KENDRICK, LATAH COUNTY, IDAHO, THURSDAY, MAY 8, 1952

NO. 19

**PERSONALS AND NEWS BITS ABOUT KENDRICK FRIENDS**

Mrs. Bertha Beard, Yakima, who has been here the past two weeks visiting in the home of her sister, Mrs. Eva Ferryman, left Tuesday for her home. Mrs. Beard was called here by the illness and passing of her mother, Mrs. Sarah Dumbauld of Juliaetta.

Mr. and Mrs. James Candler of Wallace, Idaho, spent the week-end here in the home of his parents, Mr. and Mrs. F. G. Candler, and with other relatives and friends.

Mr. and Mrs. Robert Magnuson and family finished moving their household effects to Worley, Idaho, Sunday, where they will make their home. They expect to spend the summer on the cattle range near that town, but Worley will be their headquarters.

Mr. and Mrs. Roy Akins of Walla Walla visited a couple of days last week in the home of her son, Loyd Farrington and family on Cedar. They also visited with Mr. and Mrs. John Darby and other old friends while here.

Word has been received from Verna Easterbrook that she is now comfortably settled at Richland, Wash., and likes her work.

Mr. and Mrs. E. M. White have received word from their son, A/2c Robert L. White, that he has been assigned to the air base at Elgin, Florida.

A/3c R. V. (Dick) White writes his parents, Mr. and Mrs. E. M. White, that he has been transferred to the 140th Fighter-Bomber Wing at C. A. F. B. Clovis, New Mexico.

Mr. and Mrs. Harry Smith have received word from their son Clinton R. Smith SM, that his ship, the U. S. S. Whitstone, is due for a dry-docking in June or early July, and he hopes to be able to get a leave to spend some time at home.

Mr. and Mrs. C. G. Arnett have received word from their son Pfc. Fred Arnett, that he is now stationed with an AAA gun battalion in Germany.

Mr. and Mrs. N. H. Stedman, formerly of Cosmopolis, Wash., arrived here Thursday to make their home, having purchased the Emmett apartment some weeks ago. They are staying at the home of his son, Mr. and Mrs. F. O. Stedman for the time being, as Mrs. N. H. Stedman is recuperating from major surgery, and also to await completion of the electric elevator to the upstairs apartment, where they will reside.

Mr. and Mrs. Teddy Deobald and daughter Becky of Richland, Wash., spent the week-end here in the home of their parents, Mr. and Mrs. E. A. Deobald and Mr. and Mrs. E. M. White.

Mr. and Mrs. Harold Goff and children of St. Maries, Idaho, and Gordon Cook of the U. of I., Moscow, were week-end guests in the home of their parents, Mr. and Mrs. Ben F. Cook.

Oliver Brusteth of Richland, Wash., Mr. and Mrs. Maurice Long and Mrs. Halvor Lien of Moscow, and Mr. and Mrs. E. Brusteth of Clarkston attended the Anton Lien funeral on Big Bear ridge Wednesday afternoon.

Mr. and Mrs. Tom Long attended the horse sale in Lewiston Sunday, spending the evening at the E. Brusteth home in Clarkston.

Mr. and Mrs. Cecil Babcock spent last week in Moscow taking medical treatments. There Mr. Babcock's leg was lanced, and it is slowly improving. Mrs. Babcock is suffering with bronchial asthma, but is slightly improved. If anyone has any discarded books it would be appreciated if Mrs. Babcock might have them, as reading is about all she can do at this time.

Mr. and Mrs. Jud Lee and son Ralph, drove to Twin Falls over the week-end where they visited his sister. They returned home Tuesday night.

Mr. and Mrs. Frank Cantril and Mr. and Mrs. Wilbur Colwell were Lewiston visitors Tuesday.

Mr. and Mrs. Walter McCall and son Pat of Lewiston were Sunday evening visitors in the home of his parents, Mr. and Mrs. Walter McCall.

**Scouts Plant Pine Trees**  
On Saturday, April 26, the local Boy Scout troop under the leadership of Henry Jones planted 1,000 Ponderosa Pine trees on state land in the Cedar creek area. The trees were furnished by the Forestry department.

Local Scouts have also been working at brush piling for the state forestry department. The money received for this labor goes into the troop funds to be used for camping trips and other activities.

They will pile brush again this coming Saturday (May 10) and all Scout "dads" are requested to come out and help the Scouts on this project.

**To Present Musical**  
The music department of the Kendrick school will present a spring music program in the High School gymnasium Friday, May 9th, at 8:00 o'clock. There will be a charge of 50c for adults and 25c for grade school children. Everyone in the community is extended a cordial invitation to attend and hear what the school is doing for the musical development of our children.

The program will include selections by the Band; the Junior Girls' Chorus; the Senior Girls' Chorus, and the Girls' Small Ensemble. Some of the highlights will be a trumpet solo by Roger Jones, a Sousaphone solo by Keith Baker, and some fancy baton twirling by two of our major-ettes.

The program will be as follows:  
The Star Spangled Banner, Black Jack March, and Two Moods Overture by the Band.  
Welcome Sweet Springtime, and Neopolitan Nights by the Jr. Girls' Chorus.  
Deep River Rhapsody, After the Ball and Matinatta (Cornet Solo) by the Band.  
Jesus Priceless Treasure and Softly As In Morning Sunrise by the Sr. Girls' Chorus.  
Holiday for Strings and Little Boy Blue by the Girls' Small Ensemble.  
Forty Fathoms (sousaphone solo) and Circus Parade, by the Band.

Let's make this a big success and all plan to attend. Set aside Friday evening as a time to enjoy yourself in a musical mode.

**Enjoy Roller Skating**  
Members of the band enjoyed a roller skating party Tuesday evening at the big roller rink in Lewiston.

**School Play Tuesday Eve**  
The all-school play, "Pecks Bad Boy" will be presented at the gymnasium next Tuesday evening, May 13th, at 8:00 o'clock.

**Election Time Is Here**  
Next Saturday, May 10, beginning at 1:00 p. m., at the Kendrick school house, the citizens of our district will be called upon to express themselves once more at a levy election to determine whether they are interested in continuing to maintain a standard elementary and an accredited High School in our district. In the past the vote has been overwhelmingly favorable "when the chips were down."

We well realize that the tax statements rose considerably for school purposes the past year. That is largely because our Governor and Legislature are shifting the greater financial burden of education from the state back to the local level. This action hurts districts such as ours, since our assessed valuation is low and practically all the local finance is raised through the property tax. At the present time, after district and county taxes are removed the state actually raises only about 20 percent of the school finances.

On another page of this issue will be found the official notice.

Remember: A "Yes" vote is required if this district is to continue its present high standards of education. Be sure you vote.

**Guests Of Lions Club**  
Tuesday, May 6, at noon, Mr. Nutting and Kathleen Crawford were luncheon guests of the Lions Club in Moscow. At this meeting six leading Seniors of the six high schools in the county received scholarships to the

**MRS. MATTIE (SELF) INGLE DIES AT ONTARIO, OREGON**

It was with deep sorrow and the sense of great loss that local residents learned of the sudden death on April 11, 1952, of Mrs. Mattie Ingle. Mrs. Ingle was the widow of the late D. J. Ingle, a prominent farmer and landowner of Big Bear ridge.

Mattie Self, first child of J. F. Self and Augusta Self was born May 28, 1870, in Hawkins County, Tennessee on the Coward place. In 1871 her parents moved to Greene county. She received her education in the public schools and at Girls' Oakland Seminary. In 1894 Mattie entered the teaching profession, which she pursued until she came to Idaho in 1903, teaching one year here.

On Feb. 26, 1904, she was united in marriage to David J. Ingle, a former resident of Tennessee. To this union was born one son, Dwight Joyce Ingle, whose home is now in Kalamazoo, Michigan.

Mrs. Ingle joined the Methodist church in her youth. Her body was returned to Greene County, Tenn., for burial. Mr. Ingle preceded her in death, passing away in October, 1934.

After recently visiting her son and his family at Kalamazoo, Mich., Mrs. Ingle went to Tennessee, and visited her relatives and many old friends. Her last visit to Tennessee was particularly enjoyable, she commenting many times about the pleasures she experienced in returning to the scenes of her childhood, and in meeting and talking with friends of years past. However, her heart was in Idaho, and she looked forward particularly to the time when the weather would be sufficiently mild to make it safe for her to begin the return trip to her home on Bear ridge.

During her journey home Mrs. Ingle stopped at Ontario, Oregon, to spend a few days with friends and relatives there. While at Ontario she suffered the stroke, which may have been caused in part from the fatigue of travel. Quietly and without pain, Mattie Ingle passed away in a hospital at Ontario about 2:00 p. m. on April 11. She may have had a premonition of the coming event, for prior to leaving Tennessee, she predicted that she would not make another trip east.

At the time of his mother's passing, Dr. Ingle was in Europe. He immediately cancelled his lecture tour and flew home to Kalamazoo, where he had to make the difficult decision as to where to inter his mother's remains. He was fully cognizant of his mother's love for her adopted state, and for the many fine and wonderful neighbors whose loyalty and friendship he valued so highly. Dr. Ingle also had sentimental attachments for the home where he grew to manhood, and where he performed the many tasks and experienced the many pleasures that go with life on a large farm. However, he felt it would be more appropriate to return his mother to the scenes of her childhood. Thus it was that she was laid to rest in the cemetery at Pilot Knob, Tennessee.

When the sad news of the passing of Mrs. Ingle reached her friends in this community, on Sunday, April 20, friends of Big Bear ridge and Deary communities held a memorial service in her memory, as she had frequently attended their churches. Also, a large number of citizens signed and dispatched to Tennessee a communication expressing their sorrow, and they contributed many beautiful floral offerings to show their love and respect for their deceased friend and neighbor.

On Sunday, April 20, services were held for Mrs. Ingle in the funeral home of Doughty Stevens in Greenville, Tenn. The services were conducted by Rev. Stanley Harrison, pastor of the M. E. church of Bulls Gap. They were attended by a large number of relatives and friends, including her son and his wife, and other members of her family. The remains were then taken to the cemetery at Pilot Knob, where many others were present to pay their last respects to a good woman. Amidst the large oaks, green with the foliage of spring, near the last resting place of other members of her family, and surrounded by banks of flowers from friends in Idaho, Tennessee and Michigan, Mattie Ingle was laid to rest.

Mrs. Ingle is survived by her son, Dr. Dwight Ingle of Kalamazoo, Mich.; her sister, Mrs. Anna Park of Pilot Knob, Tenn.; and the following brothers: Robert M. Self, Esq., Pilot Knob, Tenn.; Dr. J. C. Self, Bulls Gap, Tenn.; Dr. J. C. Self, Washington, D. C. She is also survived by three grandchildren and numerous nephews and nieces.

Although the remains of Mattie Ingle lie in a distant state, her memory lingers on among friends in Idaho, where she spent many useful and happy years.

**Final Rites For Mrs. Dumbauld**  
Final rites for Mrs. Sarah Dumbauld, pioneer Juliaetta resident, were held at the Methodist church in Juliaetta Thursday of last week, with the Rev. F. C. Schmidt, pastor, bringing the message.

The hymns "Abide With Me" and "In The Garden" were sung by Mrs. D. A. Christensen and Mrs. Jud Lee, accompanied by Mrs. H. C. Schupfer.

Pallbearers were Herman Schupfer, Otto Schupfer, Ed. Taylor, Herb Millard, E. O. McAllister and Mike Hedler, all long-time friends of Mrs. Dumbauld.

The well-filled church and profusion of floral offerings told plainly of the high esteem in which Mrs. Dumbauld was held.

**REASON FOR GROUND OBSERVER POSTS SET FORTH**

Marvin Vincent, who is engaged in the formation of a Ground Observer Post in the Leland area offers the following explanation of the reasons and objectives of these posts.

The reason for having the Ground Observer posts is because in hilly country radar will not pick up low-flying airplanes. Radar is something like television, and due to the contour of the earth, they can only pick up planes at certain distances, and cannot locate them accurately under 5,000 feet.

The posts will be scattered all over the United States. They are to form a nation-wide network of volunteer civilians who will man the posts. There will be about 19,400 posts and 49 filter stations in 36 states, and it will require about 500,000 people to take care of these posts.

It is the belief of some people that because they live out in the country in remote places, that they are not in any danger, and that the big towns are the ones that will be bombed. But that is where they are mistaken. Suppose there were 100 bombers flying over our country, and our fighter planes would intercept these planes over our section, and shoot down 30 or 40 of them. Each bomber would carry 12 to 15 men (more or less) and those bombers will probably unload all of their bombs and try to land or parachute out their crews. Nobody knows where those bombs might land or what the crewmen will do if they get on the ground. We would probably have to evacuate parts of this country in case this should happen.

We sincerely hope this will never happen, but we know that it can.

For the first time in the history of the world we know that long-range bombers can bomb our country and return to their own country, and the big nations know that they can not conquer any more country until they destroy us, so we will be the No. 1 target if they decide to start another war.

I was appointed Supervisor (not by choice) but feel it is my duty to do the best I can to organize a Ground Observer Post at the Gerald Schmidt ranch on Potlatch ridge.

We need a lot more volunteers than we have to man this post, and I don't think it should be the responsibility of just a few to do all the work when it is something that concerns us all.

There isn't much to learn, but what you do have to learn is very important.

Women can do this work as well as the men, and it can be so arranged that it will place no hardship on anyone, and you might help save thousands of lives in our cities, or possibly some of our big dams. It might be a lot more profitable and safer to spend a few hours at one of the posts, than to get up some morning and find about 100 foreign soldiers waiting to have breakfast with you.

Wilbur Tarbet has been appointed Chief Observer, and Billy Weyen and Gerald Schmidt, Assistant Observers. It will be their duty to arrange the hours for the observers and to run the post.

The Air Corps is going to make a test run the last of this month to test the efficiency of these posts. It will be very important that everyone in the family on the country telephone lines be instructed to give up the line if anyone wants to put through an Emergency Aircraft Flash on a defense call to the Filter Center. Calls from the Observation post will be on the "26" line.

Qualifications of an observer are:

1. Normal hearing (but hearing aids are permissible).
2. Normal eyesight (or corrected to normal when wearing glasses).
3. Ability to speak clearly and distinctly so that the Aircraft Flash message can be accurately received at the Filter Center.
4. Ability the exercise good judgment and make proper decisions.
5. Definite loyalty to the United States.

In line with the above Mr. Vincent has called another public meeting for Monday evening, May 12, at the Leland church basement at 7:30 o'clock. Everyone — men and women alike, from the Leland, Southwest, Cameron and Kendrick areas who are willing to help are requested to attend.

**Final Rites For Anton Lien**  
Funeral services for Anton (Tony) Lien, who passed away at the Veterans hospital at Phoenix, Ariz., on April 22, of bronchial pneumonia, were held Wednesday afternoon, April 30, at 2:00 o'clock at the Bethany Lutheran Church, Big Bear ridge, with the Rev. Harold Masted of Moscow bringing the message. Mrs. Harold Masted sang "Lead Kindly Light" and "Behold The Host Arrayed In White," accompanied at the organ by Mrs. Oscar Slind.

Pallbearers were Joe Forest, Ole Kleth, Ed. Halseth, Claude Jones, Homer Emmett and Oscar Slind, all life-long friends of the deceased. The numerous and beautiful floral offerings and well filled church were indicative of the high regard in which Mr. Lien was held.

Graveside services were military, as Mr. Lien was an ex-service man in World War II. They were conducted by Joe Forest of the local V. F. W. post, assisted by members of the Orofino V. F. W., the latter furnishing the firing squad and bugler.

Interment was in the Lutheran cemetery on Big Bear ridge, with Short's Chapel of Moscow in charge.

**Commercial Club Meeting**

The regular monthly meeting of the Kendrick Commercial Club will be held next Wednesday evening, May 14, with the 6:30 dinner to be served at the Kendrick Cafe. The business session will follow at the Firemen's hall at 7:30.

This is the last meeting before the annual Parade Day, and all members and friends are urged to be present for the business session at least, even if unable to attend the dinner.

Remember: It is not necessary to be a member. You are welcome to come to any of the club meetings. So mark this one on your calendar and be there!

tled in the former Frank Wilken ranch home near the mouth of Pine creek. Mr. Zimmermann will work with his father, Fred Zimmermann, in logging.

Mr. and Mrs. Ervin McGeachy and family moved to Kendrick from Juliaetta last week-end, and are now living in the Ed. Gertje house on the schoolhouse hill.

**Kendrick Grange Doings**

Saturday evening, May 3, 28 Kendrick Grangers drove to Lapwai to attend Grange and present the program. The remainder of the evening was spent square dancing, and a good time was reported by all.

Tuesday evening Grange met with 37 present. This being music week a group of old-time favorites were sung by all, after which musical "charades" were played.

Grangers are reminded that Sunday, May 18, is "Go To Church Sunday," and this Saturday, May 10, the Pámona Grange meets at Princeton.

**Picture Show Much Enjoyed**

The free picture show presented by the Standard Oil Co. of California under the sponsorship of the Kendrick Garage and the Kendrick Rochdale Co. at the local theater last Thursday evening was greatly enjoyed by a capacity house.

Three films were shown: "Beautiful Idaho," "Fishing In Alaska," and "San Francisco's Chinatown," all in technicolor and sound.

Following the film on Alaskan Fishing local piscatorial artists could be heard audibly adding up their bank accounts and wondering how much it would cost to take such a trip.

The film on Chinatown was all the more interesting when it was noted that it was filmed and edited by Harold A. Zell. It will be remembered that Mr. Zell operated the local theater here for a year in the early '30's, leasing it from Schupeter Bros.

Tired of meat? Get fresh salmon, halibut, oysters, etc., at Blewett's Cash Grocery, Kendrick. Shipments arrive every Thursday evening. 1-ad.

**SCHOOL NOTES**

University of Idaho. Other guests of the Lions Club included the other school superintendents of the county; also J. M. Lyle, Jr., secretary of the Alumni, and former superintendent of schools in Kendrick, who, incidentally, has been chosen as Commencement speaker for the K. H. S. class of 1952, on May 20.

Immediately following the luncheon Mr. Lyle took the candidates on a tour of the campus.

**Coming Events**

Don't forget our Kendrick Band concert this Friday, May 9; also the all-high school play next Tuesday, May 13, and the Central Valley Band concert next Friday, May 16, at 8:00 p. m.

Walter Thomas, formerly of this community, and now music instructor at Central Valley High School, Spokane, has one of the finest High School bands in the Northwest. Our High School band is sponsoring their appearance here, and are making arrangements with a number of homes in the community to provide sleeping quarters and breakfast for the following morning.

Returns from these three school events will be used toward the purchase of new curtains for the stage in the gymnasium.

**Tigers Lose To Genesee**  
Monday the Kendrick Tigers met the Genesee Bulldogs on the local diamond, and lost to them by a score of 15-11.

Genesee got 8 hits; 15 runs, and had three errors. Kendrick collected 9 hits; 11 runs, and made 4 errors. Batteries were Kinzer and Becker for Genesee; Souders, Smith, Taylor, Crocker and Gustafson for Kendrick.

**Orofino Takes 9-5 Game**  
Tuesday the Orofino Maniacs met Kendrick on the local diamond, and won by a score of 9-5.

Orofino collected 7 hits; 9 runs, and made 7 errors. Kendrick got 2 hits; 5 runs and was assessed 3 errors.

Batteries for Kendrick were Thornton and Crocker. For Orofino Alt-miller, Gilmer, Wilson and Samuels.

**Fellowship Meeting Attracts**

A jolly time was had at the Community church Fellowship meeting last Wednesday evening in the basement of the church, with some 50 in attendance.

Warren Fairbanks led the group in a lively "Sing," after which the "Parcel Post" sale captured the limelight. Packages came from as far as Alaska and Florida, with some 12 states being represented. Much interest was evidenced as packages were opened from old friends and neighbors.

Following this activity a tribute was paid Mrs. Bob Magnuson for the generous and untiring help she had given to the Sunday School, W. S. C. S., and C. C. Y. during their stay in Kendrick. A wish for the family's success and happiness at their new home in Worley was expressed as she was presented a gift from the group.

A social hour was enjoyed and cookies and coffee were served by the Mesdames L. D. Crocker, C. E. Harris and Wm. Holt.

**Suffers Broken Leg**

Mrs. John Darby slipped and fell in her kitchen Saturday evening, while wrapping pork for the locker, and broke her left leg about mid-way between the knee and ankle.

She was taken to Dr. Christensen's office where the fracture was set and placed in a cast. It was later discovered the bone was not in place and she was taken to the Gritman hospital Wednesday morning, where she underwent surgery and a pin inserted in the bones to hold them straight.

Mrs. Darby will probably "be out of circulation" for the next three months.

**Entertains Parsonage Club**

The Parsonage Club from the Lewiston area met with Rev. and Mrs. F. C. Schmidt Monday for a pot-luck luncheon.

Those present were the Rev. and Mrs. Clifford Knight of Pomeroy; Rev. and Mrs. Ervin Ranton, Clarkston; Rev. and Mrs. Merritt Faulkner of Lewiston; Rev. and Mrs. Freeman Cotton of Lewiston Orchards; Rev. and Mrs. LaVerne Tooley, Grangeville; Rev. and Mrs. Reah Daugherty, Cottonwood; Rev. and Mrs. Vern Thornton of Culesac; Rev. and Mrs. G. Edward Knight, Orofino, and Rev. and Mrs. John Saltman, Auburn, Wash.

**Working On Little Bear**

Progress on the widening, rebuilding and re-graveling of the road on Little Bear ridge has not been nearly as fast as was hoped for, due to unexpected rock conditions.

In one case, drilling for a "shot" a cave was hit, but as this was unknown to Walter Sparber and Hi Galloway, the heavy charge did not do the expected work, and other tactics were employed. At still another point, the rock was found very hard and very full of seams, which will stick drill bits, so light shots and "work-in" tactics were forced on the men.

Graveling as rock work permitted, has been satisfactory.

**Car Goes Over Bank**

Sunday morning about 1:00 o'clock a Dodge sedan, owned and driven by Don Jones, Big Bear ridge, left the highway near the Leon Branson home between Kendrick and Juliaetta, and went over the steep embankment, landing in the ditch between the railroad track and the highway, about 20 below.

Mr. Jones suffered a bruised hip, but was otherwise uninjured. The car was badly damaged.

Don said he met a car which failed to dim its lights, and "just drove off."

**Mothers Day Service**

There will be a special Mothers Day Service at the Kendrick Community church Sunday morning at 9:30. Rev. F. C. Schmidt's topic will be: "A Mother's Influence." Each mother present will be honored.

All are invited to come and bring your mother.

**WHAT CAMERON FOLKS ARE DOING THESE DAYS**

**Mother's Day Tea**

There will be a Mother and Daughter Silver Tea at the hall Saturday afternoon at 1:30. Special entertainment has been planned. The free will offering goes for India Women's Work. Everyone is cordially invited.

**Club News**

The Cameron Home Demonstration Club will meet at the home of Rosalie Blankenship on Tuesday, May 13, at 1:30. Mrs. Bowling will give a lecture on "Weight Control." Everyone will answer roll call with a proverb.

Our club is quite small and anyone who would like to visit or join is welcome to do so.

**Modern Dentistry Can Aid Youth with Cleft Palate**

The role of modern dentistry in the total rehabilitation of young men and women with cleft lip or cleft palate so they can lead happy useful lives is revealed in the Journal of the American dental association.

Asserting that more children are born with this condition than any other congenital deformity, Dr. Herbert K. Cooper, director of the Lancaster, Pa., cleft plate clinic, estimated that at least one out of every 700 children have this handicap.

"The most frequently found condition has been getting the least amount of attention," he said. "The citizens of this country should be as well informed on the subject of cleft palate as they are on poliomyelitis, cerebral palsy and rheumatic fever."

Citing cases of patients treated at the clinic, Dr. Cooper told of a youth, 17, born with a cleft lip and cleft palate. During infancy, surgery had been performed, leaving him with a flat upper lip and very poor speech.

"He shunned all social contacts," Dr. Cooper said. "He left high school and was driving a truck. His whole family was extremely upset."

Dr. Cooper said the youth was given a medical, dental, speech and psychological examination. An appliance was constructed to build out the upper lip and cheeks and tumbler crowns were placed on his five remaining upper teeth. At the same time, he was given speech instruction.

The boy was persuaded to finish high school, Dr. Cooper said, and he then was admitted to college. He added:

"The first two years were quite difficult for him because of his social adjustment problem, which he gradually overcame. Then he was taken into a fraternity and was graduated on the dean's list. He is now attending law school in a large university."

**U.S. Still Leads World in Production of Matches**

It's pretty difficult to get something for nothing these days, but there's one item left that is used by the average person 14 times a day, and two out of five times he doesn't have to pay. That little item is the match.

The manufacture of matches is a \$25 million-a-year industry in the United States. Each year, more than 500 billion matches are produced, and of 200 billion book matches made in the United States every year, about 196 billion are given away with the sale of cigars, cigarettes, and tobacco.

Sweden had us topped for many years in the production of matches. The Swedish Match Company, formed in 1913 by Ivar Kruegar, had match factories in 43 countries of the world and manufactured most of the world's matches. Kruegar is said to have invented the common superstition that "three on a match" is unlucky, in order to sell more matches. His match empire lasted until 1932, when it was discovered he'd been using the company's capital for his own speculations.

Sweden now ranks fourth down the line led by the United States. Great Britain ranks second and the Soviet Union third.

**Spices in History**

There are many references to spices and herbs in the pages of history. They play important parts in the development of our civilization. The ancients attributed strange powers and accomplishments to spices. Basil, for example, is venerated by the Hindus who plant it outside their temples and homes to insure happiness. The famed laurel wreaths which crowned Greek heroes of war and sport are the same bay leaves we use today in our cooking.

**Freezing of Water Pipes**

Freezing is most likely to occur in pipes which run along an outside wall. This hazard should be corrected by re-location of the pipes, if possible. If this is impractical, thorough insulation with from two and one-half to three inches of good pipe covering is the only safeguard. Should any of the piping freeze, the work of thawing it should not be entrusted to a handyman. It should be done under the supervision of an experienced master plumber. Blow torches or other methods involving open flames are extremely dangerous. They not only involve fire hazards but also permit the generation of high pressures which may cause explosions.

**Gregorian Calendar**

The form of our present calendar was set by Julius Caesar with some additional innovations by Augustus Caesar. However, in about 1500 years the length of year adopted by the Caesars proved incorrect. Therefore, Pope Gregory, in 1582, appointed a commission which revised the calendar sufficiently to bring it back in step with the seasons. Now it takes 3000 years for the calendar to slip out of line one day. The Protestant countries did not accept the Gregorian calendar until 1752 and this is why certain states in history sometimes appear to be confused.

**WHAT HAPPENED HERE TWENTY YEARS AGO**

**Teakean** — Little Earl Choate, son of Mr. and Mrs. Ed. Choate, while playing in the barn at the home of his uncle and aunt, Mr. and Mrs. Asa Choate, Sunday, fell from the loft, about 20 feet. Henderson home were Mr. and Mrs. Elton McCoy, Mr. and Mrs. Milton Benjamin and children and Mr. and Mrs. Glenn Daggett.

**Gruber Has "PAD" Plan**  
Public ownership advocates should feel like pikers after reading the January 15 Congressional Record which contains a proposal to organize "Public Agrarian Districts" for the socialization of the farm industry.

The idea, penned in satire by Al Gruber, industrial development manager, appeared initially in the Public Service magazine under the title of "Can the Farms Be Socialized in Washington?" Last month Senator Harry Cain (R-Wn.) read it into the

Record. The writer, a professional engineer, pointed out that his observations over a period of many years indicated "60 to 70 percent of my income has been paid out for food and clothing, both of which originate on the farm." He said that because this production was a direct result of the natural resources of the soil, the climate and the natural elements of the region, he could only conclude "that these products should be made available to me at cost . . . and that no one should make a profit from those things that basically belong to-me."

Mr. Gruber suggested a plan whereby the state legislature could pass a law permitting the organization of county-wide Public Agrarian Districts, with the law privileging them to combine into "super-PADs."

He added that they could be headed by city people or labor groups who had a limited knowledge of the farming business, and therefore assumed to be qualified to operate the system. No one would have to worry about the cost of the project, he said. "Our children and grandchildren

will be so accustomed to paying such debts that even though they did not understand the situation, at least they wouldn't have to know any better," he pointed out.

Mr. Gruber then became serious in his discussion and told quite clearly that under public utility district rule this same type of thing was happening, and warned it was only another step into taking over other industries and farms in the same fashion.

**Transparent But Tough!**

"People who live in glass houses," they used to say, "shouldn't throw stones." But times have changed. Today it all depends on the kind of glass your house is made of. Take those new glass doors that make the newer shops and stores so inviting. You can stop worrying about them, definitely. We have the word of a big glass company that a piece of this glass (which is called Herculite) only a quarter-inch thick, survived five weeks in a testing machine in their laboratory where it was hammered 1,200 times an hour with two steel hammers — and

never showed a mark. It's tempered, they say, just like steel.

And those big, new "view windows," that give that extra glamor to new homes, are something special, too. They are really two windows in one; in fact, they are often called "Twinwindows," and because of their insulating properties, they help keep fuel bills down as well as providing a wider outlook.

Airport control towers and office windows are now using a new glass that helps keep interiors cool. And now the glass wizards have come up with a bomb-proof window, which is of a special flexible glass, widely used for aircraft windows.

It's hard to believe that common, ordinary window glass is still considered a luxury in many civilized countries, when we are so lavishly supplied with so many types of glass for so many purposes, including the satisfaction of looking at ourselves almost wherever we go.

**Department Acquires Radios**

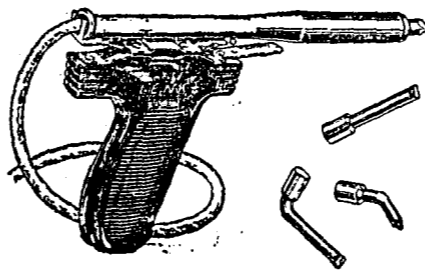

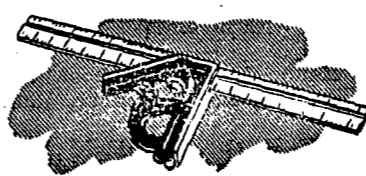

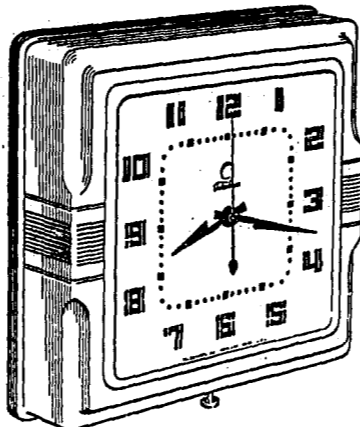

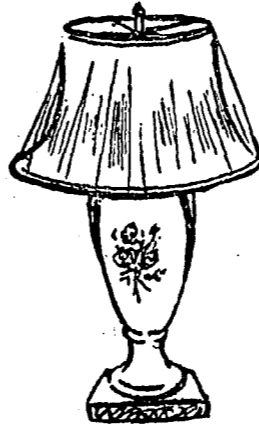

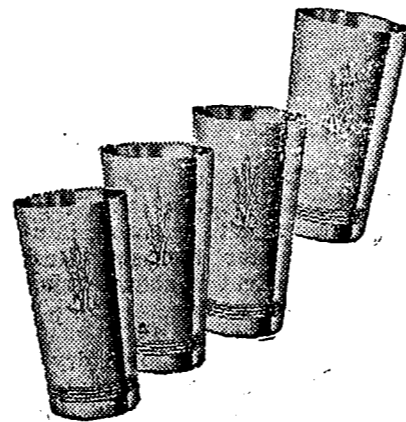

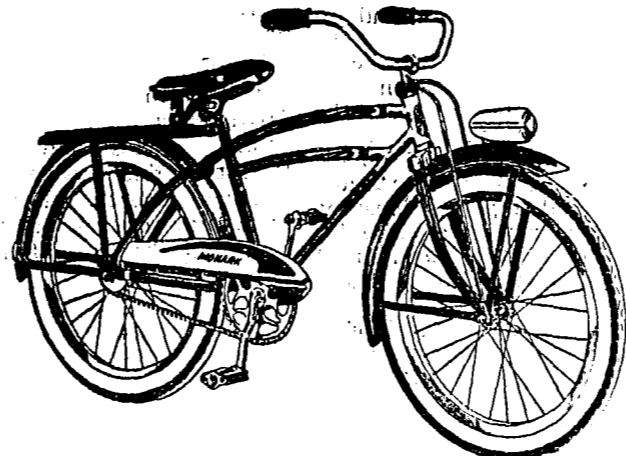

The fish and game department announced this week that 15 portable short-wave radios have been delivered to their agency, and will be placed in field service some time this month.

A department spokesman said the units will be used for law enforcement, game and bird census, and in other activities.

Present plans call for acquisition of several used mobile units from the office of the Idaho state police. The more powerful sets will be converted to the fish and game frequency, and placed in district supervisor's automobiles in each of the five districts.

The radio facilities will be available for civil defense purposes or in event of emergency, search and rescue, the department advised.

It's Blewett's, Kendrick, for fresh and cured meats of all kinds. 1-adv

**Seeks Vegetable Crown**  
Latah county has a candidate for the national junior vegetable growing championship.  
The competition is the 11th annual production-marketing contest of the National Junior Vegetable Growers Association, which will be climaxed with \$6,000 in cash scholarship awards.

D. E. Warren, state 4-H Club leader, University of Idaho and NJVGA chairman, announced that the Latah county contestant is Nancy Ann Nowack, Potlatch.  
He explained that the contest is an educational program "designed to teach farm youths enrolled in the program the most modern and profitable methods of growing and marketing vegetables." The champion, he adds, wins national acclaim as a farm youth leader as well as the \$500.00 first prize. More than 225 other awards are made on a regional, sectional and state basis.  
The winner in 1950 was James McBee of Philippi, W. Virginia.  
Winners are named after the records of growing and marketing activities of each contestant are studied by panels of experts made up of officials of the U. S. Department of Agriculture, college personnel and other experts in the fields of production and marketing.

**Farmer Finds Blower Effective Hay Dryer Mounted on Cart, It's Easy to Move About**

Wet springs and early frosts aren't the headaches they once were to a growing number of farmers. For they have discovered that immature grain can be cured just as effectively in storage buildings as in the field.

The average farmer will find that mechanized drying of hay and grain is not as expensive as it would appear. Hay & grain saved will soon pay for equipment.

Equipment for mechanical drying of grain is simple, and present farm structures can be converted easily, quickly and inexpensively to handle this newest of farm production chores. Farmers, who have hay curing equipment, will find that the same fan and motor

Mounted on wheels, this motor and blower takes the headaches out of curing immature grain for farmers. Here the equipment is shown being used for hay drying.

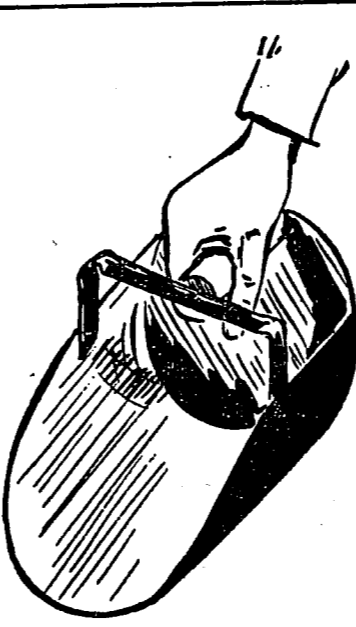

can be used for both drying grain and finishing forage crops.

The accompanying illustration shows what can be done in the way of inter-changing hay curing and grain drying equipment. When the hay curing season is over, this farmer mounts his fan and motor on a cart and hauls them to a crib where they are put to use blowing moisture out of his immature corn. An outlet, into which he plugs his five-horsepower motor, is located in an adjacent building.

When double cribs are used, as in the case shown, the air blast enters through one end of the driveway. The opposite end is sealed up, and heavy paper placed on walls of the crib from the peak of the roof to the top of the corn layer. Openings around the fan and in the floor also are closed. In single cribs, wooden ducts or "A" frames are laid down the center of the floor and the air blown directly into them.

Drying is successful without supplementary heat when the temperature is 60 or above and the relative humidity 65 per cent or below. If heat is used, buildings should be insulated and properly ventilated. Warm air is blown into storage sheds by motor driven fans. Thermostats and other controls automatically keep the temperature and the flow of air at efficient drying levels.

**Don't Strain**

Here's a right smart idea for a feed and grain scoop that eliminates the wrist strain of scoops with the usual projecting handles. For a large scoop, one that can be used in sacking grain, 20-gauge galvanized material is about right. The scrap iron brace to which the front end of the handle is bolted helps hold light metal in shape.

**Year's Fruit Prospects Hit by Widespread Damage**

Explosive April caused considerable damage to budding fruit and a great drop in the year's prospects is indicated.  
South Carolina, Virginia and Georgia suffered damaged peaches. Washington, Idaho and Oregon show a 100 percent bud loss and many trees killed. Damage in southern Illinois ranged from 50 to 100 per cent, according to some reports by farm bureaus.

**Terramycin Said Effective Against Pinworm Infection**

Infection caused by the pinworm, the most common and widely distributed of all human parasites, can now be successfully treated with terramycin, according to a team of 6 American doctors conducting clinical trials in Haiti.

Treating 61 cases of pinworm infection, the physicians found terramycin effective in all but two patients. Clinical trials with the wide-range antibiotic drug were undertaken because, said the doctors, "the usual treatment with gentian violet often does not eradicate the infection, and not infrequently due to drug must be discontinued because of toxic reactions." Several of the patients who had taken gentian violet previously said they found terramycin "considerably more tolerable."

Pinworm infection is found throughout the world and in all ages. Public health experts estimate it affects 35 per cent or more of the general population. In southern states 50 to 60 per cent of all children have had it. Caused by a small white worm, its most disturbing symptom is itching. Often scratching brings about a secondary infection. Pinworm may interfere with eating and result in loss of weight and anemia. The disease usually infects the entire family.

In their clinical report, appearing in the current issue of the medical journal, "Antibiotics and Chemotherapy," the doctors point out that successful therapy depends upon simultaneous treatment of the whole family. In this respect one of gentian violet's disadvantages, they say, is that young children often cannot swallow the enteric-coated tablets.

Whenever possible, the medical team in Haiti examined whole families and treated them simultaneously with terramycin. Full cooperation was not always obtainable, but "despite inadequate dosage in a large number of cases," says the report, "in only 2 instances did treatment definitely fail by the fourth week after therapy was begun."

**North Carolina Attacks Highway Safety Problems**

A sound program to promote safety on the highways has been set in motion by the state of North Carolina. The appalling number of deaths and injuries resulting from motor accidents in recent years has provoked this state to take action of a new and decisive type.

Since the first of July, applicants for driver's licenses and renewals have been required to have their eyesight tested on a complex instrument which measures 12 visual skills, including muscular balance, acuity at near and far distances, and depth perception. The instrument makes it impossible for drivers with poor vision to slip by, by memorizing the letters that they must read — a trick sometimes played with conventional charts. Those who fail the tests are advised to consult an eyesight specialist, and many of them will undoubtedly be enabled to pass by professional eye-care.

Good vision has long been recognized as a major factor in accident prevention, and thousands of hours have been spent in attempts to establish proper standards for motorists. But the results were always inconclusive, because too much of the element of personal opinion was involved. Under the new system, however, definite statistics on 1,300,000 drivers will be obtained by next July 1, and it will be possible to judge accurately which visual errors contribute most to accidents and which visual skills are most essential to highway safety.

**A Comet's Weight**

What is the weight of a comet? Weight is a measurement of the attraction of the Earth for a body on or near its surface, and as a comet moves far out in space, and is subjected to a varying attraction from the Earth and other planets, one should not speak of its "weight." Its mass, which is a measure of the amount of matter it contains, can only be determined roughly. It has been estimated that with Halley's comet the nucleus, which contains most of the material, has a mass of about a two-hundred-millionth of the Earth's mass. This would be about thirty million million tons. It has also been determined that the particles of which Halley's comet is made could not be held together by the gravitational attraction of a mass smaller than one twenty-fifth of the above figure. Most comets, however, are much smaller than Halley's, and have considerably smaller mass.

**Schedule Is Wise**

A regular painting schedule actually simplifies property protection. One wise farmer does a fourth of his buildings each year. In that way, each gets its necessary coat of protection every four years without fail, and each year's painting project can be fitted in as other outdoor work permits. While city dwellers do not have as many structures to safeguard, they are wise to look on painting as property-value insurance and to follow a regular schedule.

**Medina Mosque Is Younger Building than White House**

According to tradition, Mohammed journeyed north from Mecca to the region of Yathrib's oases, where he loosed his camel to wander unguided until it stopped and knelt. There the mosque was built. Disciples renamed Yathrib Madinat-al-Nabi, meaning City of the Prophet, now varied to Medina.

The original house of worship has been rebuilt several times. No existing relics of previous structures bear proof of use earlier than 1306. The present Great Mosque is actually newer than the White House in Washington and replaces an earlier mosque which was destroyed by fire only a century ago.

Though somewhat crowded by other buildings on its south side, the mosque stands out gracefully from most angles of approach. Its minarets are shapely, its dome a restful, dull green. Dominant construction material is a locally quarried crystalline rock of pinkish hue, with occasional elaborate inlay and faience decoration.

Pilgrim trade is easily the chief business of Mecca, Medina, and Jidda, the Red Sea port by way of which nine-tenths of the worshiping tourists now travel. The two shrine cities each have sacred areas, where unbelievers are not welcome, and subject to trespassing fines or jail terms.

Date growing is the second industry around Medina's oasis, which is larger than Mecca's and can support more population. Under Turkish rule prior to World War I, Medina counted 80,000 people and was the southern terminus of a railroad from the cities of present Jordan, Syria, Turkey, and Iraq to the north.

Not until Mohammed moved from Mecca to Medina, did his creed begin the expansion that now encompasses 250,000,000 followers.

**Drug Given By Mouth Said To Relieve Pain in Cancer**

A chemical compound which can be given by mouth is reported by seven New York doctors to be useful in bringing temporary relief to patients suffering from fatal cancer-like diseases of the white blood cells and tissues.

The oral use of triethylene melamine on 58 patients is described by Drs. David A. Karnofsky, J. H. Burchenal, George C. Armistead, Jr., Chester M. Southam, J. L. Bernstein, L. F. Craver, and Cornelius P. Rhoads. The doctors are all associated with the Memorial Center for Cancer and Allied Diseases, New York.

Triethylene melamine is a valuable addition to the small group of drugs now known to be effective in relieving pain in these types of disease, according to the doctors. This is due primarily to the fact that it can be given by mouth, releasing the patient from his dependence on a doctor for administration of the drug. All the other drugs, they point out, have to be injected intravenously, which almost always makes hospitalization necessary.

Clinical trials with the drug are now being widened to include a greater variety of tumorous conditions, they said.

**Cleaning Up**

In the Smithsonian Institution's laboratory of vertebrate paleontology, six tons of fossil bones belonging to the extinct gigantic ground sloth, Megatherium, are being cleaned and repaired. The skeletal remains of this grotesque animal were collected in western Panama by Dr. C. Lewis Gazin, curator of vertebrate paleontology of the U. S. National Museum, assisted by Dr. Theodore E. White, paleontologist of the Smithsonian's River Basin Surveys. The Smithsonian Institution paleontologists will attempt to reconstruct for exhibition in Washington a complete skeleton of the giant sloth. A large part of the collection will be returned to Panama for exhibition there.

**Forming Pearls**

Although some pearls are formed in fresh-water clams and oysters, the most valuable come from the marine pearl oysters of eastern Asia. They occur when some foreign object—perhaps a tiny grain of sand—gets between the shell and the body. The animal then secretes around the object successive layers of a material called nacre, which consists of calcium carbonate. This is the same material as the "mother of pearl" lining of the shell. The Japanese make "culture" pearls by deliberately introducing small particles of graphite into the oyster and keeping it for several years as the pearl is formed.

**Infrared Rays**

Infrared rays are similar to rays of visible light, except that the length of their waves is greater than those of red light, which are about 1/40,000th of an inch and are the longest that the eye can detect. The longest infrared waves are about 1/65th of an inch long. Any hot object—the Sun, an open fire, a red hot poker, a warm radiator, an electric lamp, etc.—sends out infrared radiation, often with visible rays as well. Special electric lamps to generate these rays, used for applying heat, have a filament which operates at a lower temperature than is used in one designed mainly for purposes of illumination.

May 6 — Mr. and Mrs. Herman Johnson and Mrs. Julia Flesham of Leland visited at the D. V. Kuykendall home Tuesday evening.

Joe Owens, Russell Betts and Mr. and Mrs. Glen Betts and son Eugene were dinner guests of Mr. and Mrs. Ernest Cowger and family Thursday evening. The dinner honored Mrs. Cowger's birthday anniversary.

Oscar Lawrence spotted eight head of elk in Mrs. Vera Beyer's alfalfa field Friday morning about 6:00 o'clock. They grazed and played there for some 30 minutes before making their way back into the timber. At one time they made their way almost to the barnyard trying to decide if a black cow there was friend or foe.

Several children from here attended the track meet at Lapwai Friday. The Southwick school bus took them down.

Mr. and Mrs. Roy Martin called at the D. V. Kuykendall home Friday afternoon.

Mr. and Mrs. Russell Perkins went to Clarkston Wednesday to be with his mother, Mrs. Mattie Perkins, who broke a hip in a fall and underwent surgery Friday to permit pinning the broken bone. They returned home on Saturday, reporting her condition as "fair."

Mr. and Mrs. Chester Martin and son, Mr. and Mrs. Ishmael Martin of Lewiston and Cpl. Stanley Martin of Spokane were among the week-end visitors at the Roy Martin home.

Mr. and Mrs. Glen Betts and Eugene spent Sunday in Kamiah, visiting Mr. and Mrs. Axel Klundt and her mother, Mrs. Sarah Glibler.

Mrs. Frank Dryden and daughters, Mrs. Ray Christensen and Mrs. Don Christensen and children called at the Glen Betts home Sunday.

The Southwick Homemakers Club will meet with Mrs. Edna King Friday, May 9. Mrs. Helen Bowling, Home Demonstration agent, will give a lesson in "Herb Cookery."

A work day will be held at the Southwick cemetery on Thursday, May 8. Anyone interested is urged

to turn out, and bring lunch and garden tools.

**Weather Still Cool And Damp**

Locally, the weather still remains cool and damp, with rains interspersed with periods of sunshine and an occasional slight breeze. Gardens lawns and pastures in general are doing excellent here in the valley, but on top the hills it is generally reported as "too cold" for gardens to make much progress.

After the warm weather of a couple of weeks ago, the present seems rather like March, although it isn't cool enough or blustery enough to fit that month.

**W. S. C. S. Friday**

The regular W. S. C. S. business meeting will be held Thursday afternoon in the Kendrick Community church basement. Mrs. R. L. Blewett has charge of the program. Hostesses are the Mesdames L. D. Crocker, Don Miller, Frank Crocker and Liddie Ameling. All are invited to be present.

**C. C. Y. To Hold Rally**

Sunday evening at 7:00 o'clock the C. C. Y. will hold a Rally in the Community church basement. A cordial invitation is extended to all young people to come and join in the fun.

**Parents Of Son**

Mr. and Mrs. Donald Cann, Kendrick, are the parents of a son, born to them Friday at the Gritman hospital in Moscow. Mother and babe are doing nicely.

# Potlatch Chief Sez

Published by the Kendrick Creamery

**HELLO, THERE, FOLKS —**  
 Yes, as warmer weather comes, (and it surely will) you'll find ice cream more and more pleasing to the palate. So keep some on hand all the time for those snacks and for dessert. It's mighty nice when unexpected guests drop in. And of course, for the best in flavor, texture and satisfaction, be sure it's "Potlatch Chief" ice cream.

.....

Husband: "Do you know how many times a man says no to temptation?"  
 Wife: "Yes — once, weakly!"

.....

Don't "slow-up" on milk drinking just because the weather is warming up. You need milk, as a quick-digestible food all the time. And we don't believe there is a milk with a finer flavor than our new homogenized Potlatch Chief brand. You'll like it, and it will like you. Every adult should con-

sume at least a pint a day, and every growing child at least a quart. Its cost is low, its food value high.

.....

In the congregation of a church during Sunday morning service was a young bride whose husband was an usher. Becoming terribly worried about having left the roast in the oven, she wrote a note to her husband, sending it by another usher.

The latter, thinking the note was for the pastor, hurried down the aisle and laid it on the pulpit. Stopping abruptly in the middle of his sermon to read it, the astonished pastor was met with: "Please go home and turn-off the gas."

.....

And don't forget — we want to buy your cream!

.....

Worry is like a rocking chair. It will give you something to do, but it won't get you anywhere.

# Only ONE WORK SHOE CAN MAKE and PROVE THESE CLAIMS

- Only WOLVERINE SHELL HORSEHIDES
- 1 HAVE both soles and uppers of tough Shell Horsehide.
  - 2 ARE tanned slipper-soft by secret triple-tanning process.
  - 3 NO other work shoes are made like the Wolverine Work Shoes.

Imitations? ... PLENTY!  
 Duplicates? ... NONE!

That has been proven on millions of the workers' feet. Month for month—mile for mile—Wolverines cost less to wear, yet they are moccasin-soft, dry out soft, stay soft, thanks to Wolverine's triple-tanning process, a carefully guarded secret for over forty years.

Come in and let us show you a pair of these wonderful work shoes.

See That Shell!  
 .... It's the tough, reinforcing center layer found only in SHELL Horsehide.
