VOLUME 60

KENDRICK, LATAH COUNTY, IDAHO, THURSDAY, MAY 18, 1950

NO. 20

SHORT NEWS ITEMS FROM OUR LOCAL SCHOOLHOUSE

Play Thoroughly Enjoyed

The all-school play, "Miss Jimmy," a farce in three acts, presented at the High School gym, last Thursday evening, was thoroughly enjoyed by a large crowd. Those taking part were:

Louise, a sophomore at Brier Mountain College for Women — Pat Brocke
Florence, her roommate — Pat Long
Catherine, a junior living across the hall — Hermina Meyer
Doris, her freshman roommate — Judy White

Harriet, a senior who lives next door — Marlene Wilken
Droopy, the colored man of all work — Burt Souders
Miss Watkins, dean of Brier Mountain College for Women — Mildred Brammer

Jimmy, a stray junior from the State University — Dave Grim
Prof. Frazier, Rhodes scholar and instructor in English — Don Millard.

The play was humorous, the players took their parts exceptionally well, and we believe that they, together with their instructor, Mrs. Fern Lindquist, are to be heartily congratulated.

Between-the-acts entertainment was furnished by the Leland school tap dancing class under the direction of Mrs. Elmer Peters, and the girls drew round after round of applause for their fine performance. Especially enjoyed was their rope-skipping tap dance number — an encore being required.

Assembly Program

Monday afternoon the Genesee High School music students presented an assembly program here that we consider one of the finest yet given — including professionals.

The mixed quartet, composed of Ann Luedke, soprano; Joyce Danielson, alto; Rex Elkum, tenor and John Elkum, bass, accompanied by Shirley Danielson, and under the direction of Mona Rosenau, favored us with:

Are Verum Mozart
Send Forth Thy Spirit Schuetzky
Dry Bones arr. Watson
The Goslings Bridge
The Farmers Daughters Williams
Shirley Danielson then gave as a piano solo the "Sabre Dance" by Khaachaturian.

This was followed by:
Memories VanAlstyne
Smiles Roberts
In My Merry Oldsmobile Edwards
The Parade of the Teddy Bears Bratton
Skip To My Lou arr. Bell
We sincerely appreciate this fine program.

Baccalaureate Services

Baccalaureate Services for the Class of 1950, Kendrick High school, will be held Sunday evening, May 21, at 8:00 o'clock, in the Kendrick Community church, Dr. J. H. Coulter will officiate at the service, assisted by the Rev. John S. Brasch.

Commencement May 22

The Commencement Exercises for this year's graduating class will be held in the High School gymnasium on Monday evening, May 22, at 8:00 o'clock. The main speaker will be James V. Fowler, Director of Transportation, State of Idaho, Department of Education. Mr. Fowler has been the speaker here previously — and is returning this year.

Graduating this year are:
Patricia Faye Brocke, C. Gerald Chamberlain, Max E. Dammarell, Maxine J. Dammarell, Verna Mae Easterbrook, Donald Henry Eichner, Ted G. Fey, David A. Grim, Peggy Marie Hadley, Jack J. Hammond, Carl Stanley Hanks, Gerald Wayne Harris.

Joretta M. Holt, Evelyn Kazda, Jean Edith Lohman, Patricia Leanne Long, Hermina D. Meyer, Donald F. Millard, Betty JoAnne Parks, Luther D. Parks, Frankie Merle Peters, Armetha Bardeen Sams, Lee E. Walsh, Robert C. Ware.

Seventh Grade News

The Idaho History state examination was given last week. Those receiving a grade of 90 to 100 — equal to an A average, were: Kenneth Hanks, Lottie Wilson, Lolita Roberts, Dawn Marie Nelson, Ann White, George Jones, Alice Whitton, Frances Dammarell, Herman Hinrichs, Monty Clemenhaven, Ronald Lohman, Betty Goss, Yvonne Evenden, Norman Silflow, Eldon Glenn, Richard Lohman and Dick Mabbott.

The ten prospective seventh grade pupils of Southwick visited us last Thursday. In the afternoon we all attended the school play matinee.

High School News

Bob Ware, in company with Mr. Nutting, was a luncheon guest of the Lions Club in Moscow, Tuesday of last week. Each high school in the county was represented at the luncheon by one of the outstanding seniors and the superintendent of each high school. Each of the seniors attending received the annual Lions Scholarship to the University of Idaho for the coming year. We are happy for Bob and wish him much success next year.

Seniors Take Sneak

Last Saturday and Sunday the seniors took their annual senior trip. This year the group went to Spokane. They left Kendrick about 6:00 o'clock Saturday morning by chartered school bus, and arrived in that city about 9:30 a. m. The morning was spent in watching the Lilac Festival parade, which lasted about two and a half hours. The rest of the day was spent in attending shows and seeing points of interest.

(Continued On Page 2)

Road Work Going Forward

Steady progress is now being made toward the completion of the mile road link between Kendrick and Juliaetta, smoothing and graveling being the main items.

The new road is certainly getting a thorough "padding down," for logging and lumber trucks are making regular trips across it.

It can't be finished too soon to suit local residents, who all winter long plowed through mud, lost mufflers, tore holes in motor pans and smashed flywheel housings as they negotiated the stretch.

FINAL RITES FOR GUST LUCKEN ON MAY NINTH

Final rites for Gust Lucken, a resident of Kendrick for more than thirty years, were held at Bethany Lutheran Church on Big Bear ridge, Tuesday, May 9th, with the Rev. Lowell H. Swantz of Clarkston officiating.

"The Old Rugged Cross" and "Abide With Me" were sung by Mrs. D. A. Christensen and Mrs. Jud Lee, accompanied by Mrs. Oscar Slind. Interment was in the Lutheran cemetery, Big Bear ridge.

Gustav Lucken was born in Opdal, Norway, Mar. 16, 1889. At the age of 19 he came to America, coming direct to Spokane, Wash. He was later employed in the Kellogg and Wallace mines for 15 years.

In 1920 he, with his parents, moved to Kendrick, Idaho. They preceded him in death several years ago.

In 1926 he was united in marriage to Miss Margaret Gosset of Spokane. He had been employed around Kendrick in warehouse and road construction work until about a year ago.

During January he became seriously ill, and was confined to his home until his death on Wednesday, May 3rd, at the age of 64 years.

Mr. Luckens bore his suffering patiently, without ever complaining. He was well liked by all who knew him, and known for his honesty and quiet manner.

He had been a member of the Lutheran Church since childhood. Survivors are his wife, Margaret, at the family home, and three cousins living in Norway.

Shower

Mrs. Dick McCall was complimented at a pink and blue shower Monday evening at the home of Marilyn Schupfer, with Gwen Cook as joint hostess.

Games were played with Mrs. Walter Benscoter and Pat Brocke winning prizes. Following this the honor guest was presented many lovely gifts from the group. Dainty refreshments were served by the hostesses at the close of the evening.

Those present were Nellie Fry, Verna Easterbrook, Mrs. David Clayton, Pat Brocke, Pat Long, Priscilla and Jorene Benscoter, Mrs. Walter Benscoter, Mrs. Walter McCall, Mrs. Jack McCall, Mrs. Warny May, Jr., Mrs. Eugene Brocke, Mrs. George Brocke, Jr., Mrs. Ben Cook, Mrs. Herman Schupfer, and the hostesses, Marilyn Schupfer and Gwen Cook.

Undergoing Reorganization

Rumors have been flying thick and fast on the "grape vine" about town regarding the Kendrick Bean Growers, their "failure, etc."

Monday evening in conversation with one of the directors, the following statement was issued:

"At this time our warehouse and repair shop are equipped and inventory — our main office is doing business as usual for the handling of machinery, parts, tires, etc."

"Present plans do not call for our being 'taken over' by anybody. The firm has ample financial support — and as soon as the inventory and audit are complete, it will be 'business as usual'."

"We ask patience on the part of our customers until our re-organization can be completed."

Seems Like Spring Is Here

It seems as if spring may be here at last — for beginning last Thursday, we have had real spring, or perhaps you might say "early summer" weather. The skies have been almost cloudless, and the sun shining brightly, with Saturday being the warmest day to date, with a high of 86 degrees.

Trees are leafing rapidly, and lawns "growing like mad," with the clickity-clack of lawn mowers to be heard every evening.

Indications are that there will be no local peaches and apricots, and few if any cherries. Local berry bushes also suffered heavy winter damage, and even old, firmly established grape vines were killed.

To Spend Summer In Mexico

David Coulter has been accepted by the Board of Missions and the Board of Education of the Methodist church for a service project in Mexico this summer. A group of some 12 to 15 college young people, five of them from this Pacific Northwest Conference — spend six weeks working under ministerial leadership in a community some 200 miles from Mexico City. They will be doing whatever needs to be done in the way of Christian Community service. The group last year completed a playground which had been started previously.

Tapped For Mortar Board

U. of I. Moscow — Mortar Board, senior women's honorary, tapped 15 junior women for membership at the annual May Fete. Included in the list was Beverly Schupfer, daughter of Mr. and Mrs. Herman Schupfer, Kendrick.

PERSONALS AND NEWS ABOUT KENDRICK FRIENDS

Mr. and Mrs. Edgar Carlson and daughters of Genesee were Mother's Day dinner guests in the home of her parents, Mr. and Mrs. John Glenn.

Mr. and Mrs. Roy Long and children of Spokane and her father, H. E. Wright, of Moscow, were weekend guests in the home of Mr. and Mrs. Edgar Long.

Mr. and Mrs. Arthur Fraser and children of Lewiston arrived Saturday to spend several days with his parents, Mr. and Mrs. Everett Fraser. Mr. and Mrs. Russell Smith and daughters Betty Ann and Alice Faye of Lewiston were Sunday dinner guests of Mr. and Mrs. Don Miller.

Mr. and Mrs. I. G. Flaig and Mr. and Mrs. Bob Spencer of Coeur d'Alene spent Mother's Day here with their mother, Mrs. Estella Leith.

Mr. and Mrs. Richard Johnson and little daughter Pat of Lewiston spent the week-end here at the home of her parents, Mr. and Mrs. Lester Crocker.

Gwen Cook attended the formal dance at Christmas Hall, U. of I., Friday evening, and was an overnight guest of Lt. and Mrs. Rex Blewett. On Saturday she attended the May Fete with Mrs. Blewett.

Dr. J. H. Coulter was a business visitor in Lewiston Tuesday. He drove on to Moscow to have dinner with his son David and to attend the Bach concert at the university.

Mr. and Mrs. Roy Fairfield and family of Los Angeles, and Mr. and Mrs. Frank Stevens of Lewiston were guests in the home of Mr. and Mrs. Leonard Fairfield over the week-end, all leaving for their homes Monday.

Cpl. Bud Fairfield left Monday for Pittsburg, Calif., where he reports for overseas duty. His destination is not known, but presumed to be Japan.

Mrs. Addie Lowery and sons Kenneth and David, accompanied by Miss Florence, all of Pullman, were Sunday guests of Mr. and Mrs. Marvin Long.

Johnny Farrington of Cedar ridge spent Sunday with his grandparents, Mr. and Mrs. John Darby.

Edwin Coulter of Coulee Dam and David Coulter of Moscow spent the week-end with their father, Dr. J. H. Coulter. Dr. Coulter drove them to Moscow Sunday afternoon.

Mrs. Raymond Hudson has received word from her husband, that he is now "set" in the Pacific Timber Co. camp at Barge, Alaska.

Word has been received that Mr. and Mrs. Felix Holt are busy getting settled on their new ranch out of Lewiston, having disposed of their interests at Weiser. Mrs. Holt has been visiting relatives at Southwick the past few days.

John Samuels was visiting with friends and transacting business in Kendrick Monday afternoon. The Samuels are now at Bovill, where he is scaling timber at the mill. They hope to return to Kendrick later this summer.

Fred Magee, Genesee, was a Kendrick business visitor on Tuesday.

Louis Wright and Bob Taylor, the latter of Lewiston, spent Sunday at lake Pend Oreille, fishing. They report their luck as poor, the water being too high.

Sunday picnic guests of Mrs. Louis Wright and daughter Margaret were Mr. and Mrs. H. S. Wright and Mrs. Robert Taylor and daughters of Lewiston; Mrs. Louise Young of California; Mr. and Mrs. Charles Van Gorder and family of Bovill and Mr. and Mrs. Archie Furnish of Craigmont.

Walter McCall and Miss Jean Monahan of Coeur d'Alene were Sunday guests in the home of his parents, Mr. and Mrs. Walter McCall, Sr.

Mr. and Mrs. R. L. Blewett attended the wedding of her niece La Verne Carter, and Donald Herndon at the Christian church in Lewiston Sunday afternoon.

Mrs. W. B. Deobald and daughter Gay were home for the week-end. On Sunday morning they were joined for a brief visit by Mr. and Mrs. W. A. Deobald and daughter of Moscow. That afternoon Mrs. Deobald and Gay drove to Genesee to have dinner with Mr. and Mrs. Allan Sather and family.

Bob Watts was home from Coeur d'Alene Sunday to spend Mother's Day, also Mr. and Mrs. Joe Watts and daughters Janey and Linda, who spent the day with their parents, Mr. and Mrs. W. A. Watts and Mr. and Mrs. E. A. Deobald.

Mrs. H. C. Schupfer and daughters Marilyn and Beverly, accompanied by Mrs. John Johansen drove to Moscow Saturday to attend the May Fete at the U. of I.

Mr. and Mrs. Charley Candler were Monday evening supper guests in the home of her mother, Mrs. Tony Pirino, at Lewiston.

Mr. and Mrs. Aalbu of Seattle returned to their home Saturday, called here by the passing of Gust Lucken. Mrs. Aalbu and Mrs. Lucken are sisters.

Mr. and Mrs. Hiram Galloway spent Mother's Day in Clarkston at the home of their daughter, Mrs. Loyd Israel and family.

Mr. and Mrs. Don Johnson and children of Lenore spent Mother's Day here in the home of her parents, Mr. and Mrs. Clarence Fry.

Mr. and Mrs. Jud Lee, accompanied by Mrs. and Mrs. Dave Clayton, were Coulee Dam visitors Sunday.

Mr. and Mrs. Jacob Brandt took a picnic lunch to Bovill Sunday to spend the day, driving on from there to Elk River.

Mr. and Mrs. Kenneth Brocke and family and Mr. and Mrs. George Brocke and son Darrel drove to Spirit Lake Sunday on a fishing trip. The

(Continued On Page 2)

NINETEEN MEMBERS AND TWENTY-ONE GUESTS MEET

Nineteen Commercial Club members and their twenty-one guests, the Kendrick Tigers baseball team, yell-queens and Coach Armitage, sat down to dinner at the regular meeting of the Kendrick Commercial Club last Wednesday evening at the Kendrick Cafe.

Following the dinner guests were excused before the business session, which followed in the city hall. Three, however, elected to remain and attend a part of the business session.

Following the reading and approval of the Minutes of the previous meeting and allowance of bills, committee reports were called for.

On the Highway situation Tom Long reported that local roads were drying and becoming firmer, and road work was making fair progress between Kendrick and Juliaetta.

Reporting for the Sports Committee A. O. Kanikkeberg reported that E. A. Deobald, Walter Brocke, Ross Armitage and himself had met as a committee representing the town, school and Commercial club, and gone over the baseball diamond situation thoroughly. This project is to be built by the F. H. DeAtley Co. An 18-inch drain tile is to be installed to carry off surplus water, and this will be covered, to present an unbroken playing field. He added that the actual ground available will be larger than originally anticipated, and the diamond can be turned to give players the best light.

Mr. Kanikkeberg and Ross Armitage then led a discussion of night play. Six poles of four big lights each are now available for erection, but two more will be needed for real night play — and will undoubtedly be secured as soon as the field is ready for their erection.

George F. Brocke, reporting for the Agricultural committee, stated that crops in general came through the winter in fine shape, although some fall wheat fields were spotted, due to the working of wire worms.

Ben Cook, for the Education Committee, stated that a "desperate battle" was being waged "at the school house with 'spring fever' not only among the students but the instructors as well. However, he expected it to turn out in a victory for education. Mr. Cook added that school would be out May 24. Baccalaureate Services were May 21, with Dr. Coulter as speaker, and Commencement May 22, with James Fowler of the state department of education as speaker.

Gerald Ingle then took the floor, and with the aid of large charts, explained in detail the financing of our local school system, analyzing in detail levies, teachers' salaries, bus drivers' salaries, transportation expenses, class room units, etc., all of which proved of real interest to everyone present, especially as the levy election was scheduled for the following Saturday.

E. A. Deobald, reporting for the Civic Improvement committee, stated that Clean-up Week was going very well, with most local residents cleaning up their property and making use of the free trash removal service. Along this same line, W. A. Watts suggested that a vacant lot or two about town be transformed into free city parking lots, and that curbs be painted as parking designations, as more cars could then be handled — and Kendrick's Friday and Saturday night parking problems were growing. The club approved the suggestions and turned them over to the city council.

Ben Cook, reporting for the Boy Scouts, stated that a Court of Honor held recently showed five boys going into Second class. Sixteen to 20 members were present at each meeting and interest was high. He added that the Scout committee had been rejuvenated and was meeting regularly with the boys.

Ross Armitage reported for the Cub Scouts, sponsored by the Kendrick P. T. A. Mrs. Kenneth Brocke and Mrs. Wm. Johnson are the "Den Mothers," and he the Cubmaster. On June 3 there is to be a Scout Jam — and in this jamboree the Kendrick Cubs will take part, picturing the landing of the Pilgrims.

Frank Abrams, reporting for the Fire Committee stated that the local volunteer department was holding practice three times per week, and that they felt themselves now proficient enough to ask the Idaho Surveying & Rating Bureau for a reduction in fire insurance rates.

Gerald Ingle announced that the meeting of the Latah County Chambers of Commerce, originally scheduled for May 17, at Kendrick, had been postponed until May 31 — at which time "Weeds" would be the topic for discussion.

Next came a discussion of train and mail service into Kendrick, with Fred Stedman, local postmaster, being asked to gather all possible information for presentation at the next meeting.

After some discussion it was moved by Ben Cook and seconded by Jack Travis that the club go on record protesting the removal of the local train, due to interference with mail services. Carried.

It being close to the end of the club's fiscal year, Dr. D. A. Christensen, president, appointed a nominating committee to present candidates at the next meeting, as follows: Walter Brocke, Frank Abrams, A. O. Kanikkeberg, Tom Keene and Mike Hedder.

Daylight Saving In Lewiston
Daylight saving time starts Sunday in Lewiston. It's apt to cause a bit of confusion — but then, that's their problem.

Improvements About Town

The front of the Kendrick Table Supply is being repainted a "mist gray" at the hands of Edgar Long, and the appearance is thereby greatly improved.

The postoffice building has received a new tile floor at the hands of Jack Kuykendall — a real improvement in that building.

The high school P. E. class under the direction of Ross Armitage spent three periods cleaning and burning debris on the ball diamond, in preparation for the final leveling of that field.

WHAT HAPPENED HERE TWENTY YEARS AGO

Kendrick Joins Small Towns In Decreases — Kendrick like most rural communities throughout the U. S., has decreased in population from the census taken ten years ago (1920) — it now being 360. However, we would much rather have 360 real live residents than 2,360 dead ones.

Parents of Daughter — Mr. and Mrs. Bob Cain are the proud parents of a baby daughter, born May 6, at the Troy hospital.

Attend Cooking School — Mrs. Wade Keene, Mrs. L. E. Hunter, Mrs. E. H. Field, Mrs. W. C. Jones and Mrs. W. L. McCreary were taken to Troy Monday afternoon by Herman and Otto Schupfer to witness the electric cooking demonstration put on by the W. W. P. Co.

Crescent Clippings — Marion and Marvin Souders received all passing grades in the recent examinations. Seventy-two friends and neighbors of the Weyen family surprised them Sunday when they arrived with well-filled baskets in honor of both Mr. and Mrs. Weyen's birthday anniversaries. Those present were the Wingardner and Jack Travis families and Johnny Lettenmaier from Southwick; the George Garner, Edgar Bohn, C. E. Harris, C. H. Fry, L. Alexander, E. Kent, McPhee, A. Alexander and John Darby families; Mrs. V. Craig, Mrs. Matilda Garner, Mrs. C. H. Keeler, Mrs. E. LaRue, Miss Eva Smith, Miss Dolly Whybark, Miss Ruby King, Misses Ethel and Burneida Cummings, Miss Ruby McCoy, Walter Carmen, Denzil Hunt, Clet Porter, Clem Lyons, Ben and George Smith and V. McCoy.

Leland — On last Sunday about 125 friends accompanied J. M. Woodward home to help him celebrate his 51st birthday anniversary. A basket dinner was spread out that fairly made the table groan under its weight. The afternoon was spent in visiting and games were played. All departed wishing Mr. Woodward many happy returns of the day.

Mr. and Mrs. Robert Draper visited Tuesday with Mr. and Mrs. Joe Pipher. The Women's Home Missionary Society met at the home of Mrs. Ben Hoffman last Thursday. Virgil Fleishman went to Nezperce Sunday to move George Hicks household goods to Leland.

Cameron — Little Marjorie Wendt and Harry Wegner were visitors at school Monday. Mr. and Mrs. Otis Silflow and son Roy left Saturday for Portland to visit Mrs. Henry Wendt who is there for treatment. Mr. and Mrs. Fred Newman were in Lewiston Saturday. Mr. and Mrs. Gus Kruger and family were visitors at the A. O. Wegner home Sunday.

Big Bear Ridge — The Ladies Guild met at the home of Mrs. D. J. Ingle Wednesday afternoon. Time was spent making blocks for the Guild comforter. Mr. and Mrs. Gabriel Forest are the proud parents of a baby girl born this week. Mrs. Forest is in Colton with her sister, Mrs. Fields, and is reported as getting along nicely. The Lutheran Ladies Aid met at the home of Mrs. A. Kletth Thursday afternoon. Lewiston visitors the past week were Mr. and Mrs. Wallace Emmett and Mr. and Mrs. A. W. Jones. Mr. and Mrs. King D. Ingle were Moscow visitors last Friday.

Southwick — Mrs. Elwood Pearson is at the Cecil Choate home taking care of a new grandson. Miss Enid Blewett of Culdesac is visiting in the home of her sister, Mrs. Ben P. Cook and family. The Tom Armitage family were Sunday dinner guests of Mrs. Clara Bateman and family. Sunday guests at the McCoy home were Mr. and Mrs. Jim Cook, Mr. and Mrs. Elton McCoy, John McIver, Wm. France and Ralph Hanks. Geo. Finke left Tuesday for Portland.

Frost was reported on most of the ridges Wednesday morning. The dandelions were said to have turned quite black in some sections. The mercury reached 30 at some time during Tuesday night or Wednesday morning on the hill at Big Bear ridge.

Julietta — Mrs. Walter Cochran was hostess to the Needle Club at her home on Wednesday of last week. The M. E. Ladies Aid met Tuesday at the home of Mrs. Jim Groseloc. The High School will present their play, "Go Slow, Mary" at the Southwick gym. Friday evening.

Little Interest In Election
Despite a sincere effort on the part of the school directors to get voters to the polls for the tax levy election last Saturday afternoon — but 99 voted from throughout the entire district.

Of this number 89 favored the tax levy, 10 were opposed. It is realized that this is an exceptionally busy time for farmers, but just the same, a considerable number more votes should have been cast.

Money spent at home builds local roads, schools, churches and makes for a better town. Money spent "on the outside" never comes home.

NEWSY ITEMETTES FROM AMERICAN RIDGE AREA

Our Club meets today (Thursday) at the home of Mrs. Frankie Benscoter, for its regular monthly meet.

Mr. and Mrs. Andy Cox and son Tom spent Sunday in Walla Walla visiting their daughter Peggy, who is attending school there. Andy Sue spent the week-end with Mr. and Mrs. Fred Glenn.

Mrs. Geo. Kent and children, who have been visiting here from Boise, returned to their home on Friday.

Mrs. Frankie Benscoter, who spent the past ten days in Redmond, Ore., with Mr. and Mrs. Ray Benscoter and son, returned home Tuesday evening. Jack Odem of Lewiston came up and is visiting with the Benscoters.

Mr. and Mrs. Norla Callison, Bobby and Nancy Lee attended the recital of Mrs. Scribner in Moscow on Sunday afternoon, Nancy taking part in the program.

Mr. and Mrs. Harvey Thornton and daughter Penny of Spokane spent the week-end with Mr. and Mrs. E. P. Roberts and with his parents at Leland.

Bud and Marilyn Schupfer accompanied Mr. and Mrs. Kenneth Hunter of Moscow to Spokane on Sunday to visit Harley's mother, Mrs. Bertha Eichner.

Mr. and Mrs. Norla Callison and Bobby, and Mrs. L. Ameling were Lewiston visitors on Monday.

The 4-H Club will meet with Ira, Teddy, Charles and Rayner Havens Saturday evening at 7:30, and all girls interested in Forestry are invited to attend this meeting.

Mr. and Mrs. Ed. Kent spent Sunday in the home of their daughter, Mrs. Newt. Morey and family on Big Bear ridge. Mr. and Mrs. Wm. Holt and family were also guests.

Mr. and Mrs. Geo. Havens and family were Sunday dinner guests of her parents, Mr. and Mrs. Henry Brammer in Juliaetta. Sunday evening callers in the Brammer home were Mr. and Mrs. Warner Brammer and Mr. and Mrs. Ernest Brammer.

Mr. and Mrs. Bob Benscoter and children of Craigmont were week-end guests of Mr. and Mrs. Harry Benscoter. On Sunday Mr. and Mrs. Harry Benscoter attended the Tau Kappa Epsilon Mother's Day dinner, and that afternoon, with Mr. and Mrs. Bob Benscoter attended the Song Fete.

Werner Brammer was a Wednesday morning caller at the Harry Benscoter home.

Mr. and Mrs. Ira Havens of Moscow were Sunday evening guests of Mr. and Mrs. Geo. Havens and family.

Mr. and Mrs. Ed. Kent spent Saturday evening with Mr. and Mrs. Walter Cochran in Juliaetta.

Mrs. Harry Benscoter and Rita Cain attended the Commencement program in Troy Wednesday evening. George Havens assisted Clarence Dougherty with field work Tuesday.

Mr. Wayne Davis and son Bruce were in Moscow on Monday, where Bruce received medical attention.

Mr. and Mrs. L. Heimgartner and daughters were in Lewiston Saturday. They were evening visitors in the home of Mr. and Mrs. Jack McCall.

The 4-H girls met last Wednesday at the home of Cecelia and Loeta Roberts, and elected officers as follows: Jorene Benscoter, president; Nita Benscoter, vice president; Cecelia Roberts, secretary-treasurer, and Priscilla Benscoter, reporter.

Rev. and Mrs. Kernutt of Moscow spent Thursday evening in the Harold Roberts home.

Mr. and Mrs. Harold Roberts and family attended a Young People's Mother's reception in Moscow Sunday evening.

Mr. and Mrs. Harry Benscoter were Lewiston visitors on Friday.

Mr. and Mrs. Warny May, Jr., were guests of her parents, Mr. and Mrs. Roy Glenn, Sunday.

Mr. and Mrs. Warny May, Sr., were Sunday afternoon visitors of Mrs. Bigham and Walter.

Frankie Benscoter spent Sunday with Mr. and Mrs. Wayne Davis.

Mr. and Mrs. L. Heimgartner and daughters were Sunday dinner guests of her parents, Mr. and Mrs. Chas. Fey in Kendrick. Other guests were Mr. and Mrs. Roy Fey and family; Mr. and Mrs. Art. Fraser and family of Clarkston, and Mr. and Mrs. Harold Bartlett and daughter of Troy, Oregon.

Mr. and Mrs. Warny May, Jr., were Sunday evening visitors of her grandparents, Mr. and Mrs. John Glenn in Kendrick.

Mrs. Warny May, Jr., Mrs. Walter Benscoter and Jorene and Priscilla attended a shower for Mrs. Dick McCall in Kendrick Monday evening.

Mrs. Walter Benscoter, Nita and Judy and Mrs. Harry Benscoter were Lewiston visitors on Wednesday.

Mr. and Mrs. Dick McCall were Sunday morning callers of Mr. and Mrs. Walter Benscoter. Afternoon and evening guests were Mr. and Mrs. Tom Greene of Lewiston and Mr. Kimberling of Joel.

Mr. and Mrs. L. Heimgartner and daughters were Tuesday evening visitors in the Wayne Heimgartner home at Stoney Point.

Mr. and Mrs. Perry Mattoon and family were Sunday dinner guests of Mr. and Mrs. Bud Fey in Kendrick. Mr. and Mrs. Earl Harris and daughter were also guests.

Mr. and Mrs. Geo. Davidson of Moscow were week-ago Sunday guests of Mr. and Mrs. Perry Mattoon.

Visiting In Kendrick

Ira Havens of Moscow was visiting old friends and transacting business in Kendrick Tuesday morning. He says his travels about the county indicate a bumper crop this fall.

PERSONAL MENTION

water was high and fishing poor. Mr. and Mrs. Teddy Deobald of Moscow spent the week-end here in the E. M. White and E. A. Deobald homes.

Mrs. W. M. Huff returned to her home in Lewiston Monday, after spending the week-end in the E. M. White home.

Bruce May and Dick White are working for the Soil Conservation Service out of Lewiston, and are surveying the crop acreages in this area.

Cpls. Ray Easterbrook and Roy White left Monday for Pittsburg, Calif., to report to their units for overseas duty, after spending a month's furlough here.

Burton Souders, Jr., drove E. Bailey and daughters Delores and Jeanette to Juliaetta to Pendleton, Saturday to visit Mrs. Bailey, who is recuperating at the home of their daughter, following a recent operation. They returned Monday evening.

Mr. and Mrs. Wayne McLaughlin (nee Ada Hiett) moved Monday to McCall, Idaho. Mr. and Mrs. Baker and son Rickey of Alaska spent the week-end with the McLaughlins before they moved.

Mark and Zeb Robeson of Lewiston were Saturday over-night guests of Mr. and Mrs. Oral Craig.

Mr. and Mrs. Ed. Ingram of Bovill and Mickey Harris of Moscow were Sunday guests in the C. E. Harris home.

Mr. and Mrs. Perry Mattoon and family and Mr. and Mrs. Earl E. Harris and daughter Shirley were dinner guests of Mr. and Mrs. Bud Fey on Sunday.

Mr. and Mrs. Harry Harris and family, Norman Fry, and Mr. and Mrs. Gabriel Forest and Louella were Sunday callers in the Florian Rode home in Lewiston.

KENDRICK SCHOOL NOTES

Sunday they drove on to Coeur d'Alene and took a boat trip on the lake. Sunday afternoon they started home, arriving in Kendrick around 9:30 that evening. A very good time was had by all — but everyone was pretty well worn out.

The group was accompanied by Mr. and Mrs. Ben Cook and Mr. and Mrs. Edwin Mielke.

Enjoy Hill Day

Friday the Juniors and Seniors went on "Hill Day." The two classes left school around 9:30, some in cars and others electing to walk to the big letters on the hill. When the day was over everyone had a good sunburn and was tired — but it was lots of fun.

Mother's Day Pot-Luck Dinner

A Mother's Day pot-luck dinner was held at the home of Mrs. Mary McCall in Juliaetta, Sunday. Those present were Clair McCall, Jerry and Lola Mae of Kamiah; Mr. and Mrs. Jack McCall and daughter Judy of Lewiston; Mr. and Mrs. Dick McCall and Mr. and Mrs. Walter McCall and son Bob of Kendrick, and Mr. and Mrs. Harl Whiting of Southwick.

To Hold Work Meeting

The Kendrick W. S. C. S. will meet Friday afternoon at the church to finish painting. This meeting will take the place of the regular Circle meeting.

NEWS ITEMS ABOUT LELAND RESIDENTS AND FRIENDS

Family Reunion At Spalding Park

A family reunion picnic dinner was held at Spalding on Sunday, honoring Cpl. Boyd Thornton, home on furlough from Colorado. Those attending were Mr. and Mrs. Jesse Thornton, Wayne, Boyd, Ray and Keith; Mr. and Mrs. Lloyd Craig, Marcella and Jeanne; Mrs. Dora Heffel; Mr. and Mrs. Billy Weyen, Kaye and Carol; Mr. and Mrs. Roy Craig and daughter Paige, all of Leland; Mrs. E. P. Roberts, Mrs. Oral Craig, Neal and Ronald of Kendrick; Mr. and Mrs. LaVerne Williams, Dianna and Karen of Kennewick, Wn.; Mr. and Mrs. George Baugh and son Norman of Orofino; Mr. and Mrs. Chas. Craig, Ila, Darrel, Dale and Karen of Lewiston; Mr. and Mrs. Harvey Thornton and daughter Penny of Spokane; Mr. and Mrs. Willis Thornton and son Douglas, Mr. and Mrs. Ben Johann and Curtiss Neely, all of Moscow.

Other News

Miss Vivian Draper spent the week-end with her parents, Mr. and Mrs. Robert Draper, and left for Spokane on Monday.

Mr. and Mrs. Robert Olsen and Mrs. Marie Torgeson, all of Spokane, were weekend guests of Mr. and Mrs. A. G. Peters.

Mrs. Lloyd Craig was very pleasantly surprised on her birthday anniversary last Friday, at the school house, when the mothers of the school children and friends brought a picnic lunch and a beautifully decorated cake, made by Mrs. Glen Wegner and Mrs. Theo Meske. Mrs. Craig received many nice gifts.

Mr. and Mrs. Virgil Fleschman and Mr. and Mrs. Melvin Fleschman and daughters, all of Clarkston, were Friday evening visitors in the home of Mr. and Mrs. Lloyd Craig — helping celebrate Mrs. Craig's birthday anniversary.

Mr. and Mrs. A. G. Peters entertained with a dinner Sunday. Guests were Mr. and Mrs. Elmer Peters and son Bobby, Gordon Peters, Mrs. Raymond Nelson and son David, Mrs. Marie Torgeson, Mr. and Mrs. Robert Olsen and Douglas Browne.

Cpl. Boyd Thornton left by bus on Monday for Colorado, to resume his duties there.

Mr. and Mrs. A. G. Peters and Douglas Browne attended a graduation ceremony at St. Stanislaus church in Lewiston Sunday evening for the graduating nurses of the St. Joseph's hospital.

Mr. and Mrs. Harry Smith were Saturday, over-night and Sunday guests in the Waldo Smith home in Pomeroy. Clinton and Stanley went down Sunday and brought them home.

Mr. and Mrs. Chas. Hoffman were Sunday dinner guests of Mr. and Mrs. Leonard Hanson at Pullman.

Mr. and Mrs. Billy Deobald and daughter Barbara of Moscow, Mr. and Mrs. Ervin Draper and son Gary, Vivian Draper, John Vincent and Erma Lohman were Sunday dinner guests of Mr. and Mrs. Robert Draper.

Mr. and Mrs. Willard Reed and son Timothy of Grangeville were Sunday over-night guests of her parents, Mr. and Mrs. Harry Smith, leaving for their home on Monday.

LINDEN ITEMS

Sunday, May 24, there is to be a dinner given at the cook house honoring two former Cedar ridge residents, Mrs. Bagley and Mrs. Harl Farris. Everyone is urged to be on hand to welcome these old neighbors — and show them we know how it's done.

Miss Anna Smith of Lewiston spent Mother's Day with her parents at their home at Park. Other guests were George Smith of Lewiston and Roy Weber of Juliaetta.

Grangers Enjoy Meeting

Attendance was small at the last Grange meeting Tuesday evening, there being but 39 present — with six officers absent. Mr. and Mrs. Gordon Peters were initiated as new members.

The program consisted of a musical guessing game for mothers, with the gift of a potted plant for each mother.

Lunch was served by the men — complimenting the mothers.

Appears On Local Screen

Little Jackie Easterbrook, who was chosen from the children at the Children's Orthopedic Hospital at Seattle, to speak for them, was seen in the news reel at the local theater last Friday and Saturday evenings.

All will be glad to learn that Jack has now thrown away his crutches and re-entered school at his present home at Marysville, Wash.

To Take Business Trip

Owing to the necessity of a short combination business and pleasure trip, no work will be done in the job department of the Gazette the week-end of May 25 through 27. If in need of rush work previous to that time, please notify us at once. The Gazette office will be open as usual for the receipt of news items, subscriptions, etc.

Four Locals Appear In Concert

In the Bach Music Concert, presented in the University auditorium at Moscow Tuesday evening, four local people appeared.

Singing with the Vandaleers were Gay Deobald, David Coulter and Bob Lind.

In the solo section Burke Sower, music instructor in our local schools, presented a Flute number.

Petrified Eggs

Mountain Home — A petrified egg, found by Mrs. Alex Bull of the Grand View area, is now on display at the Mountain Home News. Mrs. Bull said that she had found several of these eggs on the farm and that she thought the water of the area caused them to turn to stone.

Among The Sick

Latest report from the bedside of W. E. Deobald, at St. Luke's hospital, Spokane, is that he perhaps shows a slight improvement. Mrs. Deobald is at his bedside.

Fresh frozen fruits, berries, tulces, vegetables, fish and poultry are obtainable at Blewett's Grocery-Market. Remember: "For a Better Buy Buy Bird's Eye." 1-adv.

KENDRICK SCHOOLS TO PRESENT MUSIC PROGRAM

This program will be for the purpose of showing the community what has been done in the way of musical development in the past year. In the beginning the date of Friday, May 19, was set as the culminating event for those youngsters participating in the grade school music program at Juliaetta.

But when a possible date for the program was being considered, the suggestion was made that because the community as a whole hadn't heard much of a musical nature from the Junior High or High School, the program should be enlarged to include these groups. With no other open date for the latter group to perform in Kendrick, this joint program was the final outcome.

The program will be in two sections — the Juliaetta school first, with each of the grades singing several songs, and the third grade will also give a selection on their "tonettes." As the finale of their efforts the grade school youngsters will all sing "America."

The second part of the program will include the Junior Girls' Chorus, the Senior Girls' Chorus, the band, and a trumpet duet. These groups will perform the selections that were sung and played at the Music Festival in Lewiston.

Everyone is invited to attend — and there will be no admission charge — 8:00 p. m., Friday, May 19, at the Juliaetta school.

Family Reunion Sunday

A family get-together was enjoyed at the home of Mr. and Mrs. Cecil Chamberlain Sunday, when Mr. and Mrs. Oscar Reinemer and Mr. and Mrs. Kenneth Peters and son Randy of Opportunity, Wn., Mr. and Mrs. Dan Kechter and son Roger and Mr. and Mrs. Harley Perryman and son Gene of Linden; Mr. and Mrs. Ed. Galloway and son Eddie, Walton Morey and sons Michael and Pat and Clarence Morey came to spend the day.

A most enjoyable time was spent.

Kills Real Rattler

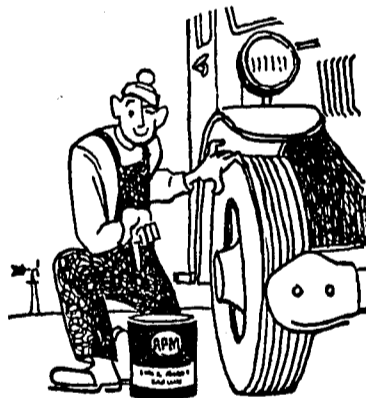

Last Friday, May 12, M. L. Rathbun killed a real rattler on his farm. The reptile measured three feet in length and carried 10 rattles, and at least two had been broken off.

The warm weather of the past few days will bring out these reptiles in force, and it behooves all who tramp the hills to be on the lookout.

Soap Holes Found Value in Disguise

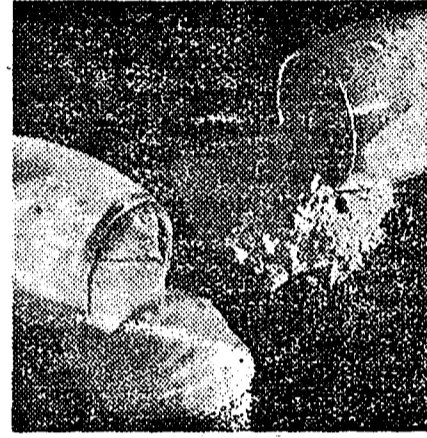

Produce Magic Mud With Multiple Uses

Ever since Belle Fourche, S. D., was a rip-snorting cattle town at the end of the old Chisholm trail its residents have been damning the "soap holes" that plagued the area.

Fast-riding cowboys often took a nasty tumble in this super-slippery mud and cattle were forever getting bogged down in them.

But now, like a man discovering his hives are really a blessing, Belle Fourche has found its soap holes are one of its biggest assets. Every one of them is filled with a magic mud called bentonite. It's an odorless, tasteless, soapy mud with a thousand uses and scientists are thinking up new ones every day.

Most of us already are using it a half dozen times a day, but almost nobody has heard of it. Men use it in shoe polish and hand cleaners. Women use it in face

Bentonite is the most absorbent material found in nature. When moistened it swells to several times its normal size. This quality makes it useful in waterproofing housing foundations and many other industrial uses.

Its new uses and increasing popularity for its older uses all add up to a boom such as Belle Fourche hasn't seen since the gold rush. In the past 10 years the population has practically doubled and bentonite now pours \$600,000 a year into the town in the form of additional purchasing power.

Fifteen years ago Belle Fourche shipped out three carloads of bentonite. Last year its production was 6,187 carloads and this year they expect a loading to go considerably higher.

Scientists say that bentonite, a strange mixture made up mostly of dust from prehistoric volcanoes, is found almost nowhere in the world except in the Black Hills of Wyoming and South Dakota. It is the most absorbent material nature ever has devised, they say, and a half dozen teaspoonful will soak up a glass of water.

Bond Price Chart

PRODUCT	AMOUNTS OF VARIOUS FARM PRODUCTS REQUIRED TO BUY A \$1,000 SERIES E SAVINGS BOND AT COST PRICE OF \$750		
	1932	1939	1949
Hogs, 200 lb.	112	60	20
Cattle, 1000 lb.	18	10	4
Milk, cwt.	586	446	173
Eggs, cases	176	144	60
Wheat, bu.	1,964	1,085	386
Corn, bu.	2,374	1,321	670
Cotton, bales	23	16	8
Tobacco, lb.	7,143	4,871	1,531
Potatoes, bu.	1,974	1,076	436
Apples, bu.	1,229	1,172	253

Based On Average Prices Received By Farmers

The above chart shows the almost unbelievable increase in the value of farm crops in the past 17 years, as depicted in a comparison of how much farm produce it takes now to buy a \$1,000 government savings bond with how much it would have required in 1932.

Insect Killers Made By Synthetic Means

New pyrethrum-like chemicals that kill insects have been made synthetically for the first time in the laboratories of the bureau of entomology and plant quarantine, it has been announced by the U. S. department of agriculture. The chemical makeup of the synthetic materials is almost identical with that of the insect-killing principle in pyrethrum, according to the chemists.

Rocky Mountain Fever Now Found Throughout Country

Rocky Mountain spotted fever, a tick-borne disease, which is often severe and sometimes fatal, is geographically scattered over 47 states. Writing in the Journal of the American Medical Association, Dr. Samuel F. Ravenel of Greensboro, N. C., suggests that treatment with para-aminobenzoic acid, one of the vitamin B complex group, will eliminate practically all deaths from this fearful disease.

Treatment of five patients with this drug, in combination with standard methods, produced "rapid" and "brilliant" results, states the author.

The rickettsias, bacteria-like parasites, responsible for this disease do not respond to sulfonamide compounds. The author states that they are not only useless but probably harmful in treatment of this disease. Moreover, he adds, "although rickettsias are reported to be sensitive to penicillin, this agent has proved useless in treatment of Rocky Mountain spotted fever."

Reviewing the status of the disease today, the author states: "The name Rocky Mountain spotted fever is now obviously geographically incorrect, since this disease has been found in 47 of the 48 states. Ten years ago 70 per cent of the cases occurred in the Mountain and Pacific states, while 87 per cent were reported from the Central and Eastern states in 1945. Its incidence and importance to public health in the United States are shown by the occurrence of 400 to 500 cases with 90 to 137 deaths each year during the past decade."

Experiments Show Salt Is Common Vegetable Food

Vegetables have to eat just like human beings who eat vegetables. Vegetables, however, are not vegetarians; they are, if a name may be coined for them, mineralarians. Unlike vegetarians, some vegetables like salt and plenty of it to season their bill of fare, but others like only minimum amounts.

Investigation of fertilizers at New York state agricultural experiment station at Geneva have revealed that table beets have a great fondness for salt. In the first experiment ordinary table salt was substituted for one-fourth of the potash in the fertilizer. The yield an acre improved so much that the amount of salt was increased until the maximum yield was obtained, when seven times more salt than potash was supplied.

Soy beans will take up to one-third of the maximum amount of salt taken by beets and show improved yields, but they must have their full amount of potash in order to do so. If the amount of potash in their diet is reduced then they are unable to utilize salt.

Stone Age Paintings

Copies of Australian cave paintings, the originals of which are believed to date from Australia's stone age, which lasted until the white man arrived, recently were put on exhibit at Australia house in London. The originals have been annually retouched through the centuries by the Australian aborigines, with the use of red and yellow ochre and pipe clay white. The aborigines believe the pictures originally were made by the spirits of rain and fertility by casting their shadows upon the rocks of the cave. It was the practice before each rainy season for the aborigines to approach and touch the pictures—following which act of reverence the rains came. The pictures, which were found in the Kimberley district of northwestern Australia included "white, mouthless faces," some of which "appeared to be swimming in seas of little kangaroos, ducks, lilies and yams."

Develop New 'Hooks'

Development of a new artificial hand for amputees that is far superior, mechanically and cosmetically, to anything yet perfected has been announced by the army prosthetic research laboratory. The new hand operating more effectively than the present "hook" is life-like in appearance because of a plastic glove that is seamless, flexible and waterproof. It weighs 12 ounces.

Major Gen. Norman T. Kirk, surgeon general of the army, in announcing the new device emphasized that the hand is not on the market now and will not be until industry gets them into production. One of the features of the device, it was pointed out, is the psychological effect it will have on veterans by giving a boost to their morale through the life-like appearance of the glove.

Key To Cookery

Temperature is one of the keys to successful egg cookery. For some purposes eggs will perform better if they are cold; for others they should be at room temperature. When it comes to separating raw whites from yolks, eggs should be neither too warm nor too cold. An egg just out of the refrigerator is difficult to separate because the white clings to both shell and yolk. On the other hand, at a temperature of 75 degrees or more the yolk flattens out and breaks more easily. The happy medium, then, is reached by keeping the egg at room temperature about half an hour before separating.

President Roosevelt's Board said—NO! President Truman's Board said—NO! Still the leaders of the Railroad Firemen's "STRIKE!" Union say—

This ridiculous strike is an affront to every citizen of the nation. It's not for more money. It's not because of hours. It's only for soft feather-bedding spots for additional unnecessary firemen to go along in diesel locomotives just for the ride. A leading liberal newspaper calls the demands of the union leaders "horse-feathers"!

The reckless leaders of the firemen's union want to force down the throats of the railroads and the public a ridiculous "make-work" proposal which has been twice ruled out by Presidential Fact Finding Boards duly appointed under the provisions of the Railway Labor Act.

This demand of union leaders for additional and unnecessary firemen to ride in diesel locomotives was rejected—after months of hearings—by a Board appointed by President Roosevelt in 1943.

It was again rejected in 1949 by a Board appointed by President Truman.

Recent meetings with the National Mediation Board have brought no change in the attitude of the union dictators.

Union Leaders Defy Intent of Law
The union leaders helped write the Railway Labor Act. Yet in an attempt to jam through this scheme of pure

"feather-bedding" by leading the members of their union out on strike and threatening paralysis to large areas of the nation, they are defying the spirit and intent of the very law which they helped to create.

This strike is not for higher wages. It is a strike to force the railroads to employ many more thousands of firemen who are not needed! It would be indefensible waste. The railroads have refused to place this additional and unnecessary burden on the public.

But more important than any other consideration, is the action of these few irresponsible union leaders in seeking to force a crippling strike upon the

This strike is one of the silliest strikes in history!

What are these reckless union leaders trying to do? They seek to cause thousands of their members to strike, and throw hundreds of thousands of other employees on and off the railroads out of employment, with loss of pay to them and their families, plus a severe blow to industry and the citizens of the nation.

What's the strike all about? If the union has its way—what happens? The present members of the union won't get one cent more pay. They will merely have been assessed for a costly and indefensible drive in an attempt to provide more dues-paying members for the union by creating "feather-bedding" jobs for additional and unnecessary firemen. This is certainly one of the silliest strikes in history!

nation for their own selfish purposes. There is no other possible answer to such a demand but "No!"

The railroads in making such a reply believe they have the whole-hearted support of the people in whose interest they are willing to fight this out, despite the loss and inconvenience that all will suffer.

It is time to put an end to such un-American demands.

We are publishing this and other advertisements to talk to you at first hand about matters which are important to everybody.

RED CROSS CHAPTERS MEET VARIOUS NEEDS OF SERVICEMEN

The Red Cross Home Service worker looked up from her desk to find an old man holding a telegram and twenty-five dollars.

"My boy wants to come home, but he hasn't got the money for such an expensive trip," the old gentleman said. "He has just returned from 2 years overseas service and is getting a leave before reassignment. His mother has been very sick and I think he might help her to get well. We are living on our family allowance and whatever money my son can send, but I've scraped together this \$25. Can you give me enough more to bring him home?"

After verifying the facts, the Home Service worker sent a telegram to the Red Cross field director at the boy's camp, telling of the father's request and of the offer of the twenty-five dollars he could so ill afford. The following day she received an answering wire from the field director:

Under federal statute and regulations of the Army, the Navy, and the Air Force, the American Red Cross furnishes volunteer aid to the sick and wounded of the armed forces and acts in matters of voluntary relief and as a medium of communication between the people of the United States and their armed forces.

"Return twenty-five dollars to father. Army granting emergency leave and arranging for air transportation home. We are arranging for maintenance and return transportation."

It was only one item in a busy worker's day, but to two old people and a long-absent son it meant a lot.

Often the need is not for financial aid but for help with the unexpected problems that may hit any family and are more acute when the head of the family is thousands of miles away.

It was so with an Air Force sergeant who reenlisted after overseas combat service. He left his wife and children in Kentucky on a farm with his mother-in-law. He also left 25 head of cattle, through which the family income would be supplemented. He thought his family secure for the 3 years of his new enlistment. Then disaster struck. The wife's mother became ill and was compelled to sell the farm and go to live with a distant sister. This left the sergeant's family without housing, and 25 head of cattle without care.

The Red Cross helped the soldier get emergency leave, helped him find suitable living quarters for his wife, and arranged for quick sale of his livestock. The sergeant then returned to duty, content in the knowledge that his wife and two small children were provided for.

Often, the need for help extends beyond the time a man is separated from the service. If, as a veteran, the man and his family continue to need aid, the chapter is ready to help.

That is Red Cross Home Service—a friend and counselor to the perplexed, to those in need, to men and women with problems.

order. Your combine motor might be another power unit that it will pay you to check. Some of the special parts are sometimes hard to get, and right now you'll have plenty of time. If you're going to do the work yourself or are going to take the motor out of your tractor and truck it to town, get that equipment into a shed and out of the weather first. Of all, if you haven't had it there before.

Your repair man may be willing to come out to the farm, to your shop, to do the work. If he does, he'll appreciate having the equipment in where it's warm and dry.

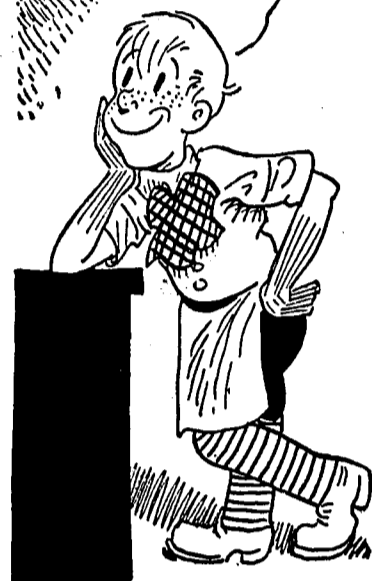

Building supplies of all kinds are available at the Kirkpatrick Lumber Co., Juliaetta. Whether building a house or a chicken house, see them. 1-adv.

WHEN YOU DONT RENEVE!

Check Machinery Now

There is no better time of year than during the winter months to make sure that the farm tractor is in tip-top condition for the work ahead next season. Most of the tractor work is over for several months, and the man at the repair shop in town is not too rushed to get at your machinery.

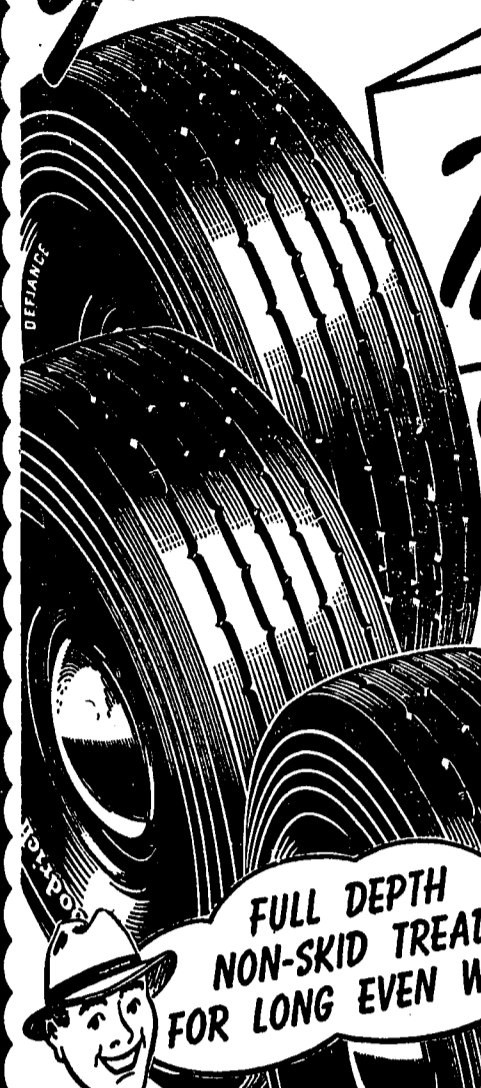

J. W. Martin, agricultural engineer at the University of Idaho, suggests that the sooner you get the tractor into town the less danger

that you will be caught next spring. Then, too, you won't get caught in a last-minute rush.

Martin says that it might be a good idea just to stop in at the repair shop and let the mechanic know that you are bringing the tractor in. He'll want to know what kind of unit you have and probably what model it is. If you have other information that you can give him, be sure to do so. If you know of needed parts, it will give him an opportunity to get off an early

Saturday, May 20

This Famous RADIO FARM PROGRAM will originate at the
MOSCOW GRANGE HALL

As a part of the Latah County Weed Equipment Demonstration

HEAR, SEE, ENJOY THIS BROADCAST

Present in Person will be

GLENN LORANG, KHQ Farm Editor

and Rocky Starr

with His SATURDAY FARM GANG, including
CURLEY, SHORTY and WHITE

Also appearing on the broadcast will be R. E. Nordby, Latah County Commissioner; John Luedke, Genesee; Ed. Gray, Viola; Bud Koster, Moscow; Herb Whitesel, Troy; Harold Snow, Chairman, Latah Soil Conservation District

BROADCAST TIME 12:15 to 12:45 P. M.

Pre-Broadcast Show starts at 12:00 Noon

*Interesting, Entertaining and Everyone Is
Cordially Invited to Attend!*

Regular Demonstration of Weed Equipment Begins at 1:15 P. M.

Listen to GLENN LORANG Every Day at 12:15 P. M., Monday through Friday, and to SATURDAY FARM REPORT, with Glenn Lorang and the SATURDAY FARM GANG

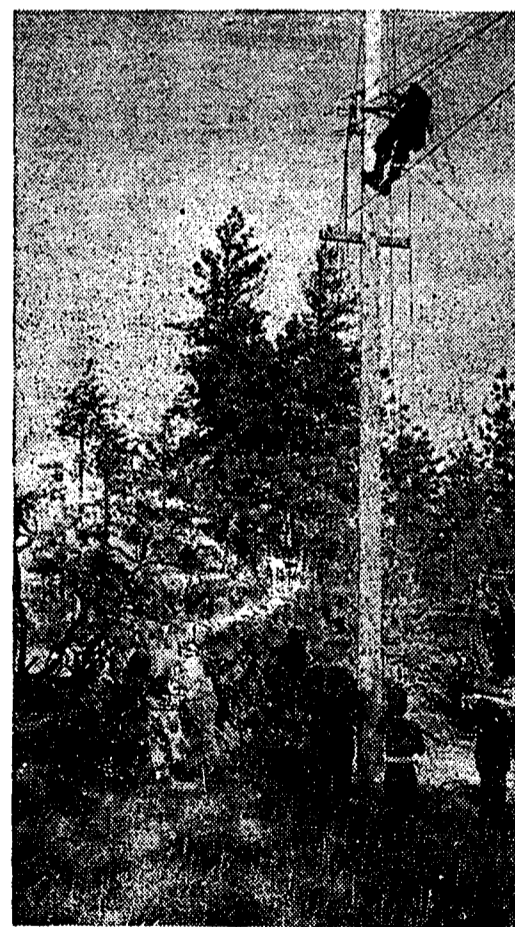

Every Saturday 12:15 to 12:45 P. M.

On KHQ 590 on Your Dial

YOU CAN
DEPEND ON

Washington Water Power

SERVICE!

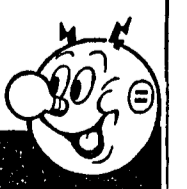

Seldom do well-engineered, sturdily-built Washington Water Power lines give way before even the greatest onslaughts of nature... but when they do, Water Power's "troubleshooters" are on the job quickly, efficiently, to restore service.

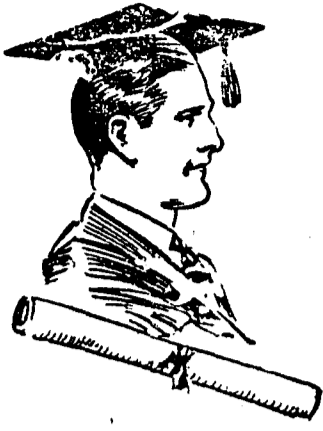

ONE WINDY MARCH DAY, a falling tree broke through a W.W.P. line serving several residences in the outskirts of Spokane. IN 15 MINUTES a trained Water Power crew was in action at the break. IN 40 MINUTES service was restored... Another instance of Water Power accent on the "Serve" in "Service"!

"Keeping the juice flowing"—providing electric service YOU CAN DEPEND ON—is no job for an amateur, and at Washington Water Power there are no amateurs on the job!... Skilled, loyal workers and efficient business management count for a lot in bringing you the kind of electric service you want—dependable service at low cost—Reddy Kilowatt Service!

*You seldom have to
wait on Water Power
... we make it our
job to wait on you!*

Helicopter's Field of Duty Expands Steadily Since War

The day when thousands will own helicopters for private pleasure hopping lies far in the future, qualified observers agree. Daily headlines prove, however, that the humming-birdlike aircraft have found permanent duty roles in commerce, agriculture, exploration, patrol and rescue work. They are economically useful in many parts of the globe.

Only a dozen years ago the helicopter was just being developed. Today it enables man to carry on almost as if he had wings of his own, and comes nearer than other types of aircraft to realizing the dream of flight that inspired men to develop flying.

Maine's Aroostook county potato farmers save time and money by enlisting helicopters for frequent DDT dusting to control fungus and bugs. On New England blueberry acres, chemical dust is fed from hoppers into the downwash from the rotor blades' during ground-skimming flights. Helicopter dusting increases the yield from Massachusetts cranberry bogs.

In major fruit and vegetable areas of Florida, Texas, and the West Coast, too, there are crop-dusting companies ready to provide helicopters on short notice. Besides laying chemicals accurately on insects and weeds, the machines have substituted for smudge pots by forcing downdrafts of warm air. They have rounded up range cattle, scared hungry game away from ricefields and other crops.

In Argentina last year, 10 helicopters broke up a devastating locust scourge. In the Anglo-Egyptian Sudan, they sprayed cotton fields on ground where tractors could not tread. In Arabian date-palm groves they were reported superseding the laborious hand-pollinating operation. Great Britain finds helicopters well suited to spraying England's hedge-row-enclosed fields, and sends them to work in distant colonial lands in the off season.

Researchers Synthesize 3 Metals for First Time

Three minerals, eucryptite, spodumene, and petalite, have been synthesized for the first time.

The work was conducted by Dr. Elbert F. Osborn, Dr. Rustum Roy, and Della M. Roy, of the department of earth sciences at the Pennsylvania state college. It was sponsored by the geophysics division of the office of naval research.

Eucryptite is easily synthesized, growing readily into crystals with a remarkable resemblance to quartz. The fact that it has been found only at one place, near Branchfield, Conn., indicates that it may have been mistaken for quartz. Petalite also can resemble quartz and often has been confused with it. Both petalite and spodumene are used in the ceramics industry in glazing tile.

To complete the research work, extremely high temperatures and high pressures were necessary. Stainless steel bombs, with temperatures as high as 800 degrees C. and pressures of 10,000 to 20,000 pounds per square inch were used.

The Penn state researchers learned that eucryptite inverts at 972 degrees C. to a high temperature form which melts incongruently. Spodumene inverts to a high temperature form at a maximum temperature of 500 degrees C. and petalite decomposes to a high silica beta-spodumene solid solution at 680 degrees C.

Reward for What It Takes

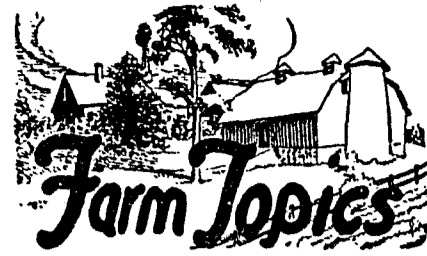

Faith in an idea, hard work, perseverance and the willingness to make sacrifices because our patent system promised protection of their inventions from copyists, has brought fame and fortune to many men, and endowed their fellow men with a better life. It doesn't take a magic formula to make an inventor, nor does it take so-called genius. Who knows? Perhaps as you're juicing oranges some morning you may hit upon an idea that will make your relatives glad you're on the family tree.

L-P Gas Progress

Once a waste product at oil fields and refineries, L-P-Gas—also known as bottle, tank, butane and propane gas—today brings city comfort and convenience to over 5,500,000 rural and suburban homes, has hundreds of industrial, commercial and farm uses. Big factor in conservation of natural resources. Less than 30 years old, L-P-Gas industry owes spectacular growth to patented inventions and discoveries which made it possible to recover and liquefy "wild gases," and put them to work.

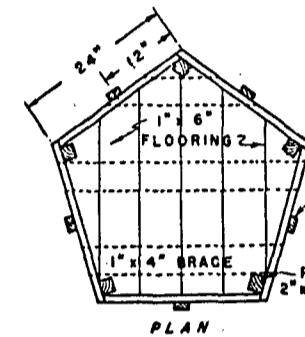

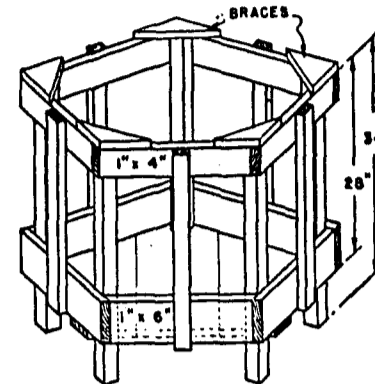

"Worldly" House Paint

In the very early days of our nation, the austere Puritan worthies felt that people who enjoyed color also enjoyed life too much to be tolerated. Paint, too, was frowned upon. Reflecting the fact that it was considered a sign of worldliness is the record that, in 1630, a clergyman in Charlestown, Mass., was haled before the city council, charged with the serious crime of painting his house.

Easily Built Trough Will Aid Sheepmen Designed to Cut Labor, Lumber, Space and Feed

An easily built grain or hay trough has proved to be a problem for many sheep growers, but this trough designed by H. M. Briggs, department of animal husbandry,

This trough will save lumber, space and feed for the sheep grower.

Oklahoma agricultural experiment station, will provide the answer to that problem in many cases.

The trough shown in these drawings is intended for mature sheep and will save labor, lumber, space and feed.

As the drawings show, the trough can be built easily by any farm handy-man, if the plan is followed strictly. It should be noted that the trough has its own floor.

If yearling rams are to be fed, the material should be slightly heavier than is shown in the plan.

The center of the pen, according to Briggs, is the most desirable location for this trough. Or several can be placed in a lot or pen. If the trough is placed on a dirt floor or lot, dig a shallow hole under each leg so the trough cannot be pushed about. In a bedded pen, the legs will anchor in the bedding. The trough can be cleaned easily by tipping it up.

Wings for 'Wingless'

Wings for a wingless chicken are provided here by airline stewardess Marilyn Crawford. She is shown holding her very own "wings" to one of Peter Bauman's famed "wingless" chickens, which Bauman is holding in the photo. Four of the chickens were shipped by air to Olean, N. Y., for breeding.

Caution Urged In Use Of Chemicals, Sprays

Dust sprays, gasses and other insecticides will do much to promote the healthy growth of fruits and vegetables is the gist of instruction being passed out now by county agents over the nation.

However, these can often have just the opposite effect on people. Even though the container may not bear the skull and crossbones label, caution is necessary since many substances are harmful in some ways to man, despite the fact that they may not be definitely poisonous.

The whole story of safety in use of insecticides, it was pointed out, is simply precaution.

Technique Is Outlined For Reclaiming Leather

One way to bring mildewed leather back into service in short order, say home management specialists, is to wipe it with a cloth wrung out in diluted alcohol.

Use one cup of denatured alcohol to one cup of water. Then, if necessary, wash with thick suds of mild, neutral soap, or saddle soap; wipe with a damp cloth, and dry in an airy place. When dry polish with good wax dressing.

Mastitis Control Methods Important

Bactericidal Agents Favorable Response

By W. J. DRYDEN

Mastitis, a communicable disease, can be measurably checked by identification of the carrier cow, followed by proper control and treatment.

A compound for treating chronic mastitis recently has been reported by Utah agricultural experiment station. It is colloidal silver oxide, 5 per cent, suspended in mineral

oil. This treatment is effective only against mastitis caused by streptococci.

In injecting the compound, wash the udder with a chlorine solution. Milk the infected quarter dry and disinfect the end of the teat with tincture of iodine. Ten cc. of the compound is injected into the teat canal, and, by massaging, the liquid is pressed upward into the milk cistern and into the entire quarter. The milk should not be used for human consumption during and for 15 days after treatment.

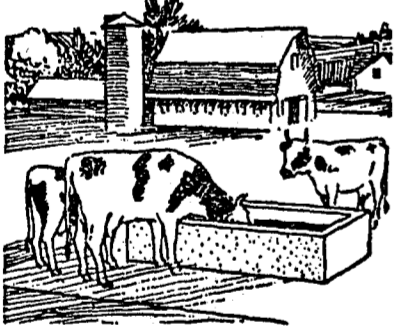

Other recent compounds proven satisfactory for various types of mastitis include thyrothrin, sulfanilamide in oil and penicillin.

LOOKING AHEAD
BY LOUIS WOLFE

I NEED CLOTHES MADE OF THAT MATERIAL. RIP VAN WINKLE, YOU'RE A SIGHT.

COTTON WON'T ROT OR MILDEW. A NEW COTTON FABRIC THAT WON'T DISINTEGRATE AFTER YEARS OF EXPOSURE HAS BEEN DEVELOPED BY THE DEPARTMENT OF AGRICULTURE.

Concrete Water Tank

A concrete livestock watering tank is watertight, furnishing an ample supply of fresh water in readily accessible troughs. A concrete pavement six feet wide around the tank is highly desirable to provide a clean, mud-free platform for livestock to stand on.

That's your grandfather, son. He raised a record crop of soybeans back in 1943.

Slant the Farrowing Floors to Save Pigs

An ingenious lifesaver for little pigs—as simple as it is practical—is the result of an accident in Kentucky. The results were so fortunate that the U.S.D.A. is commending the method widely as a good way to increase efficiency in meat production. The new method is to slant the floor in farrowing houses, as the sow prefers to lie down on a sloping floor. The mother will select the high side, and save the pigs.

41 Per Cent of Land In U. S. in Herbage

Grass Top Resource, Cattlemen Assert

Grass is one of the greatest resources of this nation. In the United States there are approximately 779 million acres of land which will grow nothing but hay, grass and other herbage unfit for human consumption.

This great acreage represents 41 per cent of the total land of the nation. About 9 per cent of the lands in the United States are plowable but are used also to produce pasture, hay or forage crops. It can be concluded, therefore, that about 50 per cent of the United States would not be used if it were not for meat animals.

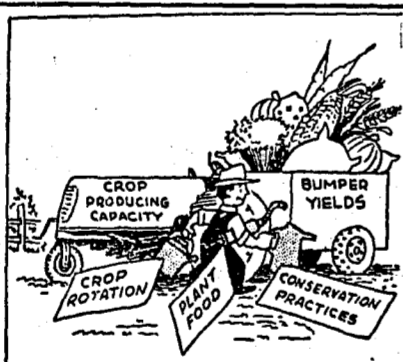

This little fellow, obviously so well-started in life, is symbolical of what good pasturage can mean to cattle and just how much cattle depend on grass. In the United States there are approximately 779 million acres of land which cannot grow anything but hay, grass and other herbage.

Of the total feeds consumed by beef cattle 78.7 per cent is grass, hay and dry roughage. A minimum of grain is needed to bring feeder steers from 700 pounds to 1,000 pounds when the principal part of the ration is made up of hay, ensilage or other roughage.

The process of producing beef cattle normally involves the following steps:

1. The purebred operator who produces the sires and females which are the foundation of beef animal production. This branch of the cattle industry is one that requires heavy investment and efficiency in management.
2. The commercial breeder who produces the calves which are the offspring of commercial herds of female and purebred sires.
3. The pasture cattleman who grows the animal from the weaning or yearling stage to two years old, taking his profit from the poundage gained on grass and hay.
4. The feeder who "finishes" the animal from grass stage to slaughter condition, disposing of a large percentage of roughage.

Crop Rotation

Crop rotation with deep-rooted legumes, plant food and good management methods are the "gas, oil and lubricants" that keep your soil's crop producing machine going on high.

Each of these has a job to do. Each needs help from the others. They all have to work like a team.

Valuable as a good rotation is in balancing soil - building legume crops against soil-robbing row crops, it has to be backed up by wise land management methods. Cropping in even the best rotation drains the soil's supply of phosphate and potash.

And even if your good management program puts back every scrap of barnyard manure, plows under the legumes and returns straw, corn stalks and crop aftermath to the soil, you still ship away hundreds of pounds of plant food in the grain, beef and milk you sell every year.

Good Pasture Increases Dairy Herd Production

With 2.5 million fewer cows on farms now than in 1945, possibilities for profit in dairying are greater if labor-saving, high value pasture is the center of the production program. Good pasture can increase milk output and cut production costs. That means a bigger profit margin. Getting bigger pasture yields is a matter of feeding the soil plant nutrients so it can feed legume-grass mixtures.

Woodlands Can Show Profit

Now is the time to realize a profit from woodlands through better management, says Robert Zink, farm forester for Nez Perce and Clearwater counties.

The object of the new farm forestry program, sponsored by the state and the agricultural extension service is similar to the services offered by the county agent, except that it deals solely with forestry aid in assisting the farmer and private landowner in a long-time forestry plan. A successful farm forestry job will bring monetary returns to the woodland owner and benefits to the community.

Mr. Zink will help distribute forest trees and shrub planting stock, and advise farmers regarding placing land under protection and reducing forest losses from fire, insects, disease and poor utilization.

The farm forester will point out the preferred methods of harvesting and utilizing the trees on the land, and he will try to find more and different markets for the timber. He will show the owner that through proper management of forest lands, he can realize a profit from his

woodlands, while it is growing to maturity and still have a better stand left and a greater profit from his final cutting than he would without management.

The farm forester work will be not only in helping the farmer, but also in educating him in the proper care of his woodlands, so that the farmer will be able to scale, cruise, mark and evaluate the worth of his forest without aid from an outside

It should be mentioned that because timber is a slow-growing crop, it is quite possible that the present owners of a forested tract may not realize much income from such property, but he will be secure in the knowledge that he is leaving something of real value to his children, or to the community, and to both.

For more personal advice on profiting from your woodlands, or for help in solving your woodland problems, contact the farm forester through your county agent or soil conservation service. He will be glad to help you in every possible way.

Fresh frozen Bird's Eye fruits, vegetables and juices are available at Blewett's Grocery-Market. 1-adv

Idaho Men Good Shots

U. of I., Moscow — Second place in the Sixth Army area rifle match for the William Randolph Hearst trophy was taken by the University of Idaho ROTC rifle team, Capt. C. R. Underdahl, team coach, learned this week.

The U. of I. was second only to the University of San Francisco in competition with more than 17 schools in eight states, Alaska and Hawaii. The winning score was 940 out of a possible 1,000, while the score made by the Idaho team was 938. Montana State university was

third with 930.

Competition in the rifle matches is held by mail with targets sent to Washington, D. C., for scoring by officials of the Hearst newspapers, sponsors of the event.

Get that Bird's Eye fresh frozen fruits, vegetables, juices, fish, etc., from the frozen foods case at Blewett's Grocery-Market in Kendrick. Pick them from our case. 1-adv.

LINDEN ITEMS

Mrs. Grace Souders of Kendrick is enjoying a visit in the home of her son, Mr. and Mrs. Marion Souders.

House cleaning seems to be the order of the day on Cedar creek — it's one way of getting the men out of the house when they have spring fever.

Bob Chilberg was a business visitor in Lewiston, Tuesday.

Mrs. Butler is visiting her daughter, Mrs. Gil Erlwine and family. Wayne Arnett is plowing the Bill Zimmerman place. In fact, the days are not long enough, now that we have sunshine, to accomplish the many things that need our immediate attention.

Mrs. Ted Vaughan and baby daughter were passengers on the Friday morning train for a short visit with a sister and attend to business matters in Spokane. She will return home Friday evening.

Mother's Day guests in the Charles Keeler home were Mr. and Mrs. Lou Conrad and grandson Donald Mattoon of Lewiston; Mr. and Mrs. J. G. Johnson and daughters Sharon Rose, Donna Kay and Glenna Michael of Coulee Dam, Wn. and Mr. and Mrs. Ted Vaughan, Gale Marie and Bobby B. of Kendrick.

W. M. A. met with Mrs. Pearl Alexander on Thursday. Those present were Mrs. Arley Allen, Mrs. Al Pederson, Mrs. Arthur Foster and Mrs. F. C. Lyons. Mrs. Allen gave the lesson.

Rev. and Mrs. M. E. Nimnich, Mr. and Mrs. Harold Fressnal and sons and Rev. Norbo were dinner guests in the F. C. Lyons home on Sunday. Rev. and Mrs. Nimnich were overnight guests.

Rev. Norbo was an over-night guest in the McAlister home Sunday night.

Miss Inez Pederson of Colfax spent Mother's Day at home, as did the rest of their children. Other dinner guests included Mr. and Mrs. C. A. McAlister and children and Raymond Whybark.

Ken Pederson returned to his work at Oakesdale, Wn., Sunday evening. His sister, Miss Inez, accompanied him to Colfax.

Mr. and Mrs. Phil Bahr visited

Mrs. Bahr's sister, Mrs. Blankfield, in Lapwai, Sunday. A niece, Miss Joyce Blankfield, came home with them to spend a few days.

Mr. and Mrs. Lester Weaver, accompanied by Mrs. McAlister and Mrs. Pederson, were Kendrick shoppers on Monday.

Mr. and Mrs. Arley Allen, Mr. and Mrs. Arthur Foster and children and Mr. and Mrs. Marion Souders enjoyed a picnic together on Mother's Day.

Mrs. Arley Allen spent Wednesday with her sister, Mrs. Pippinger and family, in Orofino.

Mr. and Mrs. Arthur Foster were Spokane business visitors Monday. They are drilling a well and are in need of extra supplies.

Note: I am sure there must be more news in our community, and if it reaches me in time — I like to get it into the mail by Monday noon, so that it reaches the Gazette in plenty of time — otherwise I have to bother somebody to get it off in time. I know that we all know here are a bit careless about being mentioned in this column — but it does mean a lot to the people who once lived here, and it's the only way they can keep in touch. How about it, neighbors, won't you help me make this a better column? — Mrs. Chas. Keeler.

CRESCENT CLIPPINGS

Mr. and Mrs. Fred Bernard of Spokane and Bud Gephart were Tuesday guests of the Raymond Blankenship family.

Mrs. Alva Craig and son Gary spent Sunday afternoon in the Ben Baker home.

Mrs. John Darby spent Thursday with her daughter, Mrs. Loyd Farrington. Little Johnny accompanied her home and remained until Friday evening.

Roy Blankenship spent Saturday afternoon and evening with his brother and family, Raymond Blankenship.

Mr. and Mrs. Loyd Farrington and Johnny spent Sunday afternoon and Monday in the Rose Farrington home in Clarkston.

Mrs. Arne Kloster and Karen spent Sunday afternoon with Mrs. Raymond Blankenship.

Several from here went fishing Sunday, and from the looks of the cars heading into Three Bear the sunshine must have given everyone the fever. We understand the luck was poor.

JULIAETTA NEWS

Mr. and Mrs. Don Candler and children of Bovill were Sunday visitors at the W. L. Candler home. Joan Gebhart accompanied them home to spend a week.

Alex Weaver and Louise Peters were Lewiston visitors Sunday evening.

Mrs. Anita Brandt, who has been quite ill, is now much improved, and up and about her home.

Girl Scout News

Instead of having their regular meeting May 10th, the Kendrick Girl Scouts held an outdoor "cook out" at Lucken's flat.

Following the "cook out" a soft ball game and other games were enjoyed. A fine time was reported.

Card of Thanks

I wish to express my heartfelt thanks and gratitude to all who so kindly assisted in so many ways, during the illness and death of my husband. Also thanks to those who provided the music and singing, and for the beautiful flowers. — Mrs. Gust Lucken.

Quonset-Type Huts Meet Storage Needs 'Little Business' Answers Challenge in Grain Belt

Called upon by the department of agriculture to perform a modern miracle, "little business" in 10 midwestern states is tackling one of the biggest jobs of its kind ever undertaken anywhere in peacetime. Its Herculean assignment is the site preparation and erection of 2-300 steel buildings—each 32x96 feet or larger—at 670 widely separated locations.

The task arose with the grain belt's acute need for space in which to store the record-breaking carry-over of 1948's corn crop. In line with

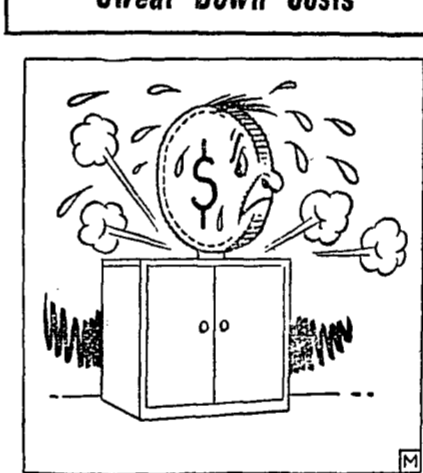

Grain being loaded into Quonset huts for CCC storage near Paulding, Ohio.

the trend toward economical "horizontal" grain storage, the department ordered Quonset buildings for a large part of the necessary new facilities. These archroofed steel units now are mushrooming up beside highways and railroads near farm centers through the efforts of local businesses and labor, rather than the work of transient crews employed by a few big and distant contracting firms.

Within two weeks time more than 1,100 concrete foundations had been laid, and erection of steel was under way on them in every state. The concrete work alone was roughly equivalent to laying 25 miles of highway in a time that an average road-making crew would require to put down one.

Sweat Down Costs

Sweat down your production costs if you want to maintain profits in these days of declining farm prices. One way to sweat down those costs is to increase your crop yields per acre. More bushels of corn and grain per acre, more pounds of meat, milk, dairy products and poultry mean lower production costs per unit. On such a basis you can make a profit even if prices slacken further.

You can get those higher yields and lower costs with good soil management. Good soil management means giving your soil a fair deal. It means supplying the soil a well-balanced ration of plant foods, so crops will be well nourished. It means building up instead of breaking down soil structure and tilth. It means "recharging" the land with soil-enriching crops at regular intervals, instead of growing soil-draining row crops year after year on the same land.

Dangers of Butchering At Home are Outlined

Home butchering is profitable on the farm and many rural families are replenishing their lockers, jars and pantries.

But, unless undue caution is used, home butchering can be dangerous. Equipment, too, should be used with care. All knives should be kept in a suitable place when not in use. Hoisting equipment should be checked. A tamper should be used to force meat into the grinder.

Attention to Details Pays Off for Hog Farms

Attention to details is the biggest reason why some hog farms earned \$2,000 more than some others during the past year.

F. J. Reiss, farm management specialist in the Illinois college of agriculture, said that 128 high income hog farms averaged \$10,200 earnings from swine last year, while 161 less-efficient farms took in only \$8,000. Extra care at farrowing, control of parasites, helped.

Potlatch Chief Sez

PUBLISHED BY THE KENDRICK CO-OPERATIVE CREAMERY

ABOUT MILK:

Friends, much as we dislike taking this step, we must, beginning June 1st, go "cash on milk." Our charge sales of single quarts over the counter have involved far too much bookkeeping, resulting in a higher overhead.

To remedy this situation, we are now issuing a new "one time" milk ticket, coming in values of \$2, \$3 and \$5.00 to make it easy for those who use but little milk, and who may therefore purchase small ticket books.

Single quarts will, of course, be sold across the counter for cash, as in the past.

ABOUT ICE CREAM:

Take home a quart of delicious "Potlatch Chief" Ice Cream today. It's delicious, refreshing and nourishing — and a "quick, slick dessert."

Have you tried our Chocolate Marble?

WHAT CAMERON FOLKS ARE DOING THESE DAYS

Enjoy Afternoon Tea
The Women's Missionary Society entertained at a tea Saturday afternoon at the Ladies Aid hall — with a large attendance.

A program of group singing, a prayer by Mrs. George Havens, a Scripture reading by Mrs. Henry Wendt; a reading by Hermina Meyer and a song, "Mother Machree" by Mrs. Meske, was presented. Moving pictures of missionary work and life in India were shown. Miss Dorothy Meyer, a daughter of Mr. and Mrs. Herman Meyer, will leave for India in September, to attend school and do mission work.

Refreshments were served from a prettily decorated table, with Mrs. Homer Parks pouring, and Mrs. Kenneth Wilken serving punch.
