

PERSONAL MENTION

on a fishing trip to the Buzzard's Roost country, joining friends from Bovill.

After spending ten days with relatives and friends, Pvt. Earl Thomas, son of Mr. and Mrs. John A. Thomas of Troy (formerly Kendrick) left Spokane Thursday, Aug. 2, to return to his base at Camp Rucker, Ala.

Mr. and Mrs. L. G. Humphrey and family of Moscow were Sunday guests in the home of her sister, Mrs. Kenneth Brocke and family.

Mr. and Mrs. Burton Souders left Wednesday morning for Troy, Oregon, on a short fishing trip.

Mr. and Mrs. D. E. Flesman and daughter, Mrs. Frank Maxwell, and daughter Beverly, who have been visiting here the past couple of weeks in the Wm. Johnson and Gordon Peters homes, left Wednesday morning for Dutton, Mont., to visit their son, Elmer Flesman and fam-

ily.

Mr. and Mrs. Cecil Babcock returned Tuesday from Moscow, where he was a patient in the hospital there, following a heart attack suffered about ten days ago.

Mr. and Mrs. Tom Keene and family returned Tuesday evening from a week's vacation, spent at Wallowa Lake, Oregon.

Mr. and Mrs. Louis Studer and Miss Grace Lowery of Lapwai were Monday afternoon callers in the home of Rev. and Mrs. F. C. Schmidt.

Mr. and Mrs. G. F. Brocke, Sr., drove to Camp Grizzly Sunday to get their son Darrell and George Jones, who had spent the past week at Scout Camp. While there George was initiated into the Order of the Arrow and Darrell earned the Star Scout rank.

Mr. and Mrs. Howard Hoffman and daughter Louise picnicked in the hills above Bovill, Sunday.

Mrs. Herman Pabst of Gifford was a Tuesday night guest of her

sister, Mrs. Ross Armitage and family.

Win Places At Swim Meet

Rich Bradbury and Jim Armitage returned home Monday night from Pocatello, where they attended and took part in the state amateur swimming meet held in that city last week-end.

Jimmy Armitage, a pupil of Rich Bradbury, won a sixth place in the 100-yard free style competition, and a sixth place in the 220-yard free style race. Jim, who is just 13 years old, was in competition with the best in the state, up to and including 16 year-olds — many of whom had had previous swimming meet experience.

Rich considers the showing made by Jim as "excellent," and says that in another year he will make the older, bigger boys look to their laurels.

Rich, himself, won first place in the 100-yard back stroke competition and second place in the 220-yard free style.

During Mr. Bradbury's absence at the meet his place as lifeguard at the local pool was taken by Mrs. Dick Benscoter.

MARIJUANA IN IDAHO — A NARCOTIC MENACE

There is a scattered use of Marijuana cigarettes over the state of Idaho. The use of Marijuana cigarettes is also insidiously and uniformly being introduced and used among the high school students of the state. While the complete returns from all high schools of our state are not available to date, those compiled from some fifty high schools show that 0.4 per cent of high school students use Marijuana cigarettes, and 20.5 percent of high school students use ordinary tobacco cigarettes.

The seriousness of the use of Marijuana cannot be over emphasized, it is usually the first step toward complete drug addiction, usually ending with the use of Heroin. The addict becomes a living death of crime, debauchery and insanity.

The attack on the problem of Marijuana use is urged from three fronts and needs the full cooperation of the entire citizenry:

First: Our Idaho state laws relative to narcotic drugs must be immediately enforced to the letter. In this respect our law enforcement agencies and courts must acquaint themselves not only with the narcotic laws but with the seriousness of the problem of narcotic addiction.

When the state legislature convenes again, the state laws must be changed so as to make the unlawful sale of narcotics a felony and punishable as such. At present, a violation of the state narcotic drugs act is dealt with as a misdemeanor only, this is not enough for such a serious offense.

Second: The greatest weapon against the spread and use of Marijuana lies in the destruction of the growing plants. The plant grows any place in the United States and in many areas is in such numbers as to be considered a common weed. In Idaho, the plant is now spreading of its own accord along irrigation systems. On the other hand there has been and are certain people raising the plant as a crop. These plants must be sought out and destroyed, by the citizenry as a whole, county agents and weed control people — the latter being of special importance in this work.

Third: An education program just activated which will reach both the adult and youth life of our state, describing the production of the Marijuana plant, its identification, and the evil effects of the drug.

Marijuana is most commonly used in cigarettes: The flowering tops, leaves and stems are crushed and smoked. The users of this drug have committed all of the most heinous offenses associated with insanity and crime. The drug attacks the central nervous system and violently affects the mentality and physical senses.

Anyone aware of the growing of this plant — either as a weed or in cultivated state, should report the information promptly to any law enforcement officer or department of public health — Dept. of Law Enforcement.

Ceiling Work Completed

The installation of the new ceiling in the Kendrick gym, by Ben Cook and brother, John Hoduffer, the latter of Genesee and also assisted by Jordan and Ozzie Kanikkeberg, has been completed — and it has also been painted white.

The appearance of the big building has been tremendously improved. Another improvement was the putting of one basket on tracks, so that it may be moved completely out of the way for stage presentations of any kind.

A coat of white paint throughout the whole interior would also be a real improvement, should finances permit.

Sends Home Clock

Pfc. Leonard Wolff, son of Mr. and Mrs. Leonard Wolff, Leland, who is stationed in Germany, sent home to his parents a beautiful 400-day German clock. The entire mechanism, encased in glass, has a polished copper base, and the spiral-type pendulum is made of four polished copper balls. The clock is on display in the window of the Jewelry & Gift store, Kendrick.

Four Bits?

One day an employee got 50 cents too much in his pay envelope. He didn't say anything, but during the week the cashier noticed the mistake, so on the next payday he deducted 50 cents. Then the employee complained that he was 50 cents short.

"But," said the cashier, "you didn't complain last week."

"No," replied the employee. "I don't mind one mistake, but I feel bound to say something when there are two in succession."

Takes Position In Troy

Kenneth Brocke assumed responsibilities as bookkeeper Monday morning of this week for James Arnett at the International Store in Troy. Mr. Brocke has been employed by the Kirkpatrick Lumber Co., and its successor, the Juliaetta Lumber Co., for more than a year. However, following the change in the ownership of the Kirkpatrick Lumber Co., he accepted the offer to come to Troy and resigned his position at Juliaetta.

At present he is driving back and forth to his work, but as soon as the remodeling job is completed on the home they have purchased at Troy, the family will move, probably by September 1st.

Farewell Family Picnic

More than 80 members of the Blewett family gathered at Spalding Park, Sunday, to enjoy a picnic dinner and wish farewell to Capt. and Mrs. Rex Blewett and family of Moscow, who will leave soon for Fort Knox, Kentucky. There Capt. Blewett will receive special training in armored warfare.

He has been an R. O. T. C. instructor at the U. of I., Moscow, for the past two years.

Writes From Japan

From Sendai, Japan, under date of July 24, comes a brief note from Pfc. Leonard Weber, as follows:

"I think it is about time that I write to you and thank you for the paper. I sure enjoy it and get a lot of news that friends and relatives don't think to write.

"There are some other fellows over here in the same camp with me, so we pass the paper around. It sure gets well read. — Sincerely, Leonard Weber.

NOTICE: We now have an experienced mechanic who is ready to serve you.

Make Straight "A" Grades

U. of I., Moscow — Beverly Ann Schupfer, of Kendrick, made straight "A" grades during the spring semester at the University of Idaho.

Harold Brammer, Cameron, was one of 29 students making straight "A" grades for the entire term.

A total of 56 students made the honor list. To be eligible freshmen, sophomore and junior students must carry at least 15 credit hours. Seniors must carry at least 12.

Ranch Is Sold

The John LaPlant ranch of about 400 acres on Cedar creek was sold this week to C. Kraugh, Clarkston. The deal was handled by J. G. Travis.

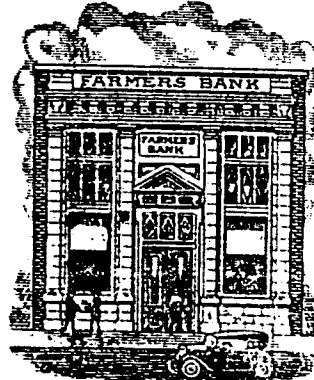

Easy Does It

Life is easier to take than you'd think: all that is necessary is to accept the impossible, and bear the intolerable.

Ice Cream Social Scheduled

An old-fashioned ice cream social, featuring home made ice cream will be held by the Leland Homemakers Club in the Leland Church basement next Sunday, Aug. 12. Cake will also be served. Proceeds go toward the purchase of a power mower for community use. Everybody Come. adv.

Fruit Juices of many kinds, canned and fresh-frozen are available at Blewett's Grocery-Market. 1-adv.

MESSENGER SERVICE

How would you like to have a staff of competent messenger boys at your disposal, always ready to go anywhere with cash to settle your obligations, returning promptly with your receipt?

In effect, you have such a staff available when you maintain a Checking Account at our bank. Surely, this is the safe, modern, convenient way to handle your financial affairs.

Control of Dandelions
The dandelion, a common perennial weed in Idaho lawns, can be controlled if proper methods are used.
Dandelion infestations are usually the heaviest in lawns where the stand of grass is weakest. Lawns badly infested with dandelions are usually an indication that the soil is unsuited for the growing of a good lawn or that the lawn has not been properly maintained. Dandelions seldom will come into a vigorously growing and dense stand of grass, but they will come quickly into a weak lawn or where there is no grass at all. Grass will not "run-out" dandelions.
Proper lawn maintenance then is the best way to keep dandelions from the lawn. By proper maintenance is meant mowing the grass at least two inches high during spring and fall and discontinuing mowing during droughts; fertilizing the grass when it needs it, in March and early September, with ammonium sulfate at the rate of 4 pounds to 1,000 square feet; watering the lawn heavily when it needs it, rather than light frequent applications, and by keeping out weeds, including objectionable grasses. Nearly all lawns, especially new ones, need hand weeding in July or August.
Where the dandelion infestation is heavy, it would be advisable to remake the lawn. This would be less laborious, for if the dandelions were destroyed in a badly infested lawn, there would not be grass enough left to make a dense stand and growing conditions would still

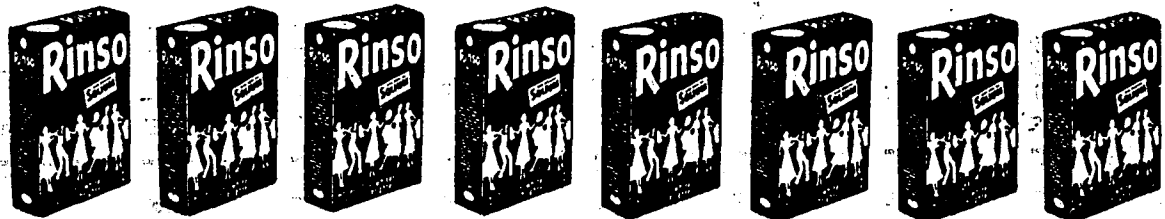

be fine for the pest but unfavorable for grass. In an area where dandelions and other objectionable weeds and grasses dominate the lawn, the area should be plowed or spaded before the dandelions go to seed in the spring, and summer fallowed until a time when planting conditions are favorable between August 15 and September 15. By keeping the ground cultivated or fallowed throughout the summer, most of the weed seed on the surface will have been germinated and destroyed so the soil will be comparatively free from weed seed and in proper condition for seeding.
Where the dandelion infestation is light, it is sometimes advisable to use some means of destroying the dandelions and in turn improving

the growing conditions for the lawn. They could also be dug out by hand by cutting the roots at least 2 to 3 inches below the surface and removing the plant.
Voice of Authority
Husband: "I'm glad, dear, that you're impressed by all the explanations I have been giving about banking and currency."
Wife: "Yes, darling. It seemed wonderful that anyone could know as much as you do about money without having any."
Bird's Eye Fresh Frozen Foods of many varieties are obtainable at Blewett's Grocery-Market in Kendrick — and they're good. 1-adv.

Flag Shop Owner Made Flag For Gen. George Washington
Betsy Ross wasn't the only American woman of the Revolutionary war period who gained fame for her flagmaking prowess.
According to Childcraft books, a young matron named Rebecca Young made the flag that General George Washington carried when the Continental army took part in the siege of Boston.
Mrs. Young, who had a flag shop in Philadelphia, was noted in the colonies for her exquisite needlework. Her fine stitching, embroidered scallops, and beautiful patchwork quilts were the talk of the countryside.
The flag that General Washington requisitioned Mrs. Young to make had thirteen alternate red and white stripes. Applied on the blue field in the upper left-hand corner were crosses of Saint Andrew and Saint George—a design which represented the union of Scotland and England.
It was named the "Grand Union Flag" by General Washington, and flown by troops of the Continental army for the first time about January 1, 1776.
Like Betsy Ross, who is credited with having made the country's first official flag, Mrs. Young did not design the flag General Washington ordered from her. He is said to have adopted the design for it from an ensign that had been raised, by John Paul Jones from the deck of the ship Alfred on December 8, 1775.
Mrs. Young worked on General Washington's battle flag with loving care. She stitched together the thick stripes of red and white bunting by hand and sewed in the blue field with a precision that guaranteed perfection.

How Electricity Came to American Farms

1906-1951

by Reddy Kilowatt

1906-1930 . . .
All over the United States private enterprise was working at farm electrification, and by 1930, 650,000 farms had electric service. Private utilities and Agricultural colleges joined to do research and lay the foundation for future growth.

Way back in 1906 . . .
records show that farm homes were beginning to be connected to W.W.P. Co. lines. In those days electrical machinery was almost unknown. Lighting was the sole use of electricity on the farm.

1930-1935 . . .
By 1935 electricity was available to 1,300,000 U. S. farms. Rural electrification had pushed on in spite of the great depression.

1935-1940 . . .
In 1935 the REA (Rural Electrification Administration) was born. Its purpose was to speed this infant service—electricity—to American farms. By 1940, 2,500,000 farms had electricity available.

1941-1945 . . .
Farm electrification was slowed down by the World War. Yet, electricity made possible new farm production records.

1945-1951 . . .
The great final drive for completion of farm electrification takes place. Today, 98% of all farms are electrified. The REA serves half of America's farms. Private utilities serve the other half. The job of farm electrification is almost done!

THE WASHINGTON WATER POWER CO.

Anesthesia for Livestock Marked Important Advance

The year 1950 marked the 100th anniversary of painless surgery for animals.
It was just 100 years ago that veterinarians first reported successful use of anesthetics for operations on animals. The development came a short time after physicians and dentists began to use nitrous oxide, ether, and chloroform in eliminating the pain of human surgery.
Veterinary medical leaders say that the introduction of anesthesia in veterinary medicine stands as one of the most important advances in man's age-old fight against the ailments of livestock and pets.
Horses and dogs were the first animal patients for anesthesia. Horses were put to sleep with chloroform during operations for lameness, and a dog was anesthetized for removal of growths in its mouth.
An early bar to use of anesthetics was failure to properly restrain the patient. After inhaling ether, horses sometimes went wild, endangering the lives of the veterinarian and onlookers.
In recent years, new types of anesthesia have been developed which put animals to sleep gradually, without violence or nervous reactions. Nerve blocking is being used now for such common farm operations as dehorning, thereby saving animals much pain and distress.

Lorgnettes Come Back

Lorgnettes, those spectacles-with-a-handle which our grandmothers used to good effect, are making a comeback. The modern version is a small, attractive visual aid which folds to a size that will not cause an ordinary purse to bulge unduly. Women find the little glasses helpful in looking up telephone numbers under poor light, in reading theater programs, and on numerous other occasions when it is simpler to use them than to don spectacles. Lorgnettes had a curious origin. The earliest spectacles lacked a satisfactory method of being attached to the face, for they were without ear pieces or nose clasps. Therefore they were held before the eyes by hand, and were distant ancestors of the lorgnette.

How Coccidiosis Works

Poultry growers have long known that chicken infected with coccidiosis lose appetite and get weak, but the reason has never been clear. Now veterinary medical scientists have turned up evidence that the coccidiosis parasites upset the body's ability to use sugar. This means that the birds fail to get energy from the sugar that is naturally present in feedstuffs. Besides that, it has been found that these parasites also may affect the delicate body mechanisms that control temperature, metabolic rate, muscle contraction, and muscle nutrition.

When Buying Toys

When buying toys for the baby or toddler bear these facts in mind: Avoid stuffed animals with glass or button eyes. Examine toys to see that there are no removable parts which could be swallowed. Buy sturdy rattles, blocks with rounded corners, soft balls and dolls, and push-and-pull toys with rounded handles. Do not endanger your child with shooting or target toys, sharp scissors or poorly built wagons or carts. Also, buyers should pass up toys that are too heavy or complicated for the receiver.

New Electrical Age Forecast
 This nation is entering a second phase of farm electrification in which new and broader uses will be made of the "Perfect Servant" to save time and labor. This is the view of Prof. F. W. Duffee, who operates the University of Wisconsin Electric Research Farm.

Today, he said, the average American farm uses about 2,350 kilowatt hours of electricity each year. But on the Research Farm, where every possible use is made of labor-saving power, 24,800 kilowatt hours are used — ten times as much. He does not predict that the average farmer will be using this much in a couple of years. But he says, "I do believe that we can look forward to very substantial increases in the next ten years. I firmly believe the tide is

running strong toward farm electrification.

Prof. Duffee pointed out that peak power use pays off. He said heat lamps save an average of one pig per litter in cold weather; lighting of the hen house increases egg production; a grainary loader and barn cleaner saves the work of one hired man. This is important in this day of labor shortages and record wages.

Now, as a result of the tremendous postwar expansion program of America's privately owned and business-managed power and light industry, the job of making electricity available to agriculture is virtually complete — the juice is there if the farmer wants it. It's a sure bet that it will do a great deal more in the future — to the economic advantage of rural America. — In-

Now Radio Repairman
 Camp Cooke, Calif., July 25 — Pvt. Gilbert L. Candler, son of Mr. and Mrs. P. G. Candler of Kendrick, Ida., has returned from the Armored school at Fort Knox, Ky. He attended the Radio Mechanics school there.

Pvt. Candler is a member of "D" company of the 747th Amphibious Tank and Tractor Battalion, which is currently stationed here for amphibious training. He will be assigned to the Communications section as a radio repair man.

Prior to his induction into the

army last January, Pvt. Candler had been employed in the Kendrick creamery. He is a graduate of the Kendrick High school.

Potlatch Chief Sez

Published by the Kendrick Creamery

HELLO, THERE, FOLKS —

Canning getting you down? Why not freeze 'em? — You can be sure we have a locker box to fit your need as well as your pocket book. Come in today.

Salesman: "I represent the Mountain Wool Company, me'am. Would you be interested in some coarse yarns?"
Old Lady: "Sure, tell me a few."

Yes, we know, a lot of women fuss and fume over the proper desserts these hot days — but that is so uncalled for. Here's a suggestion for one that will please the most fastidious — and it's so quick and easy: Just pick up a quart or a gallon of Potlatch Chief Ice Cream — and you have a dessert that "fills the bill," or, if you want something a bit different, get some cantaloupes — cut them in half and then fill the center with "Potlatch Chief"

Ice Cream. Man, it's delicious!

The Club Bore, renowned for his oft repeated pretensions to infallibility, suddenly startled his colleagues by admitting that he had once been wrong.

"You wrong?" Surely not! said an excited listener.

"Yes," replied the gentleman weightily. "Once I thought I was wrong and then discovered that I wasn't!"

No sandwich is a true sandwich unless it's spread with butter — and when you think of butter — always think of "Potlatch Chief" brand by name. It's your assurance of purity, quality and tasty goodness.

Tenant: "Why raise my rent when my room's away up in this miserable attic?"
Landlord: "You use more stairs than anyone else."

WHAT CAMERON FOLKS ARE DOING THESE DAYS

The members of the Cameron Luther League held their August meeting Sunday evening. They went to Kendrick for a swim in the Memorial pool, followed by a picnic on the Cameron church picnic grounds. Mildred Brammer and Marlene Wilken served watermelons at the close of the evening.

Mr. and Mrs. August Brammer and daughter Mildred and Mr. and Mrs. Harold Brammer were dinner guests of Mr. and Mrs. Russell Rodgers Monday evening.

Mr. and Mrs. Loven Taylor and family of Lewiston were Saturday evening guests of Mr. and Mrs. Harl Whittinger.

Mr. and Mrs. Harold Brammer visited with relatives in Moscow, Sunday.

Mr. and Mrs. Dave Schoeffler of Lewiston spent Thursday evening with Mr. and Mrs. Harl Whittinger.

Mr. and Mrs. Geo. Wilken and Mrs. Wm. Muenz, accompanied by Mrs. Glen Betts, visited with Mr. and Mrs. Aug. O. Wegner and Mr. and Mrs. Carl L. Wegner in Pullman, Sunday afternoon.

Mr. and Mrs. Willard Schoeffler and daughter Fonda and Mr. and Mrs. Ervin Lohman and family spent Sunday evening with Mr. and Mrs. Ed. Mielke.

Mrs. Fred Newman and Miss Helen Mielke visited with Mrs. Harry Newman Sunday afternoon.

Mrs. C. H. Fry of Kendrick is visiting with her daughter, Mrs. Glen Wegner and family.

Mr. and Mrs. Gus Kruger spent Sunday with their daughters, Elsie and Dorothy, in Lewiston.

Mr. and Mrs. John Blankenship and family visited with Mr. and Mrs. Reinhard Wilken Sunday evening.

News is very scarce here. Everyone is busy with harvest work.

NEWS ITEMS ABOUT LELAND RESIDENTS AND FRIENDS

There will be no church or Sunday School on Sunday, Aug. 12.

Mr. and Mrs. Con Anders of Gifford, and Ben Cook, Jr., were Wednesday dinner guests of Mr. and Mrs. Walter Crawford. The occasion was to help Kathleen celebrate her birthday anniversary.

Mr. and Mrs. Delbert Hoffman of Spangle, Wash., were Saturday overnight and Sunday guests of Mr. and Mrs. Chas. Hofman. They came for their daughters, Diana and Connie, who had spent the past two weeks with their grandparents.

Ricky Craig of Clarkston spent last week with Mr. and Mrs. Roy Craig.

Mr. and Mrs. George Baugh and son Norman of Orofino; Mr. and Mrs. Chas. Craig and family of Clarkston, and Mrs. Roy Craig and daughter Paige were Sunday dinner guests of Mr. and Mrs. Lloyd Craig. Afternoon callers were Roy Craig, Mr. and Mrs. Melvin Flesher and daughters and Mr. and Mrs. Jesse Thornton. That evening the entire group picnicked in the Kendrick park, where they were joined by Mrs. Dora Heffel and Mr. and Mrs. Oral Craig and son Ronald.

Miss Kathleen Crawford and Douglas Parks were honor guests at a birthday anniversary picnic dinner held Sunday in the Spalding park. Other guests were: Mr. and Mrs. Hugh Parks, Mr. and Mrs. Con Anders, Mr. and Mrs. Walter Zum Hofe and family, Mr. and Mrs. Kenneth Hund and son Jimmy, Mrs. Tom Edwards and children, Mrs. Earl Parks and children, Mrs. Jennie Hund, Ben Cook, Jr., and Mr. and Mrs. Walter Crawford and family.

Mr. and Mrs. Allen Hoffman and family of Soap Lake were Saturday overnight and Sunday guests of Mr. and Mrs. Ben Hoffman.

Mrs. Bessie Kimes and family and Waldo Smith and son Russell of Pomeroy were Sunday dinner guests of Mr. and Mrs. Harry Smith.

Marcella Craig was a Monday and over-night guest of Kathleen Crawford.

Mrs. Harry Smith and son Stanley were Sunday evening visitors in the home of Mr. and Mrs. Willard Reed and family in Clarkston.

Writes From Iowa

From Merrill, Iowa, the Rev. Gustav Meyer, an old-time resident of the Cameron area, and who has visited here often, writes, as follows:

"Again the time has arrived that I renew my subscription to your newsy paper, for it really has the news of just about everyone — and although many changes have taken place and names changed through marriage, I try to recall whom it concerns.

I have read here and there that friends and contemporaries and acquaintances have visited in the east, but so far they have missed us, much to our regret, for we certainly would like to meet and greet former friends and associates and offer them our hospitality. So we live in hopes for future days.

Iowa is in the midst of harvest, which is yielding wonderfully and the corn could not look any better, having all the sunshine and moisture it needs — and this in spite of the fact of the great vicissitudes in nature contrary to former experiences. We had the finest winter in the be-

gining of the year, and then it reversed and winter came upon us in the spring of the year. Seeding was done very late — it seemed too late, but in spite of this and the cool days and nights the crops of grain are bumper and the corn promises a huge yield too, for it is tasseling at the present time.

As far as income comes into consideration, our farmers are on top of the world. Of course your farmers from year to year seem to prosper, too, as the west seems to be more dependable, generally speaking, as far as the weather goes, and thus you never seem to experience a complete failure as we did in 1936, and even 1934, which was a very lean year."

Get that lunch meat at Blewett's Grocery-Market, Kendrick. A good selection, always. 1-adv.

don't just buy a tire

Choose a
GOOD YEAR
DeLuxe

Tests show Good-year DeLuxe tires give longer tread wear... an extra margin of service and safety that swings the balance in favor of Goodyear. Buy wisely... go farther, safer... go Goodyear!
