HELLO, THERE, FOLKS -

It's glorious spring weather, isn't it? And field work is going well? - But how about your cows? Are you taking the kind of care of them that will bring you the greatest returns?

Remember, Old Bossy needs lots of fresh water, salt, and a bit of hay or grain each day to produce the most from pasture. If she doesn't have all these things, see that she gets them. We want to buy that cream, and the better care she gets the higher the test and the more return to you. Try it for yourself.

Wife (in new deep-cut gown): "Do I look well in it?"
Husband: "You look devine, but I wish you would get into it a little further!"

Are you enjoying the delicious goodness of "Potlatch Chief" Ice Cream often? If not, why not? Keep it on hand at all times in your refrigerator or deep freeze. It's delicious, nutritious, and fills the need for that quick dessert or between the meals snack that is, so often called for. All the standard flavors plus "specials."
