

KENDRICK GAZETTE

VOLUME 59

KENDRICK, LATAH COUNTY, IDAHO, THURSDAY, FEBRUARY 17, 1949

NO. 7

SEVENTEEN ATTEND COM. CLUB MEETING WEDNESDAY

Seventeen were present at the regular monthly meeting of the Kendrick Commercial Club last Wednesday evening, the business session being held in the City hall following dinner at Burt's Confectionery.

The business session was presided over by Dick Cuddy, vice president, in the absence of George Brocke. Following the reading of the minutes of the previous meeting and the allowance of bills, committee reports were heard.

Dick Cuddy reported, that on the suggestion of H. C. Schupfer, U. S. Senator Glen Taylor was contacted through State Senator George F. Brocke, regarding necessary flood control for the Potlatch river, and the telegrams sent and received by both parties were read (these appeared in last week's Gazette).

This matter, must, of course, await the will of congress, but in as much as the Kendrick request would be presented along with those of Lewiston and other cities, it was felt that there was at least a reasonable chance of its passing, and this needed work being done.

Next, Jud. Lee, secretary, read a letter from the Lewiston Chamber of Commerce asking the Kendrick Commercial club to sponsor, or to help sponsor, a teacher scholarship at N. I. C. E., Lewiston.

Ben Cook was called on for an explanation of the letter cause, and he stated that, as is well known, teachers, at least thoroughly qualified ones, are very scarce, and that today 40 percent of those following the teaching profession were not qualified instructors. He stressed the fact that our population is increasing rapidly and that teachers and school buildings are not keeping up with the demand — and both are badly needed — not only in Idaho, but all over our nation.

Following a bit of round-table discussion the secretary was asked to get more specific details on such a scholarship from the Education committee of the Lewiston Chamber of Commerce.

Tom Long, reporting for the Highway committee stated that he had received word from Senator G. F. Brocke that the state legislature had passed an emergency appropriation of \$200,000 for storm relief, to be administered through the county commissioners. As a result of this information he had gotten in touch with Rudolph Nordby of the county board, and help in the form of a bulldozer had been secured — and said machine was "now out doing its stuff," in helping plow open plugged roads.

Mr. Long also reported that the title to property needed for the new road right-of-way between Kendrick and the Henry Brammer ranch, was deeply involved, not only with local, but out of town residents, and that considerable difficulty was being experienced in attempting to obtain the necessary ground. He stated that undoubtedly condemnation proceeding would have to be resorted to.

Mr. Long also stated that information received from Mr. Brocke indicated that the Big Bear ridge road was to be re-located from the top to the new oiled section, as a part of the contract involving the Kendrick-Jullaetta road.

Mr. Long and Mr. Abrams stated that they believed 30 to 60 days would be required to obtain all the necessary titles and carry condemnation proceedings through for the necessary right-of-way on the parts of the village and Highway District.

Reporting for the Volunteer Firemen Frank Abrams stated that Ed. Nelson had been in Lewiston and visited Gray's Auto Shop, where Kendrick's new fire truck is being built. Mr. Nelson said that equipment for the truck is arriving slowly, and Mr. Gray did not expect to have all that was necessary to begin work before about the 20th of March.

The matter of closing for holidays was brought up, and after discussion was placed in the hands of the Merchant's committee. This committee, all being present, designated the following legal holidays on which all Kendrick business houses will close, as follows: May 30th (Decoration Day); July 4th; September 5th (Labor Day); Nov. 11th (Armistice Day); Nov. 24 and Dec. 26. On these duly designated legal holidays all local places of business will be closed.

There being no further business to come before the Club, adjournment was taken.

January Violation Total 92

Conservation officers of the state fish and game department arrested 92 persons for violations of fish and game laws during January, T. B. Murray, director, said today.

Bird hunting violations led the arrest total with 51 cases attributed to illegal shooting of pheasants and ducks. Sixteen violations were recorded for game hunters, and 25 trapping arrests were made.

Of this total Nez Perce county had four arrests. Latah county had none.

FINAL RITES HELD FOR JESSE MICHAEL, PIONEER

Final rites were held in the Gold Hill church on Saturday, February 5, for Jesse Michael, one of the oldest pioneers of this area, he being 93 years of age at the time of his death, which occurred Feb. 1, a heart attack being responsible.

Jesse Michael was born in Missouri on Nov. 16, 1856. In 1889, he, in company with his brother John (deceased) crossed the plains by covered wagon, settling in the Dayton, Wash., valley. In 1890 he, again in company with his brother, came to Cedar ridge, where they took up homesteads — and where he had since made his home.

Mr. Michaels, who had never married, lived out the balance of his life on his ranch on Cedar ridge. He lived alone with the exception of a short time spent with his brother, John, who preceded him in death some three years ago.

Funeral services were conducted Saturday afternoon, Feb. 5, from the Gold Hill church, with the Rev. George F. Calvert bringing the message. Music was furnished by Mrs. Frank Lyons, Mrs. Al. Pederson, Mrs. Addison Alexander and Mrs. Clem Israel, accompanied at the piano by Mrs. Louis Alexander.

Pallbearers were Frank Lyons, Addison Alexander, Louis Alexander, Clem Israel, Arley Allen and John Darby, all old-time friends.

So far as is known at this time Mr. Michaels is survived by six nephews and nieces; one nephew residing at Greenville, Illinois, and five others at Hesperus, Colo. No relatives were present for the services.

For the past several years, as the infirmities of old age crept upon him, Mr. Michaels had been "looked-out for" by Mr. and Mrs. Lester Weaver and family, who could see his cabin from their home.

Old Time Resident Passes

Word was received here last week by Mrs. Bob Cain that her mother, Mrs. Henry Roberts of Portland, had passed away on Feb. 7, in that city, the cause of death being pneumonia followed by a stroke. Mrs. Roberts would have been 75 years of age on Feb. 28.

She will be remembered by her many friends on American ridge, having lived there many years.

Additional Flood Information

Since the above was put into type the following telegram copies have been received, and were brought into the Gazette office Tuesday:

Washington, D. C.
Feb. 11, 1949

Senator George F. Brocke
State House, Boise, Idaho:

Army engineers today furnished me information I had requested on funds needed to perform all possible emergency repair work now, together with estimate of amount needed for actual flood fighting. I will appear before Senate Appropriations committee to urge appropriation of entire amount in deficiency appropriation bill now before congress. Please send information on past flood damage, value of land and property threatened, etc., to use in my testimony. — Glen H. Taylor, U. S. S."

There follows a copy of Mr. Brocke's reply:

Boise, Feb. 11, 1949
Sen. Glen H. Taylor, U. S. S.
Washington, D. C.:

"Re. tel. Damages by floods in the Kendrick area the past years has been very heavy, in fact the floods the last two years will exceed a half million damage in property alone. One road was flooded out that cost over \$250,000 to replace. The damage to farm lands is unestimable. At the present time flood conditions are so that traffic is unable to get in to Kendrick from Lewiston. With the heavy snows which at this time run from 48 inches to 96 inches in the watershed that drains down through Kendrick it is imperative that we get action at once. — George F. Brocke."

PERSONALS AND NEWS ABOUT KENDRICK FRIENDS

Mrs. A. R. Bates of Evanston, Ill., arrived here Saturday to visit for some time in the home of her sister and family, Dr. and Mrs. J. H. Coulter and sons.

Mrs. Robert Spencer and Mrs. Ig. Flaig of Coeur d'Alene were here last week visiting in the home of their mother, Mrs. Estella Leith.

Mr. and Mrs. Leonard Fairfield, who have been visiting since Christmas in the home of their son, Roy Fairfield and family at El Monte, Calif., returned home last week.

Mr. and Mrs. Wade Keene drove to Lewiston Monday evening to see her sister and husband, Mr. and Mrs. O. M. Hardman, off to San Francisco, where Mr. Hardman will undergo surgery.

Mrs. Edward E. Sands, Seattle, arrived here Friday to visit a week in the home of her sister, Mrs. W. L. McCreary and family.

Mr. and Mrs. Wayne Kuykendall have received a letter from their son, Dick, who is stationed at San Diego, stating that his "boot" navy training will soon be over, and he expects to spend his leave here with them.

University students home over the week-end included David Coulter, Maribel Schupfer and a friend, Jackie Watts; Beverly Schupfer and a friend, Billie Nichols, and Patty McCreary.

Mr. and Mrs. John Samuels were Lewiston business visitors Saturday.

Walter McCall EM 2/c, son of Mr. and Mrs. Walter McCall, arrived in Kendrick Monday to spend a leave with his parents. He has been stationed at Pearl Harbor for some months, and just arrived in the states about three weeks ago.

Percy Ware, Headquarters, who had been snowbound here for several days, left last Sunday to resume his work for P. F. I.

Floyd Millard was a Lewiston business visitor Monday afternoon.

Mrs. Robert King and daughter Patricia of Asotin visited in the Fred Stedman home Monday and Tuesday. The Stedmans took them home Tuesday evening — when the trains failed to operate.

Mr. and Mrs. Fred Stedman drove to Kamiah Monday to attend a Fellowship meeting of the Full Gospel church.

Mr. and Mrs. Leon Lind and children spent the past week here with his parents, Mr. and Mrs. Paul Lind, as all roads to Gifford were blocked.

Mrs. Paul Lind and son Eugene drove to Clarkston Sunday to spend the day with the Oscar Raby family.

Mr. and Mrs. Lester Crocker and family and Dick Coulter drove to Lewiston to attend the concert last Thursday. After arriving there they found it had been cancelled.

Word has been received that Mrs. Liddie Ameling, who is visiting her son, Harry Ameling and family at Tucson, Ariz., has been seriously ill with pneumonia, but is improving at this time.

Mrs. George Brocke returned home from a visit with her husband at Boise, Saturday.

Ben Cook left for Medford, Ore., Saturday morning in company with Kenneth Hoduffer of Craigmont and Mr. and Mrs. John Hoduffer of Genesee, all being called there by the death of Mr. Cook's step-father, and their father.

Ray Hathaway, accompanied by his sister, Mrs. Fred Mayer, drove down from Spokane Sunday to take his wife and daughters, Marjorie Lynn and Carolyn home, following their visit in the home of Mrs. Hathaway's parents, Mr. and Mrs. Clifford Davidson.

Ira Havens of Moscow, accompanied by his brother, C. Havens of Hussar, Alberta, Canada, were in town Wednesday afternoon of last week visiting at the home of their niece, Mrs. Frank Abrams and family.

Mrs. Roy Ramey has been quite ill and confined to her bed several days this week.

Bean Growers Serve 400

Four hundred people were the guests of the Kendrick Bean Growers at their annual free dinner and show Monday of this week — just 400 plates being filled.

There was a capacity house at the afternoon show and again that evening, despite the very inclement weather.

The Bean Growers express their sincere thanks to towns people for awaiting the evening show, as by so doing all who wished to attend were able to obtain seats.

WHAT HAPPENED HERE TWENTY YEARS AGO

The members of the Commercial Club have invited their wives to be present at a clam bake tonight, at which time the members of the local band and their wives will also be guests of the club. The affair will be held at the Fraternal Temple starting at 7:00 o'clock. The clam bake will be in the banquet room, after which a brief business session will take place. Following this a program will be given in the lodge hall. The band will play a number of selections as a part of the program. Arrangements are in charge of the entertainment committee, composed of J. G. Gardner, Rev. Franklin and Herman Schupfer.

John Dammarell was most agreeably surprised this week to receive an electrical U-Coil pad from radio station KSL of Salt Lake. There were 60,000 cards sent in to this station and from this number two were selected, John being one of the lucky two. The pad is valued at \$37.50.

Mr. and Mrs. Robert Spencer and little son, Donald, spent the week-end at the home of her parents, Mr. and Mrs. George Leith.

Emmett & Gentry shipped a carload of fat hogs to market the first of the week.

The Kendrick State Bank is making a number of changes in the office arrangement, to bring it up to the more modern plan. Frank Lyons of Linden is doing the cabinet work. It will present a splendid appearance when completed.

Oscar Lawrence purchased 40 acres of land lying south of Southwick from J. H. Henderson, the deal being made last Monday.

Homer Betts made a trip to Leland Monday with a load of wood.

Gordon Harris and wife, Virgil Harris and wife, Given Mustoe and family, Miss Pearl Powell and Geo. and Carlton Douglas were dinner guests of Atlee Mustoe and wife, Sunday.

Linden News — A party of the Gold Hill young people attended the dance at Pine Creek last Friday night. They went in a sleigh and a good time was reported. Those going were Miss Headrick, Miss Popkey, Melvin Garner, Clive McPhee and Benn Smith. In the January examinations held here Melvin Garner and Millie Weaver passed from the eighth grade. Lois Fry made an excellent grade in history.

Fix Ridge News — There was a surprise party held at the home of Mrs. David Denner and family in honor of her daughter, Caroline, last Saturday night. Those present were Mable and Paul Richardson, Ethel and Pearl Richardson, Elsie Fith, Jim Carlton, Willie and Adolph Denner, Mr. and Mrs. Ralph Richardson, Mr. and Mrs. Claus Clark and family, Mr. and Mrs. William Carlton and family, Mrs. George Spray, Max Maynard, Paul Hall, Howard Hutchison, Herman, Adolph and Alfred Giese, Ethel, Zella and Ernest McVickers, Neva Beverly, Bill Haun, Charles Cox and Gilbert Hoygard. A very good time was reported in playing cards, dancing and other games. A delicious lunch was served at midnight.

Jullaetta News — Miss Erlene Stump, Eugene Taylor, Jack McCall, Mrs. Powell Neilson and Claire McCall went out to the McVickers ranch Saturday night to a party. The evening was spent in dancing and cards. The young people reported a good time. Albert Gruell came in from Bovill to spend the week-end with his parents.

Injured Playing Basketball

Stanley Smith, son of Mr. and Mrs. Harry Smith, Leland, received a very painful and serious injury to his right kneecap when he fell on the floor last Friday evening while playing with the Tigers against the Genesee B team. It is understood he tore ligaments in his leg and will be unable to walk on it for two or three weeks.

Burton Souders also received a painful but not serious toe injury to the left foot while playing in the same game.

Pinochle Party

Mr. and Mrs. Bruce Ebert were hosts at a pinochle party in their home last Saturday evening.

Guests present were Mr. and Mrs. Howard Hoffman, Mr. and Mrs. Wm. Johnson and children and Mr. and Mrs. Elmo Eldridge and children. Mrs. Ebert and Howard Hoffman held high scores for the evening.

A delightful lunch was served at the close of play.

Local Students Honored

U. of L. Moscow — Jordan Kanik-keberg, Kendrick, has been initiated by the University of Idaho chapter of Alpha Phi Omega, national service honorary for former Boy Scouts.

The Intercollegiate Knights, upperclassmen's service honorary at the University has pledged Charles Easterbrook, Kendrick.

Beverly Schupfer, Kendrick, has been elected scholarship chairman of Forney hall.

SHORT NEWS ITEMS FROM OUR LOCAL SCHOOLHOUSES

Tigers Split Bill

Friday night, on the local floor, the Tigers broke even in a double bill with the visiting Genesee Bulldogs. Despite the bad weather and worse roads, a fairly large crowd was in attendance to witness the games.

The visiting Genesee team built up an 13-11 lead at the half at the half and went on to win the "B" game 26-17. The Kendrick offense was slowed up considerably by the loss of Stanley Smith and Burt Souders, due to injuries during the second half. Scoring for the Tiger Bs were: Smith, 6; M. Clemenhagen, 6; May, 2, and Mustoe 3.

In the main feature of the evening the Tigers moved into an early lead, but a Genesee rally gave the visitors a 9-8 lead at the quarter. In the second period much the same pattern was followed, with Kendrick regaining the lead and then losing it in a late Bulldog rally. Once again Genesee had a one-point lead, for a 19-18 half-time score.

The half-time rest period seemed to sharpen the Tigers, both on offense and defense, because they built up a lead and then nipped the proposed rally of the Bulldogs before much damage was done. Thus Kendrick had a 25-22 lead at the three-quarter mark. Genesee came back strong in the final period, but the Tigers managed to score enough to make the earlier 3-point lead good for a victory, the final score being Kendrick, 30 — Genesee 28.

The Tigers improved considerably in their averages, both from the floor and the foul line in this game. The referees had a busy night, as they called 16 fouls on each team — Genesee and Kendrick each losing one man via the foul route.

Kendrick scorers were: Dammarell, 10; Ware 6; White 5; Thornton 5 and Millard 4.

Win Twin Bill

Kendrick won a twin bill from the visiting Winchester Loggers here Tuesday evening. Again bad weather held down the size of the crowd, but those attending were treated to a fine evening of basketball.

In the preliminary the Loggers jumped into a lead at the quarter after Kendrick opened the scoring. In the second period the visitors continued to score in the same manner and built their lead up from 8-5 to 14-7 by the rest period.

Early in the third quarter the Tigers suddenly came to life and climbed into a 21-18 lead by the next time break. Then to make sure they would win the home team continued to score almost at will, and brought in a victory score of 34-21. Scoring for the Tiger Bs were: Smith 8; Hanks 6; McCreary 5; Mustoe 4; Brown 4; Souders 3; May 2; Eichner 1 and Riley 1.

Starting with an all-Senior line-up the Kendrick A team ran up a quick 10-1 lead in the first quarter after Christensen had hit the hoop in the opening seconds. The second period saw a team composed of four Juniors and one Sophomore continue to out-score the Loggers on a fast-passing attack that brought the score up to 23-10 at the half.

During the half-time intermission the KHS majorettes entertained the crowd with several marching and baton twirling routines. Performing with these girls again was Emma Lou Dowdy from the grade school.

The third stanza brought small relief to the Loggers from the Tigers fast breaking offense and they continued on to a 34-13 lead. Even this large lead didn't seem to indicate to the team that they had won and the Kendrick scoring went on as it had during other periods. The final 48-21 score shows that the boys were playing a hard, fast game in their final appearance on the home floor this season.

Although Fuller of Winchester was high for the game with 12, there were nine Tigers that broke into the scoring column: Dammarell, 9; Millard 9; Ware 7; Thornton 7; Fey 5; White 4; Christensen 3; Brocke 2 and Halseth 2.

STORM PLAYS HAVOC WITH LOCAL ROADS — SCHOOL OUT

Following the closing of school last Tuesday at noon, one storm has followed another, and just when the hard-pressed road crewmen feel that they have the roads open "after a fashion" winds and drifting snow undo their labors.

By working Saturday and Sunday, most main thoroughfares were open to one-way travel Monday morning, and the resumption of school was considered. However, with the exception of the Leland school, it was thought best not to open until Tuesday morning because of a fresh three or four inch fall.

However, about noon, Monday, a snow and wind storm, described as one of the worst of the year, hit this area and filled all road cuts to the brim, undoing the days of labor with bulldozers, snow plows and graders. In the middle of the afternoon the crew working on Big Bear ridge, consisting of Earl Daniels and Bob Fraser on Louis Porter's big TD-18 bulldozer; Everett Farrington on a Soil Conservation bulldozer, and Clarence Perryman and Ed. Brown with the state snowplow and grader gave up the fight and returned to town — since it was impossible to see where they were going or what was being done, due to the howling blizzard, which drifted cuts full as fast as they were plowed out, and the equipment was left at the Wild Rose chapel and K. D. Ingle home.

On American ridge, Wayne Davis and Wallace Fraser, in Wayne's tractor with bulldozer blade, had the road open as far as the Walter May ranch, but they too were forced to give up the fight and return to shelter, the snow coming so hard and fast they could not see, and filling cuts behind them as fast as they were opened.

On Potlatch ridge the Nez Perce county crew with Lloyd Craig in charge, also gave up the fight, even though they had once had the main road open beyond Southwick. On Cedar and Texas ridges, which had been recently opened, cuts were again full, and, owing to the breakdown of Louis Porter's TD-14 bulldozer, will have to await the arrival of other equipment.

Monday morning, on Big Bear ridge, cars driven by Don Millard of Kendrick and Don Ferguson of Deary, collided in a cut on the icy road. The drivers were not injured, but considerable damage was done the cars. And later that afternoon, in the whirling snow, a pickup belonging to and driven by Dick Benjamin, collided with one of the bulldozers fighting snow on that road. The pickup sustained considerable damage — the bulldozer was not even scratched. No one was hurt.

The train that left Kendrick Monday morning was still stuck in snow drifts between Garfield and Oakesdale on Tuesday morning, and the whereabouts of the afternoon train was not known. As a result of this, Kendrick had no daily papers Tuesday morning — nor were any of the roads out of town open for the transportation of mail with the exception of that between Kendrick and Jullaetta.

Thursday morning of last week, Roy Glenn of Texas ridge, wanted to come to town after mail and other small items, so he hunted up his snowshoes, donned them and used them for travel from his place to the top of the grade, then walked down the road to the Pine Creek school house and caught a ride the rest of the way into town.

Friday morning Kendrick's streets were a glare of ice following the rain and chinook wind of Thursday. Residents walked about as though they had sore feet, and plain and fancy skating in an effort to keep one's balance attracted no attention — since everyone else was doing the same thing.

For several days the "water hole" at the foot of Brady Gulch, which all cars and trucks must cross going to Jullaetta or returning this way, gave considerable trouble, ice forming a dam which blocked the drain ditch across the ball diamond and causing the water to reach a depth of about 18 inches — pouring into the interior of cars driving through, soaking brakes and control cables — and then freezing, effectively putting all wet mechanism out of commission. This, however, was rectified over the week-end by the state highway crew, assisted by Don Miller and his "trusty No. 2 shovel."

Tuesday morning all crews were

As We See It!

We don't see much use in advertising this week, as the roads into Kendrick are so bad the farmers can't get into town —

And the road down the river is O. K., so most of the Kendrick people can go to Lewiston —

So why waste paper?

Anyhow — Come in and see what we have to offer!

MORE ABOUT STORM

back in the fight, under sunny skies, and as we go to press it is hoped that roads will be open and school can be resumed Friday.

The resumption of school, however, cannot be accurately predicted at this time, so keep your radio on station KRFL for the early morning local newscast, or, if in doubt, call one of the teachers or your bus driver.

No trains entered Kendrick Tuesday, the last report received that day being that a snowplow dispatched from Spokane to open the tracks was stuck in snow drifts between Moscow and Troy. However, the tracks were finally cleared and a train reached Kendrick about 2:30 Wednesday morning. The same train came up from Lewiston at 8:00 o'clock Wednesday morning.

Tuesday morning the state snow-fighting crew working on Big Bear ridge used snowshoes to get from their truck at the top of the grade to their equipment, parked at the Wildrose Chapel and the K. D. Ingle home, and Tuesday evening had succeeded in reopening the road from the Ingle home to the Ronald Jones home, and finally to the top of the grade. Tuesday night, however, another four-inch fall of snow presented new difficulties, and as we go to press the battle is still going on. The snowfall in Kendrick was very wet, and a drizzling rain fell part of the night, forcing use of a grader to clear the snow from the center of Main street.

Go On Mercy Mission

Saturday, a little after noon, Dr. D. A. Christensen received word that Billy Bamberry, 13-year-old son of Mr. and Mrs. Wm. Bamberry, was seriously ill at their snowbound home on the Big Bear ridge bench, and in need of immediate medical attention.

At the same time Mr. Bamberry called Ed. Dammarell, who owns a jeep, and asked him to bring the doctor out, as no car could possibly negotiate the road. So Dr. Christensen and Mr. Dammarell began their trip. They made it as far as the Wm. Morgan ranch (the Sam Stanton homestead), and there even the jeep bogged down, so Dr. Christensen went on astride a horse, while Ed. and Mr. Morgan hooked a team to a sled and followed him.

On finally reaching the Bamberry home through the deep drifts it was found that Billy was suffering with a ruptured appendix. He was loaded into the sled, taken to the Morgan ranch, transferred to the jeep, to Kendrick, and then rushed by Dr. Christensen by car to St. Joseph's hospital, Lewiston, where he was operated on immediately.

At last reports he was pulling through, although a very sick lad.

Now Registered Technologist

U. of I., Moscow — Paula McKeever has realized her ambition. She is now a registered medical technologist, qualified to serve any hospital in the United States.

Word that she had passed the final examination given by the registry of medical technology of the American Society of Clinical Pathologists came last week to Dr. V. A. Cherrington, head of the department of bacteriology at the University of Idaho, her major professor in college.

Miss McKeever was graduated from Kendrick High school in 1943 and the University of Idaho in 1947. She majored in the medical technology curriculum in the department of bacteriology. Following graduation she went to St. Vincent's hospital, Portland, Ore., where she recently completed her internship.

Relative Passes Away

Word was received Sunday that Mrs. L. A. Deobald of Tonica, Ill., had passed away on Feb. 12. She will be remembered, having visited relatives and friends here at various times during the past years. Her most recent visit being made in October.

Mrs. L. A. Deobald was a sister-in-law of Mrs. Mary A. Deobald of American ridge.

Confined To Hospital

Mrs. Ira Havens, Moscow, is confined to the Gritman hospital there for treatment of badly scalded legs, suffered about five weeks ago when a hot water hose in their basement got away and sprayed her legs with scalding water.

She was taken to the hospital Saturday, and will undoubtedly be there for some time.

Show May Be Cancelled

Since going to press on our center section a long distance telephone call informs us that weather conditions may force cancellation of the John Deere Tractor show of the Everett Will Tractor Co., Moscow. Should such a cancellation be necessary, it will be announced over station KRFL, in Moscow.

Choir Practice Scheduled

The Choir of the Kendrick Community church will meet for practice at the H. C. Schupfer home on Thursday, Feb. 17, at 7:30 p. m.

NEWSY ITEMETTES FROM AMERICAN RIDGE AREA

The big barn on the Wayne Davis place gave way Tuesday of last week under the impact of snow and wind, and partially collapsed. All the animals in it were rescued safely and the hay it contained also saved. However, it cannot be repaired and will be torn down and a smaller one erected in its place. Wayne's loss is considerable, but it might have been much worse.

A Piper Cub plane, belonging to the REA and being used for survey of its lines, made a crash landing on the Wayne Davis place, nearest the Ed. Kent home last Friday. The machine developed motor trouble, and when the wheels hit the soft snow it turned a flip-flop and skidded along on its back. No one was injured. A call was made from the Kent home to the Zimmerly Air Service at Lewiston, and a ski equipped plane took the occupants back to Lewiston. The plane was dismantled and hauled away for repairs.

Ira Havens and his brother, C. Havens of Hussar, Alberta, Canada, were Tuesday of last week callers at the George Havens home. This was the first time C. Havens had seen his nephew, George Havens and family, for 23 years, and their visit was thoroughly enjoyed. C. Havens lives just 63 miles from Bill Brammer.

Betty Glenn is visiting in the Warney May home.

Monday, while attempting to return home from Kendrick the group made up of George Havens and sons, Mr. and Mrs. Warney May and son Warney and Betty Glenn became stuck in the snow near the road "Y" and from that point the men walked into the Geo. Havens home, secured a tractor and a "sled" and went back to the stranded vehicles for Mrs. May and Betty Glenn. It was quite a trip in that howling blizzard — but all turned out fine.

Walter May and son Bruce drove to Troy Monday following the opening of the road. When they attempted to return, the road was blocked, so they left their car at Troy, rode the train to Kendrick, and then caught a ride as far as the Harry Benscoter home, where they spent the night, hiking on home Tuesday.

LINDEN ITEMS

Mrs. Ben Smith was called to Park due to the severe illness of her daughter, Ethel. Mr. Konen took her there via Caterpillar tractor, as it was the only means of transportation in all this deep snow.

Mr. and Mrs. Arthur Foster, Mr. and Mrs. Bill Zimmerman, Mr. and Mrs. Stewart Wilson, Billie and Wilma and Mr. and Mrs. Grim and sons helped Gil Erlwine celebrate his birthday anniversary Saturday evening. The evening was spent playing pinoche.

The Al. Pederson family were callers at the Clem Israel home last Sunday.

Dr. Christensen was called to the Clem Israel home one day last week, as Marlyn was ill.

Charles Berreman went back to Lewiston last Saturday after spending a few days at the Charley Keeler home.

Gold Hill was very well represented in Kendrick for the I. H. C. show put on by the Bean Growers. Among those present were the Cuddy boys; E. Grim, Stewart Wilson family; the Arthur Foster family; Mrs. Arley Allen, Frank Lyons, Charley Keeler and Jack Riebold and Al. Pederson.

Mrs. Erlwine held school Tuesday, but with the new snow fall of Tuesday night no more school will be held until the roads are fit for bus travel.

Capt. James Farrington is now at the Annie Weaver home visiting his wife and family.

JULIAETTA NEWS NOTES

Several families from here went to Lewiston Thursday to attend the funeral of Rev. John Nolt.

Mr. and Mrs. Woody Nye and daughter Ardene were Kendrick visitors Saturday. While in Kendrick they called on Mr. and Mrs. Lewis Lindquist.

Mr. and Mrs. Harvie Shepherd drove to Clarkston Sunday to get Mr. and Mrs. Crayton Biddison. Mr. Biddison has been a patient at the Riverview Rest Home for some time. He stood the trip home nicely. His many friends are glad to welcome him back.

Marjorie Johns, who is employed at the Riverview Rest home in Clarkston is visiting relatives for a few days.

Milo Calvert of Ahsahka spent Saturday and Sunday here with his parents, Mr. and Mrs. Asa Calvert.

Residents here extend their real thanks to Mr. Stone for his work in keeping sidewalks clear in south Juliaetta. Such good turns are really appreciated.

Remember — There are no parking meters on Kendrick's streets!

February Is 'A Famous Month'
 The pages of history are aglow this month with the names of statesmen and great leaders. To them, and rightly so, is accorded the reverence of a nation, for to it they brought the light of freedom from oppression and bigotry. But yet in this month another "giver of light" was born, and one who lived to see fulfillment of his sole desire — to further free the people from drudgery and create for them the largest possible measure of happiness and prosperity.
 His name was Thomas Alva Edison, born humbly in the state of

Ohio on February 11, 1847.
 This month we commemorate the centennial of his birth, and in that pause pay tribute to a man whose imagination and enterprise, whose courage and initiative, plus his hard work and early public ridicule, gave us the blessing of electricity.
 It is difficult even in the realm of fancy to imagine our life without its benefits. We would still be bowed beneath the yoke of our endeavors, slaves instead of masters, and the pathways of our minds would still be lighted by candleflame.
 We have come a long way since that memorable day of December

31, 1879, in Menlo Park, New Jersey, where the inventor Edison invited the world to see his "flameless light." The incandescent light was real! What a wealth of opportunity he provided for all posterity when he captured and harnessed forever the greatest element of the universe — electricity! In the Inland Empire, only three years after Edison exhibited his first electric lamp, the electric industry, later known as the Washington Water Power Company was born. That too, was a tribute to Edison.

But Edison sought no praise, except to expand his inventive creations. And from his fertile mind and tireless fingers came many. Among them was the motion picture camera and the phonograph; and the establishment of the basic principles that led to the numerous electrical devices that we know today.
 He created great new wealth — but more than that, he gave to each of us our "American way of life." Although memory be erased from the minds of men, the name of Thomas A. Edison shall live into eternity.

Dig Out Gold
 The same fever which has kept gray-bearded prospectors scratching in the hills and desert sands for years got hold of some University of Idaho summer school students the other day. They struck "color" in the Moscow mountains and didn't want to leave.

Prof. Joseph Newton of the university school of mines and Eric Kirkland, director of the summer school recreation program, took a dozen students on a trip to show them how gold is obtained. A few miles out of Moscow the party stopped at the cabin of George Sellers, a prospector, for the first phase of the tour that was to continue on to some placer mines.

Prof. Newton and Prospector Sellers showed the students how gravel is jiggled and twirled in a stream to leave the precious yellow stuff — if any — in the bottom of the pan. Then the students were on their own. Within a half-hour, one had discovered a tiny speck of color — and the gold rush was on.
 The students lost all interest in traveling on to the placer mines.

They dug and panned all day, taking time out only to eat their lunch. Every student struck gold eventually, averaging about 10 cents each for his day's work. Roy Doupe, Spokane, made the biggest strike, with about 25 cents worth of dust.
 Now the students are wondering how much more gold is in "them thar mountains."

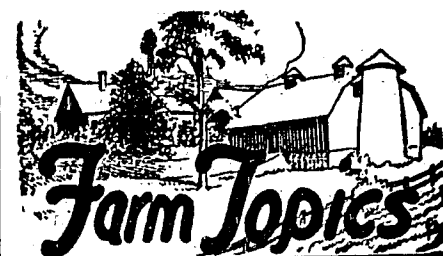

The Boston Globe defines middle age as that disquieting stage when a man starts to sprint and finds himself walking.

A university is an institution that has 2,000 in classrooms and 50,000 in the stadium.

Definition: Tree — Something that will stand in one spot for 60 years then suddenly jump in front of your car.

A good line is the shortest distance between two dates.

New Unit Improves Ventilation of Barn

Dairymen Find Device Particularly Effective

Many of a cow's troubles can be traced to heat and humidity. A cow, unlike a human being, can perspire only through the mouth. So when the temperature and humidity inside a barn get high, the animal becomes uncomfortable and stubborn, particularly at milking time.

According to the department of agriculture, an average cow gives off almost a pint of water every hour through breathing. In addition to the high humidity caused by this breathing, a cow has an extremely high body temperature.

During the winter months, when the cows are in the barn most of the time, this combination results in generation of an enormous amount of water vapor and heat. When the warm, moisture-laden air comes in contact with the cold walls, condensation occurs and frost is formed.

The net result to farmers is rotting beams, joist and siding; a loss of hay because of mold created by moisture and frost; milk contamination, disease, particularly among the young stock and reduction of milk production because of discomfort to cows.

A simple solution to all of these costly problems is an automatic cooling unit, which is proving popular with dairy farmers.

These automatic ventilation units, easily installed, reduce condensa-

Picture on Vernon Julins farm at Freeport, Ill., shows installation of automatic cooling unit in dairy barn.

tion to a negligible degree — less than 2 per cent. This action, in turn, decreases barn deterioration, hay mold, milk contamination and disease. It also provides much more comfort for the cows and increases milk production. In addition, working conditions for the operator are much more pleasant.

The cooling units are equipped with an automatic "airswitch" thermostat.

Higher Yields Outweigh Cattle Spraying Costs

An increase of \$3.75 per head more than covers the cost of spraying beef cattle with DDT, it was revealed in a test of the value of fly control conducted at the University of Illinois college of agriculture.

Protected cattle gained about 15 pounds more per head during the pasture season than a group that had not been sprayed. At 25 cents a pound, an increase of 15 pounds a head amounts to \$3.75 a head, a return that far outweighs the cost of spraying.

Beef cattle should be sprayed often enough to control flies, whether it requires two or three sprayings during the season or once a month.

Herds and Flocks

Use of 2, 4-D sprays for weed control in pastures is not dangerous to grazing animals.

A home-mixed spray of crude benzene hexachloride powder and water is more likely to taint eggs in poultry houses than a good commercial roost paint containing the effective portion of the same chemical.

Poultry houses with light colored roofs are cooler in summer than those with roofs painted black.

To get water to hogs in distant pasture where there is no water supply, pipes can be laid on top of the ground. To prevent freezing in winter, disconnect and drain the pipes.

Benzene Hexachloride Will Check Hog Mange

If hogs stand around and rub instead of eating, they may have a touch of mange. Benzene hexachloride has been found to be more effective than lime sulphur. Benzene hexachloride should be applied when temperatures are up around 75 degrees; using one pound of 50 per cent powder to four gallons of water. It is important to see that the animal is completely covered, including the inside of the ears.

Take the business or industry that you are a part of — when it or any other enterprise is taken over by government (federal, state, or local, such as the PUD), the line of government ownership moves nearer to all the others . . . and State Socialism is the only possible end of the line!

In America, no single business or way of making a living stands alone. The neighborhood grocery and the 2-acre chicken farm, the transcontinental railroad and the electric service system—all are part of the American free enterprise system. When any one of them is cut off from the others to be operated socialistically, a similar fate for all is merely a matter of time.

Unless You Want State Socialism STOP PUD EXPANSION NOW!

THE WASHINGTON WATER POWER COMPANY

To Study White-Tail Deer
 What will probably be the most extensive study of big-game animals ever made under fully controlled conditions will be undertaken soon by the Idaho Co-operative Wildlife Research Unit at Moscow, the fish and game department announces. The Idaho project is expected to answer many questions on the management of whitetail, not only in Idaho, but the northwest.
 Under the proposed project, which has been approved by the fish and game commission and the University of Idaho, 1000 acres of cut-over white pine forest are to be enclosed in a deer-proof fence. Dr. Paul D. Dalke, leader of the research unit, has selected land on the Hatter creek block of the university forest, 25 miles from the campus. Application has been made for federal aid funds to assist in the work.
 White-tail deer only will be studied. All other animals will be excluded from the tract. Some of the problems that will be attacked immediately include use of seasonal browse in relation to nutritional value, development of methods of evaluating northern Idaho game range, and weights and measurements of deer of known age. The data obtained will be correlated with similar information gathered during

the hunting season throughout the state. Forest officials have expressed an interest in the study as it is expected to show the relationship between various deer population levels and the reproduction of trees and shrubs.
 An area of 100 acres where both deer and cattle use the vegetation will be set aside for special study, including the influence of coyotes on rodent and deer populations.
 Construction of the fence will begin early in the spring.

Watch Wire-Worm Control
 (Boise — In a card mailed last week to some 8,000 potato growers by the Idaho advertising commission, Idaho farmers were again warned of the dangers in using benzene hexachloride products for wire-worm control on land to be planted to potatoes.
 "Complaints have reached us from consuming centers that certain Idaho potatoes had a musty flavor," said D. A. Stubblefield, commissioner of agriculture. "That can mean only one thing. Those potatoes were grown on land that had been treated with benzene hexachloride. While this chemical is effective in wire-worm control, it imparts a musty flavor to potatoes which is most objectionable and which does not be-

come apparent until the potatoes are cooked. To date the chemical is too new for anyone to know just how long this bad effect on the flavor of potatoes lasts. But we do know it will be present in potatoes grown in soil as long as two years after application, and it may last longer."
 "Farmers with wire-worm problems should consult their county agents as to proper chemical and cultural control," Stubblefield concluded.

Which Way?
 The United States is "crying out loud" for raw materials, and the only answers from Uncle Sam are predictions that the things and articles we can't locate now will be on the market by or before next spring. A new house will be easier to build in late 1947 than at the present time, because materials and workmen will be cheaper. The wise boys predict that along about the same time the landlords of the country will have permission to raise rents.
 Land has had a boom, including farm land. That happened during the first world war, and then the crash came that brought farm land down to the old price levels. It will happen again.
 Watch your step. It will probably pay in a business sense.

Fresh frozen fruits, berries, juices, vegetables, fish and poultry are obtainable at Blewett's Grocery-Market. Remember: "For a Better Buy, Buy Bird's Eye." 1-adv.

News "Just Ain't"

This is another of those weeks when local news, as such, simply doesn't exist.

The blocked roads have cut off almost all travel, so no one has gone any place or done anything — except the chores (in the case of farmers), and there has been no use for country correspondents to gather what little there might be, for the mails have not been moving and there has been no way to get it to the Gazette office.

However, these conditions won't exist for ever.

CALL FOR BIDS

Sealed bids will be received by the Village of Kendrick for the sale of a two-room house and a barn, located in Block 112, Lot. No. 1, Pearl Street, Kendrick, Idaho.

Said buildings shall be moved off the property by purchaser within 20 days after sale.

Sale will be for cash, 10 percent of amount bid to accompany bid. All bids must be in Clerk's Office not later than midnight, Feb. 28, 1949.

FRANK ABRAMS, Clerk,
Village of Kendrick, Idaho.

ORDINANCE NO. 263

AN ORDINANCE REGULATING AND CONTROLLING THE OPERATION OF PUNCHBOARDS, CHANCE SPINDLES AND PRIZE GAMES IN THE VILLAGE OF KENDRICK, LATAH COUNTY, IDAHO.

BE IT ORDAINED BY THE MAYOR AND VILLAGE COUNCIL OF KENDRICK, IDAHO:

SECTION 1. Definitions:
(a) The term "person" when used in this Act, shall mean and include any person, firm or partnership, corporation, or other association of persons.

(b) A "punchboard," within the meaning of this Act, shall be a board containing a number of holes or receptacles of uniform size in which are placed slips or paper or other substance, in capsule or otherwise, upon which is written or printed token numbers, figures, insignia, characters, symbols, letters or words, or combinations thereof which may be punched or drawn from said hole or receptacle by any person upon payment of a consideration and who shall obtain an award of merchandise or only upon the chance of drawing the token number, figure, insignia, character, symbol letter or word, or combination thereof, which has previously been designated to pay a prize.

(c) The term "chance spindle," within the meaning of this Act, shall be any spindle, stick, pin or device on which may be fastened by any method, slips of paper, envelopes, cards or other devices, upon which is written or printed token numbers, figures, insignia, characters, symbols, letters or words, or combination thereof, and which may be drawn by any person from said spindle or holder upon payment of a consideration, who may obtain an award of merchandise, only upon the chance of drawing the token number, figure, insignia, character, symbol, letter or word combination thereof, which has previously been designated to pay a prize.

(d) A "chance prize game," within the meaning of this Act, shall be any game in which the obtaining of a prize is based solely upon the chance of the player, upon the payment of a consideration, to draw or otherwise secure a token number, figure, insignia, character, symbol, letter or word, or combination thereof, which is designated to pay a prize, or merchandise.

(e) The definitions of "Punchboard," "Chance Spindle" and "Chance Prize Game" as herein defined shall not be construed so as to include coin operated amusement devices as defined by Ordinance No. 257, Village of Kendrick.

SECTION 2:
It shall be unlawful and punishable as a misdemeanor to possess, keep, maintain, operate, play or permit the play or use of any "Punchboard," "Chance Spindle" or "Chance Prize Game," as herein defined.

SECTION 3:
All Ordinances and parts of Ordinances in conflict herewith are hereby repealed insofar as such Ordinances or parts of Ordinances relate to the possession, use or operation of punchboards, chance spindles or chance prize games.

Effective upon passage, approval and publication this 15th day of February, 1949.

Approved:
GEO. W. MCKEEVER,
Chairman.

Attest:
FRANK ABRAMS, Clerk.
First pub. Feb. 17, 1949.
Last pub. March 2, 1949.

GRAIN MARKETS UNSETTLED WITH PRICES FLUCTUATING

Grain markets were very unsettled during the past week with futures prices fluctuating over a range as great as 25c per bushel. Cash prices did not follow fully the changes in futures, but at central western markets wheat closed 5c to 6c lower and corn about \$3.50 per ton under a week ago. Cash oats declined from a \$1.25 to \$1.85 per ton and barley around \$4.00 per ton. The decline in prices was attributed by the trade to an adjustment of the market to a changed world supply situation and a less urgent domestic demand. The market became more stable toward the close of the week under the supporting influence of Commodity Credit Corporation purchases and the government loan program.

The Portland cash wheat market fluctuated within a range of 10 cents per bushel during the week, with prices or ordinary export wheat dropping to \$2.05 per bushel, a new low since February 27, 1947. The cash market recovered fully the 10c decline and closed unchanged from a week earlier at \$2.15 per bushel for ordinary white or red wheat — or 4c per bushel under the loan value, all quotations basis No. 1 grade, coast delivery, 15-day shipment. Demand from millers continued slow. However, Commodity Credit Corporation purchases totaled 635,000 bushels during the week, which provided the principal support to the cash market. Feed manufacturers were light buyers and were only in the market for minimum requirements. Offerings were not burdensome but slightly improved over a week ago, as lower prices resulted in some liquidation.

Receipts of wheat at Columbia river terminals totaled 191 cars and at Puget Sound markets 212.

Marketings of wheat at the principal markets were somewhat larger than during the previous week and arrivals at terminals totaled about 3,330,000 bushels. The wheat market declined to a new low since 1947 when May wheat at Chicago dropped to \$1.96 1/2 per bushel. The market regained about 16c of the loss and closed only about 5c lower than the week before. Demand for cash wheat was sufficient to absorb the offerings at a steady premium. Market stocks continued to decline and less than 145,000,000 bushels were in store at the close of the first week in February (latest figures). At the close of the market No. 2 hard winter wheat was quoted at Chicago at \$2.22 per bushel, which was 7c per bushel under the loan level. At Kansas City the same grade was quoted at \$2.13, or 10c per bushel under the loan value.

During the period from noon on January 28 through Feb. 4 (latest figures) Commodity Credit Corporation purchases were 2,466,349 bushels of wheat; 512,810 bushels of corn; 224,927 bushels of grain sorghums and 50,000 bushels of rye. Flour purchases consisted of 4,430,000 pounds of dark rye, equivalent to 79,107 bushels of wheat. Wheat purchases last week consisted of 1,198,729 bushels through Kansas City; 413,367 through Minneapolis; 504,000 through Chicago and 250,053 through Portland.

Cumulative purchases since July 1, 1948, total: Wheat, 207,481,027 bushels (revised); flour, 1,209,790,000 pounds (26,457,289 bushels wheat equivalent); barley 14,438,614 bushels (revised); grain sorghums, 11,801,329 bushels; rye, 3,341,069 bushels; oats, 4,432,700 bushels; corn, 52,151,463 bushels.

At Portland barley finished about \$1.00 per ton lower than a week ago. Demand was good for feed barley at the new lower prices. However, the growers were not offering their stocks freely, but were more inclined to wait for more settled market conditions. Receipts at Portland totaled 36 cars, while the Puget Sound area received 16 cars. Marketings were about in line with trade needs.

The Portland oats market closed at around \$60.00 per ton for local No. 2 white oats testing 38 pounds. Eastern oats of the same grade were offered at \$59.50 to \$59.75 per ton. Present quotations are around 50c per ton under last week's prices. Offerings of local oats continued light, while on the other hand, demand was only moderate. Receipts at Portland totaled 16 cars, while the Puget Sound area had only 10 cars.

Sunday School Valentine Party
Mrs. E. M. White entertained her Sunday School class at a Valentine party last Tuesday. The event also honored Sylvia Herr's birthday anniversary, and birthday cake was served.

Games were played and prizes won by Sylvia Herr, Donna Knox and Ann Kanikkeberg.

Spending Winter At Moscow
A brief note from Mrs. Johanna Nelson asks that her paper be changed to Moscow, where she is comfortably settled for the balance of the winter.

TRADE IN KENDRICK -- AT HOME

TO FAMILIES
WE HAVE NEVER SERVED

Those who have never had occasion to engage the services of a funeral director must rely upon what others say, when the inevitable need arises. For almost fifty years Vassar & Rawls have been noted for professional skill, fair dealing, liberal policies.

This reputation is your safe guide in calling a funeral home.

Potlatch Chief Sez

PUBLISHED BY THE KENDRICK CO-OPERATIVE CREAMERY

HELLO, THERE FOLKS:

About That Fried Chicken:

Say, do you like fried chicken? We'll bet that you do — for who doesn't?

Can't you just smell that luscious golden brown chicken, heaped on a platter on the table? Can't you just taste it?

You know — there's one sure way to get it — and that's to place your order with us for Erving's Winlock Hatchery tested baby chicks for future delivery. And the sooner you place that order, the sooner you take delivery, the sooner you can be enjoying that delicacy of fried chicken.

Something else worth thinking about, too, is the income those laying hens can bring. It feels pretty good to be able to sell eggs right along and apply that money to the old grocery bill.

Don't "sneeze" at chickens — raise 'em.

About Milk:

As spring appears around the corner (we hope) there's going to be lots of mud and slush, and with it the "everlasting" spring cold. Drink milk to build up your body and help fight those colds.

Remember: Growing children must have milk. Adults need it for continued good health. Be sure you don't slight your children, your family or yourself in this important matter.

And be sure it's Potlatch Chief milk — it's pasteurized!

She: "Yes, I wrote a confession story once."

Her: "Did they publish it?"

She: "No. But the editor came all the way from New York to see me."

Blonde: "Nobody seemed to think he was such a bad egg until he lost his money."

Girl Friend: "Brother, you never discover a bad egg until it's broke."

SOUTHWICK NEWS

Mr. and Mrs. Frank Cantril and daughters and Mr. and Mrs. Don Cantril and daughter were Saturday evening guests in the Roy Gertje home.

Frank Thornton has been quite ill with an infected throat, but is better at this time.

Mrs. Lou Watson spent several days last week with her mother, Mrs. Charlie Baack, who is confined to the Lewiston hospital.

Mr. and Mrs. Tom Armitage were Sunday dinner guests in the Abner Cowger home.

Clarence Reiman, who teaches in our school here, spent the week-end in Lewiston.

Henry Tschantz returned Saturday from Arlington, Va., where he had been for some weeks visiting with his brother, Wm. Tschantz.

Mr. and Mrs. Don Cantril and daughter Sandra spent Sunday with Mr. and Mrs. Gordon Hicks at Ah-sahka.

Mr. and Mrs. Virgil Harris and sons were Sunday guests in the Charlie Harris home.

Frank Cantril and Wilbur Colwell were Orofino and Lewiston visitors Monday and Tuesday (and possibly Wednesday if they can't return to their homes here).

Clay King is spend a few days in Lewiston.

Mr. and Mrs. Howard Southwick spent last week in Lewiston — held there by the impassable roads.

Gold Hill School News

Mr. Nutting visited our school Tuesday of last week.

On Monday there were only eight pupils present, and Tuesday just seven.

Heard in the "Gold Hill Grocery:" Jeanette — I want to buy a box of matches. I've been trying for a week to start a fire by rubbing two sticks together.

We could not begin school until 10:00 o'clock Wednesday because our stove smoked so much. Gil Erlewine and Jerry cleaned the stove pipes again Sunday evening.

Six March of Dimes cards for 50c each and \$1.00 extra was received by our school and sent to Mr. Nutting, drive chairman, who sent us the cards for distribution.

A Junior Red Cross box was received in the school last week to be filled and sent overseas. To date it has four articles in it.

Pencils were received this week for the children who sold Christmas Seals.

This month the first and second grade children are decorating the windows.

The fifth grade girls decorated a Valentine box during Art period on Friday.

Kills Another Big Hawk

Monday Archie May of Leland saw a big brown hawk swoop down into the snow and kill a Chinese pheasant. Archie procured a rifle and killed the hawk, then brought both to town to show what had taken place.

Archie said but a very few minutes had elapsed between the time he saw the hawk strike, and the shot was fired to kill the hawk — but in that length of time the big bird had almost completely stripped one side of the pheasant's breast.

At any rate, that hawk will never kill another bird.
