KENDRICK, LATAH COUNTY, IDAHO, THURSDAY, MARCH 15, 1951

NO. 11

NEWSY ITEMETTES FROM AMERICAN RIDGE AREA

Club To Meet

The Hi-Hope Club meets today (Thursday, March 15) at the George Havens home, with Miss Betty Jo Baker in charge, demonstrating "oven meals." All members and friends who wish to come are to be here at noon. Bring your old magazines.

Other News

Those from the ridge attending the Schupfer-Eichner wedding in Moscow Sunday were Mr. and Mrs. Harley Eichner, Mr. and Mrs. Bob Nelson, Mrs. Andy Cox and daughter Peggy, Mr. and Mrs. Ed. Kent, Mr. and Mrs. Wayne Davis, Mr. and Mrs. Harold Roberts and family, Mr. and Mrs. Frankie Benschoter, Mr. and Mrs. George Havens, Mr. and Mrs. Nora Callison and daughter and Mr. and Mrs. Harry Benschoter.

Mr. and Mrs. Andy Cox were in Lewiston on business Monday.

Mrs. Frankie Benschoter and Mrs. George Havens were Lewiston visitors on Friday.

Mr. and Mrs. Nora Callison and Mrs. Walter Benschoter were in Lewiston on Wednesday.

Mr. and Mrs. Werner Brammer were Tuesday evening callers in the home of Mr. and Mrs. Walter Bigham and daughters, and the home of Mr. and Mrs. George Havens.

Mrs. Wayne Davis and son spent the first part of the week in Pullman and Moscow, visiting with relatives.

Beverly Mattoon was a Saturday over-night guest in the Lawrence Heimgartner home.

Mr. and Mrs. Walter Bigham were Lewiston visitors on Wednesday.

George Havens and sons Ted, Charles and Rayner were Lewiston business visitors Saturday.

Quite a number of our ridge residents have been ill with the flu, including the Walter Benschoter children, James Heimgartner, Walter Bigham and Celia Roberts.

Mr. and Mrs. Harold Roberts and sons Orville and Myron were in Lewiston Monday.

Mr. and Mrs. Clarence Dougharty and Mr. and Mrs. Harold Roberts and family attended a Sunday School dinner and meeting in Moscow Friday evening.

Mrs. Harry Benschoter spent Friday and Saturday with her parents, Mr. and Mrs. Dan Lyle, at Peck.

Many residents from this ridge attended the Farm Institute meeting in Kendrick, Tuesday.

Mr. and Mrs. Harry Benschoter were Sunday dinner guests of Mr. and Mrs. Dick Benschoter in Moscow.

Andy Cox left Tuesday for Portland, Ore., to be away a few days.

Mr. and Mrs. Ernest Brammer were Tuesday evening supper guests of Mr. and Mrs. Henry Brammer at Julieta.

Mrs. Walter Bigham and Mrs. Geo. Havens spent Tuesday afternoon with Mr. and Mrs. Carl Koepf in Kendrick.

Mr. and Mrs. Harry Benschoter were Moscow visitors on Monday.

Mr. and Mrs. Geo. Havens and Mr. and Mrs. Frankie Benschoter visited with Mr. and Mrs. Ira Havens and Grandmother Keene at Moscow after the Schupfer-Eichner wedding. On their return home Mr. and Mrs. Benschoter were supper guests in the Havens home.

Warney May Jr. and Harry Benschoter attended the Veteran's meeting in Kendrick Tuesday evening. Mrs. May visited with her parents, Mr. and Mrs. Roy Glenn and family.

News is very scarce, due to illness.

Think Before You Pass

"You would think twice before roaring along the highway at 100 miles per hour, but do you think twice before you pass when your 'collision speed' can reach and even go well beyond 100 miles per hour?" Jack Shirley of the Idaho Motor Transport Assn., asked in a recent address.

"Not only do a lot of drivers zoom by other cars at a neck-breaking clip, with only a few feet or possibly inches to spare," continued Mr. Shirley, "but they frequently cut out into the face of approaching traffic — often with more than noticeable bad judgement."

Below are listed definite rules for every motorist to observe for safe passing, particularly when spring and summer brings heavier traffic onto the highways:

1. Be sure you have enough room to pass and get back into your own lane. Get back into your own lane as soon as you are clear — but not too soon.

2. Pass as quickly as possible.
3. Signal other traffic before you pull out and be sure nobody is trying to pass you.

4. Don't pass on hills or curves, approaching intersections or in intersections or railroad crossings — or any other place you're not sure you have room.

The growing tendency to use highways as "raceways" and the habits many drivers have of deliberately keeping the other fellow from passing was also condemned as the causes of many accidents.

Here For Funeral

Mr. and Mrs. Geo. Gildersleeve of Superior, Mont., a brother of Mrs. Hiett, and her son, Mr. and Mrs. Douglas Beaton and two children of Rexford, Mont., arrived here Wednesday morning to attend funeral services for Mr. Hiett, Friday.

Some Logging Going On

Occasionally a logging truck may be seen rolling through Kendrick, bound for the mills at Kendrick and Julieta but soft roads are limiting operations.

Real Work Involved

Bill Bamberry, Kendrick street commissioner, is finding out that the digging out of the big locust stumps on the south side of Main street is "anything but an easy job," as the "roots run in every direction, and the use of "stumping powder" is an impossibility — too many plate glass windows!

So the work goes on "by main strength and awkwardness." It is really back-breaking toil, since the size of the hole is limited due to the concrete curbing and concrete sidewalk.

However, we'll bet Bill gets them dug out.

MARILYN SCHUPFER AND DONALD EICHNER WED

Wedding bells rang Sunday, March 11 at Our Saviour's Lutheran Church in Moscow for Miss Marilyn Joan Schupfer and Donald Henry Eichner, both of Kendrick.

The beautiful double ring ceremony was performed by the Rev. Harold Masted as the couple knelt at the altar, which was flanked by large baskets of snapdragons, stock, carnations and dutch iris, and lighted by tiered candleabra.

Miss Schupfer is a daughter of Mr. and Mrs. Herman Schupfer, and Mr. Eichner a son of Mr. and Mrs. Harley Eichner, both families being pioneer residents of Kendrick.

The wedding party took their places to the strains of Lohengrin's Wedding March.

The bride was lovely in an ivory satin gown which was fashioned with a deep tucked yoke, and the tucked detail repeated over the hips fell in detail repeated over the hips, which fell in soft folds into a train. Her veil was of net, edged in lace and fastened to a little bonnet giving a halo effect. All the traditional measures were observed. For something old she wore a rhinestone brooch belonging to her aunt, borrowed her mother's pearls, and a penny was in her shoe for good luck. Her dress was new, and the traditional blue garter completed her ensemble.

Her bouquet was of white fresas, which were centered with a corsage of talisman roses. The corsage was later worn with her going-away outfit.

The bride, on the arm of her father, was met at the altar by other members of the bridal party. Her sister, Beverly Schupfer, was maid of honor, and her cousin, Maribel Schupfer, as bridesmaid, were her only attendants. Their dresses were of blue and yellow floor-length dotted organdy, respectively designed with peler pan collars and deep tucks around the hips. Their flowers were fresas and carnations, colors complimenting their dresses.

The groom, attired in a gray suit with white boutonniere was attended by George Brocke, Jr., and Luther Parks was the usher. Both were schoolmates of the groom.

Bob Lind sang "Through the Years," "I Love Thee" and "The Lord's Prayer." He was accompanied at the organ by Joan Parks, a cousin of the bride, who also furnished background music and played the wedding march.

Mrs. Herman Schupfer, mother of the bride chose to wear for her daughter's wedding a navy blue crepe dress with pink accessories.

Mrs. Harley Eichner was attired in a grey wool suit dress with red accessories.

Immediately following the ceremony a reception was held in the church parlors for the guests. A beautiful four-tiered wedding cake, topped by the traditional miniature bride and groom was cut and served by Mrs. Dick McCall and Mrs. Geo. Brocke, Jr., after the bride and groom had cut the first piece.

Patricia Long and Patricia Brocke served the punch; Verna Easterbrook and Gwen Cook had charge of the gift table, and Chloe McKeever presided over the guest book. All were schoolmates of the bride.

Both of the young people are well known here, having graduated from the Kendrick High School. The bride attended the U. of I. this last semester, and both have a host of friends.

The couple left immediately on a short honeymoon. The bride wore for her going-away ensemble a grey suit with red accessories. Upon their return they will be at home to their friends in an apartment at the Kendrick Hotel.

The groom will be associated with his father in farming.

Joint P.-T. A. At Southwick

The Kendrick Joint P.-T. A. will meet at Southwick, Monday evening, March 19, at 8:00 o'clock.

Program plans include election of a nominating committee, and announcement of plans for the forthcoming P.-T. A. Stunt Night, March 26th.

Of special interest will be a display of Conservation posters made by some of the grade school youngsters who have entered the Auxiliary Conservation League Poster contest. Mrs. Harry Benschoter has also arranged for a film and a speaker in conjunction with the contest.

Mrs. D. A. Cantril will be hostess chairman for the evening.

Bridge Club Meets

The Bridge Club met Monday evening at the home of Mr. and Mrs. Wade T. Keene in Lewiston, with four tables in play. High scores for the evening went to Mrs. D. A. Christensen and Roy Ramey, with lows going to Mr. and Mrs. W. A. Watts.

Invited guests for the evening were Mr. and Mrs. John Johnson, Mr. and Mrs. Russell Smith and Mr. and Mrs. Rance Orlesby.

A delicious lunch was served at the close of the evening.

MR. AND MRS. HENRY REIL TELL OF GERMAN VISIT

In a brief interview Tuesday morning, Mr. and Mrs. Henry Reil, who spent some three months this past year in Germany, visiting with relatives and friends, told of their impressions gained from that war-torn country.

Mr. and Mrs. Reil said they were most amazed at the physical recovery being made there (buildings, schools, homes, churches, etc.). In one little village in which they spent considerable time and which had been approximately 65 percent destroyed, it being in battle territory, they estimated physical recovery at about 95 percent, and say that it is better than ever, as it is more modern.

In the larger towns recovery, particularly in the bombed-out areas, has not been so rapid, but they say it is making good progress just the same.

Food is described as now "off ration" and plentiful, but prices are high and the laboring man and "white collar" workers are the hardest hit, since they must buy almost everything they use — and wages, due to the surplus of labor, are not in line with prices of store articles.

The farmers of Germany are said to be in a "fair state of recovery" as they raise almost all the food they need, and the prices they receive are good.

Mr. and Mrs. Reil added there are but two fears in the hearts of the average German — that of Russia, and that of inflation — which they bitterly experienced twice and have no desire to undergo again.

The Reils say that they heard no one express fear or hate for the United States — adding that all knew the good things that had come to them via the "Hoover Plan" (the feeding of school children) which immediately following the war, and the Marshall plan, adding that the Germans had made excellent use of the funds awarded them, these funds being used in the rebuilding of homes, schools, churches and places of business, as well as the restoration of roads and farms.

The fear of Russia and Communism is always uppermost in the minds of the average German in the western section and evidently of many in the Soviet zone (eastern section) as western Germany now has some 13,000,000 refugees from that area! These loyal Germans create a tremendous problem for the authorities, for they must be fed, housed and worked for them — but, Mr. and Mrs. Reil added — they are making out and aiding in the recovery of that country.

Mrs. Reil told of talking with a German who stated that since a lad he had believed himself a Communist, but, after spending four and a half years in a Russian prison camp, he had developed a hatred as strong for Communism and he once thought he loved it! And that hate was deep and bitter.

The Americans and British (the latter occupying the sector where the Reils visited) are not hated but liked, and the Germans find the supervisor rule of the Yanks bothers them little, since city and village local governments are now in operation.

Mr. and Mrs. Reil visited with Willie Hoopman, who, with his brother Frank, worked for Mr. Reil for some time, returning to Germany in 1938, and who will be remembered by many here. Willie came through service in the German army — but Frank was not so lucky, starving to death in a Russian prison camp. Willie is married and has two children, and hopes to some day return to the United States.

Stormy Weather Continues

Last Thursday night what was probably the most violent storm of the winter hit this area, the wind-driven snow piling up so hard and deep in the Southwick section that bulldozers had to be called upon to open the roads, the state truck plows being impotent.

Here in the canyon the rain fell in torrents for a time, and was matched on top of the hills by a howling blizzard. The few cars that came down that evening were literally "plastered" with the hard-driven snowflakes.

However, by Friday afternoon it had warmed up considerably, and since that time the temperature has taken an upward turn. True, it has dipped below the freezing point, hitting 22 Saturday night, but on Monday morning showed a mild 38 above, and a little rain and steady thawing has prevailed since that time.

The Kendrick Highway District plow was in almost continuous use until Monday at noon plowing out side roads and opening to two-way traffic roads which had been plowed out to permit one-way travel only.

Entertain Tigers At Dinner

Wednesday evening at last week the Kendrick Tigers entertained the Max Clemenhagen, Orville Halseth, Keith Thornton, Parker McCreary, Rex Knight, Burton Souders, Ira Havens, Lloyd Arnett, David Crocker, Charles Christensen and Albert Clemenhagen, and the Yell Queens, Judy White, Donna Kanik-leberg and Leone Parks; team managers Ben Cook, Jr., and Merwyn Emmett, and Coach Dennis Racicot and Assistant Coach Gerald Becker, were the guests of Mr. and Mrs. Burton Souders, Mr. and Mrs. R. L. Blewett and Mr. and Mrs. L. McCreary at a 6:30 steak dinner at Burt's Confectionery.

The boys were not called upon to give any talks — for their record is well known and the belief that they will give a good account of themselves next year firmly established.

SHORT NEWS ITEMS FROM OUR LOCAL SCHOOLHOUSE

Congratulations Tigers

Congratulations, Tigers — You have just finished a very successful basketball season and we are all proud of you. You have fought for every game won this year and "the Lord only knows" how hard the season has been. All of the team and school have made themselves known for the wonderful sportsmanship they have shown in the past basketball season. That is the most important of all. We have proven our team to be the third best in the 21 teams from this district — that being an excellent record considering all the troubles and difficulties we have experienced this year. Every boy on the team has worked hard to help keep the "honors" that we hold here at the dear ol' Kendrick High school. That is real school spirit!

Smith Leads Scoring

Stanley Smith, Kendrick forward, was the top scorer in the past basketball season and he has every right to be proud of this fact — primarily for the reason that he has had some very close competition throughout the year. Stanley scored 285 points in 24 games. Orville Halseth, the lad known as the "hook shot" artist from Kendrick, followed Stan with 244 points. Other men that made points for Kendrick's Tigers were: Max Clemenhagen 191 Parker McCreary 101 Charles Christensen 49 Lloyd Arnett 47 Keith Thornton 45 Al Clemenhagen 43 Burt Souders 22 Rex Knight 16 David Crocker 7

Class Tournament In Progress

The annual Kendrick High school class basketball tournament has been in progress for over a week now, and every game seems very exciting to the few fans that have been coming over to see them. At present the Juniors and Freshmen are clashing in one of the most exciting games of the tournament, with the Freshmen in the lead at the half-way mark, 20-19. The Juniors defeated the Freshmen team earlier in the tournament and the Freshmen defeated the Sophomores — the sophomores having been eliminated from further competition. The Seniors also walloped the Sophomore class, and then squeezed past the Juniors leaving them undefeated in past play of this tournament. The games to date have been very exciting and interesting in comparison to others through the years. Coach Racicot is the main official of the meet, and he has been doing a swell job "behind the bugle."

District Band Meeting

Thursday, Feb. 22, Mr. Sower and eight band members traveled to Craigmont for a District Band Meet. The players included Judy White, Maxine Slind, Joyce Armitage, Nancy Callison, James Armitage, Roger Jones, Ed. and Herb Pederson.

We left Kendrick at 7:00 a. m. and arrived at Craigmont at 8:00. When everyone got organized about 9:30 — they started the morning mass band rehearsal which lasted until 12:00. We had an hour and ten minutes to eat our lunch and get back to the gym. We then had sectional practice and a little later had mass rehearsal again, which lasted until 4:45. The concert began at 8:00 p. m. and turned out very well. We arrived back in Kendrick at 10:45.

First Literature Show

During the last two weeks the high school English classes saw their first Literature pictures shown for two years. The rooms used for projecting this picture were the Journalism and General Science rooms. The first show was a part taken from the third chapter of "Julius Caesar." This show interested the sophomores most, as they had just learned the speech given by Brutus after the Caesar murder.

Assembly Program

The students of K. H. S. enjoyed a National Assembly program on March 8. They were entertained by Mrs. Peggy Shoemaker, a deep-sea diver for 17 years. She has been collecting specimens for colleges, universities and several museums, most of them gathered along the Pacific and Atlantic coasts. Among the exhibits that she had with her were the Saw Fish, Porcupine, Barracuda and jaw bone of a shark. She also gave tips of deep sea diving and told of some of her interesting experiences.

Teachers Back To Work

Mrs. Earlen Taylor returned to school Friday, March 9, after being absent several days due to illness. Mrs. Winifred Mann returned on Monday March 12.

Mrs. Claude Jones is absent from school this week, due to illness. Mrs. E. O. McAllister is taking her place.

Ill With Pneumonia

Tom Travis of White Sulphur Springs, Mont., who has been making his home here with his brother, Mr. and Mrs. J. G. Travis, this past winter, is quite ill at the Davidson Nursing Home, with pneumonia. The latest word was that he was showing improvement.

New Neon Sign Put Up

Last week-end N. B. Long & Sons installed a new neon sign — the only one in that block. It is of the vertical type, in red, and adds to the appearance of the store, as well as to the town.

Institute Day Successful

The second annual Farmers' Institute Day held in Kendrick Tuesday under the sponsorship of the Kendrick Commercial Club, and directed jointly by County Agents Joe Thometz of Nez Perce county and Elbert McProud of Latah county, was highly successful.

The weather man gave forth with a cloudy but mild day, and as a result some 300 were present for the educational sessions held in the Kendrick Theater and Fraternal Temple, and for the free bean feed at noon.

This attendance is about the same as that of last year.

CLARENCE D. HIETT PASSES AWAY SUDDENLY SUNDAY

Clarence D. Hiett, Kendrick, passed away very suddenly Sunday, March 11, at 12:15 p. m. in the family home following a heart attack, at the age of 51 years, seven months and three days. He was born at Evely, Clay county, Iowa on August 8, 1899.

When a little lad he moved with his parents to South Dakota, thence to Garfield County, Montana, where he grew to young manhood, and where he began the electrical trade work, which he followed all his life.

On Jan. 8, 1930, at Superior, Mont., he was united in marriage to Helen Stretch and to this union were born two daughters, Mrs. Ada McGlothen of Arkansas City, Kansas, and Mrs. Wilda Supple, Kendrick, Idaho, who, with his wife survive him.

Mr. and Mrs. Hiett had made their home here almost four years, moving to Kendrick from the Musselshell Ranger Station in August of 1947. He followed the electrical trade here, operating the Kendrick Electric Shop.

Besides his wife and daughters he is survived by two grandsons; five step-children and 12 step-grandchildren. Eight brothers and sisters also survive, as follows: Mrs. Esther Geely of Willow Lake, S. D.; Geo. T. Hiett of Walla Walla; Mrs. Hazel Bodvin of Leavenworth, Wash.; Marlon Hiett, Mitchell, S. D.; Mrs. Gladys Hellyer, Billings, Mont.; Mrs. Bernice Reed, Port Orchard, Wn.; Glen Hiett of Arlington, Wn., and Miss Clara Hiett of Seattle, Wash.

Funeral services will be held at the Brower-Wann Chapel, Lewiston, Friday, March 16, at 2:00 p. m. The minister in charge will be Leland Gosselin, Moscow, with interment in the Kendrick cemetery.

Mr. Hiett, while of a quiet and retiring disposition, made friends readily, and was held in high esteem in this community.

He was a member of Moose Lodge No. 557 at Anaconda, Mont., where he was governor and past governor of that chapter for many years.

Pomona Grange Meeting

The Latah County Pomona Grange met at Kendrick last Saturday evening with 117 present for the 6:30 dinner and business session that followed.

During the business meeting three resolutions were drawn and adopted as follows:

1. Asking that the American Ridge road (Kendrick to Troy) be taken over by the state.
2. Seconded the Resolution of the Mica Flats Grange No. 436, asking that the State Grange exempt dues of members in Service, as was done in previous wars.
3. Asking help and support of Pomona and State Granges in setting up a scale showing the retail price of farm commodities in comparison with the price the farmer receives.

A program was then given, followed in turn by degree work out on by the Men's Degree team from Moscow, and nine candidates were initiated into Pomona Grange.

After the degree work a dance welcoming the new members was held — and a midnight lunch served.

Honored At Special Assembly

Six Northern Idaho College of Education students whose names appear in "Who's Who Among Students in American Universities and Colleges" were honored at a special assembly Friday morning at NICE auditorium.

The six are Charles Gifford, Josephine Kenyon, Mrs. Patricia Einar Cole and Mrs. June Brown Snyder, all of Lewiston; Vera Burns, Weiser, and Don Nichols, Clarkston. Dean Charles L. Harlan presented the students with certificates giving the background of the award. Gifford was not present because of illness.

The students were chosen by the faculty and fellow students for outstanding service and scholastic achievement.

After the presentation, Leah Jensen of New Plymouth, winner of the Miss Lewiston title Monday night, offered two vocal selections. She was accompanied at the piano by John Watson of Lewiston.

Many Violate Law

Fifty persons were arrested for game law violations during February, the game department said this week.

Bannock county led in the number of arrests, ten persons being cited into court on various charges, with Jefferson county taking second place with six arrests.

Largest fine levied during the month was in Clearwater county where a Weippe man was fined \$200 for illegal possession of deer meat. In Latah county, a Princeton man was fined \$100 for illegal possession of a deer.

Four \$75 fines were levied against men in Idaho, Bonner and Adams counties for possession of improper license, transportation of three untagged deer, allowing a deer to spoil and selling deer meat.

WHEAT EXPORTS SEND NORTHWEST PRICES UP

Grain markets turned firmer during the past week and prices regained a good part of the loss of the previous week, according to reports to the Market News Service of the Department of Agriculture. The upturn in the market resulted in part from the smaller receipts following declines over a three-week period. Unusually large exports of corn and barley, together with an improvement in domestic demand were also strengthening influences. Wheat prices advanced 5 cents or more per bushel at the leading markets and oats about three cents per bushel compared with a week earlier.

Marketings of wheat, dropped off materially during the week and arrivals at primary terminals totaled slightly less than 5 million bushels. Milling demand was fairly active for the desirable types and export business was of good volume. Inspections of wheat for export during the last week in February (latest available figures) totaled about 9½ million bushels, bringing the February total to nearly 33½ million bushels, which were the largest monthly exports since May of 1949. Continued shortage of boxcars were still a limiting factor in market movement. No export sales of wheat were reported by the Commodity Credit Corporation, but sales of flour were equivalent to over 2 million bushels of wheat. The corporation purchased about 250,000 bushels of wheat at Portland, Ore., which brought the total for that area to around 10,200,000 bushels since the middle of January. Reflecting the firmer market situation wheat prices regained a good part of the previous week's declines. At the close of the market No. 2 hard winter wheat was quoted at \$2.46 at Chicago.

Wheat markets in the Pacific Northwest developed a firmer tone near the close of the week, influenced by strength in other markets and a somewhat more active inquiry locally. Trading, however, remained rather limited reflecting the shortage of boxcars and current movement of grain to terminal, which, while quite large, continued to be applied largely on earlier sales. Quotations on export types of wheat were about 4½¢ per bushel above a week ago. The CCC furnished the principal outlet for export types. However, private exporters were in the market for some grain to cover earlier commitments.

Receipts of wheat at principal Pacific Northwest terminals increased materially during the week and arrivals totaled 1169 cars compared with 783 a week ago. Current arrivals were supplemented by heavy movement by trucks and river barge. Following the sharp decline in local prices a week ago, country selling was practically at a standstill early in the week but increased slightly with the price advance. Millers furnished a fair outlet for desirable milling grades, but takings were small, reflecting the shortage of box cars. At the close of the market at Portland bid prices for soft white and white club were \$2.35 per bushel and hard red winter at \$2.36 per bushel, all basis No. 1 grade, delivered coast, 15-day shipment. Cash sales at the close of the week were reported at or near the bid price, delivered coast, shipment when cars are available.

Pacific Northwest oats markets closed steady from a week ago, but quotations were lowered around \$1.50 per ton at mid-week. Demand remained only fair, but offerings in general were light. Montana supplies were on a shipping basis but lack of boxcars restricted trading and movement. No. 2 white oats, 38-lbs. were bid at \$65.50 per ton basis delivered coast, shipment when cars are available, while the same grade was offered at Portland at \$66.50. Spot oats brought a premium of 50¢ to \$1.00 per ton.

At Portland barley prices were unchanged from a week ago with No. 2 western barley, 45-lb. basis, bid at \$62.00 per ton, delivered coast. Demand remained good, but trading was restricted due to the shortage of boxcars and offerings of nearby shipment grain were very light. No. 2 western barley, 45-lb. basis, traded at Portland at around \$62.50 per ton while spot grain brought a premium of \$1.00 per ton. The malting barley market displayed an easier tone at the close, influenced by lighter inquiry and top quality malting barley was generally quoted at \$66.00 per ton, f. o. b. shipping points at the close of the week. This represented a decline of about \$1.00 per ton. Receipts of barley at the principal terminals totaled 83 cars, with arrivals largely applied on previous sales.

Jalopy Saves Car

Tuesday morning, while transporting kindergarten students to the Ben Cook home on the school house hill, Mrs. Bob Magnuson unloaded her charges, parked the family car, and got out.

To her surprise, the brake on the car let go, and it began moving down the hill — with Mrs. Elmo Eldridge, surrounded by kindergarten items, in the back seat. Mrs. Eldridge managed to lean over, grab the wheel and steered it into the parked "jalopy" of Parker McCreary in front of the family home, driving it up over the curb and bending a rear bumper and one fender — but the "jalopy" brakes held and stopped the Magnuson's Chrysler. The car itself was undamaged — but Mrs. Magnuson and Mrs. Eldridge really "suffered a chill."

Kill all the time you wish — but be sure it is your own.

WHAT JULIAETTA FRIENDS ARE DOING THESE DAYS

Mr. and Mrs. John Nickens and family of Kooskia were week-end visitors at the home of her father, Herb Millard.

Mr. and Mrs. Andy Caster and son of Bremerton Wn., are here visiting her parents, Mr. and Mrs. E. A. Onstott.

Mona Hammond, Genevieve Groseclose and Jane Racicot visited with friends at Arrow Sunday.

Mr. and Mrs. Huse Groseclose have received word from their son, Tommy, that he is now stationed in Columbus, Ohio. Tommy also adds he is in the hospital with the measles.

Armeta Sams and Peggy Hadley spent the week-end in Lewiston with Mr. and Mrs. Neil Candler and family.

Mr. and Mrs. Garnett Wilson and family, Lewiston, visited at the Lura

Nelson home Saturday evening.

Mr. and Mrs. C. O. Meyer were business visitors in Lewiston Saturday.

The Nazarene young folks enjoyed a "Progressive Supper" party Tuesday evening.

A number of friends motored to Lewiston Tuesday to honor Mrs. Edgar Lackey with a "house warming party."

Mr. and Mrs. Roy Whittum drove to Moscow Tuesday on business.

Pvt. Leonard Weber, who is stationed at Camp Cooke, Calif., arrived home Sunday by plane to spend a week's leave with his mother, Mrs. Elsie Weber. Leonard states that his division, a former California National Guard unit, has been alerted for duty in Japan — and also in Germany — so it's anyone's guess as to where they may be sent. However, they expect it to be Japan. He reports army life as "not too bad," and says they always manage to

keep the trainees plenty busy.

Our note: Mrs. Rex Knight, our correspondent, ends with: "News is very scarce this week and my whole family is sick, so I didn't have much time to 'dig news out.'"

Big Bear 4-H Club Meets

The Big Bear Ridge 4-H Club, led by Gerald Ingle, met at the Community hall last Monday evening, with eight members and four visitors present.

Gerald Ingle our leader, presented the club a Scrap Book, awarded the group by the Washington Water Power Co. for being one of the outstanding clubs in Latah county.

All members gave reports on their projects.

Mr. Ingle then handed out tractor record books and literature on the projects for the coming year.

At the next meeting it is planned to have Rich Baker, farm representative for the Washington Water Power Co., talk on "Electrification Problems."

PERSONALS AND NEWS ABOUT KENDRICK FRIENDS

Cecil Babcock was a Spokane business visitor last week, where he purchased some new equipment for the shoe shop.

Mr. and Mrs. Wallace Emmett, accompanied by Rev. and Mrs. J. A. Ireland and family left last Thursday for Springfield, Mo., where they will attend the National Sunday School Convention of the Assembly of God Church. While away Mr. and Mrs. Emmett will visit his step-mother, Mrs. James Emmett, at Carroll, Mo.

Word has been received from Mr. and Mrs. Geo. Davidson, former Kendrick residents, who have been spending the winter in Prescott, Ariz., that they are leaving there this week for their home in Moscow. They report a most pleasant winter.

Mrs. Cecil Babcock spent Tuesday of last week with Mrs. S. P. Davis, and reports her as recovering satisfactorily following her recent operation. Mrs. Davis is 74 years old.

Mr. and Mrs. Louis Spencer of the Musselshell Ranger Station arrived here Monday to be with her mother, Mrs. C. D. Hiett, upon receiving word of Mr. Hiett's passing.

Mr. and Mrs. Teddy Deobald and baby daughter of Kennewick, Wn., were week-end guests in the home of their parents, Mr. and Mrs. E. A. Deobald and Mr. and Mrs. E. M. White.

Mrs. Clifford Davidson returned home from Spokane Monday following a ten-day visit in the home of daughter Mrs. Ray Hathaway and family. Her granddaughter, Caroline Hathaway, accompanied her home for a visit.

Mr. and Mrs. David Clayton were Spokane visitors Sunday.

Mr. and Mrs. Ig. Flaig of Coeur d'Alene and Mr. and Mrs. Donald Kuykendall of Lewiston arrived here Tuesday for a visit in the home of Mrs. Flaig's mother, Mrs. Estella Leith, who is ill with the flu.

Johnny Lind, Moscow, and Mrs. Bina Raby of Lewiston are visiting this week in the Paul Lind home.

Mr. and Mrs. Lawrence Cook of Lenore were guests in the Paul Lind home Sunday.

Guests in the C. H. Fry home Sunday were Mr. and Mrs. Herb Millard of Moscow; Mr. and Mrs. Norman Fry of Headquarters; Bill and Don Fry and Chas. Easterbrook of Elk River; Mr. and Mrs. Ted Vaughan and children and Mr. and Mrs. Dick Fry.

Mrs. Kenneth Brocke was a Lewiston visitor Tuesday.

Karen Louden is back in school this week, following an illness.

THURBER'S

Gives To Blood Bank

When told recently that the Red Cross' supply of whole blood was dwindling due to the heavy demands in Korea, John S. Benscoter, hospital corpsman, first class, U. S. N., son of Mr. and Mrs. Walter F. Benscoter of Kendrick, Idaho, with more than 130 navy men from the Naval Air and Fleet Air units, Naval Air Station, Whidby Island, Wash., donated a pint of blood to the King county blood bank at Bellingham, Wash.

Many who made the trip were able to give eyewitness accounts where blood was used in Korea.

Bridge Club

Mrs. Estella Leith entertained the Afternoon Bridge club in her home last Thursday.

Invited guests were Mrs. Marvin Long, Mrs. Lester Crocker, Mrs. Gerald Becker and Mrs. John Johanson. High score went to Mrs. Becker and low to Mrs. W. A. Watts. Delicious refreshments were served at the close of the afternoon.

Church Being Redecorated

In preparation for Easter the Community church is undergoing interior redecoration at the hands of Ed. Long, assisted by Don Miller.

A pale aqua shade is being used on walls and ceiling.

Get those fresh-frozen Bird's Eye Frosted Foods at Blewett's Cash Grocery, Kendrick. The big case is a "serve yourself" style. 1-adv.

Two Cars Stolen Friday

State police and sheriff's deputies covered four communities by police radio Friday evening to recover two stolen cars and jail three youths in less than three hours.

Donald Sorenson, 22, Lewiston; Sim Fleishman, 19, Genesee, and a 16-year-old Genesee boy were arrested at 9:00 p. m. that night at Lewiston on charges of stealing two automobiles.

State Police Lt. Robert Love told this story:

An auto owned by Ronald Huffman, Lewiston, was stolen shortly after 6:00 p. m. at Genesee. It was found run off the road and abandoned about three miles from Juliaetta on the Genesee-Juliaetta road about 8:30 p. m.

At about the same time a 1950 model coupe owned by John Halliday, Juliaetta, was stolen at Juliaetta. The sheriff's office at Lewiston was notified by radio of the first theft but did not yet know about the second missing vehicle.

Between 8:30 and 9:00 p. m. Deputy Sheriff Earl Wormell noticed three youths driving a 1950 coupe at Lapwai. Their actions aroused his suspicion so he radioed officers at Lewiston as the car headed that direction.

Love, State Police Officer Frank Shoemaker and Deputy Sheriff Clarence Kyle arrested the three youths at Lewiston. Love said they admitted stealing the first vehicle at Genesee, walking to Juliaetta when they ran it off the highway and taking the second car there.

Love said neither automobile was damaged. Latah county sheriff's officers drove to Lewiston to take Sorenson, Fleishman and the teen-aged boy to Moscow. — Lewiston Tribune.

Garden Is "Out of Bounds"
U. of I., Moscow — New York's Madison Square Garden was ruled "out of bounds" last week for the University of Idaho basketball players during the 1951-52 season.

President J. E. Buchanan of the university approved recommendations of the faculty athletic committee which held that no games should be scheduled in the Garden during the next season. Idaho teams have played in the Garden three out of the

last five seasons.

The committee action came as a result of a study of the bribery scandals that have clouded the brightly-lit Garden. Long Island university basketball players listed their game with Idaho in December as one which they attempted to fix for a price. The game was won by Long Island 59 to 57.

The University ruling against Garden competition did not go beyond the 1951-52 season.

It's The Truth!
It's a woman's world. When a man is born, people ask: "How is the mother?" When he marries, they exclaim: "What a lovely bride!" And when he dies they inquire: "How much did he leave her?" — Railroad Journal.

Don't fuss and fume over out-of-season items. Get them at Blewett's Cash Grocery, Kendrick. 1-adv.

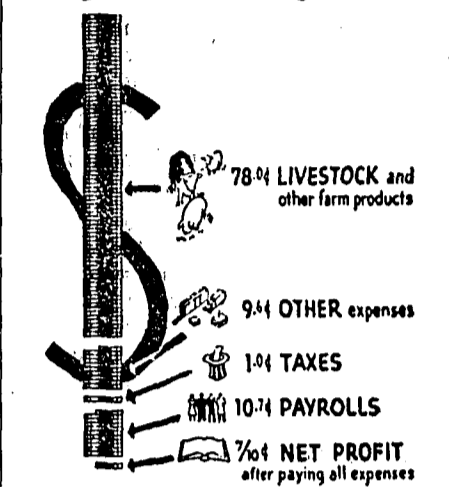

Most of Packers' Sale Dollar Goes to Farmer

Industry Expects Near Record Production in '51

The meat industry—from farmer to consumer—is an important part of this country's economy. Of every dollar exchanging hands in the industry, 78 cents goes to the country's farmers.

Profits in 1949, as reported by companies producing the bulk of the nation's meat supply, averaged 7/10 cents out of each dollar of sales, or about 1/3 of a cent per pound of meat sold.

As shown by the above chart, payrolls go next to the largest share of

Of every packer's sales dollar, 78 cents goes to the country's farmers.

The packer's dollar—10.7 cents; other expenses totaled 9.6 cents and taxes got 1 cent of the dollar.

Profits included those made on the sale of meat and all other products, including by-products and non-meat items, such as soap, cleansers, medicinal glands, and dairy and poultry products.

The meat industry expects a near record production during 1951. Consumption will remain high due to defense buying and record employment, industry spokesmen believe.

Egg Production Depends On Well Balanced Ration

Poultry experts report it requires about one pound of balanced feed for every seven eggs produced. To make a well balanced ration the vocational agricultural service of the University of Illinois advises:

Use at least three feeds from the cereal grains and by-products to make up 75 to 90 per cent of the ration.

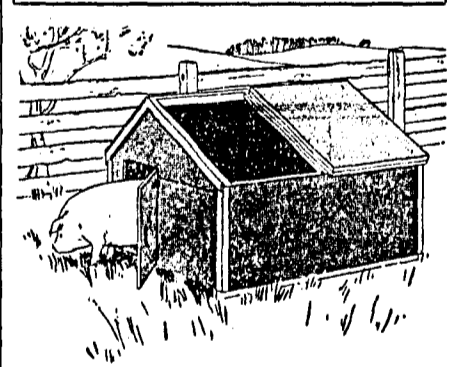

Five to 10 per cent of the ration should comprise an animal-protein feed.

Use one or more plant-protein feeds, if available at reasonable cost. Not more than 15 per cent of the ration should come from this group.

Include at least one legume roughage, to make up 5 to 10 per cent. Some carrier of calcium should be included if the ration contains no meat scrap, fishmeal or tankage.

One pound of common salt should be added for each 100 pounds of total ration.

Hog House

Scientific hog raising for highest profits calls for warm, dry, inexpensive housing. The sunlit hog house above is simply constructed. Its dimensions are 7 feet by 6 feet, and 4 feet 10 inches high. Built on skids, it has a one inch rough floor laid on 2 by 4-inch sills. Studding of 2 by three inch lumber supports the masonite quarter-inch tempered hardboard used for siding and roof. This material is durable and weather-resistant. Four-inch light strap hinges are used for turning back the roof door. Plans are available by writing Farm Service Bureau, Suite 2037, 111 West Washington St., Chicago 2, Ill. The plan number is AFB-186 and are free.

Plan Hog Pasture—Farmers planning next year's crops should include an alfalfa pasture for hogs to save grain and protein feeds.

U. S. Crop Production Up During Last Ten Years

Agriculture during the last decade has increased production from 10 to 14 per cent although its manpower had declined and the nation's population has increased, agriculture leaders point out.

The increase was due in great part to agricultural colleges with their branches of extension, research, and resident-teaching. Mechanization also played an important part in the increase.

Radioscience Tags Insects As Aid in Control of Flies

Radioactive phosphorus from the Oak Ridge laboratory of the Atomic energy commission is aiding research on insect pests, the U.S. department of agriculture reports. A first field test of the "tagging" of insects with radioactive material developed information of practical value, and also showed that radioisotopes can make much easier and more definite essential studies of the flight range and distribution of insects.

Preliminary experiments explored ways of "tagging" insects. In Oregon, federal and state entomologists devised two ways of getting the radioactive phosphorus into the bodies of flies and mosquitoes reared in the laboratory. The first practical application was the release near Corvallis, Ore., of groups of thousands of tagged flies. This was followed by recoveries in baited traps set in various directions and at varying distances.

The "tagged" insects included houseflies and two common species of blowflies. The scientists found it relatively quick and easy to go over the catches with a device that registers radioactivity and so identify the radioactive flies. Houseflies were trapped in all directions and at distances up to 12 miles.

These results may prove of practical value in fly control. Since entomologists have learned that some strains of flies have developed resistance to DDT poisoning, they have wanted more information as to how far resistant flies were likely to spread. The 12-mile flights revealed by this first "tagging" experiment show that resistance is likely to spread widely as resistant breeders scatter into areas where DDT has destroyed non-resistant flies.

Reliable information as to flight of mosquitoes is wanted as an aid in establishing the size of control zones for protection either by poisoning or by drainage. Another field, in which entomologists need more exact knowledge than they have is on flight of blowflies.

New Drug Fails to Stop Tropical Animal Disease

They said it might become one of the most spectacular drugs of all time — a drug that would enable farm animals to live and stay healthy in insect-ridden tropical areas.

That's the way "anticyde" shaped up when British scientists first tested it as an injectable medicine for preventing trypanosomiasis, a deadly blood disease caused by microscopic parasites. These parasites are spread from animal to animal mainly by tsetse flies.

But the blood parasites found a way to fight the medicine, and they seem to be getting the upper hand. They have built up resistance to flies have acquired resistance to DDT.

In one of the most recent tests, conducted by research veterinarians in East Africa, injections of the drug failed to prevent the disease, in a test herd of 60 cattle kept in a fly-infested area. All but two of the cattle died of trypanosomiasis within four months.

From 1/2c to \$3750

A famous coin collector once advertised an offer of \$75 for every 1913 Liberty-head nickel sent to him. During the 1920's and 1930's it was common practice for one to look at his change to see if such a nickel turned up. Finally the public came to realize that 1913 was the year the Liberty-head design was changed by the U.S. Treasury to the buffalo pattern. Strangely enough six Liberty-head nickels with 1913 date were struck off at the mint which didn't show up in the Treasury records. The most recent exchange of one of these nickels was made for \$3750. This is a high price for a coin of 25 per cent nickel 75 per cent copper content whose intrinsic value at the time of issue was about half a cent.

Lard Exports to Cuba

United States exports of lard to Cuba last year accounted for 21 per cent of the total lard exported from this country. Shipments of United States lard to Cuba have been larger than those to any other country in each of the last three years, 1947, 1948 and 1949. Cuba imports about 95 per cent of its lard requirements and, during the period 1939-1948, about 95 per cent of these imports came from the United States. In addition to providing an outstanding market for lard, Cubans are also important purchasers of other pork products from the United States.

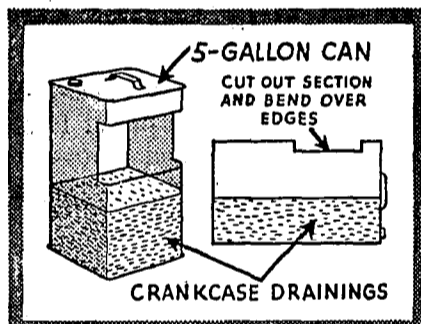

Riboflavin in Milk

Keeping milk covered while heating helps save riboflavin, an important B-vitamin. Riboflavin is destroyed easily by light and this destruction is hastened by heat. Tests show that milk boiled in the light lost considerable riboflavin, but milk boiled in the dark lost very little. It is important for the housewife to take every precaution against losses of this vitamin in milk, because milks is the food on which children and adults depend for most of the riboflavin they need for best health.

The EASY-DOES-IT CORNER

Make Easy-Carry Drain Pan From 5-Gallon Can

We've heard about a lot of makeshift drain pans—many of them troublesome. But here's one (below) you can make that can be pulled from under a vehicle by the handle, then carried with one hand.

If you want to do away with engine troubles on your truck or tractor, try RPM DELO Heavy Duty Lubricating Oil. It will save you up to 60% on engine maintenance costs.

RPM DELO Heavy Duty is a high performance level oil, compounded to stop ring-sticking, piston deposits and corrosion. We recommend it particularly for farm tractors.

International Show Opens November 25 Cattle Class Prizes Largest Ever Offered

The 51st International Live Stock Exposition will be held this year in the International Amphitheatre at the Chicago stock yards from November 25 through December 2. Increased prize money for the show should help to encourage the exhibition of top livestock from both the United States and Canada, exposition officials reported.

Prizes for all cattle classes will be \$61,370, the largest total ever

An international grand champion steer is shown above with owners, Cleo Yoder of Iowa, Henry W. Marshall, exposition chairman, and Dr. A. D. Weber who is slated to judge steers again this year.

offered. Many prize increases made in other breeds to mark the occasion of the golden jubilee show of 1949 are retained this year.

Dr. A. B. Weber, of Kansas State college, will judge the steers again this year. He is the only American to judge these classes since the exposition departed from the custom of having foreign judges two years ago.

Other features in connection with the international that have been familiar in the years since 1900 include the grain and hay show, recognized as the world's largest competitive showing of farm crops.

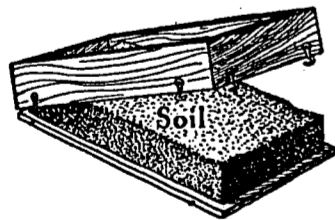

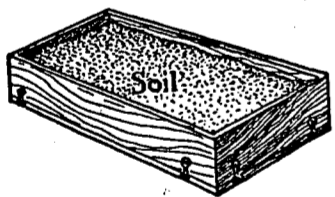

Farm Expenses Increased Five Fold in Past Decade

Farm expenses have increased almost five-fold over the past decade and not many farmers would care to return to the "good old days" of low expenses—if they had to accept the level of income that accompanied them.

This increase in cost of farm operation has been accompanied by some phenomenal changes in the composition of expenses. Machinery expense made up only 14 per cent of the total in 1935-39 while in 1947-49 it accounted for 21 per cent. Also, farmers are spending proportionately more for feed, fertilizer and crop expense than they spent 15 years ago.

These changes have been accompanied by a substantial increase in man labor efficiency on farms.

Improved Seed Flat

An idea that might be useful when growing next spring's plants is the seed box with removable sides as shown in the above illustration.

The sides are nailed together and attached to the bottom by means of hooks and screw-eyes. When the plants are large enough to be transplanted from the flat, the sides are unhooked and lifted up from the bottom, the soil with the plants in it remaining undisturbed on the bottom board. The plants are then easily separated and pulled up. When ready to use again, the sides are hooked to the bottom, and the flat filled with new soil. Very little root disturbance will result when the small plants are cut from the mass of soil with earth clinging to their roots.

Low Temp. Rendering Of Lard Is Recommended

Your home-rendered lard will be of better quality if you use a low temperature for rendering, nutrition specialists report.

A low temperature is needed to give the greatest yield of lard from the fat and to prevent scorching and sticking, which changes the flavor. Render the lard as promptly as possible after the carcass has been thoroughly chilled—preferably within 24 hours.

Brittle Stars Blow Tops, Shed Arms, Grow New Ones

Consider the brittle star, shy and streamlined cousin of the starfish. When handled or disturbed, it can cast off any of its five arms, growing new ones at leisure. In some cases it can literally blow its top, then gradually re-cover. Rare specimens of the brittle star have been reported taken recently from California waters off Santa Catalina Island.

The brittle stars, while rare in many of their forms and little known to the average seashore vacationer, are among the commonest creatures on the floors of the seven seas. Something like 1,500 species are recognized. The majority live on the ocean bottom in deep water. They form the largest of five classes of echinoderms, spiny-skinned sea denizens.

The five arms, or rays, of the brittle star are generally long and slender and capable of snakelike movement. Hence, its popular alias is serpent star, and its scientific name, Ophiuroidea, means serpent-tails. The name "brittle star" stems, of course, from the manner in which most species can break off all or parts of their arms, which may reach two-feet in length. Round or pentagonal in shape, the central body varies from pinhead size to as much as two inches in diameter.

The fact that brittle stars are fragile explains why these odd scavengers are little in evidence in shallow waters where waves break. They are abundant, however, where seaweed is thick or in dark crevices of rocks and coral. Tropical waters hold the greatest variety, colors ranging from near black to white. Colder northern depths hold the greatest numbers. They form an important part of the diet of north Atlantic haddock and cod.

Divorce Rate in America Continues on Downgrade

Divorces granted in the United States in 1949 show a decline for the third year in a row. The estimated total for the year was 391,000, which is a reduction of 7 per cent from the 1948 total of 422,000, and of 38 per cent from the peak year 1946.

Despite this trend, the number of divorces granted last year was the sixth highest in the country's history, exceeding that for every year prior to 1944, and more than one fifth higher than the figure for 1942, the first year of United States participation in World War II.

The decline since 1946 was sharp in the North. Somewhat less marked in the South, and least in the West. In seven widely separated cities—Buffalo, Erie, Jacksonville, Knoxville, Minneapolis, New York and Portland—the decline was more than 50 per cent.

Some indication that the postwar divorce decline is nearing its end is seen by the statisticians.

Each of 59 major cities reported fewer divorces in 1948 than in 1946, but 15 of these cities showed increases in 1949. In Miami and in the divorce center of Reno the increases were substantial. In Miami the total rose from 4,451 in 1948 to 4,707 last year, and in Reno from 5,782 to 5,902.

Tired of meat? Get fresh salmon, halibut, oysters, etc., at Blewett's Cash Grocery, Kendrick. Shipments arrive every Thursday evening. 1-ad.

Everything for building is available at the Kirkpatrick Lumber Co., Juliaetta. Low in price. 1-ad.

Junior Livestock Show May 7-11

Northern Idaho's FFA and 4-H club members will compete with rural youth from other parts of the Pacific Northwest at the annual Junior Livestock Show in Spokane, May 7 to 11. Young showmen from eastern Washington, western Montana, and Umatilla and Wallowa counties in Oregon will also be on hand to make the 1951 show a real one.

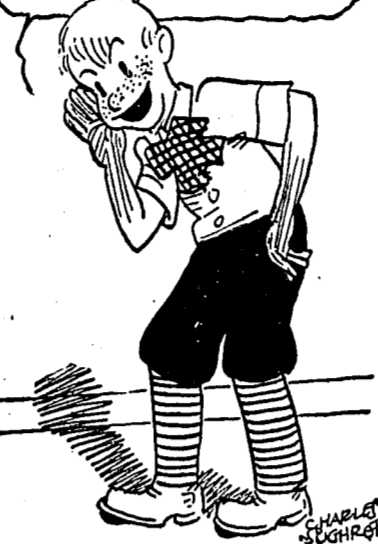

A junior show throughout, rules are that all participants must be regularly enrolled in livestock project work with their vocational agricultural instructor or club agency. The stock to be shown must have been owned by the exhibitor by February 1 of this year.

The growing list of applicants planning to attend is proof of these youngsters' determination to duplicate the honors won at last year's show. In 1950, Idaho made an excellent showing, with grand championship honors in 4-H going to Harold Yeomans, Potlatch, for his prize steer, and to Miss Marjorie Silers, Coeur d'Alene, for her Southern lamb. Charles Schroder Moscow, had the reserve championship FFA Junior hog, and Mickey McCarty of the Moscow chapter, a high choice fat steer.

Get that fresh fish at Blewett's Cash Grocery every Thursday. Delicious, nutritious. 1-ad.

GOLDEN RULE

Mar. 13 — Mr. and Mrs. Howard Dodge of Alaska recently arrived in the states for a visit with friends and relatives.

Mrs. Glen Betts was a visitor in the George Wells home, recently.

Mrs. Wilmer Hanks visited Mrs. Carl Finke on Thursday. Mrs. Finke has been on the sick list this past week with the flu.

D. V. Kuykendall accompanied Glen Betts and son Eugene to the telephone meeting at the Teakean Grange hall Wednesday evening.

Mrs. Oscar Lawrence and son Albert were Orofino visitors Saturday, and called at the Orvel Skaggs home.

Mr. and Mrs. Ishmael Martin, Mary Jane Martin and a friend, all of Lewiston called at the Martin Bros. home Sunday.

Mr. and Mrs. J. R. Crawford of Orofino visited at the Glen Betts home Sunday afternoon and evening.

Mrs. Oscar Lawrence and son Albert visited at the Henry Loeser home Sunday afternoon.

Wayne Kuykendall of Kendrick visited his brother, D. V. Kuykendall and family, Saturday, and his brother Jack visited with them Sunday.

Mr. and Mrs. Wm. Koepf and Chas. (Chick) Greenhalgh visited at the D. V. Kuykendall home Thursday evening.

Pvt. Chas. Greenhalgh left Sunday to return to his post of duty at El Paso, Texas, after spending about a week's furlough here with his mother, Mrs. Wm. Koepf, and others.

Sonja Hoisath was absent most of the past week from school, due to illness with the flu.

R. S. Betts accompanied Mr. and Mrs. Carl Finke and "Butch" to Lewiston, Monday.

Mr. and Mrs. D. V. Kuykendall were Kendrick visitors Tuesday.

Beeware — Beeware!

Beeware the wasp, the yellow-jacket and the hornet! He may not be so cold as you figure he is during the days of March. Beeware especially if you are working out in one of the sheds where he had his nest last summer and you have a fire in the vicinity. He may warm up enough to make a short flight to the fire and succeed in making a one-point landing on the back of your neck and thence to one of those unattainable spots between your shoulder blades. He may end this exodus between your skin and your heavies, and there will be trouble.

Anything can happen when this occurs. You may turn from what you are doing and unjustly flog the tar out of one of the kids for putting a coal of fire down your neck. You may swear that you have been stabbed and find the real trouble — or you may go through the side of the shed without bothering to open the door.

bed and bleed to death before you All this and more. Possibly.

The best way to get rid of them right now is to spray them with chlordane or DDT in oil. Be sure the day is cold enough that they cannot fly.

Lots of Flu

There are many in this area who are ill with the flu — some in bed, some confined to their homes — and some "just up and about."

Building supplies of all kinds, Kirkpatrick Lumber Co., Juliaetta, 1-4d

NOTICE OF SALE

In The Probate Court of the County of Latah, State of Idaho

In The Matter of the Estate of MYRTIE KUYKENDALL, Deceased

NOTICE IS HEREBY GIVEN that Alton J. Kuykendall, Administrator of the Estate of Myrtie Kuykendall, deceased, will sell at private sale, in three parcels, to the highest and best bidder upon the terms and conditions hereinafter mentioned and subject to the confirmation of the said Probate Court, on or after March 28 1951, all of the right, title, estate and interest of Myrtie Kuykendall at the time of her death, and all of the right, title, estate and interest of said estate by operation of law or otherwise acquired other than or in addition to that of the said deceased at the time of her death, of, in and to the real property situated in Kendrick, Latah County, Idaho, to-wit:

Tract No. 1

Lots 1, 2 and 3 in Block 94, Oaks Addition to the Town of Kendrick, as shown by the recorded plat thereof EXCEPTING THEREFROM that part deeded to the State of Idaho for Right of Way by instrument recorded in Book 110 of Deeds at page 409, of the official records of Latah County, Idaho.

Tract No. 2

Lots 9 and 10 in Block 95, Oaks Addition to the Town of Kendrick, as shown by the recorded plat thereof, EXCEPTING THEREFROM that part deeded to the State of Idaho for right of way, by instrument recorded in Book 110 of Deeds at page 409, of the official records of Latah County Idaho.

Tract No. 3

Lots 7 and 8 in Block 101, Oaks Addition to the Town of Kendrick, as shown by the recorded plat thereof.

TERMS AND CONDITIONS OF SALE: Cash, lawful money of the United States; Buyer shall be let into possession as follows:

Tract No. 1, upon date of payment of purchase price.

Tract No. 2, 30 days from date of confirmation of sale, the purchase price having then been paid.

Tract No. 3, possession is subject to the tenancy at will of the present tenant.

Deed and Revenue Stamps at the expense of the estate; 1951 taxes at the expense of Purchaser; Administrator reserves right to refuse any and all bids; ten per cent (10) of purchase money to be paid with each bid; all bids must be in writing and left with the administrator personally in Kendrick, Idaho, or at the office of Laurence E. Huff, 111 West Third Street, Moscow, Idaho, at any time after the first publication of this Notice and before making the sale.

DATED This 1st day of March, 1951.

ALTON J. KUYKENDALL, Administrator

Laurence E. Huff, Moscow, Atty.

First pub. March 8, 1951.

Last pub. March 22 1951.

Mystery of Eye-Wear Marked with Fumbling

Every normal human has two ears and a nose, which provide a logical means of holding a pair of lenses before the eyes. What could be more natural than to saddle the nose with a neat, snug-fitting bridge and keep the spectacles in place with a couple of hooks behind the ears?

Natural or not, the early spectacle-makers didn't do it. As you look over the drawings and prints representing ancient glasses, a question keeps repeating itself in your mind. How in the world did the wearer hold them in place? So it happens that the history of frame-making is very largely a story of methods—some ingenious, the majority clumsy—of attaching binocular spectacles to the face.

The earliest lenses were single glasses, held in the hand, so the problem of facial attachment did not arise. They were of the type of the emerald lens through which, according to Pliny (23-79 A.D.), Nero regaled his beastly soul by gazing at the gladiatorial fights in the Roman arena. These were the first "opera glasses", so to speak. Optical science paused for centuries before developing into eyecare, after Euclid wrote his classic treatise on optics (third century B.C.), and Seneca discovered that objects were magnified when viewed through a glass globe filled with water (first century A.D.), and Claudius Ptolemaeus (150 A.D.) founded the science of optics by calculating the refraction of light in water (n equals 1.335) and in glass.

Oldest Dated Artifacts Reported by U. C. Men

The discovery of the most ancient dated man-made artifacts so far reported in the western hemisphere has been disclosed by anthropologists on the Berkeley campus of the University of California.

Implements fashioned by primitive man in about 5,000 B.C. were uncovered near Lovelock, Nevada, recently by university anthropology students working under the direction of Robert F. Heizer, associate professor of anthropology.

Dated by the new "carbon 14" method—a technique devised by nuclear physicists and the only method for really exact dating of prehistoric materials—wood spear shafts taken from the excavation site were determined to be about 7,300 years old.

In the upper layers of the excavation site the archaeologists found quantities of artifacts such as basket and arrow fragments of relatively recent origin, dating back about 2,500 years. Deposits of bat guano at a lower level, in which the ancient spear shafts, spear points, pieces of string, and evidence of campfires were embedded, were found to be 9,000 years old by the carbon 14 technique. A floor of lake gravels at the bottom of the site was estimated to be about 25,000 years old.

From these findings and a survey of other sites in the area, the scientists were able to reconstruct the first reliable picture of prehistoric man's occupancy of the Humboldt basin.

If A-Bomb Falls

Neither explosive nor lingering radioactivity has any effect on the operation of most mechanical or electrical devices. Unless the wires are down or there is a power failure, both your lights and telephone should continue to work. But don't rush to the phone just to find out how Aunt Susie may have weathered the A-Bomb attack. Leave the lines open for real emergency traffic. The bomb's radioactivity will not interfere with the operation of your radio. In the event of attack, be sure to turn it on. It may be your main source of emergency instructions. And don't forget: Battery-operated portable sets, including those installed in automobiles, will continue to work even if the city power goes off. Television reception, like radio, won't be jammed by radioactivity.

Is It "Colorfast"?

"Colorfast," a familiar term to today's shopper, has different shades of meaning! Just a clerk's assurance that an article is "Colorfast" is not enough. Termed as "Colorfast," for instance, are many of the colored rayon tablecloths now on the market. But some of these cloths stage a fade-out in the most carefully controlled washing formula. Drops of gravy, crimson cranberry and lipstick stains, fruit juice, wine and beverage stains all must be removed in the laundering process. If color loss occurs during a cleansing treatment which must remove stains as well as soil, then the cloth is not "Colorfast" to the mildest stain removal treatment.

Finish Protects Transformers

Electrical transformers, which are hung on poles, are exposed to extreme weather conditions and must have special finishes to protect them against heat and cold. The surfaces of fully loaded transformers often reach temperatures of 200 degrees F when the sunlight blazes on them. During the winter months, these same surfaces may be exposed to temperatures as low as 50 degrees F. The finishes must also be able to withstand the attacks of salts, acids, alkalis and moisture.

STONY POINT NEWS

Pvt. Byard Parks was the honor guest at a dinner given by his parents, Mr. and Mrs. Hugh Parks, Wednesday. Other guests were Mr. and Mrs. Walter Crawford and family of Leland, Mr. and Mrs. Homer Parks and Mr. and Mrs. Harold Parks, also of Leland; Mrs. Betty Cool of Pendleton; Mrs. Hund, Miss Betty Ann Radigast and Mr. and Mrs. Earl Parks, all of Lewiston, and Mrs. Walter ZumHofe and children. Byard left by plane Sunday at 8:00 a. m. after a week furlough, for Camp Cooke and further orders. Dinner guests of Mr. and Mrs. Ernest Steigers and family Sunday were Mr. and Mrs. George Coffland and daughter Betty, Mrs. Helena Brown and daughter Carol, and Bill

Cooper and daughter Shirley. Mr. and Mrs. Martin Stemple and daughter Martina were supper guests of the Ernest Steigers family.

Word has been received from Lee Heath that he had arrived at Fort Lewis, Wash., but will be sent on from there, so he has no address as yet.

Miss Inez Heath, Miss Betty Coffland and Bill Ingraham surprised Lee Heath and the other inductees at Spokane Wednesday evening, when they drove up to spend the evening with them.

Mrs. Floyd Heimgartner is much improved, following a severe siege of the flu last week.

Mrs. Bea Hoisington will entertain the Friendship Club this Thursday, March 15.

Potlatch Chief Sez

Published by the Kendrick Creamery

HELLO, THERE, FOLKS:

Well, well — we still have a real brand of March weather with us — chill, damp, cloudy days — but then, it might be lots worse. We could be wading snow a foot deep, and shoveling coal to beat the band.

But, speaking of "shoveling" how about giving old bossy, an extra bit of feed and cashing in on her cream production at the creamery? Not only do we give "right now" service, but return a steam-sterilized, ready-to-use can. That helps too. Try it.

A nudist who has just spilled steaming coffee in his lap is next to the fastest thing in the world!

Are you drinking all the milk you should have these cold, raw, sunless days? Remember, every child should have at least a quart a day — and be sure it's "Potlatch Chief" brand — your assurance of purity and quality.

Stranger: "Say, mister, do you have a criminal lawyer in this town?"

Native: "We think we have, but we can't prove it!"

Bread and butter — the twin staffs of life. Enjoy them all the more when that butter is sweet, pure, "Potlatch Chief" brand. It's made from pasteurized cream!

In the shipyards the instructor in riveting was coaching a feminine novice. "Look," he said. "I'm placing the rivet here in the proper place. When I nod my head, hit it with your hammer."

She did.

The instructor left a wife and four children.

A man returning home in the small hours of the morning found a burglar jimmying the lock of his front door. An opportunist he whispered to the prowler: "I'll open the door if you'll go in first."

INTERESTING NEWS BITS FROM THE SOUTHWICK AREA

The Syringa 4-H Club met Wednesday evening at the home of Glania Babb. A business meeting was held and posters worked on. Refreshments were served at the close of the meeting.

Thursday the Home Makers Club held an all-day meeting at the home of Mrs. Millie Harris.

Bennie Pressnall, son of Mr. and Mrs. Ben Pressnall, reported to Spokane Thursday for induction into the army.

Barbara Colwell was an over-night guest Wednesday night in the Don Cantrill home.

Abner Cowger is now working at Pennawawa Wash, with Louis Porter's logging outfit, salvaging run-away logs. Aaron Wells, who the past few days has been confined to his home by illness, plans to join the crew at the end of the week.

Mrs. Ben Pressnall visited Mr. and Mrs. Kenneth Anderson in Lewiston, Sunday. She reports the arrival of a new daughter in the Anderson home.

Mr. and Mrs. Howard Southwick left Monday for Boise to visit Mr. and Mrs. Neal Southwick and family.

Mr. and Mrs. Wm. Babb and family are moving to Pullman, where Mr. Babb is now employed.

Mrs. Darwin Tarry was the hostess at a special meeting of the Home Makers Club Monday evening. The Southwick community will

play host to the P.-T. A. Monday evening, March 19th, at 8:00 o'clock, at the Southwick gym.

Monday, Mrs. Ruth Armitage and Mrs. Edna Davis attended a Leaders' meeting on a 4-H Clothing project at the Washington Water Power Co. office in Lewiston.

Mr. and Mrs. Earl Johnson of Lewiston were Sunday dinner guests in the Arne Cuddy home.

Mr. and Mrs. John Lettenmaier and family were afternoon callers at the T. J. Armitage home, Sunday.

Mr. and Mrs. Henry Davis and family were dinner guests Sunday in the home of Mr. and Mrs. Irvin Fry.

FAIRVIEW NEWS ITEMS

Mr. and Mrs. Don Bateman and daughter Diana were Lewiston shoppers on Saturday. Mrs. Veta Stump returned home with them after spending the past two weeks with her sister, Mrs. Joe Michaels.

Mrs. Bob Cools returned to her home at Pendleton, Ore., Saturday, after spending two weeks with her parents, Mr. and Mrs. Harold Parks and family.

Ed. Gertje visited with Harold Parks Friday afternoon while Mrs. Parks and Mrs. Gertje attended the shower in the Leland church basement honoring Mrs. Bob Cool (nee Betty Parks).

Jerry Bateman was a Saturday over-night guest of Mr. and Mrs. Don Bateman.

Mr. and Mrs. Ed. Mielke and daughters of Cameron were Sunday afternoon and evening guests in the Harold Parks home.

Mr. and Mrs. Fred Glenn and family visited with her mother Mrs. Walter Cochran, at Juliaetta, Sunday afternoon.

Mr. and Mrs. Fred Glenn and Mr. and Mrs. Paul Dagefoerde were Lewiston visitors Monday.

Mr. and Mrs. Errol Woody of Fairview attended a birthday anniversary celebration at the home of Rev. and Mrs. Oliver in Lewiston, Sunday.

Miss Margaret Dagefoerde of Rockford, Wn., is visiting at the home of her sister, Mrs. Jesse Heffel and family.

Mr. and Mrs. Jesse Heffel and family and Miss Margaret Dagefoerde were Sunday evening supper guests in the Ed. Hinrich home.

Mr. and Mrs. Paul Dagefoerde and family were Sunday afternoon and evening guests in the home of Mr. and Mrs. Roy Craig.

Mr. and Mrs. Don Bateman and daughter and Mrs. Veta Stump were Sunday dinner guests in the Wilbur Corkill home.

The Wilbur Corkill family called at the Don Bateman home Wednesday evening.

C. C. Y. Meeting

The Community church C. C. Y. met at the home of Donna Knox Sunday evening, with Mr. and Mrs. Gerald Becker in charge of Bible study. There were nine girls present but no boys — and a special invitation is extended to them. Mrs. L. S. Thurber served delicious refreshments to the young people.

The next meeting will be March 25 in the church basement, with Ann Karlikeberg in charge of the worship service.

Truck Plates Missing

A brief note from E. Dan Pederson, assessor, Moscow, states that they do not have any truck license plates, and that none are expected until the last week in March. Mr. Pederson adds that they have about 500 passenger car plates on hand and that more are expected to arrive this week. He states that the usual call is for about 2,300 farm truck license

plates and about 7,000 car plates. It is possible that the truck application period will be extended to March 31st.

Interior Redecorated

The interior of Burt's Confectionery was redecorated the fore-part of the week. The ceiling and one wall in a soft yellow, and the other walls in mist gray. The result is very attractive.
