NO. 24

NEWS ITEMS ABOUT LELAND RESIDENTS AND FRIENDS

4-H Strawberry Social June 18
The girls of the 4-H club and their leader, Mrs. Fred Glenn are planning a sale of strawberries, cake and ice cream at a stand in Kendrick on Saturday, June 18, beginning at 1:00 o'clock and continuing through the afternoon and evening. Proceeds will be used to help pay expenses to attend summer camp at Lake Chatcolet.

The girls will meet with Wanda Peters on Thursday, June 23, at 2:00 o'clock.

Other News
Mr. and Mrs. W. H. Weyen returned last Tuesday from a trip into Illinois. Enroute they visited Yellowstone National Park. They report a most enjoyable and pleasant trip.

Mr. and Mrs. Lyman Withrow of Kellogg spent on Wednesday until Saturday visiting with relatives here.

Mr. and Mrs. William Humphrey of Clarkston spent from Tuesday until Friday visiting Mr. and Mrs. Alex Larson.

Mr. and Mrs. Wilbur Tarbet and family were Thursday supper guests in the home of Mr. and Mrs. Harold Silflow.

Paige Craig spent from Wednesday until Friday with Jeanette Criddlebaugh in Lewiston Orchards.

Mr. and Mrs. Marvin Vincent and Mr. and Mrs. Chester Vincent and children were Sunday dinner guests of Mr. and Mrs. Wm. Rogers in Moscow.

Mr. and Mrs. Billy Weyen and Mr. and Mrs. Ted Weyen drove to Spokane and Lake Chatcolet on Thursday and Friday.

Mr. and Mrs. Marvin Vincent called on Mr. and Mrs. W. H. Weyen on Wednesday evening.

Mr. and Mrs. Ervin Draper, Mrs. Dora Heffel, Mr. and Mrs. Lyman Withrow and Mr. and Mrs. Roy Craig were Thursday supper guests of Mr. and Mrs. Robert Draper.

Mr. and Mrs. Ewald Hinrich and son Herman and Mr. and Mrs. Gordon Peters and daughter Darlene were Sunday evening callers in the Alex Larson home.

Mrs. Gordon Peters, accompanied by Mrs. Wm. Johnson, motored to Spokane on Friday, to take her daughters, Wanda and Sandra Peters to visit for several days with their uncle and aunt, Mr. and Mrs. Robert Olsen.

Mr. and Mrs. Harold Silflow and daughter Kathy were Sunday dinner guests of Mr. and Mrs. Wilbur Tarbet.

Mr. and Mrs. Robert Draper, John Vincent and Mr. and Mrs. Roy Craig and daughter Paige fished and picnicked near Elk River, Sunday.

LeRoy Walker of Clarkston is visiting his grandparents, Mr. and Mrs. Oney Walker.

Mrs. Robert Draper and Mrs. Roy Craig attended a meeting of the Advisory Council in the court house at Lewiston on Friday.

Jeanne Craig spent last week in Moscow visiting her uncle and aunt, Mr. and Mrs. Elwin Fleschman.

Mrs. Dora Heffel was a Sunday guest of Mrs. Ida McAllister in Kendrick.

Mr. and Mrs. Robert Draper were Monday evening callers in the home of Mr. and Mrs. W. H. Weyen.

Mr. and Mrs. Marvin Vincent attended a banquet of the Lewiston Grain Growers at Lewiston on Monday.

Creamery Improvements Planned
In line with the Kendrick Co-operative Creamery's new policy of continuous progress, several new items are worth more than a passing mention.

Last week a new cream pasteurizer and cooling tank were installed — all of stainless steel, inside and out, and next on the program is to be a new churn. Its capacity will be approximately the same as the present one, but it will be of the newest type.

Also scheduled to arrive within 30 days, is an ice cream and ponicle making machine, which will round out the ice cream equipment of the institution.

Building repairs are also scheduled, including a new roof, paint, etc.

Mr. Van Campen, the new manager, as well as the board of directors, feels that there is a bigger field to be had than the institution has been utilizing, and they intend to go after it.

The annual creamery meeting is scheduled for Saturday, June 25. All members and stockholders of the Kendrick Co-operative Creamery are urged to be present — and to bring a friend.

Mr. Van Campen states that an effort is being made to put together a really interesting and lively program, rather than a cut-and-dried business session. We hope to be able to list this program in our next issue.

Showing Improvement
The condition of Milton Benjamin, injured in an auto accident on the Wancher Gulch grade Wednesday morning of last week, is described as "improved." The feeling and use of his left side, paralyzed by a vertebral fracture, is showing slow but steady improvement.

Their son, Eric Verlin Benjamin, who is stationed at Camp Lewis, arrived home last Saturday to spend a short furlough with his mother and father, and he is at the bedside of his father in St. Joseph's hospital, Lewiston.

Chambers Of Commerce
The Latah County Chambers of Commerce will hold their next meeting at Deary, at the Grange Hall on Tuesday, June 21, with dinner served at 6:30 p. m. It will be the annual "strawberry feed."

Girl Scout Picnic

The Kendrick Girl Scouts were feted at a picnic last Thursday afternoon at Spalding park. A delicious lunch was enjoyed, at noon, followed by fun and games. Hostesses for the afternoon were the teachers and Girl Scouts who were working on "Good Grooming Badges." Special treats of ice cream cones were provided by Maribel Schupfer and Helen Mattoon.

Beginning July 1st the Girl Scouts will take a two-month vacation, although many will continue to work for badges, which were started in April.

Dorothy Stephens and Wanda Travis will be greatly missed by the troop, but all hope they will continue their activities in their new homes.

SCHOOL DISTRICT LEVY MEETS DEFEAT SATURDAY

The school district levy election which was held at the school house Saturday, June 11, was voted down 20 to 13. The seriousness of this situation is not realized by the average voter until the results are taken into consideration.

First may it be pointed out that the millage voted upon to run the school for the coming term was exactly the same as that voted for last year, and the total amount asked for next year, had the vote carried, would be about the same as was required last year to operate the school. Perhaps this point was not clear and voters were confused, thinking that more money was being asked than here-to-fore.

Since the sum asked carried 4 mills for transportation, 1 mill for playground improvement, and 5 mills for general expenses, the usage of this money is plain to be seen.

It should be pointed out that without this sum, the school could operate only so long as funds under the regular levy asked, lasted — then would have to close down.

Should this shut down shorten the school term to less than 172 days of actual school, no state or county funds would be available, and the high school would no longer be accredited by the state. This state and county apportionment is \$46,662.46.

Should this sum, plus the levy requested, be not available, it is plain to see that there would be no schools conducted within the district in the coming year.

The school trustees have been authorized to hold another election, which must be conducted before June 30, and the date chosen is Friday, June 24, and notices were duly posted. This paper also carries the required legal notice.

The polls will be open from 2:00 p. m. to 7:00 p. m. to permit all to vote.

Division Chairmen Announced

Following a committee meeting of the Joint P-T. A. for this district, the following have been announced as Canning Chairmen for the various ridges and areas of the district:

American Ridge, Mrs. George Havens; Big Bear Ridge, Mrs. Gerald Angle; Kendrick, Mrs. D. A. Christensen; Southwick, Mrs. Arne Cuddey; Leland, Mrs. Homer Parks; Julianna, Mrs. Eugene Taylor.

Anyone having berries, fruit — or time they are willing to donate are requested to call their ridge or area chairman.

Canning for all projects may be done at the Julianna or Kendrick school houses — also, a locker is available and anyone having fruit or vegetables suitable for freezing call Mrs. E. M. White or Jasper Nutting, Kendrick, or Mrs. Eugene Taylor at Julianna.

Everyone is asked to donate anything possible.

Full notes, for which donations are also requested, are carrots, turnips, rutabagas, potatoes, dry beans and onions. Mrs. Taylor states that if the Hot Lunch program is to be carried on items must be donated and canned — or prices must be preferred.

Narrowly Escapes Death

Julietta, June 12 — Tom Groseclose, Julianna, narrowly escaped death at 12:30 p. m. today when a truck he was driving stalled on a railroad crossing here and was hit by a train.

The train brushed the 1931 truck aside and only damaged its right front fender.

Groseclose was driving west from town and had no brakes. He jammed his gears into reverse and the motor stalled. He was given a ticket for operating a vehicle without brakes by Glenn L. Spencer, Idaho state policeman.

Improvements About Town

Wallace Emmett is busy these days building a new stairway and porch for their apartment on Main street.

The Clemenhagen Garage is receiving a coat of shiny white paint at the hands of Jack Browning and Harold Lindor.

M. C. Halliday has completed the installation of the new frosted glass partitions in the Farmers Bank, but is still awaiting the arrival of the special flooring to complete the remodeling job.

Returns From Seattle

Mrs. Forrest Wetterow flew home from Seattle to Lewiston, Sunday, and was met there by her husband. She had undergone surgery in Seattle.

Mrs. Henry Kolter of Palouse arrived the same day and will spend this week in the Wetterow home caring for her, Rowena Carl, Mr. Wetterow's niece from Bridgeport, Ill., is expected here this week-end to spend the summer.

ENGINEERS REPORT ON THE KENDRICK SEWER NOW IN

Note: There has been a great deal of discussion on the Kendrick sewer system for the past two years, and we believe that publication, in its entirety, of the recent engineering survey report, will go far toward clarifying the situation for local residents. The report follows:

Village Board of Kendrick, Idaho Gentlemen:

This is a report on the preliminary investigation of sewers and sewage conditions in Kendrick as authorized by a telephone call from Mr. Abrams on May 21, 1949.

Statement of Conditions: Our investigation reveals the following pertinent information.

1. The present 12-in. truck sewer which follows Main Street to Mill Street serves both as a storm drain and a sanitary sewer. There are about 15 storm inlets and 118 sanitary connections. The part of town southwest of Mill street has no sewer service.

2. The elevation of ordinary high water in the Potlatch river at the sewer outlet is higher than the top of the manhole on Mill Street, causing the sewage to overflow into the street during high water. The outlet is further obstructed by being lower than the bed of the river.

3. There is not enough drop in the river or in the country below the present sewer outlet to make feasible the disposal of sewage into the Potlatch river without pumping.

4. There is enough drop between the manhole on Third Street and the river to permit gravity flow into the river at that point.

5. Sewage is strictly domestic with the exception of creamery waste from one creamery.

6. The discharge of raw sewage into the Potlatch river has apparently not created a nuisance and can be expected to be permissible for quite a number of years. However, records show that during the dry season the flow of the Potlatch river is reduced to four second feet or less, so that eventually the village of Kendrick may be forced to the complete treatment of its sewage.

7. The assessed valuation of Kendrick is approximately \$200,000. This will not permit bonding for sufficient funds to finance a complete sewage treatment plant. Your present finances are very limited. There is at present no provision for Idaho municipalities to borrow federal funds for sewage treatment works if and when Congress appropriates funds for such purposes as authorized by Public Law 845 of the 80th Congress. There is a strong possibility that our next state legislature will provide for raising funds for such municipalities through revenue bonds.

8. The population of Kendrick is now approximately 485. There is little possibility of its exceeding 800 in the next 40 years.

Solution and Recommendations — (General Consideration). In planning a solution for your conditions we have kept in mind the critical financial condition and the difficulty of obtaining funds. We have considered the minimum cost for meeting the present needs but we have considered only improvements that will be adaptable to a future complete treatment set-up. We have conferred with H. C. Clare, director of the State Department of Public Health, and are following his suggestion.

(Pump Station Needed) There is no way of getting the sewage from the manhole at Mill Street into the river during high water except by pumping. While a pumping station is not desirable if it could be avoided, there seems to be no alternative.

We recommend that you extend your trunk sewer from the manhole on Mill Street to the southwest city limits and there install a pump station to pump into the Potlatch river. If and when a treatment plant is needed the pump delivery can be diverted from the river to the treatment plant. The treated sewage can then flow into the river by gravity.

The construction of the sewer extension and the pump station is estimated at \$17,370.

(By-pass for storm water needed). It is not feasible to provide a pump station capable of handling the total storm sewer run-off and the sanitary sewage flow. It would not be economical or practical to provide a treatment plant that would handle the combined storm run-off and the sanitary sewage flow. For either of these purposes it is desirable to separate the storm sewage from the sanitary sewage. However, instead of providing a separate sewer for storm flow we recommend the construction of a 15-inch by-pass line from the manhole on Third Street to the Potlatch river. The present outlet of the manhole should be partly obstructed or controlled so that any great amount of storm water coming into the manhole will overflow through the by-pass instead of going to the pump station.

The construction cost of the by-pass line and the revised manhole is estimated at \$2,600.

(Future Treatment Plant) For future treatment, which we have considered as Stage Two of your improvement program, we recommend a so-called "Package Type" combination Aerator-Clarified Activated Sludge Treatment Plant as produced by the Chicago Pump company.

The construction cost of such a plant is estimated at today's prices at \$53,600.00.

Investigation Procedure — A primary consideration in this preliminary investigation is the amount of money that can be raised by the Village of Kendrick for sewer improvements. We find that your bonding limit is 15 percent of your assessed

valuation for sanitary sewers. This means that you can raise a fund of approximately \$30,000.00 by voting bonds. There is a further possibility of pledging some of the revenue from your water system after present obligations are paid.

We are therefore considering your problem in two stages of construction. In Stage One we would recommend only the necessary construction to take care of your immediate needs. The second stage would be the construction of a sewage treating plant at a future date when further funds are available.

In making the study for this preliminary report we first checked elevations of the present sewer outlet and the fall of the Potlatch river. The present sewer is under water at normal flow for this time of year. We found that under ordinary high water conditions the water level in the river is higher than the manhole cover at the corner of Main and Mill streets. That is the reason for the sewage overflowing the top of the manholes and flowing down the Main Street. The outlet of the sewer at the river is covered with boulders and sand built up by high water.

This causes the sewage to collect and requires periodic cleaning to keep the sewage solids from stopping the flow entirely. There is a lamp hole in the out-fall sewer, near the north approach to the highway bridge, that overflows at times, causing another unsanitary condition.

We followed the highway out on Main Street and Wheeler Avenue to the ballpark, trying to find an outlet here. We find that there is not enough fall in the river to allow us to make an outlet by gravity at this point.

We next ran a line of levels down the highway to a triangular piece of ground below the sawmill, made by the sawdust pile, Potlatch river and Northern Pacific Railway track. We found the same conditions prevailing at this point as at the ballpark. We could not gain enough fall to put the sewage through a treating plant and discharge the effluent into the river by gravity.

As such we dislike to do so we have found it necessary to fall back upon a sewage pumping plant to gain enough elevation to put the sewage through a treating plant and discharge the effluent into the river. After making a decision to recommend a pumping plant we started looking for a site for it closer to the town in order to cut the cost of the sewer main and help pay the cost of the pumping plant. There is no site available near the present sewer outlet as the land is practically all within the bounds of the Potlatch river. We finally picked a location near the proposed new highway just south of the south city limits between the ballpark and Brady Gulch creek. This location will keep the disposal plant above normal high water except for abnormal floods.

By using this site the new sewer from Mill Street to the treating plant will serve the people on West Main street and Wheeler Avenue. We have followed Main and Wheeler until we passed the last house on Wheeler before angling toward the right-of-way line of the proposed new highway.

The next consideration is the pumping station. We find the 1940 census gave Kendrick a population of 407. You now have about 118 sewer connections, which, allowing an average of four people, would make an estimated present population of 472. If your growth continues at the present rate your population will be 760 in forty years hence. There is a possibility of 75 more connections to your present system which should carry you through as the increase as figured would require 72 sewer connections.

Therefore we are considering a pumping plant large enough to accommodate a population of 800, with space for additional pumping units should they be required later.

The next item to consider is the matter of approximately fifteen storm sewer connections to the system. These inlets do not mean much to the system by way of increased flow except in times of heavy rains or run-off from snow. During those times the flow would overload the system so much that the pumping plant would not have the capacity to handle the flow, being designed to handle the normal flow of sanitary sewage. We could of course design a pumping plant to handle the combined flow. However, the cost of such a plant would be prohibitive for you. We have investigated the possibility of a by-pass for the storm sewer water in times of heavy rains or snow run-off. We made a check at the corner of Third Street and Main and find it possible to by-pass the storm water by building a 15-inch line from the manhole at Third and Main, down Third, to the river. This would necessitate putting a partial check on the low side of the manhole at Third and would allow the normal flow of sewage to pass through the manhole with the excess of the water going through the by-pass to the river, thus relieving the main sewer of the storm water overload.

The cost for extending the main sewer to the disposal site from Mill Street, building the by-pass on Third Street and the pumping plant is as follows:

Sewers and manholes in place	\$ 7,290.00
15-inch by-pass sewer on Third Street	2,365.00
Pumping station	8,500.00
Engineering costs	18,155.00
Total estimated cost, (stage 1)	\$19,970.00

(Continued On Page 5)

State Grange Master Visits

State Master Geo. Hershey of Boise was a guest at the Latah County Pamona Grange meeting, held in Kendrick at the gymnasium Saturday evening. The big building was very attractively decorated with evergreens and huge bouquets of peonies.

Supper was served at 6:30, and refreshments at the close of the evening to approximately 150 members. The dining room looked very festive and pleasant with the long white tables decorated with bouquets of roses and small flowers.

A social hour and dancing was enjoyed after the meeting.

At the close of the evening the bouquets were taken down town and placed before the Honor Roll, to serve as decorations over Flag Day.

COMMERCIAL CLUB MEETING HELD ON WED., JUNE 8

The regular monthly meeting of the Kendrick Commercial Club was held on Wednesday, June 8, with the 6:30 dinner being served to 15 members at Burt's Confectionery.

The business session, called to order in the city hall, was presided over by Dick Cuddy, vice president.

A. O. Kanikkeberg, reporting for the Highway Committee, stated that condemnation proceedings for completion of right-of-way needs were now under way, and that bids could be called for at any time — although no information was available as to when such a call might be made.

He said he understood that a "big drainage channel" up Brady Gulch and the re-rocking of the Big Bear bridge grade was to be a part of the project.

Walter Brocke, reporting for the Civic Improvement committee, said that a survey was now underway on the village sewer system, as to fall, drainage, and future needs, but that little could be reported until the survey was complete.

A. W. Watts, reporting for the Scholarship committee, stated that at a meeting of representatives of the P-T. A. Masonic Lodge, Commercial Club and Grange and school that George Ann Cook, daughter of Mr. and Mrs. Asa Cook, Julianna, had been selected, with Marazet Wilken, daughter of Mr. and Mrs. George Wilken, Cameron, named as alternate.

A. W. Watts, also reporting for the Civic Improvement committee, stated that the town was infested with rats. The local warehouses were paying a pest extermination firm a regular monthly sum to keep the warehouses free of these rodents, and suggested that the town sponsor a community drive for their elimination and if possible complete eradication. After round-table discussion it was decided to hold this matter over for the next meeting.

W. L. McCreary then brought up the matter of putting out a "20-Years-Ago" issue of the Gazette, in order that he might obtain a week's vacation — said paper to appear some time this coming summer, probably in July. Unanimous approval was given the request.

Next order of business was the election of a Board of Directors for the coming year, these directors to name the officers. Selected were H. C. Schupfer, A. O. Kanikkeberg, Dr. D. A. Christensen, Walter Brocke and W. L. McCreary.

Walter Brocke led a brief discussion of the Swimming pool, park, and other community property, explaining to the Club the financial status of the village, and asked if the Commercial Club would furnish paint for the bandstand, if the town furnished labor for its application — the paint was voted unanimously.

In line with the park condition came a discussion of the Village flag pole, and an examination has disclosed that someone had cut the steel cable used for raising and lowering the flag, pulled the lock to the top of the pole, and again cut the cable, walking away with half of the necessary cable, and leaving the lock dangling at-top the pole — thereby rendering the pole useless, at least for the time being.

A. O. Kanikkeberg, reporting for the Education committee, stated that to date the school district was short one teacher at Southwick; two at Leland and one in the Kendrick High school — otherwise all positions had been filled.

Walter Brocke and Dick Cuddy, reporting for the Volunteer Firemen, stated that the new fire truck was to be delivered on July 1. In line with the truck, and fire fighting training, they said motion pictures of such procedure had been ordered for exhibition, and on their arrival they would be shown to the general public as well as to the Firemen.

Swimming Pool Much Enjoyed

The Area Living War Memorial Swimming pool opened Saturday, and "played" to what might be classed as a "full house," being crowded both Saturday and Sunday. It was, of course, closed on Monday, to give Ozzie Kanikkeberg, the lifeguard, a day off — but Tuesday afternoon was again getting a "lively play."

Evening attendance has not been good, as nights have been just a bit cool to date, but they will warm up beyond a doubt.

Admission fees this year are the same as last, \$4.00 for an adult season ticket (over 14 years) plus tax, and \$2.50 for a child's ticket, (6 to 14) years plus tax.

It remains a mystery why federal taxes should be charged on a municipally operated pool of this kind, and the Village Trustees are looking into the matter in an effort to obtain a refund on the amount paid to date and an exemption in the future. Should such a refund be made, it will be passed on to the ticket purchaser.

PERSONALS AND NEWS ABOUT KENDRICK FRIENDS

Mr. and Mrs. Dick Benjamin returned home from Verona, Oregon, last week-end, where they had been visiting her aunt, and with other relatives and friends at Astoria and Portland. While at Portland they witnessed the Blossom Festival; examined the Canadian cruiser Ontario, and all-in-all reported a most enjoyable time.

Mr. and Mrs. Marius Glerup of Seattle left Thursday at noon for their home, after visiting for several days here with his mother, Mrs. Glerup, at the B. F. Nesbit home. Mr. and Mrs. Glerup flew their own plane to Lewiston, coming and leaving here by train.

Word was received here last week that Mrs. James Emmett, former Kendrick resident, who now resides at Carrollton, Mo., fell and broke her left hip and left arm on May 10. She is in the hospital at Carrollton and is improving nicely. She has never complained of pain, and sleeps and rest well. She was 86 years old on June 7.

Homer Betts, Lewiston, was transferring business in town Tuesday. He also visited for a time at the Ward Halton home, and with other old friends.

Mr. and Mrs. W. L. McCreary and family spent the week-end in Spokane in the home of her parents, Mr. and Mrs. Frank E. Griffith.

Miss Lois Deobald, who has been teaching music in the Spokane schools the past term, arrived home Sunday to spend the summer.

Mrs. Estella Leith was a Lewiston caller Tuesday morning.

Mr. and Mrs. Floyd Millard left Sunday morning for Portland to visit in the home of his brother. They are expected back today (Thursday).

Mr. and Mrs. Roy Long, Spokane, brought their children, Jimmie, Jimmie and Francis down Saturday to spend a couple of weeks with their grandparents, Mr. and Mrs. Ed. Long.

H. E. Wright of Spokane was a guest in the Ed. Long home Saturday and Sunday.

Mrs. E. M. White and daughters Ann and Judy were in Lewiston Monday to visit her mother, Mrs. W. M. Huff.

Mrs. Chas. Westendahl was a passenger for Moscow Monday, returning Wednesday.

Dr. Joseph H. Coulter returned Monday evening from Tacoma, where he had been attending the session of the Pacific Northwest Annual Conference of the Methodist church. He reports a very fine meeting. The Rev. Wm. S. T. Gray, a former pastor of the Kendrick church sent greetings to all his friends. Mr. Gray is now on the faculty of the University of Denver. The Rev. Clark M. Smith, a former minister of the Leland church was appointed to the Farmington-Thornton, Wn., churches. Dr. Coulter was appointed to be pastor of the Kendrick-Leland charge for the fourth year.

Mrs. Glen Herr and daughters were Lewiston callers Tuesday.

Marian Lowery, Everett, Wn., arrived here Monday to spend some time visiting in the home of Mr. and Mrs. Marvin Long.

Mr. and Mrs. Bruce Ebert have been "bumped." As dept. agent at Julianna, "Robert" Uhlenkott and family of Craigmont will take their place. As yet the Eberts do not know where they will be transferred.

Mr. and Mrs. H. C. Schupfer and daughters Beverly and Marilyn, accompanied by Bud Eichner and Jackie Lee of Plummer, and Mr. and Mrs. Orto Schupfer and daughter Maribel spent Sunday at Lake Chatcolet.

Mrs. Mary McCall, Julianna, was a week-end guest in the home of her son, Mr. and Mrs. Walter McCall.

Mr. and Mrs. Paul Lind and sons Bob and Eugene, and Mrs. John Lind, visiting here from Newberg, Oregon, attended the wedding of Miss June Cook in Lewiston, Tuesday.

Mrs. Leah Cardinal was in Lewiston Tuesday, attending the wedding of Miss June Cook and Harry Judd.

Mr. and Mrs. Ross Armitage, Jimmy and Joyce drove to Stites Saturday evening to visit relatives and bring back their son, Jerry, who had been visiting there.

Oscar Medallin returned Monday evening from Nekoma, N. Dakota, where he has been farming since spring work became possible.

Mr. and Mrs. Arthur Charon and two daughters of Lawton, N. Dakota arrived here Monday to visit until Wednesday with his uncle and aunt, Mr. and Mrs. Oscar Medallin.

Mr. and Mrs. Tom Keene returned to Kendrick Tuesday evening following 10-day vacation trip through southern Idaho, Yellowstone and Glacier parks and on into Canada. They left again Wednesday morning for Kennewick to get their young son, Timmy, who has been staying with his uncle and aunt, Mr. and Mrs. George Jones and family. They are expected back today (Thursday). Mrs. Wade Keene, who accompanied them on part of the trip, remained at Pocatello to be with her husband.

Mr. and Mrs. Claude Craig returned Monday from Marysville, Wash., where they had been helping Mrs. Bonnie Easterbrook get settled in her new home.

To Missionary Convention

The following women left Tuesday morning for Baker, Oregon, as delegates to the Women's Missionary Convention of the Lutheran Church, all returning Wednesday night: Mrs. Geo. Havens, Mrs. A. F. Wegner, Mrs. Theo Meske, Mrs. Herman Meyer, Mrs. Homer Parks and Mrs. Glen Wegner.

JULIAETTA NEWS

Mrs. E. O. McAllister, Mrs. Laura Groseclose and Mrs. Cecil Gruell were delegates to the W. S. C. S. conference held at Walla Walla last Thursday and Friday.

Mrs. Cecil Gruell and other members attended a meeting of the Grand Chapter Order Eastern Star, held at Coeur d'Alene June 14.

Mrs. Tona Garner spent the week-end at Lewiston visiting her brother, Irwin Draper and family.

Mr. and Mrs. W. S. McPherson picnicked at Winchester Sunday, joining Mrs. McPherson's brother, Tom Crea and wife of Grangeville.

Mr. and Mrs. Jack Mead spent a few days camping and fishing near the Bungalow.

Mrs. Frank Preston and daughters Patricia and Diane from Port-

land, Ore., are visiting her brother and family, Mr. and Mrs. Fred Hadley.

Herb Millard is visiting relatives at Portland, Ore.

Mr. and Mrs. Asa Calvert spent the week-end with Mr. and Mrs. Charles Starkey at Absahka.

Ben Weatherby took his Sunday School class of boys fishing at Winchester Lake, Saturday.

Mrs. Robert Shove spent a few days visiting relatives at Winchester.

June Cook Is Bride

Miss June Cook of Lewiston became the bride of Harry Judd of Greer at Lewiston, in the Methodist church, at 2:00 p. m. Tuesday.

Miss Cook is a daughter of Mr. and Mrs. Boyd Cook, former Lenore residents, and will be remembered here, having often visited in the home of her aunt, Mrs. Paul Lind.

Make Big Tax Payment

Latah county tax collector Edna M. Theriault, will receive a check on June 17 for \$17,185.17 representing the second half payment of the Washington Water Power Company's 1948 property taxes. Full payment to the county for the year will amount to \$34,370.35, a 21.5 percent increase over last year.

Total tax payment by the WWP in nine Idaho counties for this period amounts to \$180,536.34, according to V. S. Casebolt, Moscow district manager, who presented the payment.

"The company's total property tax in Idaho for 1948 will be \$364,253.61, a 6 percent increase over last year," Casebolt said. Major portion of the increase is due to new property construction by the WWP which was added to the tax rolls this year, he explained, and also due to a general increase in the tax levies by various taxing districts.

Following is the amount of property tax to be paid to eight other Idaho counties in which the WWP has sizeable holdings: Benewah, \$8,302.65; Bonner, \$1,528.14; Clearwater, \$6,122.26; Idaho, \$9,205.14; Kootenai, \$59,332.14; Lewis, \$4,764.31; Nez Perce, \$50,299.15, and Shoshone, \$23,797.39.

4-H Girls Do Much Canning

It'll be June in January for many Idaho 4-H families when it comes to eating fruits and vegetables next winter. Girls enrolled in the 1949 National 4-H Canning Achievement awards program are learning to estimate family food needs, and have the food preservation plans pretty well worked out. They are doing a lot to top last year's national output of 17,000,000 quarts canned by 4-H Club girls.

In addition to providing healthful, nutritious dishes for daily meals, the canning project cuts food costs considerably. Most of the produce, meat and poultry canned, is raised on the home farm. The girls are aware of the importance of fruits and vegetables in the winter diet and see to it that there's a plentiful variety served at the family table.

Records are kept of amount, kind and value of canned products, giving Idaho 4-H'ers an opportunity to qualify for merit awards. Sherry Christensen of Downey was the 1948 state champion, winning a trip to the National 4-H club congress in Chicago.

The Co-operative Extension Service supervises the activity.

Transferred to Nebraska

Pfc. Boyd A. Thornton, son of Mr. and Mrs. Jesse Thornton, Leland, was recently assigned to the Motor Vehicle Squadron of the 3902 Air Base group at Offutt Air Force Base, Omaha, Neb.

Pfc. Thornton came to the Offutt base from Ft. Francis E. Warren, Wyoming, where he received his training as a student. His duties will be in the mechanical section of the motor vehicle squadron.

Parents Of Daughter

Mr. and Mrs. Pearl Hazeltine of Juliaetta are the parents of an 8 1/2-lb. daughter, born to them Tuesday evening at the Davidson Nursing home.

Enrollment Goes Up

U. of I., Moscow — Enrollment passed the 675 count Tuesday morning and was still climbing as the 1949 University of Idaho Summer School went into its second day of registration. Students from all parts of the United States and several foreign countries have enrolled for summer session courses.

Meanwhile, on the campus, more than 400 high school students from all parts of Idaho have enrolled in one of four summer camp activities. Future Farmers of America, with more than 200 high school boys registered for the three-day agricultural judging contests, holds the record for the largest number.

Girls State, a six-day meeting of high school girls sponsored by the American Legion Auxiliary to give Idaho young women instruction in governmental procedure, boasts an enrollment of 128, representing 70 different Idaho high schools.

At the Summer Music Camp, more than 50 high school students will study for three weeks, and 16 high school students are enrolled for the Summer Drama Workshop.

Kendrick Defeats Troy

Last Sunday saw a story-book finish to a ball game, when Kendrick defeated Troy 5 to 4.

The game was not decided until the last out of the ninth inning. Troy, trailing 5-4, came to bat in the last of the 9th, and loaded the bases — with none out. The next batter popped out to the pitcher and the next two went down via the strike-out route to end the game.

Beebe for Troy struck out 13, and Ozzie Kanikkeberg, for Kendrick, whiffed 17.

Batteries for Troy were Beebe and Powell. For Kendrick O. Kanikkeberg and Millard.

Entertains At Picnic

Mrs. H. C. Schupfer entertained for her daughters Beverly and Marilyn at a picnic dinner at their home Monday evening of this week. Invited guests were Bob and Eugene Lind, Gay and Lois Deobald, Dick Coulter, Danny Crocker, Charles Deobald, Bob Watts, Dorothy Kruger, Chloe McKeever, Patty McCreary, Nellie Fry, Maribel Schupfer and Mr. and Mrs. W. A. Watts.

Following dinner the evening was spent in music and games.

Roller Skating Party

Last Wednesday evening Mrs. Bob Magnuson, choir director, assisted by Mrs. Ross Armitage and Mrs. E. M. White took the choir and some of their friends to Lewiston, where they enjoyed a roller skating party. There were 15 children present.

Mr. Magnuson took his children, Dee and Dana to the dance revue the forepart of the evening and joined the group later, in time to witness some fancy skating!

Attend Grand Chapter

Mrs. Nell Crocker, Worthy Matron Canyon Chapter No. 67, O. E. S., left Monday for Coeur d'Alene, where she will attend Grand Chapter as official representative.

On Tuesday Mrs. Johanna Nelson, Janice Jones, Crystal Gruell, Elsie Onstott, Ella Benschoter and Anna Long left to attend the meeting. All returned home Wednesday evening.

Bill Davidson Married

William Thomas Davidson and Miss Marian Alma Sherman were united in marriage Tuesday at the Episcopal church in Moscow.

Wm. Davidson will be remembered here as "Bill" Davidson, son of Mr. and Mrs. George Davidson, old-time residents of American ridge.

Farewell Party

Mr. and Mrs. Bruce Ebert were pleasantly surprised Tuesday evening at a farewell supper in the Howard Hoffman home. Other present were Mr. and Mrs. Elmo Eldridge and children and Mr. and Mrs. Wm. Johnson and children.

A gift was presented the Eberts from the group at the close of the evening.

Undergoes Appendectomy

Betty Parks, daughter of Mr. and Mrs. Harold Parks, underwent an emergency appendicitis operation at St. Joseph's hospital in Lewiston Tuesday evening. She is said to be improving nicely.

Name Omitted

In mentioning the names of those who had worked on the P-T. A. strawberry picking and preparing bee last week, the name of Mrs. John Darby was unintentionally omitted. We apologize.

New Arrival

Mr. and Mrs. Bud Fey are the happy parents of a baby boy, born Monday, June 13, at the Davidson Nursing Home, Kendrick.

FORESTRY SERVICE HAS ITS LOOKOUTS MANNED

Forest fire lookouts for the 1948 fire season are now assigned to their posts in the northern region as higher temperatures and drying vegetation raises the fire risk, the Forestry Service reports. Many other regions had already manned their part of the 3,200 lookout towers on the 152 national forests, especially in the south where the winter fire season required earlier assignment. Manning of fire lookout towers in the northern region is governed by the burning index as determined by fuel moisture, relative humidity, wind velocity and other factors. This system enables more economical operation since the lookouts are placed according to actual needs rather than on an arbitrary set date.

The lookouts are part of the army of about 7,000 temporary seasonal employees, which at the beginning of each fire season each year are added to the 1,200 permanent Forestry Service employees who are available for fire suppression. Aside from the lookout, the other temporary employees, when not on fire duty, work as forest guards or patrols, airplane fire spotters, mechanics and laborers. Whether in deep-woods camps, ranger or other stations they are subject to call for fire duty at any time of the day or night.

In its ceaseless job of protecting national forest timber, the lookouts are "the eyes of the Forest Service." Keen eyesight is one of their most essential qualifications. Having a high level of eyesight among the lookouts means that fewer lookout stations are required as well as greater success in "spotting" the little "smokes" given off by fires while they are still small, which spells great savings usually in numbers of men, machines and dollars required to put them out.

Failure of a lookout to spot a smoke until it grows to sizeable proportions might mean the difference in cost between being able to catch a blaze with four or five smoke-jumpers parachuted from a forest service plane and being forced to transport hundreds of ground fighters to the scene, setting up fire camp and hauling large amounts of supplies over mountain roads and trails. Forest Service men figure the average cost of putting out a forest fire to be about \$380.00, but a big fire may cost thousands of dollars to suppress, to say nothing of

far greater losses in timber, young trees, recreational and watershed values, wildlife and forest improvements.

Because of the importance of good vision in the fire towers, the Forest Service has developed a special eyesight test for would-be lookouts. The ordinary letter charts which an optometrist uses to test vision will not serve here. The lookout test chart is a white seven-inch square plate that can be whirled on a center pin at the back. Center on the white, front service is marked by a 1/2-inch black dot. Half way between the center and one corner is another black dot 1-16th of an inch in diameter. The person taking the test backs away from the board until the smaller spot can just be seen. The test board is then whirled and he is asked to locate the spot when the board stops, up, down, right or left of center. If he can, he steps back a few more feet and tries again. This is repeated until he has reached the maximum distance at which he can locate the tiny dot after the board has been whirled.

It has been found that this maximum distance accurately indicates the number of miles away at which the person can locate small smokes from a lookout tower, allowing of course for haze. For example, a man with exceptional eyesight can locate the dot at 64 feet or more and locate small smokes at 11 or more miles.

In a recent group test of eyesight quality, it was found that a number of regular Forest Service men had an average eye-test rating of 57 feet, a group of college students 54.3 and a company of soldiers 50.9. Depending on the character of the land, availability of suitable peaks and lookout points and similar factors, national forest lookouts are 12 to 24 miles apart, each with a lookout radius of 6 to 12 miles.

Forest service lookouts must also be pretty sturdy individuals. In times of high fire danger they must be capable of standing watch in their lonely towers for hours at a time. They must be immune to loneliness, for in many cases about the only person they see is the fellow who brings in their supplies every two weeks. If a fire breaks out near the tower, they are expected to grab their tools and run down and put it out. They must chop their own wood, haul their own water, sometimes a mile or more, and do their own cooking. And in periods of low fire danger they keep the lookout station clean and in order, repair telephone lines when necessary, and work on roads and trails. In between times, they must make reports to their boss, the forest ranger.

Fresh and cured meats, fresh frozen Bird's Eye foods and other items at Blewett's Grocery. 1-adv

Can Still Control Flies

U. of I., Moscow — Idahoans who already have enjoyed three pleasant summers in flyless towns or on flyless farms, can look forward to many more. They are advised by Dr. E. C. Manis, entomologist at the U. of I. agricultural experiment station, not to take too seriously recent news reports that flies were developing an immunity to DDT, the war-born insecticide which Idaho put to work so effectively to become the first state to achieve a state-wide victory over the pests.

"There is no reason whatever why we should lose any of the ground we have gained in our fly campaign in Idaho," Dr. Manis emphasized. "Some strains of flies may survive DDT sprays, but there are other insecticides already available that will get them and new ones are constantly being developed. We're certainly not going back to swatting flies."

The university agricultural experiment station recently secured some flies which had survived DDT sprays at extremely heavy dosages, up to 40 pounds of DDT wettable powder to 100 gallons of water. "Tests with these flies revealed," Dr. Manis explained, "that the toughest were only about 65 percent resistant. Apparently no strain is totally resistant."

Greatest hope for continued control over flies, Dr. Manis feels, lies

in the fact that though some strains may show pronounced resistance to DDT they fall easily before chlor-dane or benzene hexachloride. These can be used alone on flies or in combination with DDT.

However, this year, custom sprayers in Idaho will stick to DDT in the 1949 fly control campaign.

Oil Fields In Detroit

Replying to a question about the new Kettering automobile engine, which requires less gasoline, at a recent press conference in Detroit, C. E. Wilson, president of General Motors, made a point of the widespread industrial cooperation necessary to get the best returns from a new development of that sort.

"We have the problem of keeping in step with the petroleum industry, on a thing of this kind, Mr. Wilson explained. "We are going to produce the Kettering engines. We have

already made a number of them and have run them on our proving ground. It is a question now as to when the higher octane fuels will be available, broadly, throughout the nation. We can't tell exactly when that will be, but I don't think it will be too long, in the ordinary terms of motor car improvement; within two or three years, anyway, and maybe sooner.

"We think it is a very worthwhile thing, because if we can get the same amount of power from fewer gallons of gasoline, it is like discovering new oil fields. It is a part of the conservation of national resources. We are going to push it along, one way or another."

Fresh frozen fruits, berries, juices, vegetables, fish and poultry are obtainable at Blewett's Grocery-Market. Remember: "For a Better Buy, Buy Bird's Eye." 1-adv.

CHEVROLET

BUILDER OF THE NATION'S GREATEST TRUCK VALUE

There's a Chevrolet truck for every delivery or hauling job—with capacities from 4,000 lbs. to 16,000 lbs. Gross Vehicle Weight.

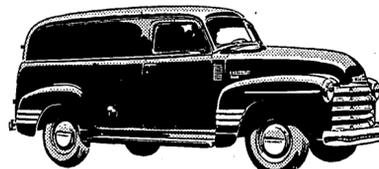

If what you want is the truck that will deliver the most for the money—then what you want is a Chevrolet truck. If what you want is sterling quality, outstanding load capacity and performance with power plus economy—then you're dead right in choosing a Chevrolet truck. And if you want all these advantages at lowest cost, you definitely want Chevrolet, for only Chevrolet trucks have 3-WAY THRIFT—lower cost operation and upkeep and the lowest list prices in the entire truck field!

Mosaic Proves Destructive

Disease to Cabbage Plants

Nearly all the cabbage seed grown in the United States before World War II came from a single county, Skagit, in Washington, where the climate is favorable and farmers have picked up the "know how." Doubtless, much of it will continue to come from there—but it seemed doubtful for a time, because of the increase in cabbage plant diseases. Cooperative research showed that mosaic was one of the most destructive diseases. The workers were able to discover a vicious circle in the system of cabbage seed production—and to show how to break it. There was an overlapping of the old and new crops that favored just the kind of multiplication or spread of mosaic that had happened. The cabbage mosaic is carried from diseased to healthy plants by plant lice. Cabbage seed crops are managed in this way: The large seed companies contract with farmers to grow the crop. The companies furnish the plants for transplanting. To supply these plants, the companies sow their seed in beds in June and July. Transplanting begins in August. Cabbage plants must have time to develop well but not to form a head before winter. If cabbage is started too late, it may not "bolt"—send up a seed stalk—the following season. Plants overwinter in the fields and seed is ready for harvest in July and August. Thus, there is an overlap of from one to three months in the old and new crops. This gave the aphids opportunity to move from the diseased old plants to the seedlings in beds nearby—carrying the mosaic with them.

Central Part of England Is

Agricultural and Industrial

The English Midlands, hard hit by devastating floods that followed record winter snows, are a blend of rural and factory life, of stone cottages with old-fashioned gardens, and smoking industrial towns whose specialty products long ago started on world rounds, from India to Argentina.

In the heart of the "tight little isle," the Midlands area includes a lowland triangle marked by the freshet-swollen streams of the Thames in the south, the Severn in the west and the Trent in the north, notes National Geographic society.

To the east, it merges with the flat, marshy fenland country, where large-scale reclamation work was accomplished during the war to help fill out the meager national diet.

Normally, the network of rivers and canals cutting across England's densely populated central regions offers valuable navigation routes and scenic background for its many villages, county boroughs and cities.

Beyond the long lines of row houses in big and little industrial centers, stretch broad grainfields, garden patches and pastures on which sheep and cattle graze.

Plant Infection

Virus ailments in plants have much the same range of seriousness that virus diseases do in humans, from deadly to merely damaging, from the dreaded polio to the common cold, says the department of agriculture. There are two relatively mild virus diseases, of carnations—mosaic and streak. Neither kills the plant, but each reduces the yield and quality of the flowers. Aphids spread the mosaic virus, and since aphids are not a serious pest of carnations, sanitation in carnation houses does not usually provide much protection from aphids. The result is that nearly all carnation stocks pick up the virus. It is as common as the common cold. The carrier of streak disease has not been identified, but it seems to be an insect more common outside than inside the greenhouse.

War Catastrophe

Among the tragic casualties of war are books and libraries. Such destruction in World War II "probably exceeds by many times the destruction of all previous wars and catastrophes put together," reports the Harvard Alumni bulletin.

A survey shows these losses: Poland: Estimated 70 per cent of all libraries destroyed or looted.

Russia: Fifty-five million volumes destroyed in the Ukraine alone. Czechoslovakia: Half the libraries and archives gutted.

England: Some 30 great libraries severely hit.

China: Ninety-one out of 108 colleges occupied bombed out or seriously damaged. The monks of the Abbey Van Verne in Holland hid their rarest volumes in farmhouses.

Cooking Quick-Frozen Foods

State experiment stations report that while frozen vegetables can be cooked in the saucepan, it is impractical in some cases. For instance, frozen peas may be cooked in the usual way in less time than it takes to bring the pressure up in a pressure pan. On the other hand . . . frozen vegetables like lima beans can be cooked in the pressure pan in only one and a half to two and a half minutes, when they take 16 to 22 minutes without pressure. It's just a case of finding out what vegetables will cook fast enough to compensate for the extra care and attention necessary in using a sauce pan.

STONY POINT NEWS

Mrs. Elsie Michel remains in a very critical condition at St. Joseph's hospital in Lewiston. Her son, Lloyd Stevens and family of Los Angeles, arrived late Friday night to be near her.

Albert Heimgartner purchased a new Chrysler this week.

Norma Heath is teaching Primary along with Carlene McKay of Myrtle in the Bible School which opened Monday at the Cottonwood Creek church. Children from our community who enrolled Monday with Jimmie Hoisington, Don Hoisington and Glenda Stevens.

The Cletis Hoisington family visited Sunday at the Walter Zimmerman home on Texas ridge.

Mr. and Mrs. Billy Steigers and David left for Seattle Saturday. They plan to visit Mr. and Mrs. Loren Ratliff and family; Mr. and Mrs. Henry Steigers, and other relatives and friends near Tacoma and Portland. They expect to return home Sunday, the 19th.

Robert Bateman of Moscow, a brother of Mrs. Lloyd Brown, is visiting this week in the Brown home.

Urge Industrial Dental Care To Reduce Absenteeism Rate

Expansion of industrial dental health programs as a means of reducing worker absenteeism is urged by the Journal of the American Dental Association. According to a new study of Tennessee war plants published in the Journal, dental diseases were an important cause of industrial absenteeism during wartime.

Drs. Ruth R. Puffer and Carl L. Sebelius of the Tennessee department of public health reported that four Tennessee factories with 5,988 employees lost 1,255 employee-days in the year 1944-45 as a result of dental diseases. The annual absence rate due to diseases of the teeth and gums was 47.3 per 1,000 workers, Drs. Puffer and Sebelius said.

Women, they reported, had an absence rate of 64.5 per 1,000, almost twice that of the rate of 33 per 1,000 for men. The absence rate for Negro workers was recorded at 84 per 1,000. The average absence directly traced to dental diseases was for 4.4 days. Drs. Puffer and Sebelius declared that dental diseases may also have been the direct or indirect cause of other illnesses which caused absences and, in many cases, directly interfered with worker efficiency on the job.

MORE ABOUT SEWER SYSTEM

The estimated cost for a sewage treatment plant to complete Stage 2 would be as follows:

Installation of Comminutor, Primary Settling Tank, Aerator-Clarifier, Sludge Digestion Tank, Sludge Drying Beds and Pumping Equipment, complete\$50,000.00
Engineer costs\$ 3,500.00
Total estimated cost of entire project\$73,470.00

Summary of Recommendations: We recommend as Stage One of a construction program, that you extend the main sewer to the southwest city limits and there construct a pump station to pump the raw sewage into Potlatch River, and at Third Street that you construct a by-pass line to carry storm run-off directly to the Potlatch River.

We recommend that as Stage Two of your construction program you plan to build a combination Aerator-Clarifier Activated Sludge treatment plant.

We further strongly urge that all money spent in your sewer and sewage improvements be directed toward the ultimate complete treatment set-up.

Respectfully submitted — G. A. Riedesel & Associates.
Our Note: Attached were maps and diagrams which we do not reproduce.

GOLDEN RULE

Mrs. Verla Chairest is spending her spare time papering, painting and cleaning up her house on the Frank Thornton place, where she plans to live this coming winter.

Mrs. Oscar Laurence, Evelyn, Caroline and Grandma Laurence visited Mrs. Glen Betts, Wednesday afternoon.

Mr. and Mrs. Ben Reinhardt spent Sunday night with her parents, Mr. and Mrs. Needham, near Arrow.

Mr. and Mrs. Bruce Tarbet and family, Mr. and Mrs. Ishmael Martin of Lewiston, and Stanley Martin of Headquarters were Sunday visitors at the Roy Martin home.

The Oscar Laurence family were Lewiston visitors Tuesday.

Mr. and Mrs. Don Christensen and daughter spent Saturday night and Sunday at their home here.

The Carl Finke family, Jack Kelsey and Mr. and Mrs. George Wilken of Cameron were Sunday visitors at the Glen Betts home.

Mrs. Roy Martin and Mrs. Bruce Tarbet and children called on Mrs. George Wells Sunday afternoon.

Card Of Thanks

Our sincerest thanks to everyone for their kindness and help in our time of need. — The Benjamin Family.

Pardon, Your Slip Is Showing

Child Health Clinic

A Child Health Clinic and Pre-School Roundup will be held at the Jullaetta Methodist church basement Friday afternoon, June 17, beginning at 1:30 p. m.

All parents of children who will be entering school for the first time this fall are urged to bring them — this includes the entire school district.

Dr. Max McQueen will be in charge.

Fresh frozen fruits, berries, juices, vegetables, fish and poultry are obtainable at Blewett's Grocery-Market. Remember: "For a Better Buy, Buy Bird's Eye." 1-adv.

NOTICE OF SPECIAL SCHOOL MEETING AND ELECTION

In Kendrick Joint School District No. 283, Latah County, Idaho

NOTICE IS HEREBY GIVEN, That a special meeting and election of the qualified voters of the above named School District will be held on the 24th day of June, 1949, at 2:00 o'clock p. m., at the Kendrick school house in said district, at which meeting it shall be determined by a majority vote of the qualified voters present and voting:

- Whether the Board of Trustees of said District shall be authorized to make a levy in some amount not exceeding nine (9) mills, in addition to and above the levy which, as provided by law, the Board of Trustees may make without such election or authorization.
- Whether the Board of Trustees of said District shall be authorized to make a levy not to exceed one (1) mill, for the purpose of purchasing, equipping and/or maintaining playgrounds and gymnasiums.

FURTHER NOTICE IS GIVEN, That:

- The assessed valuation of said District for the preceding year was \$1,928,397.00.
- The amount of money which the Board of Trustees has estimated to be necessary to operate the schools of the District for the ensuing fiscal school year is \$95,485.61.
- The levy which the Board of Trustees may make without election will raise approximately \$21,212.37.
- State and County Apportionments for the next fiscal year are estimated at \$46,662.46.
- Miscellaneous receipts for the next fiscal year are estimated at \$200.00.
- The levies for which authorization is being asked, and which will raise approximately \$23,140.76 are:
For Current Expense 12 Mills.
For Playground and Gymnasium 1 mill.

That the qualifications of voters entitled to vote at such meeting or election are:

- Electors of the State of Idaho.
- Residents of the District at the time of election.

In addition thereto said voters must possess one of the two following qualifications:

- Parents or guardians of a child or children when such child or children are under twenty-one (21) years of age, and when such child or children and parents or guardians thereof are residents of the district at the time of election; or
- A person who pays taxes within the district, and the husband or wife of such taxpayer, in case the taxpayer is married. A payer of poll tax is not a taxpayer.

That the election will be by secret and separate ballot.

Dated this 13th day of June, 1949.
A. O. KANIKKBERG,
Clerk of School District No. 283, of Latah County, Idaho. 24-1

Watermelon Seed

For the best methods of saving and preparing watermelon seed, select the largest melons in your patch, mark them and let them ripen thoroughly for seed. When the melon is cut, separate the seed, wash and spread them out to dry in the air for a few hours. Then place the seed in a cloth sack. This same procedure may be followed with cantaloupes, squash, cucumbers, pumpkins and cushaws. If you plant melons on a large scale, here's another method to follow in saving seed. Remove the flesh from the largest melons that have been saved and place in a barrel. Then fill the barrel with water. In from 48 to 72 hours, the flesh will go through a semi-souring process and come to the surface of the water. The meat may then be skimmed from the top and the seed removed from the bottom of the barrel, washed, dried and stored in cloth bags.

Cantaloupe Nutritious

Tests at the Arizona experiment station show that cantaloupes are so rich in vitamins A and C that one serving of the usual size furnishes more than the day's requirements for both vitamins. Not only are cantaloupes naturally rich in vitamin C; they also hold this vitamin well, even after they are cut and prepared for serving. This makes them an exception to the general rule that the less acid a fruit contains, the more easily it loses C. Cantaloupes are low in acidity compared to many fruits, yet their vitamin C is relatively stable. Tests at the New Mexico station showed that cut slices of cantaloupe kept in the refrigerator 2 to 4 hours lost none of their C; those kept 18 to 21 hours lost only 13 per cent. The Arizona station found that small if any loss of C occurred during the time cantaloupe is generally held after cutting.

Bad Posture

Poor posture reduces the circulation locally and generally, perhaps serving a temporarily useful purpose during relaxation but, if continued, diminishing the metabolism and efficiency of the cells and tissues, inducing sluggishness and drowsiness, authorities say. Breathing is shallow, with reduced oxygen available for the tissues. The abdominal organs sag and perform poorly, often with discomfort, resulting in constipation and headache. The physical and mental attitude is one of depression and sluggishness. Backache, leg and foot pain and fatigue are frequent symptoms of bad posture, and consequently stooping, heavy work and participation in sports are frequently avoided. Lastly, clothes fit poorly when the posture is bad, and the general appearance of the individual is distasteful to others.

Little Arab Village Grows Into Big Near-East Port

From an Arab village, the big Palestinian port of Haifa has turned into a metropolis of wide streets and public buildings, of banks, schools, restaurants and recreation centers. Its modernistic department stores and apartment houses—with their sweeping curves, glassed-in fronts, and severe straight lines—are typical of new architectural forms around the world.

In normal times the people of Haifa go briskly about their business at the docks, in the oil refineries and cement mills, the machine shops, cigarette factories, metal works and power plants. A pipe line more than 600 miles long brings petroleum from Iraq oil fields. Tankers are fed at the oil-jetty terminus, or by undersea hose that carries the vital fluid from the beach to ships anchored offshore.

Haifa's artificial harbor was created between 1929 and 1933 by dredging and by construction of huge stone breakwaters. Railways and highways link this eastern Mediterranean port with Egypt, Turkey and other Near East states. Airfields and seaplane landings are available.

Potlatch Chief Sez

PUBLISHED BY THE KENDRICK CO-OPERATIVE CREAMERY

HELLO, THERE FOLKS:

About That Cream:

Frankly, we want a lot more cream than we are now receiving — for more hours of work won't hurt our pasteurizer or churn a bit, and we want to talk over with you the marketing of your cream. You see, by selling to us you not only get the full market price, but through the co-operative plan you receive dividends as well. If you are not now selling to us, how about coming in and talking it over with our manager, Ned Van Campen. It won't take but a few minutes to explain — and will mean more money to you for your dairy items.

Love a Long, Tall Drink?

If you do, we can heartily recommend Potlatch Chief brand Buttermilk. It's just the thing for that "after work snort," and won't leave you with a fuzzy taste in your mouth or a head-

ache the next morning. You'll also find that it's mighty good with a Dutch lunch or other summer meals. Take home a quart, half gallon or gallon when you go.

Ice Cream For Picnics:

Our ice cream department is ready to serve you with ready-packed ice cream for that picnic, or for any other occasion you may care to name. We will loan you an insulated sack, which will keep it in tip-top condition for some time.

The teacher asked Johnny to tell her what a hypocrite was. Replied Johnny: "It's a boy who comes to school with a smile on his face."

It is only the tree that can't bend to the storm that gets broken. Life is a game of give as well as take.

Sell us your cream!

WHAT CAMERON FOLKS ARE DOING THESE DAYS

Mr. and Mrs. Herman Meyer and daughter Dorothy were visitors in Lewiston and at the home of Mr. and Mrs. Ernest Schmidt in the Lewiston Orchards, Monday.

Mr. and Mrs. Herman Silflow spent Sunday afternoon with Mr. and Mrs. Dan Sullivan and baby at Lenore.

Mr. and Mrs. Henry Wendt, Mr. and Mrs. John Blankenship and family and Mr. and Mrs. Gus Kruger and daughters were Sunday dinner guests of Mr. and Mrs. Fred Silflow in Kendrick.

Mr. and Mrs. Ted Weyen and Mr. and Mrs. Billy Weyen fished at Lake Chatcolet Thursday and Friday.

Mr. and Mrs. Herman Silflow, Mrs. Theo Meske and children and Mrs. Henry Wendt picnicked on Cedar creek, Thursday.

Mrs. Glen Wegner and children spent Sunday with her parents, Mr. and Mrs. C. H. Fry and family at Kendrick.

Mrs. Ida Stoneburner was a guest of Mr. and Mrs. G. F. Criddlebaugh in Lewiston the first of the week.

Mr. and Mrs. Earl Whiting spent Sunday with Mr. and Mrs. Ray Whiting and family in the Lewiston Orchards.

George Wilken and Otto Rauschke spent a few days of last week fishing at lake Pend O'Reille. They brought back a nice supply of blue backs.

Mr. and Mrs. Gus Kruger and Mr. and Mrs. Leonard Wolff fished at Elk River Basin Thursday. They reported good luck.

Mr. and Mrs. Fred Newman and Helen Mielke picnicked and fished in the Bovill country, Sunday.

Mrs. Aug. Wegner, Mrs. Theo Meske, Mrs. Glen Wegner, Mrs. Homer Parks and Mrs. Geo. Havens attended the Lutheran Women's Missionary Conference at Baker, Oregon, Tuesday and Wednesday.

Mrs. Geo. Wilken and Mrs. John Blankenship visited with Mrs. Reinhard Wilken Saturday afternoon. Mrs. Reinhard Wilken is convalescing from a recent operation.

Mr. and Mrs. Geo. Wilken and family were Sunday guests of Mr. and Mrs. Glen Betts at Southwick.

Mr. and Mrs. Gus Kruger spent Monday evening with Mr. and Mrs. Reinhard Wilken.

Mr. and Mrs. Elmer Lohman and family spent Monday in Lewiston.

SOUTHWICK NEWS

Mr. and Mrs. Ralph Wright of Lewiston were Sunday visitors in the Gordon Harris home.

Pvt. Verlin Benjamin arrived home Friday for a 15-day furlough. He was called home by the serious injuries suffered by his father, Milton Benjamin in a car wreck Wednesday morning of last week. Last report from the bedside of Mr. Benjamin in St. Joseph's hospital, Lewiston, is that he is showing marked improvement, but is still in a serious condition.

Jerry Harris accompanied Bruce May to Walla Walla, Monday.

Mr. and Mrs. Lenard of Boise were recent visitors in the Howard Southwick home.

Mr. and Mrs. Walt Evenden and daughter of St. Cloud, Fla., are here visiting in the John Jennings home and will soon make their home in the Charley Hayward house, now belonging to Milton Benjamin.

Mr. and Mrs. Clarence Henderson of Lewiston and Wm. Henderson were Sunday visitors in the Elton McCoy home.

Mr. and Mrs. Gene Southwick and children of Lewiston and Betty Colwell were Sunday dinner guests of Mr. and Mrs. Given Mustoe.

Mrs. Tommy King and Mrs. Aaron Wells were Lewiston visitors on Friday.

Mr. and Mrs. Given Mustoe and Jack Wilbur Colwell and daughter Betty and Arlie Armitage spent several days fishing in the Pierce area, last week.

Mr. and Mrs. Tom Armitage and Arlie, Mr. and Mrs. Rollin Armitage and children and Mr. and Mrs. Mick Armitage of Orofino drove to Welpe to spend Sunday with Mr. and Mrs. Jay Armitage and family.

Mrs. Anne Longeteig and son John and Mrs. Longeteig's two sisters from Clarkston, and John and Thor Meland spent Sunday at Russell Ridge — where they had once been residents.

Mr. and Mrs. Lyle Goffinett and children of Orofino were over-night guests in the Abner Cowger home Sunday night. Mr. and Mrs. R. R. Wright and Mrs. Millie Harris were afternoon callers.

Clay King, Darwin Tarry, Tommy King, Kenneth Murray, Ed. Deobald and Manning Onstott enjoyed a fishing trip over the week-end. They reported their luck as "fair."

Mr. and Mrs. Irvin Fry and son, Eldon and Verlin and Ronald Benjamin spent Sunday in Lewiston visiting their father, Milton Benjamin, at St. Joseph's hospital, and with Mrs. Benjamin, who is remaining in Lewiston to help care for him.

Billy Cowger accompanied Mr. and Mrs. "Red" Hadden of Orofino and Mr. and Mrs. Andy Goen and son of Mohler on a vacation trip through Yellowstone National park.

LINDEN ITEMS

Mrs. Chilberg spent Thursday with Mrs. Lettie Israel.

The W. M. A. met at the home of Mrs. Mattie Allen, with Pearl Alexander, Eva Grim, Alice Zimmerman, Maxine Foster, Ellen Rowden, Ida Lyons and Gertrude Pederson present.

Mrs. Charles Keeler came home from Lewiston on Friday evening, and we are happy to report that she is feeling much better.

Mr. and Mrs. Cleon McAllister and children were visitors at the Pederson home Friday evening.

Mr. and Mrs. Arley Allen were Lewiston and Clarkston visitors on Wednesday. They were supper guests in the Edgar Bohn home in Clarkston.

Those attending the Children's Day exercises at Teakson on Sunday were Mr. and Mrs. Frank Lyons, Raymond Whybark, Mr. and Mrs. Cleon McAllister and children and Mr. and Mrs. Al Pederson and family. A very good time was reported by all. On the trip home the McAllisters and Pedersons stopped at the Israel home for a short visit. Mr. and Mrs. Stewart Wilson and Wilma were also visitors at the Israel home.

Visitors at the Bill Zimmerman home on Sunday were Mr. and Mrs. Charley Zimmerman and children, Mr. and Mrs. Bill Cuddy and son, Elmer Cuddy, and Mr. and Mrs. Swenson of Lewiston, the latter Mrs. Zimmerman's parents, who will stay until Tuesday.

Kenneth Pederson of Colfax was home over the week-end.

A Rain Would Help

A really good rain would help all crops and pastures, not to mention gardens, at this time, for the warm weather, plus several days of warm wind a-top the hills, has extracted a good deal of the surface moisture. Rain would help in filling out the heads on the fall sown wheat, as well as growth of spring grain — and be a definite boost to gardens.

To Present Musical

A Musical will be presented by the pupils of Mrs. Foster McFadden at the Cream Ridge United Brethren church on Sunday, June 19, at 3:00 p. m. A few outside numbers will also be given.

Fresh and cured meats, fresh frozen Bird's Eye foods and other items at Blewett's Grocery. 1-adv
