

KENDRICK GAZETTE

VOLUME 62

KENDRICK, LATAH COUNTY, IDAHO, THURSDAY, JANUARY 10, 1952

NO. 2

SHORT NEWS ITEMS FROM OUR LOCAL SCHOOLHOUSE

Basketball Sidelights

It may be interesting to our basketball fans to know how the officials are selected to call our basketball games. In the past we have contacted a central person in Lewiston, who has offered his services free in arranging our officials for us. This has been to our advantage and saved time and money in making telephone calls. Ernie Snyder from Erbs and Elbert Mitchell from N. I. C. E. have served us well in this capacity and we appreciate their help.

This year the basketball officials and several schools from the second district felt there were so many problems involved with the responsibility of hiring officials that a commissioner was appointed to take charge of assignments and all the many details connected with this task. Also, there is a move on foot to endeavor to up-grade our officiating. This is done by having coaches report to the commissioner after each game, the quality of the officials work. If he receives three demerits he is disqualified from further officiating in district No. 2.

This commissioner plan is experimental with us. It seems to be solving many problems and if it proves successful here, as it has in other places, it may be adopted on a permanent basis.

It might be added that of the 26 schools in district No. 2, only the Lewiston school was reluctant in relying upon the commissioner's service of selecting officials. Their problems may have justified this objection, since they are an "A" school and play more out-of-state schools. All the other schools felt strongly the need for a better system. Schools such as Pierce, Weippe, Elk River and other outlying schools will have a better chance to get better quality of service — to which they are justly entitled.

It is true that sometimes, regardless of the system employed in selecting referees, we will get poor officiating. This is only true to life. Goods or services we buy anywhere come in inferior quality at times. We are tremendously proud of our basketball fans and feel that most of them are genuinely "grown-up" when it comes to watching games and adjudging the officials.

We can help the official by giving him every break possible in doing a good job. If we refrain from shouting and booing at officials and opponents we will be building up good sportsmanship and achieving some of the goals for which basketball is intended and for which our students are striving.

Our High School solicits your presence at our games. We are glad to have you and you are always welcome. We have a good team, a wonderful student body and your interest helps our school.

School Information

If and when roads or weather are such that it is probable school will not be held, students and parents will do well to stay tuned to Lewiston's KRJC or Moscow's KRPL radio stations. As soon as changes of plan occur we shall notify these stations who have again offered their services to the schools.

Parking Problem

Basketball fans are asked to park well off the street adjoining the school parking lot, and thus avoid forming one solid line on the east side of the street, which prevents other cars from making use of the school parking lot.

There is ample room on this lot for cars, so if early-comers will park well back it will make it much easier for all.

Kendrick Defeats Winchester

Ira Havens of the Tigers hit the bucket for six points in the last four minutes of play in the local gym. last Friday evening to give Kendrick a comfortable lead, and the Tigers defeated the Winchester Loggers 44-37. Up to that point the Tigers and Loggers had been literally swapping basket for basket.

The fast and aggressive Loggers were quite effective with their long shots in the first half, which ended 23 to 21 for the invaders. Winchester's G. Webber and Stan Smith for the Tigers tied for high scoring honors with 11 points each.

The score by quarters:

Winchester	7	23	32	37
Kendrick	9	21	32	44

In the preliminary game the Kendrick Tigerettes defeated the Winchester girls 20-15.

Tigers Upset Trojans

The Kendrick Tigers upset the Troy Trojans Tuesday evening 47 to 28, to take their ninth straight win of the season. Stan Smith led scoring with 21 points for Kendrick, and Nelson was high for Troy with 8.

The score by quarters:

Kendrick	10	19	38	47
Troy	1	8	15	28

The Kendrick B squad won a preliminary game 33-23.

Suffers Broken Leg

While logging with his father Tuesday at their home place, Verlin Benjamin Benjamin suffered a broken leg when a tree fell from behind, hitting him in the right leg. The impact was so great both bones were broken with the tibia receiving a compound fracture. He was taken to St. Joseph's hospital by Dr. Christensen, where surgery was performed and a screw used to hold the bones together.

At present he is resting easier but will be confined to the hospital for at least a week.

Don't Forget Commercial Club

The attention of all local business men and interested farmers is called to the meeting of the Kendrick Commercial Club, which will be held next Wednesday evening, Jan. 16, with the 6:30 dinner to be served at Burt's Confectionery, and the business session to follow in the Firemen's Hall.

This meeting is a week late, due to the fact that all wished to see the Kendrick-Genesee game in the local gym on January 9.

It is the first meeting of the new year, and all are urged to be present. Remember, you don't need to be a member — just come.

DAISY GRAHAM BECOMES BRIDE OF ROBERT LIND

The marriage of Daisy Graham, daughter of Mr. and Mrs. Chas. E. Graham of Fairfield Idaho, and Robert Lind, son of Mr. and Mrs. Paul Lind of Kendrick was solemnized on Sunday, December 23, at 3:00 p. m. in the Fairfield Methodist Church, with Dr. J. H. Coulter of Glenns Ferry reading the beautiful double-ring ceremony.

Large baskets of red and white chrysanthemums and candelabra with lighted ivory candles decorated the altar and formed a background for the service.

Dudley Carson, organist of Idaho Falls and a college friend of the groom from the University of Idaho played the traditional Lohengrin's Bridal Song and Mendelssohn's Wedding March. He also sang "The Lord's Prayer."

The bride, given in marriage by her father, Chas. E. Graham, was lovely in a white brocaded floor-length satin gown, fashioned with a fitted bodice, Peter Pan collar, and tiny white buttons which fastened the front and long pointed sleeves. The skirt, a full-flare, fell in soft folds and her finger-tip veil, edged in lace, was fastened to a dainty tiara, which was set with tiny pearl beads.

The bride carried a shower bouquet of red roses, and wore as a token of sentiment, a brooch which had belonged to the groom's great-grandmother.

Miss Doris Baldwin of Twin Falls, a school mate of the bride, acted as matron of honor. She was gowned in an ecru satin floor-length gown with matching hat and mitts. Her corsage was of white, red-tipped carnations.

Candlelighters were Miss Marjorie Howard of Gooding, who wore a light blue formal with a white carnation corsage, and Mrs. Elmer Johnson of Fairfield, who was attired in a yellow formal with white carnation corsage. Both were school friends from the U. of I.

The ring bearer was little four-year-old Cletus Goble of Gooding, son of a close friend of the bride, who carried the ring on a little satin pillow.

The groom wore the conventional dark suit with white boutonniere, had for his best man his brother, Milton Lind of Lewiston.

Ushers were Harold E. Graham, brother of the bride, and Dick Coulter of Glenns Ferry, a close friend of the groom.

Immediately following the ceremony a reception was held in the American Legion hall for about 80 friends and relatives.

The bride's table, covered with a hand crocheted lace cloth, was centered with a four-tiered wedding cake, flanked by candelabra, with lighted ivory candles. After the bride and groom cut the first piece of cake, Mrs. John Reagan of Fairfield, a close friend of the bride, finished the cutting and serving.

Mrs. Bina Raby, Lewiston, grandmother of the groom, poured, Mrs. Donald Cox of Fairfield had charge of the guest book, and Mrs. William Simon of Fairfield presided at the gift table. Mrs. Delbert Hearn of Greeley, Colorado, presided at the punch bowl.

The mother of the bride and of the groom each were attired in aqua afternoon dresses, which were complimented with black accessories and corsages of pink carnations.

The bride attended Boise Junior College for two years, and is now attending the University of Idaho as a music major, and will graduate in June.

The bridegroom is affectionately known here as "Bob", having grown to young manhood here. After graduating from Kendrick High school he spent three years in Uncle Sam's navy. Following completion of this service he entered the U. of I., graduating last June as a Bachelor of Science. He has since returned and is now working for his Master's degree.

Both young people have been popular on the campus, taking part in many activities, and both are members of the famed choral group, "The Vandaleers," at the U. of I. The young couple will make their home at Moscow, where both are attending the U. of I.

Well Progress Slow

Despite two-shift operation, J. M. Burns, local well driller, says that progress is slow on the new 10-inch bore well being drilled for the Village of Kendrick. The reason — they have hit blue-black basalt rock, which is about as hard as rock comes. Depth at this time is about 55 feet.

Teachers Meeting

A Sunday School teachers' meeting is scheduled for January 10 at 1:00 p. m. in the Community church. This conference has been called for an hour before the regular W. S. C. S. meeting.

L. J. SOUTHWICK, SOUTHWICK PIONEER, CALLED JANUARY 7

Leroy J. Southwick, 74, son of the founder of the community of Southwick and a prominent Nez Perce county farmer, died at 5:00 o'clock Monday morning, January 7, at his home at Southwick. Mr. Southwick was also a former chairman of commissioners, on which board he served for 12 years.

He was born January 19, 1877 at Chetopa, Kansas, and came west with his parents in 1883. His father, the late S. R. Southwick, homesteaded in the area which bore his name.

Mr. Southwick's residence was continuous at Southwick until his death.

He was a Nez Perce county commissioner from 1912 to 1924. He was also a member of the Lewiston I. O. O. F. lodge and the Southwick Community church.

Mr. Southwick was prominent in local affairs in that area, and was a member of the board of directors of the Kendrick Co-operative Creamery for several years.

Mr. Southwick was united in marriage on March 27, 1907, to Hattie Thornton, who survives.

Other survivors are a son, Howard Southwick, Southwick; two daughters, Mrs. Christina Cuddy, Southwick and Mrs. Thelma Winters, Corning, Calif.; three sisters, Mrs. Martha Brown, Glendale, Calif.; Mrs. Emma Tarry, Cavendish, and Mrs. Lee Davis, Lewiston Orchards; one brother, Bert, Seattle; 10 grandchildren and four great-grandchildren.

Funeral services were conducted on Wednesday at 11:00 a. m. at the Christian Church, Lewiston, with the Rev. F. C. Schmidt of the Kendrick Community church in charge. Burial was in the Southwick cemetery. The Brower-Wann funeral home, Lewiston, was in charge.

Mr. Southwick was ill but a short time, however, he had not been in good health for some months, following a stroke.

It is with regret that all will learn of his passing, for his friends were counted by his acquaintances, and his friendly smile and cheery greeting for everyone will be greatly missed.

Pioneer Passes At Grangeville

Grangeville, Jan. 7 — One of the few surviving covered wagon pioneers of the northwest, Mrs. Jessie Fremont Baker, 94, of Lucille, died this morning at Grangeville General hospital where she had been since Wednesday. Death was attributed to pneumonia.

Mrs. Baker was born to Mr. and Mrs. James C. Carr, Feb. 6, 1857, in Madison county, Wisconsin. The family moved to Missouri when she was 13, and she was married to Samuel D. Baker at Lynn Creek, Mo., in 1881.

The couple lived at Lynn Creek until 1888, when they decided to go west with two other families. They formed a covered wagon train May 1, 1888, and made the trek to Pomeroy, Wash., in four months, arriving there Sept. 2.

Mr. and Mrs. Baker moved to Cedar ridge, near Kendrick, in 1890, and to Lucille in 1899, where she had since resided on the Baker stock ranch near the head of Cow creek. Mr. Baker died in 1933.

Survivors include three sons, James M. Baker, Stibnite, and Wilford and Henry T. Baker, Lucille; two daughters, Mrs. Mary Miller, Clarkston, and Mrs. Emma Davis, Whitebird; 15 grandchildren and 23 great-grandchildren and five great-great-grandchildren.

Funeral services were held at 10:30 Wednesday morning at the Robertson funeral chapel, Grangeville. The Rev. John R. Rice officiating. Burial was in the family plot at John Day cemetery, Lucille.

The typewriter was patented in 1874 by a man named C. Graham Sholes.

MARCH OF DIMES NEED GREATEST IN HISTORY

Boise, Idaho — Only one of Idaho's forty-four counties has escaped attack by infantile paralysis during the last four years, a survey of state health department records compiled by the National Foundation for Infantile Paralysis reveals.

David F. Weeks, Idaho representative for the March of Dimes organization said the report illustrated the widespread impact of polio in recent years and helped explain why the "March of Polio" was out-pacing the "March of Dimes."

"Since 1947, nearly 1,300 cases of the epidemic disease have been reported in Idaho," Weeks said, adding, "The state's incidence during this period is the highest in the country with nearly one case of polio reported for every 450 people residing in the Gem state."

Health records also indicate that polio incidence each year since 1947 has reached epidemic proportion in Idaho, on the basis of an epidemic being 20 cases per 100,000 population, as determined by the U. S. health service.

"These high incidence years have not only depleted the treasuries of local county chapters of the National Foundation for Infantile Paralysis, but of the national March of Dimes organization as well. Our Idaho county chapters have received \$3.00 in epidemic aid for every dollar raised in the state."

Besides providing March of Dimes funds for financing patient care, the National Foundation also sought to fight polio epidemics this year by rushing emergency equipment and trained personnel to trouble spots throughout the state.

"Unless we achieve maximum success in this year's March of Dimes campaign now underway, the very vital phases of our program which includes research and patient care will be seriously hampered," Weeks explained.

Clark county, population 918, is the only county not reporting a single case of polio during recent years. The county is so sparsely populated that a single case might be considered an epidemic.

Two Demonstration Clubs Formed

Two home demonstration clubs have been organized in Kendrick. The newest of these is the K. K. K. Club, which will meet Friday at 1:30 p. m. at the home of Mrs. George F. Brocke, Sr.

This is the newly organized Homemakers Club, and they have chosen for their name "Kendrick Canyon Klub." Mrs. Ed. Nelson is president.

There was so much interest shown in this activity by local women that it was necessary to divide the membership into two groups.

The K. K. K. has 17 members, which takes in the west part of town. The other group, calling themselves the "Friendship Club" takes in the east part of town. Mrs. Connie Fey is president of this latter group. They have 14 members.

United In Marriage

Coming as a surprise to their many friends was the marriage of Mrs. Delores Brocke, daughter of Mr. and Mrs. Oscar Medalen, Kendrick, and Jerry Harris, son of Mr. and Mrs. Virgil Harris, Southwick. The double-ring ceremony took place Friday at the court house in Coeur d'Alene. Mr. and Mrs. Norman Fry of Kendrick were the only attendants.

The young couple are living in Lewiston, where the groom has employment.

New Cavendish Correspondent

Mrs. Everett Blackburn is the new Gazette correspondent for the Cavendish community, and she, as well as ourselves, would appreciate the help of those in that section in compiling news — send it to her, that your community may be represented in the columns of our paper.

Community Concert Planned

Plans are being made for a community concert Wednesday evening, Jan. 23, in the Community church.

The choir of the church is sponsoring this activity and all are asked to keep the date open and plan to attend.

There will be a variety of numbers on the program, all furnished by local talent, of which there is considerable in Kendrick and surrounding territory.

Mrs. Bob Magnuson has charge of arrangements, and promises an evening of outstanding entertainment for music lovers.

PERSONALS AND NEWS ABOUT KENDRICK FRIENDS

Mrs. Mildred Pea and children of Gifford were dinner guests in the R. L. Blewett home Friday.

Mr. and Mrs. R. L. Blewett took her mother, Mrs. Wm. Bartlett, to her home in Gifford Saturday, after she had spent several days in Lewiston receiving medical treatment.

Ralph White, Lewiston, was a caller in the R. L. Blewett home Monday.

John Deobald, Luther Parks, Douglas Christensen, Maurice Long, Dan Crocker, Gordon Cook, Pat Brocke, Pat Long and Peggy Coy, U. of I. students, returned to their studies Monday, following the holidays spent at their respective homes here.

Mr. and Mrs. Bob Lind arrived home from their honeymoon last Wednesday evening. On Sunday they were joined by his parents, Mr. and Mrs. Paul Lind, all driving to the home of Mr. and Mrs. Harry Judd in Orofino, to spend the day.

Mrs. F. C. Schmidt returned home from Seattle last Friday, where she had accompanied Rev. and Mrs. Ed. Knight of Orofino. While there she met their daughter-in-law, who was out from Alaska, and they enjoyed a short visit.

Mr. and Mrs. Herb Weber, Richard and Geanine, and Mr. and Mrs. Ed. Brown were Sunday dinner guests of Mr. and Mrs. Don Jensen.

Mrs. Gerald Dowdy and baby, who have been visiting her parents, Mr. and Mrs. Ed. Brown, have returned to Pendleton, Oregon, to join her husband.

Kathryn Brown and Rita Cain, who are doing office work at the U. of I., were home for the week-end. Kathryn brought home two friends, Duratha and Marial Nesmith, who were her house guests.

Mr. and Mrs. H. C. Schupfer made a business trip to Moscow, Tuesday. Mrs. Ross Armitage was a Lewiston business visitor Monday. She was accompanied to that city by Floyd Millard.

Mrs. Commie Perry and daughter Bea of Pendleton, Oregon, were Saturday over-night visitors in the home of Mr. and Mrs. Ross Armitage. On Sunday they visited in the home of her daughter, Mrs. David Clayton and family.

Mrs. Jose Berreman of Clarkston was an over-night guest Saturday in the home of her niece and family, Mr. and Mrs. Wilbur Colwell.

L. S. Thurber was a Lewiston business visitor Monday afternoon.

Mr. and Mrs. Chas. Deobald and son have completed moving in their household goods and are now comfortably settled in their home in the east part of town. They purchased the house from Mr. and Mrs. John Darby.

Mr. and Mrs. John Darby spent Saturday visiting in the home of their daughter, Mrs. Loyd Farrington and family on Cedar ridge.

Word was received here last week from Mrs. Earl Aiken (nee Rose Farrington) that her husband had been seriously ill in the Walla Walla hospital, following a severe heart attack. However, he was able to return home New Year's Eve, but must spend most of the time in bed.

Mr. and Mrs. Bob Magnuson, accompanied by Mrs. Charley Candler drove to Lewiston Monday evening to see the pictures on Alaska, shown at the High School auditorium, and sponsored by the Sportsmen's Club.

Norla Callison moved his wife and children to town over the week-end, the ice and snow proving too much of a hazard to get the children to the bus each day. Their temporary home is in the Marvin Long apartment.

B. F. Nesbit, Moscow, was in town Tuesday, transacting business and visiting with old friends.

R. D. Murdoch of Deary moved into the former Myrtle Kuykendall house here Tuesday.

Mrs. W. B. Clayton left Sunday for her home in Rupert, after having spent the past two weeks here with her son and daughter-in-law, Mr. and Mrs. David Clayton.

Wm. Brammer of Carstairs, Alberta, Canada, arrived here Sunday evening to visit at the home of his brother, Mr. and Mrs. Henry Brammer, Juliaetta, and with other relatives. Mr. Brammer was a passenger on the train Sunday that was involved in the wreck near Rosalia, when Leo A. Huether and his 10-year-old son were killed. Mr. Brammer was one of the group that helped remove Mr. Huether's body from the truck cab.

A get-together dinner was enjoyed Monday at the Henry Brammer home which included Mr. and Mrs. Carl Koopp, Mr. and Mrs. Werner Brammer and daughter, Mr. and Mrs. Geo. Havens and sons Chas. and Rayner, and Wm. Brammer. Mr. and Mrs. Ernest Brammer came in that afternoon. That evening the above group went to the Walter Koopp home at Cameron where they were joined by Mr. and Mrs. Kenneth Wilken, Mr. and Mrs. Henry Wendt, and Ira and

SELF-EMPLOYED WILL BE PAYING SOCIAL SECURITY

Many self-employed businessmen are not aware of their compulsory coverage in the old-age and survivors insurance system provided by the recent changes in the social security law, effective January 1, 1951. If you took \$3,600 in salary this year you will owe \$81 with your next income tax check due next March, Frank J. Cathcart, manager of the Lewiston Social Security Administration office reports only a small percentage of the businessmen he questions know of the tax liability they have been incurring all through 1951.

The tax liability for 1951 becomes due and payable in the first quarter of 1952, and each year thereafter. An equal number of self-employed failed to realize their self-employment earnings after 1950 were building toward old-age and survivors insurance protection for themselves and their families. Cathcart pointed out that the small businessman now has the same protection against loss of income due to retirement or death as wage earners have had since 1940. He summarized the self-employed person's status under the social security act as follows:

1. Generally speaking, coverage of the self-employed person is compulsory under the old-age and survivors insurance section of the Social Security Act.

Self-employment earnings from a few professions and occupations are excluded by the law itself and cannot be counted toward this insurance protection. But unless specifically excluded they count if they amount to \$400 or more a year.

2. Old-age and survivors insurance provides very definite protection in terms of a base for financial security to the self-employed person and his family. Monthly benefits range from \$20 to \$150, depending on average earnings and the pattern of the insured family at the time benefits become payable.

3. The self-employed person must have a social security number to identify the earnings to be posted in his insurance account. If you have never had a social security card, fill out an application for one, on hand at any post office, and send it to the Lewiston Social Security office. If you have lost your card, you should ask for a copy. You should have only one social security number in your lifetime.

4. Self-employment earnings must be properly reported each year to secure credit towards this insurance. They are reported by the individual on a special section of his individual income tax form. 1951 earnings will be reported on the income tax form due by March 15, 1952. A self-employed person cannot report himself on the quarterly social security form 941 used for reporting employees' wages. He makes one yearly report and pays his tax in full at that time. The tax is 2 1/2 percent of taxable self-employment earnings. Only the first \$3600 of earnings is taxable. The 1951 tax will be between \$9 and \$81, depending on the amount of net earnings from self-employment.

Cathcart reminded all concerned that detailed information about this program of old-age and survivors insurance is available without charge at the Lewiston Social Security office.

New Chevrolets Out Soon

Detroit — New model Chevrolet passenger cars and trucks will go on display at dealer showrooms nationally, Saturday, January 19. This disclosure by W. E. Fish, general sales manager, accompanied announcement that in 1951 Chevrolet led all other automotive manufacturers in retail sales for the 12th consecutive peacetime year.

"Last year's new car deliveries," said Fish, "brought the number of Chevrolets in service to over 12,000,000. No other make in automobile history ever accumulated such an imposing total."

The 1952 models will be new mechanically and in appearance, fulfilling in every respect the quality and beauty that the public has come to expect from Chevrolet.

March of Dimes Chairmen

Mrs. Geo. Brocke, Sr., and Mrs. Elmo Eldridge are in charge of the local March of Dimes drive, activities on which began January 2nd.

Last Friday evening at the Winchester-Kendrick basketball game the Boy Scouts and Cub Scouts passed a blanket about the gym, and the sum of \$17.25 was realized for this fine cause.

Letters or rather folders soliciting contributions have been or are being mailed, and everyone is urged to give to the limit of his ability.

Licenses Are Due

E. Dan Pederson, assessor of Latah County calls the attention of all to the fact that vehicle licenses of all kinds expired on January 1 — rather than on March 15, as has been the case in the past, due to an act of the last legislature.

It is understood that applications, particularly on cars, are lagging far behind, and many vehicles must be either in storage or operating with expired plates. Better check yours.

Teddy Havens. All enjoyed a delicious lunch, followed by an evening of visiting. Wm. Brammer left Tuesday for his home at Carstairs.

Mr. and Mrs. Frankie Bencosier and Helen Mattoon were Sunday dinner guests in the home of Mr. and Mrs. Walter Bigham.

INTERESTING NEWS BITS FROM THE SOUTHWICK AREA
(Delayed)

Mr. and Mrs. Irvin Fry and son

Eldon and Mr. and Mrs. Milton Benjamin and sons spent Christmas with relatives in Lewiston.
Mr. and Mrs. Art McKelze and

family have been spending some time in the Ercil Woody home.

Mr. and Mrs. Given Mustoe spent the past week-end in Lewiston visiting relatives.

Kenneth Hanks of Lewiston spent Christmas vacation here in the Elton McCoy home.

Mr. and Mrs. Elton McCoy had as guests Christmas Day Mr. and Mrs. Wilmer Hanks and sons, and Mr. and Mrs. Edwin Hanks and son of Lewiston Orchards, and Mr. and Mrs. Harry Smith of Leland.

Mr. and Mrs. Given Mustoe entertained at Christmas dinner for the following: Mr. and Mrs. Carl Mustoe and daughter of Page, Idaho; Mr. and Mrs. Wilbur Colwell and daughter Barbara and Orville Halseth of Kendrick; Mr. and Mrs. T. J. Armistage and son, and Mr. and Mrs. Jack Mustoe.

(This Week)

The entire Southwick community was saddened Monday morning when they learned L. J. Southwick had passed away here at his home. He had been seriously ill for about 12 days. All of his children and his brothers were with him the last week of his life, and his sisters, Mrs. Myrtle Davis and Mrs. Emma Tarry called to see him. The role he filled in this community will be greatly missed by everyone here, and also in the surrounding community. He was active in all civic affairs and at this time was working to try to organize the Cemetery Improvement District. Mr. Southwick will also be greatly missed by all the little school children, as he was always so good to buy Christmas Seals or the little "Red Hearts" from all the children. If some little youngster had a dollar's worth, and couldn't sell them, Mr. Southwick would buy them all and the little youngster would say: "Thanks, L. J." and go on his way. Mr. Southwick was an ardent member and worker in the Southwick Community Church.

Bert Southwick of Seattle was called here by the final illness and death of his brother, L. J. Southwick. Mrs. Wm. Winters and son of Corning, Calif., were also called by the same reason. Mrs. Winters is a daughter of Mr. and Mrs. Southwick.

Mr. and Mrs. Virgil Harris and sons and Mr. and Mrs. Gerald Harris and daughter visited with Mr. and Mrs. Oral Craig at Kenrick Sunday evening.

The Southwick Homemakers Club will meet at the home of Mrs. Virgil Harris Thursday afternoon, Jan. 17, to elect officers for the coming year and to make plans for the coming year. All members are urged to attend, as this is an important meeting.

JULIAETTA NEWS

The Ervin Mabbott family have moved into the house recently vacated by Mr. and Mrs. Jack Carey and daughter.

Valmire Onstott went to Lewiston Sunday to work for her sister, Mrs. Jack Carey.

The Nazarene church group enjoyed a coasting party Monday evening. They were served refreshments at the Willard Bowen home.

Mrs. Carroll Groseclose and son Arthur of Teakean called Saturday at the Wm. Groseclose home.

Mrs. Huse Groseclose went to Lewiston Saturday to attend funeral services for her nephew, Arthur Woodruff.

Frankie Peters, Lewiston, spent the week-end here with her parents, Mr. and Mrs. John Peters.

Mr. and Mrs. Harry Newman and daughter Linda of Southwick spent Sunday at the home of her parents, Mr. and Mrs. Fred Hadley and family.

Mrs. E. O. McAllister left for Spokane Monday, to spend a few days.

A. B. Frewitt was taken to the St. Joseph's hospital Sunday night, where he underwent surgery.

Mr. and Mrs. Wayne Thornton and family of Leland, accompanied by Mrs. Lloyd Candler, visited in Spokane over the week-end with Mrs. Candler's daughter, Mrs. Harry Rigg and family.

Floyd Candler of Pendleton, Ore., visited his parents over the week-end.

Mrs. Sam Gruell celebrated her 75th birthday anniversary, Sunday.

Mr. and Mrs. Otto Schupfer and daughter Maribel arrived home Saturday by train from Long Beach, Calif., where they spent the holidays in the home of their daughter, Mrs. Walter Meyer and family. They had expected to return home at an earlier

date but experienced real difficulty in obtaining tickets, due to the crowd in Los Angeles for the Rose Bowl game.

Letter From Germany

Mr. and Mrs. Leonard Wolff are in receipt of a most interesting letter from their soldier son, Pfc. Leon Wolff, and have kindly allowed us to use portions of it as follows:

Grofenwohr, Germany
Dec. 16 through 25th

Dear Folks:

Well, at last, after four weeks and five days we got out of the tents. We are now in barracks! Have a table in our room, and this is the first letter I have written on a table in four months. We are in what we call "Little Siberia," which is about 60 miles from Nuremberg. And today, for sport, we unloaded eight box cars.

Got the gloves and underwear you sent. It took 30 to 38 days to get them. Evidently they came by boat, but they both fit. Over here coal is rationed, 100 pounds per person per month, and there isn't any wood in Germany to burn. The picture of the woods is very true — they are all clean. The puddles are all frozen over here at 5:00 p. m., and I would guess it 25 degrees above zero.

Have been back on the firing range again. Had to fire our carbines, and I won "Expert" again.

I enjoyed my seven-day furlough spent in Switzerland, and the visits with the many people from all over the world — even Boise, Idaho.

I wrote Beverly Schupfer yesterday and got a letter from her today. We use a different address here, so it doesn't have to go to New York and back. Am planning to use some of my furlough time to go into Austria and see Beverly, and the country there. Am supposed to have a three-day pass the 2nd, 3rd and 4th of January. Plan on spending it with Harold and Gerald Halseth.

Here they celebrate the 25th and 26th. They don't go in for elaborate decorations like we do. Today was Christmas, so I went to see Mrs. Denmler's cousin. She had died a year ago last September. Saw her husband, who is about 65, and her two daughters, about 26 and 30 years old. They have their own house, but have two other women that live with them, and it makes them very crowded. I saw one of them grind coffee beans sent from the U. S., in a coffee grinder. They said the grinder was about 150 years old. I was flabbergasted. As the people here say it is (Wonder Bar). These people were very nice to me and it was so nice and clean. I enjoyed it very much. I also met Fritz Hedler. He is a nephew of Mrs. Denmler and Mike Hedler in Kendrick. Then I met a pretty frauline and went to a good show. The name of it was "Everybody Will Talk." Go see it if you get a chance.

Didn't go to church, as there wasn't any. Not many of the common people here go to church. Ninety percent of the people here just live. A man here, with a wife and two kids, has to work four months to save enough marks to make a down payment on a suit of clothes. They cost from 160 to 200 marks.

Dec. 3 we were issued our winter clothes, coats, hats and mittens.

Well, guess I'll drink my beer (the water here is terrible) and try out my bed — first one for a long time.

All in all, I could have spent a much worse Christmas.

Happy New Year to all. Your son and brother — Leon.

Kendrick O. E. S. Meet

Canyon Chapter No. 67, O. E. S. held their first meeting of the new year Tuesday evening, Jan. 8, in the Fraternal Temple, with Helen Mielke, newly installed Worthy Matron, presiding.

After the business meeting the members were entertained by readings given by Mrs. Leola Mielke and Helen Mielke.

Refreshments were served in the banquet room by the hostesses, Mrs. Crystal Gruell, Mrs. Earline Taylor and Mrs. Anna Long, at which time a handkerchief shower was given in honor of Mrs. Anne Deobald, who has served as secretary to Canyon Chapter for the past twenty years.

W. S. C. S. Meeting

The regular meeting of the Kendrick W. S. C. S. will be held on Thursday at 2:00 p. m. in the church. A special invitation is extended to all new members and a welcome to all to come and share in the pledge service.

THURBER'S

Scanty Fertilizing Only Crop Starter Soil Building Practices Needed for Best Results

Scanty fertilizer applications are like a shot in the arm a doctor gives his patient. The treatment enables the patient to recover enough, to take more nourishment. But in the case of scanty fertilizer applications, the "crop starter" gives the plant quick early growth and a strong root system, but fails to provide enough nourishment to carry the crop through to healthy, high-yielding maturity.

Putting sufficient fertilizer in the ground isn't a cure-all. You have to be sure the soil is in condition to deliver all the plant nutrients, moisture and oxygen the crop needs. To produce maximum crop results, fertilizer has to be teamed up with

To do all season job of feeding a growing plant, the soil must have a reserve of nutrients. Otherwise, the plant will starve in midsummer.

other soil building practices. These include practices that will repair damaged soil structure, improve drainage and make the soil mellow and build tilth and water-holding capacity. When tilth, drainage and ventilation are good, crop roots can do their job of feeding the growing plant.

You can fit the soil for maximum returns from fertilizer by building up its organic matter content. This can best be done by growing well-fed deep-rooted legumes regularly in the rotation. The legume roots and tops add organic matter and make a thicker layer of soil. A soil high in organic matter has plenty of water-storing capacity.

Illinois Farmers Enjoy Good Year, Reports Show

Farmers attending the 36th annual meeting of the Illinois agricultural association were agreed that 1950 has been generous to Illinois.

Farmers in every section of the state agreed that corn, soybean and other grain crop yields for 1950 were satisfactory. Many reported corn yields better than expected in view of the anticipated damage from corn borers.

Cattle feeders, hog raisers, wool growers and dairymen also enjoyed generally good years.

Fruit growers, however, reported peach yields were very light and said the apple crop was only about half of normal.

Illinois livestock producers association, a state wide agency coordinating the work of livestock marketing co-ops, reported that member companies handled animals valued at approximately \$150,000,000 during the year.

Approximately 5,000 farmers attended the meeting.

Surplus Potatoes

These hereford steers of the Kittitas valley region, Ellensburg, Washington, are eyebrow deep in surplus potatoes. Tons of the surplus potatoes are being used in the region to fatten cattle. The ranchers pay two dollars a ton to the government and receive the potatoes dyed so they can't sit back into the commercial market.

Cows Don't Like Cold Water, Specialist Says

Ivan H. Lougary, dairy specialist of the Wyoming agriculture extension service, points out that dairy cows will drink more water when the water temperature is above 50 degrees.

"Water consumption has a direct influence on milk production," he says, "therefore, when cows don't drink the needed amount because it is too cold, milk production declines."

Pasture Renovation Pays Big Dividends Better Grass, Legumes Build Production Power

"Punch-drunk" pastures can be put back on their feet by a renovating program that will build up their milk and beef producing power.

Killing out the old grass and growing alfalfa-ladino-brome grass mixtures doubled yields of forage in Wisconsin tests, the middle west soil improvement committee said. The old grass yielded 1,800 pounds of forage per acre, carrying some 200

A renovating program for "punch-drunk" pastures will pay off in their milk and beef producing power.

pounds protein. The new alfalfa-ladino-brome grass seeding yielded close to two tons and 80 pounds of protein per acre. To get these better grasses and legumes, lime and fertilizers carrying phosphate and potash were needed to build the soils' mineral nutrient content.

Completely killing the old grass involves thorough fall working of the field. On heavy sod, criss-cross the field with disc to cut the sod into chunks. Then dig the field twice with the field cultivator, working around the slope the second time. Just before freezing, dig the field to leave it rough. Lime and plant food can be broadcast before the field is worked or can be put on at seeding time.

Then, next spring, seed the higher producing deep-rooted legumes and grasses. A field cultivator and spike tooth harrow in tandem will leave a good seed bed.

Beef Demand to Remain At High Level, Report

The demand for beef as one of the best preferred foods in the household shopping list will probably remain strong for some time, as full employment at good wages seems to be in the picture for this country.

Breeders of foundation stock, growers of feeder cattle and finishers of feed-lot beef are directly concerned with the expansion of the beef industry to meet this growing demand, says Charles A. Burmeister of the U.C. agriculture department.

Burmeister says that statistics of the cattle industry show that producers have been and are now building up their breeding herds.

"The present beef breeding herd of the country is the largest on record, while the 1950 crop is apt to exceed that of 1949 by 800,000 head. Much of this gain in numbers will be in beef type calves," he said.

Market Trends

The above graph charts the annual trend in hog prices, month by month throughout past years, based on records over 11 non-war years. The solid bars indicate hogs fed to market weight in six months, broken bars, hogs fed to same weight in eight months. It is a clear illustration that pigs farrowed in March and fed out in six months caught the top of the year's market. But similar pigs, if fed out in eight months, reached market in November, well below the yearly average.

Dairymen Lose Millions Because of Low Quality

Every year the dairy farmers of the United States suffer heavy financial losses because too large a proportion of the milk and cream they market is lower in quality than it should be. It is estimated conservatively that they could add millions of dollars annually to their income simply by giving attention to those factors that promote high quality of product, dairy specialists report.

Cancer School Scheduled

Boise (Special) — Leo J. Falk, Boise, president of the Idaho division of the American Cancer Society this week announced the seventh annual series of area cancer training schools to bring county and district commanders and their key aids up-to-date on cancer control work.

The schools are scheduled for Twin Falls, Rogerson Hotel, Jan. 11-12; Lewiston, Lewis & Clark Hotel, Jan. 18-19; Pocatello, Bannock Hotel, Feb. 1-2, and Caldwell, Saratoga Hotel, Feb. 8-9.

For two days before each of these schools, county and district commanders within the area will meet on community problems and for leadership training.

"A well-rounded program has been arranged for each of the schools and I feel confident that members of the field forces of the Idaho division will receive the kind of training that will make them more effective than ever before in the fight on cancer," said Falk.

The general sessions at each of the schools will open with a medical symposium conducted by Dr. Raymond L. White, Boise, chairman of the Idaho division's executive committee. During the afternoon of the first day sectional discussion will be held on problems connected with the special assignments, such as publicity, program, records and reports, schools, service and cancer control at home or at work. Group recommendations will be made to the entire assembly the following morning.

At the dinner session Falk will present 10-year certificates of service to workers who have devoted that many years to cancer control.

T. T. Tucker, Jr., professor of education at Idaho State College, who participated in the 1951 schools, will take part again this year to summarize and evaluate progress during the year at the final session. Dr. A. M. Popma, Boise, vice president of the American Cancer Society, will discuss the new weapons developed by research for the continuing fight against the dread disease.

Many Christmas Seals Sold

Preliminary reports from county associations indicate a record Seal Sale this year, according to Erwin Schweibert, president of the Idaho Tuberculosis association.

"Although we do not have figures to release, some counties are reporting substantial increases, while others report returns comparable to those in the past. We believe much interest has been added to the activities of the Idaho Tuberculosis Association because of the mobile chest x-ray program which the association sponsors with the Idaho Department of Public Health."

Mr. Schweibert pointed out that the association has found it necessary to expand other phases of its program as a result of the mobile chest x-ray program.

"For this reason it is more important that we have additional funds if we are to successfully fight tuberculosis. Most people now realize that tuberculosis is a preventable disease, and one that can be eradicated. Help bring that day closer by purchasing Christmas Seals, even though the drive dates are past. It is not too late to mail in your donation."

NO MATTER WHAT THE WEATHER

... YOU KNOW YOU CAN COUNT ON Ruddy Kilowatt Service!

In the Inland Empire, building electric lines and "keeping the juice flowing" along those lines is no job for an amateur —and at Washington Water Power there are no amateurs on the job!

Yes, in spite of ice and snow-blocked roads, blizzard and flood, come what may, your experienced electrical servants at Washington Water Power keep the kilowatts coming to you—to provide you with the best in electrical living, at low cost!

Condition of Land Vital to Economy

Good Farming Practices Aid Conservation Work

That the condition of the land and its productivity affect the vigor and vitality of the national economy is a fact becoming more generally recognized by farmers, business men and industrialists alike.

And, according to W. R. Tascher, extension soil conservationist of Washington, D.C., there is a certain point in land deterioration which when reached becomes the principal factor in influencing the nation's economy.

In the United States about two-thirds of all raw materials come from the land for the country's

This photo shows the kind of land use and development which is vital to the condition of the soil.

total industrial production, Tascher said. About 80 per cent of all manufacturing plants in this country depend upon the soil for their principal raw materials.

It is obvious, he continued, that scarcely a segment of the nation's economy can assume continued survival without the care of its land resources in such a way as to insure continued adequate production.

Spud Harvest Study Would Cut Damages

Preliminary work to determine the points in potato harvesting and handling where bruising injury occurs, with a view to developing methods for avoiding such damage, was started in North Dakota last fall, Perry V. Hemphill, associate agricultural economist of the North Dakota experiment station, reports.

A survey was made by the experiment station in cooperation with regional potato laboratory in East Grant Forks. Samples were taken immediately after digging, from the picker sacks standing in the field, from sacks on the truck at the warehouse before unloading, and from the bins immediately after unloading.

It was noted that the percentage of bruising increased during each operation. After digging it was found 11 per cent of the potatoes were bruised, after picking 17 per cent were bruised, after trucking the percentage bruised went up to 18, and after binning 41 per cent were bruised. It was noted an increase of 23 per cent may be due to the binning process alone.

Applying Shingles

In applying asphalt shingles over an old wood shingle roof, first nail down loose shingles. Split warped shingles and nail down the segments. Place beveled wood "feathering" strips along the butts of each course of old shingles. Apply an "eaves flashing strip" of asphalt roll roofing. Use six nails in each three-tab, square-but.

Overhead Water System Creating Wide Interest

The use of overhead sprinkling systems for irrigated farming has created widespread interest in areas where artificial watering is necessary to crop production.

Among the merits of overhead sprinkler systems is that land leveling—which removes valuable top soil from high spots, is not necessary, and ground ordinarily used for ditches can be utilized for growing crops.

Radioisotope Tags Insects As Aid in Control of Flies

Radioactive phosphorus from the Oak Ridge laboratory of the Atomic Energy Commission is aiding research on insect pests, the U.S. Department of Agriculture reports. A first field test of the "tagging" of insects with radioactive material developed information of practical value, and also showed that radio isotopes can make much easier and more definite essential studies of the flight range and distribution of insects.

Preliminary experiments explored ways of "tagging" insects. In Oregon, federal and state entomologists devised two ways of getting the radioactive phosphorus into the bodies of flies and mosquitoes reared in the laboratory. The first practical application was the release near Corvallis, Ore., of groups of thousands of tagged flies. This was followed by recoveries in baited traps set in various directions and at varying distances.

The "tagged" insects included houseflies and two common species of blowflies. The scientists found it relatively quick and easy to go over the catches with a device that registers radioactivity and so identify the radioactive flies. Houseflies were trapped in all directions and at distances up to 12 miles.

These results may prove of practical value in fly control. Since entomologists have learned that some strains of flies have developed resistance to DDT poisoning, they have wanted more information as to how far resistant flies were likely to spread. The 12-mile flights revealed by this first "tagging" experiment show that resistance is likely to spread widely as resistant breeders scatter into areas where DDT has destroyed non-resistant flies.

Reliable information as to flight of mosquitoes is wanted as an aid in establishing the size of control zones for protection either by poisoning or by drainage. Another field in which entomologists need more exact knowledge than they have is on flight of blowflies.

New Drug Fails to Stop Tropical Animal Disease

They said it might become one of the most spectacular drugs of all time—a drug that would enable farm animals to live and stay healthy in insect-ridden tropical areas.

That's the way "anticyde" shaped up when British scientists first tested it as an injectable medicine for preventing trypanosomiasis, a deadly blood disease caused by microscopic parasites. These parasites are spread from animal to animal mainly by tsetse flies.

But the blood parasites found a way to fight the medicine, and they seem to be getting the upper hand. They have built up resistance to flies have acquired resistance to DDT.

In one of the most recent tests, conducted by research veterinarians in East Africa, injections of the drug failed to prevent the disease in a test herd of 60 cattle kept in a fly-infested area. All but two of the cattle died of trypanosomiasis within four months.

From 1/2c to \$3750

A famous coin collector once advertised an offer of \$75 for every 1913 Liberty-head nickel sent to him. During the 1920's and 1930's it was common practice for one to look at his change to see if such a nickel turned up. Finally the public came to realize that 1913 was the year the Liberty-head design was changed by the U.S. Treasury to the buffalo pattern. Strangely enough six Liberty-head nickels with 1913 date were struck off at the mint which didn't show up in the Treasury records. The most recent exchange of one of these nickels was made for \$3750. This is a high price for a coin of 25 per cent nickel 75 per cent copper content whose intrinsic value at the time of issue was about half a cent.

Lard Exports to Cuba

United States exports of lard to Cuba last year accounted for 21 per cent of the total lard exported from this country. Shipments of United States lard to Cuba have been larger than those to any other country in each of the last three years, 1947, 1948 and 1949. Cuba imports about 95 per cent of its lard requirements and, during the period 1939-1948, about 95 per cent of these imports came from the United States. In addition to providing an outstanding market for lard, Cubans are also important purchasers of other pork products from the United States.

Riboflavin in Milk

Keeping milk covered while heating helps save riboflavin, an important B-vitamin. Riboflavin is destroyed easily by light and this destruction is hastened by heat. Tests show that milk boiled in the light lost considerable riboflavin, but milk boiled in the dark lost very little. It is important for the housewife to take every precaution against losses of this vitamin in milk, because milks is the food on which children and adults depend for most of the riboflavin they need for best health.

U. S. Milk Industry Vastly Transformed

Cost of Product Rises Less Than Other Foods

Since the turn of the century the milk industry has undergone a transformation rivaling that of the airplane, according to dairy scientist and historian Dr. J. Lloyd Henderson.

Dr. Henderson, co-author of "The Market Milk Industry," a standard textbook whose latest edition will be released this spring said "Our research since the war's end points up the fact that although labor and equipment costs have kept pace with rising scales in other industries, the cost of milk and its products has risen less than that of any other food. In fact, milk, from a nutritive point of view, is far and away the housewife's best food buy."

Cost-saving scientific advances in milk processing and startling economies due to improved distribution practices have been responsible for this, Henderson points out.

The industry shed no tears as it buried the familiar 10-gallon milk

This excellent herd of cattle, grazing quietly and contentedly is symbolic of vast milk industry which has undergone such a transformation in the past two decades.

can and converted to huge insulated tank trucks for bringing milk from the larger farms to the processing plant. Savings in handling due to this change have only been matched by the improvement in sanitation and quality of the product, Henderson said. Every-other-day delivery, now practically standard practice in major cities, plus the use of retail trucks of almost double capacity, also helped keep the housewife's milk budget in line.

The flash pasteurized, once outlawed by health authorities, has been so improved that today every milk company of any size uses it to save expensive man-hours and production space.

Check Cows' Feet

Although one would hardly gather the impression from the Holstein cow (above), cows are like people in more ways than one—one sure one being that when their feet hurt, their production lags. Farmers can help prevent loss of production from this source by periodic attention to the feet of their cattle to check for foot infection or other ills.

New Dairy Element Seen As Aid in More Output

The animal protein factor—miraculous dairy element which speeds up the growth of farm animals and poultry at less cost to the farmer—is now in tonnage production and should be readily available to consumers within a short time.

Officials of the chemical company producing the element which is accomplished by bacterial fermentation, promise feed efficiency that will represent a significant new advance in animal nutrition.

The fermentation APF, as the feed component is known, has a Vitamin B12 content approximately 40 times that of good fish meal, the outstanding natural source of APF which has been widely used heretofore in feed mixtures. This vitamin compound is one of the most effective known for supplementing chicken and hog feeds.

Superphosphate Will Help Add to Manure Properties

Adding superphosphate to manure not only increases its plant food balance, but helps it hold valuable nitrogen that otherwise might be lost, according to Prof. C. J. Chapman, University of Wisconsin agronomist. He says it should be added before the manure is spread on the field.

The superphosphate can be put in, the spreader at the rate of 20 to 25 pounds per load.

Missouri Mule Fades Out, But Not Missouri Rabbit

Rabbits and mules have two things in common—both have long ears and when you think of either, you think of Missouri.

But, while the Missouri mule has given way to changing times, the rabbits carry on, undaunted by the growing army of those who want him. During the 1949-50 season, an estimated 2,664,400 Missouri bunnies fell to the hunter's gun. More than 438,760 were shipped out in the rabbit-meat trade and buyers from 30 other states purchased 305,500 alive for restocking purposes. This brought the total bag for the year to more than three and a half million rabbits, which is about an average harvest.

In view of this seemingly large harvest, the Missouri conservation commission is sometimes accused of sacrificing the state's rabbit population to the demands of both commerce and sport. But a look at the habits of rabbits and other factors affecting cottontail posterity, reveals no such picture.

Commission Biologist Kenneth C. Rowe, who conducts state-wide studies on rabbits, says that the average mother cottontail produces 17 young during a single season. Bennett and Nagel in their 1937 report of Missouri's first comprehensive game survey, placed the state's average fall population of rabbits at over 10 million. Even if only a few million are still hanging around by spring, their progeny will run into plenty of rabbits.

A rabbit's greatest enemy, Rowe says, is not the gun, dog or trap. Of all bunnies born each spring and summer, only about 20 per cent survive for hunting in November. This high mortality is due largely to removal of protective and nesting cover, natural predation, freezing and drowning of young during unfavorable weather, overgrazing by stock and burning off cover, and disease. Actually, the controlled human harvest helps to keep this species within the carrying capacity of its surroundings.

Brucellosis Drive Aimed At Eradication, Not Cure

Farmers would fight a losing battle against brucellosis if they had to depend on drugs to cure it.

That is why the campaign against this disease is being centered on blood-testing elimination of diseased animals, and preventive vaccination of calves, according to a special committee of the American veterinary medical association.

The committee, headed by Dr. A. M. Orum of Carthage, Ill., was formed to aid the nation's current drive against bovine brucellosis. The disease, believed to be costing cattle owners \$100 million a year, causes lowered milk production, abortion, and other reproductive troubles.

"Regardless of what anybody has claimed, no drug or nutritional substance is known to cure brucellosis in livestock," Dr. Orum said.

Physicians regard several drugs as useful in treating human brucellosis, which is contracted from diseased animals, he explained. But even if veterinarians could utilize these drugs for treating brucellosis in animals, the cost under present conditions would be preventive except for highly valuable stock.

"We are convinced that the only sound and financially practical way to deal with this disease is to work toward its complete eradication," Dr. Orum said.

This can be done, he added, through a nationwide program of testing all cattle, disposal of reactors to the blood test, and calf-hood vaccination coupled with strict sanitary measures in all herds.

How Flavoring Started

Thousands of years ago after man discovered fire and learned to cook his food, he sought to make it more palatable and interesting. Perhaps a leaf from a laurel tree fell onto the meat he was cooking, and noting the improvement in taste, he used it with frequency, and experimented with other leaves, barks, flowers, berries and seeds. Hence, flavoring is one of the oldest of the arts, and its heritage is as old as man himself.

R. R. Safety Guard

For a hobby, three Pennsylvanians experimented with a device to prevent collisions of automobiles with trains. At a recent demonstration before state officials, and representatives of railroads and insurance companies, it made an impression that promises serious consideration. Described as a "magnetic eye," when installed in an automobile, bus or truck it registers the approach of a train, brakes the vehicle to a halt and turns off the motor. The car is held to a stop until the train passes.

Pleasing Dining Room

An eye-pleasing dining room can be created with the aid of sky blue, rose, chartreuse, black and white. Use the pleasant light blue for the flat paint on the walls and a lighter tint of the same color for the ceiling. Gleaming white woodwork adds an air of cleanliness and crispness. Draperies and chair upholstery in chartreuse add an interesting note, while black-enamelled furniture and a rose colored rug lend warmth and emphasis.

TO FAMILIES WE HAVE NEVER SERVED
Those who have never had occasion to engage the services of a funeral director must rely upon what others say, when the inevitable need arises. For almost fifty years Vassar-Rawls have been noted for professional skill, fair dealing, liberal policies. This reputation is your safe guide in calling a funeral home.

VASSAR-RAWLS FUNERAL HOME
Telephone 333 Lewiston, Ida.

hosts at a Watch party New Year's Eve, honoring Mrs. Art. Foster. Those present were Mr. and Mrs. Marion Rowden, Mr. and Mrs. Art. Foster, Mr. and Mrs. Gil Erlewine, Marjory Foster, Clarence Alexander and the host and hostess. The evening was spent playing pinocle, with Mrs. Foster and Gil Erlewine being awarded high prizes, and Mrs. Erlewine and Marion Rowden winning "low prizes." This was the coldest night we have had this year, for Mr. Souders reported the temperature at about 11:00 o'clock as being 13 degrees below zero!

Art Foster returned Saturday from Gooding, Idaho, where Mrs. Foster will remain for a time for health treatment. The good wishes of her many friends and neighbors go with Mrs. Foster, with hope for rapid recovery. Mrs. Arlie Allen kept her grandchildren company while Mr. Foster was away.

Cpl. Neil Erlewine left Monday for Lewiston, where he met an army friend from Garfield, Wash., and began the return trip to Camp Cooke, Calif., after having spent a 15-day furlough with his family and friends here. The two soldiers will share the 1300 mile drive.

Mr. and Mrs. Ernest Grim and Mr. and Mrs. Gil Erlewine spent Monday in Moscow, where Mrs. Grim and Mrs. Erlewine attended the County Extension Leader course directed by Mrs. Helen Hunter.

Mr. and Mrs. Phil Bahr returned last week from California, where they had spent the past several weeks.

Felix Holt was on the ridge Tuesday, getting out poles for some building on his place in Lewiston Orchards.

Mrs. Bill Zimmerman and Larry Dale spent two days last week with her parents in Lewiston.

Mr. and Mrs. Charlie Zimmerman and children were over-night visitors in the Bill Zimmerman home last week.

The Friendly Neighbor Club meeting is postponed for this week, due to weather and road conditions. We have about two feet of snow and travel is rather hazardous.

Mrs. A. Pederson received word from her son Herbert that both he and Delmar Riley passed their Marine Corps physical examinations in Seattle, and were on their way to San Diego, where they will receive their boot training.

FAIRVIEW NEWS ITEMS
Jan. 8 — Mr. and Mrs. Paul Dagefoerde were Lewiston shoppers on Friday. They also visited with Mr. Dagefoerde, Sr., at St. Joseph's hospital. He is reported as not quite so well.

Mr. and Mrs. Ervil Woody and Mr. and Mrs. J. M. Woodward were Saturday evening guests in the home of Mr. and Mrs. Ben Hoffman.

Mr. and Mrs. Wilbur Corkill and family were Sunday dinner guests in the home of Mr. and Mrs. Roy Craig at Leland.

Miss Loete Nelson of Bovill spent the week-end with her sister, Mrs. Pete Stump, Jr., and family.

Lewiston visitors on Saturday included Mr. and Mrs. Pearl Hazeltine and family and Mr. and Mrs. Wilbur Corkill and family.

Mr. and Mrs. Don Bateman and daughters of Kendrick visited with Mr. and Mrs. Pete Stump, Jr., and family, Sunday evening.

Eddie Corkill was a Sunday over-night guest in the home of Mr. and Mrs. George Brocke, Sr., and son Darrell of Kendrick.

Mr. and Mrs. Pete Stump, Jr., were Lewiston shoppers Monday of this week.

Kendrick Friendship Club
The meeting scheduled for Friday, Jan. 11, by the Kendrick Friendship Club, has been postponed until Wednesday, Jan. 16, at 2:00 p. m., in the home of Mrs. Jack Kuykendall.

STONY POINT NEWS

Jan. 8 — Mr. and Mrs. Walter Crawford and family, Mrs. Hund and Mr. and Mrs. Con Anders were Friday visitors in the home of Mr. and Mrs. Hugh Parks.

Rev. and Mrs. Jack Hiller and family were Sunday dinner guests of Mr. and Mrs. Charles Kerby.

Mr. and Mrs. Glen Stevens and family visited Sunday with Mr. and Mrs. Clifford Powell at Spalding.

Pvt. Lee Heath arrived home the day before Christmas to spend six days with his parents and friends before returning to school at Fort Monmouth, New Jersey.

Inez and Norma Heath, students at the University of Idaho, spent three weeks' vacation at home, and returned Sunday to Moscow.

Mr. and Mrs. Forrest Gibbs and family of Spokane spent four days at Christmas time with Mr. and Mrs. Newt Heath and family.

Other Christmas guests of Mr. and Mrs. Newt Heath were the Gordon Heath family of Coeur d'Alene and the Edgar Heath family of Clarkston.

An early New Year's dinner, before Pvt. Lee left was combined with the celebration of two birthday anniversaries, Lee's and Marilyn Rice's.

Guests at the Newt Heath home that day were Rice family and the Frady family.

Miss Frieda Haag has been relieved of part of the cast which she has worn since October 26, when she was treated for a broken leg suffered in a fall. She must still wear part of her cast for a while longer. Miss Haag is staying with her sister, Mrs. Alvin Wiechmann and family.

Mrs. Leslie Heimgartner is recovering from a week's siege of flu. Mrs. Lena ZumHofe accompanied her brother, George Denner, to Seattle, for a medical check-up, last Wednesday.

Mr. and Mrs. Walter Zimmerman and family of Spokane; Mr. and Mrs. Phil Hoisington and son from Eugene, Oregon; Miss Vivian Hoisington, Lewiston, and Mr. and Mrs. Loren Hoisington and family were Christmas Day guests of the Clotis Hoisington family.

Virgil Stevens missed school on Tuesday because of illness.

Town Team Wins Pair
Opening Lewis-Clark league play against the Lewiston Raniers, the Kendrick Town Team, paced by Geo. Brocke, Jr., emerged victorious 59 to 43 in the local gymnasium last Thursday evening. Getting off to a fast start, the town team set a pace the Raniers were unable to stop. After hitting many lay-in shots the first quarter score stood 14-4 for Kendrick.

The second quarter found the Raniers hitting the bucket a little more consistently and the half-time score stood 26 to 19 in favor of Kendrick. In the third quarter Kendrick's height began to tell with Dick McCall, Orville Halseth, Don Millard and Max Clemenhagen dominating the backboards. The running game had tried the Raniers and the final score stood 59 to 43, Kendrick.

High point man for the game was J. Bennett of Genesee with 24. For Kendrick Tommy Peters was high with 14, followed by Dennis Racicot with 12.

The score by quarters:

95	87	18	11	304	204	95	
Genesee				14	30	39	50

C. C. Y. Enjoy Sleigh Ride
The Kendrick C. C. Y. met at the church Sunday afternoon at 2:00 to take a sleigh ride. The sleigh and horses were furnished by Lawrence Slead of Juliaetta, and Mrs. Roy Glenn accompanied the group as chaperone.

Following the ride the young folk went to the Dennis Racicot home at Juliaetta, where Mrs. Racicot served a delicious lunch. The evening was spent in singing songs, after which Rev. and Mrs. F. C. Schmidt led the group in a worship service.

The next meeting will be held at 7:00 p. m. Sunday in the church basement.

It's Blewett's, Kendrick, for fresh and cured meats of all kinds. 1-adv

Potlatch Chief Sez

Published by the Kendrick Creamery

HELLO, THERE, FOLKS —

Getting tired of winter, and the always-with-us job of shoveling snow from walks and roofs of buildings? Well, maybe you are one of those who enjoys winter, but most folks don't. However, there is one redeeming feature when you live on a farm — your income need not stop. Just take good care of your cows and chickens, bring their products to us, and you'll be agreeably surprised how many dollars they will bring you in. Try it!

A bus driver was filling out a report about a highway breakdown. When he came to the line, "Disposition of Passengers," he wrote: "Mad as hornets."

Don't let the fact that it's winter keep you from serving "Potlatch Chief" Ice Cream for those between-meals snacks or for dessert. Ice cream, a typically Ameri-

can item, is always in good taste. And not only is it good, but good for you. You're assured of purity, texture and flavor when you serve "Potlatch Chief." Buy it by the gallon. Keep it on hand, always.

A young couple, apartment hunting, noticed a sign in a basement window of one of the buildings they were inspecting. It read: "Saxophone — cheap." Several doors beyond, in another window, was a second sign, this one read: "\$5 given cheerfully to anyone who will buy it."

Proper food is essential during cold weather to supply the many vitamins and minerals missing with the lack of sunshine, and that's where pure, fresh, pasteurized "Potlatch Chief" milk steps into the picture. Every adult needs at least a quart a day, and every growing child at least a quart. Be sure you are getting yours.
