It will be of interest to our community, states Mrs. Blewett, to know that last year the Red Cross spent \$732.00 in Kendrick, and this year at least \$500.00 is being used here. These figures show we are indeed receiving our share of benefits from this worthy organization.

## FINAL RITES HELD FOR CPL. HAROLD GLENN, U. S. M. C.

Cpl. Harold Clifton Glenn, U. S. M. C., who was killed in action Feb. 26, 1945, during the battle for Iwo Jima, was interred in Normal Hill cemetery, Lewiston, Monday, May 3, following services at the Brower-Wann Funeral Chapel, with Dr. J. H. Coulter, Kendrick, bringing the message. Hymns were sung by a quartet composed of Mrs. D. A. Christensen, Mrs. Judson I. Lee, Roy Ramey and Eugene Taylor, accompanied by Mrs. H. C. Schupfer at the organ.

Honorary pallbearers were Lester Slead, Kenneth Slead, Frank Hoisington, Walter Zumhofe, Earl Parks and Dale Miller. Active pallbearers were Wayne Heimgartner, Roy Heimgartner, Floyd Heimgartner, Wm. Steigers, Lloyd Nye and Don Morgan, all of Juliaetta.

The graveside services, military in nature, were conducted by the Lewis-Clark Post No. 13, American Legion, with Bob Willett and Lester Larson as color bearers; Doug Koefod and Ralph Warner as color guards; Adair Hillgoss, bugler, and a rifle squad composed of Frank Sullivan, Palmer Chase, Edward Dirks, Ira Erickson, Larry Butler and John Reinmuth. Horace Bradshaw served as chaplain.

Cpl. Glenn was born at Juliaetta, April 3, 1918, a son of Mr. and Mrs. John Glenn, well known Potlatch ridge farmers. He received his grade school education at the Fairview school and was graduated from the Juliaetta high school. He was a member of the Methodist church.

Cpl. Glenn enlisted in the marines at Lewiston, Sept. 17, 1942. Prior to his enlistment he was a lieutenant in the Idaho Volunteer Reserve at Cherry Lanes, and took flying lessons at the Asotin county airport, Clarkston.

Corporal Glenn left for the south Pacific Jan. 21, 1943, and after additional training in New Zealand, fought through the campaigns at Bougainville, in the northern Solomon islands, Guam, and finally, Iwo Jima.

He was awarded the purple heart, the Asiatic-Pacific campaign medal and the World War II victory medal.

Besides his parents, Cpl. Glenn is survived by four brothers, Roy and Bruce, Kendrick; Fred, Juliaetta, and Albert, Cameron; and three sisters, Mrs. Leland Houck, Clarkston; Mrs. Andrew Cox, Kendrick, and Mrs. Edgar Carlson, Genesee.

There were many carloads of Kendrick and Juliaetta residents in attendance at the services — and a profusion of flowers gave mute testimony of the high esteem in which he was held.

**A Tip On Missing Plane**  
Friday, following receipt of the Gazette, and the reading of the letter from the Caldwell Chamber of Commerce regarding the missing plane, Lester Weaver, Cedar Ridge, came into the shop and left information about a plane which passed over their home April 18, sometime between 10:30 and 11:00 o'clock, headed in a south and east direction.

Mr. Weaver's information was phoned in to the sheriff's office at Moscow, where we were informed that it tied in with the plane reported by Mr. Snyder of Orofino, and it was rather believed the plane was the missing blue Stinson. A ruler laid on a map, would show the reported plane to be traveling an almost perfect southeast compass course.

We understand the search has now been shifted to the Salmon, Idaho, area, in the belief that the missing group might have gone "sight seeing," rather than follow a compass course for their home.

**Receives Radio License**  
Benny Cook, son of Mr. and Mrs. Ben Cook, last week received his radio operators license, and can now be known as a "ham" radio operator.

He, with his father, took the examination some time ago, but one license was held up due to a misunderstanding about there being two "Ben Cooks" at one station.

## Weather Like Late Fall

Weather this past week has more nearly resembled late fall than any other period we can think of. We have been given chill rains, cold winds, and cloudy, damp days that make you think of your "long-handled" underwear.

At this time a year ago, most of the kids had been swimming, and were eagerly awaiting the opening of the new swimming pool.

This year the weather has been no problem at the local school — the pupils being perfectly willing to sit in the warm schoolhouse.

A deluge of rain Monday again set farming operations back several days — and the season is getting very, very late.

## KENDRICK DOES WELL AT LEWISTON MUSIC FESTIVAL

The annual Spring Music Festival, held April 30 and May 1, in Lewiston, was well attended by all the schools in this area, approximately 25 schools being represented, and an estimate of 3000 boys and girls participating. The music, competitive music events took place smoothly, introducing all phases of instrumental and vocal talents. The parade was well attended and the marching through the main streets of Lewiston brought much applause as each school band passed. Kendrick's majorettes performed nicely and looked splendid.

The Kendrick band was indeed proud to be represented for the first time in several years, and all participated in the various events, placing high by the judges ratings in spirit, sincerity, discipline and instrumentation; placing "Fair" in interpretation, technique, tone and intonation. All-in-all, the judges were indeed complimentary on seeing the band again organized in Kendrick and all remarked that they did very well for the first year. "No outstanding weak points that another year cannot correct," said Mr. Marty of Spokane.

Dave Coulter represented the Kendrick school in the solo contest for bass horn, taking a rating in Division II.

Dick Coulter took a rating of I in piano.

Dick Coulter took a rating of III in the baritone solo (vocal).

Wilma Benschoter took a rating of III in the soprano solo (vocal).

The chorus, under the direction of Mrs. Coulter, also placed favorably, according to the judges comments, the small ensemble placed III, as did the chorus.

Saturday evening the massed groups assembled and gave the climaxing program of the festival. The massed orchestra was under the direction of Mr. Baxter; the massed chorus was directed by Mr. Rowles, and the massed band by Mr. Marty. Kendrick was well represented in both chorus and band in these massed groups.

All the members of the chorus and band are to be heartily commended for their spirit and cooperation with the directors, Mrs. Coulter and Mr. Forsberg.

Again we say the music festival has been a great and grand experience for everyone represented and all are enthusiastically looking forward to next year, when we shall have even more talented young musicians from Kendrick.

Mr. Forsberg also took the band to the Asotin, Wash., county fair, in which the band was asked to take part in their parade. Nez Perce, Lapwal, Clarkston, and other school bands also participated. All enjoyed a good time after the parade with the amusements provided.

## Grange Receives Road Reply

Some weeks ago the Kendrick Grange wrote Gov. C. A. Robins regarding the condition of the bad road between Kendrick and Juliaetta and have received the following reply:

Mr. Herman Johnson, Master, Kendrick Grange No. 413 Kendrick, Idaho.  
Dear Mr. Johnson:

I find that the Department agree with me that this spot between Kendrick and Juliaetta is a very bad one. Mr. Reid advises me that they have just been over the matter with Jerry McCreedy and have definite plans already under way for improvement around the mouth of Brady Gulch.

This immediate portion of the work will undoubtedly use 100 per cent State Funds and should improve things considerably. Rest assured the condition is known but our greatest difficulty is that there are so many spots like this scattered over the State that the money available for such roads doesn't go very far.

Thanks for again calling it to my attention.  
Sincerely  
C. A. ROBINS, Governor.

## Water Tower Flatfalls Out

Tuesday afternoon while an N. P. crew were working on the big water tower near the depot here, weakened and rotten timbers gave way and the whole tower settled to the ground.

The crew had drained the water from the big tower, and had jacked up one side to replace rotten underpinning, when the timbers on the other side, forced slightly out of line by the "jacking", and rotten with age, gave way. One member of the crew, who was working on a scaffolding directly underneath the tower, received painful, but minor injuries from a jagged piece of timber as he leaped to safety. All the others, warned by the noise, were able to clear the tower.

### About Those Grades

A theory held by college students since colleges first began was shattered today at the University of Idaho. This is the theory that a student is as likely as not to get five different grades — "A" to "F" — if the same theme is submitted to five different professors.

In a survey conducted at the university by the department of English and allied subjects, the themes of 12 students were submitted to 19 members of the faculty for grading. Ratings were consistent throughout, all themes falling into three groups — above average, average, and below average. One theme, for instance, received 15 "A's" and 4 "B's". One other, 16 "C's" and 3 "B's". In no case was there as much variance as an "A" to a "D".

High school English teachers of the state have frequently asked the requirements of students in English composition at the university. As a part of the answer to this question, copies of the themes used in the survey, with grades, and comments of the faculty members, are being sent to Idaho high schools.

**Urged To Work For Health**  
 An urgent call to boys, girls and leaders of the nation's 75,000 4-H clubs to join the two-way drive for better rural health is now being issued by state and national offices. As a group, clubs will seek to improve community health by surveys to determine needs, help with polio, tuberculosis and cancer control programs; first aid and farm safety projects, just to name a few of the many. As individuals, boys and girls will have physical check-ups and institute health and safety measures on their home farms. A substantial increase over the 200,000 who took part in the work last year is expected. Awards for the program, given again in 1948 by Kellogg, include a certificate to the winning club within a county and \$20.00 cash to the 10 best 4-H Health clubs in

each state. The outstanding individual in a state will receive an educational trip to the National 4-H Club Congress in Chicago, and the national winners, both blue and red award groups, are to get special merit ribbons. County extension agents will furnish complete information regarding this program.

When the Republican national convention opens on June 21, it will be the fifth time in history that Philadelphia has played host. The Quaker City was the scene of the 1856, 1872, 1900 and 1940 party conventions.

**Parents Need The Church School**

The guidance of young lives is one of the greatest tasks which God entrusts to man. Parents who believe that they discharge their obligations for the religious training of their children when they deposit them at the church school door each Sunday may find that the children do not take too seriously their church school lessons.

Children learn by example. They learn as much from their parents actions as they learn from their words. Fathers and mothers must keep close to Christ and to his teachings if they are to train their children in the Christian way.

The church school can help parents in facing their responsibility. Association with other parents, the exchange of ideas and sharing of problems, can be of tremendous benefit.

It has been said, "Get the children, and you will get their parents." Any church worker will realize that this is true only a fraction of the time. The converse — "Get the parents and the children will follow" — is more nearly correct.

Christian teaching offers help which parents cannot afford to do without. Church schools are a primary source of Christian teaching in today's world.

**Service Means More Than Promises to These Communities**

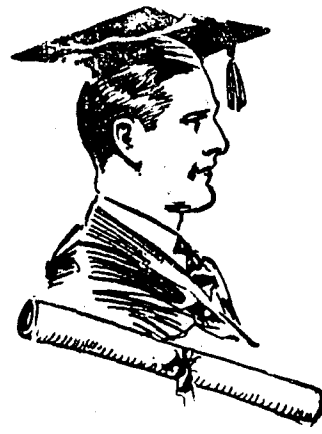

More than 80 Inland Empire communities have granted electric service franchises to the Washington Water Power Company. This is definite proof of the confidence of the people in Washington Water Power's ability and determination to serve them well, in the future as it has in the past, the American free enterprise way!

Such confidence must be earned. It cannot result from glowing promises, or political oratory—it must be based on services rendered. The people's confidence in Washington Water Power comes from experience—59 years of the best in electric service at low rates, plus sincere interest in the progress of their communities.

### IDAHO'S INDUSTRY UP TOTAL 137 PERCENT SINCE 1947

Total annual payroll of Idaho's industries increased from \$85,608,302 in 1941 to \$203,173,553 in 1947, or 137 percent, Floyd West, assistant

secretary of the Idaho State Chamber of Commerce, said this week. West based his statement on figures supplied by the Employment Security agency. Between 1941 and 1947, number of employers in Idaho jumped from 9,759 to 12,608, or 29.4 percent. There was employment of 77,971 persons in industry in 1941 and 92,374 in 1947, or 18.5 percent increase.

Biggest gains in Idaho industry were in food processing. Payrolls increased 218 percent between 1941 and 1947 in that industry.

In 1941 there were 105 employers in food processing, with 4,336 employees and an annual payroll of \$5,074,959. In 1947, employers had increased to 283, or a 45 percent gain, with 7,930 persons employed, a gain of 83 percent, and a payroll of \$16,038,611, a gain of 218 percent.

In truck transportation, number of employers in Idaho increased from 303 in 1941 to 406 in 1947, a gain of 33.3 percent; persons employed in 1941 were 1,525, and in 1947, 2,308. The 1941 payroll was \$1,740,858 and for 1947 \$5,114,137.

In 1941 Idaho had six steel processing plants with 114 employed persons and a payroll of \$193,373. In 1947 there were eight plants with 604 employees and an annual payroll of \$1,837,512, or an increase of 852 percent in earnings for persons employed in that industry.

Railroad employes increased from 6,103 in 1941, to 7,187 in 1947, and their earnings rose from \$9,922,357 to \$20,430,000. It is estimated that farm workers earned approximately \$30,000,000 in 1947.

### Wins Welding Award

Prof. Henry F. Gauss, head of mechanical engineering at the University of Idaho, was notified this week that he is the winner of a \$500.00 divisional award for his paper on "Arc Welding in Engineering Education."

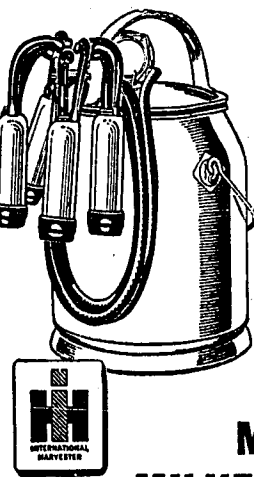

The award was made by the James F. Lincoln Arc Welding Foundation of Cleveland, Ohio. The foundation conducts a similar contest every two years, providing approximately 450 awards in a large number of divisions and classifications.

Prof. Gauss presented in his 10,000-word paper the close practical relationship between modern arc welding and an acceptable education in mechanical engineering. This is the third time a paper prepared by the Idaho professor has been recognized by the foundation. He won awards in 1940 and 1942, but did not enter the contest in 1944.

## Look who gets squeezed!

Union leaders representing less than one-tenth of railroad employes reject recommendations of President's Emergency board—refuse to negotiate except on their own terms—threaten to paralyze nation by strike!

THE LEADERS of three railroad unions, representing less than one-tenth of all railroad employes, have called a railroad strike that would paralyze the nation.

These leaders refuse to accept a 15½ cents an hour wage increase retroactive to November 1, 1947. This increase was recommended by an impartial Emergency Board appointed by President Truman.

This increase of 15½ cents already has been accepted by the 19 other railroad unions. But the Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen and Engineers, and the Switchmen's Union of North America won't accept what more than 90% of all railroad employes have accepted. They have called a strike to get more!

Unions refuse rules discussion  
Certain rules changes demanded by these union leaders—which would increase wages still further—were recommended by the Board. But the union leaders want more—they demand that the railroads put into effect ALL the changes they asked for, including those the Board felt should be denied.

On top of this, they insist that certain rules changes proposed by the railroads be withdrawn—in spite of the fact that the Board recommended them! These union leaders have refused to negotiate except upon these arbitrary terms.

Greater wage increase not justified  
Engineers and firemen are among the highest paid of all employes in America, as figures in the box show. This strike threat doesn't justify giving a greater increase than other railroad workers received.

Emergency Boards are a means provided by the Railway Labor Act in the public interest to avoid strikes. The President's Board,

after hearing evidence for 33 days, made recommendations based on all the facts in the case. The railroads have accepted these recommendations.

### Who's to blame?

Although they deplored so large an extra cost burden, the railroads accepted the report of the Board because they felt it was in the public interest to uphold the spirit and intent of the Railway Labor Act.

In contrast, this small group of railroad union leaders are attempting to flout the intent and spirit of the Railway Labor Act, and dictate their own terms.

They have dictated a paralyzing railroad strike.

You will be the victim!

How long will the American public stand for the undemocratic, arbitrary, and abusive use of the right to strike and the disregard of the obligation to provide transportation? How long can the American people permit a few dictatorial union leaders to defy the processes provided for peaceful settlement of disputes?

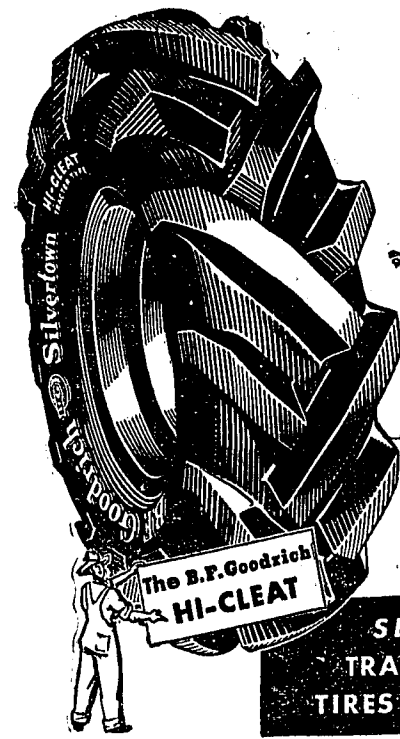

Force seldom produces settlements that are either fair or lasting. Moreover, a point is often reached when personal interests must be held subordinate to the greater public welfare. That is why the railroads have accepted the Emergency Board recommendations. That is also why the leaders of these three unions should reconsider their decision to call a paralyzing strike.

**WHEAT MARKETS STRONGER DUE TO EXPORT DEMANDS**

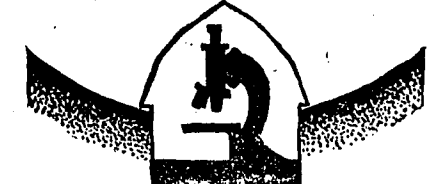

The announcement of increased export allocations provided a strengthening influence in domestic wheat markets during the past week and tended to offset improved winter wheat crop prospects due to timely rains in the dry areas, according to reports to the U. S. D. A. While growers were marketing old crop wheat supplies quite freely, offerings moved readily for needs of government agencies and the usual trade outlets. Price declines early in the period were largely regained and at the week's end prices were practically unchanged compared with the previous week. Premiums paid for cash wheat also remained quite steady. Pacific Coast markets showed little change for the week, with prices regaining a large part of the earlier declines.

The United States Department of Agriculture has announced supplemental allocations of 330,500 long tons (12,338,655 bushel equivalent) of wheat and flour for export during the April to June quarter to specified countries. The total announced includes 94,100 tons (3,513,065 bushels) of wheat and 236,400 tons (8,825,590 bushels equivalent) of flour. The department officials stated that the increase in allocations is in line with a statement by the President's cabinet committee on World Food Programs, increasing the 1947-1948 wheat and flour export goal to 482,000,000 bushels. In addition to wheat and flour exports, it was estimated that about 95,000,000 bushels of coarse grains would be exported, bringing the total movement up to about 577,000,000 bushels. The cabinet committee announced that it had reached its decision to increase this year's grain export goals after a careful study of reports of U. S. grain stocks, needs of foreign claimants and facilities for shipping and handling an increased volume. On the basis of the April 1 stocks reports and probable domestic usage of wheat during the remainder of the marketing year, it is expected that proposed exports of wheat will leave the June 30 carry-over about 150,000,000 bushels minimum now required by legislation.

Stocks of wheat in the United States and Canada on April 1, were 24 percent larger than a year earlier, due to the greater United States crop in 1947, since disappearance in both seasons has thus far been about the same. Stocks of wheat in all positions in these two countries on April 1 (latest available information) totaled 687,000,000 bushels compared with 554,000,000 bushels a year ago and 542,000,000 bushels two years ago. United States wheat stocks totaled 478,000,000 bushels on April 1 of this year compared with 308,000,000 last year and 332,000,000 two years ago. Canadian wheat stocks on March 31, amounted to 209,000,000 bushels in 1948, 246,000,000 bushels in 1947 and 210,000,000 bushels in 1946.

The supply of wheat (production plus carry-over) in the United States and Canada amounted to 1,874,000,000 bushels for 1947-48, as against 1,740,000,000 for 1946-47. Winter wheat made mostly good to very good progress during the week east of the Rocky mountains, except in dry sections of the western plains. Prospects were improved by showers in north central Texas, eastern Oklahoma and Kansas, and much of Nebraska. The crop is in generally good to very good condition except in the dry areas. Early wheat is heading as far north as southwestern Oklahoma. Spring grain seeding was again delayed by wet or flooded fields in most of the Red River valley, but advanced favorably in other north central sections of the belt.

Pacific Northwestern wheat markets largely fluctuated with eastern markets but prices at the close of the week were mostly around 2c per bushel lower compared with a week ago. The Commodity Credit Corporation purchased 16,666 bushels of wheat through the Portland office during the week, but demand from mills and other classes of trade was only moderately active. At the close of the period dealers at Portland were bidding \$2.35 per bushel for No. 1 soft white, No. 1 white club, No. 1 western red and No. 1 hard red winter wheat, in bulk, delivered at coast markets.

The San Francisco wheat market also was rather unsettled but was stronger with other markets following the rather sharp price declines early in the period. Prices were around 2 1/2c per 100 lower at the close, after regaining much of a 15c per 100 drop in early trading.
