. Rogers and son Ricky of Moscow were week-end guests of Mr. and Mrs. Marvin Vincent. Mr. and Mrs. Dick Lange and son Donnie of Clarkston and Mr. and Mrs. Chester Vincent and family were also Sunday dinner guests.

A group of self-invited guests met at the John Vincent home on Friday to spend the evening.

Rev. and Mrs. Theo Meske were Monday evening visitors in the home of Mr. and Mrs. Harold Siffow.

Sunday dinner guests of Mr. and Mrs. Emil Siffow were Mr. and Mrs. Henry Wendt and daughter Marjorie, Mr. and Mrs. Marvin Siffow and son Dale, and Mr. and Mrs. Fred Siffow and Ida Marie.

Mrs. Bill Johnson and family were Saturday visitors in the home of Mr. and Mrs. Gordon Peters.

Mr. and Mrs. Herbert Schwarz were Tuesday evening visitors in the home of Mr. and Mrs. Harold Siffow.

Mr. and Mrs. Weyne Weyen and granddaughters Kaye and Carol were Sunday dinner guests of Mr. and Mrs. Ted Weyen.

Mr. and Mrs. Wilbur Tarbet and family and Mr. and Mrs. Harold Siffow and Ernie Helmgartner spent Sunday in the G. W. Tarbet home in Lewiston.

Mr. and Mrs. Billy Weyen, Mr. and Mrs. Gordon Peters and Elmer Peters spent Sunday fishing on the Snake river.

Mr. and Mrs. Lloyd Craig and daughter Marcella, Mrs. Dora Hefel and Mr. and Mrs. Roy Craig and daughter Paige were Sunday afternoon callers at the Jesse Thornton home.

Piano Recital

The piano recital presented by Dick Coulter Sunday afternoon in the Community church was received by an appreciative audience.

Dick, a high school Junior, gave a brilliant performance from first to last, displaying an understanding of tone and color seldom heard in such a young artist.

The numbers presented were: "Three Part Invention, No. 2," by Bach; Sonata Op. 27, No. 2 "Moonlight," by Beethoven; Adagio sostenuto, Allegretto, Presto agitato, "Preludes," Op. 28, No. 4, No. 6, Chopin; "Grillen" (Whims) Op. 12, No. 4, Schumann; "Romanze," Op. 28, No. 2, Schumann.

"Andalucia," Lecuona; "Romance" Op. 24, No. 9, Sibelius; "Waltz Brillante," Moszkowski.

The enthusiastic audience called for an encore at the close of the regular program and were given "The Golliwog's Cake Walk" by Debussy.

Garbage Meeting Tuesday

A meeting of business men and "city fathers," presided over by a state health department representative, was held at the city hall Tuesday afternoon regarding the garbage disposal problem, and it appeared from his remarks that the present city ordinance covering that matter should be revised.

WHEAT STRONGER AS GOVERNMENT PURCHASES

Domestic wheat markets averaged slightly stronger during the week influenced principally by large purchases of wheat and flour by government agencies and light marketings by growers, according to reports by the U. S. D. A. Advances, however, were held in check to some extent by reports of continued favorable new crop prospects and the only moderate demand from mills and other classes of trade. As for some time past, most buyers continued to limit their wheat purchases to immediate requirements alone. As a result lower premiums for cash wheat tended to offset a part of the advances to around 2c to 6c per bushel in the basic central western futures markets. Pacific Coast prices generally showed advances of about 2c per bushel compared with a week ago.

The Commodity Credit Corporation purchased 7,315,683 bushels of wheat during the week ending on March 26, including 6,501,567 bushels through the Kansas City office, 496,650 through Chicago, 250,000 through Minneapolis and 67,466 bushels through Portland, Oregon. Flour purchases during the week totaled 40,390,000 pounds (equal to about 882,671 bushels of wheat). Purchases during the week brought the total takings of wheat since July 1, 1947, up to 222,837,846 bushels of wheat; flour 2,332,901,700 pounds (51,648,051 bushels equivalent); barley, 5,703,805 bushels; oats 5,275,561 bushels; grain sorghums 4,712,611 bushels; rye 912,460 bushels and corn 2,000 bushels.

Fall-sown wheat made generally good to very good progress during the week. Rapid growth and improvement were reported from the southern sections and wheat fields were greening as far north as southern Minnesota. Reports indicate that wheat is in mostly good to very good condition, although the plants of the late germinated are still small in southern portions of the western plains area. More moisture is said to be needed in the southern and western high plains of Texas. Additional rainfall made for further improvement in California wheat prospects.

Prices paid U. S. farmers for wheat at the middle of March averaged \$2.21 per bushel, compared with \$2.12 per bushel on February 15, and \$2.44 per bushel on March 15, 1947.

Pacific Northwestern wheat markets advanced around 2c per bushel, reflecting the firmer tendency in markets to the eastward and small offerings from Washington and Oregon growers. Receipts dropped further, with only 118 cars received at Columbia river and 119 cars at Puget Sound markets during the week. The C. C. purchased an additional 33,333 bushels of wheat at Portland while inquiry from flour mills appeared slightly improved from a week ago. At the close of the week dealers at Portland were bidding \$2.39 per bushel for No. 1 soft white, No. 1 white club, No. 1 western red and No. 1 red winter wheat, in bulk, delivered to coast markets. No. 1 hard red with 10 per cent protein was quoted at \$2.40 per bushel.

Intermountain wheat markets were firm with prices at Ogden advancing 1c per bushel, with No. 1 hard white quoted at \$2.42 and No. 1 soft white at \$2.32 per bushel, in bulk, delivered. Ogden. Country prices averaged about 20c per bushel less. Receipts at Ogden were but 48 cars.

The Los Angeles wheat market turned somewhat stronger with all prices advancing about 5c per 100 compared with a week ago. Local offerings were small and southern California wheat needs were largely filled by purchases in Intermountain markets.

The San Francisco wheat market averaged somewhat firmer, largely reflecting advances in other markets and the light offerings. While local demand was quite slow, prices advanced around 5c per 100 compared with the previous week.

Birthday Dinner

Mrs. Tom Keene honored her husband Saturday evening by inviting in a number of friends and relatives to help celebrate his birthday anniversary.

A buffet supper was served, with a huge decorated birthday cake centering the table. Each lady was presented with a corsage preceding dinner, and guests found their places at gaily decorated tables.

Those present were Mr. and Mrs. E. A. Deobald and son Charles, Mr. and Mrs. Wade Keene, Mr. and Mrs. Joe Watts and daughters of Moscow, Mrs. Johanna Nelson, Mr. and Mrs. Wm. Watts and son Bob, Mrs. Rance Oglesby and son Dwight of Lewiston, Rilla Davidson, Mr. and Mrs. Frank Abrams, Mr. and Mrs. W. L.

Mr. and Mrs. Walter Cochran of Juliaetta and Mr. and Mrs. Leland Houck of Clarkston were Sunday evening supper guests of Mr. and Mrs. Fred Glenn and family.

Much of Road Needs Rebuilding
A survey of the new Brady Gulch highway truly reveals the ravages of our long, wet winter and spring. The outer edge of the new highway is lined with signs and reflectors warning the motorist of soft shoulders, and it is right and proper that they should be there, for only in a few places is it possible to pull over anywhere near the edge.

In a number of places at least half the surfaced roadway has slid down the hill, in some instances two to three feet, and one would hesitate to step on the lower portion, to say nothing of driving a vehicle onto it. In three sections traffic is limited to one-way.

The big patrol of the Kendrick Highway district has been making regular trips on this road in an attempt to keep it in shape, but there is little a patrol can do except smooth the remaining surface and remove loose rock. As we see it a great deal of power equipment, such as shovels and bull dozers will be needed to fill the low spots in the road, bring up the shoulders, clean the ditches, and otherwise put the highway back into shape.

There is a tendency in some sections to blame poor construction. It is not up to us to say whether or not they are right, but the fact remains that the long, wet winter and spring never gave the roadbed a chance to settle before the downpour began, and what it might have been had we enjoyed a usual winter and spring is something that probably never will be known.

Shoe Shop Now Open

Cecil Babcock formally opened his new shoe repair shop for business Friday morning of last week. He is located on the side street behind the Dixie Clearners.

Cecil states that for an opening-business was better than he had hoped.

Well Pleased With Trade

J. G. Travis opened his new furniture store for business at Troy last Wednesday, and expresses himself as very well pleased with trade in that center.

Remodeling of the opening was done by Clarence Hiett and Ben Cook.

PERSONAL MENTION

lunch and gathered at the C. H. Fry home, honoring Maxine Fry's and Rosie Wilson's birthday anniversaries.

Mr. and Mrs. Jack Maynard and daughters were in Lewiston Sunday, where their daughter, Betty Jean, took part in the rodeo.

Mr. and Mrs. E. M. White were Spokane business visitors Wednesday.

Receives Letter Of Thanks
Some weeks ago, Mrs. Harry Baker put her name and address in the pocket of an old fur coat which was a part of a church gift shipment of garments for the destitute of Europe, and received a letter of thanks this week, as follows:

Karlsruhe, Germany
April 1st, 1948

Dear Sister in the Lord!
I was happy to receive your beautiful fur coat. With all my heart I wish to thank you for this valuable piece. In Germany we are unable to buy furs since about ten years. We, the older people, gave all we could to the youth who grew up during the times of war. Many children who were about ten or twelve years old, when the war began, got almost nothing of washing clothes and shoes. You can see, how the need of our German people is great! But also the real description is unable to show how it is here. Just as one must have seen the towns, destroyed by the bombs, oneself, so one must come and learn to know the need oneself. When such a valuable thing as your coat arrived one is quite astonished that there is still such a piece. And one rejoices like a child on Christmas. Therefore I wish to thank you very heartily. Please, be so kind as to excuse, that I didn't write for such a long time; but it was not my own fault: I could not write on account of weakness of my body. Connected in the faith, to our Lord and Saviour Jesus Christ I remain with the friendliest greetings yours

Frat. Ely Wiechert.
Mrs. Baker states that the coat was on discarded by their family a long time ago and she is very happy that it is of use to someone.

Meeting To Be Held

The growing inadequacy of outmoded and sub-standard electrical wiring to accommodate modern appliances is claiming increasing attention of electrical dealers and home owners, according to an announcement of the Inland Empire Electrical Dealers association, which is conducting a series of meetings to acquaint members of the electrical and construction industries and their customers, with the need for adequate wiring.

The association will sponsor a free public meeting on the subject at The Washington Water Power company office, Wednesday, May 5, at 7:30 p. m., in Moscow, Idaho. A highly entertaining film dramatizing electrical living of the future, entitled "Dawn of Better Living," will be presented.

The group urges appliance users to attend, for only by providing up-to-date and adequate wiring can home owners insure that they will be able to take full advantage of present and future benefits of electrical equipment.

Winter Reluctant To Let Go

It just seems as if "King Winter" is determined to retain his grasp on this area, for the combination of cold winds, brief but chill rain squalls and low night temperatures are very effectively checking the arrival of spring in this area, and Monday night the thermometer fell to 38 degrees under clear skies.

Farmers state that they are at least three weeks behind with field work, and estimate that a week of good weather will be required before they can really begin operations. The situation, locally, is serious, for a great deal of fall work was not completed, due to the early, wet weather.

Around the canyon brinks near the Clearwater, some spring work has begun, and some garden and small tract plowing is being done at Juliaetta, but these are isolated cases, rather than the rule.

Catch Real Fish

Ben Westendahl caught a 22-inch steelhead in Cedar creek Tuesday evening. Ben was accompanied by "Boy" Wright, who "got back."

On Sunday Ed. Mielke caught a 31-inch steelhead in the same creek.

No Word Regarding Condition

Evan and Henry Lien, Big Bear ridge, have received no word of the condition of their brother, Antone, who they took to the Veteran's hospital at Boise a little over two weeks ago — so it is presumed he is getting along satisfactorily.

Give Anniversary Dinner

Mrs. Leonard Fairfield gave a birthday anniversary dinner Sunday, honoring her husband. Guests were Mr. and Mrs. Rufus Fairfield, Mrs. Wilma Jones and daughters and Boyd Thornton.

New Display Case

The Kendrick Cafe has just installed a new back display case of mahogany and plate glass, custom made to fit their back bar.

Acquiring The "New Look"

What is the average 4-H Club girl in a small town or on a farm doing to acquire the "new look" in clothes?

She is making her own clothes according to latest fashion trends, and seeing to it that every outfit is becoming to her type and expressive of her personality. She is acquiring the knowledge and skills necessary to make suitable costumes for work, school and social occasions through taking part in the 1948 4-H Dress Revue.

Participation in that program affords the 4-H girl the opportunity to model her "best" dress in her local county revue. If she wins a medal of honor, she may enter the state Dress Revue, the winner of which will receive an educational trip to the National 4-H Club congress in Chicago next November.

Last year's state winner in Idaho was Geraldine Chindgren of Boise. One hundred eighty-seven county winners received medals in 1947.

Better Wiring

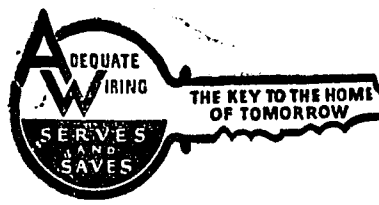

Is Your Best

FIRE PREVENTION Insurance

In your home, garage, and other buildings electricity is your most useful, powerful servant. But to get full value with utmost safety from electricity, adequate modern wiring is a "must."

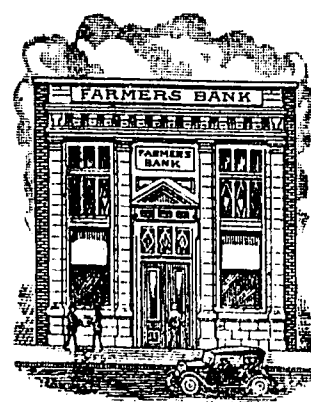

REMEMBER, WORN WIRES INVITE FIRES!

Better wiring will keep fire hazards out — bring better living in. . . Don't wait longer . . . "Wire ahead" for better living and a safe home — now!

Larger Planes and Ships

Present Landing Problem
Ship builders of the eighteenth century would look with unbelieving eyes if they could see the Queen Elizabeth in New York harbor. So would the Wright Brothers had they not seen some of the progress in airplane design since Kittyhawk.

Big planes mean many things: Greater pay load, safety, speed, comfort and cruising range. To the paving engineer, however, they mean only one thing—the need for larger and more stable airport landing and taxi strips.

Most airports were constructed when planes weighed only a few tons. Few envisioned the 50-ton B-29 that won a marvelous war record (and could operate only from the best and biggest of airports). But the B-29 was only the beginning. Now Consolidated Vultee has produced and flown the B-36, which at this time is the world's largest operable aircraft. This mammoth ship has a range of 10,000 miles, a length of 163 feet, a wing span of 230 feet, and its operational weight is approximately 150 tons. Now engineers explain that a ship of this type on landing exerts a force on the ground of between four to five times its normal weight. This means that a landing strip to handle this ship must withstand weights up to 750 tons.

The new Howard Hughes flying boat is powered by eight engines and will carry 700 passengers. In any ocean that ship is going to make quite a splash, and with wheels it would take something out of the ordinary in the way of runways to handle it.

Agricultural Research

Repays Large Dividends

Dividends from agricultural research repay the total cost of the investment many times over each year. One of the best examples is that of hybrid corn research, covering a period of 30 years, during which time the cost to the federal government was about five million dollars. During the same period the states spent a similar amount on this work. From the 10 million dollars thus invested, the nation last year collected a dividend of at least three-fourths of a billion dollars.

The same yardstick of financial return is applied to research activities on livestock improvement; wheat, oats and other cereal crops; butterfat production, etc. It is not possible, however, to consider all research strictly from the standpoint of how much it adds to the national income. Often the most productive research is that which makes it possible to avoid large losses from insects and diseases of crops and livestock.

Investments in this type of research must be regarded as insurance against losses which the country cannot afford to take. Public health has been improved and average lifespan greatly increased as a direct result of agricultural research. In addition to federal and state research, private industry has spent millions, resulting in billions added to the nation's wealth, as well as a better nation of healthier individuals.

Dishwashing Hints

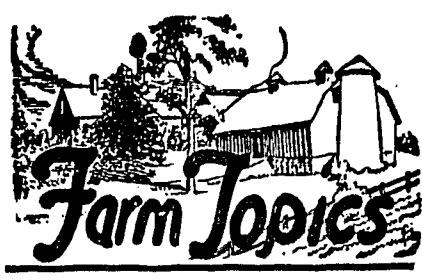

You homemakers may welcome a few motion savers for your dishwashing KP duty which takes much of your time. Home management specialists have some suggestions for you as a result of studies made about the country. Save steps by using a tray to carry soiled dishes to the sink. Put pots and pans to soak during the meal, or wash them immediately if possible. Use waxed paper in your baking dishes to make cleaning easier. Keep a supply of paper towels handy and wipe greasy pans with them. If you're right-handed, wash dishes from right to left. Rinse and stack dishes on the right of the sink or dishpan before washing. Then rinse and drain dishes on the left of the sink after washing. While the dishes are drying wipe the glasses and silverware. Rinse them in boiling water so they'll dry fast.

Treat Garden Seeds

Garden seeds that don't come up frequently are affected by damping off and various seed rots. The fungi that cause these attacks can be controlled by dusting seeds with any of several chemicals. The procedure is extremely simple and almost costless. A few cents worth of fungicidal dust mixed with the seed will provide protection for your entire garden. Tear open a corner of the seed envelope and insert as much of the fungicide as can be held on the point of a penknife. The packet then should be closed and shaken. Larger quantities can be treated in a tight-sealing jar.

Huge Hangar

A huge hangar, with a span of 340 feet capable of handling the biggest bomber in existence, is being designed for immediate construction at the Rapid City, S. D., airfield. The army said that construction, estimated to cost about one million dollars, would be supervised by army engineers. The arch-type reinforcement will have a forced-concrete building with a 40 door opening 300 feet wide by 40 feet high. The Rapid City field is one of the bases of the strategic air command, which operates the "very heavy bombers" of the B-29 type and will get the B-36. The B-36 wing span is 230 feet.

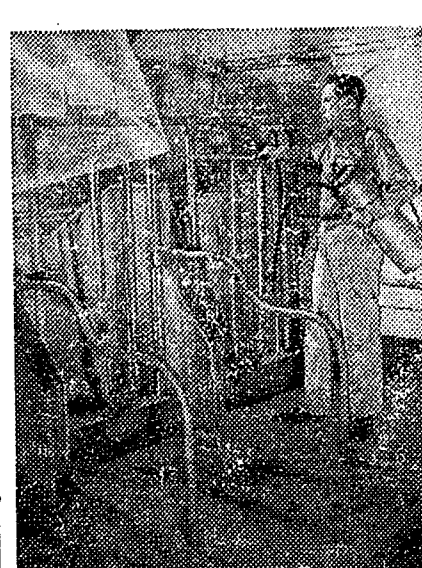

Proper Fly Control Eliminates Disease

Proper Equipment and Application Important

Many diseases and cases of contamination are traceable to flies. Spraying with DDT and other new chemicals presents the first truly effective means of controlling flies.

DDT is amazingly effective for several weeks. Flies landing on treated surfaces die in a few minutes from a condition similar to delirium tremens. The main steps to a good fly control program are:

- First: Clean up the breeding places where flies lay their eggs.
- Second: Spray DDT on all surfaces where flies gather. For this work a sprayer developing some pressure is needed. A garden type compressed air or larger sprayer will do the job efficiently. Around the home, spray the doors, windows, the back porch, out buildings, etc. cetera. On the farm, the ceilings

Compressed air sprayer develops 40 pounds pressure for barn and livestock spraying.

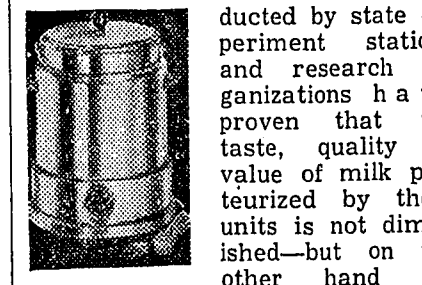

and walls of barns, poultry houses and hog houses should be sprayed. Two or three sprayings a year will provide excellent control.

DDT is positive but slow in its action. Dairymen still are using hand sprayers for a quick knock-down of visiting flies at milking time. The hand sprayers also are convenient for spraying again those areas exposed to rain, where DDT may be washed off.

The types of sprayers for fly control include: (1) hand atomizers; (2) hand pump action — knapsack, wheelbarrow, and bucket pump sprayers; (3) compressed air—usually 2 to 4 gallons in size; (4) engine-operated sprayers from 1/2 to 1 1/2 H.P. up in size. At least one of each type should be available.

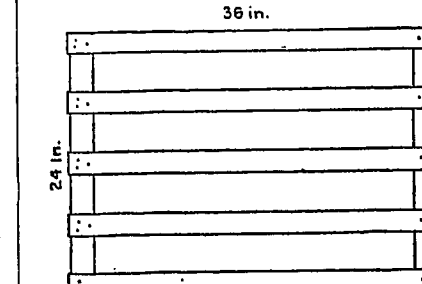

Flavor and Value of Milk Can Be Retained

In recent months small unit pasteurizers have been placed on the market. Tests conducted by state experiment stations and research organizations have proven that the taste, quality or value of milk pasteurized by these units is not diminished—but on the other hand the health factors are greatly increased.

There is a serious milk-borne disease danger of using raw milk. This may be entirely eliminated. With many cities, counties and districts demanding pasteurization of milk to be sold, the small units will prove of value to owners of a small number of cows who desire to retail their excess milk supply. The only certain way to avoid disease from milk is to heat it sufficiently to kill all disease-producing bacteria—this can only be done properly by pasteurization. Boiling will kill bacteria.

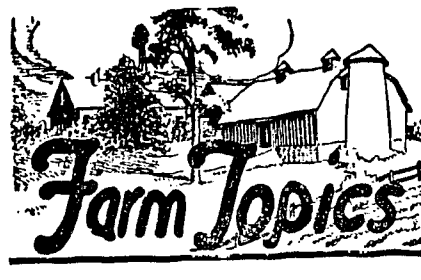

Hurdle for Hogs

Much time can be saved in herding, moving or catching hogs by use of the easily constructed hurdle shown above.

Not Possible to Make Hay While Sun Shines

Too often rain comes before the hay can be field cured or placed in the barn. Barn-drying is a system designed to overcome the weather hazard in making hay. New York station specialists point out that it is possible to produce high quality hay with barn dryers when they are used wisely. Unless drying can be accomplished in 7 to 10 days, moldy hay or a product of low feeding value may result.

Farmers Repairing Equipment at Home

Increased Use of Arc Welding Aid to Farm

World War II and the rapid extension of government-approved rural power lines to meet farm production emergencies contributed, more than any other factors, to the widespread use of transformer-type

Welding being done efficiently on the farm.

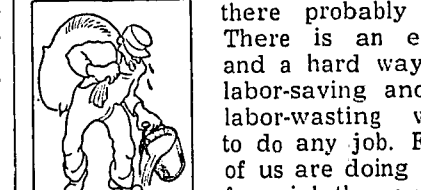

electric arc welders on farms. Welding was an entirely new job to most farmers when the war started, but before it had progressed many months, scores of them had become old hands at the "fix it up, make it do" trade.

Thus a war-taught talent enters the peacetime picture with increasing popularity. Experience showed that many broken parts could be welded satisfactorily without having to remove them from the machine and that such equipment then could be returned to the fields promptly—especially when time-saving welding jobs were done on the farm. Also, farmers soon learned that they could use their welders to construct new equipment out of scrap parts and modify present equipment to suit their particular needs, as well as make necessary repairs.

With the use of welders, discarded repair parts and scrap metal can be made into feed cars, manure loaders, buck rakes, milk can trucks and racks, disc harrows and trailers; broken sickle bars, tractor wheel rims and spokes, tractor hitch drawbars, spring tooth points, gears, gear teeth and sprockets can be repaired, and horse-drawn equipment is modified for tractor use.

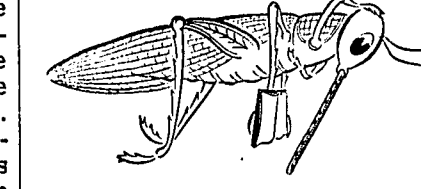

Merely Using Your Head Will Save Your Heels

Is there an easier, better way to do that job? Purdue university answers with: "Yes, there probably is. There is an easy and a hard way, a labor-saving and a labor-wasting way to do any job. Few of us are doing our farm job the easiest way. If we use our heads we can save our heels—as well as time, energy and expense. But we rarely take time to save time. We don't figure out the easiest, most effective way—we just get the job done."

heads we can save our heels—as well as time, energy and expense. But we rarely take time to save time. We don't figure out the easiest, most effective way—we just get the job done."

Grasshopper's Day

Believing that there is an important relationship between the intensity of sunlight, air temperature, the body temperature of the grasshopper, and where and when the pests do their eating, Professors Pepper and Hastings, Montana State college, have designed a special thermocouple with which to take the temperature of grasshoppers.

Crop Rotation Plan Should Be Balanced

Unless a farm has a well balanced rotation for its fields, the chances are that the farmer who works that land is depleting the soil and getting lower yields of the crops he grows.

Dr. R. L. Cook, soils specialist at Michigan State college, says that there are several ways in which crop rotation may result in soil improvement. If a cultivated crop is continuously produced on one field, the organic matter content of the field is decreased.

Rotation will help to distribute organic matter over the whole farm.

Castrate Pigs Early For Market Results

The earlier pigs intended for market are castrated the better they will weigh in. When pigs are castrated at three to four weeks of age, they are easier to handle, the wounds heal more quickly and the pigs are usually under closer supervision so that the wounds can be watched closely. Incisions should be made low to permit good drainage and to give the finished barrow a neater appearance.

Standards To Be Raised

The new Idaho teacher certification regulations which went into effect January 1, are expected to bring many state teachers to the University of Idaho summer school, June 10 to August 4, for advanced work.

"Teachers now have a new incentive for broadening their background and keeping abreast of current education trends," explained Dr. J. Frederick Weltzin, director of the summer school. "Not only are they motivated by a desire to be prepared to do a better professional job, but also by the fact that under Idaho's new salary schedules, better pay follows better preparation."

About Certified Seeds
Farmers of Latah county and the surrounding area are becoming more interested in the production and use of certified seeds. They have found that the production of certified seed of the various crops has been profitable and the use of such seed has given greater yields. Each operator producing a certified crop must comply with regulations adopted by the Idaho Crop Improvement Association. Some of these regulations are identity of seed source, quality of seed, and closing dates for application for certification of the crop planted. This information is contained in a bulletin published by the

association. It, and application forms are supplied by the Latah county agent's office in Moscow. Elbert McProud, county agent, has pointed out that the closing date for application of alfalfa, clovers and grasses is May 1. Farmers interested in producing one of these certified crops should contact his office before that date.
New Book Being Distributed
Timed with the opening of the baseball season, Standard Oil Company of California announces a new baseball guide, "Batter Up," will be distributed free throughout the west by Standard Stations, Inc., and

Chevron Gas Stations.

Written by Bert Dunne, noted baseball authority, the 48-page book is designed to "brush up" the fan on diamond techniques and strategy and to instruct younger fans in the fundamental techniques of the game. Fully illustrated to show batting, fielding and pitching skills the book also gives a history of the game, tells how to keep score, how to umpire and how to coach. The complete Pacific Coast League schedule for 1948 also is included. One section is even devoted to softball. These booklets may be obtained locally at the Kendrick Garage.

Get those fresh frozen vegetables, fruits, meats and fish at Blewett's Grocery-Market. 1-adv.

Mosaic Proves Destructive Disease to Cabbage Plants

Nearly all the cabbage seed grown in the United States before World War II came from a single county, Skagit, in Washington, where the climate is favorable and farmers have picked up the "know how." Doubtless, much of it will continue to come from there—but it seemed doubtful for a time, because of the increase in cabbage plant diseases. Cooperative research showed that mosaic was one of the most destructive diseases. The workers were able to discover a vicious circle in the system of cabbage seed production—and to show how to break it. There was an overlapping of the old and new crops that favored just the kind of multiplication or spread of mosaic that had happened. The cabbage mosaic is carried from diseased to healthy plants by plant lice. Cabbage seed crops are managed in this way: The large seed companies contract with farmers to grow the crop. The companies furnish the plants for transplanting. To supply these plants, the companies sow their seed in beds in June and July. Transplanting begins in August. Cabbage plants must have time to develop well but not to form a head before winter. If cabbage is started too late, it may not "bolt"—send up a seed stalk—the following season. Plants overwinter in the fields and seed is ready for harvest in July and August. Thus, there is an overlap of from one to three months in the old and new crops. This gave the aphids opportunity to move from the diseased old plants to the seedlings in beds nearby—carrying the mosaic with them.

Central Part of England Is Agricultural and Industrial

The English Midlands, hard hit by devastating floods that followed record winter snows, are a blend of rural and factory life, of stone cottages with old-fashioned gardens, and smoking industrial towns whose specialty products long ago started on world rounds, from India to Argentina.

In the heart of the "tight little isle," the Midlands area includes a lowland triangle marked by the freshet-swollen streams of the Thames in the south; the Severn in the west and the Trent in the north, notes National Geographic society.

To the east, it merges with the flat, marshy fenland country, where large-scale reclamation work was accomplished during the war to help fill out the meager national diet.

Normally, the network of rivers and canals cutting across England's densely populated central regions offers valuable navigation routes and scenic background for its many villages, county boroughs and cities.

Beyond the long lines of row houses in big and little industrial centers, stretch broad grainfields, garden patches and pastures on which sheep and cattle graze.

Plant Infection

Virus ailments in plants have much the same range of seriousness that virus diseases do in humans, from deadly to merely damaging, from the dreaded polio to the common cold, says the department of agriculture. There are two relatively mild virus diseases, of carnations—mosaic and streak. Neither kills the plant, but each reduces the yield and quality of the flowers. Aphids spread the mosaic virus, and since aphids are not a serious pest of carnations, sanitation in carnation houses does not usually provide much protection from aphids. The result is that nearly all carnation stocks pick up the virus. It is as common as the common cold. The carrier of streak disease has not been identified, but it seems to be an insect more common outside than inside the greenhouse.

War Catastrophe

Among the tragic casualties of war are books and libraries. Such destruction in World War II "probably exceeds by many times the destruction of all previous wars and catastrophes put together," reports the Harvard Alumni bulletin.

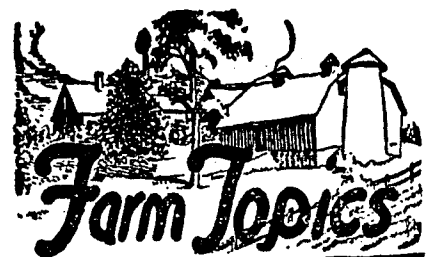

A survey shows these losses: Poland: Estimated 70 per cent of all libraries destroyed or looted. Russia: Fifty-five million volumes destroyed in the Ukraine alone. Czechoslovakia: Half the libraries and archives gutted.

England: Some 30 great libraries severely hit. China: Ninety-one out of 108 colleges occupied bombed out or seriously damaged.

The monks of the Abbey Van Verne in Holland hid their rarest volumes in farmhouses.

Cooking Quick-Frozen Foods

State experiment stations report that while frozen vegetables can be cooked in the saucepan, it is impractical in some cases. For instance, frozen peas may be cooked in the usual way in less time than it takes to bring the pressure up in a pressure pan. On the other hand, frozen vegetables like lima beans can be cooked in the pressure pan in only one and a half to two and a half minutes, when they take 16 to 22 minutes without pressure. It's just a case of finding out what vegetables will cook fast enough to compensate for the extra care and attention necessary in using a sauce pan.

Prevent Cannibalism By Good Management

Keeping Chicks Active Is Real Secret of Success

By W. J. DRYDEN

Chicks will seldom be cannibalistic if provided with proper brooder and range space, correct temperature and air control and a balanced ration, properly fed. They must be kept alert and active. Only the mistreated, sluggish chick will turn to cannibalism.

While the chicks must be comfortable, the temperature should be reduced gradually. Use a good starting mash. There is no substitute for the best for start-

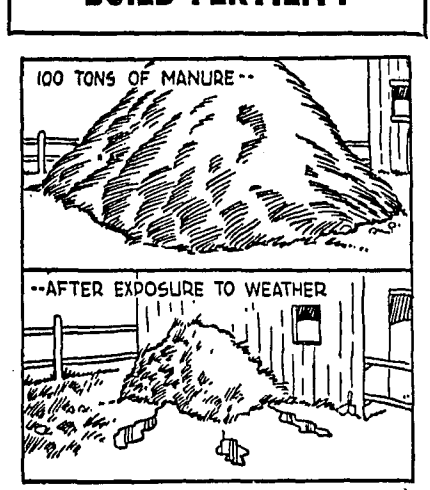

Baby chicks must be managed right to prevent cannibalism.

ing baby chicks. Give them all they will eat at all times and provide plenty of eating troughs. When the chicks are four to five weeks old they may be given grain, and made to scratch for it.

A good range and shelter should be provided. Pasture such as bluegrass, alfalfa or lespedeza will lower the feed cost and make the chickens take on economical gain. Swiss chard, kale, Chinese cabbage or rape may be planted and the leaves pulled and fed to the chicks. Alfalfa, clover or other grasses may be chopped and fed fresh, or alfalfa leaf meal utilized to aid in proper health and growth.

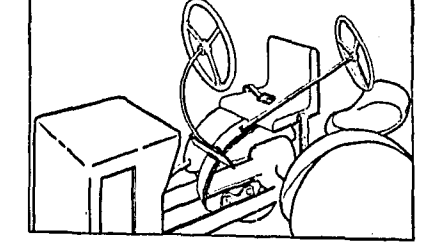

BUILD FERTILITY

Careless handling of manure causes serious losses of fertilizer and organic matter needed to help increase crop yields and rebuild soil structure.

One hundred tons of manure contains 25 tons of organic matter, 1,000 pounds of nitrogen, 200 pounds of phosphorus and 800 pounds of potash, one-half of it in the liquid part. Piled outside and exposed to rain and weather for several months, this 100 tons may shrink to 50 tons and lose half its fertility and organic matter. Losses may be reduced by using enough bedding to soak up all liquid manure, cleaning stalls frequently and hauling manure directly to fields, or storing carefully.

Baby Rides Tractor

Those who have youngsters who like to ride the tractor will be interested in this improvised baby seat designed by A. J. Matyus for the Lincoln foundation contest.

The seat consists of two auto leaf springs, pieces of one-inch round iron 24 inches long for stationary steering column and an obsolete steering wheel. The main leaves were bent in the forge and holes were punched to conform to the cultivator fittings and to give shock absorbing effect. The footrest was welded to the spring leaves. All work was done with 1/2 inch mild steel electrodes.

Thick Stand Helps in Boosting Corn Yield

Farmers who would boost their yields of corn should plant thicker stands than they ordinarily do, advises University of Kentucky. Improved soil and the use of hybrid corn seed makes it possible for most farmers to have thicker stands. About 10,000 stalks can be grown on better-than-average land, and 12,000 to 14,000 stalks on very fertile land with good moisture-holding capacity.

Marked Increase Reported In Admissions to Hospitals

During 1947 one patient was admitted to a hospital in the continental United States every two seconds and a live baby was born in a hospital approximately every 15 seconds, according to the 26th annual report of the council on medical education and hospitals of American Medical association.

The figures reveal that in comparison with 1945 the number of hospital beds has decreased from 1,738,944 to 1,468,714, the number of admissions from 16,257,402 to 15,153,452 and the number of patient days from 512,915,155 to 452,400,710. However, a total of 2,136,373 births was reported for 1946 as compared with 1,969,607 in 1945. This is the first year that hospital births in the United States have reached the two million mark.

According to the present survey governmental hospitals have 1,082,734, or 73.7 per cent of all beds, the non-governmental group 385,980, or 26.3 per cent. In 1945 the corresponding percentages were 78 and 22.

There were 15,153,452 admissions exclusive of outpatients and newborn infants in 1946. For comparison it may be noted that in the period 1933 to 1945 hospital admissions increased from 7,037,982 to 16,257,402. The greatest annual gain, a total of 2,829,088, occurred in 1943, with subsequent increases of 662,150 in 1944 and 220,554 in 1945. This trend was sharply reversed in 1946, however, when the number of admissions decreased by 1,103,950.

Mental hospitals with a total of 674,930 beds, had 271,209 admissions, or 1.7 per cent of all patients admitted in 1946. In comparison with the previous year there was an increase of 22,333 admissions, with gains reported in all governmental and non-governmental classifications.

An increase in tuberculosis hospitalizations is shown in the survey, which reports a total of 99,741 admissions in the tuberculosis sanatoriums as compared with 86,180 in 1945.

Church Bells Prove as Delicate as Hen Eggs

Six per cent of the world's bell production is supplied by a French founder named Piccard.

The strange thing about his business is that had the French fleet not been sunk at Toulon during the war, Piccard could never have accepted bell contracts for the huge weight of bronze going into the bells manufactured had to be taken from vessels which were once the pride of the French navy.

The bells range from 600 pounds in weight to three-tons. One of his most ticklish jobs will be to transport an order of 150 church bells to Canada. Bells are sensitive and must be handled as respectfully as a crate of eggs; otherwise the slightest damage will put them off tone and give them a false note.

Following established custom, the bells are sold by weight, and at the present value a pound of butter will cost about the same as a pound of bell.

Following a time-old custom, bell founders still throw silver coins into the molten bronze during casting. They insist that this improves the tone.

Conservation Gives Results

Where soil conservation has been practiced it has resulted in at least a 20 per cent increase per acre in provided a practical guide to production. Soil conservation has greater crop diversification and has, as a matter of record, resulted in greater farm diversification. Soil conservation has meant increased income to the farmer in savings in seed, fertilizer, labor and power. Soil conservation has accounted to a high degree for land protection, even under the pressures of intensified wartime production. Soil conservation has provided farmers and ranchers with a practical, physical guide for shifts in the type and intensity of production that may become wise in the years ahead to meet possible changes in price and demand for farm commodities.

Electricity Dangerous

It is dangerous to handle electric equipment with wet hands because water is a good conductor of electricity. Wet hands may establish contact with the electric current. For safety use all electric appliances far enough away from water faucets so you cannot touch faucets or water and the appliances at the same time. Never use an electric appliance in the bathtub. Never have a pull-chain socket where it is likely to be touched with wet hands—they are dangerous in the kitchen and bath room. It is also a safe rule to follow in not using a knife as a screw driver. Most knives are good conductors of electricity.

Spray With Caution

Dusts and compounds that are used to control plant diseases and pests may be poisonous. Farmers are advised to follow the manufacturer's directions in handling, mixing and applying poisonous materials. Sprays and dusts of a poisonous nature should be stored in strong, leak-proof containers out of the reach of children or animals. Hands and exposed parts of the body should be thoroughly washed after poisonous chemicals have been handled.

"You will keep him in perfect peace, whose mind is stayed on thee."
Is. 26: 3

"He shall know the truth, and the truth shall make you free."
John 8: 32

WE ARE NEVER TOO OLD TO GAIN BY STUDYING GOD'S WORD. ADULTS, ATTEND CHURCH SCHOOL.

8109-B

Study Your Bible —

Yes, that is what people will do if they are Christians. One cannot imagine persons who profess to be Christian turning away from opportunities to come to a fuller understanding of God's Word and the contribution that it can make in their lives. Throughout the ages people who have been deeply concerned about their relationship to God have studied his Word. Those who profess to be followers of Jesus Christ have always studied the teachings of Jesus. And why, may we ask, do they engage in this study? Because it has ever been the very meat, bread and water of life.

This is the day for all adults who profess to be followers of Jesus Christ to declare it to be their purpose to spend more time in careful study of God's Word. There is no other source from which adults can receive an interpretation of life that will enable them to be strong children of God.

Freedom is possible for any individual when he knows the truth and live in keeping with it. It is the knowledge of truth that sets men free. This freedom of mankind was so precious in the sight of God that it caused him to send his only begotten Son into the world that men might be free, that they might triumph over material things. Christ came that men might achieve in time of turmoil and strife a sense of security that would make them courageous as they lived, in keeping with the truth as it is found in the Bible.

Fun Is Anticipated

A great deal of pleasure is looked forward to in the coming "Evening of Magic" show to be presented at the Kendrick gymnasium this coming Saturday evening.
 The program, which begins at 8:00 p. m., is divided into five acts, climaxing with the "Canvas Covered Box Escape." In the last named, the audience is invited to bring their own padlocks, and a prize is offered should the artist fail to make his escape. Adv.

Grange To Meet Tuesday

The Kendrick Grange will meet next Tuesday evening, May 4, for their regular business session. The meeting will convene at 8:00 sharp, and will be followed by a pinocle party. Members are asked to bring tables and cards.

W. W. P. CO. REPORT SHOWS BIGGER INCOME; EXPENSES

Increases in gross revenue, operating expenses and net income of the Washington Water Power company was revealed in its report of 1947 operations filed last week with the city of Spokane and the state department of public utilities at Olympia.

The company reported total income of \$15,218,548 from all types of operation, an increase of 21 percent over 1946. Net income was \$3,115,965. This was \$400,047 more than the previous year.

An increase of 43 percent in operating expenses was disclosed in the report with \$6,636,257 having been expended for operating purposes. Company officials said this was due largely to increases in amount of purchased power and additional payroll costs.

Costs of purchased power was \$2,295,083 in 1947, or nearly double that item in 1946, it was stated.

The report of the Water Power operations was signed by Kinsey M. Robinson, president of the power company. It was also submitted to the public utilities commission of Idaho and to the federal power

commission in Washington, D. C. The report showed that at year's end the company had 102,574 electric customers in Washington and Idaho, a gain of nearly 6,000 over the previous year. They used 1,905,536,934 kilowatt hours of electricity for all purposes. This was an increase of 464,062,899 kilowatt hours over 1946.

Average annual use of power in homes on W. W. P. lines increased 481 kilowatt hours during the year to a new high of 4,201 kilowatt hours, the report said. This is three times the national average. Cost to the W. W. P. consumer for such usage averaged 1.35 cents per kilowatt hour, decreasing from 1.40 cents in 1946. The national average is 3.06 cents per kilowatt hour.

Operating revenue reported from electric service to residential customers was \$4,091,435. Industrial and commercial customers paid \$5,531,487; rural, \$1,180,688; other utilities and railroads, \$3,402,840; public street and highway lighting, \$203,947; and other electrical revenue, \$186,961.

Steam heat revenue was \$407,719 during the year, and water service \$185,587.

It was disclosed in the report that the company's total tax bill for the year, including payments to federal, state and local governments, was \$3,470,512, an increase of \$362,181.

The company paid regular quarterly dividends amounting to \$6.00 per share, to holders of preferred stock. There are 35,000 shares of such stock outstanding, which is held by about 2,000 residents of the company's service area. Seventy-five cents a share was paid on common stock, or \$1,906,350.00.

According to the report, electric distribution systems were purchased from the municipalities of Harrison and Elk River, Idaho, and the Pierce, Idaho, system from the Pierce Light & Power Company. Franchises were granted to the W. W. P. by the municipalities of Harrison and Pierce for terms of 25 years. A 25-year franchise was also granted by the Elk River voters in January, 1948.

A 15-year non-exclusive franchise was approved at the polls in Spokane in July for W. W. P. use of streets and alleys in the city.

Care Of Crippled Children

Theo H. Wegner, Boise, president of the Idaho society for crippled children, this week urged all interested in the care and treatment for disabled persons to call on the society's Boise headquarters for information about where such services can be obtained.

"Our headquarters acts as a clearing house for such inquiries. We cooperate with all public and private agencies in providing care for the disabled and crippled and provide that care when it cannot be otherwise obtained," Wegner explained.

The Idaho society is able to carry on its services only because of the funds that are voluntarily contributed to the organization through the annual sale of Easter Seals.

In reviewing some of the recent activities of the society, Wegner cited several examples of care that the group had provided for disabled Idahoans — one young woman now has a full-time secretarial job, because the society provided a walking aid. An Idaho boy, paralyzed in both legs, was given walking aids and provided with clothing and schooling to enable him to become a normal citizen. Still a third child, crippled as a result of a burn, was given both surgical and therapeutic treatment, enabling him to regain the use of a hand.

The society has also purchased a much needed audiometer for testing hearing and has made it available to the department of public health for their use in pre-school clinics throughout the entire state.

These are but a few examples of the work our group is carrying out in the state. Mr. Wegner related, in thanking all for their cooperation in the Easter Seal drive, which ended Easter Sunday.

Potlatch Chief Sez

PUBLISHED BY THE KENDRICK CO-OPERATIVE CREAMERY

HELLO, THERE, FOLKS:

About Ice Cream:

Sunshine and warm weather means you should serve more ice cream at your table. It is so refreshing and good that your family and your guests will be delighted.

Potlatch Chief ice cream comes in a variety of flavors — Vanilla, Chocolate, Tutti Frutti, Strawberry, Black Raspberry and Butterscotch.

Ice cream is a healthful dessert, so serve it often. For picnics ice cream is a real treat, and make certain it's "Potlatch Chief" Ice Cream — your assurance of quality and flavor.

About Baby Chicks:

It isn't too late to order Baby Chicks, so get busy and place your order with us now for Irving's Baby Chicks. Think of that fried chicken — m-m-m-m! — and don't delay, order today!

About Our Products:

"Potlatch Chief" is extra proud of the high quality of his dairy products, such as: Milk, Butter, Cream, Buttermilk, Eggs, Ice Cream and Cottage Cheese.

A passenger who had had too much to drink, asked the conductor how far it was from Podunk to Sassafras. The conductor said it was 15 miles.

Later the same passenger asked how far it was from Sassafras to Podunk.

Amused the conductor replied: "If it's 15 miles from Podunk to Sassafras, it must be 15 miles from Sassafras to Podunk."

"Not necessarily," replied the passenger. "I'm only a week from Christmas to New Year's, but I'm a long time from New Year's to Christmas."

Remember: Always ask for "Potlatch Chief" Dairy Products by name. It is your assurance of quality.

WHAT CAMERON FOLKS ARE DOING THESE DAYS

Mr. and Mrs. Otto Sillow entertained at dinner Sunday for Mrs. A. H. Elum, Mrs. Francis Olson, Mr. and Mrs. Wilbert Brunsek, Mr. and Mrs. Albert Glenn and son Eldon and Kenneth Slead.

Mr. and Mrs. Dave Schoeffler and Henry Bleck of Lewiston were Saturday evening dinner guests of Mr. and Mrs. Earl Whittinger.

Mr. and Mrs. Ed. Mielke and daughters were fishing on the Snake river Saturday afternoon. They caught two sturgeon, Mrs. Mielke getting one measuring 8 feet and 2 inches long, weighing 200 pounds.

Kenneth Slead of Lewiston spent Saturday and Sunday with friends here.

Harold Brammer, U. of I. student, spent the week-end with home folks.

Mrs. Fred Newman visited with Mrs. Earl Whittinger, Wednesday.

Mr. and Mrs. Walter Dennier and family and Mr. and Mrs. Tom Dennier of Fix ridge, visited in the home of Mr. and Mrs. John Schwarz and sons Sunday afternoon.

Mr. and Mrs. Leonard Wolff and son Howard, and Helen and Ted Mielke were Tuesday evening visitors in the Fred Newman home.

James Whittinger and Harry Newman received their pilot's licenses at the Zimmerman airport in Clarkston, last week.

Mrs. Walter Koopp, Mrs. Glen Wegner and Mrs. Ed. Mielke attended the tea at the Kendrick school on Tuesday afternoon, given by the first and second grade pupils and their teacher, Mrs. Jean Brammer.

GOLDEN RULE

Mrs. Bessie Cowger has spent the past week at her place here, and at the Abner Cowger home in Southwick.

Mrs. Verla Chairrest, Glen Betts and Pat Holliday were among the Lewiston business visitors Thursday.

George Christensen, Dean Luce, Mr. and Mrs. Don Christensen and daughter stayed at the Glen Betts home the past week, while working on the Don Christensen's home.

Loy Martin went back to Grange-mont to resume his work at the mill there, Monday.

Roy and Chester Martin were week-end visitors in Lewiston.

Mrs. Bessie Cowger completed the moving of her household goods to Southwick this past week.

Mr. and Mrs. George Christensen and daughter are at the Glen Betts home this week.

Finke Brothers have gone to their camp to do some road work and otherwise get ready for logging.

Sunday dinner guests at the Carl Finke home Sunday were George Finke, Sr., Jack Kelsey, George Finke, Jr., Mr. and Mrs. Glen Betts and Eugene, and Russell Betts. The dinner honored the birthday anni-

versaries of Carl Finke and Glenn Betts. Callers later in the day were Mr. and Mrs. Irvin Fry.

SOUTHWICK NEWS

Mrs. Essel Stalnaker was a Sunday dinner guest of Mr. and Mrs. Gordon Harris.

Mrs. Annie Longteig and Mr. and Mrs. Frank Cantril and daughters were Lewiston visitors Saturday.

Mr. and Mrs. Lou Watson and Dick were Sunday dinner guests of Mr. and Mrs. Elmer Souders.

Mr. and Mrs. Don Cantril and daughter Sandra and Mr. and Mrs. Frank Cantril and daughters were Sunday dinner guests of Mr. and Mrs. Wilbur Colwell.

Mr. and Mrs. Grant Bateman and son of Kendrick: Mr. and Mrs. Carl Riggers of Gifford; Mrs. Cora Lettenmaier and Gary Smith called on Mr. and Mrs. Tom Armitage.

Mr. and Mrs. L. J. Southwick had as dinner guests Sunday Mr. and Mrs. Arnie Cuddy and family, Mrs. Nancy Holmes of Camas, Wash.;

Mr. and Mrs. Cecil Roberts of Troy; Mr. and Mrs. Wm. Winters and son and Mr. and Mrs. Howard Southwick. Mr. and Mrs. Gordon Harris were evening callers.

Wayne and Doug, Harris were overnight guests of Mr. and Mrs. George Brocke, Jr., at Kendrick.

Mr. and Mrs. Lee Davis and two young men from California spent Monday and Tuesday with Mr. and Mrs. L. J. Southwick.

Doyle Hayward was a recent Spokane business visitor.

LINDEN ITEMS

Mrs. Charles Keeler visited relatives and friends in Kendrick Wednesday.

Herbie Pederson, who has been very ill, continues to improve.

The W. M. A. ladies spent Wednesday quilting in the F. C. Lyons home.

Mrs. Clem Israel and son Donald drove to Moscow Wednesday to visit with Mr. and Mrs. Loyd Israel. Mrs. Israel accompanied them home to visit for a time.

Mrs. Arlev Allen, Mr. and Mrs. Arthur Foster and son Freddy and Mr. and Mrs. Marion Souders drove to Orofino Sunday to visit a sister of Mrs. Allen's, Mrs. Claude Pipping and husband, and to make the acquaintance of a great-grand nephew, who recently arrived.

Mr. and Mrs. Arlev Allen visited with the Nelson family in Lewiston Orchards on day last week.

The weather still remains cold, and occasional rains are preventing field work. We all hope the sun shines soon.

Many Cancer Cases Reported

Boise — During the first 14 weeks of this year, 258 cases of cancer have been reported to the Idaho Department of Public Health. L. J. Peterson, administrative director, said this week.

Mr. Peterson, who is also a member of the executive committee of the Idaho division of the American Cancer society, said that during January and February of this year, 93 deaths from the disease were reported.

The 1947 session of the legislature made cancer one of the reportable diseases, and approximately 47 per cent of the physicians practicing in Idaho are accepting their responsibility in reporting cases of the disease that come to their attention.

The purpose of having cancer reportable is to determine the exact number of cases diagnosed and receiving treatment. This information will form the basis for planning an enlarged educational and service program by the Idaho Cancer society.

Since the first of the year Ada county has reported the largest number of cases with 67; Canyon is second with 50 and Twin Falls county third with 22.

Other counties and their total are: Bonneville, 12; Bannock and Valley,

No cancer cases were reported from the other counties.

New York's Communist controlled American Labor party cast 400,000 votes in 1944 — all of them for Roosevelt, yet Roosevelt only carried the state by 317,000. This year, the A.L.P., which has already sent two members to the House of Representatives, is supporting Wallace. It would seem from the above figures that Mr. Truman's chances to carry New York, the indispensable electoral state, are pretty slim.
