## KENDRICK SCHOOL NOTES

Last Wednesday the tinkle of bells could be heard through the halls of old K. H. S. — the Freshmen were being initiated — and the bells were a part of their attire. They also had to wear girdles of night apparel. The girls wore shiny coats and the boys high-heeled shoes or slippers.

That evening an all-school party was held in the gym., with practically the entire student body attending. A good time was had by all.

**Tigers Lose To Grangeville**

It was rough, tough football on the Grangeville gridiron for the Kendrick Tigers last Friday afternoon — losing to the Grangeville Bulldogs by a score of 25 to 0, in their first game of the season. Coach Racicot, says, however, that the Tigers are showing steady improvement — and a loss is no indication of the coming season.

The remainder of the re-vamped Tiger schedule is as follows:

September 29 — Troy here.

Oct. 6 — Lapwai, there.

Oct. 11 — Grangeville, here.

Oct. 20 — Grangeville, here.

Oct. 27 — Potlatch, here.

## Kendrick Grange Wins Second

At the Latah County Fair in Moscow, in both competitions, the Kendrick Grange won a red ribbon, bowing out of first place for the first time in three years — the Troy Grange copping the coveted blue ribbon.

Booths and displays, housed in a different building than before, had their beauty considerably marred by a thick coating of fine dust, which rose from the dirt floor and settled over everything.

The Kendrick P.-T. A. booth, also a very attractive display, and housed in still another room, was so thick with dust that it looked as if it had been there for years; rather than for three days. It also received a red ribbon award.

But, give the Fair board time. They will overcome such handicaps.

## MISS GLADYS SILFLOW IS BRIDE OF JAMES WHITTINGER

The marriage of Gladys Silflow, daughter of Mr. and Mrs. Otto Silflow of Cameron and James Whittinger, son of Mr. and Mrs. Harold Whittinger of Southwick, was solemnized at 8:00 o'clock Saturday evening, September 23, in a candlelight service at the Emmanuel Lutheran Church, Cameron. ## KENDRICK GRANGE GETS VERY INTERESTING LETTER

The Kendrick Grange, which has been packing and sending an occasional "relief box" to Sicily, is in receipt of the following letter of appreciation:

Altofonte, Aug. 28, 1950.  
Mrs. Frank Benschoter, Sec.  
Kendrick Grange, Kendrick, Idaho  
My Dear Friend:

Have been waiting in hopes of receiving a lovely letter from you, but being it a very busy time of the year we understand it well that you must have very little time to write, but we are more than sure that not for a single moment have you forgotten us, and we have a great profit in thinking so.

My good friend where find words which can express to you the hours of joy you have given us with the wonderful boxes you have so generously sent to us? And what lovely good useful clothing they contained which sure did enlighten us a little in the clothes problem which is yet one of the most difficult problems in Sicily.

A shrill of joy passed among the entire family as I so delicately took one thing at a time out of the lovely boxes.

There was something for almost every one in the family. What happy, joyful hours! With great effort I tried to push back the tears of joy which filled my eyes.

What was our greatest surprise was that in the last letter you wrote to us dated March 28 you wrote that you had a couple of boxes of clothing gathered together to send to us in a day or so. You also wrote that in one of these boxes you were going to send us some soap you had made and also a can of pork and beans that you had canned at the Community Cannery, did you get to send that one anymore because while we were watching for this box here to our very great surprise we received two other lovely boxes, one dated June 10th and the other June 30. What a joy for everyone! So can we have any doubt at all that you are constantly remembering us and not for a single moment have you forgotten us? Can there be greater proof?

You can never imagine what great use we get out of every single thing you sent to us. What may seem little to you is so very great to us.

Must as always repeat that my poor words will never be able to thank you and every good noble hearted member of your Kendrick Grange for so much love and generosity toward all my family and I, but we have our greatest trust that no good act escapes the powerful eyes of Our Good Lord who did not delay in awarding with His greatest and richest Blessings who as the ancient proverb says, "Would you know earth's highest happiness make some other heart rejoice" and you sure have all made our hearts rejoice with your noble and generous hearts.

Will close now trusting we will hear from you again and soon.

We all send to you and to every member of your wonderful Kendrick Grange, our greatest love and very best wishes. May God richly bless you all.

Your Loving Sicilian Friend,  
Marfia Salvatore.

P. S. Dear friend these last two boxes were received were mailed by the name: Jo Benschoter, Sec. Does it refer to some one of the family or to some other good member? Because your letters are signed Mrs. Frank Benschoter.

If it refers to some other member I feel it my duty to write to her personally.

Again heans of love and Blessings to everyone.

Our Note: Spelling, punctuation, etc., are exactly as they appeared in the letter.

## Preparing For Winter

Bill Bamberg is busy these days getting Kendrick's streets and gutters in shape for winter — digging out catch basins, cleaning gutters, and otherwise preparing for the fall rains and winter snows.

The new oil seems to be "setting up" very nicely, although some holes have been dug in the schoolhouse hill by drivers who insisted on turning the corner at high speed, then shifting down and spinning their wheels.

Kendrick's streets are in better condition now than at any time for many years, and with common sense use, will stay that way for a long time.

It should be borne in mind that all track-laying tractors must be "planked" or hauled into or through town. Other tractors with "grouts," lugs, or sharp wheels must also be transported.

## Bridal Shower

A bridal shower complimenting Mrs. Gerald Dowdy (nee Violet Brown) was given Thursday evening in the Community church basement, with Jo Darby and Virginia Zimmerman as hostesses.

The evening was spent in playing games, after which the bride opened her many useful and lovely gifts.

Delicious refreshments were served by the hostesses at the close of the evening.

## Know Your Hunting Area

Big game territories in Idaho open at many dates, ranging from October 1st to November 1st — and it is suggested that before you plan that hunt you obtain a "big game map" and make sure of your territory and opening date.

It's far better to be safe than sorry.

**HOW MUCH SHOULD YOU SPEND FOR A BINOCULAR?**

You use a binocular to see close-up — clearly. Only a precision optical instrument is capable of yielding a sharply defined, brilliantly-illuminated image. The Bausch & Lomb binocular represents the design and construction necessary for adequate optical performance and sturdy serviceability. A glass which offers less is no bargain at any price.

Mr. and Mrs. Leonard Wolf and sons, Mrs. Dora Heffel and Mr. and Mrs. Roy Craig and daughter Paige attended the wedding ceremony of Miss Lois Wolf to Walter Broeckel, at 4:30 o'clock at the Trinity Lutheran church in Lewiston, on Sunday. **Fall Rains Begin**  
Following many days of wonderful harvest weather — days which, so far as we know, have permitted the harvesting of all crops in this area, the fall rains began on Monday afternoon, rain falling almost all of Monday night, to wind up with a real, but brief downpour early Tuesday morning.  
Farmers really welcomed the rain, as fall plowing can now be begun in earnest. Many have been "dry plowing," which is a slow and costly way of doing the job — but at times there is no choice.

Local elevators are able to obtain a car now and then, and as they do so, wheat, oats and barley stored on farms in old houses, graineries, machine sheds, etc., is hand-loaded and hauled to town. It may be many weeks before all the grain in this section reaches the elevators.

Bird's Eye Fresh Frozen Foods of many varieties are obtainable at Biewett's Grocery-Market in Kendrick — and they're good. 1-adv.

**Tax Collections Huge**  
From the office of state tax collector, State of Idaho, comes the following information that should be of real interest to everyone:  
In 1949, each man, woman and child in the United States footed a tax bill amounting to \$359. The federal government took \$253, the states took \$56 and local governments took the remaining \$50. Individual income tax alone was \$108 for each person. Back in 1942, the per capita tax bill was only \$171.00. Federal, state and local government tax revenue last year totaled

\$53,586,000,000. This was higher than any other year, except the record of \$54,495,000,000 set in 1948. The moderate decrease after 1948 was the result of a six percent drop in federal revenue and rises of 7 and 13 per cent respectively in collections by states and local governments.  
Governmental revenue rose sharply during World War II to a peak of \$55,000,000,000 in 1945. Then it dropped off for a year, to ascend again to the 1948 record. The 1949 dip was mostly due to a decrease of nearly \$3,700,000,000, or 19 per cent, in collections of individual in-

come taxes. Small decreases were recorded also in revenues from death and gift taxes and social insurance taxes.

These decreases were largely offset by strong increases in yields from all other sources. Corporation income taxes were up \$1,600,000,000, or 15 percent; property taxes increased 7,000,000, or 12 percent, and all other categories increased at rates ranging between 4 and 14 per cent.

The 1949 revenue was 134 percent higher than that of 1942. However, this trend was accompanied by an increase in population and a faster tempo in the nation's economy, measured by such standards as national income and gross national production.

**Food For Real Thought**  
The labor and sweat of our brows is so far from being a curse, that without it our very bread would not be so great a blessing. If it were not for labor, men could neither eat so much, nor relish to pleasantly, nor sleep so soundly, nor be so healthful, so useful, so strong, so patient, so noble, nor so untempted.

### Prepare Woodwork For Repaint Jobs

Proper Preliminaries Make Task Easier

Woodwork in farm homes can be repainted more effectively if proper steps are taken to prepare the surface beforehand.

This conclusion was announced after a study of the subject by the Eagle-Picher company of Cincinnati. Their survey, according to reports, showed that preparing the surface beforehand will always be valuable, whether the work is to be done by a professional, or by the farmer himself.

If the woodwork has been painted before and the paint is in good condition, it should be washed down

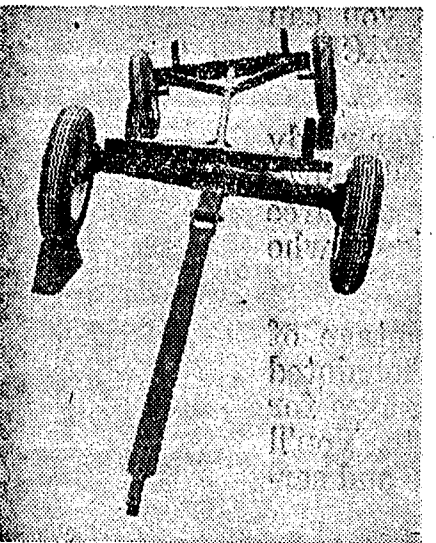

In removing this paint brush from a can of paint, it is always best to scrape off any excess fluid to prevent dripping or streaking.

with a few drops of benzene on a dry cloth. This is done to remove any grease. Care should be taken, however, as benzene is inflammable.

Should the present paint on the woodwork be in poor condition, then it should be removed entirely, or at least in the bad spots, with a paint remover. This applies especially to areas with blisters, roughness, streaks or looseness. Any paint left on should be cleaned with benzene.

### New Farm Wagon

Like modern cars which "float" over the highways, this new, all-steel farm wagon has just been offered the American farmer to help smooth out rough fields and roads. Front and rear axle tilt independently (as shown) to give maximum flexibility and stability, even under capacity loads of 8,000 pounds. Auto-type wheels and steering mechanism are used.

### Spring Calving Permits Cheaper Winter Feeding

Spring calving permits use of cheaper lower-grade feed during winter. A cow that calves in the spring will get along nicely on a plain kind of ration. But the cow that calves in the fall must be fed a milk-producing ration during the winter to keep the calf growing rapidly. Such a ration is more expensive.

In a climate where the cow herd must be on a dry feed for five months, a total of about 1,300 to 1,500 pounds of digestible feed is needed in winter.

A 1,100-pound pregnant beef cow can be carried through the winter quite cheaply when fed 1,100 pounds of clover hay, 1,500 pounds of corn stover and 500 pounds of oats straw.

### Handling Tips Offered In Hatching Egg Work

Tips on handling hatching eggs have gone out to farmers from several extension service sources. In the main, farmers are urged to pack such eggs in cases with the small end down, and, if these eggs are marketed twice a week, it will not be necessary to turn them.

If hatching eggs are to be stopped for a short time, the advice continues, keep the room temperature between 45 and 60 degrees.

### Wool Outlook Bright, Bureau Head Reports

Material Remains Quality Fabric for Human Needs

For the sheep ranchers and the farmers who maintain small flocks, W. F. Fitzgerald, president of the Wool bureau, had a good word when he predicted markets for wool are bound to increase.

Speaking before the National Association of Wool Manufacturers at their annual meeting in New York, he said:

"Barring a national catastrophe, markets for wool, and indeed for all textiles of established service values, is bound to increase. The reasons are fundamental and are to be found in even a casual study of our increasing population, our expanding birth rate, the total

Newly-scoured virgin wool is turned to hasten drying. There will be a greater demand for this fiber, spokesmen for the wool producing industry predict.

number of people employed and the constantly increasing standards of living of large segments of our population."

Fitzgerald went on to point out that an acceptable substitute for wool has not been developed. Wool is still the quality fiber which is best suited for a wide variety of human needs and we are convinced the public shares that opinion, he added.

The Wool bureau is a service organization established by wool-growers of Australia, New Zealand, South Africa and America.

### Needs of Corn

Corn needs plenty to eat and drink to produce high protein yields.

You can get extra pounds of protein and more bushels per acre, too, with a well-rounded bill of fare based on good soil management. University of Illinois research men proved that in tests on a number of experiment fields.

H. J. Snider of the agronomy staff reports that good soil management increased the corn's protein content by nearly a pound per bushel. Corn grown on well treated land averaged 5.8 pounds of protein per bushel, or about 10 per cent of the total weight. Corn on untreated soil averaged only 4.8 pounds of protein per bushel, or about 8.5 per cent.

The well managed land had the benefit of liming and rotation built around well-fed deep-rooted legumes. The organic matter added by the legumes built good soil structure and tilth, improved the drainage and increased the soil's water holding capacity. That made it easier for corn roots to get at plant nutrients, oxygen and moisture.

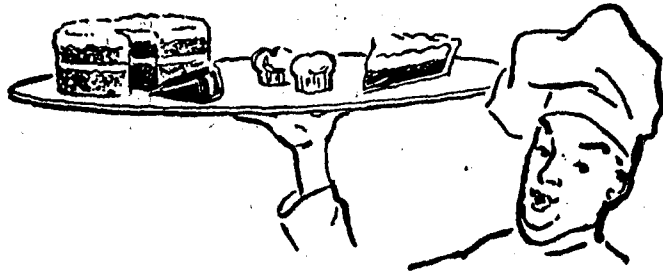

The fertilizer treatment included phosphate and potash where needed. In soils requiring more nitrogen than the legume crops provided, nitrogen fertilizer helped increase the corn's protein content. Snider says good soil management not only improved the corn's feeding value, but improves yield.

### 12 1/2 Million Fewer Mules And Horses in 30 Years

Today there are 7 1/2 million head of horses and mules on farms in the United States, a decrease of 12 1/2 million in the last 30 years.

Experts estimate that it took about 24 million acres of crop land to feed these 12 1/2 million animals. That amount of land, released to yield food, would provide for 11 million people. The horse population of the United States is expected to drop further.
