Mr. Deobald was stricken with a heart attack Monday morning, and another, which proved fatal, Monday afternoon about 3:30.

The news was not generally known here, however, until Tuesday morning, as members of the immediate family were out of town.

Funeral services will be held today (Thursday) June 29, at 2:00 o'clock at the Community Church in Kendrick.

## FIFTEEN PRESENT FOR COMMERCIAL CLUB MEETING

There were but 15 business men and farmers present for the regular monthly meeting of the Kendrick Commercial Club, held Wednesday evening, June 14, with the 6:30 dinner being served at Burt's Confectionery.

Following the dinner the business session was held in the city hall, with three representatives from Juliaetta, Jack Mead, Willis Howell and E. A. Kirkpatrick joining the group.

Following the reading and approval of the Minutes of the previous session, the Treasurer's annual financial report was submitted by A. O. Kanikkeberg, and approved.

Tom Long, reporting for the Highway committee, stated that roadbeds were yet soft and soggy with rain. He reported that the slide on Potlatch creek, near the Porter logging camp, had done a thorough job of blocking the road, estimating that 10,000 cubic yards had come down. Two bulldozers, a TD-18 and a TD-14 were being used to clear, and 2½ days would be required. On the Juliaetta road, he reported no accurate information, but said he had been informed the dust clogging would run from Juliaetta to the Bear creek bridge — and the Brady Gulch road was to be rebuilt after harvest.

Roy Glenn, for the Agricultural committee, stated that crops on the whole looked excellent, and a bumper yield, including spring grain, could now be expected unless something very unusual occurred.

Gerald Ingie, reporting for the Education committee, stated that the school staff was not yet complete, but remaining contracts were expected to be signed.

Dr. D. A. Christensen stated that a great deal of paint was being applied about town, and a real improvement noted.

For the Boy Scout committee Henry Jones stated that Hal Grizzle, district leader, had complimented the local troop highly on their fine performance at the Scout Circus, as well as other work.

Reporting for the special committee which met with the Moscow Chamber of Commerce regarding the proposal to remove one train from the local schedule, was Fred Stedman, W. A. Watts and H. C. Schupfer. They stated that they had met with the Moscow group, and that the services of a lawyer to fight the train removal were being inquired about. It was estimated that the cost of this legal service would be \$200.00. The meeting had asked for an extension of time to prepare data.

A change of schedule had been suggested so that one engine might make all four trips.

A vigorous fight was proposed by the Moscow meeting, and met with hearty approval of the local group. Mr. Mead and Mr. Kirkpatrick of Juliaetta stated that they made considerable use of the mails, and pledged their help in the action.

On motion by W. A. Watts, seconded by Gerald Ingie, the club voted to stand their proportionate share of the cost of legal proceedings in an effort to hold the train-mail service. Carried unanimously.

It being the end of the year for the Kendrick Commercial Club, the report of the Nominating committee was called for, and read by A. O. Kanikkeberg, its chairman, as follows:

H. C. Schupfer, president; Walter Brocke, first vice president; Frank Abrams, second vice president; A. O. Kanikkeberg, treasurer, and Roy E. Davis, secretary.

On motion by Gerald Ingie, seconded by L. S. Thurber, the report of the committee was accepted and nominations closed. Voting was unanimous.

At the request of Mr. Schupfer Dr. D. A. Christensen continued in the chair for a discussion of the requested 4th of July celebration. After considerable round-table discussion a committee consisting of Ross Armitage, Tom Keene, A. O. Kanikkeberg, Roy Glenn and E. M. White was appointed to determine town sentiment in the matter, and if favorable, to act. Also, providing a dance orchestra was available.

Final action of the evening came with the appointment of Ed. Nelson and Jack Travis to the Finance and membership committee for the coming year.

There being no further business to come before the group, on motion it adjourned to meet again July 12.

**About Stores The Fourth**

Among those which will be closed for the three days are:

## FRANK SNYDER, JULIAETTA PIONEER, PASSES SUNDAY

Frank Snyder, a real pioneer of the Juliaetta area, and aged 78 years, died at St. Joseph's hospital in Lewiston shortly after 11:00 o'clock Sunday night. Death was attributed to a paralytic stroke suffered four days previously.

Born Aug. 15, 1872, at Sacramento, Calif., Mr. Snyder came to Juliaetta with his parents in 1878, and has lived there since that time. He never married. Surviving are four brothers and sisters, Charles of Juliaetta; Gus, in New Mexico; Will and Clara, Bakersfield, Calif.

Funeral arrangements will be announced later by the Brower-Wann funeral home, Juliaetta.

Mr. Snyder was born August 15, 1872, at Sacramento, Calif. His parents moved to the vicinity of Juliaetta in 1878. The town was named after his two sisters, Julia and Etta Snyder, who preceded him in death.

Mr. Snyder and his brother Charles have made their home together for many years, and upon their retirement built a new home near Juliaetta, where they had since resided.

He was indeed a pioneer of the Juliaetta region.

## Local Men Win National Prizes

Dr. D. A. Christensen and Jesse Heffel, breeders of registered Appaloosa horses, spent Saturday and Sunday in Lewiston, where the Third Annual National Appaloosa horse show was held, both men having entries.

First prize on a yearling filly, "Silver Sunset" went to Dr. Christensen in the exhibit ring. In the "action class" entry his stallion "Nobby" won second in the 3/8-mile race; third in the Stake race; third in the Trail Ride and Fourth in the Rope race.

In the Exhibit Jesse Heffel won a second place with his stallion "Chief Eagle" in the three-year-old class, a fifth place in the yearling filly display. He made no entries in the "Action" class.

At the conclusion of the show Dr. Christensen sold his filly, "Silver Sunset" to Dr. W. R. Jacobs of Lewiston.

It should be borne in mind that this was a "National" or nation-wide show, and to win a prize under such conditions means real horses.

## Picnic Plans Progressing

Plans for the big Fourth of July Picnic at Kendrick are to be completed at a meeting Wednesday evening of this week — although now almost ready to go.

Dr. C. J. Brosnan of the History department of the University of Idaho will deliver the address of the day of 2:00 p. m., with other entertainment to follow.

For those who may prefer other diversions at the close of Dr. Brosnan's talk, the Area Living War Memorial Swimming Pool will be open, with the program changing for the afternoon and evening.

There will be about an hour-long program at the pool, with novelty swimming races by the children, and an exhibition of comedy diving by Carl Kinney, lifeguard. It should be well worth your time to see this water exhibition.

In the evening of the 3rd, as well as the 4th, there will be a dance at the Kendrick gymnasium.

So, despite the fact that Kendrick does not yet have a ball diamond — there should be plenty to do for those who prefer "action" to spending the day visiting.

## Gravely Ill

Latest report from the bedside of Archie A. May, who underwent surgery last Tuesday at a Seattle hospital, is that he is gravely ill, and but little hope is held out for his recovery.

Mrs. May accompanied him to Seattle some ten days ago, and has been at his bedside since. His son, Walter May, was called to that city Tuesday of last week, taking a plane for that point.

## Undergo Tonsillectomies

The two daughters of Mr. and Mrs. Ed. Carlson, Genesee, underwent tonsillectomies at the office of Dr. D. A. Christensen last Thursday. They are recovering nicely.

## HELEN JOHNS BRIDE OF GARY OELRICH IN CALIF.

The Evangelical United Brethren church, the altar banked with baskets of gladioli in pastel shades and potted palms, was the setting for the vow exchanging of Helen Marie Johns, daughter of Mr. and Mrs. Phil Johns, 1201 E. Center street and Gary Paul Oelrich, son of Herman Oelrich, Anaheim, and Mrs. Fred Geddes of Fullerton. The Rev. Phillip Selfridge, pastor of the church, officiated in the single ring ceremony with more than 30 relatives and close friends witnessing the rites.

Given in marriage by her father, the bride wore a summer white pique dress and a large white picture hat with navy blue trim and other accessories of navy blue. Her bouquet was a white orchid surrounded by white carnations and her only jeweled ornament was a lovely wrist watch, the gift from her bridegroom.

Mrs. Marjorie Emmons, her sister's matron of honor wore a dress of powder blue pique with navy and white accessories. She carried an arrangement of pink carnations.

David Lee served as best man and Fred Colvin attended to usher duty.

Mrs. Agnes Swan, an aunt of the bride and nuptial soloist sang "Because" with Miss Carol Bostick as accompanist. She also played the traditional wedding marches.

Immediately following the ceremony, a reception took place at the home of the bride's parents on Center street. After the three-tiered wedding cake, topped with a miniature bride and groom had first been shared by the newly married pair, serving duties were assumed by another aunt of the bride, Mrs. Willard Bartlett, and the matron of honor, Mrs. Lois Branch presided at the punch bowl.

For her daughter's wedding, Mrs. Johns chose a navy blue net gown over pink taffeta. Her golden colored straw hat had trimming of navy blue and other accessories were of the same shade. Mrs. Geddes wore a rust-toned net gown with black accessories. The corsages of both of the mothers were of gardenias.

The new Mr. and Mrs. Oelrich will spend a two week's honeymoon on a motor trip which will take them up the coast to Washington and Oregon, over to Idaho to visit relatives and home by the inland route. Upon their return they plan to make their home in Anaheim.

Mrs. Oelrich will graduate from Anaheim high school in the class of 1951. Her husband, graduated from AHS in 1948. He is now associated with his father in the hardwood flooring business.

Coming from Strawberry Point, Iowa, to be present at the wedding was an aunt of the bridegroom, Mrs. Cyrene Oelrich — Anaheim (Calif.) Bulletin, Tuesday, June 20, 1950.

Our Note — Mr. and Mrs. Phil Johns and family are former well-known residents of this area, having made their home at Juliaetta for many years. Mrs. Oelrich attended the Juliaetta grade and high school and is of course, remembered by all here.

**New Directors Chosen**

At the annual meeting of the Kendrick Co-operative Creamery, held in the Kendrick Theater last Saturday afternoon, and attended by a goodly crowd, Clarence Johnston and Chas. Keeler were chosen as directors to succeed L. J. Southwick and Miss Eva Smith, whose terms had expired.

Following the election of directors a free show and treats of ice cream were enjoyed.

## Parents Of Daughter

Mr. and Mrs. Elton Wilson are the proud parents of a baby daughter, born to them Saturday morning, June 24, at the Davidson Nursing Home in Kendrick, weight eight pounds.

She has been named Linda Alice. Mother and babe are doing nicely.

## Engagement Announced

Emulus Brown, Kendrick, announces the engagement of his daughter, June, to Milton Snyder of Lewiston. Both are students of N. I. C. E., Lewiston.

There are no immediate plans for the marriage.

## Weather Warming Up

Following a rainy week-end, with heavy rains falling on Friday and Saturday, old so decided to peek out from behind the clouds for a bit, and Sunday it began warming up, climbing to 72 degrees Sunday; 78 degrees on Monday and 86 degrees on Tuesday.

It is certainly a relief to have a bit of sunshine again.

Almost everything, with the exception of some hay down in the Juliaetta area, strawberries and cherries were benefitted by the rain. These latter items suffered definite damage, the hay in particular.

Some lodging of wheat has occurred, but farmers say that dry weather will straighten up some of it — and the percentage is really small.

## AREA MEMORIAL POOL NOT BEING USED FULL EXTENT

The Area Living War Memorial Swimming Pool at Kendrick, in which almost every resident of this territory has an investment, is not being taken advantage of to the fullest extent, figures released at a special meeting of the Kendrick Village Trustees Tuesday evening revealed.

Here are the figures for 1948:

|                               |     |
|-------------------------------|-----|
| Adult single admissions       | 425 |
| Children single admissions    | 625 |
| Adult season tickets          | 47  |
| Children's season tickets     | 70  |
| (Swimming Lessons given free) | 7   |

For 1949:

|                                |     |
|--------------------------------|-----|
| Adult season tickets           | 25  |
| Children's season tickets      | 52  |
| Single admissions, children    | 862 |
| Adult single admissions        | 347 |
| Adult season tickets (to date) | 17  |
| Children's season tickets      | 7   |
| Adult single admissions        | 90  |
| Children's single admissions   | 90  |

Considering the fact that there have only been about five good swimming days to date, this may not be bad — but the village trustees feel that residents of this area are not taking the fullest advantage of the opportunities that have been offered them in the past and that are again being offered this year. To enjoy a clean-cut sport and at the same time learn to swim, a knowledge that may some day save the life of he who possesses that knowledge, or of another is at your disposal.

This year, Carl Kinney, registered Red Cross lifeguard and swimming instructor, will give free lessons in swimming and Junior and Senior Lifesaving — this instruction to begin after the Fourth of July and these lessons are free — no charge being made for instruction.

The Area Living War Memorial Pool is filled with city water. It is tested daily for any contamination, and the proper protective amount of chemicals are added through a new chlorinator purchased and installed this spring. In addition, the water is constantly being filtered through state health department approved and inspected filters, and dressing rooms are cleaned and chemically sterilized each day.

So, there is no cleaner, safer spot to learn to swim or to cool off during a hot day, than in the Area Living War Memorial Pool at Kendrick. It is urged that farm children, in particular, take advantage of this pool.

Why not organize mothers and take turns bringing the children of your community to town for their swimming lesson? Remember, the training received may save their life or that of a friend.

Season tickets are priced as follows:

|                            |        |
|----------------------------|--------|
| Adult (14 years and over)  | \$5.00 |
| Children                   | \$3.00 |
| Single admissions:         |        |
| Adult (14 years and older) | 40c    |
| Children                   | 25c    |

## Bridal Shower

Nellie Fry was complimented at a surprise bridal shower Tuesday afternoon in the Community church parlors.

She was called for at Burt's Confectionery, where she was working, and invited to ride up the street in a jalopy (wheelbarrow) which carried the sign: "I'm Going To a Shower."

Upon reaching her destination the honor guest was greeted by a room full of friends, all seated in a semi-circle. The first feature was a "mock wedding" put on by Paul Korte-meier, Gary Emmett, Richard Webber, Monty Clemmehagen, Robert Durnham and Dawn Marie Nelson, with Mrs. Roy Emmett as the "parson."

This stunt bringing shrieks of laughter from the group.

A scramble game was then enjoyed, after which the bride-to-be opened her many lovely gifts.

Delicious refreshments were served by the hostesses, Mesdames Clarence Wilson, Eugene Brocke, Charlie Candler, Norman Fry and Don Israel.

## Surprise Wedding

Coming as a surprise to their many friends was the news of the elopement of Paula McKeever and Clyde (Sonny) Daugherty, Jr., recently.

Both young people are well known here, having graduated from the K. H. S.

Paula, a daughter of Dr. and Mrs. Geo. W. McKeever graduated from the U. of I., and for the past two years has been employed as a bacteriologist in a Portland hospital. "Sonny," a son of Mr. and Mrs. Clyde Daugherty, formerly of Kendrick, served several years with the U. S. army, and is now associated with the Simchuck Sporting Goods Co. in Spokane.

Further details are lacking.

## WHAT STONY POINT FOLKS ARE DOING THESE DAYS

**Flames Destroy Farm Buildings**

Flames early Friday morning destroyed a machine shed, tool shed, storeroom and chicken coop at the farm home of Mr. and Mrs. Charles Kerby, Cheerylanes. Replacement cost of the buildings and machinery was estimated by Kerby at about \$5,000.00.

One hundred chickens and general farm tools were included in the loss, according to Kerby. Fortunately, he said, most of the larger pieces of equipment were left in the fields after work, and only a pickup trailer and a manure spreader were destroyed. However, a number of machine tools were lost when the machine shed burned.

The fire was discovered by the Kerby's son, Lyle, who lives in an adjoining house with his family, about 1:00 a. m., Friday. The alarm was sounded on the telephone line, and calls placed to the Lewiston and Kendrick fire departments. About 50 neighbors and a forest service fire truck from Kendrick responded.

The fire, which Kerby believes started in a chicken brooder, was too far along to be headed, so all efforts were made to save the two homes on the farm. By keeping the roofs and walls thoroughly wet, the houses were saved, Kerby said.

"It looked like the whole ranch was afire for awhile when a 50-gallon gasoline tank exploded and flew 200 feet out into a field. It sounded like a bomb going off."

Kerby said he was so excited he fought the fire barefoot for about an hour before he remembered to put his shoes on.

### A BIT OF IDAHO HISTORY

On May 18, 1855, 27 men, with 13 wagons and two yokes of cattle to each wagon, and a few cows, started from Utah on a trek that took them into what is now Idaho. With no roads or bridges to aid them, the band reached as far as the Lemhi river where they established a camp on June 15, the 30th day of their journey. The site was chosen because there was water for irrigation and timber was accessible on nearby hills.

For two years they lived among the savage Indians without event, but there was always a threat. In 1857 they built a fort, or stockade. On February 28, 1858, two men who were herding stock were killed. Two men were dispatched to Salt Lake City to inform Brigham Young, of the L. D. S. church of the event. The two men, E. Bernard and B. H. Watts, traveled over 300 miles through dangerous territory to deliver the message. President Young immediately sent a company of mounted men to rescue the first band of agriculturists to settle in Idaho.

On March 28, 1855, Fort Lemhi

was abandoned and left to the Indians.

And 95 years later, on May 13, 1950, over 4,000 persons attended the dedication of a massive stone monument overlooking the ruins of Old Fort Lemhi. All that remains of the historic fort are crumbling adobe walls.

Dr. D. M. Beal of Pocatello, professor of history at Idaho State College, spoke at the dedication as follows: "Here was monumental courage, monumental labor, the type of Christian brotherhood not often seen and much needed in the world today."

### Just "Pass The Buck"

Mother was absent from the dinner table; so Dorothy, aged seven, sat in her chair and pretended to take her place.

Her father was watching the child's assumption of matronly airs with ill-concealed glee, when her brother challenged her position with the remark:

"So you're mother tonight? Well, if you're mother, tell me — how much is six times nine?"

Calmly and without hesitation, Dorothy retorted, "I'm busy — ask your father!"

# ANOTHER STRIKE

AGAINST THE PUBLIC AND INDUSTRY AND AGRICULTURE SERVED BY FIVE WESTERN RAILROADS

President Truman's EMERGENCY BOARD recommends a 40-hour week and a pay increase of 18 cents an hour, or \$1.44 a day for switchmen represented by the Switchmen's Union of North America.

• Notwithstanding the tremendous increase in their expenses involved, the

Railroads' answer to Board is... **YES!**

Union leaders' answer to Board is.. **NO!**

In face of Board findings to the contrary, union leaders insist on 48 hours pay for 40 hours work. This would be an average increase of 31 cents an hour, or \$2.48 a day. So Union leaders have called a completely unjustified strike on 5 Western railroads, effective June 25.

On June 15, an Emergency Board appointed by President Truman under the terms of the Railway Labor Act recommended the railroads grant switchmen a 40-hour week and a wage increase of 18 cents an hour, or \$1.44 for an 8-hour day.

Despite the added financial burden involved, the railroads are ready to accept these recommendations, as they have always accepted Emergency Board recommendations on national issues.

But the leaders of the Switchmen's Union refuse to accept! They demand an average increase of 31 CENTS AN HOUR OR \$2.48 A DAY—although their present earnings are substantially higher than those of workers in other industries!

### Board Says Demands Unjustified

In its report, the Board declared this demand unjustified by all the evidence presented. It also pointed out that it would give the switchmen an unfair pay advantage over other groups of railroad employees, and would add too great a burden to railroad costs.

Here is another case of a railroad union flouting the findings of an Emergency Board—another case of calling a crippling

strike in an outrageous and reckless attempt to force demands which the Board clearly labels as unjustified!

Leaders of the Switchmen's Union are calling this strike in defiance of the Board—in defiance of the facts—and at the expense of the public!

In its report on this case, the Board made this statement:

"The railroad industry, the Board believes, needs above all else a period of relative stability to adjust and adapt itself to present competitive post-war conditions."

Despite this warning, the leaders of the Switchmen's Union are upsetting the apple-cart—forcing a completely unjustified strike against everybody who uses the railroads.

### FIVE WESTERN RAILROADS AFFECTED BY THE JUNE 25 STRIKE

The five railroads affected by this strike, which goes into effect at 6:00 A.M. local time, Sunday, June 25, 1950, are:

- Chicago Great Western Railway Company
- Chicago, Rock Island & Pacific Railroad Company
- The Denver & Rio Grande Western Railroad Company
- Great Northern Railway Company
- The Western Pacific Railroad Company

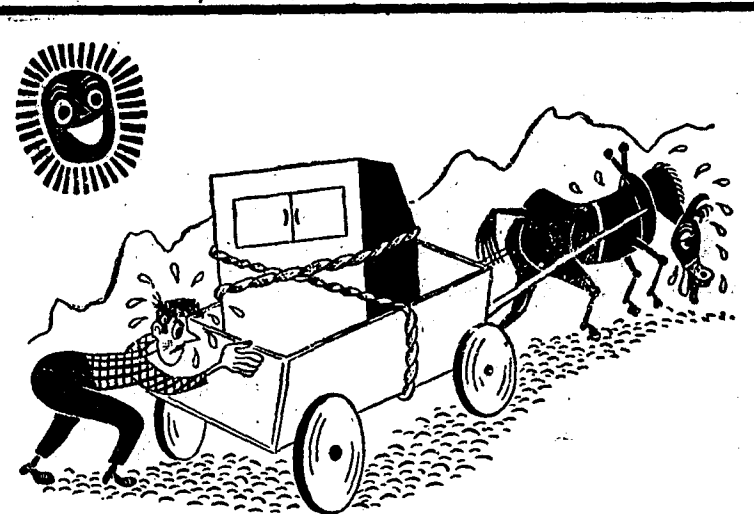

It is time to put an end to such un-American tactics!

The Answer to a Raw Attempt At Dictatorship is "No!"

In the interest of the public who depend on the railroads every day, there can be only one answer to this outrageous and dictatorial action by the leaders of the Switchmen's Union. And that answer is—"NO!"

We are publishing this and other advertisements to talk to you at first hand about matters which are important to everybody.

**SEVENTY BILLION FEDERAL BUDGET POSSIBLE FOR 1960**

Continued pressures on the federal government to increase expenditures could result in a federal tax burden of \$70,000,000,000 or more annually within the next ten years unless the public puts a lid on them. This

is the conclusion of the Council of State Chambers of Commerce. Here are some of the facts assembled by the Council's research team which lead to that conclusion:

Scores of new federal spending measures are now being urged upon congress. If passed, they could add as much as \$25 billion eventually to

the nation's annual tax burden.

The President's 1951 Federal Budget Message calls for a total expenditure of more than \$45 billion, including \$3 billion for social security programs financed by payroll taxes. But that's just the beginning.

The proposed budget contains almost \$1 billion (\$956 million to be exact) to initiate 34 new federal spending programs. Many of these would carry on indefinitely and grow much larger. It is estimated that they would eventually add \$4 billion a year to present federal tax burdens.

Then there are the president's proposals for expanded Social Security benefits and for a National Health Insurance system, often referred to as "socialized medicine." Financed by payroll taxes, they would require an estimated outlay of \$13 billion annually when fully under way. And the cost would increase with each passing year.

Congressional approval is being urged for the Brannan farm plan. Promoters of this plan have offered no estimates of its probable cost. A conservative estimate by several authorities places it at \$5 to \$6 billions a year.

Legislation authorizing nearly \$2 billion in new public works projects has just been approved by both houses of congress. This expenditure is to be spread over a period of years. Congress also has before it

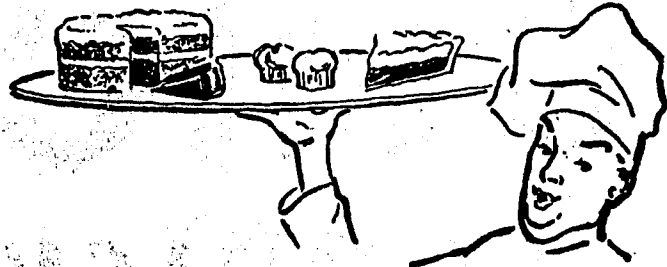

more than 300 bills providing for a wide variety of new federal grants-in-aid to states and local governments. If all the programs covered in these bills were to win approval, they would eventually add over \$6 billion a year to the federal spending budget.

Meanwhile Uncle Sam finds himself with insufficient tax revenues even to balance his 1950 and 1951 budgets. Latest Budget Bureau estimates indicate a \$5 1/2 billion deficit this year and another of equal size next year. This, of course, unless congress makes substantial cuts in appropriations.

Where, then, would the Federal establishment obtain the additional taxes needed to support a \$70-billion-a-year spending program? Except for the administration's two social welfare measures which would be financed by payroll taxes, the advocates of new spending legislation offer no answer. — Council of State Chambers of Commerce.

**ELECTRICAL ACCIDENTS**

Accidents in the home cause a very considerable drain on the American householder's budget. Most of them are preventable.

"ELECTRICAL ACCIDENTS" do occur. Practically all of them are preventable.

Enough outlets, correctly installed in the proper places, can practically eliminate "spider webs" of extensioncords, which cause a high percentage of accidents — through enough circuits to accommodate the appliances you may wish to use without overloading any of your circuits.

Overloaded circuits blow fuses. Blown fuses cause the temptation to put in larger fuses until the point is reached where no protection whatever is provided.

For your convenience, for the protection of yourself and your property, modernize your electrical installation. It will pay — not only in safety and convenience, but your appliances and equipment will do the work you expected them to do when you bought them.

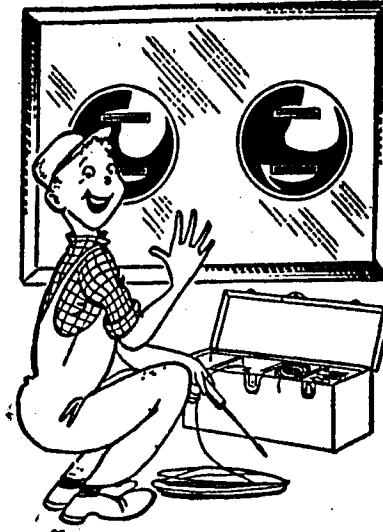

Regardless of the kind or size of your electrical problem, feel free to come in and talk it over.

**COST OF SOCIALIZED VENTURES ENORMOUS**

The Economist, of London—which is England's principal journal in its field — recently published a searching article called "The Cost of Welfare." It deals only with the experience in Britain. But it is a world-wide significance, in that it shows clearly how socialized services grow in scope and cost on an amazing scale, much like a snowball rolling down hill.

At the beginning of this century, according to the Economist, public social services cost about one pound (the pound is now valued at \$2.80) per head of population. By 1928 it had grown to 10 pounds and now it has reached 37 pounds! Allowing for changes in the purchasing power of the pound, social expenditures by the government on each person in Great Britain are 12 times as great as they were 50 years ago. And social expenditures have out-stripped all other public expenditures.

It is commonly believed that the huge present-day budgets of the major nations are principally the result of the huge expenditures that have arisen from wars, past and prospective. But the Economist found that this is not so in the case of Britain. Strange as it may seem, in England, war expenditures including both war pensions and interest on the national debt, are just about the same proportion of the national income as before the last war. The magazine then says: "It is, therefore, social rather than defense spending which dominates the budget."

Most interesting of all is The Economist's account of how government social security developed in Britain, in a very short period of time. Prior to 1908, poor relief and public education were practically the only forms of social payments. In that year the First Old Age Pensions Act was passed, followed by a National Health Act in 1911. Then the trend was really under way. New pension acts were passed, along with measures covering unemployment, maternity, child welfare, etc. By now, as everyone knows, cradle-to-the-grave social security is firmly established in Britain.

The cost, whatever one may think of the theory, is enormous. It now represents about 43 percent of Britain's total government spending. And the burden is not borne by the rich by any means. It falls squarely on those with middle and low incomes. As an example, The Economist estimates that the average working-class family, with a total annual income of less than 500 pounds, pays out 72 pounds a year in beer and tobacco taxes alone!

The Economist's concluding line is not original, but it bears repeating: "It is still true that nobody — or practically nobody — gets anything for nothing!" — Industrial News-Review.

**Work On Wauncher Grade**

The state highway department crew, Clarence Ferryman and Ed Brown have been busy this week dozing, cleaning ditches, hauling gravel and otherwise repairing the damage done the Wauncher Gulch grade by the heavy rain storms of two weeks ago.

Another state crew was also employed here last week cleaning ditches, bulldozing and otherwise getting roads into shape for summer travel — principally putting them in condition again after storm damage.

It is expected that oiling operations will begin on the road from Arrow to Kendrick within the next month — although the mile link between Kendrick and Juliatta is not yet finished — and it will soon be a year since the contract was let!

This is everyone's busy season, so most of the work will have to be done in the evenings. Several have volunteered their services, and any others willing to help are asked to contact Norla Callison.
