Accordingly, G. F. Brocke, chairman, appointed H. C. Schupfer, Walter fore returning home.

Brocke and E. A. Deobald as a committee to meet with the village trustees in an effort to get the tree moved and set in the park.

LeRoy Templeman, school band director, said that the drum majorettes would make their first public appearance with the band on Saturday. He told of the Kamiah massed band program of some three weeks ago, and what an excellent 70-piece band had been picked from the school students throughout the area. He stated there were now 30 in the local band. Mr. Templeman also thank John Samuels for aid extended the band group. G. F. Brocke announced commit-

tees for the coming year as follows: Highways — Tom Long, chm. School - Jasper Nutting, Ben P. Cook and Ross Armitage.

Merchants — Frank Abrams, Tom Keene and Walter Brocke. Entertainment - Dick Cuddy, Ben P. Cook and Jack Travis. Membership — H. C. Schupfer.

Civic Improvement — L. S. Thurber and Dr. D. A. Christensen. Industrial — Otto Schupfer, E. A. Deobald and Ben Westendahl. Agricultural — W. A. Watts, Wade T. Keene and Roy Glenn.

Publicity - W. L. McCreary and (In cases where only one or two

were named on a committee, members thereof will pick out others to fill to group of three). The next meeting of the club will be held on Wednesday, November 10.

Confectionery To Reopen

Burt's Confectionery, closed since the first day of September to permit remodeling, is now almost complete, and will open for business on Friday, October 22nd.

Not only has the entire interior been remodeled, but complete new equipment from the fountain to the steam table for keeping foods hotis brand new and of the vzery latest. The interior is done in soft shades

of cream, with the natural maple coloring of booths and woodwork being accentuated by gleaming naturalcolor varnish. New neon and freon lights and a new air conditioning system are also part of the equip-

To use a slang phrase, the whole is brand new and of the very latest. On opening day there will be free treats for the whole family.

Freak Apple Pair

From the Sylvester Konan ranch on Cedar ridge comes a pair of freak apples, if you could call them 'a pair," for the two apples, apparently grown from a single stem, are one, although there are two distinct bud ends, and apparently two cores. The name of the tree is unknown, but from appearances it is a "Snow |

Come in and SEE how the new Montag Electric Range saves you time...money... work...

has the answer to your range problem!

Of course you're tired of waiting for an out of date range to "perk". You're fed up with a hard-to-keep-clean range. That's why this beautiful new Montag Electric Range is the pride of the neighborhood the minute if moves into your kitchen.

YOU SAVE TIME EVERY MEAL

These wonderful new "Thermo-Kleen" surface cooking units give you clean, cool-kitchen electric heat almost instantly. And the 5 speeds on each element are always CONTROLLED, always the same, to a fraction of a degree. They stay flat, so more of the unit touches your utensils, to give you all-time cooking speed.

EASIEST TO CLEAN

You never again poke, probe or scrape to clean awkward elements. One flick of your finger swings these "Thermo-Kleen" units up out of the way. An easy sweep of your wrist keeps the smooth stainless steel drip pans spotless. They are easier to keep clean than any surface units made. And you have another work saver in the smooth, one-piece, stainproof porcelain enamel top.

COOK AUTOMATICALLY

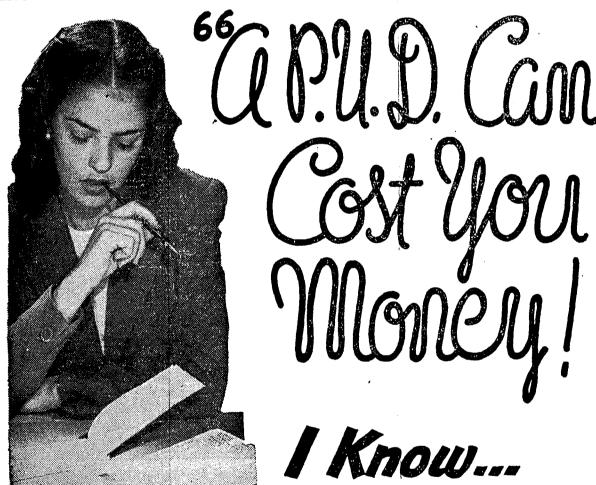

Wait until you first put your big, new automatic Montag oven through its paces. Its self-minding, timer-thermostat is almost human. You put a whole meal on the safe no-tilt oven racks, set it, forget it. Come back, hours later, and it is cooked perfectly, on time, without watching, without waiting.

INSULATED . . . ECONOMICAL ... COOL

Baking is a cool job now. A thick, efficient blanket of genuine Fiberglas in-sulation keeps the heat in, prevents the coel spots that spoil baked things. Saves current, too, besides keeping your kitchen more comfortable.

UTAH DOESN'T LIKE IDAHO'S SLOT MACHINE REGULATIONS

From the Idaho State Chamber of Commerce comes the following article, taken from the Salt Lake City

Tribune:

Jubilant reports of fabulous revenue "jackpots" are coming from state, county and municipal governments of Idaho which have been sharing taxes on slot machines since. March, 1947. The state and the various counties each have received more than half a million dollars in license fees, and the cities, collectively, have taken in several times

hat amount. The Idaho law calls for an annual minimum license fee of \$500 per machine, of which \$125 goes to the state, \$125 to the county and the remainder to the city. Most of the municipalities have higher fees, how-ever, going as high as \$2,500 for the machines of larger denominations in Lewiston. City governments of Twin Falls, Jerome and Weiser split the gross fifty-fifty with the owners of

gross fifty-fifty with the owners of the slots.

Twin Falls, with a population of 11,851, expects the 212 licensed "opearmed bandits" there to net the city \$350,000 a year, and, in spite of some church opposition, city officials have expressed their pleasure at securing so much revenue "without cost to the taxpayers."

Press reports say the slot machine proceeds are paying for street im-

proceeds are paying for street improvements and extending sewer lines at Jerome. They have enabled Weiser to cut its general tax levy to eight mills, lowest in the state, and will help finance a new hospital. And

It is little wonder that politicians and government officials are thrilled over the slot machine "take." Doubtless municipal administrators the country over, harried by mounting budgets and limited income, are drooling over the Idaho reports. The temptation must be strong to go after a share of this bonanza which

exists, untapped, in many localities. But what of the Idaho people? Somebody is paying out this money. Somebody has to stand tremendous gambling losses in order to make up the profits which are taxed. Totaling up the various taxes, it is apparent that each slot machine in Idaho must "nick" the players from \$600 to \$2,850 a year before it can pay out any winnings.

These appliances are often rigged so that the player has no chance. The treasuries and owners are being enriched, but the people who play the "slots" must lose twice as much as their governments gain from the one-armed bandits, if there is to be a profit. And there is always a profit. In Twin Falls, for instance, more than one dollar a week has to be lost for every man, woman and child in order to produce the "easy" government revenue.

It should be remembered also that

people who haunt gambling places are not usually those who can spare the money. Slot machines have a hypnotising appeal to countless persons, young and older, who sorely need their money for groceries, rent and clothing. They often operate, not behind closed doors like other gambling arrangements, but out where they can exert maximum temptation.

Looking at the situation in hard business terms, how many people are playing the slots with their grocery money? Or their tax money?

Idaho's businessmen, social workers and church organization leaders

undoubtedly have their eyes open to the possible business losses and contributions to human suffering and delinquency. A report — the full story — a year from now will be awaited with intense interest. If the current official jubilance continues, it will disprove the rather

governments) cannot indefinitely get something for nothing. Our Comment: Why pick on Ida-ho? How about Nevada, Florida, etc?

reliable rule that individuals (and

New Wildlike Magazine

The Gazette is in receipt of a small magazine entitled the "Idaho Wildlife Review," Vol. 1, No. 2, The cover on this magazine is printed in two colors and the "Masthead" of the Idaho Fish and Game Commission, Boise, publishers, and "Published Bi-monthly." The further notation is seen that it will be sent free to sportsmen at Idaho addresses.

Chief article of this issue is entitled "Hunter Control — A Harvest Headache," by T. B. Murray. The article is an explanation of "planned hunts," etc., and recommends the use of the airplane to transport hunters to the "back coun-

mr. Murray seems to forget that but few hunters in Idaho (Idaho residents to whom the game really belongs) can afford the use of planes, as theirs are not furnished by the as theirs are not furnished by the Idaho Fish and Game Commission. He further recommends special area hunts, and "controlled and planned

hunting."
Frankly, we are bitterly opposed to the present policies of the present Fish and Game Commission and we feel that the money spent in publishing and distributing this magazine would be better spent in distributing fish in northern Idaho streams, and in finding out why there are no Chinese pheasants and other game birds in many areas of the state.

It's probable that after a "blast" It's probable that after a "blast"

of this type our "subscription" to the new magazine will be stopped — but it's a chance we'll have to take. "Pretty is as pretty does," is an old time saying that our Game Commissioners should investigate.

They Surely Don't

Printer busily engaged in making up paper): "These political ads. never fit in the space they're supposed to.'

Watching Friend: "Think nothing of it. The candidates never do either, after election."

Stranger Than Man

Elephants have no pores in their skin. They perspire through their toe nails! That's probably why the dancing elephants at a circus never really get hot!

Fruit juices, bacon and eggs, toast and coffee for breakfast? Get the "makin's" at Blewett's-Grocery Market, Kendrick.

GRAIN MARKETS HOLD

Northwest remained about unchang- 130 percent. ed, but developed a slightly firmer tone toward the close of the week, according to the Market News Service of the U. S. D. A. Eastern markets reported gains for the week, resulting largely from slack movement, heavy impounding under government. kets reported gains for the week, resulting largely from slack movement, heavy impounding under government loans and purchase agreed by individuals from all sources, inspections. Bottled Cola, Orange, Upper Ten, Sparkling Water and Ginger Ale in quarts is available at Blewett's Grocery-Market.

Bottled Cola, Orange, Upper Ten, Sparkling Water and Ginger Ale in quarts is available at Blewett's Grocery-Market. ments. Trading at Portland is still restricted on account of the present

embargo on rail movement.

The Portland barley market was strengthened slightly during the week, and offerings remained edequate for present trade needs. The Minneapolis barley market was almost unchanged from last week, with offerings being mostly of low grade malting types.

grade malting types.

The Portland wheat market continued inactive due to the embargo on rail movements to most coast terminals. Prices advanced 1/2c to terminals. Prices advanced ½c to 1c per bushel at the close of the week and \$2.19 to \$2.19½ per bushel was being bid for No. 1 soft white, ordinary No. 1 hard white and No. 1 red wheat, coast delivery (after embargo is lifted).

The Portland office of the Commodity Credit corporation reported.

modity Credit corporation reported the purchase of 127,682 bushels of wheat during the week, which makes a total of 16,189,684 bushels pur-chased since July 1 of this year.

The Minneapolis wheat market advanced 1c to 2c above last week's quotation and No. 1 dark northern quotation and No. 1 dark northern spring was being quoted at \$2.24 to \$2.26 per bushel. At Kansas City the wheat futures market fluctuated within a narrow range, with closing quotations up 3c compared with a week ago. Demand improved somewhat during the week at Kansas City and prices held steady. The San Francisco market remained unchanged from that of last week. changed from that of last week, with trading light and small offerings. Dealers and industries througout the nation appeared to be continuing to limit their purchases to nearby needs only, and usage of wheat for feed appears well below

the average of other recent years.

The Portland barley market showed strength at the close of the week, and bids ranged from \$51.50 to \$52.00 per ton for No. 2 western barley, 45-lb. test. Supplies were adequate for trade needs at present

quotations.

The Portland oats market remained practically unchanged from a week ago and prices were quoted at a range from \$58.50 to \$59.00 per ton for No. 2 white oats, 38-lb. test. Oats receipts at Columbia river terminals for the week totaled 5 cars, at Puget Sound markets 6 cars, compared with 10 and 15 cars, respectively for the previous week. This slight movement shows that country offerings are not at all pressing.
Oats prices at interior points were still reported under loan level with the result that country offerings will probably remain very light.

Cumulative purchases by the Commodity Credit Corporation between July 1, 1948 and October 1, 1948, total 124.037,375 bushels of wheat: 666,600,000 pounds of flour (14,807,-841 bushels wheat equivalent); 11, 140,664 bushels of barley; 8,377,140 bushels of grain sorghums: 267,857 bushels of rye and 2,445,000 bushels of oats.

Snowbreaks Help Control Erosion

If farmers of this area have not as yet completed their fall plowing, now is the time to plan a snowbreak planting, recommends farm forester, Charles A. Bigelow. A snowbreak planting is designed

to reduce the drifting of snow onto steep north slopes - the snow is instead deposited on the south slopes. Keeping the drifts off the north slopes not only reduces late spring soil erosion or soil slips, but provides the south slopes with moisture that rightfully belongs there.

A two-row planting is recommended. This planting is placed so that the last row is at least 50 feet to the windward side of the top of the hill. The distance between rows is at least 12 feet (depending on cultivating equipment) so a strip at least 36 feet wide should be prepared parallel to the hill crest. After the trees have become established, this width can be reduced to about 24 feet, which is sufficient width to maintain two rows of trees. The FOR CONSTABLE, DISTRICT NO. 1 wider space is necessary while the trees are young in order to accomodate our standard cultivating equipment on both sides of the trees. Clean cultivation is essential to establishing trees in this area.

Trees used for snowbreak planting should include a low, bushy tree or shrub on the windward side such as Russia mulberry or Siberian pea. The other row should consist of tall trees such as black locust, green ash, Siberian elm or one of the native conifers.

The site selected should be prepared the same as that needed to secure a good stand of grain. Fall plowing is rocemmended, leaving the surface rough so as to catch snow and moisture. Early in the spring the area should be given a thorough, but shallow, cultivation.

If interested, contact your county agent for further details.

Idaho Income Up

Boise - Only one of the 11 western states outdistanced Idaho in the percentage of increase in per capita income between 1940 and 1947, according to estimates of the U.S. Department of Commerce, released by the Idaho States Chamber of Commerce.

The 1947 per capita income in Ida-ho of \$1,290 represented a gain of the western states, which showed a

The average increase for the en-

and California, 104 percent.

North Dakota led all states in the nation in the percentage of increase in per capita income, jumping from \$368 in 1940 to \$1,678 in 1947, or

HELLO, FOLKS —

About Buttermilk:
Have you tasted any Buttermilk lately? It's simply delicious and makes the best hotcakes and biscuits. Take a quart or two home with you today. Butermilk is only 15c per quart or 50c per gallon. Treat your family — buy some Potlatch Chief Buttermilk—

Parties And Ice Cream:

When planning dinners or parties, be sure to include Potlatch Chief Ice Cream on your menu. It really satisfies and comes in a large variety of flavors. Also it is a real time saver, as it requires no before-hand preparation. It is very good tasting when served alone, and also makes a delicious sundae when served with fruit such as straberries or pineapple. Have you ever tried apple-sauce sundaes? They are really scrumptuous! Keep these helpful

hints in mind next time you plan a party.

Remember:

Always insist upon Potlatch Chief Dairy Products. The name is your assurance of freshness and

The colored Private, a passenger on the ship going across the ocean, became very seasick, and was being kidded by one of his buddies: "You all is jist a land-

"That's right," replied the Private. "Dey ain't no argument, and Ah's jest findin' out how much Ah lubs it!"

Society Dowager: "What will the operation of lifting my face cost, doctor?'

Weary Doctor: "\$5,000.00.

Dowager: "That's robbery. Isn't there something less expensive I could try? Doctor: "Wearing a veil."
