

KENDRICK GAZETTE

VOLUME 62

KENDRICK, LATA H COUNTY, IDAHO, THURSDAY, JUNE 12, 1952

NO. 24

WHAT JULIAETTA FRIENDS ARE DOING THESE DAYS

Mr. and Mrs. Mikey Hedler and Mr. and Mrs. Rex Knight spent the week-end fishing at Bobles Cabin. Mr. and Mrs. Caus Clark spent the week-end in Walla Walla at the home of Mr. and Mrs. Estil Richardson. Mr. and Mrs. Warren Knight of Lewiston were visitors at the Lloyd Knight home, Sunday.

Mr. and Mrs. Lloyd Knight and Mr. and Mrs. Caus Clark were dinner guests in the home of Mr. and Mrs. Rex Knight Friday evening.

Mrs. Harvie Shepherd and Mrs. Rex Knight were visitors at the home of Mrs. T. Banks in Lewiston Friday night.

Mr. and Mrs. Clarence Johnston, formerly of American ridge, are moving into the Methodist parsonage this week.

Mr. and Mrs. Lloyd Ripley and children of Spokane were week-end guests of Mr. and Mrs. Chas. Nelson.

Laura Nelson and daughter Karen spent a few days last week visiting with relatives at Orofino.

The Jack Browning family spent Sunday fishing in the Elk River area.

Laura Nelson was a Sunday visitor in the Geo. Wilson home at Ferdinand.

Mr. and Mrs. Lawrence Wilson and family of Farmington, Wash., called on relatives here Sunday.

Ardene Nye visited relatives in Clarkston over the week-end.

Frankie Peters and Peggy Hadley, Lewiston, visited in their respective homes here, Wednesday.

Mr. and Mrs. John Corwin, Lapwai are the proud parents of a daughter, Sharla Rae, Mrs. Corwin will be remembered here as Arnetta Sams.

Mr. and Mrs. E. A. Kirkpatrick of Hayden Lake, visited Monday with Mr. and Mrs. Bruce Sherman and other old friends.

Mr. and Mrs. Leonard Cole were Sunday afternoon callers in the home of Mr. and Mrs. Phil Southwick and daughter Marlene.

Mrs. Phil Southwick and daughter, her mother, Mrs. Fay Stephens, and sister Clara Dabercro motored to Peck Friday, where they visited in the Andrew Bobbitt home, Marilyn Lasky and Jane Stephens returned with them.

Mrs. Fay Stephens, Mr. and Mrs. Phil Southwick and daughter Marlene and niece Vickie Dabercro accompanied Miss Clara Dabercro to the Jack Driscoll home, where she is working for the summer, Sunday.

Mr. and Mrs. Rex Tabor and daughters Nancy and Jeanette were Saturday evening guests of Mr. and Mrs. Phil Southwick.

Mr. and Mrs. Jess Mundell and Janie Stephens visited in Troy Sunday.

During the first week of Bible School at the Juliaetta Church of the Nazarene there were a total of 50 youngsters enrolled. Nineteen of these have been present all five days. On the night of Friday, the 13th, at 7:30 p. m., the youngsters will present a program at the church for their parents and friends. Everyone in the community is invited to attend. The teachers and pupils are planning a Bible School picnic to be held at Spalding park Saturday morning.

Sunday afternoon Rodney and Royce Nutting visited Carl Strohm at his home. LaVon Strohm spent the afternoon with Carla Nutting at her home.

The W. F. M. S. of the Nazarene church met at the home of Virginia Sower last Thursday afternoon. The topic of study was "Bible Schools of Central and South America."

Jasper Nutting spent Monday in Moscow and Pullman on business.

Mr. and Mrs. Charlie Schultz leave Thursday for Dutton, Mont., to visit his brothers John and Fred Schultz and their families; also Mrs. Hiram Hodges (his sister). They plan to stop enroute at Coeur d'Alene to visit her sister, Mrs. Alice Totton. They will be away about 10 days.

Receives Thirty-Year Plaque
Last Thursday E. A. Deobald of the Kendrick Garage received a beautiful plaque from the Goodyear Tire & Rubber Co. in honor of his 30th year as a Goodyear dealer.

The plaque is a beautiful thing—the base of black walnut and the wording in raised brushed bronz lettering.

B. L. Schroga of the rubber company, who came to Kendrick to make the presentation, said that he had been with the company for 15 years, and that this was only the second time he had made a 30-year plaque presentation.

Rebuilding Sub-Station
A Washington Water Power Company crew arrived here Monday to begin the work of rebuilding the Juliaetta sub-station to carry a 110,000 volt load rather than the present 60,000-volts.

New poles are to be set, new oil-type switches installed, and the station otherwise improved.

It is said that electrical power consumption in this area (including the Orofino tie-up) has increased almost three times since the station's original installation.

Receive Army Commissions
U. of I., Moscow — Gordon Cook, son of Mr. and Mrs. Ben P. Cook, and Maurice Long, son of Mr. and Mrs. Tom Long, both of Kendrick, have received commissions as second lieutenants in the U. S. army reserve. The commissions were granted as a part of the University of Idaho Commencement exercises.

Heat Followed By Rain

Last week-end the thermometer began a steady climb from the low 80s to the high side, on Saturday reaching a reading of 90 degrees under a bright sun.

Sunday the heat indicator did even better, hitting a high of 92 degrees — but Monday it outdid itself, reaching for the middle 90's when it recorded 94 degrees. Late in the afternoon, however, clouds began obscuring the sun, and that evening we were treated to a real lightning and thunder storm, which was followed in turn by wind.

Shortly after daybreak Tuesday rain began falling, and although it only lasted about three hours, it was a real soaker — and welcomed by most of the farmers.

COOK-BROTNOV NUPTIALS SOLEMNIZED ON SATURDAY

Miss Georgia Cook, daughter of Mr. and Mrs. Asa Cook, Juliaetta, became the bride of Harmon Brotnov, son of Mr. and Mrs. Ralph Brotnov, Lewiston, at a beautiful ceremony Saturday, June 7, at 2:00 p. m. in the Methodist church at Juliaetta.

The Rev. F. C. Schmidt officiated at the simple but impressive double ring ceremony, performed against a setting of syringa and pink roses, with tall candles flanking the altar.

The bride, given in marriage by her father, was lovely in a white nylon-chiffon print afternoon dress. Her fingertip veil was fastened to a delicate flower head band. She carried a white Bible on which lay a lavender orchid.

The bride's sister, Mrs. Wm. Anspach of Lewiston acted as her matron of honor. She was attired in a sheer pink afternoon dress. Her corsage of pink complimented the ensemble.

James Brotnov, a brother of the groom, was best man. Both groom and best man were attired in the conventional dark business suits.

Maxine Peel of Moscow sang the ever beautiful "Because," accompanied by Mrs. M. C. Halliday, who also played the wedding march and recessional.

Miss Peel was a classmate of the bride while a student at N. I. C. E. A reception was held immediately following the ceremony in the church basement for some 50 relatives and friends.

The bride is well known here, having graduated from Kendrick High school with the class of 1949. She attended N. I. C. E. at Lewiston for two years and has spent the past year teaching at Elk River.

The groom is a sophomore at W. S. C. This summer the young couple will live in Lewiston, where he is employed at the Potlatch Forests mill.

P-T. A. Canning About To Begin
Since canning season is close at hand the Kendrick Joint District P. T. A. Canning committee is interested in any surplus food produce you may have in your garden and upon the farms throughout the territory.

When anyone has produce to donate, call your Community chairman and she will find help to care for it. Following is a list of Canning committees for this season: Kendrick — Mrs. James Holt, general chairman, Mrs. Oral Craig, assistant. American Ridge — Mrs. Lawrence Heimgartner. Juliaetta, Mrs. Ray Scherer (co-chairman to be named later). Leland-Cameron — Mrs. Walter Sil-Leland, chm. Mrs. Leonard Wolff assistant. Southwick — a chairman has not been named. Anyone willing to take this position please call Mr. James Holt, Gold Hill — Mrs. A. Pederson, Mrs. Marion Rowden, Bear Ridge, Mrs. Ronald Jones, Mrs. Walton Morey.

Ross Armitage, president of the P-T. A., sends out a plea to any farmer asking if there isn't someone with two extra acres of summer-fallow or like ground they would be willing to donate to grow potatoes for the school Hot Lunch program. P-T. A. members will cultivate, buy seed and plant and care for same. If so — please contact Mr. Armitage this week, as speed is important.

To Make Big Tax Payment
The Washington Water Power Co. will turn over \$23,583.16 to Latah county tomorrow (June 13) — the second half of 1951 Idaho property tax payments.

Nine counties will be receiving a total payment of \$219,841.83, Herman Schupfer, local representative for the company said. The entire bill for the year comes to \$442,807.92, an increase of 8 percent over the previous year.

Latah county's two payments amounted to \$47,166.34. This was an increase of \$4,476.39 over 1950, due primarily to higher levies, according to Edna M. Theriault.

Following is the amount of property tax being paid to other Idaho counties tomorrow: Benewah, \$10,539; Bonner, \$2,662; Clearwater, \$10,029; Idaho, \$12,610; Kootenai, \$65,883; Lewis, \$6,268; Nez Perce, \$61,570; and Shoshone, \$26,693.

Honored With Shower
Mrs. Roy Clemehagen (nee Dorothy Holt) was honored with a bridal shower Tuesday in the Community hall on Big Bear ridge.

Hostesses were the Mesdames Harley Perryman, Cecil Chamberlain, Ed. Galloway and Walton S. Morey.

The bride received many lovely and useful gifts, and a most pleasant afternoon was reported.

Delicious refreshments were served at the close of the afternoon.

PERSONALS AND NEWS BITS ABOUT KENDRICK FRIENDS

Lorraine Steigers spent the week-end at her home here. She is employed near Clarkston.

Mr. and Mrs. Clarence Johnston have moved to Juliaetta and are living in the Methodist parsonage. They sold their farm near here to Mr. and Mrs. Mizner of Prineville, Oregon, who are in the process of moving.

H. C. Schupfer leaves Friday for Spokane, from which city he will fly to New York, and from there to Vienna, where he will meet their daughter Beverly. He is scheduled to arrive there June 16. He plans to visit relatives there and do some sight-seeing with his daughter. They plan to return together in August. Beverly has spent the past several months studying at the university at Graz, Austria.

Mr. and Mrs. Otto Schupfer and Mr. and Mrs. Walter Meyer attended the Commencement Exercises at the U. of I. in Moscow Monday morning. Their daughter, Maribel Schupfer, was one of the graduates.

Miss Gay Deobald, Gooding, Idaho, spent the week-end here with her mother, Mrs. Elsie Deobald. On Sunday afternoon her mother took her back to southern Idaho, where they will stop in American Falls for a brief visit with relatives.

Pat McCreary, who is employed in Spokane, arrived home Saturday evening for a short vacation with her parents, Mr. and Mrs. W. L. McCreary.

Jerry Brown is spending some time in Spokane visiting his brother, Mr. and Mrs. Thomas Brown and daughter.

Ben Cook accompanied John Hodder of Genesee on a fishing trip Sunday.

Mr. and Mrs. Jack Kuykendall spent the week-end fishing at Lake Pend Oreille.

Mr. and Mrs. John Johnson returned Tuesday from Portland. Their little granddaughter, Jenifer Lehman accompanied them home for a visit.

Mr. and Mrs. Howard Hoffman spent several days of last week fishing at Lake Pend Oreille.

Mr. and Mrs. Howard Hoffman and children visited Sunday with their cousins, Mr. and Mrs. Harold Powell and family, at Cavendish.

Tuesday morning Rev. and Mrs. F. C. Schmidt left for Seattle to attend the annual conference of the Methodist church. Delegates accompanying them were Mrs. Howard Hoffman, Nancy Callison and Mr. and Mrs. E. O. McAllister, the latter of Juliaetta.

Mrs. Leo Peters and baby of Spokane spent last week in the A. G. Peters home. Leo joined them Saturday afternoon, and took his wife and baby home with him Sunday evening. He is now employed in the wiring department at Chief Joseph Dam.

Mr. and Mrs. A. G. Peters, grandson David, and Mrs. Leo Peters and baby visited with Mrs. Raymond Hudson in Orofino, Wednesday.

Raymond Hudson and son David attended the Junior Rodeo in Lewiston, Sunday.

Mr. and Mrs. W. A. Watts spent the week-end in Seattle visiting his brother, Dr. and Mrs. C. E. Watts and family. Upon returning home Pamela Sands accompanied them and will visit her aunt, Mrs. W. L. McCreary for a couple of weeks.

Mr. and Mrs. R. L. Blewett, accompanied by Mr. and Mrs. Ben P. Cook, attended graduation exercises at the U. of I. Monday morning. Gordon Cook, their son, received his R. O. T. C. commission during the ceremonies.

Maribel Schupfer left Wednesday morning of this week by car for New York, with a group of U. of I. students on a sight-seeing tour. From New York, she will drive to Montreal, Canada, from which point they will board a boat for Europe, arriving there about the middle of July. They plan to visit the Scandinavian countries, then to Italy and other points of interest. Finally they will join her cousin, Beverly Schupfer and her father, H. C. Schupfer, returning in August.

Thomas Weber and relatives, who have been visiting his mother, Mrs. Elsie Weber and other relatives here for the past ten days, left for their home in Austin, Minnesota, Wednesday of last week.

Susie Candler, daughter of Mr. and Mrs. P. G. Candler, left Sunday for Sandpoint where she will visit the Forrest Wetterow family for a week. From there she will go to Lawrenceville, Illinois, to spend the summer in the home of Mr. and Mrs. Gene Carl and daughter Rowena.

Clarence Riemann left last week for his home in the Lewiston Orchards, where he will spend the summer.

Wayland Davis, Williston, North Dakota, accompanied by his parents, Mr. and Mrs. John Davis of Craigmont, made a brief stop in Kendrick Wednesday of last week to visit with old-time friends, while on their way to Colfax to visit his sister. Wayland had been visiting his parents, and planned a longer stay in Kendrick — but time ran out on him. Anyway, he says Kendrick looks natural, only more "grown-up" and he found the old friends a very welcome sight.

Mr. and Mrs. E. A. Deobald attended the U. of I. Commencement Exercises at Moscow Monday morning. Their niece, Maribel Schupfer, was one of the graduates.

Yeo 1/c Richard Kuykendall arrived home last Thursday from San Diego to spend a 30-day leave with

(Continued On Page 2)

CREATION OF ATOM BOMB BRINGS FORTH PROBLEMS

U. of I., Moscow — Modern science, fully aware that world-wide confusion has resulted from its creation of the atomic bomb, is now preaching the necessity of looking to values outside of science for the moral control to master this power. Dr. C. Clement French, president of Washington State college, told 722 graduates and more than 4,000 guests at the 57th University of Idaho Commencement exercises.

In introducing the new president of neighboring WSC, President J. E. Buchanan of the University of Idaho said that: "It is a personal pleasure, because I expect to have many pleasant associations with him in the years to come. We will probably glare at each other during a certain football game once a year, but outside of that I think we will get along fine."

In addressing the Idahoans, the educator, who holds his doctorate in physical chemistry, said:

"To each of us modern science is now saying that the inner spiritual resources of man must be such as to control the power he has developed and that in such inner resource lies his real life. Indeed, that without such resources, man may have no life."

"Science is now doing some old-fashioned evangelistic preaching. Seek wisdom and character that can control these powers — which are so great that with them we may destroy our very civilization — and turn them toward the good of mankind. Seek peace, for in war lies utter destruction for you all. Seek world-wide good will and faith that man can be more than a brute who will wipe out all that he has made."

"Science tells us now that outside of it must be found the power to decide the use of this knowledge. And the place to find it lies in what we have always called religion, those ultimate spiritual values, those faiths we hold as to life's meaning."

Dr. French accused the politicians and diplomats, who think in the pattern of a past generation although standing in an atomic age, of failure to be concerned with the urgency of the situation. He credited the scientists with realization of the power now made available and the certainty that spiritual controls must be developed within the hearts of men.

"Only the blind fail to see that our ultimate salvation lies in world peace and order — preceded by adequate security and protection," he said.

"We are truly in a day when the forces of science require control. We must realize that science is not the whole answer. We cannot turn back the clock and say to science, 'Undo what you have given us. Give us time to catch up to you while you stand still.' So we must find the answer to our confusion in accepting what science has given us and developing man's resources to control and use this power wisely."

"All who are concerned with the training of young men and women have a great responsibility today. We must see that our educated young people have those spiritual resources which are needed to make this world a liveable place. We must cooperate with all who work toward such development."

Discussing public reaction to the atomic bomb, Dr. French characterized as the "most ridiculous" reaction that of the person who thinks that in some way we can outlaw atomic power or keep the secret of the atomic bomb and go on having wars without it.

Every scientist knows that while a few mechanical details of the atomic bomb can be kept secret, there is no general secret that can be kept from anyone. Dr. French said, the escapist who holds to such an idea needs only to look back at history to see the denial of his views. Every weapon in turn has seemed too horrible to use, but sentiment has not prevented the use of any weapon.

It is essential that the public, while living in a scientific age, understand the role and meaning of science in the world — the slow but systematic scientific method and the non-magic nature of science. Dr. French pointed out. Then the public will not expect miracles from science, nor think that its wishes will change the natural and orderly laws of nature.

Tracing the relationship between science and religion in the western world, Dr. French said: "Science in bondage to dogma is gone forever. Science the enemy of the spiritual — for intelligent Christians that day is past. Science as the competitor of religion and spiritual value — still true but not of crucial consequence. Now the fourth era begins with science itself doing some old-fashioned preaching."

"I would suggest that in matters of value it is foolish to say that science can meet the deepest needs of men. It can not even give us the fullest appreciation of a beautiful sunset. Knowing the wave length of the light involved is not enough."

Dr. French quoted Albert Einstein's comment about a sunset: "He who can no longer pause to wonder and stand rapt in awe is as good as dead. His eyes are closed."

Following the talk President Buchanan conferred degrees on 610 seniors and 112 graduate students.

Undergoes Tonsillectomy
Little Lloyd Stevens, son of Mr. and Mrs. Marion Stevens, Juliaetta underwent a tonsillectomy at the office of Dr. Christensen on Wednesday, June 4. He is recovering nicely.

Among The Injured

Walter Zimmerman suffered an injured leg and scratched arm Monday, when a log rolled on him while engaged in logging work in the Pine creek canyon.

Sandra Peters, daughter of Mr. and Mrs. Gordon Peters, stuck a crochet hook into her left hand Monday. Dr. Christensen had to remove it by surgery.

Virgil Goss suffered a severe cut below the elbow on his left arm Monday, while engaged in logging work. He was sawing down a tree, while someone near was "limbing," and the axe slipped from their hands a struck him. Dr. Christensen cared for the wound.

AREA MEMORIAL SWIMMING POOL TO OPEN JUNE 15TH

Present plans call for the opening of the Area Living War Memorial Swimming Pool at Kendrick on Sunday, June 15th — weather permitting.

Pool hours will be as follows: 1:30 p. m. to 5:30 p. m., and 7:00 p. m. to 9:00 p. m., Tuesday's through Sunday's. The pool, as in the past, will be closed on Mondays.

Free lessons will be given again this year, with a Beginners and Secondary courses planned, and possibly, at a later date, some Advanced lessons will be given. No Lifesaving courses will be taught, however.

Lessons will be given in the mornings, with the date of the classes to be announced later. However, all interested in lessons will be asked to register.

Parker McCreary will be the life-guard this season, and he will be assisted at the pool by Joyce Armitage and Ann Kanikkeberg.

Prices this season will remain the same as last: Children: Season ticket, \$3.00, single admission 25c. Adults, (14 years and up) season ticket \$5.00; single admission 40c.

It should be borne in mind that this pool is the property of everyone. It is open to everyone during all regular hours — that is the reason that lessons are given in the mornings — so that all may enjoy this fine sport. Admission charges are kept as low as possible, in fact, they will not pay expenses, and the deficit is met by the village.

So enjoy swimming yourself, have your children take lessons so that they too may enjoy this fine sport and perhaps have at their command the means of saving their life or the life of a companion.

Writes From Korea
Under date of May 29, from Korea, Pvt. Gene Kuykendall writes:

Dear Bill — I want to write and tell you how much I enjoy and appreciate your paper and the letters that you print from the service men. I am with the 185th Engineering Combat Battalion in the heavy equipment section. When I first came here, because of my knowledge of air compressors, and of dozers, the school for which I attended in the states, I was put in the parts trailer as a parts man. It is our job to get out the necessary parts for the equipment when it breaks down.

When I first got here we were helping move a Marine outfit, which I learned later from your paper, was Frank Dammarell's outfit. We are now stationed at his old camp, Camp Tripoly, which is about 20 miles from the front lines.

I don't know whether or not Mom told you, but my address has been changed again. It is: H & S Co., 185th Engr. Combat Bn., APO 301, c/o P. M., San Francisco. Most all of the papers that I have been receiving have been coming to my old address in Japan.

There is one point on which I do not agree with Frank — and that is calling the Koreans "Gooks," because the word really means foreign, and we are the foreigners over here. I don't care what he calls the North Koreans, but some of the South Koreans are very good friends of mine and feel very offended if they are called a "Gook."

Well, that is about all for now. Tell Mom not to worry — that things are not as bad as some people make out. — Yours truly, Gene.

Hold Family Reunion Picnic
Members of the Holt and Gentry families held a family reunion and picnic Sunday, June 1st, at Atwater Lake, pausing enroute to decorate the graves of relatives at Wild Rose cemetery on Big Bear ridge.

Those present were Mr. and Mrs. Joe Clark and granddaughters Nancy, Letta and Dixie, Mr. and Mrs. Vaughan Browning, Mr. and Mrs. Stanley Smith, Mr. and Mrs. Jess Shelton, Mr. and Mrs. Helmer Westing, Mrs. Bill Morris and Miriam, Bob Penland and Clell Davis, all of Spokane; Mr. and Mrs. Roy Florence and Jackie, John Mathis and Johnnie Rice from Clarkston; Mrs. Ray Birge and family of Kennewick; Veda Butler, Mrs. Jim West and family, Sherry Gibbs, Mr. and Mrs. Jerry Lockwood and Mr. and Mrs. Felix Holt and family of Lewiston; Mr. and Mrs. Wm. Shawley, Kamiah; John Gentry, Weiser, Idaho; Mr. and Mrs. Gil Erlwine and son Jerry of Southwick; Mrs. Dave Gentry, Mr. and Mrs. James Holt and family, and Oreta Holt, Kendrick.

Club Meeting Postponed
The Evergreen Friendship Club meeting has been postponed until Wednesday, June 25th. The meeting will be held at 2:00 o'clock in the home of Mrs. F. C. Schmidt.

Program for the afternoon: "New Textiles."

NEWSY ITEMETTES FROM AMERICAN RIDGE AREA

Hi-Hope Club
All Hi-Hope Club members who plan on attending the All-Clubs day in Moscow on June 18, are asked to meet at the George Havens home on Monday evening to decide on their badges and food. Our regular club day, which was to be on the 19th of June, will not be held until the 26th of June, at the home of Mrs. Norla Callison, at which time Mrs. Wayne Davis, Mrs. Otto Schupfer and Mrs. L. W. Heimgartner will show us new fabrics.

4-H Club Meeting
The girls' 4-H Club met Tuesday with their leader Mrs. Lawrence Heimgartner. After a short business session the First year girls made pot holders, and the third-year girls cut out pajamas. The next meeting will be June 24, at the home of Patty Nelson.

Boys' 4-H Club
The Boys' 4-H Club met Tuesday evening with their leader, Cecil Roberts, at the Harold Roberts home. Rodney Hendricks joined the group as a new member.

Other News
Mr. and Mrs. Peterson, Mrs. Spence and Mrs. Johann, all of Moscow; Mrs. C. E. Fry, Mrs. Norman Fry and Mrs. C. E. Harris were Tuesday afternoon callers at the Walter Benscoter home.

Mr. and Mrs. Norla Callison were in Lewiston on Wednesday, attending an R. E. A. meeting.

Nancy Callison left Tuesday morning for Seattle to attend a C. C. Y. conference in that city.

Mrs. Harry Benscoter drove to Peck on Tuesday, taking her mother from there to Lewiston to consult a doctor.

Mrs. Henry Jones and Mrs. Grant Bateman were Sunday afternoon callers at the Harry Benscoter home.

Mrs. Warney May, Jr., accompanied her mother, Mrs. Roy Glenn and daughters to Walla Walla Sunday to attend graduation exercises, one of their cousins being a graduate. They returned Monday evening.

Last Friday evening Woody Bernard, Paul Spang, Don Welton and Dick Parsell, University of Idaho students were guests of Mr. and Mrs. Norla Callison and family.

Patty Carlson of Genesee is spending this week with her uncle and aunt, Mr. and Mrs. Andy Cox.

Mr. and Mrs. Frankie Benscoter spent Sunday in Craigmont with Mr. and Mrs. Don Benscoter and family.

Mr. and Mrs. Bob Benscoter and family of Spokane spent Saturday night and Sunday with his parents, Mr. and Mrs. Harry Benscoter.

Mr. and Mrs. Allen Gillespie and daughters were Sunday dinner guests of Mr. and Mrs. Wayne Davis and family. Mr. and Mrs. Lawrence Heimgartner and daughters were afternoon callers.

R. S. Parson and Wayne Parson, both of Cloverland, were guests one day last week of Mr. and Mrs. Norla Callison.

Bob Nelson and son Jim were Sunday morning callers at the Harry Benscoter home.

Mr. and Mrs. Warney May, Sr., of Lewiston were Tuesday guests of Mr. and Mrs. Warney May, Jr. Elwood Wooding of Moscow was an afternoon caller.

Dr. and Mrs. J. M. Lyle, Sr., of Lewiston were Sunday dinner guests of Mr. and Mrs. Harry Benscoter.

Mrs. Wayne Davis and Jorene Benscoter were Moscow visitors on Wednesday.

Mr. and Mrs. Harold Roberts and family picnicked at Lake Waha Sunday.

Mr. and Mrs. Harley Eichner, Jr., and daughter of Tucson, Ariz., are expected to arrive here tonight (Wednesday) for a visit with his parents, Mr. and Mrs. Harley Eichner, Sr., and other relatives.

Mr. and Mrs. Clarence Dougharty and Lawrence Dougharty drove to Sprague Lake, Wash. Sunday and there met Mr. and Mrs. Joe DePartee of Othello, Wash., for visit, before the DePartees left for Seattle, where they will make their home.

Mr. and Mrs. Wayne Davis and family were Sunday evening callers in the Harry Benscoter home.

Mr. and Mrs. Grant Bateman and son called at the home of Mr. and Mrs. Wm. Johnson Sunday evening. News is very scarce this week. Everyone is still trying to make up for lost time in the fields.

Just Cleaning The Attic
Announcement that several hundred private letters of Franklin D. Roosevelt had been put up for sale, have been denied by Elliott Roosevelt, who admits, however, that they are up for "appraisal." It was the expectations of experts that the collection might run into six figures, and the reported hope of the Roosevelt family that the buyer would turn them over to the Roosevelt Memorial Library at Hyde Park.

Somehow, one can't help wondering why the patriotic Roosevelt family doesn't turn over the letters to the Memorial Library. Perhaps they will, now that word has leaked out that President Truman's not-too-classical exchange of letters with John L. Lewis, brought only \$200 from a dealer in such memorabilia. — National Industries News Service.

Granted Marriage License
A marriage license was granted Tuesday, June 10, to Dorothy M. Wilson, 16, and Richard L. Watson, 18, both of Kendrick. — Lewiston Tribune.

It only cost \$1,214,506.32 to run the state of Idaho between October, 1908, and October 1909.

PERSONAL MENTION

his parents, Mr. and Mrs. Wayne Kuykendall, and other relatives. Dick has been aboard ship in Korean waters since early last August. He says home "sure looks good."

Mr. and Mrs. Ben P. Cook entertained at dinner Monday evening for Lt. Col. and Mrs. Aaron Blewett, Mr. and Mrs. R. L. Blewett and son Billy, Mr. and Mrs. Ollis Sherbon and son John, the latter of Pullman, and Mrs. Nettie Sherbon, also of Pullman. The occasion honored Ollis Sherbon's birthday anniversary.

Benny Cook arrived home Wednesday from Cheney, to remain until Thursday, when he will return to duty for the N. P.

Mr. and Mrs. Elmer Bechtol of Seattle arrived here Friday to spend the week-end with Mr. and Mrs. Otto Schupfer and other relatives and to attend the Commencement Exercises at the University on Monday.

Mr. and Mrs. Tom Long were among those who attended Commencement at the U. of I. on Monday. Their son, Maurice, received his commission.

Mr. and Mrs. Elnor Bruseth of Clarkston and Mrs. West Hamilton and son, John of Salem Oregon, were Sunday dinner guests in the Tom Long home.

Mr. and Mrs. Archie Garner, Mr. and Mrs. Paul Lind and Dr. and Mrs. G. W. McKeever were among those who attended the Graduation exercises Monday at Moscow. Mrs. Garner's brother, William P. Barnes, and Mr. and Mrs. Lind's daughter-in-law, Mrs. Robert Lind, were members of the graduating class.

Dick Kuykendall, U. S. N., arrived home last week-end to spend a leave with his parents, Mr. and Mrs. Wayne Kuykendall and other relatives.

Rev. C. E. Hardin and Cecil Babcock were in Spokane last week having some changes made in the fitting of Cecil's new artificial leg.

Mr. and Mrs. Walter McCall and son Pat of Lewiston were Wednesday over-night guests in the home of his parents.

Walter McCall, Sr., has been home on the sick list for some days.

Word has been received by friends of R. F. Jenkins, that the family has moved from Sweet Home, Oregon, to Lebanon, Oregon.

Mrs. Harry Baker returned Monday afternoon from Spokane, where she had spent the past several days helping care for her little granddaughter, Diana Brown, who was very ill with measles.

Pvt. James Mattoon, who is stationed at Camp Roberts, Calif., arrived home Monday to spend a ten-day furlough with his parents, Mr. and Mrs. Perry Mattoon, and other relatives on Cream ridge. Jim says he does not find army life too bad—but wishes that the furloughs came oftener and were longer!

Mr. and Mrs. Lester Crocker and son David Mrs. Frank Crocker and Mrs. Liddie Ameling attended graveside services for Mrs. Ramsey M. Walker of Coeur d'Alene, at Moscow, Friday afternoon.

Mr. and Mrs. Jud Lee and family, Mr. and Mrs. Lester Crocker and son David and Mrs. Liddie Ameling picnicked near Selway Falls, Sunday.

Mr. and Mrs. R. L. Blewett had as Sunday dinner guests Lt. Col. and Mrs. Aaron Blewett and children and her mother, Mrs. Leininger, all of Moscow.

John Gentry of Weiser, Idaho, has been here visiting friends and relatives since June 1st.

Mrs. Billy Weyen and daughters of Leland have spent several days this week caring for her mother, Mrs. Oral Craig, who is ill.

Mr. and Mrs. Fred Zimmerman and children of Belmont, Wash., spent the week-end here with her sister, Mrs. Elmo Eldridge and family.

Mr. and Mrs. Virgil Harris of Southwick were Saturday evening callers in the Oral Craig home.

E. J. Musser, Southwick was a Kendrick and Lewiston business visitor last Friday.

Agricultural Tour Scheduled
The third annual agricultural tour for Latah county will be held Thursday, June 19, in the Genesee community. It will start at 9:00 a. m. The meeting place is that area between the Genesee Valley Lutheran church and the Troy cut-off road, on the old Genesee-Moscow highway.

Lunch will be served at Genesee at noon. Refreshments will be on hand throughout the day.

This tour will feature outstanding agricultural programs and practices being carried on in the area. Test work being done will also be reviewed.

Highlights of the day will include a winter cereal test plot, crop rotation study, established strip cropping, seeded drainage ways and pastures.

Chemical weed control tests in wheat and peas and nitrogen fertilizer tests in both these crops.

Engineering work will include: Tile drainage, spring development, farm ponds and creek bed improvement.

Livestock enterprise visits will include a Grade A dairy, purebred Hereford and Shorthorn cattle and 4-H Club calves of the community.

This tour is sponsored by the supervisors and personnel of the Latah Soil Conservation district, the County Weed Control and the County agent's office.

Assistance will be given by representatives of the College of Agriculture of the University of Idaho and individuals.

Cooperating also are the Moscow Chamber of Commerce and Genesee Valley Civic association.

Honored At Bridal Shower
Georgia Cook, daughter of Mr. and Mrs. Asa Cook, Juliaetta, was honored by a surprise bridal shower recently. Many beautiful as well as useful gifts were received.

Mrs. Walter Zimmerman and Mrs. Arnold Zimmerman served as hostesses for the event.

Parents Of Daughter
Mr. and Mrs. J. R. Clayton of Juliaetta are the parents of a 7½-pound daughter, born to them Sunday, June 8, at the Davidson Nursing Home, Kendrick.

LINDEN ITEMS

The Gold Hill Sunday School group attended the Children's Day services and picnic in the Cavendish grove last Sunday.

Mrs. Clement Israel and Mrs. Wm. Cuddy spent from Wednesday to Saturday at the V. F. W. Auxilliary Encampment at Coeur d'Alene, Ida. Clement and Bill drove up Friday afternoon, and they all returned together on Saturday.

Miss Aletha Israel and fiancé of Kirkland, Wash., and Mrs. Lettie Israel were Saturday evening callers at the Clement Israel home.

Mrs. Gil Erlewine spent last week with her sister, Mrs. Ray Birge and children, in Kennewick, Wash.

Mr. and Mrs. Alva Craig went to Potlatch Sunday to bring their daughter Judy home. She had been visiting her uncle and aunt, Mr. and Mrs. Ersel Hudson and family this last week.

Mr. and Mrs. Louis Alexander and grandson Ricky attended Pioneer Day services at the Presbyterian church in Clarkston, Sunday. They visited in the afternoon with her mother, Mrs. Sylvia Jenks, at Lewiston.

Mr. and Mrs. Harley Perryman, Mrs. Clement Israel and Mrs. Stewart Wilson attended the bridal shower given for Mrs. Roy Clemenhagen at the Community hall on Big Bear ridge, Tuesday.

Mr. and Mrs. Al Pederson are expecting their son Herbert home on a 20-day furlough. Herbert is in the Marine Corps.

Mrs. Veda Butler of Lewiston; John Gentry of Weiser, and Monte West of Lewiston are spending this week with the Erlewines.

Alan Chibberg left on Thursday morning with his uncle, Percy Rew, for a week's vacation at Bremerton, Washington.

Sunday dinner guests of Mr. and Mrs. Bob Chibberg were Mr. and Mrs. W. L. Candler of Juliaetta; Mr. and Mrs. Wayne Thornton and children of Lewiston, and Sidney Waite. Mr. and Mrs. Marvin Long were afternoon callers.

BIG BEAR RIDGE NEWS

Mr. and Mrs. Stanley Snevee and son of Sunnyside, Wash., were recent visitors at the Herman and Melvin Snevee home.

Dr. and Mrs. W. A. Myers of Lewiston spent Tuesday at the Claude Jones home.

Joe Forest, Donald Jones and Arnold Halseh returned Saturday evening from attending a V. F. W. convention at Coeur d'Alene.

Maryann and Suzanne Moline of Spokane are spending the week with their aunt, Mrs. Oscar Slind and family. Their parents, Mr. and Mrs. George Moline brought them down from Spokane Sunday.

Mrs. Henry Kortemeier and son Paul spent the week-end at Coeur d'Alene.

Mr. and Mrs. Ed. Halseh were Sunday dinner guests at the home of Mrs. Gust Lucken in Kendrick.

There will be a picnic dinner in Moscow, June 18th, of all Latah County Home Demonstration Clubs. All members are urged to attend.

Mr. and Mrs. Ervin Halseh and daughter Vickie Jo of Craigmont, accompanied by Mrs. Halseh's mother, Mrs. B. Lillie of Lapwai, spent Sunday with Mrs. Johanna Nelson.

Congratulations to Mr. and Mrs. Roy Clemenhagen. We are happy to welcome Mrs. Clemenhagen to our community.

The Lutheran congregations and friends of St. Maries, Potlatch, Deary and the local church will hold outdoor services at Laird Park, near Potlatch, on Sunday, June 22nd. Following the service a picnic dinner will be enjoyed.

The Tom Keene family of Kendrick visited friends here Wednesday evening.

Mrs. Frank Campbell of Deary gave a bridal shower for Miss Doris Jean Shreffler Tuesday evening. Miss Shreffler will become the bride of Robert M. Hansen of Elk River.

Many X-Ray Pictures Taken
"The mobile x-ray unit has taken over 100,000 chest x-rays since the program began," Miss Frances Goodwin, executive director of the Idaho Tuberculosis Association said this week.

"If this excellent record continues, we will come close to accomplishing our original goal of an x-ray for every adult in the state."

Case reporting from other sources has also improved, indicating that the educational phase of the x-ray program is resulting in an awareness of tuberculosis among the public.

Of the 100,000 films taken, 929 were read as suspected tuberculosis; 688 for cardiac abnormalities, and 663 for other chest diseases such as bronchitis, silicosis, tumors, lung cancer, etc.

As a direct result of the x-ray program we are discovering about one actual case of TB in every 1,000 persons screened.

Slots Take Another Beating
At the Lewiston city election, held Monday of this week, three initiatives calling for the return in one form or another of slot machines and punchboards met a decisive defeat, the margin being about two to one.

Lewiston has always had the reputation of being "wide open" in every way, and it seems there are those among its residents who hate to give up even a portion of that reputation!

Took Part In Recital
Fourteen advanced music students at the University of Idaho presented the university's 16th annual vesper recital in connection with Baccalaureate services June 8.

Included in those taking part were Richard Coulter, Glenns Ferry pianist; Robert Lind, Kendrick, baritone, and Daisy Graham Lind, Kendrick, the latter serving as an accompanist.

Unified In Marriage
Laverne Y. Chandler, Lewiston, and Roy W. Emmett, Kendrick, were married by Probate Judge Elmer M. Roise at the Lewiston courthouse at 4:30 p. m. Monday, June 9.

Child Guidance Clinic
Handicapped children in the University of Idaho's Child Guidance clinic during the 1952 summer school will learn to read "faster than a wink" with the aid of a machine called a "tachistoscope" or "flash-meter," according to Dr. Eugene W. Giles, director of the clinic.
The instrument, which flashes words and phrases on a screen, is

said to aid the reading-handicapped child to greatly increase the number of words he can read per minute without loss of comprehension. Used during World War II, the instrument trained spotters to recognize instantly the number and kinds of airplanes in flight.
Helen McCoy, reading specialist with the Spokane City schools, will be in charge of the reading phase of

the Child Guidance clinic.
Another major phase of the clinic will be speech correction for children with speech handicaps. Elsie Geddes, speech specialist in the Boise public schools, will be in charge. Both Miss McCoy and Miss Geddes have worked with Child Guidance clinics during previous summers. A third visiting specialist will be Lois Stone, University of Idaho graduate and presently a member of the Idaho State Department of Public Health in Boise.
Scheduled for the full eight-weeks of University of Idaho summer school, June 16 through August 8, the clinic is being held at the university for the seventh consecutive year.

A conservative is a fellow who thinks nothing should be done the first time.

Giant Industry Arising From New Patent Fibers

Ever since Adam and Eve left the Garden of Eden with nothing to wear, mankind has been clothes conscious. The Bible story tells us that Eve fashioned her first garment from a fig leaf — maybe it was leaves.

We wear clothes from the time we are born. It would take books to tell the progress of the clothes story down through the ages. Long ago it was found that the clothing of the cotton seed was better than fig leaves for human garb. For centuries we have used the skins and wool of animals, as well as the covering of the cotton seed, for our own clothing. Still we were not satisfied. We took the cocoon of the little silkworm for its silk.
But we can thank that same little worm for our modern system of producing fibers for textiles that do not necessarily deprive any other living creature of its coat. We learned that the silkworm extruded a fluid from a spinnerette near its mouth. The fluid became a stout silken thread on reaching the air.

This observation led to a man-made fluid extruded through a mechanical spinnerette which produced our first rayon thread. The device was called a "mechanical silkworm." This invention came from France about 70 years ago. During the past 15 or 20 years American inventors, encouraged to find new processes and products through the protection and rewards provided by our patent system, have devised new machines and new fluids to make many new kinds of fabrics for human clothing.

Coal, oil, various gases, glass, brine, and many organic substances such as wood, cornstarch, peanuts, and feathers provide the substances from which we now have fabrics that resemble wool, silk, and cotton.

'Won't Hurt' Boast Not Idle Promise to Army Blood Donor

It takes courage to give blood that will save a soldier's life, but your fears of pain or ill effects now are unwarranted.

Army medical authorities recognize that thousands of Americans who are willing to die for their country if necessary have a horror of seeing blood flow from their veins. Just as many shudder when they think of a needle just under the surface of their skin.
But ask anyone who has ever donated a pint of blood to help replenish the nation's seriously depleted stocks and chances are he will tell you there's nothing to it—no pain, no ill effects. But you will have a deep satisfaction that you have helped a fellow American in a critical hour.

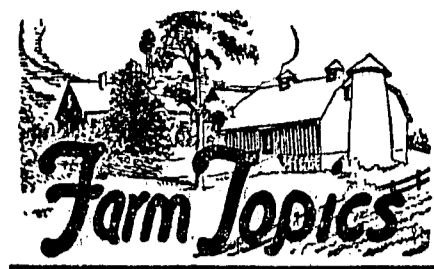

If you have ever pricked your finger with a pin, you already have experienced all the pain you will suffer when you give a pint of blood. It's that simple.
If you are not physically able to donate blood, you will not be permitted to do so. You are given a thorough examination before the blood is taken from your arm.
A single drop of blood from your fingertip is all that is required for the tests that will determine whether you are able to donate blood. If the results of these tests are satisfactory, the remainder of the procedure is entirely painless.
You lie down on a bed and an attendant puts a little procaine on your arm. As the blood is drawn, you feel nothing. In five minutes, the bottle is full and ready for processing and shipment to the battle zones of Korea.
Within a few minutes you feel like your old self again — probably better, for you realize what a precious contribution you have made.

That Parallel

The 38th parallel in Greece ferries the legendary River Styx and passes close to Corinth and Athens. Dodging Aegean Islands, it borders the Maeander River south of Smyrna on the Turkish shore. It crosses the Turkish headwaters of the Tigris and Euphrates en route to Tabriz, metropolis of Iranian Azerbaijan. Across the Caspian Sea, it finds itself on both sides of the critical frontier between Russia on the north and Iran and Afghanistan on the south. At the Russia-China border, the parallel climbs to its greatest height on the shoulders of Stalin and Kungur, both 25,000-foot peaks. Touring China, it runs near the ancient Silk Route past Yarkand and the Takla Makan (desert). China's Great Wall crosses the 38th frequently near the cities of Yulin, Ningsia, and Wuwei.

Abe Lincoln

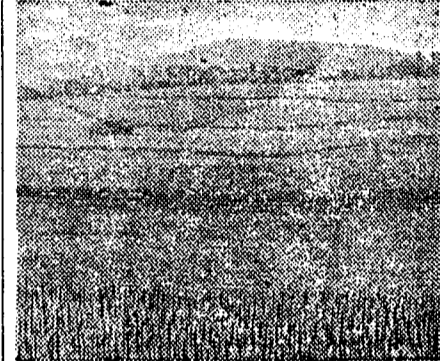

When Abe Lincoln was 21 he crossed the Wabash and encountered the first level land he had ever seen — the fertile prairies of Illinois. At two sites there he helped his father build log cabins. Then he struck out for himself, settling in the village of New Salem, 20 miles northwest of Springfield, Illinois. Lincoln received his first popular notice in New Salem. He was elected captain of a volunteer company in the Black Hawk War, and later was sent to the state legislature. Afterward he moved to Springfield, the state capital, and New Salem literally disappeared. Many of its log buildings were dismantled and carried to Petersburg, two miles north.

Strip Cropping Helps Hold Soil in Place It's Only First Step In Conservation Plan

Strip cropping, an important part of soil conservation, is a good deal like putting a splint on a broken bone. The splint holds the bone in place, but it doesn't knit it. Strip cropping helps hold the soil in place, but it won't rebuild run-down fertility.

The above picture is a beautiful example of strip cropping, but it was not accomplished by mere contour plowing. It was accomplished by sound soil conservation, based on use and treatment of land with all proven, appropriate measures that are needed to keep it permanently productive while in use.

Strip cropping on a field just north of Nellisville, Wis., is a beautiful example of one step toward soil conservation.

Sound conservation means terracing, strip cropping, and stubble-mulching the land as needed; along with use of supporting measures of crop rotation, cover and green manure crops and the use of the right commercial fertilizers.

No farmer should undertake a conservation program without expert advice. He should first contact any one of his soil conservation district officers and apply for assistance from his district. If he doesn't know who his officers are, he can locate the address of his district office in the phone book, or he can call his county agent. Districts help only farmers who request their assistance.

Number of U. S. Farms Lowest Since the 1890s

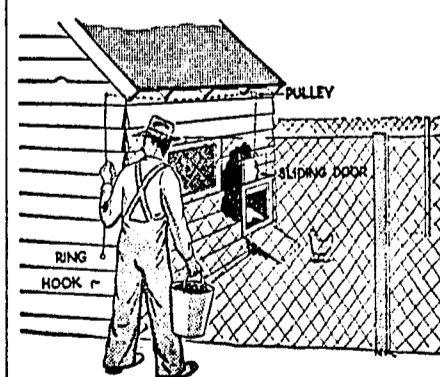

The number of farms in the United States has continued to decline since the end of World War II with the current total the lowest since before the turn of the century.

The department of agriculture reports there were fewer than 5.4 million farms in the country last year. This figure compares with approximately 5.9 million in 1945, and with the peak number of 6.8 million in 1935.

Thus the number of American farms has declined over 1.4 million, or more than a fifth, in the last decade and a half—a period in which land in farms has continued to increase and in which total agricultural production has likewise shown a spectacular increase in aggregate volume of products raised as well as in total market value.

In 1900 there were some 5.7 million farms in the U. S., approximately 350,000 more than at present. A decade before, in 1890, the number of farms was about 4.6 million.

Sliding Door

Poultry raisers can save many a step by a sliding door in poultry houses which can be operated from the outside. A small rope attached to the door by a screw eye runs to the ceiling or roof boards, along the wall, through the side of the chicken house and terminates in a ring. A hook can be attached to the side of the building and thus hold the door open.

Farm Exports Increase 14 Per Cent, Report

The agriculture department reported recently that farm exports increased 14 per cent over the preceding fiscal year. The total was placed at \$3,409,245,000. Cotton exports led the group in 1950-51 with a total of \$985,332,000,000, the second highest in 25 years. Wheat and wheat flour ranked second in value at \$747,570,000, up 9 per cent over the \$683,229,000 the preceding fiscal year.

Ethiopia's Imperial Guard Fighting War In Korea

The first Ethiopian combat force to fight outside Africa in 12 centuries is in action in Korea.

Under the green, yellow and red flag of one of the oldest Christian nations on earth, the black-skinned riflemen from the elite Swedish-trained bodyguard of Emperor Haile Selassie—King of Kings of Ethiopia, Conquering Lion of the Tribe of Judah, by legend the descendant of Solomon and the Queen of Sheba—are now in the U.N. fighting line.

In battalion strength, Ethiopia's volunteers landed at Pusan only this month. The date, May 6, must have meant much to men charged by their king "to pay a debt of honor for your homeland," the National Geographic Society notes.

It was 15 years and a day after Mussolini's mechanized legion rolled into Addis Ababa to found an abortive African empire, ten years and a day after the capital was retaken by British and Ethiopian liberation forces in 1941.

Not since before the rise of Islam, however, have Ethiopians fought beyond their own continent. Italy's conquest was the only break in the continuity of a sovereign African kingdom more than 2,000 years old.

Once the masters of Yemen (southern Arabia) across the Red Sea, Ethiopia's early Christian kings built a fabulous empire and a rich, Greek-founded culture. Their traders roved all the way to the shores of the Persian Gulf. Their Coptic Church, linked to Orthodox Catholicism through the Patriarch of Alexandria, laid the foundations of a faith which has held Ethiopia together as an independent nation ever since.

Kaesong Has Been Important Korean Commercial City

Commercially, Kaesong ex-truce site in Korea has been important for the weaving of coarse cotton cloth, as well as for the making of crude pottery and earthenware. The city, which is just south of the 38th parallel, about 50 road miles northwest of Seoul, is also in normal times a popular market place for produce of near-by fertile valleys.

One of Kaesong's principal offerings has been the medicinal herb ginseng, prized in the Orient for magical strengthening and curative powers. Carefully cultivated, this crop has had a value estimated at times close to \$1,000,000 a year.

In 1930, Kaesong's population was registered at 49,520, and in 1940, at 72,062. While this represented an increase of about 45 per cent, it is far less than that counted for other Korean cities, such as Seoul, 137 per cent rise, and Chongjin, 450 per cent.

Kaesong is situated about a third of the way along the railroad that runs between Seoul and the North Korean capital of Pyongyang. It is surrounded by granite hills which supplied much of the stone for necessary railway tunnels. Villages dot the neighboring valleys, splashed in season with colorful wild irises.

'Tree Of Water'

The Aztec word "abuhcuete" (pronounced "ah-we-te") and meaning "tree of water" is the Mexican name for the cypress species of which El Tule is far-and-away the mightiest individual. Twelve feet above the ground, the Tule cypress bears a wooden plaque, largely overgrown. Spanish words carved on it still are partially decipherable. The board reportedly was placed in the trunk in 1803 by the famous German geographer and traveler, Alexander von Humboldt. An earlier Spanish explorer, Juan Bautista de Anza, suggested that the Tule cypress was not a single tree but a fusion of three separate trunks. Some botanists feel this must be so, since the tree is a freak, with no other competitor in size among survivors of its kind.

Civilian Uses

The farm implement known as the flame cultivator, which traces its development to the Army Chemical Corps' World War II flame thrower, originally was designed to weed cotton but was adapted for other types of row-planted vegetation. Other civilian uses of the flame thrower are clearing weeds from highway shoulders and railway beds as well as destroying alligator grass and water hyacinths which impede river navigation.

Distant Star

No one can say which is the most distant star. With the new 200-inch Hale telescope at Mt. Palomar Observatory in California it is possible to see great clusters of stars, called "galaxies," that are so distant that their light takes about a billion years to reach us, so they are said to be a billion light years away. This distance would be about six sextillion (six followed by 21 zeros) miles. No doubt there are other galaxies at still greater distances, which will become visible when more powerful telescopes are built. Of the brightest (first magnitude) stars, the most distant is Deneb, in Cygnus the swan, about 650 light years away. A faint star just visible to the naked eye on a dark night might be at a distance as great as several thousand light years.

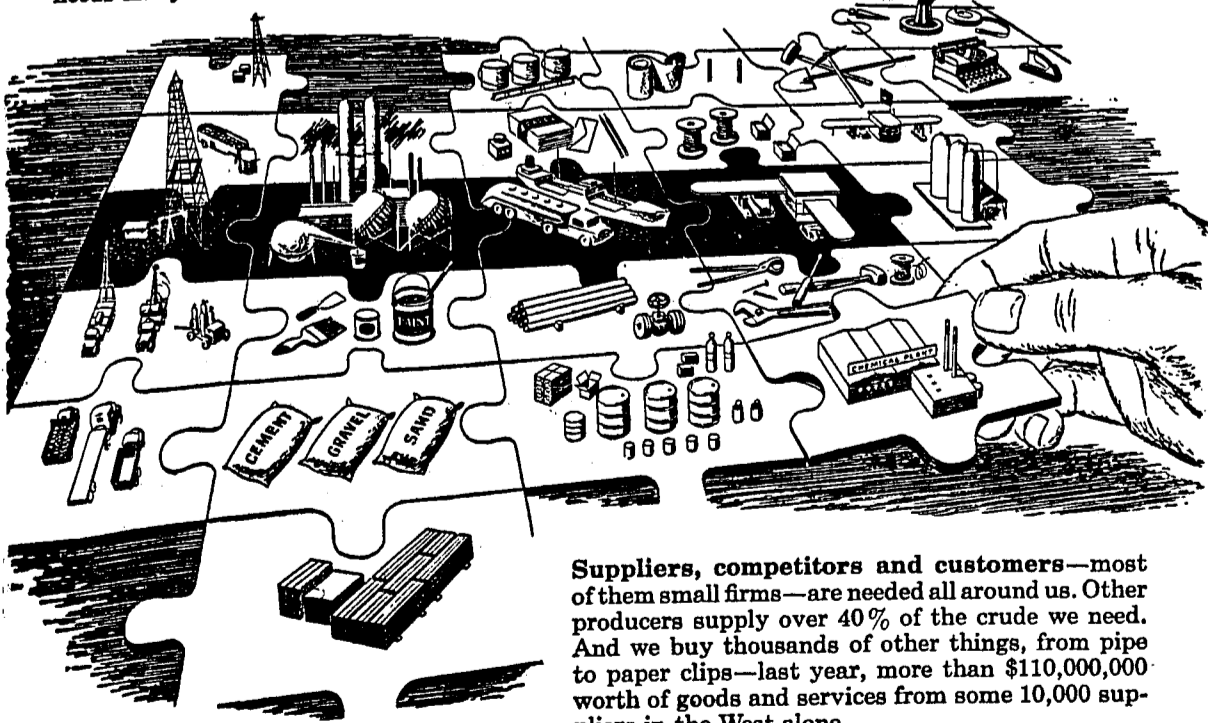

"How can small firms hold their own with a big company like you?"

Men who run small businesses have said such things as: "Some people think we're being frozen out. I'm doing well, but what about others? How can small firms hold their own with a big company like you?"

You can see the answer for yourself when you get a clear picture of the way business firms depend upon one another. Even a big, integrated company can't stand alone.

Our company is a number of parts that fit together like pieces of a jigsaw puzzle. At the center of things, we're refiners. Then to be sure of a supply of crude oil, we drill wells of our own. And to keep up the flow into our refineries and out again, we provide tankers, pipelines and trucks, and distributing organizations. But the territory is broad, the needs many.

Suppliers, competitors and customers—most of them small firms—are needed all around us. Other producers supply over 40% of the crude we need. And we buy thousands of other things, from pipe to paper clips—last year, more than \$110,000,000 worth of goods and services from some 10,000 suppliers in the West alone.

There are many small refiners competing with us. In every field, there are distributors selling either our products for us or competitive lines. For example, here in the West—independent service stations selling our gasoline outnumber Company-owned stations about six to one... and stations selling other brands outnumber our own about 29 to one.

These small firms "hold their own" very well indeed; and through serving well, many of them will grow big. Standard goes right on working to gain new business—competing for your patronage by increasing efficiency of operation, improving products, keeping prices down. But it's clear that a vast number of small firms, too, always will be needed to complete the picture.

STANDARD OIL COMPANY OF CALIFORNIA
• plans ahead to serve you better

Oldest Living Thing in U. S. Has Rival in Olive Tree

Thousands of years from now California may boast of possessing two types of trees that were growing here in the 20th century. One of these is the Sequoia, or giant redwood, a few species of which already have grown in the Golden State for over 4,000 years. The other is the olive tree, a comparative newcomer to the U.S.

The olive tree, although estimated to have lived in Mediterranean countries for periods of time equal to that of the Sequoia, did not join this other ancient perennial in California until about 1789. It was in that year that Franciscan padres planted the first olive tree cuttings around their missions.

The modest efforts of these religious men to provide a little shade became the basis of an industry which, according to the California Olive Association, now nets some 2,200 growers in the U.S. about \$10,000,000 annually.

It was not until the late 1890's that olives were available commercially in this country, even in a limited amount. Then improvements in canning processes and development of the modern type metal container by the American Can Company gave olives a new life in the new world. During the last 60 years the olive orchard "population" has grown steadily from less than 1,000 acres to about 26,000 acres last year. They now produce an annual crop of over 40,000 tons of olives. Of the 25,000 tons sold for canning, 98 per cent go into metal cans, the remainder in glass containers.

The ripe black olive of California, gathered when fully matured, has a rich oil content and is marketed in nine different grades, ranging in size from "standard" to "super-colossal." According to Professor M. E. Jaffa, nutrition specialist at the University of California, the ripe olive has about double the calorie value of the green olive.

Transfusions Through Arteries Said Life-Saving Measure

The rapid transfusion of blood through an artery, instead of through a vein as is usually done, has been described by two Washington surgeons.

Drs. Charles S. White and Donald Stubbs of the Research Foundation, Doctors Hospital, Washington, said the method has been found "safe, practical and life-saving."

Intra-arterial transfusion, they reported, has been found most effective in cases where the heart beat has stopped or has become almost imperceptible following a heavy loss of blood.

"It should be emphasized that this type of transfusion is not a proper substitute for intravenous transfusion except in those cases in which the blood pressure is very low, or cannot be recorded, or in arrest of the heart action from hemorrhage," they said.

"In the latter cases, blood introduced into the veins, even under pressure, has a long route and a slow one to reach the coronary arteries (supplying the heart), even if it could be forced or propelled in some manner through the right chambers of the heart and lung. The most direct route to the coronaries is the arterial highway."

The Washington surgeons said that with blood pressure at zero and no pulse to be felt, circulation was repeatedly restored "in an unbelievably short time." They added:

"It is accepted generally that resuscitation is futile if more than seven minutes elapses after the heart action is arrested, as irreparable damage to the cerebral cells ensues, and if life is maintained the facilities remain permanently damaged. Some remarkable exceptions to this statement have been reported, but usually not well authenticated.

Fire in the Desert

Abadan, an oil city of some 140,000 people, only 40 years ago was a desert island in the sun-baked delta below the junction of the Tigris and Euphrates Rivers. In a great geologic trough beneath the Mesopotamian river basin waited a hidden treasure. It remained for an Australian wildcatter named William Knox D'Arcy to drill 1,180 feet through Iranian limestone and bring in a gusher in 1908.

Wild tribesmen had ridden into Persia thousands of years before and found ooziings of gummy black bitumen to fire their lamps and bind the materials of their buildings, tools and weapons. Alexander the Great marched through Persia, his horsemen collecting naphtha and pitch from evil-smelling pools to strike blazing terror among the war elephants of enemies he met later.

Habits

Habits are easily formed, but not nearly as easy to break. According to Professor William James, Harvard psychologist, it is not enough just to decide to break a habit—one must decide wholeheartedly and not let a single exception occur. Habits should be broken off abruptly, and not gradually. Taking sleeping pills in a dangerous habit as well as an unnecessary one. Good bedding is all that's needed for sound, restful sleep as long as there are no physical ailments.

GOLDEN RULE (Delayed)

June 3 — Leonard Martin and 16-year-old son, Clyde, of Aberdeen, Wash., flew up in their private plane Friday evening to visit their uncle, Roy Martin and family. They landed in Orofino. On Sunday morning they brought the plane up to land in Don Cantril's field near the Martin home. In landing, the plane hit rough, soft dirt and turned a flip-flop, landing upside down. Ishmael Martin, as the passenger, received only some slight cuts on the face, and Leonard, the pilot, was not hurt at all. The plane was not too badly damaged.

Eugene Betts and Lloyd Arnett of Kendrick are employed at the Carl Finkle logging camp.

Little David Cowger is making an indefinite stay with his aunt, Mrs. Wm. Hadden, and other relatives, in Orofino.

Mr. and Mrs. Ernest Cowger and daughters spent Saturday night in

Lewiston with her parents, Mr. and Mrs. Ed. Walcott.

Mr. and Mrs. Don Christensen and children spent the week-end at the Glen Betts home.

Mr. and Mrs. Ralph Stage and Fred Stage were Boise visitors over the week-end.

Mr. and Mrs. Roy Martin gave a wedding dinner and gift shower in honor of their son A 2/c and Mrs. Stanley Martin on Sunday. Those present besides the honor guests were Mr. and Mrs. Chester Martin and son, Mr. and Mrs. Bruce Tarbert and children, Mr. and Mrs. Ishmael Martin and Mrs. Bill Elben, all of Lewiston; Mr. and Mrs. Lyle Bashaw and daughters and Loy Martin of Grangemont, and Leonard Martin and son Clyde of Aberdeen, Wash.

Mr. and Mrs. Pat Holliday of Lewiston Orchards spent Sunday at the D. V. Kuykendall home. Their son, Butch, returned home with them after having spent the past week

here with his grandparents.

Mary Ann Pavel visited Mrs. Glen Betts, Tuesday. She had spent the past week with her grandmother, Mrs. John Knez.

Mr. and Mrs. Oscar Lawrence and daughter Caroline were Lewiston visitors on Monday.

Albert Lawrence is working on the blister rust, near Clarkia.

HINTS for the Handyman

No. 6 Checking Your Fan

When your fan won't run, disconnect it and try turning blades by hand. If they turn easily, the trouble is probably electrical. Check the brushes—make sure they are clean; that they have not worn past the point of good contact. Check the cord for breaks. If your fan is of the brushless, induction type, better have a serviceman check the starting mechanism.

WHEN CHOOSING A GIFT FOR THE JUNE BRIDE . . . remember . . .

Electrical Gifts Bring Better Living!

LETTER TO THE BRIDE from her "electrical-servant-to-be" Reddy Kilowatt

The more than a thousand men and women of the Washington Water Power Company join me in wishing you all sorts of happiness . . . and we will all do our best to help make your housekeeping easier by bringing you the finest electric service at low cost.

Please extend to your husband our sincere congratulations . . . and tell him he can count on us for dependable electric service at low cost in his shop, store, office, or in his farm work, just as you can in your home!

Cordially Yours, Reddy Kilowatt

for THE WASHINGTON WATER POWER CO.

Sure to be among the MOST APPRECIATED GIFTS received by June Brides (and by those celebrating June wedding anniversaries) are:

Electric Toasters, Grills, Waffle Irons, Mixers—for breakfast, luncheon, dinner, "snack," and party-time taste treats!

Electric Heating Pads, Electric Bed Coverings, Electric Curlers, and other handy "personal" electric items—the truly "thoughtful" kind of gift, much appreciated and seldom duplicated!

. . . and here's a larger electrical gift that combines Luxury, Practicality, Thrift!

A Modern Electric Range . . .

will cause any bride to glow with pleasure and pride—and be a continuous source of health and happiness for years to come! See the new electric ranges at your favorite dealer-member of the Inland Empire Electrical League. Note the many features that make electric cooking more certain of success, easier, and lower in cost. There's a model and size "just right" for every size of kitchen and family.

 Mr. and Mrs. Harold Parks and family fished a the Bungalow Sunday — no luck!
 Jesse Heffel and Wilbur and Eddie Corkill fished on Mission creek Sunday — another case of no luck.
 Mr. and Mrs. Roy Hasenorie and son Tommy attended a family reunion Sunday at the home of his aunt, Mary Hasenorie, at Culeaca.
 Mr. and Mrs. Fred Glenn and daughters attended a weiner roast at the Paul Hall home on Little Bear ridge Thursday evening.
 Mrs. Arios Wells and sons of Headquarters are visiting Mrs. Veta Stump and Mrs. Ernie Wilson at the Veta Stump home. Mrs. Wilson's home is at Portland.
 Mr. and Mrs. J. M. Woodward left Wednesday morning to accompany her daughter, Mrs. Prinzing and family on a trip to Lodi, Calif., for an extended visit.

Thank Practical Eskimos For 'Deep-Freeze' Invention

Thanks to practical Eskimos and a shrewd Yankee fur trader, we are now able to have reasonable fruits and vegetables "fresh" at any time of the year. The quick-freeze pack keeps them fresh.

The Yankee fur trader is Clarence Birdseye of Gloucester, Mass., who still indulges his fancy for adventure in the Far North. While dealing with Arctic Eskimos up the Labrador coast during 1912, he was amazed at the excellent meat and fish they seemed always to have available. The secret was in the quick-freezing of game freshly caught. "Quick-Freeze!" That was the Big Idea he mulled over as he sailed home. Invent a special kind of freezing machine to freeze almost instantly, patent it, make fresh foods available to everyone!

Inspired by this thought, and stimulated by his hope of protection afforded by our patent system, he built his first crude machine which he called the "Multiplate Quick Freeze." This consisted of a new garbage can of corrugated iron with layers of steel plates between which codfish and rabbit meat were placed. It was supplied with coils that contained salt brine as a refrigerant. Incredible, but true, this unpolished mechanism was the forerunner of our gigantic lockers of today. Encouraged by the success of his invention in food preservation, and the patent protection obtained thereon, Birdseye endeavored to promote his idea.

A skeptical America was not too eager to accept quick-frozen foods, and our inventor, in 1924, after making stabs in both Gloucester and New York, went broke. Unbeaten, his perseverance and ingenuity urged him to try again and, in 1927, after securing a \$2,250 loan on his life-insurance policy, and obtaining \$375,000 from backers, he again launched into the business. This time it took a year to interest the public sufficiently.

Cretaceous Geological Period Shale Collected in Fresno

More than a ton of shale and marl containing 100-million-year-old fossils, collected in Fresno County, Calif., last summer by Dr. Alfred R. Loeblich, Jr., Smithsonian Institution paleontologist, is being processed at the U.S. National Museum.

The Fresno County locality has one of the thickest known deposits—in some places as much as 25,000 feet—of sediments laid down in the ancient sea bottoms during the Cretaceous geological period, the heyday of the great dinosaurs on land and of the weird swimming reptiles, the plesiosaurs in the sea. The material collected by Dr. Loeblich, however, contains fossils far less conspicuous than these monsters, but in some ways they represent even stronger forms of life. They are minute Foraminifera, or shelled protozoans. Although constituting a very large branch of the Animal Kingdom, the Protozoa are one-celled animals and nearly all are microscopic; the best-known of the living forms are internal parasites which cause some of the most deadly diseases.

Foraminifera are a specialized group of Protozoa that build an external shell, and these shells may be preserved as fossils. During the Cretaceous period, represented by the material collected this summer, many of the more modern shell forms were first developed. These fossil shells are often used by the oil industry to determine the age of geologic strata and thus are of economic importance, as well as being of value to the scientist in showing evolutionary trends.

Although single-celled, such sea creatures may have many chambered shells. As they grow they form new chambers all connected by openings through which the protoplasm of the cell flows. But, however many chambers of this sort are produced, the protoplasm is continuous through all and the animal still remains a single cell.

Looking Back

Haile Selassie's 1,150-man, hand-picked battalion in Korea is a far cry from the desperate army he raised in 1935. Then, as Mussolini's men marched into his land, he issued this draft notice: (1) When this order is received, all men and boys able to carry a spear will go to Addis Ababa. (2) Every married man will bring his wife to cook and wash for him. (3) Every unmarried man will bring any unmarried woman he can find to cook and wash for him. (4) Women with babies, the blind and those too aged and infirm to carry a spear, are excused.

Ptolemaic System

The Ptolemaic System was the ancient concept of the universe, proposed by the Greek astronomer Hipparchus, who lived about 130 B. C., It is named after Claudius Ptolemy, a later astronomer, who popularized it in a famous book known as the Almagest. According to this system, the Earth was fixed at the center of the universe, and the Sun, Moon, planets and stars all revolved around it in varying periods. It has been superseded by the system proposed by Copernicus in 1543, which places the Sun at the center of the Solar System, and has the Earth as one of a number of planets revolving around the Sun.

Kendrick Gazette

Potlatch Chief Sez

Published by the Kendrick Creamery

HELLO, THERE, FOLKS —

Yes — There is no doubt about it — the weather is warming up. And as it warms up, cooler items are "a must" in our diet.

Now along that line let us suggest a delicious salad, made with green lettuce, fresh Potlatch Chief Cottage Cheese, and pineapple or pear. M-m-m, but it's good, and good for you.

The proud father of triplets called his town's paper to report the event.

The editor, not quite hearing what he said, asked, "Will you repeat that?"

Snapped back the father: "Not if I can help it!"

Planning to do a lot of canning this summer? At present prices most folks are — so here's a suggestion that will save you both time and money: Don't stand over

a hot stove with those berries and fruits. Put them up the modern way — by freezing. Cheaper, faster, easier, more delicious — and if you don't have a locker box, come in and look 'em over. There's one to fit ever purse and purpose!

Reporter: "To what do you attribute your great age?"

Oldest Inhabitant: "I ain't sure yet. There be several of them patent medicine companies bargaining with me yet."

Want a "pick-me-up" these hot days? If so, here's a suggestion that's really worth while — drink a glass of ice cold "Potlatch Chief" milk! Delicious, pure. Just because it's hot weather is no reason you no longer need milk for health. See to it that your children have at least a quart a day per child — for their health's sake.

Sell us, your cream!
