GRAIN MARKETS REMAIN IN UNSETTLED CONDITION

Grain markets continued unsettled during the past week, according to reports to the Market News Service of the U.S. D. A. A drop of around ture. Plentiful supplies with some slackening in demand were princi-Judging of the displays Saturday pally responsible for the decline. evening was done by Mr. and Mrs. Oats weakened with corn but bar-Oats weakened with corn but bar-The University of Idaho — the coter for gladoli, and honorable per ton for the week, reflecting the mention to Mrs. Marvin Long, zen- embargo conditions and increased most markets as receipts recreased. Cash prices, however, remained well below the loan basis, particularly in the central west and provided an incentive for some improvement in demand.

> The winter wheat harvest was nearing completion at the close of the week and the spring wheat harvest, favored by dry weather, was well along. Yields of both winter and the school house in Kendrick. This spring wheat have not been up to 1 estimated of 1,132,000,000 bushels was about 57,000,000 below the July there will be an organization meet- 1 forecast and 157,000,000 bushels ing of the High School teachers at below the 1948 harvest. The drop in winter wheat amounted to about 37,000,000 bushels and in spring wheat to about 20,000,000. On the basis of the Aug. 1 forecast, do-mestic supplies of wheat for the 1949-50 season will total 1,425,000,000 bushels. Deducting requirements for feed, seed and industrial use would leave a little over 1,200,000,000 bushels for milling, export or carry-over. Millings during July totaled 46,500,-000 bushels and exports of grain Friday morning, amounted to 25,500,000, making a total distribution of 72,000,000 bushels compared with nearly 90,000,000 during July, 1948. About 1,130,000,-000 bushels remained for commercial distribution or carry-over at the first of August, compared with 1,175,000, 000 a year ago.

Marketings of wheat decreased further and receipts at primary markets dropped to less than 17,000,000 bushels. Elevator space was becom-1.50 was being considered by officials at ... School House Hill Patched

The oiled surface of the school house hill received a considerable quantity of patches Monday afternoon in preparation for the heavy traffic it will receive with the beginning of school.

The roadway should have been scarified and completely re-laid, but in the absence of anyone to do this work, patching was resorted to. Anyway, it's a big improvement over its former rough surface.
