VOLUME 58

KENDRICK, LATAH COUNTY, IDAHO, THURSDAY, JUNE 24, 1948

NO. 26

## PERSONALS AND NEWS ON AMERICAN RIDGE

There will be a Red Cross meeting at the Geo. Havens home Wednesday afternoon, June 30, to discuss plans to help flood victims, and also to a quilt.

Mrs. Mary Deobald attended a surprise party honoring Mrs. W. B. Deobald Saturday evening in Kendrick.

Mrs. Carl Koepp of Cameron, who had undergone surgery at the St. Joseph's hospital in Lewiston Tuesday, spent Friday night at the Henry Brammer home.

Mr. and Mrs. Grant Bateman and son Jerry spent Sunday afternoon with Mr. and Mrs. Henry Jones.

Mrs. Wayne Davis spent Tuesday afternoon with Mrs. Walter May.

Mr. and Mrs. Geo. Havens and family attended the dedication services of the Lutheran Church in Lewiston Sunday afternoon.

Perry Mattoon and Mrs. Walter Benscoter and daughter Jorene were Lewiston visitors Wednesday.

Mrs. Walter May and Dora Dees spent Friday afternoon with Mrs. Andy Cox.

Mrs. Bruce Glenn was in Moscow Tuesday.

Mrs. P. G. Pearson of Troy is visiting her daughter, Mrs. Bruce Glenn and family.

Mrs. Harry Benscoter spent the week-end with her parents, Mr. and Mrs. Dan Lyle, at Peck.

Bruce Glenn and daughter Joan were callers at the Harry Benscoter home Tuesday evening.

Wayne Davis, Dick and Ray Benscoter and Bruce May were fishing at Bull Run Monday. They reported fair luck.

Mr. and Mrs. T. B. Denny of Opportunity, Wash., spent the week-end at the Perry Mattoon home. Mr. and Mrs. Bud Fey and son were also Sunday dinner guests.

Mrs. Nora Callison, Bobby and Nancy and Priscilla Benscoter were Tuesday afternoon visitors at the Perry Mattoon home.

Nita, Judy and Diana Benscoter spent Thursday afternoon with Beverly Mattoon. Mr. and Mrs. Ray Knutson and daughters were also callers that afternoon.

Mr. and Mrs. M. F. Hayes, who have been visiting Mr. and Mrs. Ray Knutson, left for their home in Portland Thursday evening.

Miss Carol Mattoon and Earl Harris were married in Superior, Mont., on Saturday, June 12.

Sunday dinner guests of Mr. and Mrs. Wayne Davis were Mr. and Mrs. Bert Davis and Mr. and Mrs. Beane Davis and son, all of Pullman; Mr. and Mrs. U. G. Corrick and Mrs. Sandford Hickman, Clarkston.

Mr. and Mrs. Andy Cox and family were Sunday dinner guests of her parents, Mr. and Mrs. Glenn, at Fairview.

Mr. and Mrs. C. Dougharty returned Tuesday evening from southern Idaho, where they had visited for several days.

Mr. and Mrs. Walter Benscoter were Lewiston visitors on Monday.

Larry Langdon, Pullman, and Buddy Langdon, Moscow, spent the week-end at home. On Sunday they accompanied their father to Pomeroy to get a combine. R. S. Samnell of Clifton came over Friday to get Mr. Langdon's old machine.

Mr. and Mrs. Wayne May and son were Cameron visitors Sunday—viewing the wash-out on the way.

Harry Langdon called at the Wayne May home Wednesday, while on his way to Moscow.

Mr. and Mrs. Wayne May were Sunday evening callers in the Walter May home.

Mr. and Mrs. Geo. Havens and sons Charles and Rayner were dinner guests Monday of Mr. and Mrs. Ira Havens in Moscow. Ira and Teddy Havens were guests of Mrs. Sam Bigham and Walter.

Mr. and Mrs. Don Benscoter and Mr. Gardner of Peck, were Tuesday guests of Mr. and Mrs. Frankie Benscoter. Don remained for a longer stay.

Mr. and Mrs. Frankie Benscoter were Sunday dinner guests of Mr. and Mrs. Bob Draper at Leland.

Larry and Buddy Langdon were Saturday evening visitors in the Geo. Havens home.

Mr. and Mrs. Harry Langdon and Vicky Ann were Saturday afternoon visitors at the Walter Benscoter home.

Mr. and Mrs. Bill Cox spent the week-end in Ferdinand and Cottonwood.

Mr. and Mrs. Carroll Cox and son Norman of Ferdinand are visiting on the ridge.

Mrs. A. A. Garner, Seattle, who has been visiting her sister, Mrs. Ed. Kent, left for her home Monday morning.

Mr. and Mrs. Harold Roberts and family were Sunday dinner guests of Rev. and Mrs. Perry in Moscow.

Mr. and Mrs. Geo. Havens and sons Charles and Rayner were Tuesday evening callers at the Henry Brammer home.

ADD AMERICAN RIDGE  
Archie Morgan of Moscow was a week-end guest at the Ed. Kent home.

Mr. and Mrs. Ed. Kent and their house guest, Archie Morgan, were Sunday guests in the home of their daughter, Mrs. Walton Morey and family, Big Bear ridge.

Mr. and Mrs. Ernest Roberts accompanied Mr. and Mrs. Nora Callison and family to Lewiston Sunday. Mr. and Mrs. Roberts were guests in the Gregory Eaves home, and the Callisons in the home of his father, Ben Callison.

Mrs. Ernest Roberts and Mrs. Nora Callison and children were callers in the Mary Deobald home Wednesday of last week.

(Continued On Page 2)

## School Board Make Tour

Saturday the Kendrick school board packed their lunch buckets and spent the day on a tour of the routes over which the school buses will operate this coming fall — and announce that plenty of repair work needs to be done on all but one route — that of Big Bear ridge, which was found to be in very good condition with the exception of a couple of short stretches.

They stated they expected to meet soon with road and highway supervisors in the affected areas to discuss the situation.

## AREA FARMERS FACE INSECT MENACE DUE TO DAMPNES

Kendrick area farmers, who, like most tri-state agricultural operators, have been handicapped since last fall by incessant storms, find themselves facing another problem at this time. An army of bugs has combined with unfavorable weather conditions to endanger the clover crop, which has become one of the "staples" of this section.

With the clover badly infested with bugs, farmers have readied spraying equipment, but have been unable to get into the fields to use it, due to soggy ground. However, they will still have another two or three weeks in which to spray if the weather clears, George Brocke, Sr., of the Kendrick Bean Growers Association, says.

Regarding bean crop prospects, the outlook is poor, states Mr. Brocke, estimating that only 62 percent of this section's 9,500 acre bean crop ground has been planted. A few farmers are "mudding in" beans between showers, but on the whole, they have given up.

A check with local warehousemen discloses that the spring grain crop will be late, but what fall wheat was planted is in good shape, although tending toward excessive growth, and the continued rains are putting it down, so that in many instances pick-up reels for peas and beans will probably be used. Indications are that heads on the fall grain are filling well. Sunshine is needed for spring wheat.

Things are never so bad but what they might be worse, and surely some one of the diversified crops raised in this area will produce.

## Brady Gulch Damage Shows Up

Further damage has shown up in the Brady Gulch area, as time passes, and particularly to the roadway. Near what is best known as the John E. Davis ranch, a soft spot has appeared across the roadbed at the gully fill, and appears to be steadily deepening. If hit at any speed a car could be thrown quite badly. Warning signs are posted, of course.

An examination of the area would lead one to believe that the whole hillside near this ranch is settling—and should the rains continue, just what might happen is anyone's guess.

Farmers in the American ridge section are co-operating in the repairing of fences, culverts and roadbeds washed out by the cloudburst of Tuesday of last week. Damage appears to be most extensive in the area from the Walter May home to that of Harry Benscoter and George Havens, including the Warney May, Nora Callison, Ernest Roberts, Mary Deobald, Harley Eichner and Perry Mattoon ranches. We cannot add much to our report of last week along this line — but the damage, in dollars in every way, was terrific.

## Wauncher Gulch Now Open

Thursday morning of last week, emergency repairs began on the Wauncher Gulch grade, washed out by Tuesday evening's storm and further damaged by Wednesday afternoon's rain.

At the foot of the grade Walt Luman, operating Earl Milisa's dozer, and assisted by the state highway crew, began working from the foot of the grade toward the top, and Gerald Schmidt, operating the big dozer belonging to Herman Meyer, and assisted by most of the farmers in the area, began working downward, digging dirt and rock from the upper side of the road and filling in the ditches and road-side cuts, and by late evening the grade was open to one-way traffic, but care had to be used.

The storm of Friday, however, cut out much of the temporary work, and the performance was repeated by both crews.

The road is now open to one-way traffic, a greater share of the way, and anyone traveling it is warned to use extreme caution.

## Locals Win At Horse Show

At the Appaloosa Horse show held in Lewiston last Sunday, two local horse lovers, Jesse Heffel and Dr. D. A. Christensen, walked away with ribbons. Here is a list of their winnings:

Yearling Stud Colts — 1st, Chief Eagle, by Jesse Heffel, Kendrick; 3rd, Lapwal Dude owned by Dr. D. A. Christensen, Kendrick.

Two-Year-Old Fillies — 1st, Diamond Belle, owner Jesse Heffel; 2nd, Misseter, owner Dr. D. A. Christensen.

Mares, Three Years Old and Over — 3rd, Princess Pat, owner Jesse Heffel, Kendrick.

The Appaloosa strain of horses, at least in its purer strain, was in danger of dying out until some years ago, when horsemen again began to take an interest in this hardy, showy type, which for many years had proven their metal as fine stock horses — and to win a place or places in all America's first annual Appaloosa show is indeed an honor.

## CONTINUED CLOUDBURSTS DO HEAVY DAMAGE IN AREA

It would seem as if the area surrounding Kendrick has borne the brunt of continued cloudburst for the past week, with damage reports coming in daily and losses mounting steadily, not only to farmers, but to highway systems.

Wednesday afternoon of last week, between 2:00 and 2:30 o'clock, while the Gazette was being printed, a second cloudburst struck the Potlatch ridge area, particularly in the vicinity of Cameron and Leland.

Here, again, a wall of water estimated at from four to six feet in height came down Wauncher gulch, drawing added strength from the side canyon near the Henry Jones home, and adding to the destruction of fields and highway in that already damaged sector. At the Henry Jones ranch the water tore down the small ravine near his barn, and as it passed gathered up his farm equipment, carrying it into the canyon and smashing it to bits. All Mr. Jones has left is a wagon, which by some freak, was left intact. Carried away was a plow, harrow, cultivator and rake. It was thought that this equipment was high and dry, being on the hillside near the barn — but such apparently was not the case.

Atop the hill the well at the Gus Kruger ranch was washed full of mud; water pouring down the hillside and out onto the flat near the home got into his grainery, soaking valuable seed grain, as well as carrying mud and debris over the barnlot and pasture.

Almost the same thing was true at the Roy Craig home, where mud filled the well, and was distributed about the farm buildings, with the exception that no seed grain was damaged.

At Cameron a wall of water came down the hill behind the Ladies Aid hall, leaving about four inches of thick, sticky mud on the floor of that building, and about a foot on the floor of the Rev. Theo Meske garage.

The storm also struck heavily in the vicinity of the Herman Meyer and A. G. Peters homes. At the Meyer home the well was also filled with mud, and rushing water wrecked damaged to the barnyard as well.

At the A. G. Peters home water carried debris and mud almost into the house, and left a thick coating of "goo" on almost everything.

On Friday a rainstorm, classed as "terrific" but not as a cloudburst, by Roy Glenn, struck the Texas ridge area, washing fields and carrying mud and debris into ditches and onto the road, but so far as we have been able to learn, did not damage any farm buildings, nor cause slides or washout to block the road.

This storm swung on into the Linden and Cedar ridge section. Here it did more damage, not only washing fields, but also damaged the roadway, blocking the highway with a slide above the Porter logging camp, washed out a couple of small culverts and cut into the roadbed, making it one-way traffic in a number of places.

Swinging on in an arc struck again at Potlatch ridge, and this time it carried with it hail, which wounded fields in the Cameron-Leland area, hitting heavily on the Sifflow, Kruger, May and Craig farms, and pouring down Wauncher gulch, tore out several sections of the temporarily repaired highway, and again closed that road to traffic. With this storm there was also lightning, which struck at the Willard Schoeffler farm home, sending a ball of fire dancing around a room, and almost knocking down Mr. Schoeffler and his helper, Elroy Kuykendall, who had just come in from field work, in an attempt to "beat the storm." The two men were not injured, but the lightning, which apparently followed the phone line, cut that instrument out of commission, and left its tracks about the house, as the ball of static electricity did.

Saturday another heavy rainstorm of almost cloudburst proportions, hit in the Southwick and Hubbard Gulch areas. This storm, too, carried with it lightning, which struck at the Lloyd Thornton and Ossie Vanoy homes, causing some damage, but setting no fires. At the latter home the ball of fire apparently entered along the telephone line, swung down the wall, rolled along the baseboard and disappeared to the basement, knocking a hole in the concrete siding of the basement wall. At the Lloyd Thornton home the performance was said to be almost identical, with the exception that the basement wall was undamaged.

Since that time intermittent rainfall has kept fields badways soggy, and have effectively prevented farm work and log hauling, although felling is still under way in the woods.

## Engineering Officials Visit

Last Friday James Cairns, Lewiston, J. J. McCready, Lewiston, and a federal engineer whose name we did not learn, visited this vicinity and inspected the cloudburst damage to roads. They went up Big Bear ridge, Wauncher Gulch and Brady Gulch, and we understand left town without official comment of any kind.

It is hoped that the visit of a federal engineer means something — for the damage to roads is terrific, and just what the state, without federal aid, might be able to do, is a question that no one can answer — and if with federal aid, just how much equipment would be available — since the flood damage seems to cover almost all of northern Idaho.

Well, we can hope, can't we?

## PERSONALS AND NEWS ABOUT KENDRICK FRIENDS

Mr. and Mrs. Jack Maynard and family moved last week to Lewiston Orchards, where they will make their home.

Mr. and Mrs. E. L. Greene and daughter Jerre, accompanied by his mother, Mrs. Marie Greene, arrived Saturday night from Atlanta, Ga., to spend several weeks visiting in the home of her parents, Mr. and Mrs. Everett Fraser. Mrs. Greene will be remembered here as Ethel Fraser.

Mrs. Marvin Long had a dinner guest Saturday Mrs. Addie Lowry of Pullman.

Edgar Long drove to Spokane Saturday to spend the week-end with his son and family, Mr. and Mrs. Roy Long. He returned home Monday morning, accompanied by his wife, who had spent 10 days visiting there.

Carol and Phyllis Hudson spent several days in the home of their aunt and uncle, Mr. and Mrs. Alva Craig.

Mr. and Mrs. Claude Craig, Mrs. Bonnie Easterbrook and sons Jack and Gene, Mr. and Mrs. Ervin Swenson, Mr. and Mrs. Burton Souders and family and Mr. and Mrs. Julius Caesar and sons spent Father's Day with Mr. and Mrs. Jay Stout and daughter in Lapwai.

Mr. and Mrs. Oral Craig and son Ronald and Mr. and Mrs. Chas. Craig and family of Clarkston spent Sunday in the Billy Weven home at Leland.

Mr. and Mrs. Ersie Hudson moved up to the Ben Baker farm on Cedar ridge to stay until they can locate a place to live. He has returned to his work at Bovill.

Jack Plummer of Sacramento, Calif., and Mrs. Warren Cox of Spokane, visited friends in Kendrick on Tuesday.

Mr. and Mrs. Bill Johnson and family returned to their home here Monday, after spending a few days at the Herman Johnson and Gordon Peters homes on the ridge.

A. G. (Scotty) Wilson, who is now living at the Brewer rest home in Clarkston, was visiting with old friends and relatives in Kendrick Sunday and again Tuesday, coming up between trains.

J. G. Travis was a Troy business visitor Tuesday morning.

Robert Clemmensen was a Lewiston business visitor Friday.

Miss Barbara White of Lewiston spent the week-end at her home.

Miss Jean Crocker, who is employed in Lewiston, spent Saturday night and Sunday at her home in Kendrick.

Mr. and Mrs. H. S. Wright and Mrs. Bertha Evans, all of Lewiston, were Father's Day guests in the Louis Wright home.

J. H. (Hank) Emery left Wednesday for Spokane, where he will spend some time visiting relatives in that city, and at Palouse and Marlin, Wash.

Louis Wright was a Lewiston business visitor Monday afternoon.

Jack Plummer, Sacramento, Calif., a former resident of Kendrick, who in fact grew to manhood here, and who left in 1936, was visiting old friends in Kendrick Tuesday. He, with his wife and two children had been attending a family reunion at the home of his sister, Mrs. Warren Cox, Spokane, and he "stole away" for a day to visit old haunts. They will also visit in the home of another sister, Mrs. Ivan Craig and family, Richland, Wash., on their way home. Jack says Kendrick looks just the same, only more prosperous. He paid high compliment to the residents of this area on their enterprise of the Memorial Swimming Pool.

Mrs. E. Kragerud and son Donald returned Tuesday to their home in Bonners Ferry. Her husband, who went there last Sunday, will meet her in Coeur d'Alene. Their daughter, Jean, remained here. The Krageruds have been here the past several weeks staying with Mr. and Mrs. Jack Travis, while the flood waters receded in their home and place of business in Bonners Ferry.

Mrs. Emma Walker, Clarkston, is visiting this week in the home of Mr. and Mrs. H. C. Schupfer.

Lois and Gay Deobald left last week for Wesley, Mass., where they will attend the Kappa Phi National Convention. Gay was a delegate from the Moscow chapter. They expect to be away six weeks.

Mr. and Mrs. Billy Deobald of Moscow were week-end guests in the home of his parents, Mr. and Mrs. W. B. Deobald.

Mrs. Paul Lind attended the wedding of a nephew in Lewiston, Saturday.

Mrs. Ed. Ohman, who has been here visiting the past two weeks with her mother, Mrs. Liddle Ameling, and other relatives, left for her home in Seattle on Tuesday.

Richard Johnson, Clarkston, was a week-end guest in the home of Mr. and Mrs. L. D. Crocker.

Mrs. E. M. White and daughters Judy and Ann took Barbara White back to her work in Lewiston Tuesday.

Mr. and Mrs. H. C. Schupfer and daughters, Chloe McKeever, Mr. and Mrs. Otto Schupfer and daughter Maribel, Mrs. Mary McCall and Mrs. Browning were in Lewiston Tuesday evening to attend the concert given by the Wartburg Choir, of Waverly, Ohio, at the Trinity Lutheran church.

Beverly Ann Schupfer was a Tuesday night guest in the home of Mr. and Mrs. Tom Denner in Pix Ridge.

Mrs. Glerup, of Troy, is spending this week in the home of Mrs. Estella Leith while taking medical treatments here.

Mrs. Lila Strohm of Troy spent Tuesday night in the home of her brother, C. E. Harris and family.

## First Day Of Summer Gone

Monday, June 21, the longest day of the year, was theoretically the first day of summer — but in this area such was the case in theory only, for it was a raw, cold day, with a chill rain falling during the morning hours — and smoke could be seen pouring from the chimneys of many local residents — some of the business houses even having a fire.

We believe Tuesday was the first day since the pool opened, that no swimmers were to be seen during mid-afternoon.

## INTERESTING HAPPENINGS FROM JULIAETTA AREA

Carol and Lloyd Falk of Newport, Wash., spent last week with their uncle and aunt, Mr. and Mrs. Harvie Shepherd.

Mr. and Mrs. Frank Ballantyne of Peck, Idaho, are moving to Juliaetta to make their home.

Mr. and Mrs. Loye Tacker and daughter Sue of Pasco, Wash., spent the week-end here; spending Saturday night with Mr. and Mrs. Teddy Peters. Their daughter, Sue, stayed with Francis and Connie Freeman.

Joanne Peters returned to Pasco, Wash., with Mr. and Mrs. Loye Tacker to visit in their home for a week.

Mrs. Edgar Lackey and Mrs. Teddy Peters were Lewiston shoppers last Friday.

The Juliaetta Girl Scouts will entertain the Kendrick Girl Scouts at a breakfast next Sunday morning.

Mr. and Mrs. Edgar Lackey and family spent Sunday in Orofino at the home of her mother, Mrs. Daisy Stonebraker. Young Gary remained for a longer visit with his grandmother.

Mr. and Mrs. Alvin Nye of Clarkston and Mr. and Mrs. Woodrow Nye were Sunday evening callers in the home of Mr. and Mrs. Onal Cope.

Mr. and Mrs. Lewis Lindquist spent the week-end in Moscow with relatives.

Mr. and Mrs. Woodrow Nye and daughter Ardene, and Lloyd Nye motored to Lewiston and Clarkston Saturday evening, calling in the Alvin Nye and Jack Kumpula homes.

Mrs. Pearl Scott returned Thursday from Lewiston.

Mr. and Mrs. Jack Browning and daughter Montez and son Gary returned Saturday from a motor trip to Port Angeles, Wn., where they were the guests of Mr. and Mrs. Harold Abrams, who are now comfortably settled in their new home there.

Mr. and Mrs. Jack Browning have just completed installation of a new electric range.

Juliaetta Rebekah Lodge No. 9 held its last meeting until next fall on Thursday, June 17th. The lodge will be closed for summer vacation.

Mrs. E. A. Kirkpatrick returned Saturday from Post Falls, where she had been visiting relatives and friends.

It seems as if there just isn't any news this week. But, when you have any, won't you please jot it down or call your correspondent. Let's make this column a good one.

Mrs. Laura Irwin has been quite ill at the home of her daughter, Mrs. John Hill. She is much improved at this writing.

Mr. and Mrs. Edgar Taylor and children of Pocatello are here visiting for a couple of weeks at the parental home.

John Tolliver of Minot, North Dakota arrived here Sunday to make his home with his daughter and son-in-law, Mr. and Mrs. Ralph Magnuson.

## Honored On Silver Wedding

Mr. and Mrs. E. L. Mitchell of East Lake Shore were surprised on Tuesday evening, June 1, by a neighborhood party in honor of their silver wedding anniversary. About 50 friends and neighbors arrived at their home, bearing lunch and a silver gift.

During the evening, a spokesman for the group paid tribute to the Mitchells and the lunch, which was arranged by Mrs. Mabel Farnham, was served.

Out-of-town guests included Mr. and Mrs. Harold Roe of Ronan, Mont., and Miss Eva Smith and George Smith of Lewiston, Idaho, who were bridesmaid and best man at the wedding in Spokane 25 years ago. The Smiths are sister and brother of Mrs. Mitchell. — The Flathead Courier, Polson, Mont., June 10th.

Note: It will be recalled by most residents that Mrs. Mitchell was born and reared in the Linden area, which was her home at the time of her marriage, and where she has visited many times since.

## Birthday Party

Leonard Eldridge, son of Mr. and Mrs. Elmo Eldridge, celebrated his seventh birthday anniversary Monday afternoon by entertaining several little friends. Those present were Paul Jerry and Ruthie Crawford, Jack and Gene Easterbrook, David and Ila Jones, Ronald Craig, Randy Wallace, Charles Hudson, Robert and Dee Magnuson. Games were played.

Cake and ice cream were served the little guests at the close of the afternoon by his mother.

## Letter Gymnasium Roof

An Idaho Search and Rescue team was busy last week-end and Monday of this week painting, in letters 10 feet high on the gymnasium roof the word "Kendrick" and directions for reaching the Moscow airport.

This work is done for the purpose of directing flyers and enabling them to orient themselves immediately on the map.

## WHEAT MARKET UP AS HUGE QUANTITIES GO UNDER LOAN

Domestic wheat markets turned somewhat stronger during the past week, although harvesting of the large winter wheat crop made good progress and spring wheat conditions were quite favorable, according to reports to the Federal-State Market News service. Receipts at a number of winter wheat terminal markets were the largest on record but with prices at or near government loan levels, large quantities were being placed under loan rather than marketed. This, together with additional purchases by the C. C. C. and improved demand from flour mills made for market strength. Prices advanced several cents per bushel at most points east of the Rock mountains. Pacific Coast markets, however, were independently weak because of slow local demand and prices tended slightly lower compared with a week ago.

Harvesting made good progress and was nearing completion in southern Oklahoma and becoming fairly general in southern Kansas. Progress and condition of spring wheat were reported as generally good to very good. Rains fell over most of the spring wheat belt but additional moisture is badly needed in parts of central Minnesota, Wisconsin and south central North Dakota.

Crop conditions in most parts of the Canadian prairie provinces have been fairly well maintained. Timely showers during the week were beneficial in many districts in Saskatchewan and southern Alberta. Recent heavy rains in southwestern Alberta, however, have delayed seeding and the acreage may not be as large as earlier expectations. Seeding is practically completed in Manitoba and Saskatchewan.

U. S. exports of wheat the first eleven months this season were the largest on record and amounted to 442,000,000 million bushels of which 285,000,000 were exported as grain and the equivalent of 157,000,000 bushels in the form of flour. This compares with 357,000,000 bushels in the same months last year, of which 187,000,000 were exported as grain. Estimated exports of wheat and flour in May totaled 38,700,000 bushels, of which 20,300,000 bushels were grain and the remainder flour. These compare with the revised April exports of 21,100,000 bushels of wheat as grain and the equivalent of 14,200,000 bushels as flour.

Milling of wheat for flour July through May of this season totaled 612,000,000 bushels compared with 640,000,000 bushels in the same period last year. Around 118,000,000 bushels of wheat were milled in April and May this year as compared with 115,000,000 bushels in the same months last year. Since complete data on grain stocks are not available for June 1, the quantity of wheat fed during April and May cannot be estimated accurately. However, since the supply of corn is short and is relatively higher in price, a larger amount of wheat has probably been fed this season than last year.

The Commodity Credit Corporation purchased 11,641,368 bushels of wheat during the week ending June 11, while flour purchases totaled 79,295,000 pounds, equal to about 1,777,000 bushels of wheat. The wheat purchased during the week included 10,129,051 bushels through the Kansas City office; 126,650 through the Chicago office; 690,000 through Minneapolis and 696,667 bushels through Portland, Oregon. These purchases brought the total since July 1 up to 296,211,717 bushels of wheat and 3,411,540,000 pounds of flour, equal to about 76,045,749 bushels of wheat.

Pacific Northwestern wheat markets were dull with prices declining around 1c per bushel compared with a week ago. Offerings of old crop wheat were quite light, but mills and other classes of trade were limiting purchases to nearby needs because of the approach of new crop movement. Combined winter and spring wheat crops in Washington and Oregon, this season, on the basis of conditions as of June 1, promise to be somewhat more than 117,000,000 bushels compared with only 86,000,000 bushels a year ago and 77,000,000 bushels for the 10-year average. Dealers at Portland reduced bids 1c per bushel and on June 17 were offering \$2.30 for No. 1 soft white, No. 1 white club, No. 1 western red and No. 1 red winter wheat in bulk, delivered coast markets.

Intermountain wheat markets declined around 2c per bushel and at the close of the week No. 1 hard white wheat was quoted at Ogden at \$2.31 and No. 1 dark hard winter, dark northern spring and hard winter and western white at \$2.21 per bushel, bulk basis, delivered Ogden.

The San Francisco market showed little change. While current demand remained quite light, advances in eastern markets and a strong holding tendency among central California growers kept prices steady compared with a week ago. Harvesting was becoming more general but growers were not inclined to sell freely at bids of around \$3.75 per 100 for No. 1 hard and soft white wheat in bulk, f. o. b. central California shipping points. Offerings of sacked wheat were particularly light.

**Birthday Dinner**  
Mrs. Wm. Fry honored her husband's birthday anniversary last Friday evening, with a dinner.

Guests present were Mr. and Mrs. L. A. Bartlett, Mr. and Mrs. Glen Wegner and family, Mrs. Kirk Wilson, Bobby Vaughan, Mrs. C. H. Fry, Don Fry, Nellie Fry, Mr. and Mrs. Bud Fey and baby and Jimmy Mattoon.

## BIG BEAR RIDGE NEWS

Miss Louise Flisken of Spokane has been visiting her aunt, Mrs. Ed. Galloway and other relatives.

Mrs. Marvin Redington, Philip and Faye, of Salmon, Idaho, are visiting at the Jones homes here.

Mrs. Adrienne Clemenhagen entertained the Ladies Guild at her home in Kendrick Thursday afternoon.

Mr. and Mrs. Verr Dunham attended the funeral rites for Alfred Crumpacker, Mr. Dunham's uncle, in Pomeroy, Wash., Sunday.

Roger Jones is attending a Music course at the U. of I. in Moscow.

A. Kieth has been visiting his daughter, Mrs. Virgil Wampler, in Lewiston.

Mrs. Bill Huffman and son Paul have returned to their home in Grants Pass, Oregon, having visited at the homes of Mrs. Kate Huffman and Mrs. Henry Galloway.

The Cecil Chamberlain family were Lewiston visitors on Monday.

Miss Leona Wilson is spending her vacation at home.

Mrs. Rose Long of Pullman spent the week-end with her daughter, Mrs. Ronald Jones.

Mr. and Mrs. Harold Peterson and children visited relatives near Pullman Tuesday.

W. and E. H. Jones received a telegram stating their brother, Fay Jones, had passed away in Derby, Iowa. Mr. Jones visited at the Jones homes here several years ago.

Ed. Halseh is drilling a well at his home here.

Rev. Lowell H. Swantz will conduct Bible School at the Lutheran church the first part of July. All children in this community are invited to attend.

Mr. and Mrs. Frank Peterson of Portland, Ore., have been visiting Mr. Peterson's sister, Mrs. Joe Clemenhagen and family.

Grant Clemenhagen recently visited with his brother, Sydney, in Richland, Wash., visiting Coulee Dam while away.

Mr. and Mrs. Lewis Pearson and Donna and Mr. and Mrs. Jack Cady and son of Spokane recently spent a week-end at the Ed. Halseh home.

Mrs. Nora Callison, Nancy and Bobby, accompanied by her sister, Mrs. Irwin Slater and children of Boise, visited with Mrs. Johanna Nelson Saturday afternoon.

Charley and Miss Alta Moore have enjoyed a visit with their aunt, Mrs. Hanna Smith and daughter from Portland, Ore. Mrs. Smith is a sister of the late Amos Moore, and was one of the early pioneer residents of this ridge, living on what is now the Oscar Slind ranch.

Mr. and Mrs. Cyrus Bosworth of Seattle spent last week visiting at the Ingie homes. His parents, the late Mr. and Mrs. Horace Bosworth lived on the Halseh place during his childhood.

**Writes Of St. Maries Flood**  
 From W. F. (Bill) Behrens, for many years a resident of this vicinity, comes the following letter, which we believe quite interesting:  
 Dear Bill:  
 I am sending you a picture of our farm, which as you can see, was 245 acres of water 12 feet deep. Our dike broke, along with all the rest, except one, which the army saved by the labor of a few hundred soldiers.

Everything that floats is floating — houses and barn drift around. However, our farm buildings are high and dry. We lost all the crop of winter wheat and much spring-seeded oats. At this writing the water is down about six feet and much of our land is already dry — another three-foot drop and we will have at least 200 acres dry, which will make hay and perhaps save some of our crop. We are not complaining much here, especially the larger farmers — since we have read and heard about those floods around Portland. All we lost is some crop, and each lost about 200 feet of dike. We, at least, have a farm left, and a much-fertilized farm, with the new silt — also no squirrels now!

We are fortunate here in some degree, for when a flood comes we build up our land. In the Palouse, when a flood comes, they lose their crop and most of their farm, which they never get back. This has been a most unusual year here. Our dikes were all high enough, but owing to three months of flood-stage on the river, the dikes softened up and just simply pushed over. This is the first time our farm has been flooded since 1933 — and we have not lost all our crop this time.

Note: Thanks for the letter, Bill. All will be glad to learn how things stand with you — but you forgot to enclose the picture. How about sending it?

**Kendrick Defeats Kooskia**  
 Orofino, June 20 — Behind the three-hit hurling of Ozzie Kanikkeberg, Kendrick handed a hapless Kooskia nine its sixth consecutive defeat with a 7-1 victory here today. The game was played at Orofino because of the poor condition of the Kendrick diamond. Rain cut short the contest at the end of the fifth inning.

Kendrick took an early lead with a three-run outburst in the first inning. Kanikkeberg, a University of Idaho baseball star, paced the attack with a triple, with two men on base. Kendrick scored three more runs in the second inning and one in the third.

Batteries — Fitting and Hardy for Kooskia; Kanikkeberg and Schoefler for Kendrick.

**Car Does Flip-Flop**  
 Sometime Monday night or Tuesday morning a 1941 Oldsmobile sedan bearing a King County, Wash., license, hit the mud hole this side of the Henry Brammer home on the Juliaetta-Kendrick road and did a very neat flip-flop, reposing squarely on its top. The soft mud cushioned the shock, and considering the position it assumed, was damaged but little.

The occupants were uninjured.

**Deer Seen Again**  
 Deer have apparently left the side hill to the east of town, and are now settled on American ridge, two being seen crossing the Pete Bencosoter barley field and the Geo. Havens' ranch one day last week.

## SWIM POOL REGULATIONS

The following regulations for the use of swimming pools have been set by the State Department of Public Health, and are here reproduced for the benefit of users:

(a) All bathers shall take a cleansing shower before entering the pool.

(b) Bathers who have been outside the bathhouse or pool enclosure shall not re-enter the pool without using the shower.

(c) Bathers shall be forbidden to wear private bathing suits that are not properly laundered, and shall display such suits for inspection as they pass through the entry and check room.

(d) Women shall wear caps while in the pool.

(e) No person suffering from a fever, cough, cold, inflamed eyes, nasal or ear discharges or any communicable disease shall be allowed use of the pool.

(f) No person with sores or other evidence as skin disease, or who is wearing a bandage of any kind, shall be allowed use of the pool. (A bandage may conceal a source of infection).

(g) Spitting in, or in any way contaminating the pool, and spitting on the floors, runways, aisles or dressing rooms shall likewise be prohibited.

(h) Eating within the pool enclosure shall be prohibited.

(i) Bringing or throwing into the pool any objects that may in any way carry contamination, endanger safety of bathers, or produce unsightliness, shall be prohibited.

The public is asked to remember that these rules were not arbitrarily set up by the local control board — but are state regulations, in effect wherever there is a swimming pool that is open to the public.

**Home Moved From Foundation**  
 The house in the west part of town, occupied by Mr. and Mrs. Ersel Hudson, was found to have been washed off its foundation by the cloudburst of Tuesday night of last week and held from floating up toward the L. A. Wallace home only by the water pipes, and as the floor is still under water, it is being vacated by the Hudson family.

A large forestry service pump was brought in from Coeur d'Alene last Friday by Henry Jones, and it was hoped that this 5-inch turbine-type machine would be able to pump out the swamp surrounding the Mrs. A. Onstott, Wm. Johnson, Walter Jones, Ersel Hudson, L. A. Wallace and Myrtle Kuykendall homes. However, after a day of pumping it was discovered that water flowing down the gulch and off the hillside, was keeping pace with the pump, so the effort was abandoned for the time being, as well as any thoughts of repairing the Hudson home.

**Mother Passes Away**  
 Mrs. Myrtle Harris, Troy, died at her home in Troy, Idaho, Monday June 21. A resident of the Troy area for 55 years, she was born at Hillsboro, Ohio, April 10, 1870. She was a member of Bethel Methodist church.

She is survived by five daughters, Mrs. Lila Strohm, Troy; Mrs. Mazie Treiber, Belmar, N. J.; Mrs. Iva Wandke, Bovill; Mrs. Eda Richmond, Lewiston; Mrs. Gertrude Snoon, Eugene, Ore.; and four sons, C. E. Harris, Kendrick; R. F. Harris, Bovill; O. F. Harris, El Cerreto, Calif.; and E. L. Harris, Oakland, Calif. Twenty-five grandchildren and 18 great-grandchildren also survive.

Funeral arrangements are pending.

**About Local Roads**  
 Wednesday at noon we held a brief conversation with J. H. Cairns, district engineer, Lewiston, regarding roads in this area.

Mr. Cairns said that to date they had been unable to completely assess storm damages, and their big need was to get roads "passable" as quickly as possible.

He stated that "it was his belief" that the road from Kendrick to the Henry Brammer place would be rebuilt this summer.

All main highways in this area, as well as the North & South highway are now open to travel, but all possess "rough spots" and "one-way" traffic sections.

**Purchases Ranch**  
 A. C. Wilson, Big Bear ridge, two weeks ago purchased the Melvin and Stanley Sneev ranch adjoining on the west, the farm owned and operated by him for many years. The consideration was not made public. Immediate possession was given. Jay Dee and Wayne Wilson will be associated with their father in operating the expanded farm.

The deal was handled by Bill Dahmen.

**Take Polio Training**  
 Mrs. Howard Hoffman, accompanied by Mrs. Ben Cook, drove to Moscow Friday, where they entered a training class at the Gritman hospital for polio emergency volunteers.

Directing the classes were Emmaline Treetwin, polio specialist, and Margaret Miller, physio-therapist, employed by the National Foundation for Infantile Paralysis, to conduct training schools in Idaho.

**To Attend Summer School**  
 Edwin Coulter left Friday of last week for Seattle, where he will attend summer school at the University of Washington.

**New Arrival**  
 Mr. and Mrs. Glen Hansen of Potlatch are the parents of a son, born Monday at Moscow. The Hansens will be remembered at Cameron, having lived there some two years.

## AMERICAN RIDGE NEWS

Priscilla Bencosoter was a Tuesday night guest of Nancy Lee Callison. Mr. and Mrs. C. Dougharty were callers at the Bigham home Monday of last week.

Mr. Stapleton and Mr. Wilson of Moscow were visitors at the Walter Bigham home Wednesday.

**Invasion of Insects  
By Air Poses Threat  
Pests, Plant Diseases  
Survive Shorter Trips**

Danger of invasion by undesirable alien insects grows apace in every agricultural country of the world as air transport, which is accounting for an ever increasing share of traffic, cuts the time of travel between them from days to hours, and as airplanes take over a larger share of traffic.

Pests that might not withstand a long sea voyage may survive the

Even toys from Mexico have been known to be carriers of insects, costing large agricultural losses.

shorter air ride in good shape. Reaching new lands where conditions favor their development they soon may build up a strong colony that could become as costly as the Hessian fly, the European corn borer, the Japanese beetle, the codling moth or the cotton boll weevil.

The department of agriculture is charged with this country's defenses against the entry of dangerous foreign insects and plant diseases. Even toys have been found to be carriers.

Farmers must be sure that all mail and express from foreign countries have been inspected and passed free of any insects or diseases before being permitted on their land.

**Jura Stallions Prove  
Good Farm Workers**

While the Swiss Jura horse, long recognized as the national breed in that country, has not been generally recognized in America, interest has

Three Jura fillies typify the Swiss national breed.

been centered in the breed in recent years because of the fact that the stallions are suitable for all types of farm work.

The breed has shown proper temperament, strength and resistance to disease, and while light in weight has proven an excellent draft horse. It is exceptionally strong, tame and docile.

**Sexing of Baby Chicks  
Proves Difficult Task**

Chick sexing is difficult to learn, and in order to become proficient it is necessary to receive expert instruction and to have considerable practice and experience with thousands of chickens.

Reliable authorities have stated that a student must sex at least 250,000 cockerels before the male genital eminence can be accurately recognized. The expert sexer appears to be endowed with a natural ability to recognize and classify the various types of genital eminence to be found in chickens, but accuracy is obtained only by regular practice, investigation of errors and a liking for the job.

**Fertilizer Won't Solve  
Entire Farm Problem**

Many farmers are inclined to use fertilizer as a crutch by attempting to make it substitute for good soil management.

Vital as fertilizer is, it cannot do the entire job. It must be backed up by other practices that add organic matter, build soil structure and boost crop yields.

**New Insecticides Are  
Non-Poisonous to Bees**

One serious cause of bee poisoning has been that bees have taken dusts containing arsenic and have stored this poison in combination with pollen in the hives. Arsenic remains permanently poisonous but newer insecticidal dusts and sprays, such as DDT, DN and D.D.D., are less dangerous to beneficial insects as the toxic effect will break down gradually.

**SEE EVERY PART  
OF THE SURFACE FOR  
Fast, Easy Cleaning**

You can't help but keep a McCormick-Deering Milker pail spotlessly clean. Every part of the surface that milk touches is readily seen for quick cleaning.

Besides, the completely stainless steel construction makes rusting impossible. Just take a look at this modern machine and you'll agree that the easy-to-clean McCormick-Deering helps produce more profitable milk.

And the 9-inch pail opening . . . how can that mean better milk for you? Because it simplifies your cleaning job, thus keeping bacteria at a minimum, and speeds up drying.

There's a good way to prove these facts. Stop in and look over this great milker or, better yet, arrange for a demonstration. Find out for yourself just how the McCormick-Deering Milker turns out cleaner, healthier milk.

## The Gazette

### Ben Franklin Contributed To Knowledge of Farming

One of the earliest Americans to perceive that the agricultural resources of the country should not be wasted, Benjamin Franklin termed farming "the most honorable of all employments, the most useful in itself and rendering man the most independent." This remarkable inventor and scientist felt that farming must be something of a business and a science as well as a way of life.

Franklin's work in the field of writing had perhaps the most widespread influence in directing attention of the public at that time to the value of education in agricultural science. On May 14, 1743, he published his "Proposal for promoting useful knowledge among the British plantations in America." In it he suggested the collection and dissemination of information on a great variety of scientific and practical subjects, such as the virtues and uses of new-discovered plants, herbs, trees, roots; new discoveries in chemistry; introduction of new methods of improving the breed of useful animals; new improvements in planting, gardening and clearing land; and the nature of the soil and production of different regions.

Outstanding among Franklin's services is his introduction of new varieties of useful plants and grains. From Europe he brought Scotch kale, the kohlrabi and Swiss barley. He promoted silk culture in Pennsylvania. He introduced the yellow willow for basket making and he taught the farmers of Pennsylvania to plaster their land. From Virginia he brought the broom corn, and from China, by way of England, he brought rhubarb used in medicine, unlike the already common garden type known as pie-plant in America. Abroad his agricultural activities profited France, which learned of the Newtown Pippin while England became acquainted with fowl meadow grass. To France he also brought knowledge of various American trees, including nut-bearing trees and shrubs.

### Beekeeping in California

The honeybee is not a native of California. Early records indicate that it was first imported in 1853. In March of that year, 12 hives were landed at San Francisco but only one colony was alive. This was moved to San Jose, where it cast three swarms the same season, two of these swarms were sold at auction that fall, one for \$105 and the other for \$110. By importations and natural increases, the number of colonies in Santa Clara county alone reached about 1,000 by the beginning of 1860. Beekeeping continued to expand in California to a point where, in 1873, John S. Harbison, a pioneer beekeeper of the state, shipped the first carload of comb honey to Chicago. At present, approximately 12,000 individuals own some 461,000 colonies of bees—an investment of several million dollars. The number of colonies maintained by each beekeeper varies from one to several thousand, with a majority of the keepers owning a comparatively small number.

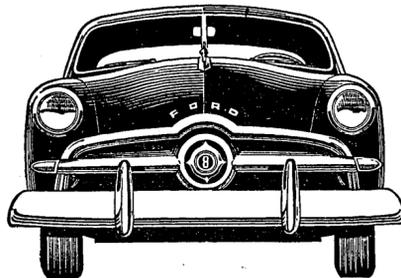

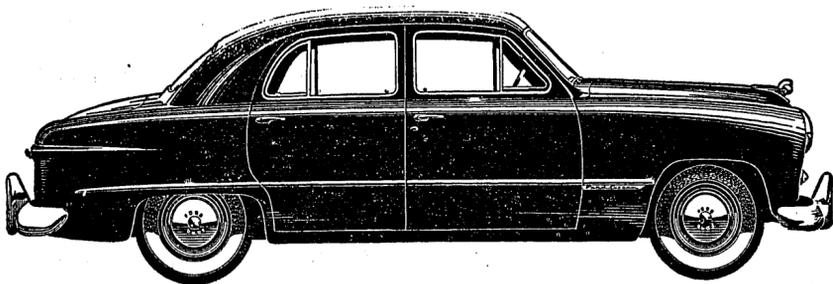

### Field Mouse Control

Field mice do untold damage each year to cucumber, cantaloupe, and watermelon fields by destroying the seed which have been planted and also by damaging the plants after they are up and bearing. The damage is done by meadow and pine mice.

The meadow mouse destroys the seed after they have been planted while the pine mouse burrows into the ground, following ground mole tracks, and cuts off the plants at the ground. The destruction of plants is usually done when they have fruit varying from the early stage to fruit about ready to be harvested. The mice produce rapidly and it is estimated that from one pair a million mice are produced in one year. Two poison baits have given very satisfactory control for a number of years. One of these is strychnine-treated rolled oats. Another bait, which can be prepared at home, is made by using one-fourth ounce strychnine sulfate, one pint syrup, and one pint water. The mixture is brought to a boil and allowed to cool after which two or three saccharine tablets are added. The poisoned syrup is used on old melon, cucumber, or cantaloupe seed, grain, chicken feed, peanuts, or small cubes of cheese. The above mixture makes a sufficient amount of poison syrup to treat six or eight quarts of bait, depending upon the kind of bait used.

### Pipe-Smoking, Old Custom

Use of the pipe in America is of unknown duration. According to the Encyclopedia Britannica, the most ancient American pipes are found in the Indian "pipe mounds," in Ohio, Indiana, Illinois, and Iowa. Many highly decorative pipes are found in the Mississippi valley and in Mexico, indicating that pipe-smoking was prevalent in the pre-Columbian era. In Great Britain and Ireland, small clay pipes are often dug up. These are frequently associated with Roman relics. However, there seems to be no reason to believe that these pipes date back beyond the 17th century for it is thought that the first Indian pipe to arrive in Europe was presented to Sir Walter Raleigh in 1586 by Ralph Lane, first governor of Virginia.

White sidewall tires available on extra cost.

**FLOOD DAMAGES TO THE NATIONAL FORESTS ADDED**

Missoula, Mont., June 21 — Flood damage to improvements on the national forests in the northern region has been estimated to exceed \$2,171,000, P. D. Hanson, regional forester, announced this week. Damages in the Missouri river basin, to date, total only \$155,000, while in the Columbia river basin, they are over \$2,16,000.  
 Forest roads, bridges, trails, recreation areas, landing fields and drift fences suffered the most damage, he said. Stream bank cutting has been very severe throughout the flood area. However, little evidence has been found of serious soil loss from mountain slopes.  
 Normal activities in the damaged areas will be seriously retarded until repairs can be made, Hanson said. Let of early completion of restoration work can be very serious especially if a had fire season should occur before it is accomplished.  
 Field inspectors noted some striking conditions, Hanson said. At similar elevations and exposures accumulations of snow over much of the wild land had generally seemed about uniform at the beginning of the long-delayed snow melt. However, by the peak of the high waters such accumulations had disappeared over the burned-over and barren slopes, while on timbered slopes much of the snow remained, especially in the higher mountains. It could well be concluded from their observations, they said, that timber cover had a marked influence on rate of snow melt. They added that while the floods of this year would have happened as a consequence of climatic conditions, there is much evidence that had all forest lands been fairly well timbered, the run-off would have been appreciably retarded. The floods indicate the distinct advantage of tree stocking as a natural check to rapid run-off.  
 Flood damage to forest improvements on the St. Joe National Forest has been estimated to exceed \$150,000, according to John L. Emerson, supervisor of the local office. The damage consists chiefly of washed out bridges and large sections of roads. Precipitation at St. Maries since Sept. 1 has exceeded 41 inches, and of this total more than 25 inches since January 1.

**Straight And Narrow**  
 Counsel and police witness were having a battle of words. Finally counsel turned to the policeman and said: "But if a man is on his hands and knees in the middle of the road, surely that is no proof that he is drunk?"  
 "Probably not, sir," replied the policeman, "but this one was trying to roll up the white line!"

**Home Freezer Saves Time In Packing School Lunch**

Getting the children off to school on time with a good packed lunch is a double duty many homemakers face five mornings a week. But if you have a home freezer this amazing device can take one of those tasks off your hands during busy morning hours.  
 Many good lunch-box foods, such as sandwiches, can be prepared in less busy hours, frozen and used when needed.  
 Most sandwiches, when properly packaged, freeze well, says Flora L. Carl, Missouri university extension nutritionist. And you can make a two weeks' supply of sandwiches at once in much less time than you can make one day's supply each morning.  
 Also, most last-minute preparation for buffet meals, picnics and teas is saved if you prepare and freeze sandwiches in advance.  
 For frozen sandwiches, use any variety and thickness of bread. Day-old bread is best. Open-face or closed sandwiches freeze equally well.  
 Here are some sandwich fillings suitable for freezing; cheddar cheese, cream cheese, sliced or ground meat, sliced or ground poultry, fish, cooked egg yolk (whites may become tough when frozen). Do not use fillings containing raw vegetables, those having hard cooked egg whites, or those containing fruit jellies. Such fillings do not freeze satisfactorily.  
 Fresh greens add zest to most sandwiches. Wrap fresh greens in cellophane or waxed paper and pack with the lunch to be put on the sandwich just before it is eaten.  
 Spread butter on the bread; then the filling. Do not use mayonnaise for a sandwich spread for it separates upon freezing and soaks into the bread. Fillings for sandwiches can be frozen separately.

**Electronic Range Now Used In Restaurants and Hotels**  
 Quick-as-a-flash electronic cooking has become a reality in nearly 100 hotels and restaurants and in many factory cafeterias, where speed and perhaps novelty are important features, says the Industrial Bulletin, of Arthur D. Little, Inc. In other fields, including defrosting of cooked foods for restaurant use, large-scale defrosting of uncooked foods, quantity cooking, and home cooking, much further development is apparently needed.  
 The problems and possibilities of electronic cooking are tied up with the characteristics of the electromagnetic waves through which it operates. Light, heat from a boiler, radar and radio waves are all electromagnetic waves differing in frequency and in their effect on foods and other materials.  
 Light, whose waves are very short, is not suitable for cooking. Heat waves, slightly longer, will cook a steak from the outside in, giving the characteristic crust and flavor. Radar waves cook it all the way through; once, producing a different flavor and appearance. Radio waves, longest of all, generally have little effect on food, but those between the radar and radio frequencies are sometimes useful.  
 The electronic range now used in restaurants, called the Radarange, operates in the radar frequency, and is used in preparing, among other things, meat, fish, eggs, and even live lobsters. It will cook a ten-ounce steak in about 45 seconds and a six-pound rib roast in two minutes. Because meat cooked by the new process is gray, rather than brown, and lacks the usual crust, a unit is provided to flash-sear before cooking to obtain the desired surface appearance.  
 Some people find the flavor developed by electronic cooking superior to the ordinary flavor, others find it comparable, while a few feel that flavor components are not fully matured and they complain of a "steamy" taste.  
 Equipment cost is high — but operating cost is comparable to that of an electric stove. The 6.5-kilowatt electronic range, the restaurant size, is not sold, but leased for \$150 a month, including maintenance. Many restaurants consider its advertising value important, and feature it on menus.

**Iowa Tallying Game**  
 One thousand of Iowa's 1,400 rural mail carriers will assist the state conservation commission in determining game populations during the next year. Four surveys will be made during 1948. Under the plan the carriers who have signified their willingness to cooperate will record their observations of all pheasants, quail and cotton-tails seen while driving their routes every day for six days. At the end of the six-day period the tallies will be mailed to the biology section of the state conservation commission for compilation. The mail carrier tally is being carried out successfully in several states at the present time; however, Iowa's road system and much of the terrain of this state are "made to order" for wildlife counts by this method. The average route length is 45 miles, which means that if the anticipated 1,000 carriers cooperate voluntarily, records for 45,000 miles of road will be tabulated each day, with a total of 270,000 miles kept during the week.

PUBLISHED BY THE KENDRICK CO-OPERATIVE CREAMERY

HELLO, FOLKS —

It's Strawberry Time —

It's "Strawberry Time" again, when everyone is busy pickin', eatin' and fixin' strawberries for the locker!

The modern, quick, easy way to prepare berries for freezing is in the new Ball Freezer Jars. They are especially designed for freezing berries and vegetables. When storing foods in glass jars, you are assured of not losing delicious juices, and there isn't a single chance of the food taking on the flavors of other things you may have in your locker. These jars are resistant to extreme changes in temperature, and the lids are grooved so that stacking them is easy and safe.

We have these Ball Freezer Jars for sale, and also waxed cartons and cellophane bags. When shopping for your locker supplies, call at the Creamery.

REMEMBER:

Remember the Creamery's 7th Annual Stockholders' Meeting on Saturday, June 26th. FREE SHOW with Lulla Belle and Scotty in "Swing Your Partner" and a Walt Disney cartoon. Show begins at 1:00 p. m. at the Kendrick Theatre.

Following the show there will be a short business meeting held in the theater for Stockholders. Cash dividends for the 1944 Earnings, plus interest checks, will be given out at that time.

Attend this annual meeting and take an active part in your Co-operative Creamery — for it belongs to you!

Butcher: "The farmer who brought this rooster in said he was the laziest one in the world."

Customer: "Did he say just how lazy he was?"

Butcher: "Yes, he said the rooster had never crowed in his life. He waited for another one to crow, and then nodded his head!"

#### WHAT CAMERON FOLKS ARE DOING THESE DAYS

Mrs. Wm. Huffman and son left for their home at Grant's Pass, Oregon, after having spent the past month with her parents, Mr. and Mrs. Earl Whiting, and other relatives and friends.

Mr. and Mrs. Dan Sullivan of Hooper, Wash., spent Saturday and Sunday with her parents, Mr. and Mrs. Aug. E. Wegner, Mr. and Mrs. Glen Wegner and family were also Sunday guests.

Mr. and Mrs. Geo. Wilken left for Spokane Friday to visit with relatives and friends for a few days.

Mr. and Mrs. Walter Dennler and family spent Monday with Mr. and Mrs. John Schwarz.

Harold Brammer, who is attending summer school at the U. of I., spent the week-end at his home here.

Mr. and Mrs. Glen Wegner visited with Mr. and Mrs. Ted Vaughan at Kendrick Sunday evening.

Mr. and Mrs. Geo. Wilken and family were dinner guests of Rev. and Mrs. Theo Meske, Thursday evening.

Mr. and Mrs. Marvin Silflow and Mr. and Mrs. Walter Koepf were fishing in the Elk River area, Friday. We did not learn their luck.

Mrs. August Brammer and son Harold, and Helen and Ted Mielke were Friday evening visitors in the home of Mr. and Mrs. Fred Newman.

Rev. and Mrs. Meske, Mr. and Mrs. Herbert Schwarz, Mrs. John Schwarz, Miss Emma Hartung, Mr. and Mrs. Marvin Silflow, Mr. and Mrs. Otto Silflow, Mrs. Ida Silflow, Ernest and Lawrence Schwarz and Mr. and Mrs. Herman Meyer and family were among those who attended the dedication rites of the Trinity Lutheran church at Lewiston, Sunday.

A group of men and women met at the Ladies Aid hall Wednesday morning to shovel out the five inches of mud in the hall, and the foot of mud in Rev. Meske's garage, which the cloudburst of Tuesday evening had deposited in these buildings. A thorough scrubbing was also in order for the hall.

#### SOUTHWICK NEWS

Sunday dinner guests in the Tom Armitage home were Mr. and Mrs. Milford Armitage and Mrs. Rowton of Kootenai; Mr. and Mrs. Elbert Armitage and family of Spokane; Mr. and Mrs. Ross Armitage and family of Kendrick; Mr. and Mrs. Rollin Armitage and children. John Cuddy and children and Wilma Cuddy were afternoon visitors.

Mr. and Mrs. Ora Giles and Mr. and Mrs. Louis Jassman and family of Troy called at the Virgil Harris home Sunday.

Mr. and Mrs. Aaron Wells and Mr. and Mrs. James Reece of Cavendish spent the week-end at the Bungalow Ranger station, fishing and visiting with Mrs. Wells' and

Mrs. Reece's parents, Mr. and Mrs. Wade Candler.

Mr. and Mrs. Frank Cantril and daughter left Monday on a business trip to Seattle.

Mr. and Mrs. Crawford and children of Pomeroy visited Sunday with the Frank Cantril and Wilbur Colwell families, and with B. O. Colwell, who makes his home with the Cantril's and Colwells.

A birthday dinner was given at the Longteig home Saturday evening, honoring the birthday anniversary of Wilbur Colwell and Virginia Cantril. Those present were Mr. and Mrs. Gordon Hicks, Mr. and Mrs. Don Cantril and Sandra, Mr. and Mrs. Frank Cantril and daughters, Mr. and Mrs. Wilbur Colwell and daughters, Warren Pritchard, John and Anne Longteig.

Gordon and Jerry Harris and Arlie Armitage spent Saturday and Sunday at the Bungalow Ranger station, fishing.

Warren Pritchard, of China Lake, California, spent last week visiting with Mr. and Mrs. Don Cantril.

Several Southwick residents attended church services at Cream ridge, Sunday.

#### LINDEN ITEMS

Helen Konen underwent an operation for the removal of her tonsils and adenoids at St. Joseph's hospital in Lewiston, this week.

Clem Israel and Miss Aletha Israel motored to Lewiston to see Mrs. Israel, Sunday, who has been in the St. Joseph's hospital. They finally found comfortable quarters in the Percy Rew home, old friends of the Israels, where Mrs. Israel can recuperate.

Mr. and Mrs. Charles Keeler visited their daughter, Mrs. Ted Vaughn, last Thursday, wishing her many happy returns of the day.

While we "Cedar Creekers" have a road whereby we can get to town, our telephone, at the present time, is definitely on the "sick list." They tell us about a half mile of line had to be rebuilt because of our recent "shower." And, on top of all this, our electricity was "discontinued," so we, having no telephone connections, could not report that we were without lights or power to operate our electric heaters, cream separators and chop mills. Pretty bad, wouldn't you say? However, our power is now back on, and the telephone line is being repaired — but shucks! We can't have everything at once. And then, there's always the hope that the sun will shine!

The W. M. A. ladies went over to Cream ridge on Wednesday (W. M. A. Day) to attend conference. Those going from Gold Hill were Mattie Allen, Gertrude Pederson, Pearl Alexander, Ida Lyons, Marilyn Pederson and Dama Weaver.

Mr. and Mrs. Marion Souders were Lewiston visitors Saturday.

Mr. and Mrs. Ted Vaughan and son Bobby were Father's Day guests in the Keeler home, Sunday.

Mr. and Mrs. Arley Allen and Mr. and Mrs. Arthur Foster attended the Appaloosa horse show in Lewiston, Sunday.

Mr. and Mrs. Marion Souders were guests in the Arley Allen home Sunday evening.

#### GOLDEN RULE

Mrs. Nick Deamo of Lapwai spent a week with her daughter, Mrs. Oscar Laurence and family.

Mr. and Mrs. Chester Martin were Lewiston visitors Wednesday evening.

John Pavell called at the Glen Betts home Thursday evening.

Mrs. Arne Kloster and children were Friday guests of Mrs. Carl Finke and family.

Mary Jane Martin is spending the week at Cream Ridge, attending Bible school.

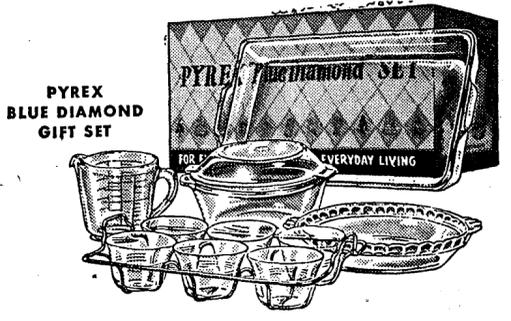

Mr. and Mrs. Ishmael Martin and Mr. and Mrs. Bruce Tarbert and children of Lewiston were Saturday visitors at the Roy Martin ranch.

Mr. and Mrs. Chester Martin and

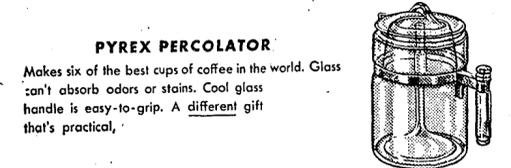

## Bridal Suggestions

AS ADVERTISED IN LIFE

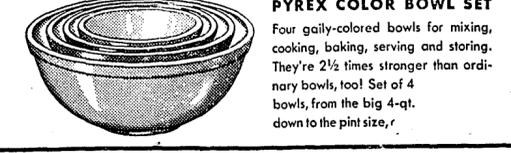

### 3 Sparkling Pyrex Gifts

Today's biggest value. Contains 1 1/2 qt. Double-Duty Casserole; large Utility Dish; 9" Flavor-Saver Pie Plate; 1 pt. Measuring Cup; six 5-oz. Custard Cups plus handy wire rack. Imagine! 12 pieces!

PYREX PERCOLATOR  
Makes six of the best cups of coffee in the world. Glass can't absorb odors or stains. Cool glass handle is easy-to-grip. A different gift that's practical.

PYREX COLOR BOWL SET  
Four gaily-colored bowls for mixing, cooking, baking, serving and storing. They're 2 1/2 times stronger than ordinary bowls, too! Set of 4 bowls, from the big 4-qt. down to the pint size.
