

KENDRICK GAZETTE

VOLUME 60

KENDRICK, LATAH COUNTY, IDAHO, THURSDAY, MAY 25, 1950

NO. 21

WHAT HAPPENED HERE TWENTY YEARS AGO

On Honor Roll — Juliaetta High school students making the Honor roll for the last six weeks are: Thelma Spray, Xena Weatherby, Lawrence Heimgartner and Elizabeth Whalen.

Juliaetta Takes Game From Kendrick — A Juliaetta last Sunday the Juliaetta baseball team strung a surprise on Kendrick, walking away with a score of 10 to 9, in a game full of hard hits and errors. The Juliaetta line-up was as follows: K. Clark, R. Biger, E. Millard, E. Wilcoxon, C. Clark, McCall, Combs, E. Clark, C. Gruell and B. Glenn. The line-up for Kendrick: Flaig, DeLano, Carlson, Dammarell, Davis, Levitt, H. Flaig, C. Perryman, H. Perryman.

4-H Boys Take Prize For Float — The "Fairpoint 4-H Calf Club" boys of Stony Point and Fairview schools were fortunate to carry off a second prize of \$25.00 on their float in the Cherry Blossom Festival Parade at Lewiston last Saturday. The boys will use this money to help pay their expenses to "Club Week" at the University of Idaho in June. The following boys are members of the club: Elmer Heimgartner, Roy Heimgartner, Donald Morgan, Harold Glenn, Gerald Hill, Orval Walker, Wilbur Heimgartner, with Lester Hill as their local leader.

Local Strawberries On Market — Juliaetta strawberries were in the home market the first of this week, and they looked and tasted mighty "lush."

New Telephone Directories — More than 500 new telephone directories were delivered to the local telephone company by the Gazette office last Monday.

Improving — Raymond Lyons, son of Mr. and Mrs. F. C. Lyons, who was taken to the Sacred Heart hospital in Spokane last week, is said to be making satisfactory progress toward recovery.

Loses House by Fire — The home of Wm. Connick was completely destroyed by fire last Friday morning about 1:00 o'clock. The origin of the blaze is unknown.

New Arrival — A 10-lb. boy was born to Mr. and Mrs. Ray Southwick on Monday, May 12.

Leland — The Leland school closed Friday of last week. On Thursday a field and community day was held in Peters' grove. Track events and three ball games were the order of the day. A large basket dinner was spread at noon, which was enjoyed by all. Cora Blankenship is home after attending high school the past term at Lapwai. L. L. Yenni and son Wayne were Lewiston visitors Saturday, Wayne receiving attention to his arm, which was broken some time ago. Mrs. Raymond E. Eastbrook of Kellogg visited her parents this week, Mr. and Mrs. Claude Craig. Mr. and Mrs. Clyde Daugherty and children spent Sunday afternoon in the T. H. Daugherty home.

Cavendish — Mitch Blackburn, Charlie Pitcher, Vernon Akins and James McGuire took a fishing trip the latter part of the week. Mr. and Mrs. Henry Brammer and Mr. and Mrs. George Wilkin and son Kenneth were visitors at the Kenneth Reace home Sunday. Mrs. E. L. Pearson has been staying with her mother, Mrs. Sutton, who is ill. She returned home to Southwick this week, and Margaret Hund is going to stay with her grandmother until her recovery.

Linden — Mr. and Mrs. Jim Smith and daughter returned to Spokane Wednesday after spending a few days at the Charles Keeler home. Mr. and Mrs. Louis Alexander and family, Mrs. A. V. Craig and Miss Eva Smith spent Sunday evening in the F. C. Lyons home. Nevelyn and Arley Whybark, who are working at a Potlatch camp, visited their parents, Mr. and Mrs. Dan Whybark, Sunday evening.

Cameron — Lewiston callers last Thursday were Mr. and Mrs. Gus Kruger. Those who attended the picnic at Atwater Lake Sunday were Mr. and Mrs. Fred Newman and family, Mr. and Mrs. George Wilkin and son Kenneth, Mr. and Mrs. Otto Silflow and son Roy, Fred Silflow and sons Marvin and Emil, Edwin Mielke, Maxie Herbert, Lawrence and Herbert Schwarz, Herbert Brunstieck, Paul Silflow and Walter Koepf. The A. O. Wegner and Carl L. Wegner and Amos Spekter families were picnicking in Lawyers canyon Sunday. Wilma Schultz spent Saturday evening with Selma and Mildred Wegner. Dave Schoeffler and sons Frank, Wayne and Cecil called on Mr. and Mrs. Harold Whitinger on Sunday.

Southwick — Ray Triplett and family of Lewiston spent the weekend with the Jap Triplett family. Mrs. Loyd Eckman is visiting in the home of her sister, Mr. and Mrs. Tschanz and family. Mr. and Mrs. Bob Smith and family of Leland were Sunday guests in the Dick Wiegardner home. Russell Grant, Mae Grant, Eva McCoy and Mrs. Wilmer Hanks spent Saturday and Sunday in Lewiston.

Teakane — George Kime lost his house by fire Sunday afternoon. A number of friends and relatives were visiting in the home at the time the fire broke out. A fire had been started in the heater in the living room and a short time later the blaze was discovered in the roof. The neighbors hurried to the scene and assisted in saving most of the household goods.

Shoe Shop Moves — The Kendrick Shoe Shop moved last Sunday from their old location at the rear of the Jewelry and Gift Store, to their new building across the street from the local Washington Water Power Co. office.

Weather Blows Hot And Cold

It seems as if the weather man just can't make up his mind whether or not to let spring, or perhaps now we should say summer, come onto the scene.

Thursday morning of last week cars came into Kendrick carrying snow on their tops and across the rear windows — and thermometers in the valley read about 40 degrees! Friday and Saturday were also chill, with a cold rain falling part of Friday. Saturday was a bit warmer, and Sunday still better — and Monday was a beautiful day.

Tuesday the sunshine was bright, but the wind a bit cool, and a coat of some sort felt very comfortable.

BACCALAUREATE AND COMMENCEMENT DRAW CROWDS

The Kendrick Community church was filled to capacity Sunday evening for the annual Baccalaureate Service, when the following program was given:

Processional Mrs. H. C. Schupfer
Invocation Rev. John S. Brasch
Hymn Congregation
Scripture Reading Rev. Brasch
Anthem, "Song of Hope"

Prayer Junior Girls' Chorus
Offertory Music Mrs. H. C. Schupfer
Anthem, "Joy and Courage"

Sermon "Comrades of the Way" Rev. J. H. Coulter
Hymn Congregation
Recessional Mrs. H. C. Schupfer
Benediction Rev. John S. Brasch
Postlude Mrs. H. C. Schupfer

The interior of the church was beautifully decorated with huge bouquets of tulips, lilacs (in white, purple and pink) ferns and other greenery, this latter the work of the Sophomore class, as a final tribute to the graduating Seniors.

Commencement Exercises

Monday evening the big Kendrick gymnasium was also filled to capacity to witness the final ceremonies for the twenty-three members of the class of 1950. Following is the program:

Processional, "Pomp and Circumstance March No. 1" High School Band, Burke Sower, director
Invocation Rev. J. H. Coulter
Salutatory Joretta Holt
"Benedemeer's Stream" — An Irish Tune Senior Girls' Chorus, directed by Burke Sower.

Introduction of Speaker Jasper Nutting, Supt. of Schools
Address Mr. Jim V. Fowler
"Oh! What a Beautiful Morning" Senior Girls' Chorus
..... Directed by Burke Sower

Valedictory Luther Parks
Presentation of Awards Ben P. Cook, Principal of High School
The following were given: Luther Parks and Joretta Holt, Scholarship; Verna Easterbrook and Robert Ware, Citizenship; Hermina Meyer and Ted G. Fey, Sportsmanship.

Presentation of Eight Grade Clarence Rieman, Principal of the Kendrick Grade Schools.
Awarding of Eighth Grade Diplomas Mrs. Nell P. LaFollette, County Supt. of Schools
Presentation of Class of 1950

Awarding of High School Diplomas Gerald Ingie, Chairman Board of Education.
Recessional "Play's Hymn" High School Band, directed by Burke Sower

Board of Education
Board of Education members of Joint District No. 283 are: Gerald Ingie, chairman; A. O. Kanikkeberg, Clerk; Norla Callison, Arnold Cuddy and Harold Parks.

Faculty Members Listed
Below are the faculty members of the Joint District High school at Kendrick:

Ross Armitage, Jacob Brant, Mrs. Werner Brammer, Ben P. Cook, Mrs. W. B. Deobald, Mrs. Louis Lindquist, Jasper L. Nutting, Clarence Rieman and Burke Sower.

Eighth Grade Graduates
Below we list the members of the Eighth Grade graduating class (Junior High) who received diplomas:

Aletha Joyce Armitage, Edgar Jimmy Bamberg, Jack Norman Barcklay, Priscilla Mae Benschoter, Nancy Lee Callison, Diane Rae Carter, Janice Louise Christensen, Albert Jess Clemenhagen, Loyd Cook, Marcelle Elaine Craig, Orval Ronald Craig, Norma Lee Dagefoerde, James Carl Finkle, Mary Ann Glenn, Leonard Eugene Gustafson, Darrell Russell Hanks, Theodore Edward Havens, Ernie Richard Heimgartner, Oreta Rae Holt, Donald Lee Ingie, Ann Kay Kanikkeberg, Donna Mae Kanikkeberg, Margie Ann Kazda, Verna Mae Knox, Paul Albert Kortemeier, Theodore Herman Meyer, Arlene Ivanette Osborne, Leone Otella Parks, Adetta Cedell Sams, Marlene Joanne Silflow, Charles David Westendahl, Unis Florence Westendahl, Alice Gwendolyn Whitum, Walter Lee Wolff and Merwyn Emmett.

Class Of 1950
Patricia Faye Brocke, Jerry Chamberlain, Max E. Dammarell, Maxine J. Dammarell, Verna Mae Easterbrook, Donald Henry Eichner, Ted G. Fey, David A. Grim, Peggy Marie Hadley, Jack J. Hammond, Carl Stanley Hanks, Gerald Wayne Harris, Joretta M. Holt, Evelyn Kazda, Jean Edith Lohman, Patricia Leanne Long, Hermina D. Meyer, Donald F. Millard, Betty JoAnne Parks, Luther D. Parks, Frankie Merle Peters, Armeta Bardeen Sams, Robert C. Ware.

MEMORIAL DAY — TUESDAY, MAY 30

Though but few remain of the Veterans of the Civil War, for whom this day originated — time has brightened rather than dimmed its true meaning. Let's all observe it in a fitting and proper manner.

N. P. TO OUT OFF MORNING TRAIN SERVICE JULY 9TH

July 9 has been set as the date the Northern Pacific Railway Co. plans to stop its early morning train from Spokane to Lewiston and return.

Official notices to that effect were posted over the week-end at N. P. depots between the two cities.

Notice of the railway's intention has been filed with the Public Utilities Commission of Idaho and Washington Public Service Commission, it was reported Monday by John Y. Blumstrom, general N. P. agent at Lewiston.

Plans for the curtailment were previously announced by the railroad on April 14. Train discontinued would be 312, which leaves Lewiston at 8:05 a. m., and No. 313, which arrives from Spokane at 2:50 a. m. The N. P. would retain one round-trip schedule, train 311, arriving here at 1:45 p. m., and No. 314, leaving at 3:20 p. m.

The postoffice department is investigating the feasibility of establishing a star route to replace the mail service that would be lost by curtailing the morning train. Postmaster Tish Erb announced yesterday. Mrs. Erb was informed in a letter from the department that its field men will look into the possibility of using motor freight for hauling the morning mail.

The Lewiston Chamber of Commerce has voted not to protest the train curtailment, but to request the postoffice department that a satisfactory substitute means be found for carrying mail before the train shutdown becomes effective. — Lewiston Morning Tribune, May 9.

Our Note: Local citizens are aware of the lack of passenger travel on this line, and their chief concern, like that of Lewiston, lies in the handling of mail — and can that problem be worked out, there is little likelihood of any protest being filed from this section.

Ancient Items Comes To Light
Recently, while engaged in cleaning up the old Jesse Michael cabin, which he purchased last year, Lester Weaver brought to light an old diary, dated 1883, and issued by the Standard Implement Co. of Kansas City, Mo.

It contains advertisements for the "Newton Wagon," said to be "light and easy under a load," "Grand Teator Plow Co's Reversible Tooth Harrow," and the "Standard Riding Cultivator," the only implement on which there seems to be a price — and that \$11.20!

Another item is an old "Mitchell, Lewis & Staver Co." catalogue of implements and vehicles. It carries no date, but from the descriptions of the Mitchell cars Wade Keene says that it is of "1914 vintage." Five models of Mitchell cars are listed, selling from \$1,600 to \$2,650 "in the Northwest."

Another item is an issue of the "Kansas City Weekly Star," dated July 6, 1904. Chief items in this paper seem to be the sinking of the Danish steamship "Norge," loaded with emigrants for New York, which went down with a loss of about 700 lives. There is also a brief account of fighting between the Japs and Russians, with the Russians getting the worst of it.

Another old paper is the "Appeal to Reason," published at Girard, Kansas, and dated January 28, 1911. This paper shows no reason why it was saved, no articles of particular interest appearing.

Take Marriage Vows
Walter McCall, Jr., son of Mr. and Mrs. Walter McCall, Kendrick, was united in marriage to Miss Jean Monaghan of Coeur d'Alene, Idaho. Thursday evening, May 18, at 9:00 o'clock, at the Methodist church in that city.

Further details are lacking at this time.

Those from here attending the ceremony were Mr. and Mrs. Walter McCall, Sr., and son Bob, Mr. and Mrs. Dick McCall, Mr. and Mrs. Gordon Peters and James Candler.

SHORT NEWS ITEMS FROM OUR LOCAL SCHOOLHOUSES

Eighth Grade News Items
Last Friday, 58 boys and girls of the seventh and eighth grades spent an enjoyable day in Lewiston.

Before lunch the group toured the big P. F. I. mill and vermer plant — and one thing agreed up — lumber was traveling everywhere.

Lunch, complete with ice cream and pop, was eaten at the city park. Following lunch the thrills and spills of roller skating were enjoyed at Skateland. Before boarding our buses for home, we toured Spengler's Bakery, at the conclusion of which Mr. Spengler gave each a treat.

Students receiving Certificates of Award for being neither absent nor tardy for the school year were: Verna Knox, Ernie Heimgartner and Marcella Craig.

Donald Ingie and Ann Kanikkeberg will receive Certificates of Cooperation in Attendance for being absent three days or less due to illness.

Each of the 35 members of the graduating class have earned a Gold Seal Home Reading Certificate of Award for reading and reporting on eight or more library books during the year.

Seventh Grade News
The seventh grade entertained the eighth with an English playette entitled "A Party for the Parts of Speech." The story centered around a boy who was kept after school to learn his English lesson. He falls asleep and in his dream the other students appear before him, representing the parts of speech.

Monday the pupils held their annual school picnic at Lucken's flat. The time was spent in enjoying a picnic lunch followed by sports and games.

The following students received a Gold Seal Reading Certificate: Sue Tacker, Lorraine Clemenhagen, Wilma Wilson, George Jones, Monty Clemenhagen, Herman Hinrichs, Dawn Marie Nelson, Kenneth Hanks and Yvonne Evenden.

Those receiving a Co-operative Attendance Certificate were: George Jones, Kenneth Hanks, Norman Silflow, Orville Roberts and Beverly Mattoon.

Music Program Enjoyed
On Friday evening of last week the Kendrick and Juliaetta schools presented a combined music program at the Juliaetta gymnasium. The program is as follows:

First Grade — "My Little Pony," "The Little Girl and the Robin," and "My Little Nut Tree." Janice Heimgartner was the accompanist.

Second Grade — "Oh, Where Has My Little Dog Gone?" "Raindrops" and "The Echo," with Mrs. Mann as accompanist.

Third Grade — "There Are Many Flags," "America The Beautiful" and "Little Bird." Mrs. Gruell was the accompanist. This grade also played "Twinkle, Twinkle, Little Star" on their tonettes.

Fourth Grade — "Roses From The South," "Jolly Old Roger" and "All Through The Night." Girls' Quartette; "The Bird's Call" by all.

Fifth Grade — "The Kansas Line," Paul Crawford, soloist; "Mooje Moccasin (Boys)," "Birds and Flowers" (Girls); "The Caisson Song (All), Mrs. Lura Nelson and Karen Nelson, accompanists.

Sixth Grade — "The Spanish Cavalier" (Girls) and "Get Along Little Dogies" (All), Mrs. Gruell, accompanist.

Grade School Chorus — "America." The Junior High and High school section consisted of:

Junior Girls' Chorus — "The Wild Rose" and "Hear, All Ye Nations." Trumpet Duet — Maxine Silnd and Roger Jones.

Senior Girls' Chorus — "Rustle of Spring" and "Oklahoma." March: "Band — O' Captain, March; "Prairie Skies," overture and "Right of Way," march.

The program was directed by Burke Sower, music instructor in the district schools, and was thoroughly enjoyed by a capacity audience.

Latah Chambers Of Commerce

The regular monthly meeting of the Latah County Chambers of Commerce will be held in the basement of the Community church next Wednesday evening, May 31, with the 6:30 dinner being served by the Kendrick W. S. C. S.

This meeting, postponed from May 17, as previously announced, is open to the public. Anyone is welcome to attend.

The topic for the evening is "Weeds" with the entire program being arranged by the County Chambers.

Mark the date on your calendar — and be there!

NEWSY ITEMS FROM AMERICAN RIDGE AREA

Club Meeting
Our Club met at the home of Mrs. Frankie Benschoter last Thursday with a goodly number present. The members have chosen the name of "Hy-Hope" Club, and we welcome anyone interested at any time.

Since we had no Home Demonstration agent at this meeting, our project of "Drapery" will be taken up at our next meeting in June, which will be held at the home of Mrs. Harry Benschoter, with the Bear Ridge club as guests at this meeting. We hope to have our Home Demonstration agent with us at this meeting.

Our hostess, Mrs. Frankie Benschoter, served delicious refreshments at the close of the afternoon.

Other News
The 4-H Club boys met at the home of Geo. Havens Saturday evening with their leader, Cecil Roberts. The boys chose as their club name "The Lucky Eight." All members answered roll call.

Rev. Kernutt of Moscow will show moving pictures on "Cuba" at the Harold Roberts home Friday evening at 7:45. All interested are welcome.

Many folks from this ridge attended the Baccalaureate and Commencement program in Kendrick on Sunday and Monday evenings.

Mrs. L. Heimgartner and daughters accompanied the Juliaetta school children on their picnic at Spalding park, Monday.

Many folks attended the picnic in honor of the ridge school children given by Helen Mattoon at the Moscow park on Tuesday. Guests from Moscow were Mrs. Ira Havens and granddaughters Judy and Anita Mills, Mrs. George Davidson, Mrs. Fay Kossman and children and Rilla Davidson. A good time was had by all present.

Mr. and Mrs. Sam Widmer of Kellogg arrived Sunday morning and were guests of Mr. and Mrs. Henry Brammer in Juliaetta, as were Mr. and Mrs. Werner Brammer and Mrs. Anna Meyer. In the afternoon they were callers at the Herman Meyer home near Leland; the Carl Koepf home in Southwick; and the evening guests of Mr. and Mrs. Geo. Havens.

Mrs. Anna Meyer of Green, Iowa, who has been visiting her niece, Mrs. C. L. Wegner in Fullman, for several weeks, arrived Saturday and is now visiting with Mr. and Mrs. Werner Brammer.

Rev. and Mrs. Kernutt, Mrs. Wayne Dickinson, Mrs. Loyd Skramstad and Cecil Roberts met at the Harold Roberts home for a board meeting of their church Wednesday evening. Following the business session Mrs. Roberts served delicious refreshments.

Mr. and Mrs. Geo. Davidson of Moscow, Mrs. Andy Cox and Andy Sue and Mrs. Ed. Kent were Sunday afternoon callers at the Norla Callison home.

Mr. and Mrs. Perry Mattoon and family were Sunday dinner guests of Mr. and Mrs. Bud Fey and family.

Mr. and Mrs. Gust Granberg and family of Clarkston were Sunday afternoon callers at the home of Mr. and Mrs. Harold Roberts and family.

Mr. and Mrs. Geo. Havens and family were Sunday dinner guests of Mr. and Mrs. Ira Havens and Grandmother Keene in Moscow.

Sunday guests of Mr. and Mrs. Frankie Benschoter were Mr. and Mrs. Don Benschoter and daughter Sherry of Craigmont; Mr. Garner of Peck; Dr. and Mrs. Dan Guy, Mr. and Mrs. Jack Odem and Mr. and Mrs. Ed. Carr of Lewiston, and Paul Heck of Seattle. Mrs. Andy Cox and Andy Sue and Mrs. Ed. Kent were afternoon callers.

Walter Benschoter and son Jack were visitors in Peck on Friday.

Mr. and Mrs. Frankie Benschoter and Mrs. Emma Kent were in Lewiston on Friday. Jack Odem, who spent several days at the Benschoter home, returned home with them.

Mr. and Mrs. Harry Benschoter were in Peck Sunday, Mr. Benschoter visiting his mother, Mrs. Frank Benschoter, Sr., and Mrs. Benschoter visiting her parents, Mr. and Mrs. Dan Lyle.

Mrs. Warney May, Jr., was a visitor of Mrs. Geo. Havens Friday afternoon.

Many folks from here attended the Music Festival given by the Juliaetta and Kendrick schools at the school house in Juliaetta Friday evening.

Mrs. R. F. Wyatt of Vancouver, Wn., is visiting with her aunt, Mrs. Ed. Kent.

Mr. and Mrs. Harry Benschoter, Mr. and Mrs. Warney May, Sr., and Mr. and Mrs. Warney May, Jr., attended the Weed Control meeting in Moscow Saturday.

Mrs. Howard Hoffman of Kendrick was a Tuesday afternoon caller in the Harry Benschoter home.

Mr. and Mrs. Newt. Morey and

(Continued On Page 2)

PERSONALS AND NEWS ABOUT KENDRICK FRIENDS

Word has been received that Gus Dahlgren, former well-known resident here, is now in the Veterans Hospital at Portland, Oregon.

Mr. and Mrs. Frank Jean of Juliaetta were visiting friends and transacting business in Kendrick Saturday.

Mr. and Mrs. Pearl Hazeltine of Stony Point were Kendrick callers Saturday, later calling at the Ted Mielke home at Cameron.

J. D. Owen, Southwick, was a Kendrick business visitor Saturday. Charles Andres of Potlatch was a visitor in town Friday.

Mrs. C. E. Rudd accompanied her daughter, Mrs. Bob Magnuson and children, home from Tacoma last Monday, remaining in the Magnuson home until Wednesday. Mrs. Magnuson and children had spent a week with her.

Mr. and Mrs. E. O. Stuart and Mr. and Mrs. L. Stuart and children of Lewiston met their daughter and family, Mr. and Mrs. Kenneth Brocke and children at Spalding park, Sunday, where a family picnic was enjoyed.

Mr. and Mrs. Frank Brocke of Troy, Ida., were Sunday guests in the home of Mr. and Mrs. Walter Brocke.

Among the students home from the U. of I. over the week-end were Chloee McKeever, accompanied by a school friend; Gordon Cook, Herbie Millard and Douglas Christensen.

Dr. J. H. Coulter spent Tuesday evening at Pomeroy, Wn., as the guest of Rev. and Mrs. Myron Sharland. On Wednesday a group of ministers and others spent a "work day" at Camp Wooten (Hidden Valley) getting the buildings and equipment in shape for the opening of the camp season.

Mrs. W. L. McCreary was a Monday guest in the N. H. Rhodes home at Lewiston.

Mrs. Ed. Brown, accompanied by Kathryn and Violet, drove to Burke, Idaho, Sunday, bringing back her daughter, Pearl, who has been teaching there.

Mr. and Mrs. Herman Travis and family of Winchester were in town Sunday visiting in the J. G. Travis and Lloyd Ware homes.

Mr. and Mrs. Jack Travis were Lewiston visitors Sunday evening.

Mr. and Mrs. Jack Maynard and family of Lewiston were in town Monday visiting in the A. W. Jonas homes and attending graduation.

Mrs. George Christensen and two daughters of Lewiston visited in the Lloyd Ware home, attending Commencement that evening.

Mrs. Bonnie Easterbrook of Marysville, Wn., arrived here Friday to visit relatives and attend the Commencement Exercises, her daughter, Verna, being one of the graduates. Mrs. Easterbrook accompanied her father, Claude Craig, here, after Mr. and Mrs. Craig visited her home.

Mrs. Craig is staying at the Easterbrook home during her absence.

Mr. and Mrs. Phil Kirby of Lewiston and Mrs. Rose Farrington of Clarkston were visiting with friends in town Monday morning.

Mrs. W. B. Deobald, accompanied by her sister, Mrs. Allan Sather of Genesee, spent Sunday at her home here. Mrs. Deobald reports that Mr. Deobald, a patient at St. Luke's hospital in Spokane, is still critically ill, but seems to be showing slight improvement.

Mr. and Mrs. Jacob Brant will leave today (Thursday) for the east and south, going first to Philadelphia, Penn., and later on into the south, by way of Washington, D. C. He taught Science in our local high school this past term.

Clarence Rieman, eighth grade and high school manual training instructor, left Wednesday for the Lewiston Orchards, where he will spend the summer with his parents.

Sunday dinner guests in the Walter McCall home were Mr. and Mrs. Herman Hartung and family of Clarkston; Mr. and Mrs. Jack McCall and daughter Judy of Lewiston, and Mr. and Mrs. Dick McCall. Evening callers were Mr. and Mrs. Walter Benschoter and daughter Priscilla.

Mr. and Mrs. Tom Keene and children, accompanied by Wade T. Keene, drove to Lewis-Clark park, below Dayton, Wn., Sunday, where they joined Mr. and Mrs. George Jones and children and Mrs. Wade Keene for a picnic. Other present were Mr. and Mrs. Rance Oglesby of Lewiston; Mr. and Mrs. Estol Crow of Uniontown, and Mr. and Mrs. John Crockett of Orofino. The Keene's report little Penny Jones was present for the picnic and enjoyed it as much as anyone, despite the fact that she still wears bandages as a result of recent burns.

Mrs. Wade Keene accompanied the Tom Keene family home.

Mr. and Mrs. C. C. LaBronte of Salt Lake, who have been visiting the past ten days in the home of her sister, Mrs. D. A. Christensen and family, left for their home last Thursday.

Beverly Schupfer had as a house guest over the week-end a school chum, Frances Butler, of Gooding.

Mr. and Mrs.ONEY Walker of Lapwai were in town Tuesday visiting with friends and transacting business.

Mrs. Millie York, Lewiston, is visiting in the Walter Brocke and Frank Abrams homes.

Mr. and Mrs. Vernon Banks of Troy were Sunday guests of Mr. and Mrs. Edgar Long.

Mr. and Mrs. Ira Bolon of Walla Walla and their daughter and family, were Sunday visitors in the Marvin Long home.

AMERICAN RIDGE NEWS

children of Big Bear ridge were Sunday evening visitors in the home of her parents, Mr. and Mrs. Ed. Kent. Mrs. Warney May, Sr., called on Mrs. Geo. Havens Monday afternoon. Mr. Weber of Juliaetta is assisting Walt Bigham with spring work. Mrs. Geo. Havens called on Mrs. Sam Bigham Friday morning. Mr. and Mrs. Warney May, Sr., and Mr. and Mrs. Warney May, Jr., were in Colfax Tuesday, where Warney, Jr., received medical attention. Robin Magnuson of Kendrick was a Wednesday over-night guest of Rayner Havens. Mrs. Wayne Davis and son Bruce attended the Commencement Exercises in Moscow Wednesday evening. Dale Yarnell was one of the graduates. Mr. and Mrs. Wayne Davis and son Bruce attended a family reunion at the Melvin Storey home in Pullman last Friday in honor of Loyde Lehrbas and his mother, Mrs. Lehrbas of Washington, D. C. Mr. Lehrbas is a special assistant under secretary of state Webb. Mrs. Dora Taylor of Moscow spent Monday and Tuesday with Mr. and Mrs. Walter May. The Junior Class of Kendrick came up Monday to the home of Mrs. Harley Eichner, who accompanied the girls and assisted in gathering flow-

ers for decorations for the Commencement Exercises Monday evening. Willard Eichner of Ritzville was a Saturday guest of Mr. and Mrs. Harley Eichner. Marilyn Schupfer spent Monday night in the Harley Eichner home. Road Now Being Graveled Graveling operations are now in full swing on the new road link between Kendrick and Juliaetta, and a big improvement can be noted in travel conditions between the two towns. The new fill, however, is still soft, and heavy logging trucks leave ruts which must be constantly filled by a patrol pushing gravel. A shovel and dump trucks have been in use on the sliding hill near the Brammer home, and ultimately that situation should also be under control. It is indeed to be regretted that the road work cannot be pushed on for completion of the road between the two towns this summer — it undoubtedly could be if the powers-that-be would just go ahead. L. S. L. A. Meeting The meeting of the Leland School Lunch Aid is called for Friday, May 26, at 2:00 p. m., at the school house. All mothers are urged to be present.

PERSONAL MENTION

Mrs. Rose Krowl of Clarkston is here this week visiting Mrs. Clarence Johnston. Dick Blewett came over from the ranch Monday evening, taking his wife and son Billy back with him. A. W. Jones returned home Sunday from Spokane, where he had visiting his daughter, Mrs. Jerry Hanson and family. Mr. and Mrs. Lew Proffitt and sons of Ashahka were Sunday guests of Mr. and Mrs. Earl Daniels. Carol and Charley Caklins arrived here Tuesday evening from Yakima to do some work about the Blewett building. Mr. and Mrs. Earl Daniels had as guests over the week-end his father, Fred Daniels, and grandfather, Dave Daniels, the latter 94 years old. They are old-time residents of Cavendish and are now living in Spokane. Dave Daniels returned to Spokane Monday, while Fred remained for a longer visit. Jim Robeson of Richland, Wn., visited his sister and family, Mr. and Mrs. Oral Craig over the week-end. Johnny Lind of Moscow spent the week with his grandparents, Mr. and Mrs. Paul Lind. Mrs. Paul Lind spent Monday and Tuesday in the home of her son, Mr. and Mrs. Leon Lind and family in Moscow. Mrs. Bina Raby and Evelyn Cook of Lewiston visited here last Saturday and Sunday in the Paul Lind home. Mrs. Hiram Galloway spent Tuesday in Lewiston helping her little grandson, Johnny Israel, celebrate his second birthday anniversary. Mr. and Mrs. Lester Crocker were Lewiston visitors Tuesday. Miss Pearl Brown will leave Friday for Butte, Montana, where she will visit over the week-end with friends.

I. E. A. Meeting Held
 Local I. E. A. of Kendrick Joint District No. 283 met May 16 at the High school for their final meeting of the year, with Asa Calvert as presiding officer. Jasper Nutting, superintendent, gave a very interesting report on his trip to Chicago where he was a delegate to the N. E. A. convention. Mr. Nutting represented the entire state of Idaho. Ben Cook was elected as a delegate from the local I. E. A. for a work conference to be held this coming September in Boise. Election of officers for the coming year was held, the following being chosen: Ben Cook, president; Asa Calvert, vice president; Fern Lindquist, secretary-treasurer. At the close of the meeting Mr. Nutting expressed his thanks to all the teachers for the co-operation throughout the school year. Refreshments were served by Fern Lindquist and Janice Jones.

Petrified Potato
 One evening last week while Bud Gephart and his guest, Herman Beyer, were preparing the evening meal at his bachelor home, Herman, who was peeling potatoes, hit one with his knife that refused to give off its skin, for the simple reason that it was petrified! Bud says the potato was dug last fall from his patch of Netted Gems, sacked and kept with the rest — but petrified it is! There is of course, the strong probability that it was from a crop of some years before, and had just lain in the ground. The potato, with its eyes and skin breaks plainly to be seen, is on display at the Gazette office. We have heard of petrified eggs, wood, etc., but this is the first spud!

Improvements About Town
 New awnings are being stalled across the front of the Kendrick Co-operative Creamery and the Travis Furniture store. The front of the local liquor store and the hotel building are receiving a coat of paint at the hands of their owner, Elton Wilson. Edgar Long is painting all the woodwork of the Fraternal Temple building. The appearance of both buildings is greatly improved.

Activities Of Local Students
 U. of I. Moscow — The University Singers were featured in the musical part of the program for the University of Idaho May Fete. Leon Lind and Chloe McKeever, Kendrick, are members of this group. Robert Lind, Kendrick, is one of the Madrigal Singers who presented a concert of medieval songs and Brahms' waltzes at the University auditorium. Chemical engineering students from the University visited the new P. F. I. pulp mills in Lewiston. Theodore Deobald was in the class.

Grangers Visit Troy
 It was "visitation" meeting night at the Troy Grange Saturday evening, with Deary furnishing the opening ceremonies Kendrick the closing, and Moscow the program. Two songs were furnished by six ladies from Moscow — and in a novelty number "Seven Men With Hats" Frankie Benscoter and Arthur Foster of the Kendrick Grange won the honors. A delicious lunch was served at the close of the evening by the host chapter. Twenty members were present from Kendrick.

Child Health Clinic Held
 Last Wednesday morning in the Community Church basement, 17 children were examined at a preschool Health Clinic, sponsored by the Kendrick P. T. A., with Mrs. Frank Abrams as chairman. Dr. McQueen, assisted by Miss Elizabeth, gave the health check-ups. It is hoped to have another such event before school begins this fall. Mrs. Abrams wishes to thank all who co-operated in any way.

W. S. C. S. Study Group
 A meeting of the W. S. C. S. study group is called for Friday afternoon at 2:00 o'clock at the home of Mrs. John Darby to finish the study course, "Women of Scripture." All are urged to be present.

Two-Year Study of Polio Throws Light on 'Carriers'

Research has added evidence that entire family groups rapidly become "carriers" of polio virus when one member contracts the disease, according to a University of Michigan doctor.

However, "carriers" were also found to develop immunizing agents very quickly to the particular virus affecting the family, Dr. Gordon C. Brown, associate professor of epidemiology in the university's school of public health, declared.

Dr. Brown reported the results of a two-year study on poliomyelitis virus to the 34th annual meeting of the American association of immunologists.

In a study of three families in which cases of polio occurred in 1948, Dr. Brown found 13 "carriers" of polio virus among 22 individuals. Five clinical cases of the disease were found among the group of eight adults and 14 children. Two grandmothers were included in the adults.

With only two exceptions, the virus was found in persons under 12 years old, he pointed out. The individuals from whom virus was not recovered were all over the age of 15 years.

Of nine individuals with no polio virus in their body discharge, Dr. Brown found evidence in their blood serum of immunizing agents of the Lansing type, (one of the two common types of polio virus), indicating they had had previous exposure to polio virus of the Lansing type but had successfully escaped contracting the disease.

He reported that three people carrying non-Lansing type virus in their body discharge were also found to have some of the Lansing antibodies (immunizing agents) in their blood serum. Two of these individuals had clinical cases of the disease, indicating that although they have been exposed to Lansing type virus and had developed Lansing antibodies, they were not able to combat the non-Lansing type virus.

Mystery in Drop of Oil Explained by Scientists

Oil is black, but shows many colors when dropped on a wet pavement. Many wonder why it does so. A large quantity of oil looks black, because light cannot get through it, but is absorbed. In a thin film, it is transparent. Such a film, which may be formed on a wet pavement, shows "interference" colors. Some light falling on such a film is reflected from the top surface. Some goes into the oil, and is reflected from the lower surface where water and oil are in contact.

When the light from the bottom gets back to the top, its waves may interfere with those reflected from the upper surface. If the two sets of light waves are in step, they help each other, but if out of step one cancels the other, and there is darkness.

Light waves vary in length; those of violet color are shortest; about 70,000 to the inch, while those of red light are longest, some 40,000 to the inch. Thus, a film the right thickness to cancel out one color may reinforce another. As the film varies in thickness, different colors are produced.

Fill Cracks Before Painting

Before repainting a wall or ceiling, make sure that the plaster is smooth and free from cracks. Small hair-line cracks can be filled with the aid of a putty knife and patching plaster. Sizeable cracks should have more careful treatment. With the aid of a putty knife, cut out a wedge-shaped area along the path of the crack. The wedge should be wider below the surface than at the surface so that the patching plaster will stay in place. After the patching plaster is inserted, the surface should be tooled smooth, then primed before the final coating is applied.

Swine Influenza

Swine influenza has been causing trouble the year around in some hog-growing areas, according to the Journal of the American Veterinary Medical association. Several farmers, accustomed to seeing this disease from late fall through spring only, have been caught flat-footed by outbreaks in the summer months. The AVMA journal says that veterinarians have reported cases of summer influenza that appear to be identical to the "flu" seen in swine during cold weather. The only difference is that summer death losses have been higher—up to 15 or 20 per cent—mainly due to complications of acute pneumonia.

Radio Reception

Radio reception near a high-tension power line can be improved, although it is a difficult problem. It would probably help to erect a good antenna, as high as possible as far away from the high-tension lines as you can get, using a shielded lead-in to connect it on the set. The antenna should be pointed toward the station you want to hear, and away from the power line. A good ground connection on the receiver is also desirable. Some receivers are affected by such interference more than others, depending on the circuit used, the number of tubes, and other factors.

JUST A REMINDER!

McCormick-Deering machines are built with Genuine IHC Parts when you buy them new. You wouldn't accept them any other way. So isn't it good business, when wear and tear or any accident make new parts necessary, to replace with the same quality products?

You'll be sure of satisfactory performance then. Genuine IHC Parts retain and continue the performance that you had when your machine was new. Don't handicap your equipment by careless selection of service parts.

FOR YOUR PROTECTION, ALWAYS USE GENUINE IHC PARTS. GET THEM HERE.

Then
 You'll Be
 All Set
 To Go
 To Work!

ARTHRITIS Hundreds Claim Its Grip Broken!

Dear Friend:

Do you have Arthritis? Have you a relative or friend that is suffering from this painful, distressing ailment?

I came upon a simple remedy, that ended my long search and battle to rid myself of Arthritis. I had my teeth pulled, tonsils out, serum shots, electric fever treatment, special built shoes, hot baths, pills, and salves. The Arthritis withstood them all, and examination in several of the best known clinics could detect nothing. Finally, I discovered Sulgly-Minol. Today, after seven months I am more free of pain and soreness than at any time in twenty years. Can work ten hours a day, with nothing more than tired feet. Legs, hips, back, neck and arms are practically free of pain and soreness. This has cost me less than six dollars.

This is all I did, and all you will have to do to try Sulgly-Minol. Just rub it on the soles of both feet before going to bed. A bottle will last about a month and will be enough to tell whether it will help. If it helps, keep it up for a month, and after that, just as you feel. If my feet feel sore from too much activity, I rub some on for a night or two. In my opinion, the benefits of Sulphur are more sure and complete on the soles of the feet. The results obtained have been acclaimed by many as a Godsend.

Often I have asked the question, "Why can't something be done to help me?" I sincerely believe that here is something that will help people who are suffering from Arthritis and want to tell as many as I can about it. I'm sure you do too. (signed) WALTER W. GRAMER

Tax Revenue Up And Down

From the office of the state tax collector comes the following brief but concise summary of Idaho tax income:

MICKIE SAYS—

WHEN YOU BRING AN ORDER FOR PRINTING TO US, YOU ARE HELPING US TO PUT OUT A BETTER NEWSPAPER, WHICH HELPS OUR TOWN!

Cigarette Tax — Continues to produce at a fairly constant rate, showing a slight increase over last year.

Beer Tax — Took a sharp drop during April but will recover with warmer weather.

Kilowatt Hour Tax — Continues downward course due to the 1949 amendment which exempted certain consumers.

Punch Boards — This source of revenue is maintaining a lead over last year as more and diversified types are placed on the market.

Coin Machines — Revenue from this source is maintaining quite a constant volume.

Store Licenses — Off considerably due to repeal of the graduated chain store tax by the 1949 legislature.

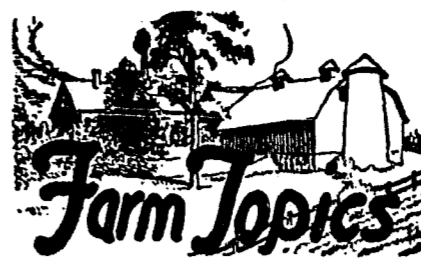

Inheritance Tax — This source is never constant or uniform but is subject to unpredictable circumstances.

Mine Tax — Is now showing the effects of lower metal prices together with work stoppage of last year. Income tax was also affected for the same reasons.

Motor Fuels — Continues to maintain a commanding lead over last year. More new cars are on the highways and most of the old ones still in service.

Income Tax — In dollars reflects the greatest drop in revenue but percentage-wise some other sources have decreased proportionately to a greater degree.

Farmers Continuing To Buy Machinery Demand Backlog, Labor Costs Held as Factors

Although farm operators' net income and their purchases of agricultural machinery were both down in 1949, neither has slipped very far from their peak levels. Realized net income from agriculture in 1949 approximated 14 billion dollars, according to the latest estimate of the bureau of agricultural economics.

The bureau reported that no official figure of agricultural machinery purchases in 1949 is yet available, but informed trade and Washington sources expected the total to be down from last year by about the same percentage as farmers' net income. That would indicate a figure of about two 2.1 billion.

In the record year of 1948, purchasers reached 2.4 billion, an all-time high. If 1949 expectations ma-

Doctor Gives Health Tips For All Who Travel by Air

Most people can now travel by air without any qualms about upsetting or harmful results from the altitude, says Dr. William Bolton, Chicago, associate director of the American Medical Association's bureau of health education.

In some questionable instances, however, medical consultation should be obtained before a flight is attempted, Dr. Bolton points out.

Protection against possible development of motion sickness includes wearing warm clothing and use of cotton plugs in the ears to reduce the effects of vibration and noise. A simple procedure that is recommended if one feels ill during a flight is to tilt the head back against the seat. Specific medication may be prescribed by a physician.

Anemia may be a definite cause of individual inability to obtain sufficient oxygen for the body's needs even when a flight is being made at the usual heights of one or two miles. It is a matter of common sense for the prospective air traveler with anemia to have the condition of the blood checked.

Those with certain forms of heart disease may require careful analysis of the pros and cons by their physician before taking an air trip. Some can be affected adversely by flights at relatively low levels, but travel in pressurized cabin planes obviates such hazards.

Among specific disorders that should be studied are angina pectoris and disease of the heart's blood vessels that may have reduced permanently the blood supply to that organ. High blood pressure is not considered a barrier to air trips unless its upper level is over 200 and the lower about 120.

How Science Bends Light To Help People See Better

Light is the basic stuff of seeing. And visual scientists have for centuries been devoting tireless energy to the task of studying light and learning to leash it to the service of man's eyesight.

If a picture taken by a camera is to be in focus, all light rays from each object in the scene must get to one particular spot at the same time. The camera lens collects them from a wide angle and so bends them that they go where they should. Similarly, in the human eye all light rays from an object should go to a single spot on the retina, or "film" of the eye, in order that a clear image may be seen. Every eye has a natural, built-in lens which bends light to this end. But in many cases the natural lens does not do a satisfactory job, and then corrective eyeglasses must make up the difference.

When a slanting ray of light falls on a glass lens, its direction changes as it goes through. But just where it ends up depends on the curvature of the lens, both front and back. Here is where optical science performs a wonderful service, for limitless research has taught it to send the light ray with unflinching precision to the proper place on the retina of your eye. Your spectacles are effective because their lenses bend light in exactly the right way to correct your own particular seeing faults.

Glasses for Night Driving

Tinted eyeglasses should never be worn at night, because they cut down light transmission to a dangerous level. Even spectacles of clear glass cause a small amount of light loss from surface reflections—only about 5 per cent, but meticulous modern science has found a way to reduce that slight loss by coating lenses with magnesium fluoride. To minimize the disturbance from headlight glare, science has devised a new type of glasses with clear glass lenses on each of which a small mirror shield is placed just to the left of the pupil. The driver can see through these shields, but their front-surface mirrors reflect headlight glare and cast a protecting shadow across his pupils.

Railroad Finishes

Requirements of railroad coatings are varied. Locomotive finishes must withstand heat, moisture, oils, sunlight and abrasion. Locomotive and passenger car finishes must also be resistant to acid and alkaline cleaners, for they are frequently cleaned with such compounds. Finishes on all rolling stock must have good weathering characteristics. In addition the finishes on trucks and underframes must withstand moisture and the abrasion of flying particles of stone and cinders. The finishes on roofs and sides must withstand the abrasion of flying cinders.

Cotton Fire Prevention

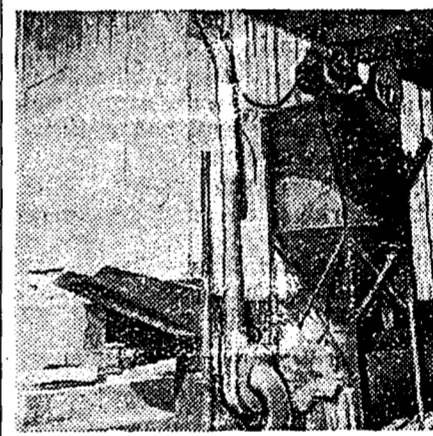

Reduction of fire hazards created by wood matches and other foreign materials in seed cotton is the number one project in the recently-initiated fire prevention campaign of the Texas Cotton Ginners association. Use of safety matches will be stressed. Ginners will distribute book matches to pickers harvesting cotton destined for their gins. The match book cover will carry a fire prevention message along with the ginner's name.

Typical of the ever-increasing use of farm machinery, is this farmer operating a tractor to break ground in a matter of hours which would have previously required days.

Several factors besides high incomes have acted in recent years to help boost purchases of equipment. In some measure they were expected to add strength to the equipment market for some time.

Automatic Feeder

Many southern farmers, who would like to install automatic feed handling setups, often pass them up because they feel they lack buildings large enough to hold the necessary electric equipment. That such tight-sided buildings, so necessary in cold climates, are not needed for this operation in the South is shown by the above picture.

Taken on a farm near Roanoke, Va., it shows a combination indoors-outdoors arrangement. Whole grain is fed into the outdoor mill, to the left. Here it is ground and then elevated by blower pipe into feed bins inside the combination grain and machinery storage shed in the background.

Poultrymen Are Advised To Purchase 'Quality'

"Good chickens can not be sold at a low price," G. S. Vickers, field manager of the Ohio poultry improvement association said in cautioning farmers to "buy on quality—not price."

Outlining a procedure to inspire wise chicken buying, Vickers said: "Investigate your local hatcheryman first. See if he has a careful and thorough pullorum disease control program. See if he obtains good breeding stocks; see if he keeps up the quality and constantly improves it by careful selection and the use of ROP pedigree or other good breeding males from good brooders."

Egg Preservation Methods Seen Due for Improvement

Present methods of preserving table eggs may be revolutionized by the use of a new compound developed by Dr. Alexis Romanoff and W. D. Yushok of Cornell's agricultural experiment station.

The compound, a mixture of a plastic substance called polystyrene, with chlorinated rubber and other chemicals, forms a film over the egg and preserves it at ordinary temperature.

Prepare Woodwork For Repaint Jobs

Proper Preliminaries Make Task Easier

Woodwork in farm homes can be repainted more effectively if proper steps are taken to prepare the surface beforehand.

This conclusion was announced after a study of the subject by the Eagle-Picher company of Cincinnati. Their survey, according to reports, showed that preparing the surface beforehand will always be valuable, whether the work is to be done by a professional, or by the farmer himself.

If the woodwork has been painted before and the paint is in good condition, it should be washed down

In removing this paint brush from a can of paint, it is always best to scrape off any excess fluid to prevent dripping or streaking.

with a few drops of benzine on a dry cloth. This is done to remove any grease. Care should be taken, however, as benzine is inflammable.

Should the present paint on the woodwork be in poor condition, then it should be removed entirely, or at least in the bad spots, with a paint remover. This applies especially to areas with blisters, roughness, streaks or looseness. Any paint left on should be cleaned with benzine.

New Farm Wagon

Like modern cars which "float" over the highways, this new, all-steel farm wagon has just been offered the American farmer to help smooth out rough fields and roads. Front and rear axle tilt independently (as shown) to give maximum flexibility and stability, even under capacity loads of 8,000 pounds. Auto-type wheels and steering mechanism are used.

Spring Calving Permits Cheaper Winter Feeding

Spring calving permits use of cheaper lower-grade feed during winter. A cow that calves in the spring will get along nicely on a plain kind of ration. But the cow that calves in the fall must be fed a milk-producing ration during the winter to keep the calf growing rapidly. Such a ration is more expensive.

In a climate where the cow herd must be on a dry feed for five months, a total of about 1,300 to 1,500 pounds of digestible feed is needed in winter.

A 1,100-pound pregnant beef cow can be carried through the winter quite cheaply when fed 1,100 pounds of clover hay, 1,500 pounds of corn stover and 500 pounds of oats straw.

Handling Tips Offered In Hatching Egg Work

Tips on handling hatching eggs have gone out to farmers from several extension service sources. In the main, farmers are urged to pack such eggs in cases with the small end down, and, if these eggs are marketed twice a week, it will not be necessary to turn them.

If hatching eggs are to be stopped for a short time, the advice continues, keep the room temperature between 45 and 60 degrees.

Medical Scientists Trace Radioactivity to Lone Cell

The first photograph of the track of an invisible beta particle speeding from a single body cell has been made by medical scientists.

The achievement was announced by scientists at the atomic energy project of the University of Rochester school of medicine.

It means that scientists studying growth and deterioration of tissue may now accurately locate single body cells which have absorbed a radioactive isotope.

The process is called autoradiography. The new photographic technique is made possible through use of special highly sensitive photographic plates produced by Kodak research laboratories.

The tiny nuclear particle which leaves its signature in this new process is called a beta particle. It is an electron thrown out of a radioactive atom after being placed in a cell or tissue section by scientists.

The achievement is expected to widen the scope of radioactive tracer research in biology and medicine. Radioactive tracers enable scientists to learn more about the processes of the human body. They have been made plentiful and inexpensive through the development of atomic energy.

Autoradiography itself is not new. The process was first discovered in 1896 when a French scientist laid a specimen of uranium sulfate on a pack of photographic plates. When developed, the plates showed a blackened area which later proved to have been produced by radiation from the uranium. This blackened photographic plate was the first autoradiograph.

When Does Child Reach Safe Age to Own Bike?

The safe age for bicycle use depends upon two things:

The Child—How thorough has his safety training been? Has he had safety instruction at school and at home? Have you taught him good pedestrian habits? Has he proved that he is aware of the dangers of street traffic? Does he obey your instructions in other things?

The Place—Do you live on a quiet street, with little traffic, or on a busy thoroughfare? Do you live in the city or a small town? Is police traffic control good and are drivers generally careful and observant? Will you limit the bike to off-the-street use until you are confident of your child's ability and attitude?

Once the decision is made to permit a bicycle, parents should make sure that the one purchased is the proper size, the council says. Then set down your rules of conduct and enforce them strictly.

Depending upon the nature of the child and the place of residence, this is the council's general guide for parents in buying a bicycle:

5-7 Years—The 20-inch bike. Residential off-the-street use only. Teach the child to dismount and walk the bike across streets.

8-10 Years—The 24-inch bike. Limited riding on quiet residential streets.

11 Years and Older—The 26-inch bike. Full freedom except on heavily-traveled arterial streets.

Vanishing "Flat Foot"

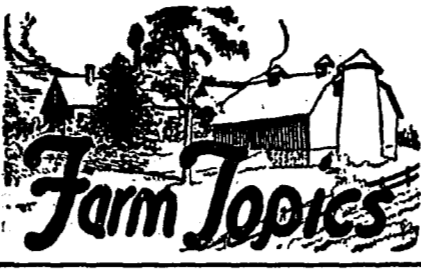

Flat feet as an occupational hazard for cops may soon go the way of the horse and buggy. So says the International City Managers' association, citing data gathered for the 1950 Municipal Year Book showing the extent of motorization of city police forces. Thirty-four cities reported that they do all their police patrol work with motor vehicles and no city reported having only foot patrols. All others use both foot and motor patrol. In relation to the number of police employees, cities of less than 500,000 population are more highly motorized than are the big cities. The number of police patrol cars per 100 policemen in the small cities is more than double that of the large cities. In cities of 10,000 to 25,000 population, motor vehicles average 13 patrol cars to every 100 employees while in the major cities the average is 5.2.

First White House Architect

President George Washington approved the selection of the site for the President's house—the White House—which had been selected by Major Pierre L'Enfant, a French engineer. The site was on the farm of David Burns, whose land extended southward to the Potomac river. A prize of \$500 was offered for the best design for the building. Several were submitted but that of James Hoban, an architect from Dublin, Ireland, who was then residing in Charleston, South Carolina, won the award. He thus became the first architect of the White House. The design is said to have been based on that of the Duke of Leinster's palace in Dublin.

Dairying in Puerto Rico

Dairy farmers in Puerto Rico have a good chance of doubling their milk production within the next 10 years. Artificial breeding offers special problems in Puerto Rico because of the comparative scarcity of telephones. This handicap prevents many farmers from calling insemination headquarters when a cow is ready to be bred.

Ringold Lady Dora Garners Extra Star

First Sow Ever To Raise Nine Champion Litters

America's champion production sow, the most prolific purebred sow in the country, has added still another star to her crown.

One hundred and five pigs raised to weaning age is the remarkable new record of this queen of the hog world, the first and only sow of any breed to raise nine production star litters.

To qualify for production registry, conducted by the purebred associations, a sow must raise a litter of at least 8 pigs to a minimum weight of 320 pounds within 56 days of birth. The pigs must be approved breed type, free from fault or defect, and at least half of them must be eligible for registration. The sow gains a star in her breed production registry books each time she repeats the performance.

The champion, Ringold Lady Dora, No. 753,056, a Hampshire owned

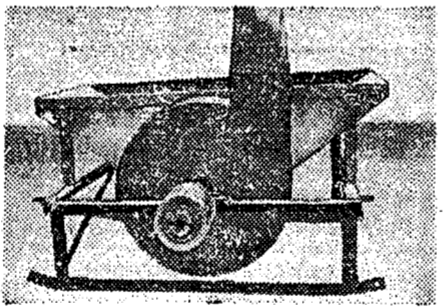

Queen of the hog world, Ringold Lady Dora, first and only sow to raise nine litters to qualify for breed production registry honors, is shown accompanied by latest litter which weighed 369 pounds at the 56-day weaning date.

by Meadowlark Farms, Inc. of Sullivan, Indiana, has repeated that performance nine times. Her first qualifying litter was farrowed September 6, 1944. Since then she has farrowed and raised spring and fall litters without a single interruption, and has raised an average of 9.5 pigs per litter. She has farrowed a total of 129 pigs and has raised 105 of them herself.

Her ninth star litter, farrowed this past fall, consisted of 10 pigs, nine of them eligible for registration. They had a litter weight of 369 pounds at the 56-day weaning age.

During that period her breeding and feeding was watched carefully. She was fed a ration consisting of corn, oats, a pelleted dairy product, some meat scrap or tankage, a little bran, and alfalfa pasture or alfalfa meal prior to each farrowing.

Grain-Blower

This grain blower, made on an Illinois farm, is constructed from scrap 14-gauge steel for the case and 1-1/2 angle iron for the frame. It is all arc welded. Grain is fed into the blower by an auger feed.

New Pig-Feeding System Paying Off for Farmers

A pig-feeding device which might be adopted profitably by many swine raisers has been developed in northeastern California.

The "pig strainer," as it is popularly known, was invented by Jess Steiner who lives in Modoc county near Cedarville.

A new kind of creep, the "strainer" sorts pigs out by size at feeding time.

Here's how it came about: Steiner purchased buttermilk from a creamery at Alturas which he feeds as part of the ration to his hogs. He figured out that it was necessary to feed the pigs according to size, since the small animals had difficulty in getting their fair share of feed alongside the larger hogs.

Therefore, he arranged his pigs at the trough where the buttermilk and concentrates are fed in such a way that, by using creeps, the hogs naturally arranged themselves according to size.

Tree Roots Troublesome When Invading Sewers

Tree roots mean trouble when they grow into sewers. Costly digging to free clogged drains can be avoided by a simple practice. George Adamson, of the Michigan state agricultural college, recommends use of copper sulfate or blue vitriol in freeing sewers of tree roots that may be causing stoppages.

These moderately fine crystals dissolve easily.

Beans Can Win Prizes

U. of L. Moscow — Jack's beanstalk grew into the sky. Idaho beans may not be quite so ambitious, but at least one plant will reach all the way from the Gem state to Chicago. The 4-H member with the best bean record in 1950 will earn a trip to the national club congress in Chicago as the guest of the Bean Growers Warehouse Association, Inc., Twin Falls. Reiteration of the contest under sponsorship of the bean growers was announced this week by Dan E. Warren, state 4-H club leader, and Jack Smith, manager of the bean association.

Kitty Rose Zimmerman, a 16-year-old girl from Hagerman, won the state prize last year.

County awards consisting of scholarships to the 4-H short course at the University of Idaho will be presented to boys and girls who qualify, Warren said. Requirements of the project, which have been prepared by a committee with the assistance of Eugene Whitman, extension agronomist, include membership in a bean club and production of at least one acre of commercial beans that may be great northern, small red mexican or pinto.

Candidates for the state award must be between the ages of 14 and 21 years. Entries will be accepted by county agents until July 15.

Jackpot Yet?
FUSE BOX
A cartoon illustration of a man looking at a fuse box with a speech bubble saying "Jackpot Yet?".

Heed the DANGER SIGNAL of blown-out fuses!

Inadequate wiring and overloaded circuits are the frequent causes of fire and the annoyance of having to replace blown fuse plugs.

Remember: A fuse plug is a safety device intended to tell you instantly when one of your circuits is overloaded.

Recognize fuse failure as a symptom of inadequate wiring. Call a qualified electrical contractor to remedy the situation.

A 100-Amp. Service Entrance is Recommended by City and State Inspectors.

look to WASHINGTON WATER POWER for the best in electrical living

ABOUT FUSES

THERE ARE JUST TWO CONDITIONS THAT CAUSE FUSES TO BLOW

One is too many or too large appliances or lights on the circuit. The other is a faulty condition within the circuit itself.

Either one calls for remedy.

Faults within the circuit may call for almost anything from taping a break in conductor insulation, to a complete new circuit.

If your circuit will not supply the current required by the appliances or lights you wish to use — the only remedy is more circuits, and circuits of greater capacity.

Whether it is the addition of a single outlet or a complete installation, we are equipped to care for your needs.

See our Ad. on Page Six.

Claude G. Crawford, Pastor
Sunday School at 10:00 a. m.
Morning Worship at 11:00.
Christ's Ambassador's 6:45 p. m.
Sunday Evening Service 7:45.
Bible Study and Prayer Thursday at 7:45 p. m.

Cedar Ridge School News
Our school ended Friday, May 19, with most of the parents and all the children gathering at the school house for a picnic lunch. Before the lunch the children were given their report cards and various awards by Mrs. Smith.

Those receiving Certificates for the County Spelling test were Judy Craig, Duane Chilberg and Ronald Craig.

Those receiving Certificates of Award for reading library books were Duane Chilberg and Clem Smith. With Gold Seals were Helen Konen, Gene Perryman and Ronald Craig.

Judy Craig received a prize for receiving 100 in all lessons in Spelling for the fourth quarter.

Clem Smith did not miss a day of school during the entire term. Helen Konen missed only one day. We are very proud of Helen because she walked through some bad storms and was very cold many mornings when she arrived at school.

We were going on a field trip Wednesday, May 17, but it "snowed us into the schoolhouse." We played games and made our Memory booklets, so we enjoyed the day anyway, even though we were angry with the weather man. Were we the only ones?

To Hold Safety Conference
Boise, Idaho (Special) — Several hundred delegates from eleven western states, Alaska, Hawaii, British Columbia and California will assemble here June 18, 19, 20 and 21 for the Twelfth Annual Western Safety Conference.

Paul V. Black of Boise, president of the conference, said it is expected to be one of the largest of its kind ever conducted in the western United States and announced that facilities of Boise Junior college had been made available for the four-day conclave.

Group meetings, he said, would be divided into industrial, traffic, aviation, women's activities, public and farm divisions and that nationally-known speakers would be present to lead the various discussion groups. In addition, a regional meeting of the American Society of Safety Engineers will be conducted in conjunction with the conference.

The conference will open June 18 with a truck and bus "rodeo," sponsored by the Idaho Motor Transport association and will close with a banquet the evening of June 21.

States which will be represented in all fields of safety endeavor include Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington and Wyoming.

Memorial Day Tuesday
Next Tuesday, May 30, is Memorial Day — and it is presumed that most, if not all the Kendrick business houses will be closed for that day.

No special observances are planned in Kendrick, but there will be such programs in many communities, and most will want to go here and there to honor those who have gone before.

Vacation Bible School
The pastor of the Full Gospel Church, Rev. Crawford, announces that the church will conduct a Children's Bible School during the school vacation. Announcement of the opening date of Bible School will be made later.

Parents Of Daughter
Mr. and Mrs. Don Bateman of Kendrick are the proud parents of a baby daughter, born to them Wednesday morning at the home of her mother, Mrs. Veta Stump.
Mother and babe are doing nicely.

Twin Falls Leads In Ag.
Boise — The recently completed 1948 Idaho crop and livestock product reports show that in cash sales Twin Falls county leads all others in the state, the Idaho State Chamber of Commerce said this week. Twin Falls county received, in 1948, for crops and livestock a total of \$38,672,461.

Second was Canyon county with \$31,270,033. Bingham county had \$20,945,460; Bonneville county \$18,644,876; Ada, \$15,113,857 and Jerome, \$14,509,847.

New Motion Camera Lens Developed by Scientists

University of Rochester scientists have developed a new motion picture camera made from artificial sapphire which is believed to have several advantages over optical glass lenses.

This was revealed by Dr. Robert E. Hopkins, associate professor of optics, and Dr. Brian O'Brien, professor of physiological optics and director of the institute of optics at the University of Rochester.

In perfecting the sapphire lens, the Rochester researchers have overcome difficulties which delayed its development for many years. The Zeiss company of Germany gave up on the problem 20 years ago, it was said.

One advantage of the sapphire lens is its extreme hardness. It is second only to the diamond in the hardness of natural gems. Used for the outside element of an optical system, it is almost impossible to scratch it. In fact, it can be cleaned by scouring with sand without injury, Dr. O'Brien said.

The sapphire lens' high refractive index and low dispersion gives the lens designer far greater freedom in eliminating aberrations and improving the quality and sharpness of images produced, the Rochester men reported.

"Light, in entering sapphire from the air, is slowed down to only a little more than half its speed," Dr. O'Brien explained. "The bending of light rays by a lens is thus accomplished with flatter lens curves and many advantages are derived from this. In addition to having the very high refractive index, sapphire has what is known as a very low dispersion. That is, the refractive index changes very little with the color of the light, and no glass as yet discovered can compare with sapphire in the combination of these two properties."

For a change in diet get Fresh Salmon, Halibut or Oysters at Blewett's Grocery-Market. Arrive every Thursday. 1-adv

Scientist Finds Sea Cow Skeleton in California

Skeletal remains of an ancient sea cow which inhabited the earth some 30 million years ago have been unearthed from fossil deposits near Coalinga by a University of California scientist.

Fossilized teeth and jaws of the ancient beast had been found earlier, but his place among the animals of the prehistoric world long has been a question mark among men of science. The find will make possible a new understanding of the sea cow and its relationship to other mammals.

The sea cow which belongs to an order of mammals known technically as the Sirenia, apparently has always been rare on the earth.

Previous to the Coalinga discovery, only two skulls, two partial jaws and some of the teeth of the beast had been unearthed by fossil hunters. Because of the complete lack of a skeleton its relationship with other animals has never been definitely settled. The Sirenia are best known as forming the basis for legends of the mermaids, creatures which are considered to be half human and half fish.

The remains of the sea cow were unearthed by Roy H. Reinhart, teaching assistant in paleontology.

National Park Travel

The number of visitors to the national parks and other areas administered by the national park service again broke all records in 1949. Total travel for the year (which runs from October 1 to September 30) amounted to 31,864,180, eight per cent more than 1948's high of 29,608,318, and this despite transfer on July 1 to the corps of engineers of administration of the Lake Texoma recreational area, in Oklahoma and Texas. Even without the approximately 2,000,000 visitors to Lake Texoma up to June 20, the total travel reported exceeded that of 1948 by more than a quarter of a million.

Traffic Death Statistics

The honeymoon is over in post-war traffic safety, the National Safety council declares. It is now apparent, the council says, that the steady reduction of the traffic death toll since the end of the war has leveled off, and unless a new incentive for safer driving and walking can be found, the nation can reconcile itself to an annual loss of about 32,000 lives in traffic. That conclusion is based on the council's nine-month tabulation of 22,320 traffic deaths for 1949—only 2 per cent fewer than the 22,750 death toll at the end of September, 1948. The September 1949 toll was 3,060 deaths—about the same as in September, 1948.

Usage of "Pumpkin"

Riley, Whittier, Irving, Thoreau, and many others have written about pumpkins and pumpkin pies. So established is the usage of "pumpkinhead" and "some pumpkins" that dictionaries recognize and define both colloquialisms. Pumpkin Center and Pumpkin Chapel are Kentucky postoffices. Pumpkintine creek joins the Etowah river south of Cartersville, Ga. Elwood Haynes in 1894 launched one of America's first "horseless carriages" on Pumpkintine pike, Ind.

Potlatch Chief Sez

PUBLISHED BY THE KENDRICK CO-OPERATIVE CREAMERY

ABOUT OUR ICE CREAM . . .

Yes, Folks, warmer weather has brought an increasing demand for ice cream — our ice cream — "Potlatch Chief" Ice Cream — and we're meeting that demand gladly — for we realize that it means "Potlatch Chief" Ice Cream meets your requirements for delicious taste, smooth body and popular flavors.

If you haven't tried it, we especially recommend our Chocolate Marble — which many call "a sundae" without dressing." Try it for yourself!

ABOUT MILK:

As you know, on June 1, we go on a cash basis on milk sales. For your convenience \$2.00, \$3.00 and \$5.00 ticket books are available — or single quarts may be purchased for cash across the counter.

WHAT CAMERON FOLKS ARE DOING THESE DAYS

Mr. and Mrs. Walter Koepf and family, Rev. and Mrs. Meske and family, Mr. and Mrs. G. H. Fry and sons Don and Dick, Aug. F. Wegner and Vern Wegner were Tuesday dinner guests of Mr. and Mrs. Glen Wegner. The event honored Jillian Wegner's birthday anniversary.

W. C. Mielke of Lewiston spent Sunday here with relatives.

Mrs. Walter Koepf, Mrs. E. Mielke, Mrs. Glen Wegner, Mrs. Fred Newman and Miss Helen Mielke attended the Leland school picnic at Spalding Park, Monday.

Mr. and Mrs. Marvin Silflow and family, Mr. and Mrs. John Blanken-

ship and family, Mr. and Mrs. Harold Silflow and daughter and Mr. and Mrs. Emil Silflow and family fished and picnicked at Winchester Lake, Sunday.

Mr. and Mrs. Gus Kruger and Mr. and Mrs. Fred Silflow spent Sunday with relatives in Lewiston.

Mr. and Mrs. Jess Dumbald of Couledeac visited with Mr. and Mrs. Harl Whiting, Sunday.

Mr. and Mrs. Willard Schoeffler and daughter Fonda were Wednesday evening visitors in the home of Mr. and Mrs. Fred Newman.

August Brammer and Herman Silflow were Lewiston visitors on Tuesday.

Ed. Mielke, Jim Farrington, Forrest Wetterow, Elmo Eldridge and Felix Holt, and Vern Spekter of Craigmont, were fishing on the Salmon river Saturday and Sunday.

Mr. and Mrs. Harl Whiting and son James and Gladys Silflow spent Sunday afternoon at Kootkia.

Rev. and Mrs. Theo Meske and family were visiting with relatives in Ritzville, Wash., the first of the week.

Mr. and Mrs. Wilbert Brunstiek and Mr. and Mrs. Albert Glenn and son Eldon spent Sunday with Mr. and Mrs. Clay Albright in Lewiston. News is scarce here. Everyone is busy in the fields.

LINDEN ITEMS

Thanks everyone for your help in gathering this column.

Lou Conrad and son-in-law, Gene Mattoon of Lewiston, called at the Keeler home Sunday. Other callers included Mr. and Mrs. Ted Vaughan, Bob and Gale Marie.

Mr. and Mrs. Al Pederson, Doug, and Jerry called at the Keelers on Wednesday of last week. (Mrs. Pederson brought a pie for Charley — who would probably starve to death if it were not for them. Look at him, poor man!)

Mrs. Mertie Stone is spending a few days with Mrs. Pearl Alexander.

Mr. and Mrs. Jake Riebold visited in Deary Sunday. While they were away his sister, Mrs. Wayne York and husband and family and Mr. and Mrs. Melvin Gribble and son of Stites, Idaho, were callers.

Mr. and Mrs. Archie Garner and family were week-end guests of Mr. and Mrs. Arley Allen.

A dinner was given at the Gold Hill cook house Sunday in honor of Mr. and Mrs. W. L. Bagly, Mr. and Mrs. Vernon Bagly, Mrs. Edith Ferris, Mr. and Mrs. Gordon Ferris and family and Mr. and Mrs. L. B. Vaughan, all of Milton, Oregon, and all old-time residents here. A very large crowd turned out to honor them.

A picnic was held on the final day of school at the Gold Hill school

house on Monday — quite a number being present — but attendance was down somewhat, due to measles. A very lovely lunch was enjoyed by all.

Mrs. Jake Riebold called at the Chas. Keeler and A. Pederson homes Monday afternoon.

Quite a number of our Cedar ridders attended the Graduation Exercises in Kendrick Monday evening.

New Highway Building
Construction work began this week on the new \$18,000.00 state highway department building in the west part of town, at the far end of the local baseball diamond — but so far from it that it will never interfere with the local playing field. The building, which is to be of concrete block and steel construction will house the state road equipment

for this section, as well as having an oil room, tool room, etc.

We understand that a complete lavatory room, including shower, to give employees a chance to clean up following the day's work is also a part of the plans.

Spoke Over Station KRPL

Mrs. Guy Wicks, district vice president for the P-T. A., spoke Monday afternoon at 3:30 o'clock over station KRPL, Moscow, on the subject of the "Latah County Poor Farm." A number privileged to listen to her talk said that it was an "eye-opener" to them, and a matter certainly worthy of real consideration — not in the future, but right now!

Coming at the time it did, many business people, farmers and tax payers were at work and unable to hear what she had to say.
