Veterans Need Certificates
Northwest veterans planning to attend college for the first time this fall, or a different school than last attended, should apply immediately to the Veterans Administration for a certificate of eligibility.

The certificates form the basis for payment of tuition, fees, supplies and subsistence allowance and must be turned over to the college at registration time.

Veterans returning to the same school they last attended will not need a new certificate.

To insure prompt payment of subsistence and other authorized VA expenditures, veterans should apply for the documents at least 30 days prior to registration date of the school of their choice. Application should be made to the VA regional office in the state in which the veteran's files are located.

Funds For New Bridge

A major step toward construction of a new bridge across the Clearwater river at Lewiston was taken at Boise Saturday when the Public Roads administration authorized the allocation of \$523,700.05 as the federal government's share of structural costs.

The money earmarked for a new span across the Clearwater was the largest single item in the \$2,277,359 in PRA funds allocated for federally designated primary highways in Idaho, according to an AP report from Boise.

The PRA guarantees 60 percent of the cost of projects which have been designated for federal aid. The remaining 40 percent must be put up by the state.

Other north central Idaho projects for which the PRA allocated money Saturday were:

Grading and providing drainage structures on 1.5 miles of road east of Powell in Idaho county. Federal funds \$125,160. Total cost \$200,000.

Grading and surfacing 7.10 miles of state highway 9 between Kamiah and Kookia in Idaho county. Federal funds \$247,191. Total cost \$395,000.

Installation of four automatic signals at grade crossing of Northern Pacific and Union Pacific tracks at Moscow. Federal funds \$5,220. Total cost \$5,800, of which \$580 is being put up by the railroads.

Grading and surfacing and erection of grade crossings in 8.61 miles of U. S. 95 north of Genesee in Latah county. Federal funds \$250,320. Total cost \$400,000. — Lewiston Tribune.

Appointed To Lewiston District

J. Harry Lucas, district manager for the Washington Water Power company at Moscow since 1944, has been appointed division manager for the power company at Lewiston and will assume his new duties at an early date, according to word received here this week from the company's general office in Spokane.

In announcing the appointment J. E. E. Royer, vice president and general manager for W. W. P., said Mr. Lucas would fill the division manager position vacated by the death of Grover Beckman, who passed away in Lewiston, August 10.

"The company has high regard for the abilities of Mr. Lucas," Mr. Royer said. "He has always demonstrated outstanding talents as a manager and we have full confidence in his capabilities of managing the Lewiston division."

A successor to Mr. Lucas at Moscow will be named in the near future.

Mr. Lucas, a W. W. P. Co. employee for the past 25 years, was chief clerk for the Lewiston division prior to his transfer to Moscow as district manager. During his stay in Moscow he has been a popular figure in civic and fraternal circles. He served as president of the Moscow Chamber of Commerce in 1945, and is currently vice president of the North Idaho Chamber.

Starting as a wireman with the company at Colfax, in 1923, Mr. Lucas has skillfully handled successive jobs to his present position.

Mr. Lucas is now president of the North Idaho Scenic Land association, and has held similar positions with the Lewis-Clark Council of Boy Scouts for the past three years. He is a member of the Elk's lodge, the Masonic order and the Rotary Club in Moscow, and is a past president of the Lewiston Chamber of Commerce, having served as such two years before going to Moscow.

Wheat Treating Demonstration

Wheat smut and its control is one of the most specific and important agricultural problems in the Pacific Northwest today. There has been a 500 percent increase in smut infestation in the northwest during the past few years and reduction of this infestation calls for positive action.

The Pacific Northwest Crop Improvement Association, working in cooperation with county extension agents, are holding seed wheat treating demonstrations in many counties of the northwest this fall. The demonstration shows the operation of new seed treaters and Ceresan M.

The Latah county demonstration will be held in Moscow, Tuesday, September 14. It will begin at 3:00 p. m. at the Latah County Grain Growers warehouse, 316 W. 6th St., Moscow. This demonstration is of importance to every wheat producer and warehouseman in the area — and all are urged to attend.

Voters And Taxpayers

Taxpayers can out vote and should vote out tax wasters. We cannot have efficient government until a majority of the voting citizens take an active interest in public affairs. Efficient government is no accident. It must be worked for and fought for if necessary. Taxpayers are being subjected to a double squeeze—the increased living costs and higher and higher taxes. Our one hope lies in carefully choosing in the forthcoming elections, only such legislators and officials, regardless of party, as will give us better government at lower costs. — Utah Taxpayers Association.

Potlatch Chief Sez

PUBLISHED BY THE KENDRICK CO-OPERATIVE CREAMERY

HELLO, FOLKS —
What About That Dessert?

When you're entertaining those "special guests" or out-of-town friends, do you often long for a superb dessert? If so, let this suggestion help you: Take a large segment of one of those luscious Juliaetta cateloupes, that are now at their peak, and deposit in the center thereof a large scoop of Potlatch Chief Ice Cream. Man, oh, man — there's a dessert that's fit for a king.

Or, if you prefer, serve the ice cream with a "Topper" dressing. These "Toppers," obtainable at the creamery were made to go with "Potlatch Chief" Ice Cream.

Going Hunting?

Crisp fall days remind us that the hunting season is drawing close, and fresh frozen elk or deer is just mighty fine during the winter. So we suggest that you come in now and sign up for that

locker box you are going to need. How about it? * * *

And Bottle:

Folks, we're still "flying the distress signal" for empty milk bottles. Lots of folks were raised on a bottle, but they discarded it as soon as possible. Please do the same with our milk bottles. Bring them back to us or put them out where our milk deliveryman can pick them up.

Please!

A woman riding a bus was anxious not to pass her destination. She poked the driver with her umbrella.

"Is that the National Bank?"

"No ma'am," replied the driver, "that's my back."

Judge: "Why did you steal the \$50,000?"

Culprit: "Well, I was hungry, and you know what a meal costs today!"

Eastern Fishing Is A Joke

G. A. Wayland, Juliaetta, brought in a clipping from his old home town paper in Oklahoma, that recounts a fishing trip:

"R. O. Bonham of Fort Supply told of the wonderful trip his son, B. A. Bonham and wife had made through Kansas, Colorado, Idaho, Utah, Oregon and Washington, recently, and shortly after returning home some neighbors came by and they went fishing in a local pond and only caught three little (bull-head) catfish." Dad Bonham said: "Tough Luck." The son said: "Fishing here is a joke, for in Washington, where we fished, we caught black bass, white fish, salmon and speckled trout, the smallest weighed five

Jobs Will Be There
Re-employment rights under the Selective Service law also apply to volunteers who enlist in the regular army and air force for three years, it is explained by Lt. Col. Samuel H. Gibson of the Washington recruiting district.

"Many patriotic young men, who would voluntarily enlist rather than be drafted, are holding off because they are not sure their jobs will be held for them while they are in the service," he stated. "These men need not worry. Their re-employment rights are exactly the same as those of men who are drafted, and reservists who are called to active duty are also guaranteed these benefits."
