

### Fertilizing Important In Balanced Farm Plan Lime, Fertilizer Pays Off in High Hay Yield

Farmers in every part of the nation are realizing more and more the importance of well-balanced fertilizing programs to build, production and soil structure.

Ben Vossen, who farms near Watkins, Minn., believes his investments in lime and fertilizer have done more for his farm than anything in his career.

The results of one of his investments are shown in the above picture. At the right is a run-down field of bluegrass overgrown with buck grass. At the left is a field of oats after the buck grass was sprayed to kill it, grubbed and plowed under.

Farmer Vossen inspects his field of oats. At the right is the field of bluegrass overgrown with buck grass. Fertilizing has turned the oat field into a high producer.

Vossen limed and fertilized the oat field with plant food carrying nitrogen, phosphate and potash before he seeded it. He keeps the field in oats two years, then seeds down to an alfalfa crop. He takes hay and pasture off as long as the stand is productive. He helps lengthen its life by top-dressing regularly with manure.

The use of lime and fertilizer pays off in much bigger hay yields. Vossen reports. He harvested eight tons of hay on two acres that used to produce about one-half ton of timothy.

### Total Feed Supply Will Be Higher Than Last Year

With the approach of the 1951-52 feeding season, livestock feeders will be interested to know that the expected total supply of feed grains and concentrates will be greater than last year, according to the bureau of agricultural economics.

The available supply of feed will permit livestock to be fed at about the same rate per unit as last season. The number of animals to be fed, however, is also expected to be greater. An estimated 174 million animals will be on hand as compared with last year's 168-million.

A large acreage and a fair carry-over is expected to provide a larger corn supply. About 4 billion bushels is expected to be available for the 1951-52 season.

The total supply of corn, oats, grain sorghums, and barley for the coming season is estimated to be 127.1 million tons. This compares with last season's total of 125 million tons of grain.

The department reported total crop production may be the second highest in history in 1951.

### Tractor Drawbar

A heavy piece of angle iron bolted to the rear of a tractor and extending well beyond the wheels makes harrowing easier fastening the harrow with a long chain hitch, especially when making turns at ends of the field. Bolted to the drawbar it can be removed when not in use.

### Iowa Tests Show Value Of Alfalfa for Swine

Everyone knows that alfalfa pasture is good for hogs. But just how good? The Iowa experiment station thought that one way to find out would be to feed one batch of hogs on dry lot; and another on alfalfa.

They found that the biggest value in alfalfa comes from a saving in high-cost protein and mineral supplement. Hogs gained faster on alfalfa.

### GRAIN MARKETS STRONGER WITH PRICES UP SLIGHTLY

Grain markets strengthened during the past week, according to reports to the Market News Service of the Department of Agriculture. The wheat markets advanced about 2c per bushel, influenced by a more active export demand. Corn and oats markets gained slightly as marketings slowed and demand for feed was more active due to the storm conditions and low temperatures in some areas. Barley was mostly unchanged.

Supplies of wheat for export or carry-over in the United States, Canada and Australia on January 1, totaled about 1,040 million bushels. This was about 180 million bushels less than a year earlier, but little changed from supplies of two years ago. The supply available for export or carry-over in Australia and Argentina on January 1 was less than half of the 245 million bushels available a year earlier. Virtually all the exportable supplies were in Australia, due to the particularly poor crop in Argentina. Canada's near-record crop this year, plus a large carry-over increased the supplies about 175 million bushels above a year earlier.

Marketings of wheat in domestic markets during the week decreased about 300,000 bushels and arrivals at the principal markets totaled approximately 6 million bushels. Sales under the International Wheat Agreement for the week totaled 12,660,000 bushels supplied under the quota. The export subsidy on January 25 was 68c to European ports, 65c to the far east, 63 cents to the West Indies and Latin America; 70 cents from the east coast to all destinations, and 64 cents from the west coast.

Wheat markets strengthened during the week, influenced by a more active demand and the fact that the price of wheat was only slightly over the price support rate at several markets.

Pacific Northwest wheat markets developed a slightly easier tone during the past week following the upward trend in recent weeks. A slackening in export demand and somewhat increased offerings at the higher levels were the principal factors. On the other hand, favorable prospects for continued active export

trade and improvement in current flour business remained a steady influence. Prices at Portland were unchanged to 1c per bushel lower than last week with the decline mostly confined to export types.

Receipts of wheat increased very materially at principal Pacific Northwest terminals during the week and arrivals totaled 1,361 cars against 976 a week ago and 824 a year ago. While demand for export wheat slackened somewhat despite recent heavy bookings to Japan and India, and additional sales of this week of around 6 cargoes of white wheat to the latter and 5 cargoes to Japan. Euying by mills was improved as domestic and export flour bookings increased. Prices on export classes were 1c to 2c lower for the week while high protein milling grades were 1c under last week. At the close of the market No. 1 soft white and white, club wheats were quoted at \$2.50 per bushel; No. 1 hard winter, ordinary, at \$2.52 and No. 1 hard red winter and hard white at \$2.53 per bushel, all track basis, Portland.

Pacific Northwest Oats markets turned firmer following the declines of the previous week and continued light offerings of local grain. Demand was good locally and from the California buyers. No. 2 white eastern oats, 38-lb. test were offered at

around \$79.00 per ton, delivered coast, while local grain of the same grade brought a premium of up to \$1.50 per ton. Receipts totaled 21 cars against 13 cars last week.

Pacific Northwest barley markets were steady to firm, influenced by light offerings and continued active demand. Exporters were seeking supplies to cover recent export bookings and the domestic feed trade furnished a good buying interest. No. 2 western barley, 45-lb. test was being quoted at \$74.50 per ton delivered at Portland. Malting barley trading remained quiet and prices nominally steady.

### A Lesson In Selling

I was taking my boss's young son on a trip through rural Louisiana, selling washing machines. After we finished a demonstration for a farmer and his wife they withdrew for consultation. We felt sure the sale was made, but when they came back we spent a fruitless hour trying to close it. Glumly we put the machine back on the truck, and I had started the engine when the farmer said: "Fellows, if I could sell one or two of them things, would you give me anything?"

"Sure," the dealer's son snapped. "We'll give you \$20 for every one you sell, provided we only have to deliver."

### CENTERPOISE POWER

Vibration and power impulses are "screened out" as engine is centered and rubber-cushioned between new high-side mountings.

### BODY BY FISHER

Fisher Body sets the standard—for styling, for craftsmanship, for comfort! Fisher Uni-steel construction is extra strong.

### LARGEST BRAKES

Big 11-inch brake drums apply more leverage for more stopping power. Stops are smoother, safer, with less effort.

### UNITIZED KNEE-ACTION RIDE

Chevrolet's famous Knee-Action ride is now even softer, smoother. New shock absorbers give even finer ride control.

### WIDEST COLOR CHOICE

26 rich new colors and two-tone combinations... widest choice in Chevrolet's field. New De Luxe interiors are color-matched.

### WIDEST TREAD

Chevrolet measures 58 3/4 inches between centers of rear wheels—a broader base to give you more stability, less sway!

### Lowest priced in its field!

This beautiful new Styleline De Luxe 2-Door Sedan—like many Chevrolet models—lists for less than any comparable model in its field. Continuation of standard equipment and trim illustrated is dependent on availability of material.

### 4-WAY ENGINE LUBRICATION

Chevrolet's exclusive engine lubricating system supplies exactly the right kind and amount of lubrication to each moving part.

### CAST IRON ALLOY PISTONS

The same material as the cylinder block, pistons expand and contract at same rate. This reduces wear, lowers oil consumption.

### SAFETY PLATE GLASS ALL AROUND

Chevrolet alone in its field gives you safety plate glass in windshield and all windows, for a clearer, truer all-round view.

### POWERGLIDE AUTOMATIC TRANSMISSION

Simpler with fewer parts to wear. Smoother—no complicated intermediate gears. Optional on De Luxe models at extra cost.

### MOST POWERFUL VALVE-IN-HEAD ENGINE

Teamed with Powerglide is the most powerful valve-in-head engine in its field and an outstanding performer in any field!

The Only Fine Cars PRICED SO LOW!

## PIONEERS of PROGRESS for YOU

As employees of the Washington Water Power Company for 30 or more years, these 87 men and women have spent the greater part of their lives in your service.

They have continuously blazed trails of progress in the Inland Empire, to bring you and your neighbors a richer life through better living, electrically, at low cost. . . . From the days of horse-drawn wagons, when poles were placed by sheer muscle-power, down through the years, they have never ceased pioneering in your behalf.

AND, TODAY, with more than a thousand young comrades at the Water Power, they are still blazing new trails to a bright future for you and your children. This year they will complete construction of the great new dam and generating plant at Cabinet Gorge, to bring to Inland Empire homes, farms, industry, and to national defense, more than 200,000 additional low-cost "Reddy" kilowatts!

Reddy Kilowatt salutes these men and women, and their 180 active fellow members\* of Washington Water Power's honored pioneer club, the TRAILBLAZERS, on this, the

# Potlatch Chief Sez

Published by the Kendrick Creamery

**HELLO, THERE, FOLKS —**  
Yes, we know, it isn't spring yet, and old bossy isn't producing to the limit — but that isn't the part we want to talk about now. We know it isn't spring, so many folks are suffering with colds and the flu — and it's the time of year when resistance to colds is at the lowest ebb. But you can protect yourself considerably by proper diet, and proper diet for an adult requires at least a pint of milk daily, and for the child a quart daily. But be sure you are drinking "Potlatch Chief" brand milk, it's pure, it's safe, it's pasteurized!

he'll smile all the wider if that toast is loaded with melted "Potlatch Chief" brand Butter. You just can't beat it for sweet flavor and all-around goodness. And to be sure it's made from pasteurized cream. Oh, yes, while we're on the subject, be sure there is "Potlatch Chief" cream on the table for his coffee.

A lodge member approached Dick. "We're having a raffle for a poor widow," he said, "will you buy a ticket?"

"Nope," Dick replied. "My wife wouldn't let me keep her if I won!"

Need a locker box? If you do, come in. We have one that will suit your needs and your pocket-book.

He: "You seem to look shorter in that bathing suit."  
She: "No, it's just that you men look longer."

Fruit juice, eggs, toast bacon and coffee — ah, there's a breakfast to make any man smile, but

And don't forget — we want to buy your cream!

### CAVENDISH ITEMETTES

March 10 — Mrs. Edward Knight of Orofino gave us a sermon Sunday night, her husband being away on business. She was accompanied from Orofino by Mr. and Mrs. Allison and daughter and Mrs. Pressnall.

Mrs. Emma Tarry, who had spent the winter in Lewiston, has returned to her home here. We all wish her better health in the future and hope she will be able to remain at her home.

Mr. and Mrs. Richard Daniels and Howard Pitcher of Orofino visited at the home of Mr. and Mrs. C. M. Blackburn Saturday night and Sunday.

Lawrence Olson of Orofino was a caller at the home of Mr. and Mrs. Arthur Sackett, Sunday.

Mr. and Mrs. T. C. King, Mrs. Dorothy King and Sarah Ann, and Mrs. E. E. McGuire visited at the home of Mrs. Georgia Reece, Friday.

Mr. and Mrs. Leonard Cole of Cheney, Wash., spent the week-end here with relatives.

Mrs. Georgia Reece and Mr. and Mrs. Ernie Reece were Sunday guests of Mr. and Mrs. E. E. McGuire.

Mr. and Mrs. Bill Clay and Mrs. Don Clay of Orofino visited at the home of Mr. and Mrs. Frank Le Baron, Sunday.

Several people of this community have been on the sick list with colds and flu the past two weeks. Maybe spring, when it finally comes, will bring us all better health.

Bird's Eye Fresh Frozen Foods of many varieties are obtainable at Blewett's Grocery-Market in Kendrick — and they're good. 1-adv.

### WHAT CAMERON FOLKS ARE DOING THESE DAYS

The Ladies Aid are sponsoring a program to be given at the Ladies Aid hall on Sunday evening, March 16, at 7:00 p. m. Refreshments will be served. Everyone is invited to attend.

Mr. and Mrs. Herman Meyer, Mrs. Marvin Silflow and Mrs. George Wilken, the latter of Kendrick, drove to Genesee Wednesday evening to hear the Pacific Lutheran College choir.

M/Sgt. Edward Albright, Pfc. and Mrs. Robert Albright, Mr. and Mrs. Clay Albright and Mrs. A. H. Blum, all of Lewiston, and Mr. and Mrs. Albert Glenn and son Eldon were Monday evening dinner guests of Mr. and Mrs. Wilbert Bruntsiek.

Mr. and Mrs. Glen Wegner and daughter Jillan spent from Monday until Thursday with relatives in Spokane.

Mrs. Wilbert Bruntsiek and Mrs. Albert Glenn were hostesses at the March business meeting and work day of the Ladies Aid, Wednesday.

Mr. and Mrs. Ted Weyen were visitors in Lewiston and Clarkston last Saturday.

Mr. and Mrs. Gus Kruger spent Tuesday evening with Mr. and Mrs. Kenneth Wilken.

Mr. and Mrs. Wilbert Bruntsiek, Mr. and Mrs. Albert Glenn and son Eldon, and Mr. and Mrs. Fred Silflow and daughter Ida of Kendrick were Sunday dinner guests of Mr. and Mrs. Gus Kruger.

Elsie Kruger of Lewiston spent Saturday and Sunday with her par-
