KENDRICK, LATAH COUNTY, IDAHO, THURSDAY, JANUARY 17, 1952

NO. 3

SHORT NEWS ITEMS FROM OUR LOCAL SCHOOLHOUSE

Basketball Sidelights

In making plans for curricular or extra-curricular activities for our high schools in Idaho, each section of the state has to not only consider its own advantages, but also advantages and disadvantages of other areas before state-wide planning can be accomplished which will render more good to more schools.

Our state is divided into seven educational districts and state planning is done with regard for the best interests of each district, does its own planning and in so doing each school is taken into consideration. Kendrick is a member of District II and takes part in the planning for the entire district as does each other member school.

At the present time probably more attention is centered on basketball than in any other activity. Dividing our district into workable sub-districts for eliminating contests preparatory to the district tournament is a problem which naturally involves all the schools. Several plans have been tried in the past, none of which have proven entirely satisfactory to all the schools.

In breaking the district into sub-districts several factors have to be borne in mind:

1. Sub-districts must have approximately the same number of schools (each has either four or five now).

2. Geographic location.

3. It is desirable to have fairly even competition within the sub-district, even though this may be impossible due to size of schools, etc.

The first two factors have been fairly well accomplished for most schools. In accomplishing this factor, one of the greatest pinches on any school, falls upon Winchester, which was placed in the Valley league. This also operated in reverse for factor two, regarding Winchester.

In determining the schools to represent the sub-districts in the district play-off, either of two methods may be used. Percentage records can be maintained and the teams with the best percentage ratings may represent, or sub-district tournaments may be held and winners acclaimed to spots in the district tourney.

Most sub-districts in the state follow the latter plan, and play it off in tournaments. This plan has also been followed in the Valley league and most people enjoy these games. However, it does take a great deal out of the players and students and lowers the grade of school work for the portion of the week involved. Therefore, the Kendrick school has gone on record the past two years as favoring the percentage plan. However, since we are usually one of the stronger teams and the percentage would usually favor us, one must consider the possibility of an upset in the sub-district tournament is not too remote, and one of the better teams could thereby be eliminated. This plan favors the weaker team and the teams with lower percentages.

Also, in our case, we find that Winchester, being situated geographically as she is, feels that percentage ball gives her a poor break, as she would be duty bound to play all other valley schools at least twice. Otherwise she has more freedom to schedule practice schools which are located better for her geographically and still play in the Valley League tournament. These objections may not be too well founded, but they do have some sound reasoning, provided she does not schedule all valley schools anyway.

So, as has been the custom in the past, the Valley League will hold their sub-district tournament, presumably in Lapwai this year, either the week of Feb. 18-23, or 25-30. Final arrangements have not been made yet, but as soon as plans are complete the announcement will be made, so you may plan to attend these games.

Tigers Defeat Maniacs

It was the 10th straight victory for the Kendrick Tigers, coached by Dennis Racicot, when they met and defeated the Orofino Maniacs on the Orofino floor last Friday evening, although two overtime periods were required to add the game to the victory string.

Ira Havens, Tiger center, sank a field goal in the second overtime to give the Tigers their 43-41 win over the Maniacs. Havens was also high-point man for the contest with 24 counters.

It was also a high-fouling, fast and rather rough game, with 27 penalties being whistled against Kendrick and 23 on Orofino.

The score by quarters:

Kendrick 9 18 30 38 41 43

Orofino 11 24 32 38 41 41

The Kendrick B squad won a preliminary victory over the Orofino B's, by a score of 27-23.

Tigers Win Another

The Kendrick Tigers tucked their 11th straight scalp under their belts Tuesday evening on the local floor when they defeated the Deary Mustangs to the tune of 25 to 53.

The game was fast but clean, kept so by the clear "whistle tooting" of the referees, although plenty of fouls were assessed on both sides.

Deary used the "two platoon system" popularized by the University of Idaho, and for the first quarter it looked as if it might make the going mighty tough for the Tigers, as the score was knotted 8-all at the end of the first quarter. However, with the heat on, Kendrick began to play ball, and the second half saw

Pinocle Party

The annual Joint District P.-T. A. card party held Monday evening in the High school was fairly well attended considering the weather, roads and a town team basketball game, there being 18 tables in play.

High scores were won by Mrs. Calude Jones and Jerry Brown, while lows went to Mrs. Willard Schoeffler and Gordon Peters. The "Gallop'ing Goose" followed Mrs. Wm. Johnson home, and Ben P. Cook was awarded the door prize.

Pie and coffee were served by the hostess, committee at the close of play.

MARCH OF DIMES DRIVE MUST BE REAL SUCCESS

Boise, Idaho — Complete confidence in the success of the 1952 March of Dimes drive was expressed this week by R. S. Overstreet, state chairman for the month-long campaign, which will end January 31.

Every major organization, including women's, fraternal, civic, labor, professional, and business group throughout the state has endorsed the drive by pledging their complete support to assure a record March of Dimes this year," Overstreet pointed out, adding: "Our people have developed a deep understanding of the helpful policies of the organization which makes possible our fight against polio — the only epidemic disease now on the increase in Idaho and the United States. Overstreet urged all county campaign directors to seek needed assistance in the final phases of their campaign from the many groups that have so graciously offered their help. "Polio," he cautioned, "is everyone's fight and we must give every organization and individual an opportunity to contribute in the all-out effort to win the battle."

In referring to the state's participation in the March of Dimes, Overstreet pointed out that the state had experienced 1,300 cases of infantile paralysis during the last five years—twice as many as were reported for the entire previous quarter of a century. "The terrific impact of this unusual incidence is brought into a sharper focus when it is realized that every Idahoan has been stricken for one four hundred people residing in the state."

"While the county March of Dimes campaigns have raised \$612,518.55 since the inception of the program for use in treating Idaho's polio patients, the national March of Dimes organization has advanced the state \$1,705,130 in epidemic aid to help us in carrying the financial responsibility imposed by polio.

"Other phases of this vital program include the provision of necessary equipment such as iron lungs and hot pack machines without charge to any patient requiring their use. The National Foundation also provides trained personnel including physical therapists, polio nurses, and other necessary professional technicians need in the treatment of this costly disease. It goes without saying that Idaho's polio patients would have little or no hope without the facilities provided by the March of Dimes.

"Five continuous epidemic years of polio in the state coupled with the enormous growth of the national polio problem has placed the national organization and Idaho's forty-four county chapters in their most precarious financial position in history," Overstreet emphasized, adding: "We must make the campaign now in progress a 'March of Dollars' rather than a 'March of Dimes' if we are to meet the challenge presented by the rising incidence, spiraling treatment costs, and the essentials required if we are to experience continued progress in the fields of education and polio research. It is in this latter phase of the March of Dimes program that the final battle will be won."

Locked Out Of Own Store

It was a case of a "skilful burglar wanted" or perhaps a lock expert, but at any rate Tome Keene, Dave Clayton and Mrs. Wilbur Colwell found themselves locked out of the Red Cross Pharmacy Thursday morning, when the spring in the door lock controlling the latch tumblers, broke, and the door could not be opened. Frank Abrams was summoned from the hardware store. He removed the lock guard plate and tried to get the latch to let loose, but to no avail. Finally the door was forced back as far as possible and a hack saw used to cut the latch—and Tom was again "back in business," after shivering in the great outdoors for a couple of hours.

"We'll give Frank 'A' for effort but don't believe he would make a very good burglar."

Cancer Training School

The annual Cancer Training School for area drive workers will be held in the Lewis-Clark Hotel, Lewiston, next Friday and Saturday, January 18 and 19, says Mrs. Harley Eichner, local drive chairman.

Those from the Kendrick area planning to attend are Mrs. Arley Allen, Mrs. Roy Glenn, Mrs. Harry Benscoter, Mrs. Gerald Ingle, Mrs. E. M. White, Mrs. George F. Brocke, Sr., Mrs. Marvin Long and Mrs. Harley Eichner.

During the course of the school Mrs. Marvin Long and Mrs. Harry Benscoter will receive five-year service certificates.

Mrs. Johanna Nelson, who has represented the Big Bear ridge community in this work for the past six years, has tendered her resignation. All extend to Mrs. Nelson a vote of thanks for long and faithful service.

Town Team Wins Another

The Kendrick Town team met and defeated the Culdesac Town team on the local floor last Monday evening by a score of 45-35. Taking an early lead in the first quarter the locals, paced by Dennis Racicot, were never headed. The score by quarters:

Kendrick 13 21 31 45

Culdesac 7 14 26 35

Those seeing action on the local team were Geo. Brocke, Jr., Dee Miller, Don Millard, Elroy Kuykendall, Dennis Racicot, Dick McCall, Orville Halseth, Max Clemenhagen, Norman Fry, Charles Easterbrook and Tommy Peters. Dennis Racicot led all scoring with 14 points, closely followed by Max Clemenhagen with 13. Vern Dickinson was high for the invaders with 12.

PERSONALS AND NEWS ABOUT KENDRICK FRIENDS

Mrs. Effie Bakken of Seattle left last week for her home following a three-week visit here with her sister and husband, Mr. and Mrs. Jack Travis.

Mr. and Mrs. Marion Rowden and family were Saturday evening dinner guests of Mr. and Mrs. Ben Westendahl and family.

Mrs. Carl Gustafson entertained at a luncheon Sunday in honor of her daughter Lorene's 15th birthday anniversary. Guests were Mr. and Mrs. "Butch" Cool and family and Shelia Westendahl.

Mrs. Charles Deobald and son Denny were Wednesday afternoon guests of Mrs. Ben Westendahl.

Mr. and Mrs. Jack Travis received word from their son, Herman, saying he was one of those involved in the big truck tie-up at Cottonwood, being marooned by the snowstorm over Thursday night.

Mr. and Mrs. Elgin Woody of Eugene, Oregon, were visiting with Mr. and Mrs. Louis Wright and other old friends in Kendrick Wednesday of last week.

Mrs. C. S. Westendahl is visiting with her daughter, Mrs. Jess Oylear and other relatives at Moscow.

Word has been received from Mr. and Mrs. Jack Heacox, old-time area residents, that they have moved from Portland to San Jose, California, for the winter at least.

Word has been received from Mr. and Mrs. Russell Scoles that they are now located at LeGrande, Oregon, where they expect to remain for the winter.

Arthur Foster, who returned last week after taking his wife to Gooding, Idaho, where she entered the hospital for treatment, states he found the road a sheet of ice everywhere, but experienced no real difficulty in making the trip.

Mr. and Mrs. H. C. Schupfer took the train for Spokane Thursday.

Mrs. Paul Lind returned Thursday from Lewiston where she had spent several days with her mother, Mrs. Bina Raby.

Mrs. Richard Johnson and daughter Pat left Thursday for Spokane to visit her husband's parents for a few days. She returned here Saturday.

Mr. and Mrs. John Darby drove to Lewiston Tuesday to attend the funeral of B. F. Trail, who was killed in the train wreck at Grangeville last Friday.

Jordan Kanikkeberg left January 6 for Minnesota, on his way to Washington, D. C., after spending two weeks with his parents here over the holidays.

Mr. and Mrs. Ozzie Kanikkeberg and baby were Monday evening dinner guests in the home of his parents, before the Culdesac-Kendrick town-team game.

Mrs. Bina Raby left January 13 for El Centro, Calif., to visit her nephew, Arnold M. Blackburn.

Mr. and Mrs. Bob Lind of Moscow visited here Sunday afternoon in the home of his parents, Mr. and Mrs. Paul Lind.

Pfc. and Mrs. Max Dammarell of Tacoma, arrived here Friday to spend a short furlough in the home of his parents, Mr. and Mrs. Edgar Dammarell and family. They returned to Tacoma Tuesday evening.

Rev. and Mrs. F. C. Schmidt were dinner guests of Rev. and Mrs. Ed. Knight at Orofino, Friday evening, all later attending the Kendrick-Orofino basketball game.

Mr. and Mrs. Earl Harris and daughter Shirley came out from Bovill Saturday night with C. E. Harris. They went on to Cavendish to stay over-night with her parents, Mr. and Mrs. Perry Mattoon and family.

On Sunday they were present for a farewell dinner honoring James Mattoon, who leaves for service with the Armed Forces on Wednesday. Other guests in the Mattoon home were Mr. and Mrs. Elmo Eldridge and family and Mr. and Mrs. Bud Fey and family.

Mr. and Mrs. R. L. Blewett and son Billy drove to Moscow Saturday to stay over night with Lt. Col. and Mrs. Aaron Blewett and family.

Gwen Cook, accompanied by Barbara McMurtie, Barbara Flesman and Verna Easterbrook, spent the week-end here visiting in the home of Mr. and Mrs. Ben P. Cook and Mr. and Mrs. Gordon Peters at Leland. Barbara Flesman is a niece of Mrs. Peters. All the girls are from Kinman Business University at Spokane.

Ben P. Cook attended the W. S. C.-Idaho game Saturday night. Ben, Jr., returned home with his father to spend the week-end.

Mr. and Mrs. Milton Wilken and Jo Diehl were dinner guests in the home of Mr. and Mrs. Roy Glenn, Thursday.

David Coulter, Moscow, was in town Tuesday for dental work, and visited old friends between trains.

W. W. P. CO. SALE TO "NON-PROFIT" FRONT MAY BE OFF

Washington, Jan. 14 — The Securities and Exchange Commission took another four-day extension today (until the close of business on Friday, Jan. 18) for consideration of the proposed sale of the Washington Water Power Co. common stock to three Washington state public utility districts.

Secretary Orval Dubois announced the decision shortly after the 2:30 p. m. (EST) deadline which previously had been set for the commission's decision.

He said the new extension had been agreed to by American Power and Light Co., owner of the Washington utility.

Spokane, Jan. 14 — Senator Herman Welker (R-Idaho) told the Spokesman-Review tonight he expects the Securities and Exchange Commission to take jurisdiction over the proposed sale of the Washington Water Power Co.

Welker said he thought the commissioners would vote 4-0 in favor of jurisdiction.

"The testimony before the SEC (in an informal meeting Friday in Washington, D. C.) was such that no other action could be taken by the 'commission,' he told the paper in a telephone call from the nation's capital.

Welker has been an outspoken opponent of the proposed sale to the three eastern Washington PUDS and gave testimony against the plan at the hearing.

Our Note: There is no doubt about the feeling in this territory being overwhelmingly against the proposed sale to the PUDS, or to any so-called "front" which may be erected by Mr. Meyer, corporation attorney for the PUDS. Service here is excellent, prices are fair, the WWP Co. pays taxes toward schools, roads, etc., in the territory it serves. If this stock must be sold, why not offer it to the residents of this territory, where it was originally sold and later purchased by American Power and Light.

Final Rites For L. J. Southwick

Funeral services for Leroy J. Southwick, beloved Southwick pioneer, were conducted at the Lewiston Christian church, Lewiston, at 11:00 o'clock Wednesday morning of last week, with the Rev. F. C. Schmidt, Kendrick, as officiant.

Hymns were sung by Mrs. D. A. Christensen and Mrs. Jud Lee, accompanied at the organ by Mrs. Pauline Brigham.

Burial was at the Southwick cemetery under the direction of the Brower-Wann funeral home. Pallbearers were Darwin Tarry, Eugene Southwick, Glenn Daggett, Given Mustoe, Cecil Roberts and Neil Vaughn, all nephews of the deceased.

WHAT CAMERON FOLKS ARE DOING THESE DAYS

Helen, Ted and Ed. Mielke and Mrs. Fred Newman received word from San Francisco Sunday evening that their brother, Henry Mielke, died of a stroke at 8:50. He will be remembered here by many.

Judy and Lynn Koepf were overnight guests of Kay and Carol Wegner, Tuesday night.

Mr. and Mrs. Ed. Mielke and family, Mr. and Mrs. Gordon Peters and family, Ted Mielke, Roy Silflow and Wally Newman attended the Kendrick-Orofino basketball game at Orofino Friday evening.

Mrs. August F. Wegner underwent an operation at the St. Joseph's hospital at Lewiston Wednesday. Mr. Wegner and sons Vern and Wayne, Mr. and Mrs. Glen Wegner and Mr. and Mrs. Dan Sullivan, the latter of Cream ridge, have visited with Mrs. Wegner.

Mr. and Mrs. Walter Koepf and family spent Sunday with Mr. and Mrs. Roy Ramey.

Mrs. Kenneth Wilken and Mrs. James Whittinger spent Monday evening with Mrs. Werner Brammer.

Mr. and Mrs. Walter Koepf, Mr. and Mrs. Ernest Brammer, Ed. Mielke and daughter DeAnn, Willard Schoeffler and Leo Lohman and son Dick attended the Idaho-W. S. C. basketball game at Pullman Friday evening.

Rev. and Mrs. Theo Meske and family were Sunday evening visitors in the home of Mr. and Mrs. James Whittinger.

Mr. and Mrs. Wilbert Brunick spent Monday with Mr. and Mrs. Clay Albright and Mrs. A. H. Blum in Lewiston.

Mr. and Mrs. Glen Wegner and family were Friday evening guests of Mr. and Mrs. Werner Brammer.

Mr. and Mrs. Earl Whittinger attended the funeral of L. J. Southwick in Lewiston, Wednesday.

The Ladies Aid held their January business meeting and first work day of the winter on January 3, with Mrs. Aug. F. Wegner, Mrs. Glen Wegner and Mrs. Theo Meske as the hostesses.

Mr. and Mrs. Earl Whittinger visited with Mr. and Mrs. Robert Draper at Leland Sunday evening.

Helen and Ted Mielke and Mr. and Mrs. Harry Newman and daughter were Sunday visitors in the home of Mr. and Mrs. Fred Newman.

Mr. and Mrs. Earl Whittinger were Lewiston visitors on Monday.

Elsie Kruger of Lewiston spent the week-end with her parents, Mr. and Mrs. Gus Kruger.

Community Concert

Local residents have a real treat in store for them Wednesday, Jan. 23, at 8:00 o'clock, when the choir of the Community Church will present a Community Concert in the church here.

This event will bring together a group of local talent that will be high-lighted by some out-of-town guest artists: Among these will be Patty Murphy of Lapwai, who has achieved national acclaim in her recent trip to Madison Square Garden as Rodeo Princess. Patty has a lovely voice and will sing several numbers.

This concert is a benefit, and a free will offering will be taken, which will be used to purchase choir robes for the choir. All are cordially invited to be present and enjoy this musical treat.

The program follows:
Patty Murphy, vocal solo.
Charlie Murphy, a vocal solo in the Neperce tongue.
Roy Murphy, vocal solo.
Burke Sower and Nancy Callison, instrumental duet.
Bob Lind, vocal solo, accompanied by Mrs. Bob Lind.
Dick Coulter, piano solo.
Mrs. Oscar Slind, piano solo.
Roy Ramey, Eugene Taylor, Mrs. D. A. Christensen and Mrs. George F. Brocke, Sr., mixed quartet, two patriotic numbers.
Warren Fairbanks, vocal solo. Mr. Fairbanks will also lead the community singing.

The Community Church choir will also present several selections.
Mrs. Bob Magnuson directs the choir and is in charge of arranging this production.

Unable To Plow Streets

Clarence Perryman, state highway maintenance foreman in this section is very displeased with the condition of Kendrick's Main street, which is part of the state highway, in-as-much as it is an almost solid sheet of ice from curb to curb, and there is literally nothing that can be done about it unless scarifier teeth were put on the big patrol and the ice ripped loose, an operation which probably would prove damaging to the oiled surface.

"The trouble was that so many 'dead head' cars and trucks were parked along the street that the state crews were unable to plow but a narrow strip down the center on regular trips, and when they got back to town and had time for this work, the ice had already formed, and a patrol blade just bounces along the surface. The ice is so thick in many spots that it is above the level of the curbs, and when run-off water flows, it moves down the sidewalk, rather than the gutter."

Entertains At Slumber Party

Susy Candler entertained a group of girls at a slumber party Thursday, January 10. The invited guests were Bernadine Glenn, Barbara Colwell, Mona Hammond, Lorine Steigers, Lois Platt, Unis Westendahl, Janice Christensen and Priscilla Benscoter.

A hilarious time was reported by all — with very little sleeping done.

NEWSY ITEMETTES FROM AMERICAN RIDGE AREA

Bride Wears Pale Green
Pale green satin was chosen by Miss Clara Mae Mattoon for her marriage to Eldred L. Smith, Dec. 27, in the annex of First Christian Church, Eugene, Oregon, Assistant Pastor James H. Cornett performing the rites.

Decorations of red carnations and pale green candles were used for the informal ceremony. The bride's dress was street length, and with it she wore a corsage of red carnations, tied with silver. She wore ballerina slippers.

For sentiment the bride wore a blue sapphire ring belonging to a friend, Mrs. Wilbur Wittliff.

"Because" and "The Lord's Prayer" were sung by Mrs. R. C. Royston, Jr., accompanied on the piano by Mrs. Steven Woodson.

A reception immediately followed the ceremony with Mrs. Woodson, Mrs. Harold Johnson and Mrs. Oakley Shay in charge of serving. Out-of-town guests included the bride's father and brother, William Mattoon and son Ray of Graham, Wash., and Mrs. J. B. Smith of Albany, mother of the bridegroom. Other relatives attended from Swiss Home, Tangent and Albany.

The couple now is at home in Eugene, where Mr. Smith is employed as carpenter foreman for Stein Brothers.

Most everyone here will remember the bride, a daughter of William Mattoon, former resident of this ridge.

Hi-Hope Club To Meet
The Hi-Hope Club will meet Thursday at 1:30 p. m. at the home of Mrs. Harry Benscoter. All will answer roll call with "The Resolutions I Always Break." The topic for the meeting, led by Mrs. Roy Davis and Mrs. Bud Eichner, will be "Principles of Yard Planning," the subject of the leadership school meeting they attended in Moscow on January 9.

Other News
Mr. and Mrs. Hiram Galloway of Kendrick spent Sunday afternoon at the Harry Benscoter home.

Mrs. Walter Benscoter and daughter Jorene were Lewiston visitors on Thursday.

Mr. and Mrs. Wayne Davis and son spent the week-end in Pullman with his parents, Mr. and Mrs. Bert Davis, and her mother, Mrs. L. Fockler. They also attended the W. S. C.-U. of I. basketball game.

Mr. and Mrs. Ed. Kent were Sunday guests of Mr. and Mrs. Frankie Benscoter.

Mr. and Mrs. Lawrence Heimgartner and daughters and Mr. and Mrs. Elwood Roseneau and family of Big Bear ridge were Sunday guests of Mr. and Mrs. Chas. Fey in Kendrick.

Mr. and Mrs. Walter May were Monday evening visitors in the home of Mr. and Mrs. Frankie Benscoter.

Mr. and Mrs. Bud Fey and children spent Tuesday evening with Mr. and Mrs. Lawrence Heimgartner.

Mr. and Mrs. Ed. Carlson and daughters of Genesee spent Sunday with Mr. and Mrs. Andy Cox and family.

Mr. and Mrs. Bud Eichner and Harley Eichner were Lewiston callers on Friday. That evening Mr. and Mrs. Bud Eichner were supper guests in the Harley Eichner home. Mr. and Mrs. Frankie Benscoter were evening callers.

Mr. and Mrs. Herman Schupfer spent Sunday afternoon with Mr. and Mrs. Bud Eichner.

Pfc. Leonard Roberts left Sunday from Lewiston to report to his post of duty. His parents, Mr. and Mrs. Harold Roberts, took him as far as that city.

Mr. and Mrs. Walter Benscoter and family spent Sunday afternoon, and were evening supper guests of Mr. and Mrs. Geo. Havens and family.

Mr. and Mrs. Ernie Andrews and family of Lewiston spent Sunday with Mr. and Mrs. Walter Bigham and daughters.

Mr. and Mrs. Werner Brammer and daughter Rhonda were Sunday dinner guests of Mr. and Mrs. Henry Brammer at Juliaetta.

Mr. and Mrs. Warney May, Jr., were Lewiston visitors Thursday. They were guests of his parents, Mr. and Mrs. Warney May, Sr.

Mr. and Mrs. George Havens and Mr. and Mrs. Frankie Benscoter were in Lewiston on Monday.

Mr. and Mrs. Andy Cox and son Tom and daughter Andy Sue were Monday evening supper guests of Mr. and Mrs. Harley Eichner. Tom left Wednesday for his physical examination for service with the Armed Forces.

Mr. and Mrs. Bud Eichner and Mrs. H. C. Schupfer were Lewiston visitors on Tuesday.

Mr. and Mrs. Walter Bigham were in Moscow, Monday on business.

Mr. and Mrs. Bud Eichner spent Monday evening with Mr. and Mrs. Roy Davis in Kendrick.

Charles Havens was ill with the flu last week, while Teddy Havens has it this week.

Mr. and Mrs. Bob Nelson were Moscow visitors on Tuesday.

Elgin and Chet. Woody were dinner guests Wednesday of Mr. and Mrs. Walter Benscoter; afternoon visitors of Mr. and Mrs. Frankie Benscoter, and evening callers at the Geo. Havens home last Friday.

March Of Dimes Supper

There will be a March of Dimes Hot Dish supper and home movies show Sunday evening, January 20, at 5:30 p. m. in the Ladies Aid hall at Cameron. All are welcome.

A free will offering for the March of Dimes will be taken.

(Continued On Page 2)

TWENTY YEARS AGO
 Celebrate 20th Wedding Anniversary: Mr. and Mrs. Frank Wittman of Cavendish invited in several of their relatives and friends, Sunday, Jan. 10, to help them celebrate their 20th wedding anniversary. A bountiful dinner was served.
 Remodeling Store: N. B. Long & Sons started this week the remodeling of the interior of their store, to accommodate their new change of policy, inaugurated Jan. 1st. The changes will also bring the different departments of the store into closer touch, making it possible to handle the trade to a better advantage.
 New Footbridge Over Clearwater: Everyone having occasion to cross

the 18th Street bridge at Lewiston will be happy to observe the construction of a new footbridge which is being built along the side of the structure. It has indeed been a very dangerous journey across the bridge for pedestrians and an aggravation to motorists.
 New Arrival: Mr. and Mrs. Lloyd Ware of Southwick are the parents of a baby son, who arrived at their home Jan. 10.
 Parents of Daughter: Mr. and Mrs. Raymond Butler of Linden are entertaining a little daughter, who arrived at their home Jan. 13.
 Don't fuss and fume over out-of-season items. Visit Blewett's Grocery's Frozen Foods Case. 1-adv

JULIAETTA NEWS

Mr. and Mrs. Milo Calvert chaperoned 18 M. Y. F. members at a coasting party Saturday evening. At 9:00 o'clock they gathered at the home of Karen Nelson for parlor games, and were served refreshments by Mr. and Mrs. Calvert and Mrs. Nelson.
 Carol Swears, Lewiston, formerly of Juliaetta, is a rheumatic fever patient in the St. Joseph's hospital at Lewiston.
 Mr. and Mrs. Ed. Groseclose of Arrow spent Sunday at the H. L. Groseclose home.
 John and Ted Groseclose were Sunday guests of Mr. and Mrs. Ben Weatherby.
 Mr. and Mrs. Roy Whittum entertained at dinner Sunday for Mr. and Mrs. Fred Hadley and family.
 Mrs. John Corwin, Lewiston, was a recent visitor in the Neil Candler home.
 Harley Porter, from Nevada, is visiting his sister, Mrs. John Walsh.
 Mrs. Anita Brandt had as her guest Sunday her brother, Eben Adams of Moscow.
 Mr. and Mrs. Milo Calvert visited with friends in Lewiston and Ah-sahka, Saturday of last week.
 Mr. and Mrs. Dennis Racicot and children were Sunday dinner guests in the W. L. McCreary home at Kendrick.

Winter Gives Area "The Works"

To use what might be termed "the vernacular," winter gave this area "the works," beginning Wednesday morning of last week with a combination wind and snow storm that put the snow plows on a 24-hour schedule and in some cases blocked roads as fast as they could be plowed open, the wind-driven snow whirling like dust. However, all area school buses, with the exception of Cedar ridge, were able to make their rounds.
 Thursday there was more wind and drifting snow, but by Friday all was calm and the temperature began to rise, even going above the freezing mark here in the canyon, and road crews were able to open all roads.
 Since that time we have had a little wind, snow, sunshine and rain, with the temperature climbing to 38 degrees in Kendrick Monday, and water was literally squirting from the packed snow and ice along Kendrick's Main street, forming such a slippery surface that cars would be stuck attempting to back away from the curb. Tuesday morning the temperature dropped to 16 above, and a solid sheet of ice covered all the streets and alleys, with the exception of the narrow, bare strip down the center of Main street. The schoolhouse hill is a sheet of ice from curb to curb, varying in thickness from three to six inches (it not having been plowed this winter) and travel on it, even on foot, is slippery and dangerous.

W. S. C. S. Meeting

The women of the Kendrick W. S. C. S. met at the church Thursday afternoon to share in the annual pledge service.
 Following the reading of the minutes a short business session was held, after which Mrs. Ruth Hoffman gave an informative talk on "Women in the Church."
 Mrs. A. O. Kanikkeberg then gave a monologue, "The W. S. C. S. Wagon" which pointed up the many channels of service through which the organization functions.
 The worship service was led by Mrs. John Johanson and Mrs. Dennis Racicot sang a solo. Mrs. F. C. Schmidt then gave a talk entitled: "What Is That In Thine Hand?"
 The pledge service followed with each lady renewing her pledge of service, gifts and prayer, and bringing her gift to the altar.
 New members were then welcomed by the group and refreshments served by the hospitality committee, Mrs. Roy Ramey, Mrs. Estella Leith, Mrs. Elmo Eldridge and Mrs. Hiram Galoway.

C. C. Y. Meets

The Community Christian Youth organization met at the Community church Sunday evening, with Dorothy Glenn in charge of the Worship Service.
 Following the Worship a business meeting was held in which the Membership Pins the group has decided to get were discussed.
 Dee Miller led the gathering in a discussion on the topic: "Toward Protestant-Catholic Understanding."
 All then adjourned to the basement where songs were sung and refreshments served by Burt Souders.

Next Sunday, January 20, the group will meet at the church at 6:00 p. m., to go to Maxine Slind's home for a coasting party and meeting.

Many Films Taken

Latest figures on Idaho's mobile chest x-ray program show that a total of 76,277 small films were taken during the first 11 months of operation, Mrs. R. L. Brainard, Kellogg, chairman of the program, reported this week.
 "Although it is too early to know how many 'actual' abnormalities have been found, we have reported 'suspected' abnormalities through December 17, on 73,990 films, as follows: Suspicious of tuberculosis, 693; cardiac abnormalities, 445, and other chest diseases 483.
 "Suspected abnormalities represent 2.19 percent of the films taken. This is in line with figures from other surveys throughout the nation," Mrs. Brainard added.
 The chest x-ray program is sponsored by the Idaho Tuberculosis Association and the Idaho Department of Public Health.

Weds Navy Man

News reached here this week that Miss Shirley Baker of Juliaetta and Dale Whitman of Umatilla, Oregon, were married at Walla Walla, Thursday, January 10. The bride is a daughter of Mr. and Mrs. E. D. Baker of Juliaetta and is a Senior in the Kendrick High school.
 The groom is serving with the navy and is home on leave, having arrived at Seattle on the U. S. Sweetier last week. He will return to duty Feb. 9.

SCHOOL NOTES

The Tigers out in front 17-20, and their lead grew steadily from that point on. Coach Dennis Racicot substituted freely, trying out this combination and that, and the final horn saw the Tigers out front 53-25.
 The score by quarters:
 Kendrick 8 20 30 53
 Deary 8 17 20 25
 In the preliminary game the Kendrick B squad defeated the Deary B's 35 to 19.

Ill With Flu

Supt. Nutting returned to school Wednesday after an absence of two days, due to illness with the flu. The whole Nutting family was ill at the same time with the exception of their son, Rodney. Mrs. Nutting and baby are still in bed, and being cared for by Mrs. Ralph Arbuckle.

Hope For Game Thursday

The Kendrick Tigers are still hoping to meet the Genesee Bulldogs on the local floor tonight (Thursday, Jan. 17) for the twice-postponed game. But, as of today (Wednesday) the Genesee schools are closed due to storm conditions and blocked roads. However, conditions may change for the better and permit the Bulldogs to get to Kendrick.

Kitchen Inspected

Bob Tyson, health inspector, examined the K. H. S. Hot Lunch kitchen, and from all reports, everything is in order.

Eighth Grade News

This week ends the first semester's work, and tests are being given on Tuesday, Wednesday and Thursday. Report cards will be given out on Wednesday of next week.
 Last Wednesday the Lapwai Junior High school invaded our territory, but had to retreat with a basketball score of 16-21 in favor of Kendrick.
 The semester spelling contest ended last Friday. Under the leadership of Teddy Meske the "River Rats" won over "The Brains" by the narrow margin of six points. Each of the winners received a candy bar.
 This Saturday night, weather permitting, the seventh and eighth grade basketball teams will travel to Reubens.
 The eighth grade class in English is starting a review for the semester test, which will come at the end of the week.

Latah County Pioneer Meeting

The Latah County Pioneer Association will hold its mid-winter meeting in the Add Club building at 124 N. Main St., Moscow, Saturday, January 26th, at 10 o'clock, a. m. There will be a community dinner at 12:00 noon, family style. Coffee, cream, sugar and dishes will be furnished, but each family should bring its own basket of food for the dinner.

There will be a program at 1:15 p. m. It is not known just at this time who are going to have the main parts of the program, but there will be some speeches and music at different time; solos, and the regular group singing of old-time songs. At the conclusion of the program there will be a business meeting for the election of officers for the coming year.

Many old-time pictures and relics of interest will be on display, and we shall be pleased to have pioneers bring others.

All who have lived in this section of the Palouse country for thirty years or more are considered pioneers, and are heartily welcome.

Aliens Must Register

John P. Boyd, director of Immigration and Naturalization for this area, desires to again remind all aliens permanently residing in the United States that in compliance with the provisions of the Internal Security Act, they must again file address report cards at United States post offices throughout the nation.

Aliens temporarily admitted to the United States who have not overstayed their authorized period of admission and students whose period of admission has not expired and who have not violated any of the conditions of admission are not required to register.
 Aliens whose naturalization proceedings have not been completed and who do not hold a certificate of naturalization, are required to report.

To Again Sponsor Contest

The University of Idaho will again be the sponsoring agent in the state for the National Scholastic Press Association's high school student photo contest, it was announced this week by Roy A. Bell, photography instructor at the university.
 Bell said that this year, however, high school students would not submit entries through the university, but directly to the NSPA at the University of Minnesota in Minneapolis. Pictures may be entered in any or all of four classes — babies and children, young people and adults, scenes and animal life. A total of \$4,000 in prizes is provided by the Eastman Kodak company. Top prize in each division is \$400.00. The contest closes May 1, 1952.

Many Arrests In December

The Idaho fish and game department reported 101 arrests for game violations during December.
 The department said that killing and hunting waterfowl after closing hours accounted for a large share of the cases reported.

Heavy fines were assessed in big game violations where three men were fined \$300 each for killing moose; one man charged with illegal possession of elk paid a \$300 assessment, while two others paid \$150 each for possession of illegal elk.
 The department said that 1250 arrests were reported during 1951. This represents an increase of approximately 100 cases over the 1950 season, when 1156 fish and game violations were apprehended.

Choir Practice

The Community church choir will practice Wednesday evening, Jan. 16, at the H. C. Schupfer home, instead of Thursday evening, as originally scheduled.

Fruit juices of many kinds, canned or fresh-frozen are available at Blewett's Grocery-Market. 1-adv

The March of Polio is *OUT-PACING* THE MARCH OF DIMES

March of Dimes incurred \$5,000,000 debt aiding 67,800 Polio patients in 1951. This included 45,000 cases carried over from previous years.

Despite yearly increases in March of Dimes receipts, the rising tide of polio has forced the National Foundation into debt each of the last four years. The debt in 1951 was approximately \$5,000,000. The financial crisis faced by the March of Dimes has been brought about not only by increased incidence but also by increased costs and increased numbers of carry-over cases requiring aid long after they have been stricken. The March of Dimes aided 45,000 such cases last year, in addition to the four out of five new patients needing aid in 1951.

The Facts Speak Out

The proponents of the Administration's compulsory federal health insurance bill make much of the alleged fact that the cost of medical care is now excessive, and beyond the ability of the masses to pay. That is just plain propaganda.

The American people spend more for alcohol and more for recreation than for medical care. They spend two-thirds as much for tobacco. Over a long period of years, the people have spent four percent of their incomes for medical care — including doctors, dentists, hospitals, and the cost of drugs, appliances, etc.

It has been implied that, as a people, our standards of health are low, and that compulsory health insurance is needed to better them.

According to Dr. John W. Cline, president of the American Medical Association, "We are the healthiest large nation in the world. . . Since 1900 we have added almost 20 years to the life span in this country. Maternal and infant mortality are generally conceded to be the best index of the quality of medical care. Comparison of the figures of the United States with those of the rest of the world shows us at the top of the list of large countries. Certain small homogeneous countries have in the past had records surpassing ours, but the improvement in the past decade makes it improbable that they now can equal our level."

These achievements have been made under private medicine. What

possible excuse could there be for accepting a system of government-dominated medicine which, in its basic precepts, is little different from that which has woefully reduced the standards of medical care in England — and brought about a dearth of doctors?

New Farm Forestry Agent

Working with farmers of three counties, Latah, Benewah and Kootenai, in all phases of farm forestry, will be Edgar L. Williams of Moscow, newly appointed three-county assistant agent in farm forestry. His appointment was announced this week by J. E. Buchanan, U. of I. president, following formal approval by the university regents. Williams will have headquarters in the county extension office at St. Maries.

A U. of I. graduate in 1950, Williams has done summer work for the U. S. forest service and in commercial fence post treating. In his new position he will work with the farmers in the management of their native woodlands, in getting the most out of their timber products, planning and making tree plantings, in Christmas tree farming, and with 4-H forestry clubs.

Clara Barton, founder of the American Red Cross, died at the age of 91.

Ask for More Trained Men For Animal Disease Study

Solution to some of the nation's most costly animal disease is being slowed by lack of highly trained research men.

There is urgent need for giving promising young scientists an opportunity to learn the techniques of animal disease investigation.

The only way this can be done is by a long range fellowship program.

Such a program has been sponsored by the AVMA for the past six years. Under this program, which will be expanded as funds permit, research-minded graduates of colleges of veterinary medicine get financial aid to engage in animal disease studies at leading scientific institutions. This gives them background and experience needed for unraveling, highly complex diseases.

Many livestock and pet owners who ask for "more research to solve disease problems" have given too little thought to how the job might be done.

Finding out what causes a perplexing animal disease isn't much different from tracking down a dangerous criminal, and neither is a job for anyone but a well-trained person.

The Federal Bureau of Investigation would not put a man on any of its cases without first training him in FBI methods. The same advantage should be given to people interested in disease investigation.

Funds for expanding the fellowship project should come from private sources rather than the federal government "because the nation already has gone too far toward dependence on federal hand-outs."

Mastitis Germs Live 5 Days on Broomstick

Harmless though it may look, that broom in the corner of the barn might be the means of starting a new case of bovine mastitis.

The germ responsible for most cases of bovine mastitis can stay alive for as long as 20 days on objects around the barn, and for as long as 26 days anywhere on a cow's skin. From these jumping-off places, the germ can eventually get into a cow's udder, where it starts the disease known as mastitis.

Survival time of the germ was observed after mastitis-infected milk was poured on manure, hair, wood, bricks, udder cloths, and other materials commonly found or used around dairy barns.

The germ stayed alive for 4 days on rubber boots, 5 days on a broom handle, 7 days on an udder-washing cloth, 8 days on a bucket, 13 days on hair, and 20 days on hay. However, when some of these objects were treated with a disinfectant before being smeared with infected milk, the germ didn't do so well. Enough of the disinfectant lingered to cut down the survival time to a day or less.

This research emphasizes the need for clean barns, clean cows, clean attendants, and prompt disinfection of any object that gets splattered with milk.

Use of Columbium

John Winthrop, Jr., who supervised the construction of America's first successful blast furnace at Saugus, Massachusetts, in 1643, found an unidentified rock fragment near his home. About 150 years later, an English chemist, Charles Hackett, saw this fragment in the British museum, analyzed it, and thus discovered the element columbium. Today, this element is playing an increasingly important part in the manufacture of stainless and heat resistant steels for such uses as jet aircraft engines.

Columbium is one of the most recent elements to find use in the steel industry. It was used commercially as an alloy in the 1930's, although experimental work had been done with it as early as 1920. Last year 632,000 pounds of columbium metal was consumed in the manufacture of steel.

Origin of Camouflage

The origin of the word camouflage has, it seems, been lost in the shuffle. One of the stories told in connection with it is that, during the Indian troubles in the Southwest, one Jacques Camou built a circular mud fort. This fort had large square openings at regular intervals around the walls. Through these, the garrison of the fort would fire. As the Indians' shots also found their mark through these openings, Camou painted the entire fort like a checkerboard—with large black squares on a white field. This confused the Indians so they were unable to determine at which dark squares to aim.

Thermal Snow Removal

Thermal snow removal from sidewalks and driveways by means of embedded piping is a new and interesting development in the heating industry. The snow is removed automatically and without effort by the heat from pipe coils installed under the surface of the pavement. Hot water, circulated through the coils, transfers its heat to the pavement, thus melting the snow and keeping the surface dry. Automatic snow removal is economical. There is no necessity for using snow shovels or chemicals. All the owner does is to turn the switch to start the system in operation when the snow begins to fall.

Modern Dentistry Can Aid Youth with Cleft Palate

The role of modern dentistry in the total rehabilitation of young men and women with cleft lip or cleft palate so they can lead happy useful lives is revealed in the Journal of the American dental association.

Asserting that more children are born with this condition than any other congenital deformity, Dr. Herbert K. Cooper, director of the Lancaster, Pa., cleft plate clinic, estimated that at least one out of every 700 children have this handicap.

"The most frequently found condition has been getting the least amount of attention," he said. "The citizens of this country should be as well informed on the subject of cleft palate as they are on poliomyelitis, cerebral palsy and rheumatic fever."

Citing cases of patients treated at the clinic, Dr. Cooper told of a youth, 17, born with a cleft lip and cleft palate. During infancy, surgery had been performed, leaving him with a flat upper lip and very poor speech.

"He shunned all social contacts," Dr. Cooper said. "He left high school and was driving a truck. His whole family was extremely upset."

Dr. Cooper said the youth was given a medical, dental, speech and psychological examination. An appliance was constructed to build out the upper lip and cheeks and thimble crowns were placed on his five remaining upper teeth. At the same time, he was given speech instruction.

The boy was persuaded to finish high school, Dr. Cooper said, and he then was admitted to college. He added:

"The first two years were quite difficult for him because of his social adjustment problem, which he gradually overcame. Then he was taken into a fraternity and was graduated on the dean's list. He is now attending law school in a large university."

U.S. Still Leads World In Production of Matches

It's pretty difficult to get something for nothing these days, but there's one item left that is used by the average person 14 times a day, and two out of five times he doesn't have to pay. That little item is the match.

The manufacture of matches is a \$25 million-a-year industry in the United States. Each year, more than 500 billion matches are produced, and of 200 billion book matches made in the United States every year, about 196 billion are given away with the sale of cigars, cigarettes, and tobacco.

Sweden had us topped for many years in the production of matches. The Swedish Match Company, formed in 1913 by Ivar Kruegar, had match factories in 43 countries of the world and manufactured most of the world's matches. Kruegar is said to have invented the common superstition that "three on a match" is unlucky, in order to sell more matches. His match empire lasted until 1932, when it was discovered he'd been using the company's capital for his own speculations.

Sweden now ranks fourth down the line led by the United States. Great Britain ranks second and the Soviet Union third.

Spices in History

There are many references to spices and herbs in the pages of history. They play important parts in the development of our civilization. The ancients attributed strange powers and accomplishments to spices. Basil, for example, is venerated by the Hindus who plant it outside their temples and homes to insure happiness. The famed laurel wreaths which crowned Greek heroes of war and sport are the same bay leaves we use today in our cooking.

Freezing of Water Pipes

Freezing is most likely to occur in pipes which run along an outside wall. This hazard should be corrected by re-location of the pipes, if possible. If this is impractical, thorough insulation with from two and one-half to three inches of good pipe covering is the only safeguard. Should any of the piping freeze, the work of thawing it should not be entrusted to a handyman. It should be done under the supervision of an experienced master plumber. Blow torches or other methods involving open flames are extremely dangerous. They not only involve fire hazards but also permit the generation of high pressures which may cause explosions.

Gregorian Calendar

The form of our present calendar was set by Julius Caesar with some additional innovations by Augustus Caesar. However, in about 1500 years the length of year adopted by the Caesars proved incorrect. Therefore, Pope Gregory, in 1582, appointed a commission which revised the calendar sufficiently to bring it back in step with the seasons. Now it takes 365 1/4 years for the calendar to slip out of line one day. The Protestant countries did not accept the Gregorian calendar until 1752 and this is why certain dates in history sometimes appear to be confused.

Elves and Leprechauns Took Blame for Everything

It may not be on the official unemployment records, but the fact is that there are hundreds of shees, leprechauns, and elves out of a job. Since each one of them has a long history of diligent service to humanity, it seems a real shame they can't be put back to work. Each of us needs one to take the rap for the petty annoyances of daily living. These out of the way, we could devote ourselves to the big problems.

According to the Childcraft reference library, our ancestors used the little people to full advantage. They let them take the responsibility of souring the milk, rattling the windows and creaking the stairs, and breaking Aunt Nellie's best china.

A nice feature of the little scamps, too, is their wide range of nationality.

Did your parents come from Scandinavia? Then you will want to select an elf. This pint-sized creature will live in your home and help keep the kitchen neat. If he occasionally cracks a dinner plate or burns the toast, you can't very well complain. That's what you want him for, to take the blame, isn't it.

Pixies are your choice if you have British ties, and there is a fine assortment of shees for you Scottish folks. If you are Irish you may select between the revelry-loving shees and the rather dour leprechauns, who, incidentally, are apt to ignore you as they spend most of their time making shoes for the shees.

If you favor France you will have to get along with a goblin. But maybe he's better than a German poltergeist, who is downright rowdy. He will cause no end of commotion until someone bakes him a spice cake.

Just a word of warning before you adopt one of these little chaps—they believe in people, and definitely expect people to believe in them.

Life Expectancy for Man Reaches 65-Year Average

Man once shared the life expectancy of a pack-donkey, but over a 2,000 year period has attained a 65-year average—almost rivaling the 70-year expectancy of the whale, the longest-lived mammal in the life chart.

But this increased age has drawbacks in the form of cancer, diabetes and heart disease.

The average Roman of about 50 B. C. lived only 25 years. Modern medicine and sanitation now give man at least 40 more years—and a greater chance of having one of the diseases usually associated with the aging of the human body.

Human progress up the life-expectancy ladder is something of a triumph for man, who is not too well endowed with protective equipment. He is the only mammal in the higher brackets who is without some form of protective armor. For example, he ranks with the whale, 70; the elephant, 60; the hippopotamus, 40; and the alligator, 40 years.

Domesticated mammals range in life expectancy from the dog, 10 years, to the cow and horse, 20 years, and the burro, 25. Lowest mammal in the chart is the mouse, who lives from 2 to 6 years.

"Breaking Up" Water

Water, which consists of hydrogen and oxygen, can be broken up into these elements by electrolysis. If two wires, carrying a direct electrical current, are placed in water, bubbles of oxygen form around the one connected to the negative side of the battery or generator, while oxygen forms around the wire connected to the positive terminal. Usually a small amount of acid must be added to the water to make it conductive of electricity. Also, if water, in the form of steam, is heated to a very high temperature, around 3500 F., it separates into hydrogen and oxygen. These recombine to form water as the temperature is lowered again.

Longer Life for Sheets

To lengthen the life of sheets follow these suggestions. Reverse sheets every other time by putting a bottom hem at the top. Cover bare springs with heavy sheet or sheeting to avoid snagging bed linens. And check all beds for needed carpentry. Put a mattress pad between the sheet and the mattress to avoid the abrasive action of the rough ticking against the sheet. Loosen the edges of the sheet until all around before stripping the bed. Use mild solution of bleaches and rinse thoroughly, or better still, let the sunshine do your bleaching. Always rinse thoroughly to remove traces of soap and soap powders.

Study Premature Babies

An instrument corresponding to a miniature iron lung has been used by University of Michigan researchers in studying premature babies. Object of the studies was to find out why premature babies breath irregularly—in gasps or jerks. The research has shown that the cause of this irregular breathing is that oxygen is not reaching the tissue of the brain center which controls respiration.

Helium Effect on Living Organism Reported at U.C.

Helium, argon and possibly other inert gases—gases which do not combine chemically with other elements—are far from inert in their effect on living organisms.

This is reported by Dr. S. F. Cook, professor of physiology in the University of California school for medicine.

Dr. Cook has completed experiments in which he studied the reactions of small animals living in an artificial atmosphere consisting of oxygen and helium or of oxygen and argon.

The artificial atmosphere contained the same amount of oxygen found in the normal earth's atmosphere—about 20 per cent. But nitrogen, which forms nearly all of the remaining 80 per cent of the earth's atmosphere, was removed and the inert gas substituted in this same proportion. The ordinary atmospheric pressure of sea level was maintained.

When helium was used in such an atmosphere, the physiological processes of mealworms, lizards and mice were markedly changed. Similar, but less marked, changes were observed when argon was used.

The principle effects of the two gases were retardation of growth in the animals and an increase in the metabolic rate—a stepping up of the pace of work done by the body in the living process.

The research indicates that it may be useful to substitute helium for nitrogen in air used by men working in some tunnels, underwater construction projects, and some other conditions of high pressure.

Hard Pad Canine Disease Gives Dog Owners Scare

A serious distemper-like infection that leads to hardening of the foot pads and nose is being seen in American dogs, but there is no evidence that it is a new disease or that it is becoming more prevalent.

Alarming reports from England, where the so-called hard pad condition is reported to be widespread, have made many United States dog lovers overly fearful of the disease.

Thickening, hardening, and peeling of the foot pads and nose sometimes occur in advanced stages of distemper or distemper-like illness, but this condition always is seen in company with other symptoms—never alone.

Among theories as to the cause are:

(1) The canine distemper virus may undergo a change, under certain conditions, that causes it to produce symptoms that differ from those seen in typical distemper cases. "Hard pad" may be one of the symptoms so produced.

(2) In some cases, the pure distemper virus—which causes fever, respiratory distress, and diarrhea—may be accompanied by a second virus that brings on the changes in foot pads and nose.

(3) The severe illness caused by distemper or complicated distemper can lead to a temporary nutritional deficiency and loss of body fluids that may account for the thickening and hardening.

Immunization with biological products is the best means of preventing distemper and the hard pad condition.

New Course in Science

A revolutionary approach to the teaching of science which combines all the sciences in a single course emphasizing their relationship to man was described to the 118th national meeting of the American chemical society held in Chicago, by Dr. John Xan, head of the department of chemistry of Howard college, in Birmingham, Ala. Taught without a text, the course is designed to give students a broad acquaintance with the modern scientific world and an effort is made to stimulate their interest in scientific discoveries and periodicals by basing examinations mainly on knowledge acquired outside the classroom. Dr. Xan reported. Ninety to 95 per cent of students finishing the combined general science course have voted for it in preference to the conventional type of science course.

"Candling" Eggs

Candling is used on practically all eggs before they reach the stores. An electric light is placed inside a box with a hole about the size of an egg, in which the egg is placed. In a darkened room, with some practice, it is possible to detect cracks, blood spots, developing germ and the size of the air cell. The latter is the most important criterion of freshness because it gets larger as moisture escapes and is replaced by air. By comparing a few eggs known to be fresh with others that are older, one may learn how to judge the size of the air cell and the age.

Changing "Hand-Me-Downs"

Giving "hand-me-downs" a new and different color via the dye-bath is one sure way of getting little sister or brother to wear them without resentment. Adding a hem, collar or belt will still further accentuate the "new look." Wash and thoroughly rinse all articles before dyeing, and also remove buttons, buckles and trimmings. Use color remover first, the bureau counsels, when the article is unevenly faded or spotted and when changing to a different color.

Adrenal Gland Plays Role When One Suffers Injuries

Another step forward in better understanding the important role played by the adrenal gland in helping the body recover from injuries has been achieved, a University of Michigan doctor states.

Dr. Jerome W. Conn, an associate professor of internal medicine, reported to the American Association for the Advancement of Science on research he has been conducting at the university.

His study has shown that the adrenal gland calls upon a substance in the blood known as cholesterol to help in producing the huge amounts of adrenal hormones needed in prolonged periods of stress which the body undergoes at the time of an injury.

Cholesterol, produced largely by the liver, is the basic compound of adrenal hormones, including cortisone, the hormone found to be beneficial in the treatment of rheumatoid arthritis, Dr. Conn says.

In his experiments, Dr. Conn found the cholesterol content of the adrenal gland could be reduced 70 per cent within three hours by artificial stimulation which produced conditions similar to those created within the body during periods of prolonged stress.

This artificial stimulation was achieved through use of ACTH, the pituitary gland hormone which causes the adrenal gland to produce its hormones.

The effect of this prolonged stimulation of the adrenal gland has important implications for future study of several diseases, including those of the heart, liver and kidney as well as hardening of the arteries, according to Dr. Conn. These diseases are all associated with an unusual production or use of cholesterol.

Wool Scarce; Give Blankets Extra Care for Longer Life

Treat your wool blankets with the gentle care that precious possessions deserve. Textile scientists of the U.S. department of agriculture have pointed out that U.S. production of wool this year is one of the lowest on record.

Frequent airing of blankets in use not only is good sanitary practice but helps them last longer and hold their fluffy warmth and comfort. When a blanket is thrown back loosely so fresh air reaches both sides, the wool has a chance to get back its natural springiness which makes for warmth. But care should be taken not to throw a blanket over anything sharp, such as a peaked bedpost, which may pierce or pull it, or on anything that may stain it. Loose bed springs, sharp metal corners or even roughened wood may also catch and tear blankets or other bedding.

For best service and comfort blankets should be large enough to come up well over shoulders and still tuck firmly in the bottom of the bed. Short blankets often wear out early because they take 'so much pulling and strain.

A blanket stays clean longer if the bed is made so that the sheet turns back over the top of the blanket 8 to 12 inches. If the sheet is too short, a strip of cloth, basted over the top or the full length of the blanket, is good protection against soiling the wool. A covering over the blanket, or even a third sheet used on top, gives added warmth because it holds still air in the fluffy wool.

For Pig Protection

A pair of clean rubber boots is worth more than any medicine in protecting pigs from a fatal intestinal disease called transmissible gastroenteritis. Best means of controlling it is to move healthy pigs as far away as possible from the sick ones. Many farmers do this, a veterinary medical bulletin points out, but they overlook the fact that their shoes can spread the infection. Attendants who have walked through infected hog quarters should put on a pair of clean boots before entering healthy quarters, the bulletin cautions. The disease, believed to be caused by a virus, is marked by severe diarrhea, vomiting, and rapid loss of weight. Young pigs are hit hardest, with death losses sometimes running as high as 90 per cent.

Finishes Pre-Tested

The term "industrial-finishes" is applied to the finishes used by manufacturers to enhance their products. Before being applied, they are subjected to many special tests based upon the kind of usage to which the article may be subjected. For example, in addition to tests for adhesion, and hardness, finishes for refrigerators, stoves and kitchen cabinets are tested for their resistance to various foods, such as lemon juice, butter, lard and vinegar—as well as to various cleaning materials.

Wooden, Aluminum, Ladders

The rung of a wooden ladder will bend downward about one-sixth of an inch for a 150-pound person stepping on its center. An aluminum ladder is constructed so that the deflection is much less. If it were built like the wooden ladder, the deflection of the aluminum rung would be about a ninth as much as for the wooden rung under similar conditions. This is because aluminum is nine times as rigid as wood (white oak).

Those Greener Fields

A great many city people are of the opinion that farmers and ranchers who raise beef are making huge sums of money. But those who have a first-hand knowledge of the meat-producing business take a somewhat different view.

A recent issue of the Saturday Evening Post carried, on its editorial page, a brief article by Bill Best, Jr., who is a comparative newcomer to the southwestern cattle industry. In the course of it he said: "To buy and stock a decent ranch which will support 100 cows, costs about \$55,000.00. And it's a bargain at that price. If you, as a buyer, were fortunate enough to be able to get bred cows at that price, you will have a calf crop ready for sale in from six to eight months after all the calves are born, or probably a year or more after you bought your ranch. If you are lucky you'll get a 90 percent crop, or 90 calves. For their sale as weaners at the very good weight—for the southwest—of 400 pounds, at 35c per pound, also a very good price, you will receive a gross return of something better than \$13,000.00. From that you must deduct Uncle Sam's onerous take and all your operating expenses for a year or more. Unless you are one of the rare individuals who paid cash in the first place, you'll have interest and principal payments to meet. In short, you aren't going to end up with enough money to buy sleek limousines, mink coats or invest in oil wells.

"It's easy for the uninformed

housewife to blame ranchers for the money she must spend on beef, but I'll bet anything she would defend the rancher if she knew the facts in the case, just as she would defend her husband's (1951) wages—which also have a bearing in why prices are high."

The truth is that the profits made in the meat industry, all the way from producer to packer to retailer, have been greatly exaggerated in the public mind. As with everything else, it's a case where the other fellow's fields look much greener than they actually are.

Writes In National Magazine

Mrs. Emeline Ingle of Kendrick is the winner of a \$5.00 prize in the "It's the American Way!" contest in Family Circle, a national magazine. Her prize-winning entry appears in the edition of the magazine now on sale in Idaho.

Mrs. Ingle wrote about the sweatshop worker, Lena Himmelstein, who became head of a clothing firm doing \$50,000,000 a year business.

Proved Progress through Private Enterprise!

The Washington Water Power Company's Big New CABINET GORGE Dam and Generating Plant on the Clark Fork River in Idaho Will Add 200,000 Reddy Kilowatts to the Northwest Power Pool Later This Year... to Provide

... for Inland Empire Agriculture, Homes, Industry, National Defense

Work is being rushed on the Cabinet Gorge Project—the largest hydroelectric project in Idaho. This means more low-cost Reddy Kilowatt electricity soon, for better living, better farming, expanded industry... Total cost of construction and equipment will be more than \$40,000,000—all supplied the American way, from the savings of private investors. Not one cent of the cost will be borne by taxpayers—and many thousands of dollars will be added to the tax funds of local, state, and federal governments, to help pay for schools, roads, and the defense of America!

BIG BEAR RIDGE NEWS

Mrs. Chas. Bower and son Charles visited Mrs. Will Bower, ill with pneumonia, at the Gritman hospital in Moscow, Saturday.

Mr. and Mrs. Cecil Chamberlain were Sunday guests in the Ed. Galloway home.

Clarence Morey spent Sunday with his sister, Mrs. Danny Kechter and family, on Cedar ridge.

Mrs. Grant Clemenhagen and Mrs. Gerald Ingle attended a Home Demonstration meeting in Moscow on Monday.

Mrs. Adolph Forest entertained the Ladies Guild at her home Wednesday afternoon.

The Melvin Halseth family of Deary spent Sunday at the Ed. Halseth home.

Mr. and Mrs. Oscar Slind, Maxine and Leland, were Lewiston shoppers Saturday.

Mrs. James Nelson's brother, Victor Anderson, is seriously ill at his Clarkston home.

Mr. and Mrs. Claude Jones and Roger were Saturday visitors at the home of Dr. and Mrs. W. A. Meyer in Lewiston.

Mrs. Herbert Weber entertained the Home Demonstration Club at her home Tuesday afternoon.

Mr. and Mrs. Lynn Hadden and daughters of Lewiston were Sunday visitors at the Ronald Jones home.

Mr. and Mrs. Harold Peterson, Kathy, Donnie and Larry of Troy were visitors at the Forest home Sunday afternoon.

Ed. Halseth spent the week-end at the home of his daughter, Mrs. Boyd Leland and family, in Clarkston.

Matterhorn Hard to Climb, Though Cat Has Climbed It

A cat raises a question: Is Europe's mighty Matterhorn, majestically aloof among lofty Alpine massifs on the Swiss-Italian border, so mighty after all?

Hundreds of men have scaled it, the National Geographic Society notes. They include a blind man, and a cardinal who later became pope (Pius X). Scores of women, too, have won its summit. All got there the hard way. But now comes the report in the closing days of the 1950 climbing season, that a stray or truant cat, without benefit of ropes, pickaxe, or human aid, skittered to the top in the van of a party of veteran climbers. Has the Matterhorn lost stature?

The bleak rock pyramid, famous as it is, is a mere 285 feet higher than California's 14,495-foot Mt. Whitney. Most any seventh grader knows that Whitney, tallest in our 48 states, isn't really very high — not half as high as Asia's Mt. Everest, for example.

But there is the other side of the argument, notes the society, and it is the winning side. The Matterhorn is and ever will be mighty, measured by man's ability to climb.

The peak's human conquerors invariably have been seasoned alpinists who have conditioned themselves for months or years on strenuous climbs. Almost as invariably, they have engaged one of the expert licensed guides who live in Zermatt or Breuil near the Matterhorn's base and who take several parties on the hazardous two-day ascent in the course of the short climbing season from mid-July to late August.

They Want Out Now
 Nebraska farmers who were hell-bent to get into the power business some years ago have had enough. At least some of them have.

Three big irrigation districts which acquired power plants that were tied into \$71 million worth of irrigation work want to sell two hydro power plants back to the bureau of reclamation. They have voted overwhelmingly to accept approximately \$6,500,000 for the plants, taking credit on what they still owe the government.

One reason these Nebraska farmers want to get out from under is the joint liability clause in their contracts with the bureau. It makes all members responsible, as long as they owe money to Uncle Sam.

The other reason is that the rates charged by these districts on power generated at the Guernsey and Lingule plants on the North Platte river have been "all the traffic will bear." They have been among the highest rates in the entire west.

If their proffered deal is approved by the congress, the bureau of reclamation will enlarge and modernize both plants and tie them into the Colorado-Wyoming grid. Farmers will also become entitled to the Missouri basin wholesale rate which is some 40 percent lower than rates they have been charging themselves. They estimate their possible savings during the remainder of the life of their government contracts at \$2 million.

Nebraska, which went public power crazy, taking over all the privately owned facilities in one of the famous Guy Myers deals, is learning that there is no magic in the public power business.

It doesn't always spell low rates as some Nebraska irrigation districts and some Washington PUDs have learned to their sorrow. — Portland (Oregon) Journal.

Big Drive Still Paying Off
 The University of Idaho's November blood drive, which set a new collegiate record, was continuing to pay off today in plasma for troops in Korea.

After the university collected 1,014 pints in three days, with 38.8 percent of the student body giving blood, a challenge to beat the record was sent out by James Dunham, Hagerman, drive chairman, to 120 universities and colleges. To date 30 schools have accepted the challenge. Among those in the west are:

University of Oregon, Washington State college, Utah State Agricultural college, University of British Columbia, Fresno State college, and University of Texas.

A recent issue of Life magazine featured the all-out efforts of the University of Texas to beat Idaho's record. In typical Texan style, the students staged pep rallies, parades, songs and dances to stir up interest in the drive. Life points out:

"After a week of this kind of razzle-dazzle they had collected promises for a grand total of 2,810 pints — not as good percentage-wise as Idaho, but enough blood to cheer the Red Cross and let loyal boosters maintain that Texas had won again."

The new intercollegiate competition for red-blooded young men and women was started at the University of Idaho, when Duane Lloyd, Pocatello, conceived the idea for the first all-campus blood drive.

Work Train Leaves
 The Northern Pacific work train with its crew of "gandy dancers" who have been stationed here for the past six weeks, left Monday.

They have been engaged in balancing curves on the track between Kendrick and Troy, cleaning cuts, and otherwise improving the railway tracks.

TO FAMILIES WE HAVE NEVER SERVED
 Those who have never had occasion to engage the services of a funeral director must rely upon what others say, when the inevitable need arises. For almost fifty years Vassar-Rawls have been noted for professional skill, fair dealing, liberal policies. This reputation is your safe guide in calling a funeral home.

VASSAR-RAWLS FUNERAL HOME
 Telephone 533 Lewiston, Ida.

LINDEN ITEMS

Mr. and Mrs. Robert Chilberg, Mr. and Mrs. Lou Alexander, Mrs. Frank Lyons, Mr. and Mrs. Ray Cuddy, Elmer Cuddy and Mrs. James Holt attended the funeral services for L. J. Southwick on Wednesday, at Lewiston.

The W. M. A., scheduled to meet with Mrs. Arlie Allen on Thursday, was postponed due to drifted snow in the east and west lanes.

The Gold Hill school bus did not run two days of last week, being forced to wait until the roads were cleared by snowplows.

Art. Foster was a visitor in the Gil Elerwine home on Thursday.

Mr. and Mrs. Phil Bahr called on Mr. and Mrs. Bill Zimmerman Friday evening.

Mr. and Mrs. Frank Lyons enjoyed dinner Saturday with Mr. and Mrs. George Lyons and son Charles.

Mrs. Bill Zimmerman and Mrs. Al Pederson called on Mrs. Charlie Keeler Saturday afternoon.

Mrs. Lou Alexander returned Saturday from Lewiston, where she had spent several days with her mother, Mrs. Sylvia Jenks, who is recovering from a siege of flu.

Each day since the temperature moderated we watch our snow lines settle — each morning we awaken to a new inch or two of the fluffy white stuff. It seems we may yet have to take to snowshoes or skis — and a ladder, to get off the mountain.

It's Blewett's Grocery-Market for frozen Bird's Eye Foods! 1-adv

NOTICE OF TIME AND PLACE OF HEARING ON PETITION FOR ADMISSION OF WILL TO PROBATE.

In The Probate Court of Latah County, State Of Idaho

In The Matter Of The Estate Of Frank A. Wilken, Deceased

NOTICE IS HEREBY GIVEN that there has been filed in the above entitled Court an instrument which is alleged to be the Last Will and Testament of Frank A. Wilken, deceased, and that Roy Glenn has petitioned the above entitled Court for an order admitting said instrument to probate as the Last Will and Testament of the said decedent and further praying that letters testamentary be issued to Roy Glenn, who is named in said Will as executor and that the Court has fixed Friday, the 1st day of February, 1952, at 10 o'clock A. M. or said day, in the Courtroom of the above entitled Court in the Court House at Moscow, Latah County, State of Idaho, as the time and place for the hearing to be had upon said petition, and at which time and place any person interested in said estate may appear and show cause why said instrument should not be admitted to probate as the Last Will and Testament of the said decedent, or why letters testamentary should not be issued to the said Roy Glenn, as prayed for in said petition.

WITNESS MY HAND and the seal of said Court on this 14th day of January, 1952.

L. G. PETERSON
 Probate Judge and Ex-Officio Clerk, Latah County, Idaho.

Potlatch Chief Sez

Published by the Kendrick Creamery

HELLO, THERE, FOLKS —

Yes, despite the fact that we have had a "warm" day or two this past week, winter is still very very much with us, and probably will be for the next six weeks — so don't let down on the care of your winter crops — cream and eggs. Continue to see that "old bossy" has her allotment of hay and grain, plus plenty of good water to drink, for it takes all three to produce in quantity.

And your chickens? Yes, eggs are a good price, and a little care of those hens will pay you real dividends.

Bring your eggs and cream to us. There is no waiting for your money!

The personnel manager was interviewing a man for a job. "How long did you work in the other place?" he inquired. "Fifty-five years."

"I'm 40 years old."
"How could you work 55 years when you are only 40 years old?"
Came the reply: "Overtime!"

Do you like hotcakes these cold winter mornings? Of course you do! Everyone does! But if you're not enjoying them to the limit it may be because you're not adding the sweet flavor of "Potlatch Chief" brand Butter. It makes good food better, always! And gives just the right zip and zest to hotcakes or hot biscuits at breakfast.

Sympathetic Person: "Hello, little boy, what's the matter, are you lost?"

Little Boy: "Yes, I am. I mighta known better'n to come out with gramma. She's always losin' sumpin'."

And don't forget — we want to buy your cream!

CAVENDISH NEWETTES

Jan. 9 — Mr. and Mrs. James Reece and daughters were in Lewiston and business, Tuesday.

Mrs. Thelma Blake and son Howard Pitcher of Orofino visited at the C. M. Blackburn home Tuesday night.

Mrs. E. E. McGuire and James are visiting with Mrs. Georgia Reece and helping care for meat, as they butchered Monday.

James Mattoon entertained the school at a coasting party Tuesday evening. They also played games and were served refreshments by Mrs. Mattoon.

James Mattoon has been called for induction into the army, and expects to leave about the middle of January.

The people of this community were very sorry to hear of the death of L. J. Southwick. Due to weather and road conditions it was impossible for very many to attend the funeral.

Mrs. Everett Blackburn visited with Mrs. Wayne Pipping Per of Orofino, Monday.

Andrew Marvin, who is still receiving treatment at Spokane, after undergoing major surgery one month ago, is reported to be improving and says he is very anxious to get home again.

Jan. 14 — Mr. and Mrs. E. Edelman of Orofino were visitors at the E. E. McGuire home Sunday.

Mrs. Leo Koch and daughter went to Moscow Sunday evening to spend the week with her sister. They will return Friday with Mr. and Mrs. Leo Choate.

Mr. and Mrs. Ocie Vannoy and children and Mr. and Mrs. James Reece were Sunday evening visitors in the Don Morgan home on Cream ridge.

Several of the people in this community have been ill the past week with colds.

W. A. Reece was a Lewiston visitor on Monday.

The Cavendish Ladies Club will meet for an all-day meeting at the church on Thursday. Plans are being made to do some remodeling in the kitchen of the church basement.

Fred Cole, in charge of the "Polio Drive" announces that there will be a pot-luck supper, followed by moving pictures and pinocle, for those

who wish to participate, in the Teakcan Grange hall on Friday night, Jan. 18, at 7:00 p. m. No admission charge will be made, but a collection box will be set up for any contributions for that fund.

GOLDEN RULE

Jan. 8 — Mr. and Mrs. Harry Cowger and children of Harpster, came down Thursday to spend several days visiting Mr. and Mrs. Ralph Stage and other friends, and brother, Ernest Cowger and family.

Mr. and Mrs. Bill Koepf visited at the D. V. Kuykendall home Wednesday. They report her son, "Chick" Greenhalgh, is now stationed in Korea.

Chester Martin and son Gary of Lewiston spent Saturday at the Roy Martin home.

Mrs. Glen Betts enjoyed a visit with Mrs. Frank LeBaron, Friday, at Cavendish.

George Finke spent Friday with Joe Owens, assisting him with some work on his tractor.

Kenneth Pearson and a friend from Coeur d'Alene spent Wednesday night at the Roy Martin home.

Mr. and Mrs. Abner Cowger and children visited at the Ernest Cowger home Sunday, and called on the Betts family on their way home.

Mr. and Mrs. Russell Perkins and daughter, Mary Jane Martin and Bill Elben spent Sunday at the Roy Martin home.

Mrs. Glen Betts and Eugene visited at the D. V. Kuykendall home Sunday afternoon.

Jan. 15 — Russell Perkins and son-in-law, Leland Marvin, and Roy Martin have been bucking the snow to make wood most every day the past week.

Mr. and Mrs. Glen Betts and son Eugene and Arlie Armitage went to Orofino Friday evening. Mrs. Betts visited Mrs. Bessie Cowger while the boys attended the Kendrick-Orofino basketball game.

Ishmael Martin of Lewiston spent Saturday at the Roy Martin home.

Mr. and Mrs. Jack Kuykendall of Kendrick were recent visitors in the home of his brother, Mr. and Mrs. D. V. Kuykendall and family.

Joe Owens was an Orofino visitor Friday.

Mr. and Mrs. D. V. Kuykendall and sons and George Finke ate dinner with the Betts family Sunday. George Finke then spent the afternoon with Joe Owens.

Loy Martin was an Orofino visitor Monday.

Mr. and Mrs. Oscar Lawrence and daughters were Lewiston visitors on Saturday.

Mr. and Mrs. Oscar Lawrence visited Mr. and Mrs. Ernest Cowger Monday afternoon.

Mr. and Mrs. D. V. Kuykendall were Lewiston visitors Monday.

SOUTHWICK NEWS

Mrs. Wm. Winters and son David returned to their home at Corning, Calif., after spending ten days here to be with her father, the late L. J. Southwick during his final illness.

Mr. and Mrs. Given Mustoe spent Friday evening with Mr. and Mrs. Harl Whittinger.

Mr. and Mrs. Wade Candler of Teakcan spent Sunday with Mr. and Mrs. Aaron Wells.

Mr. and Mrs. Wilbur Colwell of
