VOLUME 62

KENDRICK, LATA H COUNTY, IDAHO, THURSDAY, MAY 29, 1952

NO. 22

## GRAIN MARKET UNSETTLED WHEAT REMAINING FIRM

Grain markets were mostly unsettled during the past week, with prices averaging mostly higher, reflecting good demand for small supplies, reports to the department of agriculture indicate. Wheat prices advanced slightly during the week at most markets except at Fort Worth, where they declined 3c per bushel. The first load of new wheat was delivered in Knox county, Texas, but harvesting is not expected to become general for about another week. Weather conditions continue generally favorable in the winter wheat area but moisture is needed in some sections of the spring wheat area, particularly in the north central section of North Dakota. Cool wet weather generally retarded planting and germination of corn in the north central region but the southern sections generally fair weather prevailed until near the close of the week, when badly needed rains fell.

With heavy receipts and large imports from Canada, oats prices weakened slightly as demand absorbed most of the offerings. Barley averaged 2c below the previous week.

The 1952 Canadian wheat acreage will be slightly larger than last year if farmers carry out their announced planting intentions, according to the Dominion Bureau of Statistics. The all wheat acreage is indicated at 25,636,000 acres, which compares with 25,254,000 acres planted in 1951. The yield per acre last year was the highest since 1942 and a crop of 562 million bushels was produced. Stocks of wheat in Canada on March 31 were large, amounting to 461 million bushels compared with 353 million a year earlier. Exports of wheat and flour from Canada have been large this season, totaling around 223 million bushels (August through April) as against 154 million the same months last season. The U. S. imported 23.7 million bushels of wheat from Canada, July through March, with entries into the U. S. for consumption, from the first of April to the middle of May, at approximately 6.5 million bushels.

Wheat marketings increased during the week and arrivals at the principal markets totaled approximately 5.8 million bushels. At the close of the week No. 2 hard winter was quoted at \$2.43 at Chicago, \$2.44 at Kansas City and \$2.56 at Fort Worth.

Pacific Northwest grain markets continued to show a weak tone during the past week. Export and domestic demand was slow and fully satisfied with the moderate offerings. Crop prospects continued favorable with general rains in the east-central and eastern Washington areas and the Columbia basin of Oregon. Trading in new crop wheat for future delivery continued in light volume at around \$2.30 to \$2.33 per bushel delivered coast for No. 1 soft white.

Boat loadings continued in good volume, but demand for feed grains remained very slow. Barley and oats showed a decline of about \$1.00 per ton. Receipts of wheat at the principal Pacific Northwest terminals increased somewhat and totaled 1,447 cars against 1,352 last week and 2,073 a year ago.

Cash wheat trading continued extremely light with prices holding at practically the same level as a week ago. Quotations at Portland, mostly nominal, were \$2.45 to \$2.48 for No. 1 soft white and white club, basis delivered coast. Bid prices on the Portland market were stronger at the end of the week with hard red showing the most gain. Soft white was bid at \$2.44, \$2.45 for No. 1 hard white and \$2.48 for hard red, delivered coast, 15-day shipment.

Pacific Northwest oats markets continued to show a weak tone with prices nearly \$1.00 per ton lower. No. 2 white eastern oats were quoted at \$71.20 per ton with demand slow. Receipts were 38 cars for the week with 35 for last week and 44 for a year ago.

The Pacific Northwest barley market continued to weaken with slow domestic demand and practically no export inquiry. No. 2 western barley was quoted at \$70.50 per ton at Portland, or \$1.00 per ton lower than a week ago. The malting barley market was inactive and prices nominally unchanged. Receipts of barley totaled 70 cars this past week.

## Enjoy Vacation Trip

Mr. and Mrs. Henry Wendt returned Friday evening of last week from a month's vacation trip in the east.

Leaving here their first stop was at Detroit, Mich., where they took delivery of a new car. From there they drove to Erie, Pennsylvania, where they visited Mr. Wendt's aunt, Mrs. Marie Bell. From that point they drove to Niagara Falls, crossed the border into Canada and on to New York City, where they spent four days sight seeing.

From New York they drove on to Washington, D. C., for further sight seeing, which included side trips to Mount Vernon and Arlington National Cemetery.

On their way home they turned southward, going through the Virginias and Maryland to Merrill, Iowa, where they visited for a time with Rev. and Mrs. Gustav Meyer, old-time friends.

Leaving Iowa they visited with Mr. and Mrs. Wm. Lowe in Scribner, Nebraska, turning north to Denver, where they spent a day sight seeing, on to Salt Lake City, spending another day, thence to Boise and home. In all, they traveled 4,200 miles after leaving Detroit.

Mr. and Mrs. Wendt report a most enjoyable trip, and found the east very beautiful.

DEANN MIELKE

Salutatorian of the Class of 1952  
Kendrick High School

## HAPPENINGS OF INTEREST OUT ON BIG BEAR RIDGE

Mr. and Mrs. Ed. Halseth received cards from their twin sons, Harold and Gerald, from Opdal, Norway, where they were visiting their father's relatives. They had previously visited in the homes of their mother's sisters. They returned to Germany, where they are stationed with the army of occupation, May 20th.

Mrs. Oscar Slind and Maxine spent the week-end with her parents, Mr. and Mrs. Wm. Leland, in Spokane. They accompanied Mr. and Mrs. W. L. McCreary.

Mrs. A. Kleth is still confined to her bed, but is gradually improving. Olaf Burnvik is building a new home for Mr. and Mrs. Ted Kleth. Mr. and Mrs. Ervin Halseth and daughter, Vickie Jo of Craigmont spent last week-end at the Ed. Halseth home.

Miss Erma Fairfield was here from Moscow for the high school graduation of her brother Donald.

Mrs. Helen Hunter met with the Happy Home Club at the home of Mrs. Gerald Ingle, Wednesday afternoon. Mrs. Hunter gave the second interesting lesson or "Color in the Home." Mrs. K. D. Ingle and Mrs. Johanna Nelson were in Moscow Friday for a leaders lesson on "Fabrication and Care of the New Materials — Orlon, Dynel, Vicara, Rayon Suitings and Dacron." These will be demonstrated at the next meeting at the home of Mrs. Oscar Slind, June 17th.

Mrs. K. D. Ingle and Miss Bertina Forest attended a Home Demonstration Club Council meeting in Moscow Thursday.

Mrs. Henry Kortemeier and son Paul are expected to arrive here from Swishhome, Oregon, this week.

Dr. and Mrs. W. A. Myers of Lewiston were here for the graduation of their grandson, Roger Jones, last Tuesday evening.

Paul Lionberger, student pastor, will change his schedule to evening services during the summer months. Services at Deary June 1st at 7:30; and at the local church here June 8th. A most cordial invitation is extended to all.

Mrs. Johanna Nelson spent last Sunday at the home of Mr. and Mrs. Louie Rogstad in Clarkston.

The Dalberg families of Moscow were here for the graduation services, Maxine Slind being a graduate.

The Olls Sherbon family of Pullman; the Jack Maynard family of Lewiston and Mr. and Mrs. John Jones of Deary were here to attend commencement.

Mr. and Mrs. Adolph Swenson of Lewiston spent Monday with Mrs. Johanna Nelson.

Mrs. Robert Jones (nee Betty Halseth) writes her parents that they have moved to Columbus, Texas.

Mrs. Fred Gladen of Kendrick has been at the Henry Galloway home since Mrs. Galloway and baby boy, Jerry Lee, returned home from the hospital.

Word has been received that Mr. and Mrs. Walter Olson (nee Betty Ingle) and sons have moved to Washington, D. C.

T/Sgt. and Mrs. Kenneth Long and son of Spokane were week-end visitors at the home of his sister, Mrs. Ronald Jones and family.

Mr. and Mrs. Norman Nethkin arrived here from Alaska by plane to visit her parents, Mr. and Mrs. K. D. Ingle, and other relatives here.

Several from here attended the Commencement exercises in Deary. Carolee McGraw was Valedictorian of the class.

Elbert McProud, county agent of Moscow, was a business visitor on the ridge last week.

Mr. and Mrs. Herbert Weber took his mother to the hospital in Moscow, Wednesday.

Mr. and Mrs. Oscar Slind, Maxine and Leland, accompanied by Mrs. Peter Hesby attended the Commencement Exercises at Moscow Tuesday evening. The Slinds nephew, Allen Dahlberg was one of the graduates. Maxine remained with her uncle and aunt, Mr. and Mrs. Hjalmer Dalberg and will accept a position as secretary in the office of J. M. Lyle, Jr., Alumni secretary, beginning work Wednesday morning.

## Hold Executive Meeting

An executive meeting of the Kendrick W. S. C. S. was held Monday afternoon at the home of Mrs. John Darby, with 14 members present.

## PERSONALS AND NEWS BITS ABOUT KENDRICK FRIENDS

Mr. and Mrs. Louis Wright and Margaret were in Lewiston Sunday to help Mrs. Harry Wright celebrate her 74th birthday anniversary. Others present were Mr. and Mrs. Robert Taylor and family of Lewiston; Mr. and Mrs. Chas. Van Gorden of Bovill; Mrs. Lettie Israel of Clarkston, and the host and hostess, Mr. and Mrs. H. S. Wright.

Mr. and Mrs. Raymond Hudson moved to Juliaetta Saturday, where they will reside. They sold their home here to Mrs. Nellie Bly Biddison of Juliaetta, some weeks ago.

Mr. and Mrs. J. E. Keys of Spokane, accompanied by their nephew, Everett Varo of San Francisco, were week-end guests in the home of Mr. and Mrs. Edgar Long. On Sunday Mr. and Mrs. Marvin Long joined the group for dinner.

Benny Cook, who has been working at Trout Creek, Mont., as relief telegraph operator for the N. P. the past week, arrived home Monday to remain over-night, leaving Tuesday for Plains, Mont.

Mr. and Mrs. Harold Goff and children of St. Maries were Tuesday afternoon and evening visitors in the home of her parents, Mr. and Mrs. Ben P. Cook.

Mrs. John Deobald from Richland, Wash., came home Saturday to stay over Sunday with her parents, Mr. and Mrs. Ben P. Cook. On Sunday Mrs. Cook and Mrs. Deobald joined Mr. and Mrs. R. L. Blewett and son, Billy, all going to Lewiston to attend the wedding of their niece, Roberta Ruddell and Russel Bonnalle at the Christian church.

Ben P. Cook attended a picnic at Spalding park Sunday for "Radio Ham" operators and their families from the Inland Empire. Among those present were Mr. and Mrs. Bruce Ebert, formerly of Kendrick.

Mr. and Mrs. W. L. McCreary drove to Spokane over the week-end to attend Baccalaureate services of their niece, Gerry Griffith. Mrs. McCreary also attended a farewell luncheon on Saturday given for their daughter, Pat, who leaves in June for Minneapolis, Minn., to enter training for air line stewardess for Northwest Air Lines.

Mrs. John Glenn returned home Friday from St. Joseph's hospital in Lewiston, where she had been receiving treatment. She is reported as improving nicely.

Mrs. H. C. Schupfer returned home Thursday from Lewiston, following a major operation at St. Joseph's hospital. She is recovering nicely.

Mrs. Bob Watts and daughter Patti spent last week with her parents, Mr. and Mrs. H. M. Barber in Coeur d'Alene.

Mr. and Mrs. Thomas Weber and sons of Austin, Minn., arrived here Monday for a visit in the home of his sister, Mrs. Ed. Brown and family, and with other relatives here and at Juliaetta. They plan on spending about two weeks here.

Mrs. Elsie Weber is at the home of her daughter, Mrs. Ed. Brown and family, recuperating from her recent illness, for which she received treatment in the Moscow hospital.

Word has been received that A 3/c Thomas Groseloc has been transferred from Indian Town Gap, to the air base at Waverly, Iowa.

Word has been received that Capt. J. W. Farrington has been transferred from the Army Chemical Center in Maryland, to the Personnel Center at Camp Kilmer, N. J.

Word has been received that Pvt. John Deobald has been transferred to Fort Ord, Calif., following his induction at Fort Lewis.

Mr. and Mrs. W. B. Clayton of Rupert, Idaho, were here several days last week visiting in the home of their son, Mr. and Mrs. David Clayton and son.

Word was received by relatives from Mrs. D. A. Cantril that their daughter, Sandra, was ill with the measles and was holding up their return to Kendrick. They plan to leave Los Angeles the middle of June.

On Saturday Mrs. Earl Raymont and children of Southwick were visitors in the home of Mr. and Mrs. Jack Travis.

Mr. and Mrs. Tom Brown and little daughter of Spokane were week-end visitors in the homes of their parents, Emulus Brown and son Jerry and Mr. and Mrs. Harry Baker.

Mr. and Mrs. Milton Wilken arrived here Sunday of last week from California, where they had spent the past several weeks on business.

Mr. and Mrs. E. A. Deobald spent the week-end in Richland, Wash., at the home of their son, Mr. and Mrs. Teddy Deobald and daughter Becky.

Mr. and Mrs. Bob Lind of Moscow were week-end guests in the home of his parents, Mr. and Mrs. Paul Lind. On Sunday all were dinner guests of Mr. and Mrs. Oscar Raby in Clarkston. On their return they were accompanied by Mrs. Bina Raby, who is spending the week in the Lind home.

Mr. and Mrs. Roy Davis are visiting his parents at Lapwai until they move to LeGrande, Oregon. Roy went to Portland to take the Oregon state jeweler's examination.

Sunday dinner guests of Mr. and Mrs. Ernest Freytag were Mr. and Mrs. Elton Wilson and daughters, Mr. and Mrs. Jack Kuykendall; Mr. and Mrs. Henry Freytag and children of Bovill, and W. H. Hazleton of Mt. Vernon, Wash.

Mr. and Mrs. W. A. Watts and Mrs. John Johanson were Lewiston visitors Tuesday.

Mr. and Mrs. Ben Westendahl and family, accompanied by Jeanette

(Continued On Page 2)

## DEMAND FOR A 25 PERCENT INCOME TAX CEILING GROWS

Official Washington is discovering once more, and suddenly, as it did when prohibition finally became intolerable, that the originating of Federal reforms is not entirely a local monopoly. Working quietly, without fanfare or klieg lights, the American Taxpayers' Association, a body of 16,000 large and small businessmen, representing 48 states, have built up a nation-wide demand for a 25 percent income tax ceiling that now looms impressively over the Washington horizon.

The procedure has been to initiate in the state legislatures a resolution to Congress asking for a Constitutional convention to kill the Sixteenth Amendment, and substitute for it a new tax limitation. It was this amendment, passed in 1913, and held by many authorities ever since as unconstitutional, that authorized Congress to tax incomes "from whatever source derived" and neglected or avoided mentioning any limits.

As a result of the amendment, individual incomes are now taxed as much as 90 percent, corporate incomes under \$25,000 at 25 percent, those higher at 47 percent, and much unsuccessful effort went toward trying to raise those rates higher.

To date eighteen state legislatures have passed this resolution and in several more, the resolution has passed one house but not both. Those who have passed it include Maine, New Hampshire, Massachusetts, Rhode Island, New Jersey, Pennsylvania, Florida, Louisiana, Texas, Iowa, Nebraska, Wyoming, Montana, Nevada and Wisconsin, Illinois and Arkansas. The latter three have rescinded the original vote, but are still on record with congress as supporting the resolution.

In Washington, congressmen who favor the movement, foresee not only ultimate success of the campaign, but a short-cut to be provided by Congress. As the A. T. A. plan now stands, the Constitutional convention would be called when two-thirds of the states have passed the resolution. But the hope grows, that with only a few more states approving, Congress may proceed to draft a new amendment in line with the resolution and send it to the states for ratification.

Twenty-five percent was picked by the A. T. A. as the ceiling rate after consultation with tax authorities who believe that this levy would produce the maximum revenue from incomes. The desired amendment will specify, however, that in war time, this rate can be exceeded. — National Industries News Service.

\* Our Comment: Are we or are we not at war in Korea?

## Writes From San Diego

Under date of May 13, from San Diego, Calif., comes the following interesting letter from Clinton Smith, U. S. N., son of Mr. and Mrs. Harry Smith, Leland:

Dear Bill — I think it is about time I wrote you and thanked you for the Gazette. I sure appreciate it. I wait every week for my copy. It's swell to see what everybody at home is doing.

We will be at Bremerton in July for a three-month dry-dock period and I will be seeing you there. We have been out at sea every week, or just about every week on night operations. We take the troops into the beaches at night, and it sure is rough. We have an 18-inch square of phosphorus painted on the side of the boat so we can see each other at night. There have been a few wrecks on the beaches, but nobody got hurt. It sure is hard to make a landing, for you can't tell how deep the water is and you have to be careful or you get broached on the beach.

The weather is fine down here, in fact it is too hot. I hope you can read this, as I am writing it in my "sack," and I haven't much room. Tell everyone "hello" for me and I hope to be seeing them soon.

I got a letter from Frank Dammarrell today. He was lucky he got out of that explosion alive. Thanks again for the papers — Clinton.

## Verna Knox Is Bride

Mr. and Mrs. L. S. Thurber have received word of the marriage of their granddaughter, Verna Knox, to S. O. Purdum, Spokane, Wash. The ceremony taking place at Reno, Nevada on Sunday, May 4.

The bride was given in marriage by her father, Geo. C. Knox, Maid of honor was her sister, Mrs. Woldon Cleveland (nee Donna Knox). Best man was Weldon Cleveland, brother-in-law of the bride.

Mr. Purdum is stationed with the Air Force in California.

Mrs. Purdum will be remembered by many here, as she made her home with her grandparents and attended the Kendrick schools for a couple of years.

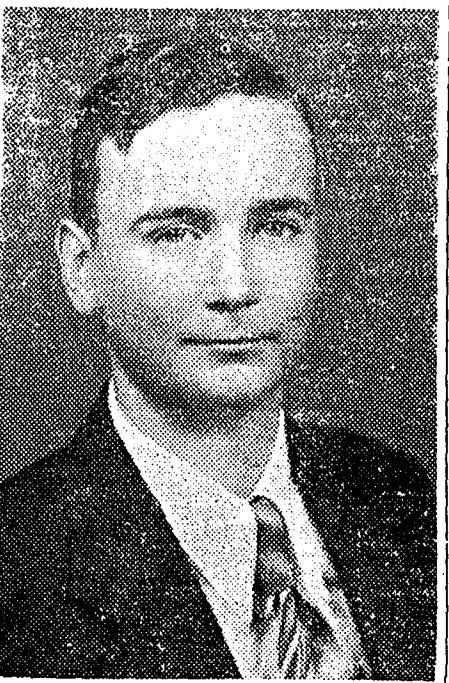

## Weather Favorable To Work

Beginning Friday, with the ceasing of the rains, farmers have been able to resume farm work, discing, spring-toothing, rod weeding, harrowing, and seeding — and in a few cases some plowing is also being done.

It is stated that all farm work is from two to three weeks behind the usual schedule, but the prolonged rains were responsible.

On some farms tractors are being run around-the-clock on a shift basis in an effort to catch up.

Bean seeding is also said to be getting under way, and that is about on schedule, for it must wait until all danger of frost is past.

JAMES HARDY HOLT

Valedictorian of the Class of 1952  
Kendrick High School

## WHAT JULIAETTA FRIENDS ARE DOING THESE DAYS

Mr. and Mrs. Harry Riggs and family of Spokane have been visiting her parents, Mr. and Mrs. Lloyd Candler.

Mr. and Mrs. Thomas Weber and family arrived here Monday from Minnesota for a visit with his mother, Mrs. Elsie Weber, and other relatives.

Bill Byington, Guam, has been spending his leave here with relatives and friends.

Mrs. Roy Whittum and Jayne Hadley complimented Mrs. Joe Clayton with a pink and blue shower Saturday.

Rev. and Mrs. Melvin Brower and children were Sunday dinner guests of Mrs. Roy Whittum.

Alice Whittum left Friday for Spokane, where she has employment.

The birthday Club met recently at the Willis Howell home to honor the birthday anniversaries of Mrs. Howell, Mrs. Woodrow Nye and Mrs. Dick Carlton.

Lura Nelson was a recent visitor in the Ralph William home at Gifford.

Mr. and Mrs. Neil Candler and daughters of Pierce, have moved to Juliaetta.

Mrs. Walter Byington and sons and two nieces from Blackfoot, Idaho, visited at the Chester Westing, Faye Myers and Tom Taylor homes.

Lonnie Williams, Moscow, was the guest speaker Sunday morning at the Methodist church. At noon a potluck dinner was held in the church basement. One of Lonnie's friends, a German exchange student, gave an interesting after-dinner discussion.

Sunday afternoon the Juliaetta Methodist Youth joined the M. Y. F. groups from several other towns for a picnic at Spalding park.

Mr. and Mrs. Jess Mundell celebrated their 45th wedding anniversary Sunday by being honor guests at a dinner in the Methodist church basement. They wish to express their thanks to Mrs. Nelson for the rose decorated anniversary cake.

Mrs. Susie Duky and Mrs. Alice Duky of Lewiston were week-end guests in the home of Mrs. Jessup and Miss Ruth Leland.

M. C. Halliday is building the new home of Mr. and Mrs. Ira Havens, and work is progressing nicely. They will have the basement walls in this week.

Mr. and Mrs. Asa Calvert spent Sunday in Leland, visiting his brother, Rev. and Mrs. Geo. Calvert.

Mrs. McLeod has completed installing plumbing fixtures for her steam baths, and will soon be ready to care for patients.

Mr. and Mrs. Chas. Schultz; Mr. and Mrs. Fred Gladen of Kendrick, and Roy Phayer of Deary, attended funeral services for the late Chas. Weaver at Big Bear ridge, at Moscow on Tuesday. His age was 96.

Mrs. John Brandt spent the week-end at the home of her brother, Mr. and Mrs. Eben Adams, in Moscow.

## 4-H Club Joint Council Meet

A joint meeting of the Junior and Senior 4-H Club Councils for Latah County was held at Kendrick Monday evening, with 65 present.

The Junior Council consists of one delegate from each 4-H club in the county, and the Senior Council the 4-H Club leaders of the county.

A number of current topics of interest were discussed, among them the coming 4-H Club Short Course at the University of Idaho, June 12 through 17; the 4-H Club county picnic at Laird Park on July 27; the 4-H Club camp at Lake Chatcolet July 10 to 13.

The Latah county fair premium lists as pertaining to 4-H Club entries and other topics of general interest were also considered.

Present from Moscow were Elbert McProud, county agent; Helen Hunter, home extension agent; Marvin Jagles, who will be the new county 4-H club agent after June 1, and Martha Darscheid, secretary of the county extension agent.

## Install New Air Conditioner

Burt's Confectionery has completed the installation of a new and larger air conditioning system in preparation for the coming hot weather.

The new machine was installed for them by Frank Abrams of the Abrams Hardware.

## NEWSY ITEMETTES FROM AMERICAN RIDGE AREA (Delayed)

### Hi-Hope Club Meeting

The Hi-Hope Club met with Mrs. Walter Bigham last Thursday with 14 members present and two visitors, Mrs. Frank Hill of Lewiston, and Jorene Benscoter. The Club voted to have as a project the improvement of the American Ridge cemetery — and also to see that the law is enforced regarding the dumping of rubbish on our grades along the ridge. Signs will be put up.

### Other News

Mr. and Mrs. Frank Hill of Lewiston spent Wednesday and Thursday with their daughter, Mrs. Walter Bigham and family.

Mr. and Mrs. Stanley Greene and daughter of Nez Perce spent Friday night with Mr. and Mrs. Walter Benscoter and family.

Wayne Davis dug the basement for the new Ira Havens home which is to be erected in Juliaetta. The building took two days.

Mr. and Mrs. Geo. Kolasa and Mrs. Billy White of Lewiston were Saturday guests of Mr. and Mrs. Harley Eichner.

Mrs. Andy Cox and Mrs. Bob Nelson attended a W. S. C. S. meeting in Orofino on Wednesday.

Mr. and Mrs. Andy Cox spent Sunday in Lewiston with her mother, Mrs. John Glenn, who is in the hospital there.

Monday evening callers in the Harley Eichner home.

Mrs. Nora Callison called on Mrs. Bud Eichner, Tuesday.

Most of the ridge folks attended the Parade Day activities at Kendrick Saturday. The Girls' 4-H Club had a float, as did the Hi-Hope Club. We were happy to learn that the Girls' 4-H Club entry won second place.

Mr. and Mrs. James M. Lyle, Jr., of Moscow, were Tuesday evening supper guests of Mr. and Mrs. Harry Benscoter.

Mrs. Bud Eichner has been spending part of her time this past week in Lewiston with her mother, Mrs. H. C. Schupfer, at the hospital.

George Davidson of Moscow was a Monday visitor in the Harry Benscoter home.

Mr. and Mrs. Henry Brammer were Sunday dinner guests of Mr. and Mrs. Aug. Brammer at Cameron.

Mrs. Aug. Sielaff of Ritzville and Mrs. Theo Meske of Cameron spent Monday afternoon with Mr. and Mrs. Henry Brammer.

Ira Havens of Moscow is staying part of the time at the Geo. Havens home while their new home is being constructed at Juliaetta.

Mr. and Mrs. Harold Roberts and family spent Sunday in Cloverland with Mr. and Mrs. Everett Marrow.

Mr. and Mrs. Wayne Davis and family were Sunday dinner guests of Mr. and Mrs. Milbern Story in Pullman.

Bob Nelson is over on Cream ridge helping Perry Mattoon with field work this week.

### (This Week)

The Hi-Hope Club honored Mrs. Roy Davis with a handkerchief shower at the club meeting on Thursday, May 15. All regret having Mrs. Davis leave our community.

Sunday Mr. and Mrs. George Havens and family drove to Moscow where they were dinner guests of Mr. and Mrs. Ira Havens and Grandma Keene. The dinner honored the 10th wedding anniversary of Capt. and Mrs. Stanley Mills, which is on May 31. It was also a farewell for Capt. Mills, who left Wednesday of this week from Fort Lawton for Japan. Mrs. Mills and daughters will make their home at Moscow during his absence.

Lawrence Heimgartner and Wayne Davis spent Sunday fishing at Lake Pend O'Reille. They came home with a nice catch.

Mr. and Mrs. Walter Bigham and Mr. and Mrs. Ernest Andrews, the latter of Lewiston, were fishing Saturday at Lake Pend Oreille. They had excellent luck.

Mr. and Mrs. John Johanson and Mr. and Mrs. W. A. Watts, Kendrick, were Sunday afternoon callers in the Andy Cox home.

Mr. and Mrs. Weyer Weyen of Leland and Mr. and Mrs. Frankie Benscoter were Sunday guests of Mr. and Mrs. Ed. Kent.

Mr. and Mrs. Andy Cox and daughter called on Mr. and Mrs. Harley Eichner Sunday evening.

Mrs. Wayne Davis and children spent Sunday evening with relatives in Pullman.

Mrs. Lawrence Heimgartner, 4-H Club leader, Celia Loeta and Orville Roberts and Nita Benscoter, attended a 4-H Council meeting in Kendrick Monday evening.

**PERSONAL MENTION**

Rowden, attended a Lewiston Grain Growers picnic and barbecue at Spalding park, Sunday.

Mr. and Mrs. James Candler and son of Wallace visited with relatives here and spent Sunday night at the Ben Westendahl home. Sheila Westendahl returned home with them on Monday for a visit.

Mrs. Irene DePeel was a Tuesday over-night guest in the C. G. Arnett home.

Cheryl Westendahl is visiting in the Jesse Oylear home at Moscow this week.

Mrs. Henry Kortemeier and son Paul arrived here Sunday from Swiss-

home, Oregon, and will visit friends for a time.

Mr. and Mrs. Charlie Candler and Mr. and Mrs. Giff Candler will leave Friday for Walla Walla, taking with them J. D. Candler, who has been visiting his grandmother the past month. They will also visit the graves of relatives at that city.

Howard Hoffman, Elmo Eldridge and son Leonard returned Sunday night from a fishing trip to Lake Pend Oreille with their bag limit of bluebacks.

Tuesday evening Mr. and Mrs. Howard Hoffman entertained at dinner for Mr. and Mrs. Norla Callison and family, and on Wednesday night entertained for Mr. and Mrs. Walter Crawford and family, with

some of Howard's "finny" beauties.

Those attending the Homemakers Conference on "What's New In Fabrics and Finishes," held at the Student Union building at the U. of I. last Friday were Mrs. John Wilson, Mrs. Jack Kuykendall, Mrs. James Holt, Mrs. George Brocke, Sr., and Mrs. Howard Hoffman. This conference was held for all the Homemakers clubs of Latah county.

Mr. and Mrs. M. L. Rathbun and son Louis are leaving the first of the week for the Aleutian Islands, where they plan to spend the summer vacationing.

Mr. and Mrs. James Johnston and family of Troy, Montana, spent the week-end with his parents, Mr. and Mrs. Clarence Johnston.

Mrs. Rose Kroll of Clarkston has been visiting Mrs. Clarence Johnston for the past two weeks. On Sunday the Johnstons took her home.

**Court Of Honor Monday**

There will be an area Boy Scout Court of Honor at Lewiston in the Roundup Park at 7:30 p. m., Monday, June 2nd, in which the local Scout Troop will take part.

All parents, committeemen and friends are cordially invited to come and see this affair — and bring a friend.

The local Troop has twice won the attendance award (parents, friends, etc.) and one more win would give them permanent possession, so all are urged to come out and help the local boys.

**Locust Trees In Bloom**

Almost as if by magic, the warm sunshine of Wednesday of last week brought the big locust trees that line Kendrick's Main street into full bloom within a space of a few hours.

And, as usual, after they burst into bloom, a warm rain that lasted a few hours fell, which in turn was followed by sunshine.

Since that time, under warm spring skies, the big trees have been a bower of beauty, and the air heavy with their scent.

As we go to press this week, the walks and streets are littered with fallen blossoms — a sure sign that summer is approaching.

**Suffers Severe Leg Cut**

David Crocker, son of Mr. and Mrs. L. D. Crocker suffered a severe cut on his left leg between ankle and knee last Wednesday afternoon while working on the forestry department brush crew. Dave was on a log cutting limb, when the bark gave way and he slipped and fell, the axe cutting a deep gash. He was brought to Kendrick immediately where Dr. Christensen used six stitches to close the wound. He is now walking about a little on the leg.

**Poppy Sale Success**

The local V. F. W. Post and the Ladies Auxillary wish to thank everyone who helped in the sale of poppies the past couple of weeks, and the purchasers. The sale was highly successful.

On Parade Day in Kendrick the Auxillary reports their grab box as quite successful, the sum of \$23.30 being netted.

The next meeting of both groups will be on Thursday, June 12.

**Parsonage Being Painted**

The Community church parsonage is receiving a coat of gleaming white paint at the hands of its occupant, Rev. and Mrs. F. C. Schmidt. It is to be trimmed in green, and when completed will present a vastly improved appearance.

**4-Hers Learn Dairy Arts**

Lovely to look at — delightful to eat, can well describe the appetizing dishes prepared in the 4-H Dairy foods demonstration program, which has been renewed by the state club office for this year. About 400,000 4-Hers throughout the country are learning the art of making better dairy dishes and desserts. This includes luscious ice creams, tapioca puddings, strawberry cheese pigs, orange sherberts and even creamy candies — all high in food values.

June, which is national dairy month, points up the importance of dairying and dairy foods. Special attention is being given to dairy demonstrations. The young homemakers and farmers, individually and in teams, are carefully working out each step in the preparation of dairy dishes and demonstrating them to others. They are leaving by doing — the watchword of all 4-Hers.

Achievements of 4-H members in dairy foods demonstrations are being encouraged through awards provided by the Carnation company. County winners receive medals, while a 17-jewel wrist watch is awarded on the state level to the high individual and each member of the high team. Eight trips to the National 4-H Club Congress in Chicago next November are presented to the fortunate national winners.

This program is conducted under the supervision of the Co-operative Extension Service and the National Committee on Boys' and Girls' Club Work.

**Visits Old Home Friends**

In a letter to his parents Pfc. Gilbert Candler writes from Korea as follows:

"I went up on the front the other day and saw Don Brown. He had just gotten back from R & R. Still the same, only he has lost some weight, which is to be expected. He figures to be coming home about August or September. I also saw the Woody twins from Genesee, and Byard Parks.

"I will say that it was much different at the front than I had pictured it to be."

**Will Test Pressure Gauges**

On June 5, Helen Hunter, Latah county home demonstration agent, and Barbara Fourn, Washington Water Power home economist will test pressure cooker gauges in the Firemen's Hall, Kendrick, from 10 a. m. to 12:00 noon.

At 1:30 p. m. there will be a demonstration of preparing and freezing fruits and vegetables. The public is invited to attend.

Anyone bringing pressure gauges for testing is asked to detach the gauge, from the lid and bring just the gauge.

**Constructing Bleacher Seats**

With Ben P. Cook as chief construction engineer, a group consisting of Mr. Cook, Ross Armitage, Jasper L. Nutting, Floyd Millard, Clifford Davidson and Dave Clayton have been busy pouring a concrete foundation and constructing bleacher seats at Armitage Field.

The seats will care for 120 spectators, and this capacity, plus room for car parking, is believed adequate to care for all spectators at the local field.

**United In Marriage**

Word has been received of the marriage of Miss Dorothy Holt, and Roy Clemenhagen, both of Kendrick. The ceremony was performed Saturday. Further details are lacking at this time.

**Life Insurance Funds Going To Nation's Defense Plants**

Life insurance funds are moving to the aid of the defense activities of the country in increasing volume, and loans made by the life insurance companies in support of the defense program may reach \$3,500,000,000 for 1951, according to the Institute of Life Insurance.

"In keeping with the usual policy of directing new funds into channels where they may be most useful for the national economy, the current trend in life insurance investments is towards meeting the capital needs of the preparedness program," Holgar J. Johnson, Institute president, commented. "This is in line with the voluntary credit restraint program under which defense needs have precedence over all other elements in the economy. Defense financing now accounts for the greater part of the life insurance company placement of policyholder funds in business and industry."

More than \$1,000,000,000 has been loaned by the life insurance companies so far this year to defense plants and indications are that a like amount may be loaned in the remaining months of the year.

In addition, some \$800,000,000 has this year been invested in loans to utility companies and railroads, which are basically involved in all defense activities. This amount may be nearly doubled by the end of the year. Thus, the total of financing made available during the entire year for defense industries or defense-supporting activities may come to \$3,500,000,000.

The loans for defense or defense-supporting purposes represent two-thirds of all loans made in the first six months by the life companies to business and industrial concerns, and the ratio has been increasing since mid-year.

**Contrary To Superstition, Oysters Edible Year-Round**

Contrary to superstition, oysters are edible in all 12 months. Hot-weather shipping problems helped to build the R-month legend. The taboo remains appropriate even with modern refrigerated transportation, however, since May to August is the natural spawning season. The adult female oyster's feat of discharging as many as a half-billion eggs in this season leaves her a bit too thinned down for prime succulence.

Shad were surpassed only by cod and salmon among U.S. commercial fisheries before the turn of the century. Overfishing, industrial pollution, and high dams barring the way to upstream spawning grounds have forced shad far down on the list now. Although the Chesapeake Bay still accounts for one fish out of three, the total catch is less than one-fifth that of 19th century peak seasons.

Crabs, alewives, rockfish, croakers, sea trout, and menhaden all figure importantly in Chesapeake Bay commerce. Like oysters and shad, they are studied for rehabilitation purposes by such organizations as the Chesapeake Biological Laboratory at Solomons, Maryland, and the Chesapeake Bay Institute, Baltimore.

**Pearls and Pipelines**

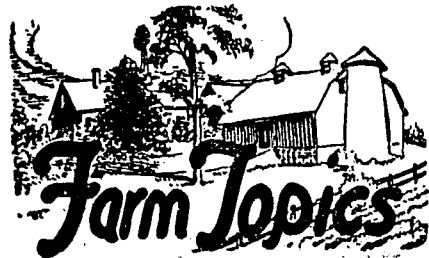

Iranian nationalists have laid verbal claim to Bahrein, oil-rich island across the Persian Gulf where Arabian dhows put in bearing huge milky pearls from the sea floor. Persia has been claiming Bahrein without avail since 1783, however. A British protection, Bahrein is the site of an American oil field and refinery. Saudi Arabia's oil wells were joined with the Mediterranean coast in 1950 by the competition of Tapline, a 1,068-mile, 30-inch pipeline across the burning Arabian desert. American and British engineers proposed to build next an even bigger "Middle East Inch" (34-36 inches in diameter) from Abadan to the Mediterranean. Iran's oil would thus be linked by a tunnel of steel with the Western world—if the hot desert wind from Tehran does not blow the project away.

**Turbans**

In a survey of "fashions down through the ages," made by The Book House For Children the turban was found to be a favorite head covering of many ancient peoples, among them, the Armenians, Babylonians, and Phoenicians. Today's favorites include variations of the cloche, beret, and "beanie," a small disc of felt or straw that is anchored to the head, usually with hatpin or veiling.

**Color Blindness**

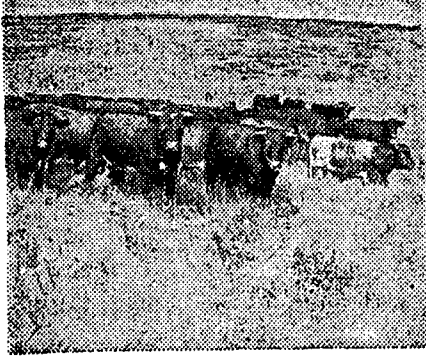

Most common in color blindness is the confusion of red and green, which may affect as many as 80 men and 5 women per thousand population. One person out of several thousand has trouble with yellows and blues. Very rare is complete color-blindness, in which everything is seen as black, gray and white. Not more than a hundred such cases have been reported in the scientific literature. Even a partially color-blind person usually learns to name colors properly a great deal of the time. For example, one with red-green deficiency may learn by experience that what he sees as dull dark yellow is really red, while a light yellowish-gray is what other people call green.

**Shorthorn Breeders Conduct Experiment 102 Bulls Put Through First U. S. Program**

Shorthorn breeders recently put 102 bulls through an obstacle course in the Nebraska range country with a view to toughening them up for a unique show and sale held at Broken Bow, Nebr., last month.

Converting farm bulls from mid-western herds to rugged range

The drove of Shorthorn bulls above were part of the Broken Bow experiment to toughen up 102 animals to be used in cross-breeding programs in large commercial herds. The project was sponsored by the American Shorthorn Breeders Association.

bulls for service in large commercial herds of the west, the program was called the Range Bull project. The bulls were judged in groups of two and three, in the manner of "Camp Showings" in Argentina, and then sold to western cattlemen who wanted them for regular herd sires or for cross-breeding programs. It was the first such program in the United States.

The animals were consigned by 48 breeders in the midwest and east and were turned out to range on July 1.

**Gasoline on the Farm Is 'Liquid Dynamite'**

Gasoline on a farm is "liquid dynamite" and must be handled with extreme care to prevent explosions and fires. It is estimated that annual farm losses from gasoline fires amount to more than \$7,000,000.

Here are eight safety rules the farmer should follow:

1. Gasoline should be stored in steel drums in underground tanks at least 75 feet from any building.
  2. Gasoline or kerosene should never be left in open containers in any building.
  3. Gasoline or kerosene should never be handled in the presence of an open flame or other source of possible ignition.
  4. In pouring gasoline, make sure the pouring and receiving receptacles are grounded, to avoid static sparks.
  5. Never use gasoline, benzene, or other flammable material for dry cleaning.
  6. Never use gasoline or kerosene to start a fire in a stove or elsewhere.
  7. Make sure cans or tanks used in storage of gasoline or kerosene are painted red, marked plainly and in large letters.
  8. Never forget that gasoline or related petroleum products are the most potentially dangerous things you have on your farm.
- Observance of these rules will cut down farm fire losses.

**Rat Control**

The farmer who has 20 rats on his farm is feeding them at a cost of \$40 a year. In other words, it costs farmers \$2 a year to keep one rat. Three rats eat and destroy as much feed as two laying hens require in a year's time. This is sufficient reason for every farmer to execute a rat-killing and control program.

**Poultrymen Are Advised To House Best Pullets**

House only the best pullets that probably will produce well for the entire laying year, poultry experts advise. Those chickens that are under-developed, or generally unthrifty looking, will seldom produce well and should be marketed. And when housing pullets, it is generally wise to keep together those of the same age and stage of development. Smaller birds have a better chance this way.

**Medical School Enrollments Are Setting New Records**

Medical schools of the United States in the last year took further steps to protect the future health of the nation by enrolling the largest number of students in their history.

This was revealed in the 51st annual report on medical education in the United States and Canada, compiled by the Council on Medical Education and Hospitals of the American Medical Association. The report was prepared by Dr. Donald G. Anderson of Chicago, secretary of the council, and his aides, Dr. Francis R. Manlove and Mrs. Anne Tipner.

A total of 26,191 students were enrolled in 79 approved schools in the United States for the 1950-51 academic year. This compares with the previous high record of 25,103 in the year before, an increase of 1,088 (4.1%). Since 1941, when there was an enrollment of 21,379 students in 77 approved schools, the increase has been 4,812 (22.5%).

The report also disclosed that the current academic year will see a continuation of this increase in medical education because of the enrollment of a record freshman class. It is estimated that about 7,400 new students will enter medical schools, compared with the previous record of 7,182 a year ago.

Also important from a future health protection standpoint was a survey which showed plans were under way in many states for the opening of additional medical schools and for the expansion of existing facilities.

"Significant progress is being made toward resolving the financial problems of the medical schools," the report also said. "Funds available to the schools during 1951-52 will total approximately \$109,600,000, which represents an increase of \$36,000,000 in the last four years."

**Psychologist Believes Kids Aren't Bad—Just Problems**

There are no "naughty children" or "problem children," in the opinion of one distinguished child psychologist, there are only "children with problems."

"In modern days, we should not talk any longer about 'the naughty child' or 'a problem child' but should try to find the reasons back of the problems of the child."

Dr. Reymert, who is Director of The Mooseheart Laboratory for Child Research at Mooseheart, Illinois, explores some of these reasons and finds that most of them are related to a lack of understanding of the child and his needs, on the part of the parent.

He observes that "one child may be naughty because he feels that he is being blamed and criticized too much. Another child may misbehave because he feels that his parents are not interested in him and do not pay enough attention to him. A third child may use this means to rebel against excessive restrictions or confinements."

"It is toward removing the cause or causes for the child's naughtiness that we must turn our attention rather than toward even stricter and more severe discipline," Dr. Reymert points out.

**Insomnia**

Although many people are troubled with various types of insomnia, there is no one who "just can't sleep at all" for any length of time. There is a type of insomnia where one can't get to sleep easily, but after he has fallen asleep, he sleeps soundly. In another type, the person awakens often during sleep and, although he seldom stays awake for long, things he is awake for hours. Still another type is the person who awakens early and can't get back to sleep. The person who "just can't sleep at all," however, is non-existent. It is impossible to live without sleep. Even though one is troubled with insomnia, if he has a good sleep foundation, he will doze off—although he may not realize it. On a good sleep foundation, it is impossible to resist sleep for long unless there is something physically wrong with a person.

**Stop Sediment**

To prevent the sediment that accumulates in the bottom of a tea kettle from hard water, throw away immediately the remaining amount of boiling water which you are not going to use. Do not allow the boiling water to settle in the kettle. Installation of a water softener, to treat the hard water and get rid of the compounds that cause the sediment, would also eliminate the deposit.

**Earth and Gravity**

The force of gravity is lessened by the centrifugal force produced by the Earth's rotation because of centrifugal force. The effect of gravity at the equator is about one part in 289 less than it would be on a stationary Earth, or than it is at the poles, where there is no such force. The centrifugal force also throws the surface of the Earth at the equator about 13 miles farther than the poles from the center. This causes a further decrease in gravity, so a man who weighs 159 pounds at the pole would only weigh 188 pounds at the equator, as measured by a spring balance. Ordinary scales would not show this, since the weights used would be equally affected.

**NOTICE TO CREDITORS**

Estate of David Fredrick Gentry Deceased

Notice is hereby given by the undersigned administrator of the estate of David Fredrick Gentry deceased to the creditors of and all persons having claims against the said deceased, to exhibit them with the necessary vouchers within four months after May 22, 1952, the first publication of this notice, to the said administrator at the office of Martin V. Huff, Attorney, Moscow, Idaho, the same being the place for the transaction of the business of said estate, in Latah County, State of Idaho.

**... since horse-and-wagon days**

the Washington Water Power Company has continuously extended its lines . . . to bring low-cost electricity to more and more Inland Empire farms.

Before many eastern cities had the advantages of electrical living, W.W.P. had brought low-cost Reddy Kilowatt electricity to light the homes and power the equipment of many farms and ranches in the Palouse and Medical Lake areas.

During the same long period the Company encouraged state colleges and its own research staff, to develop and improved ways electricity could save on the farm and in the farm home.

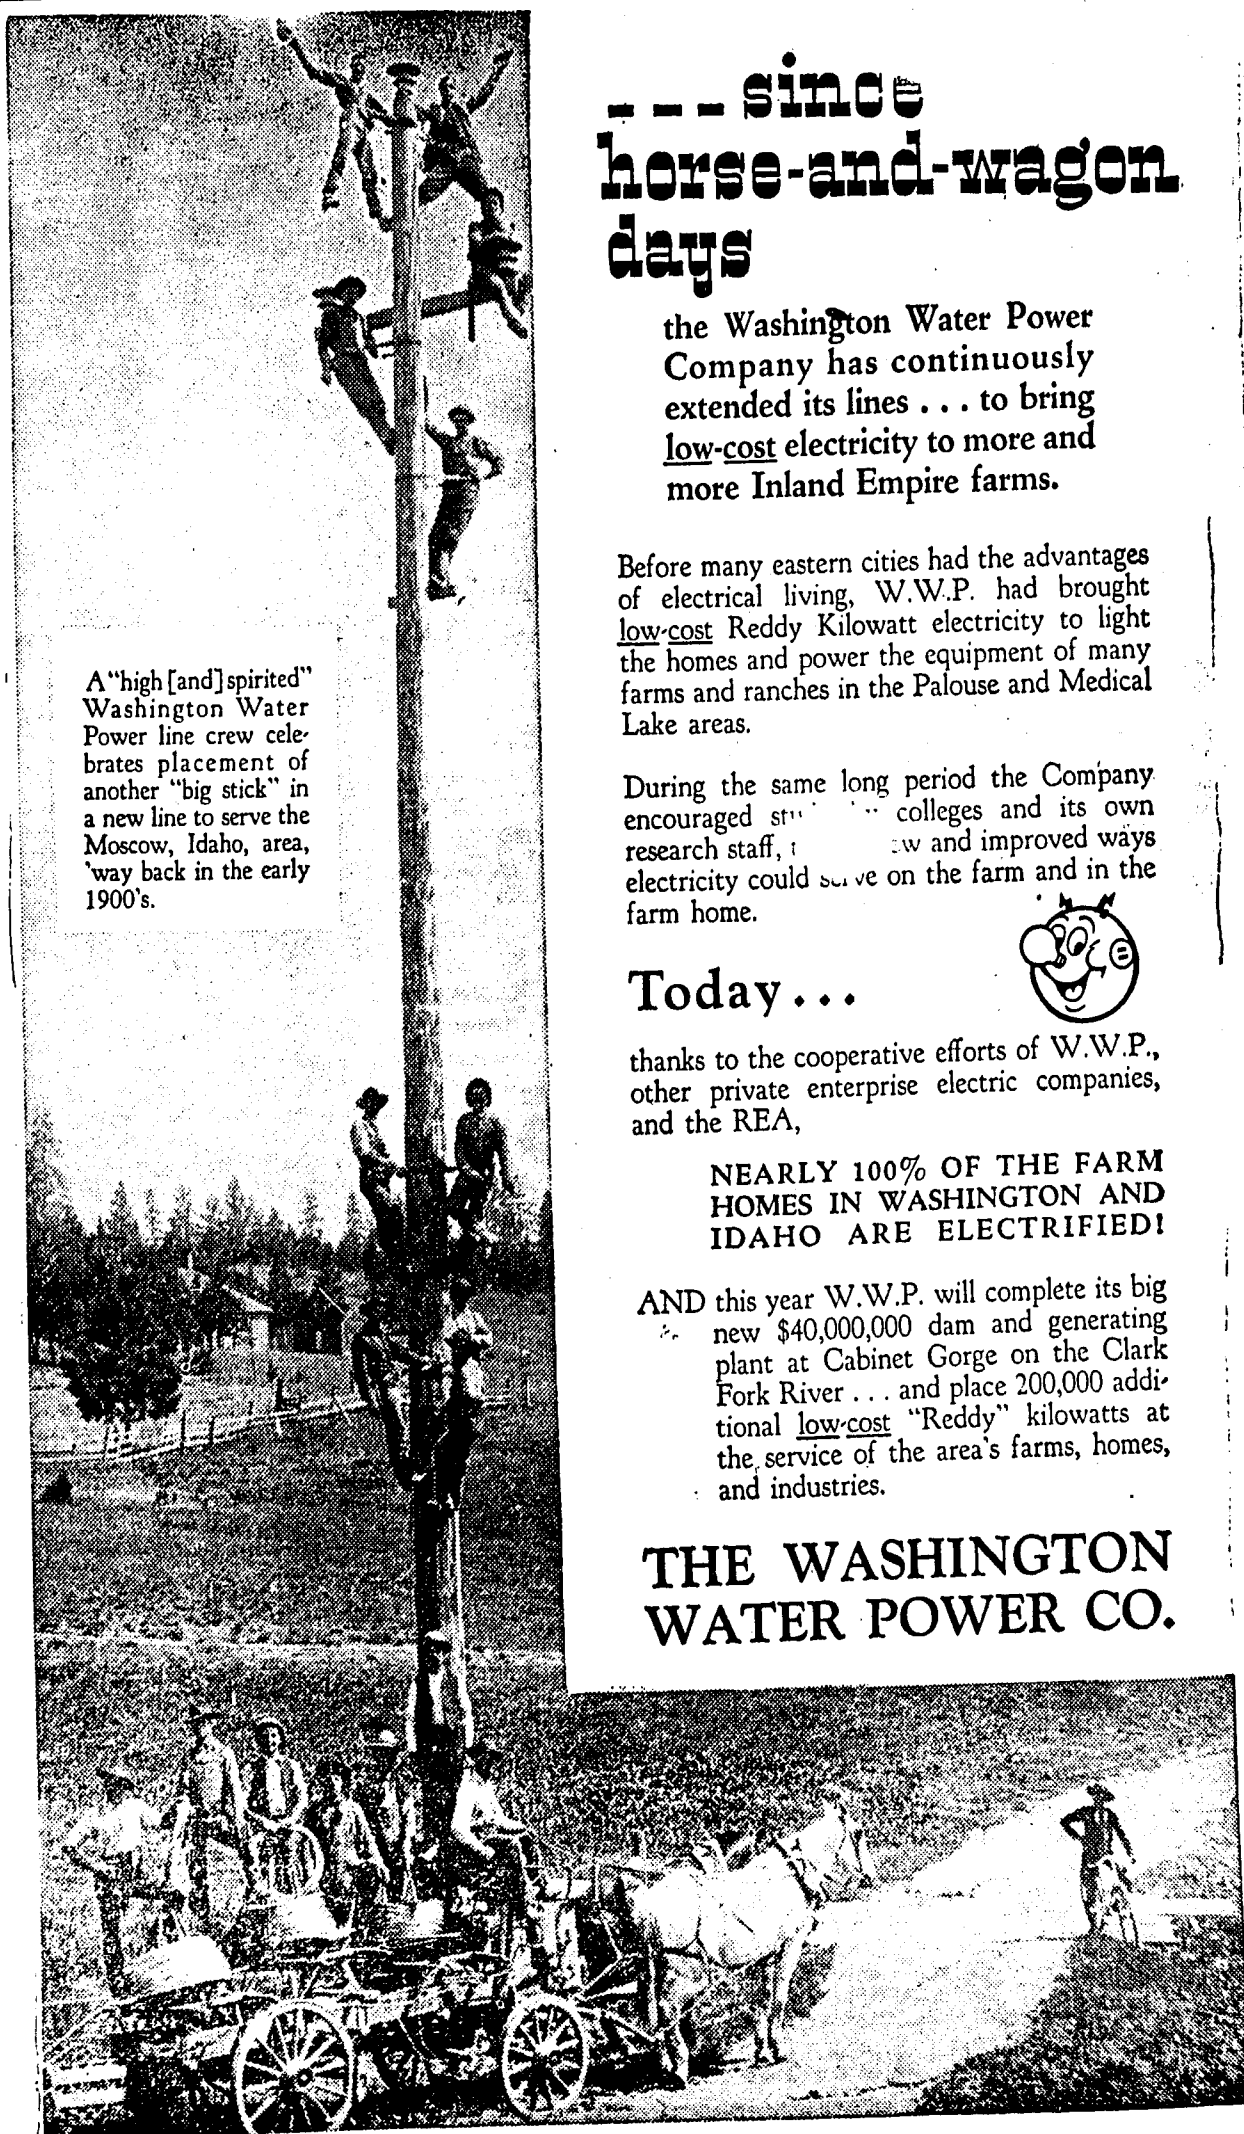

**Today . . .**

thanks to the cooperative efforts of W.W.P., other private enterprise electric companies, and the REA,

NEARLY 100% OF THE FARM HOMES IN WASHINGTON AND IDAHO ARE ELECTRIFIED!

AND this year W.W.P. will complete its big new \$40,000,000 dam and generating plant at Cabinet Gorge on the Clark Fork River . . . and place 200,000 additional low-cost "Reddy" kilowatts at the service of the area's farms, homes, and industries.

**Out To Lunch It Was**  
A short man came into a restaurant and sat down in a booth. The waitress brought him a glass of water and a menu, then left to wait on other customers. It was a busy hour; the little man's head did not show over the back of the booth, and the waitress forgot him. Eventually she realized she had never taken his order. She rushed to the booth. It was empty, but a note was propped neatly against the glass.  
It read: "Out for Lunch."  
Red the ads. — Keep posted.

**Squirrel Provides Big Part Of Nation's Yearly Game Bag**  
Although it is generally recognized as a prolific game species of extensive range, comparatively few people realize the truly important part the squirrel plays in the nation's game bag.  
Several years ago the Remington Arms Company, Inc., conducted a survey of national wildlife resources and sportsmen's hunting preferences. The survey revealed that the squirrel ranked second only to the rabbit as the most sought-after game species in the country.  
A recent analysis of "Hunters' Scorecards" returned to the office of the Mississippi Game and Fish Commission placed the squirrel in an outstanding position in the hunting activities of the sportsmen of the Magnolia state. The analysis brings to light the fact that 79 per cent or 150,000 of the licensed hunters in Mississippi sought squirrel during the 1950-51 hunting season. The cotton-tail rabbit and the Bob White quail practically tied for second high rank, with the rabbit nosing out the quail by the slight margin of 47.15% to 47.12%. Next in line was the lowly 'possum with the somewhat surprising score of 23.06%, topping the dove's rating of 21.58%.  
A breakdown of the analysis in hunting activity percentage and estimated total statewide kill follows: deer 6%, 1,370; wild turkeys 1.35%, 249; quail 47.12%, 2,119,532; squirrel 79.83%, 2,418,574; rabbit 47.15%, 900,360; coon 16.2%, 208,712; 'possum 23.06%, 386,145; dove 21.58%, 522,876; ducks 8.97%, 182,217.

**Step-Ramp Loading Chutes Are Safest Many Livestock Yards Are Remodeling Ramps**  
Livestock markets across the nation are continuing in their program of modernization and the installation of step-ramp chutes to replace old wooden chutes that cause great damage to animals.  
Cattle prefer steps to the old-style cleats. Many animals are injured and much meat lost from bruising due to the constant prodding necessary to get the animals up and down the old ramps, cattlemen have reported.  
The Chicago stock yards recently opened 12 of the modern step-ramp chutes. Of concrete and steel construction, the new chutes are designed to ease the task of unloading stock, and insure safe and

**College Displays Wealth Of Prehistoric Illinoisan**  
Wealth buried by a prehistoric Illinois resident who may have lived several centuries before Christ now is at the University of Illinois. It consists of 55 pieces of flint, ranging from raw blocks to expertly-fashioned big spear points as finely-formed as any ever found.  
The cache was uncovered last year at the Seimer farm near Bathtown in Calhoun county between the Mississippi and Illinois rivers northwest of St. Louis. In this area are many remains of the prehistoric Hopewell or "mound-builder" Indians, whose culture recent radiocarbon research has tentatively dated at 200 to 800 B.C.  
The flint was obtained for the university's archeological collections from W. L. Wadlow, amateur archeologist of Dow, Ill., by the Illini Achievement Fund of the University of Illinois Foundation. Through his cooperation, the collection is being kept for research and teaching use in the state where it was found.  
Prof John C. McGregor, University of Illinois archeologist, says that the find undoubtedly represents the wealth of an individual. He explains that the blade spear points, several inches long, are far too finely-made to have been used for hunting or war, and were more likely a medium of exchange — the "money" of their day.  
He suggests that the cache was the treasure of one of the prehistoric Hopewell residents, who left their important dead buried in mounds from the Great Lakes to the Gulf, and from Ohio to Kansas, and of whom much is still to be learned.

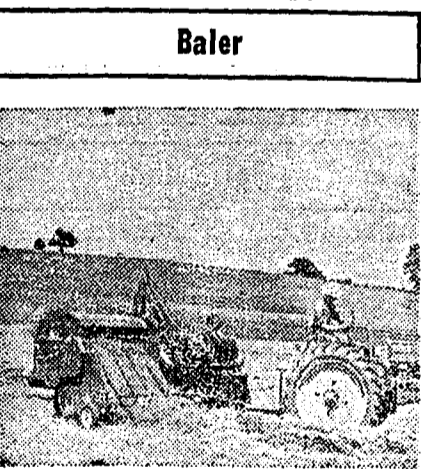

**Uses Sought for 'Freak' Liquid Metal Gallium**  
Anyone who wants to try to find a use for gallium, a metal which the average layman would classify as a "freak" because it is liquid at normal temperature, can buy it at a special "research" price, according to Dr. Ernest L. Bickerdike, associate professor of chemistry at Santa Barbara College of the University of California.  
Despite its unusual characteristics, no specific use has been found for gallium, although its presence has been known since discovery by a Frenchman in 1875.  
On a recent sabbatical leave at the University of Michigan, Dr. Bickerdike engaged in research on this metal under the direction of the eminent analytical chemist, Prof. H. H. Willard. Although he believed he was on the track of finding a new reagent for use in working with the contradictory metal, his research did not come up with an answer to that question: "What is gallium good for?"  
Found in small quantities in some zinc ores and some aluminum ores, the Aluminum Co. of America (Alco) offers it for research purposes at \$3.25 a gram, as compared to the normal price of \$4.50 a gram. This would make an amount the size of a nickel come at the "bar-gain" price of \$16.

**Cracked Corn Found Best Feed for Suckling Lambs**  
Tests made at the University of Kentucky experiment station indicate cracked yellow shelled corn is the cheapest and best ration for the creep-feeding of suckling lambs.  
Experiments carried on over a period of nine years compared cracked yellow corn with mixtures of feeds. These included cracked corn, crushed oats and pea-sized linseed oilmeal; cracked corn and commercial milk substitute; and a third ration composed of "sweet feed" made of corn, oats, bran, linseed oilmeal, molasses and salt.  
The experiment was conducted under the most controlled conditions possible, Kentucky educators reported.  
The conclusion of the experimenters: "None of the three more costly mixtures showed any consistent or significant superiority to corn alone in rate of gain, efficiency of gain or market finish of the lambs."  
The experiments were not designed to answer the question of whether creep-feeding pays, but rather to determine what rations are best for creep-feeding under Kentucky conditions.

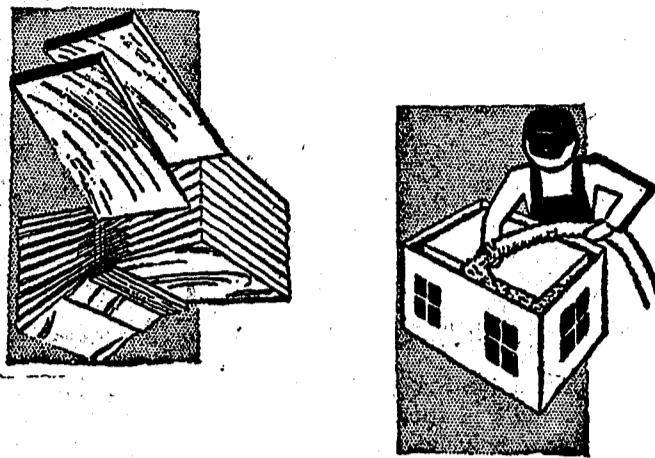

**Baler**  
This automatic baler is a good example of how machinery is saving manhours on the farm. The baler can package a ton of hay in less than half the time needed by hand methods. With only the tractor driver in the field, this machine automatically picks up hay, slices it, presses it into compact packages and then ties the bale with two strands of twine. Further information is available at local machinery dealers or in the local hardware stores.  
**Rice Is Most Important Food in the World Today**  
Although most Americans believe the statement exaggerated, rice is the most important food crop in the world today. It is the basic food of more than half of the world's population. In recent years the cultivation of rice has increased in this country, but in Asia it is the important crop because it is virtually the only food millions of people have—their means of sustaining life.

**War and Peace**  
Development of the flame thrower, which first became a military weapon during World War II and has been used extensively by the Army in Korea, led to the peacetime perfection of a highly proficient weed killer. Tests at the Army Chemical Corps Center, at Edgewood, Maryland, proved that a thin jet of burning, jellied gasoline would kill weeds between rows of plants without harming the plants themselves.  
**Deciding Issue**  
If it had not been for the magic of the name "George Washington" the fabulous Phineas T. Barnum may have lived out his life in obscurity as a poor country storekeeper. One day, the man who was to become known as "the greatest showman on earth" heard an interesting story of a remarkable Negro woman, Joice Heth, who claimed to be 161 years old. When he went to see her, purely out of curiosity, she asserted that she had been the nurse of George Washington. Barnum became so excited upon discovery of documentary evidence to back up her claims, he decided to sell his store and exhibit the strange old woman in the east. The tour proved so successful, and stirred up so much interest, he was inspired to engage in other similar ventures. Finally, he formed the partnership with James A. Bailey out of which grew the most famous circus in America.

**Where We Get Pepper**  
Pepper is native to the East Indies. We import most of ours from India and Indonesia, with lesser amounts from various ports all within a 1000-mile radius of Singapore. Pepper vines are trained to climb poles or other supports like a grape vine. Berries appear within two or three years of planting, although the vine does not attain maturity until the age of seven or eight years. When ready for harvesting, the berries look like clusters of red currants. While spread out for drying they change color and shrivel, finally becoming the black wrinkled berry with which we are familiar.  
**Cabbage Production**  
In the United States, New York leads in the production of cabbage for both fresh and sauerkraut markets. Texas and Florida, with winter crops are close competitors in the fresh market. Wisconsin rates second in the output for sauerkraut. Cabbage—whose name is an Anglicized form of the French word "caboche" (head)—is a member of the Brassica family which includes such diversified types as Brussels sprouts, cauliflower, kale, broccoli, turnip and rutabaga. It is generally classified in terms of head shape and comes in three colors—green, white and red (magenta to purplish).

Diabetics Can Live Long,

Active and Normal Lives The control of diabetes so that a person suffering from the disease may lead a long, normal and active life has become a reality.

In a study of 700 diabetic patients suffering from the disease 25 years or more, Dr. Elliott P. Joslin, of Boston, found approximately 80 per cent active and a few in perfect health.

"The patients in perfect condition are those whose treatment was initiated (with hardly an exception) with strenuous control of diabetes in their early years."

"In this series the evidence is overwhelming that strict treatment of diabetes pays and, moreover, that control of the disease is possible."

Of the total group studied, 23 patients had had diabetes for more than 25 years and yet had a sound body with urine free from albumin, eyes without diabetic complications...

Bible School Opens

The Kendrick Community Church Bible School opens Monday, June 2, at 9:00 a. m., and lasts until 11:30 each morning.

Special music, hand work, devotions and Bible study have been planned by a corps of capable teachers and a cordial invitation is extended to the children of the community.

Mistake in Identity

In describing the prize-winning float of the American ridge 4-H Club on Parade Day, we were misinformed as to the identity of two entries.

In the case of the 4-H Club their float was of the traditional green and white, with the girl members riding on the truck, and modeling clothing they had made.

Attend Officers Training School Last Wednesday the Kendrick W. S. C. S. officers drove to Orofino to attend an officers training school for that organization.

Attend Toy Show Mr. and Mrs. Frank Abrams and Mr. and Mrs. Jud Lee drove to Spokane Sunday to attend the Northwest Hardware Toy Show.

Mosquitoes Eat Dog (Food) In Unique Clinic Studies

Three million radioactive labeled mosquitoes raised on tap water and finely ground dog food containing radiophosphorus or a phosphate derived from it, were recently used in experiments conducted by the Chemical Corps Medical Laboratories of the Army in order to determine insect flight ranges.

With the constantly increasing human activity in northern regions, the study of arctic and subarctic species of biting insects has assumed great importance.

In this particular research project the region near Churchill, Manitoba, was selected. This region is on the timberline, and has enormous mosquito populations which include both tundra and conifer forest species.

Insomnia Insomnia is a demon that has plagued people all through the centuries. Now there are so many individual remedies that if a person tried them all, he'd never have time to sleep.

Lightning Bugs The full details of how a lightning bug produces its light are not fully understood, although it is known to utilize a chemical reaction involving water, oxygen, a rather simple compound called "luciferin" and a more complex one, belonging to the class known as enzymes, called "luciferase."

# Potlatch Chief Sez

Published by the Kendrick Creamery

**HELLO, THERE, FOLKS —**  
Yes, folks, Memorial Day is at hand, and that's the day on which we visit the graves of loved ones, often followed by a picnic.

Now when you think of picnicking you naturally think of sandwiches and salad. Here's a suggestion that will make your lunch all the better. Make those sandwiches with delicious Potlatch Chief brand butter, and take along a container or two of Potlatch Chief brand cottage cheese. You will find the latter delicious when combined with pears or pineapple — or just eaten as it comes from the container.

A woman was mailing the old family Bible to her brother in a distant city. The postal clerk examined the heavy package carefully and inquired if it contained anything breakable. "Nothing but the Ten Commandments," was the quick reply.

Are you drinking all the milk you should? Often in warm weather we tend to slow up on milk drinking. Doctors say every adult needs at least a pint a day and every child at least a quart. So, for your health's sake drink pure, pasteurized Potlatch Chief brand milk. Either in homogenized or "straight."

Girl: "Do you like girls?"  
Young Man: "Not much. They're too biased."  
Girl: "Biased?"  
Young Man: "Yes; bias this and bias that!"

Ice cream is the great American dessert. Do you keep it on hand at all times to serve with meals or when unexpected company drops in? You'll find that Potlatch Chief brand is the "tops" at all times. Made in all the standard flavors, plus specials. Take some home today!

#### WHAT CAMERON FOLKS ARE DOING THESE DAYS

**Church News**  
The Women's Missionary Society met at the home of Mrs. Herman Meyer Sunday evening with Mrs. George Havens as co-hostess. The topic for study was "Women's Responsibility in the Church." Mrs. John Blankenship and Mrs. Fred Silflow gave a report on the convention at Endicott, Wash. Mrs. Meyer and Mrs. Havens served delicious refreshments.

The two-week Bible school study course began Monday morning at the Parish hall, with children from four to thirteen years enrolled. Teachers are Rev. Meske, Mrs. Meske, Karen Penland, Barbara Silflow and Leone Parks.

Among those who attended the Missionfest at the Juliaetta Lutheran church Sunday were Mr. and Mrs. Gus Kruger, Mr. and Mrs. Henry Wendt, Mr. and Mrs. Walter Koepp, Mr. and Mrs. Marvin Silflow and Mr. and Mrs. Herman Meyer.

**Other News**  
Mr. and Mrs. Henry Wendt returned Friday from a five-week trip in the east, bringing home a new car. They report a most enjoyable time.

Mrs. John Blankenship and children and Mrs. Gus Kruger were visitors in Moscow and Lewiston Friday. Miss Elsie Kruger of Lewiston spent the week-end with her parents, Mr. and Mrs. Gus Kruger.

Mr. and Mrs. Kenneth Wilken visited with Mr. and Mrs. Henry Wendt Saturday evening.

Mrs. Ted Weyen and children visited with Mrs. Wilbur Tarbet and family, Sunday.

Ted Weyen, Mr. and Mrs. Billy Weyen and Wilbur Tarbet fished at Cheery Lanes, Sunday.

Mrs. Kenneth Wilken visited Monday afternoon with Mrs. Gus Kruger.

Mr. and Mrs. Otto Silflow and son Roy drove to Fairfield, Wash., Sunday, to attend the Confirmation of Mrs. Silflow's nephew.

Mrs. James Whiting visited with

Mrs. Marvin Silflow Monday afternoon.

Mr. and Mrs. Herbert Schwarz and daughter visited with Mr. and Mrs. George Dendler and family on Fix ridge Sunday evening.

Mrs. Henry Wendt, Mrs. Herbert Schwarz and Mrs. Fred Newman visited with Mrs. George Wilken in Kendrick Monday evening.

Mr. and Mrs. Otto Silflow and Mrs. Walter Silflow left Tuesday morning for Bayview, to spend a few days fishing.

Mr. and Mrs. Homer Parks, Leone and Lyle drove to Spokane Monday to attend graduation exercises at Whitworth College. Their daughter, Mrs. Harry Roach, received her degree.

News is very scarce here. Everyone seems to be in the fields trying to make up for lost time, due to the wet spring.

#### GOLDEN RULE

May 27 — Mrs. Homer Brutzman, 1115 8th St., Lewiston, is a house guest of Mrs. Russel Perkins.

Mrs. John Bashor, of Redwood City, California, came up for the Commencement Exercises of Kendrick High school, her daughter, Sonjha Hoisath, being one of the graduates; and to visit another daughter, Mrs. Ralph Stage and family.

Mr. and Mrs. Harry Cowger and family were week-end visitors in the Ralph Stage home, recently.

The Southwick Homemakers Club realized \$30.00 from their food sale at Kendrick Parade Day. The parade was very good and all who attended enjoyed it.

S2/c Stanley Martin, and his bride, the former Nina Dale of Lewiston, visited at the Roy Martin home on Wednesday. Stanley has a 30-day leave.

Mrs. Leland Marvin, Mrs. Russel Perkins, Mrs. Homer Brutzman and Mrs. D. V. Kuykendall spent two afternoon the past week at the Teakean Grange hall, making new stage curtains.

Some members of the Homemakers Club, and students' mothers, attended the last-day-of-school picnic at the Southwick school, Thursday.

Doris and Steven Christensen are spending a couple of days with their grandparents, Mr. and Mrs. Glen Betts, while their parents are at Bayview on a fishing trip.

Arthur Bohn and Antone Slette of Elk River are staying at the Glen Betts home while cleaning out the fire roads in the Mason Butte section.

Mr. and Mrs. Oscar Lawrence took their daughter Joan to Lewiston on Sunday to go to work at Summer-ville home. She is taking the place of Evelyn Kazda, who is going on a two-week vacation after working there the past year.

Oscar Lawrence did some seedling for Roy Martin the last of the week.

#### Return To Camp Rucker

Mr. and Mrs. John A. Thomas, Denny Driscoll and JoAnn Rauch took Pfc. and Mrs. Earl Thomas to Spokane Saturday evening, May 24, to catch the train to Camp Rucker, Alabama. They have been home on furlough since May 5. Upon his return to camp he goes to West Virginia for mountain training.
