

# KENDRICK GAZETTE

VOLUME 62

KENDRICK, LATAH COUNTY, IDAHO, THURSDAY, JULY 24, 1952

NO. 30

## OPERATION "SKYWATCH" SAID VITAL NECESSITY

In an address delivered at Jacksonville, Fla., on July 29, to members of the American Legion, Justice M. Chambers, executive assistant administrator, Federal Civil Defense Administration, said in part:

"No one knows when war may start, but we do know and congress should know that there are at least 400 Russian heavy bombers of the B-29 type standing by ready for the first mass atomic air attack on our cities and our people whenever the Kremlin waves its hand."

"A few days ago the directors of Civil Defense in 48 states and four territories gathered at the Pentagon in Washington, D. C., for a special all-day meeting. They came in response to an invitation issued jointly by the Secretary of the Air Force and FCDA. The purpose of the meeting was to brief the Civil Defense directors on the problems involved in the air defense of our country and to spell out the important roll that civil defense must play in that program."

"As a result of the briefing by ranking Air Force officials, the Civil Defense directors voted to place the Ground Observer Corps on a 24-hour watch in 27 states, starting July 14."

"Let's look for a moment at the size of the threat we face:"

"Secretary of the Air Force Finletter recently said that the Soviets have about 20,000 first-line planes now, plus an equal number of less modern planes in reserve — a total of 40,000 planes. Approximately 3,000 of the Russian planes are jets. The latest information revealed by the Air Force on the size of the U. S. Air Force lists 91 wings of from 35 to 70 planes each, for a total of under 7,000."

"The Air Force has told Congress that the Soviet Union will have two to three times our present air strength by 1954. Two years from now the Soviets may actually have world-wide superiority in the air."

"If there is to be a deterrent to Communist aggression today, it must consist of something more than a single, terrifying weapon (atomic bomb). It must consist of a total defensive and offensive force so strong that the enemy will not dare to test it. We must be ready and able to defend ourselves from any attack, however massive, that may be hurled against us. And, if attacked, we must be ready and able to strike back."

"But ability to strike back postulates ability to defend — an insurance against being caught off guard. The air power available at Pearl Harbor might have been very effective if employed against the Japanese attack."

"The effective use of air defense in repelling an enemy attack and of civil defense in saving lives and minimizing property destruction depends to considerable extent on adequate warning of attack. Our aircraft warning system consists of two principal parts: The radar system, operated by the Air Force, and the Ground Observer Posts, operated by Civil Defense."

"Radar does not readily reveal planes flying under a 6,000 foot ceiling or planes approaching their targets behind land masses. To fill in the gaps left by radar, we must have ground observation posts manned and equipped to report plane movements to appropriate filter centers. Our goal is 500,000 observers manning more than 19,000 observation posts."

"The plan calls for a 24-hour watch at observation posts in 27 states which began this month."

"Gen. Hoy Vandenberg has said: 'Even if we had more interceptor planes and anti-aircraft guns and a radar screen that blanketed all approaches to our boundaries, a predictable 70 percent of the enemy's planes would penetrate our defenses despite the valor and skill of our pilots.'"

"The combat statistics of World War II bear out Gen. Vandenberg's warning. That is certainly no reflection on the Air Force. It is a fact of modern war. The advantage is always on the side of the attacker, particularly when it is a totalitarian state that can pick its own time and place to strike. Too many Americans today have too little regard for the reality of the threat we face. Too many people are losing the sense of urgency when they should begin to feel it more deeply than even. It is hard to understand why anyone would want to sit by complacently while the enemy has a gun pressed against his head, cocked and ready to fire. That is our situation today in terms of the Soviet's air potential. That air force is poised and ready to strike us at a moment's notice. When that moment will come, no man in or out of uniform can predict. Yet, the menace is here, and it grows larger by the day."

"Those 400 Soviet bombers, modeled after our B-29s and our B-50s, are standing by, ready to punch through the first mass atomic air attack on our cities. All they need to trigger that attack is a wave of the hand from the Kremlin. Then America will be on the receiving end of a possible 7,000,000 casualties."

"It's idle to say the enemy won't attack us on the home front if he starts a war. As a matter of fact, that's probably the way the war would start — with a smashing, all-out attack on our home front. It's the only kind of attack, from the enemy's point of view, would make sense. The power behind the punch

## Another Old-Time Paper

In order to "swipe" at least a part of a week for a fishing trip and brief vacation this year, we are going to ask the indulgence of our readers and advertisers and put out another "Twenty-Year Ago" issue, so far as is practical.

Our regular issue is planned for Thursday, August 7. The next week our special "Twenty Year Ago" issue will appear, or August 14. So far as possible all news in this paper will be taken from the files of 20 years ago — the remainder will be syndicated news and features.

We realize that this is Primary election week, and it will mean that for the first time in many years local returns will not be in that week's issue of the Gazette. However, it seems the only possible period to take even our brief vacation.

## TRUCK CRASHES THROUGH BEAR CREEK BRIDGE MONDAY

Early Monday morning a big KB-12 International dual-drive logging truck and trailer crashed through the Bear Creek bridge at the east entrance to town, and landed, still in the middle of the bridge, on the creek bed some 12 feet below.

The big truck, owned by D. C. Minkler, Troy, Idaho, and driven by Ed. Reglin, also of Troy, was engaged in hauling 32-foot logs from Park to Kendrick, by way of Helmer and Deary to the Pataha Lumber Co. mill at Spaulding.

Mr. Reglin said that as he started across the bridge he felt and then saw the left corner (Kendrick side) start to slip from its concrete abutment, and then, as the trailer and full weight of the load came onto the bridge, it buckled and gave way completely. The bridge, truck and trailer all landed in the creek bed below, with the vehicle on its wheels and the logs still with their wrappings intact. The list of the bridge to the left, however, rolled the logs off the side of the bunks.

Mr. Reglin said that the jar when all hit the creek bottom was the worst he had ever taken, and though he walked away from the wreckage he feared he had suffered some broken or cracked ribs.

Within an hour after the crash the state highway department had opened up a temporary roadway across the railroad tracks and entering the highway near the home of Mrs. Dave Gentry. However, the local patrol was "incapacitated" with a flat tire and it was not until the middle of the afternoon that the big machine was able to smooth the emergency crossing into some semblance of a roadway.

J. H. Cairns of the Lewiston State Highway department office came up at noon to inspect the bridge, and said that a temporary one would have to be put in immediately — but what would happen from "there on out" would be up to headquarters at Boise.

The bridge, which might be classed as a "relic of the horse-and-buggy" days had been posted for many months for a "6-ton load limit," and it is believed the big truck and its trailer and load would weigh from three to four times that much.

The truck itself was badly damaged, the force of the crash being great enough to snap the flywheel housing between motor and transmission, twist the frame and otherwise damage the vehicle, not to mention the cab, hood, etc.

Mr. Reglin was indeed lucky to get out of the smash alive.

So rapidly did the bridge drop that the village three-inch water main, which was fastened to it's side, had no chance to bend, but broke completely, section by section, each 16-foot length laying almost in its place. Thousands of gallons of water flowed into the creek before being shut off.

In a statement made to the Lewiston Tribune, Monday, J. J. McCreedy, district state highway engineer said: "This bridge was recently listed as inadequate by the state highway survey board. It was posted for a six-ton limit." McCreedy estimated the weight of the truck and cut load of logs at 20 tons. Last year, he added, heavy logging trucks ignored the bridge and used a cut-off through the creek bottom. "They are not doing it now. It's a mystery to me how the bridge stood up as long as it did."

McCreedy said no plans have been made for replacing the span. The creek detour will be used until something is decided. "The bridge will be expensive to replace. Any replacement now would require an overhead over the tracks of the Northern Pacific Railroad Co. There has always been a bad crossing at this point."

## 1952 POLIO PRECAUTIONS

**DON'T MIX WITH NEW GROUPS**

**DON'T GET CHILLED**

**DON'T GET OVERTIRED**

**BUT DO KEEP CLEAN**

**WHEN POLIO IS AROUND**

**RECOMMENDED BY THE NATIONAL FOUNDATION FOR INFANTILE PARALYSIS**

Seven-year-old Karen Blecha enacts 1952 polio precautions recommended by the National Foundation for Infantile Paralysis. When polio is around, the National Foundation cautions parents to watch for these signs: headache, fever, sore throat, upset stomach, tenderness and stiffness of neck and back. A person showing such symptoms should be put to bed at once, away from others. Then, call your doctor and follow his advice. If polio is diagnosed, call your local chapter of the March of Dimes for advice and assistance, including needed financial help.

## PERSONALS AND NEWS BITS ABOUT KENDRICK FRIENDS

Mrs. Leona Mermoid of Seattle arrived here Saturday evening to spend some time visiting her aunt, Mrs. Estella Leith.

Mr. and Mrs. R. L. Blewett and son Billy and his cousin, Jay Blewett, were in town Monday and Monday night, looking after business.

L. W. Mason and sons Jimmy and Dicky of Seattle were in town Wednesday of last week on business and visiting old friends. The Masons are spending the summer in Moscow at the home of her parents, Mr. and Mrs. Hoffman, while Mrs. Mason is attending the summer session at the U. of I.

Mrs. Jack Maxwell and children, who have been visiting the past month in the home of her parents, Mr. and Mrs. Ed. Long, left last Thursday for their home in Lawrence, Kansas. They were taken as far as Spokane by her parents, who visited over the week-end in the Roy Long home, returning home Monday.

Mr. Roy S. Johnson of Clarkston was in town Monday visiting friends and transacting business.

Shirley Holt, Lewiston; Rona Armitage and Judy Cuddy are here for a two-week period taking swimming lessons. They are staying with their uncle and aunt, Mr. and Mrs. James Holt.

Harold Goff of St. Maries spent the week-end here with his wife and children at the Ben P. Cook home.

Mr. and Mrs. Paul S. Griffith and son of Spokane were Sunday and over-night guests in the W. L. McCreech home.

Mr. and Mrs. Jack Johnston and children of Spokane were in Kendrick Sunday, calling at the R. H. Ramey home, and on other old friends. They also visited the local cemetery while here.

Chas. Cox, Wallawa, Oregon, was in town Saturday, brought his mother, Mrs. Leah Cardinal, back to her home here after she had spent two weeks with him. They were accompanied by Rose Skelton, also of Wallawa, who returned there Sunday.

Mr. and Mrs. C. H. Coan returned Tuesday from a two-week vacation spent with two of his daughters, at Stevenson, Wash., and the Dalles, Oregon. They report a most pleasant time.

Mrs. Elsie Weber, who has been visiting for the past two weeks in the homes of a son and daughter at Lewiston, was in town for a short time Saturday, but returned to Lewiston to spend another week.

Mr. and Mrs. E. A. Deobald were Lewiston business visitors Monday morning.

Mrs. Elsie Weber has received word from her son, Leonard, stationed in Korea, that he has been promoted to the rank of Sergeant.

Mr. and Mrs. B. G. Greene of Los Anamos, N. M., spent last week at the home of her mother, Mrs. Ida Pemberton, and with other relatives. They also visited a week in Yellowstone National park, and came to Kendrick via the Lolo Pass, being the first car to make the trip over that route this year. They reported having to move a few rocks from the road — otherwise no difficulties.

Mr. and Mrs. Edward Kearney of San Francisco, Calif., were visitors in the home of Mr. and Mrs. Bud Harris Monday. Mrs. Kearney and Mrs. Harris are sisters, and it was the first time they had seen each other for seven years.

## Takes Part In Operations

Fort Lewis, Wash. (Official) Cpl. Jay D. Wilson, son of Mr. and Mrs. A. C. Wilson, Kendrick, will participate in the one-week exercise, "Operation Signpost," July 19 through 28.

He is with the 31st anti-aircraft artillery brigade, one of several army units in the first controlled training exercise geared to put the air defenses of the United States and Canada on an all-out operation basis.

His anti-aircraft artillery batteries, working jointly with Canadian air defenses and a major portion of the civilian ground observer corps (GOC), will comprise the team co-ordinated for this air defense maneuver over the Pacific Northwest.

Wilson entered the army in December of 1950, and is serving as a truck driver in Battery B, of the 518th AAA gun battalion.

## CELEBRATE 50TH ANNIVERSARY BETHANY LUTHERAN

About 160 friends, some of them former members, gathered on Big Bear ridge Sunday to observe the 50th Anniversary of Bethany Lutheran Church. Paul Lionberger, student pastor, gave the morning sermon. Special singing by the Young Men's Choir, composed of students from the middle west, who are employed in the blister rust camps nearby, added to the feeling and beauty of the worship hour.

Following the service a bountiful picnic dinner was spread on the church ground and enjoyed by all.

The impromptu program in the afternoon consisted of music, singing, greetings by Rev. Evans Knutson of Clarkston; Rev. F. C. Schmidt of Kendrick, and messages were also read from former pastors.

The numerous baskets and vases filled with beautiful flowers decorated the interior of the church. Included among these was a huge basket of golden flowers, sent by a former member, Mrs. Martin Zelinske (nee Ella Rogstad) of San Marino, Calif., which served to point up the Golden Anniversary occasion.

It is impossible to name all who came, but following are the names of a few of those who were present: Mrs. Halvor Lien, Mr. and Mrs. H. Dalberg, Misses Dottie Smith, Caroline Ellefson and Mr. and Mrs. Carl Bendel, all of Moscow; Mr. and Mrs. Rudolph Nordby of Genesee; Mr. and Mrs. Anton Moon, Ronald and Nancy of Coeur d'Alene; Mr. and Mrs. Oscar Nordby, Miss Eva Alskaker, Mrs. Virdgil Wampler; Mr. and Mrs. Adolph Swenson and Mr. and Mrs. Wade T. Keene, all of Lewiston.

Rev. and Mrs. Evans Knutson and son Paul, Mr. and Mrs. Joe Bower, Mr. and Mrs. Louie Rogstad, Mr. and Mrs. Ingvald Aas, Mrs. Gunda Fite, Mr. and Mrs. E. A. Hoffman and son John, Mr. and Mrs. John Wold, Mr. and Mrs. Einar Brueseth and Mr. and Mrs. Wesley Hamilton, all of Clarkston.

Rev. and Mrs. F. C. Schmidt, Mr. and Mrs. John Johanson, Mr. and Mrs. E. T. Long and daughter Patricia of Kendrick; Rev. Waag and Mr. and Mrs. Raymond Johnson of Nez Perce; Mr. and Mrs. Ervin Halseth and daughter Vickie Jo of Craigmont.

Mrs. George Baken and children of Yakima; Mrs. Douglas MacLeod and "daughter" Kristin of Ansonia, Conn.; Mr. and Mrs. John Bredevold and Mr. and Mrs. R. A. Hughes, Jr., of St. Maries; Miss Katherine Holm of Minneapolis; Mr. and Mrs. M. Nygaard and S. Alsager of Potlatch; Mr. and Mrs. Boyer Nilson and Mr. and Mrs. Ed. Clary of Troy, Idaho.

No attempt is made to give the names of ridge residents present.

## Ceremonies To Mark Spot

Weiser — Colorful costumes of early western days will be in evidence Sunday, July 27, when Idaho and Oregon citizens meet at Kinney Point on the rim of Hell's Canyon Gorge for an all-day outing.

Sponsored by the Weiser Chamber of Commerce with the cooperation of the communities in the area surrounding this picturesque and historic spot, plans have been completed for handling hundreds of people expected to participate in the observance. Tribute will be paid by prominent speakers to the memory of members of the Wilson Price Hunt expedition, who in 1811 first glimpsed the deepest gorge on the North American continent and the towering ranges of the Seven Devils.

Walter W. R. May, of Oswego, Oregon, president of the Oregon Historical Society, a former newspaper publisher and now head of Production Surveys, Inc., will be the principal speaker. Gov. Len Jordan and Charles Reynolds, the latter a member of the Oregon Highway commission, representing Gov. Douglas McKay of Oregon, will also participate in the program at the rim, set for 2:00 p. m., Sunday.

Under the supervision of Idaho state police, provision has been made to handle traffic on the road serving this remote area. Meals will be served by Co. C, Armored Cavalry, Idaho National Guard, beginning Saturday night, and camping facilities are available in the immediate vicinity. Several mounted posse and sheriff's groups will take part.

## Hen Lays Wrinkled Egg

A hen of unknown breeding, the property of Mr. and Mrs. Willard Schoeffler, Southwick, decided Sunday to "be different," and so laid an egg that measures 1 1/4 x 3 1/2 inches. That, however, is not the notable achievement — it is the very wrinkled shell, which waves and twists in ridges.

Mrs. Schoeffler says they have both turkeys and ducks on their farm, but the hen "out-layed" them all for that day.

The freak egg may be seen at the Gazette office.

## Pool Attendance Down

Attendance in the Area swimming pool at Kendrick has shown a sharp decrease this past week, due to the chill weather — and Saturday morning's swimming class had to be dismissed, so cool was the day. However, the lessons are now going full tilt, and attendance picking up.

## Board Sets Vacation Dates

The official board of the Community church met last Friday evening in the church basement. It was agreed to take the first four weeks in August for summer vacation. There will be no church or Sunday School during this period.

## P-T. A. CANNING PROGRAM PROVES TO BE BIG BUSINESS

On Thursday, July 17, Mrs. Frank Abrams, Mrs. Wm. Johnson, Mrs. Kirk Wilson and daughter Rosie, Mrs. Ward Helton and Mrs. James Holt drove to Drury's on Texas ridge and picked seven crates of strawberries. Those at the school to receive and care for them were Mrs. Oral Craig, Mrs. John Wilson, Mrs. Al. Westendorf, Mrs. Geo. Brocke, Sr., Mrs. Wallace, Mrs. James Burns, Mrs. W. W. Eldridge, Mrs. Hiram Galloway and Mrs. Bob Clemenhagen and daughter Lorraine.

On Saturday, July 19, Mrs. E. M. White prepared for the locker a crate of raspberries donated by Mrs. Lawrence Heimgartner.

Monday Mrs. Ira Havens and Mrs. Harry Benscoter helped Mrs. George Havens pick raspberries, which she donated to the school.

Mrs. Leonard Wolff donated one and a half crates of raspberries. Those helping her pick were Mrs. Wilbur Corkill, Mrs. Walter Silflow and Nina Dagefoerde. Mrs. James Holt and Mrs. E. M. White and daughter Ann prepared them for the locker.

Walter Bigham donated cherries to the canning project. In response to his generosity a crew of 18 arrived to pick the fruit. Those from American ridge were Mrs. Bob Nelson, Tod and Patty, Priscilla, Nita, Diane and Judy Benscoter, Rayner and Charles Havens, Mrs. Lawrence Heimgartner, Janice and Joan and Mrs. Mizer. Mrs. E. M. White, Ann White, Mrs. Elmo Eldridge and Mrs. James Holt came from Kendrick to help. The cherries were delivered to the Juliaetta school kitchen, where Mrs. Ray Sherer, Mrs. Mann, Mrs. Dan Dillon, Mrs. Lura Nelson, Mrs. Harvie Shepherd, Mrs. Tommy Peters and Mrs. Chester Westling canned them.

That same day Mrs. Walter Silflow, Mrs. Leonard Wolff, Mrs. Lloyd Craig and daughter Jeanne brought beets donated by Leland and Cameron ladies and Mrs. D. A. Christensen to the Kendrick school kitchen, where they were processed into pickled beets.

## Working At Plugged Culverts

A state power shovel has been here several days this past week digging out the ends of the big culverts plugged by the downpour of a couple of weeks ago on Big Bear ridge, and cleaning ditches and otherwise making improvements in this section.

The state highway crew here has been trying desperately, Clarence Perryman says, to get enough pre-mix prepared to repair the road between Kendrick and Juliaetta, and at the edge of town — but it seems as if the weather or something else has always been against them.

First came the rainy weather that held up work for days — then the big downpour of a couple of weeks ago — followed by the collapse of the Bear creek bridge, all of which necessitated many extra hours of labor.

However, Clarence has hopes that ultimately this work can be completed.

## Recovers From Polio

Little Walter Knight, four-year-old son of Mr. and Mrs. Rex Knight, Juliaetta, returned home Saturday morning with his parents from the St. Joseph's hospital, Lewiston, after having spent a week there being treated for polio.

While he will have to remain in bed this week, he is feeling pretty "chipper." The stiffness in his neck and back is gone and soon he will be out playing again.

All are rejoicing over the news of his recovery.

## Storage Situation Excellent

Ben Westendorf of the Lewiston Grain Growers says that the storage situation at least so far as his firm is concerned is the best it has been for ten years.

It seems that everyone who had a government loan redeemed their grain, and it has been sold and shipped, leaving adequate storage room and some to spare.

Ben again voices the annual warning: "Don't start combining until your grain is ready."

## Free Swim Lessons, Intermediates

Free swimming lessons for the Intermediate age group will begin on Tuesday, July 29, at the Area Living War Memorial Swimming Pool in Kendrick.

All who plan to take these lessons are asked to be present at 9:30 a. m. to permit arrangement into age and ability groups.

(Continued on Page 2)

(Continued on Page 2)

**PERSONAL MENTION**

they will spend a week or ten days visiting in the home of his brother-in-law and sister, Mr. and Mrs. Solly Miller.

Ralph Jamison and son Jack of Mullan, Idaho, visited at the home of Mr. and Mrs. Ernest Freytag, Wednesday. Mr. Jamison is the retired head assayer of the Federal Mill and Smelting Co.

Mr. and Mrs. Elwood Pearson of Lewiston were Sunday callers in the home of Mr. and Mrs. Paul Lind.

Ralph McKinney of Lewiston began working at the local warehouse of the Lewiston Grain Growers last

week. He is now driving back and forth, but plans to bring his wife and two children here to live as soon as a house or apartment can be found.

Mr. and Mrs. David Clayton and little son Stan drove to Great Falls, Montana, last Wednesday, where they visited in the home of his brother, Mr. and Mrs. Elmer Clayton. They returned by way of Glacier National Park, arriving here Monday evening. Marilyn Paetel, who has been visiting in the home of her uncle and aunt, Mr. and Mrs. Oscar Slind for the past two weeks, left Tuesday for her home in Spokane. Her cousin, Leland Slind, accompanied her home

for a visit.

Mr. and Mrs. Jack Kuykendall and Mr. and Mrs. Elton Wilson spent Tuesday in the Three Bear area in search of huckleberries — no luck.

Mr. and Mrs. Milton Lofgren of St. Paul, Minn., are visiting Mr. and Mrs. Ed. Nelson and family this week. They were met in Spokane by the Nelsons on Sunday. Mrs. Lofgren is Mr. Nelson's sister.

Mr. and Mrs. Jack Travis were Lewiston visitors on Tuesday. Roy Bryant has finished logging operations on American ridge, and is now engaged in moving to the Park area.

Mr. and Mrs. Elmo Eldridge and family went on a huckleberrying expedition Sunday — no luck.

**OPERATION "SKYWATCH"**

that has won two world wars in this century came from the people who own the farms and factories of America. In a new war the enemy must try to shut off that power. To win he must destroy our production. He must destroy our factories, disrupt our food supply, demoralize us and crush our will to win by wholesale slaughter of American men, women and children. If he can't do that, he can't win.

"A basic problem facing us today is to get the people of this country to understand the important part they play in keeping the peace or in winning a war. There was a time when wars were won or lost by the army and navy and the air force. That is no more. From 1945 and henceforth wars are going to be won or lost by the people on Main Street. There is where the decision will be made.

"The time for air defense is now. The time for civil defense is now. The closest kind of cooperation between the military and the civilian arms of our national defense is essential if we're going to build a real deterrent to enemy attack. I think that we, as civilians, can count on the Air Force to do its part. But now the Air Force is asking us: 'Will you, as civilians, do yours?'"

\* If you are willing to give even a portion of your spare time toward helping man a ground observation post, contact Marvin Vincent, Kendrick.

**FAIRVIEW NEWS ITEMS**

Mr. and Mrs. Harold Parks and sons fished at Red River Hot Springs from Thursday through Sunday. Betty Parks stayed with her grandparents, Mr. and Mrs. Ed. Gertje, at Southwick, during their absence.

Mr. and Mrs. Ed. Gertje and Betty Parks drove to Lewiston on business, Friday.

Mr. and Mrs. Paul Hall and family of Little Bear ridge, and Mrs. Walter Cochran of Juliaetta spent Saturday in the home of Mr. and Mrs. Fred Glenn and daughters. Paul helped Fred haul hay that day.

Those picking raspberries for the school canning program included Mrs. Walter Silflow, Mrs. Lloyd Craig, Nina Dagefoerde and Mrs. Wilbur Corkill.

Mr. and Mrs. Roy Hasenoehrl and Mr. and Mrs. Wilbur Corkill and family picnicked at Bovill, Sunday.

Mr. and Mrs. Herb Wolff and daughter, Marlene of Meridian, Idaho, and Mrs. Blanche Wolf of Lewiston were Monday afternoon visitors in the home of Mr. and Mrs. Ervil Woody.

Mr. and Mrs. Don McKenzie and son of Troy, Idaho, were Saturday dinner guests and attended Sabbath school at Juliaetta with Mr. and Mrs. Ervil Woody.

Michael Fitzpatrick of Spokane is spending the summer vacation with his uncle and aunt, Mr. and Mrs. Pearl Hazeltine and family.

Mr. and Mrs. Pearl Hazeltine and family were Lewiston visitors on Monday.

Mr. and Mrs. Pearl Hazeltine, Sr., of Astin, spent Thursday and Friday with their son and daughter-in-law, Mr. and Mrs. Pearl Hazeltine, Jr., and family.

Mrs. Veta Stump's sister, Mrs. May Richardson, of Pullman, Wash., and her niece and husband, Mr. and Mrs. Herb Hamm of Los Angeles, Calif., were Sunday dinner guests in the Stump home. Mr. and Mrs. Don Bateman and daughters of Kendrick were evening callers.

Sandra Lawrence of Lewiston returned to her home Saturday, after spending a week's vacation with Patty Corkill.

Mr. and Mrs. Ed. Gertje visited Monday evening with Mr. and Mrs. Harold Parks and family.

"Cow Jumped Over The Moon"—Friday night proved to be the fatal one for a cow who thought the grass was greener over the fence — for when she attempted to jump the fence on the return trip to her own pasture, a hind foot caught and she fell, with her head down a steep embankment, her foot held securely. When found the next day she was paralyzed. However, she lived for 2 days and then was destroyed — for it was impossible for her to recover. The animal was owned by Mr. and Mrs. Jesse Heffel.

Mrs. Jesse Heffel and family visited at the home of her brother, Itto Dagefoerde and family at Rockford, Wash., Sunday.

**BIG BEAR RIDGE NEWS**

Mr. and Mrs. Marvin Redington (nee Opal Jones) and daughter Faye of Salmon, Idaho, were honored at a fried chicken picnic supper at Spalding park Thursday evening. The following relatives were present: Mr. and Mrs. Olis Sherbon and son John of Pullman; Mr. and Mrs. John Jones of Deary; Mr. and Mrs. Claude Jones and son Roger; Mr. and Mrs. E. H. Jones and son Donald and Miss Minnie Jones, the Ronald Jones family, A. W. Jones, Bernard and Ray; the Jack Maynard, Ted Hamilton, Arnold Olson, Lester McCracken families and Dr. and Mrs. W. A. Meyer, all of Lewiston.

Mr. and Mrs. Will Bower of Avon were Sunday visitors at the Chas. Bower home.

Little Risa Israel of Southwick spent last week with her grandparents, Mr. and Mrs. Grant Clemenhagen.

Mrs. Herbert Slocum and daughter, Mrs. Schnabel, of Lewiston, attended a Lutheran Ladies Aid meeting at the home of Mrs. Olaf Burnvik, Thursday afternoon.

Mr. and Mrs. Phil Paltz returned to their home in Fairbanks, Alaska last week, having visited at the home of her brother, Verne Dunham and family, and with Mr. Paltz parents in the east.

Mrs. Ervin Halseth and daughter Vickie Jo of Craigmont spent the first of the week at the Ed. Halseth home.

Mr. and Mrs. Claude Jones and son Roger and Mr. and Mrs. John Jones of Deary spent the week-end fishing near Pierce.

Miss Marilyn Paetel has returned to her home in Spokane, having been guest in the home of her cousin Miss Maxine Slind.

Mrs. Rose Long of Pullman is spending the week with her daughter, Mrs. Ronald Jones and family.

Mrs. Esther Carlson spent the week-end at Lewiston.

Leland Slind is spending the week with his grandparents, Mr. and Mrs. W. Leland and other relatives in Spokane.

**Cooked Foods Sale Saturday**

The Hi-Hope Club is sponsoring a cooked foods sale Saturday in the Jewelry store building, beginning at 4:00 p. m., and lasting through the evening. All members are urged to have their cooked foods ready, and Mrs. Harley Eichner will call for them. 1-adv.

**Manuals Win Blue Ribbon**

Idaho's series of 4-H farm electrification manuals has received the blue ribbon of the American Society of Agricultural Engineers, according to word received by J. W. Martin, head of Agricultural Engineering at the University of Idaho. This means the Idaho manuals are tops nationally in the 4-H farm electrification field.

Prepared by Martin and W. N. Knight, project director for the Idaho Farm Electrification committee, the Idaho series contains a manual for each of the 4-H project years. Clubbers are started with the simplest of fundamentals of electricity and how to use it safely. Each year's manual progresses to more difficult applications of electricity. Thus when a member has completed the five years' work he has a broad background of knowledge of electricity and its uses on the farm and in the home.

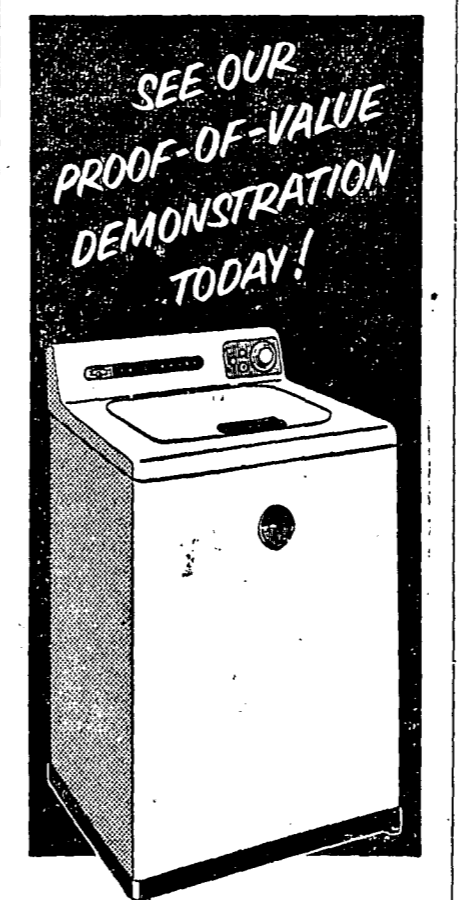

Around 750 Idaho farm boys and girls are now actively participating in 4-H farm electrification clubs, Martin reports. The manuals which Martin and Knight developed for these Idaho youths are now being followed at patterns by other states in their 4-H farm electrification programs.

**Are You That Strong?**

Beetles are among the strongest of all earth's creatures. Some species can support 850 times their own weight, says the current Reader's Digest. If an elephant could do as well it could carry on its back a weight equivalent to that of a long freight train.

Fruit juices of many kinds, canned or fresh-frozen are available at Blewett's Grocery-Market. 1-adv

**YOU GET MORE POWER FROM B.F. Goodrich**

**POWER-CURVE TRACTOR TIRES**

Power-Curve cleats dig into any kind of soil and hold firm. That's why these king-size cleats give you maximum traction — not only in forward gear, but in reverse, too. You get added pulling power—even in muddy going—because Power-Curve cleats are curved to stand rigid.

The famous BFG open-center tread flexes as the tire rolls. Dirt drops out, leaving each arrowhead nose clean to bite the soil better. And Power-Curve cleats dig deeper and wear longer because they're higher in the center than those of the other two leading makes. For more power in your tractor work, get the B.F. Goodrich Power-Curve tire!

**NYLON SHOCK SHIELD INCREASES TRUCK TIRE LIFE**

The exclusive BFG Nylon Shock Shield\* gives you greater mileage, increased bruise resistance, less danger of tread separation, more recappable tires.

\*In tires with 8 or more plies.

**X-Ray Laboratory**  
The Washington Institute of Technology at Washington State College reports that installation and calibration of the X-ray equipment for the industrial X-ray laboratory has been completed. This laboratory provides two pieces of X-ray equipment — one a 400,000-volt machine and the other a 250,000-volt industrial type machine — which makes possible the study of heavy metal parts or castings to discover the existence of flaws or cracks. The calibration allows accurate exposure times to be determined. Accurate dosages may also be calculated in current studies of radiation effects on plants and seeds.

**Area And Population**  
The Census Bureau reports that Idaho ranks 44th nationally in population, and 10th in land area.

**Five-Grass Mixture Popular in Indiana**

**Pays Off in Higher Quality Hay, Pasture**

Farmers in 12 northeastern Indiana counties swear by a 5-grass mixture that pays off in extra tons of high quality hay and pasture. The combination includes timothy, bromo, red clover, Ladino clover and alfalfa, reports Walter Rusk, county agent of Huntington county. This legume-grass combination, he said, could profitably be used by farmers in other states.

Five acres of the 5-grass mixture on the Norman Thompson farm near Huntington, Indiana.

When plenty of fertilizer carrying nitrogen, phosphate and potash is used at seeding time and plant nutrients are top-dressed each year, this 5-grass mixture has yielded as much as 3 tons of hay at the first cutting on many farms. One farmer in the area insists that 5 acres of the mixture provides more forage than he previously got from about 60 acres of pasture.

Norman Thompson, who farms near Huntington, Indiana, reports that he grazed 27 head of cattle, including 16 milk cows and 11 calves, as well as 100 small pigs and 10 sows for 5 weeks on a 5-acre pasture seeded to the 5-grass mixture.

Rusk points out that the well fertilized legume-grass mixture is doing an important soil building job, besides giving farmers a preferred position in forage supplies. The tap-roots of the legumes drill down deep to keep the soil open and well ventilated. They add organic matter to improve the soil's tilth and drainage. Large quantities of organic matter in the soil mean increased water-holding capacity. They also make it possible to get the best possible efficiency out of every ton of fertilizer used.

**Improved Ever-Bearing Strawberry Developed**

Strawberries from your garden from June to October are possible with the new, improved ever-bearing strains. Although the biggest crop comes from mid-to-late June, plants will continue to produce enough for breakfast cereal and dinner desserts until frost arrives.

Planting should be done as early in the spring as possible.

Said to thrive in any type of soil, is a new high-yielding variety developed by plant breeders of the Westerhauser Nurseries of Sawyer, Michigan. Called the "20th Century", this ever-bearing type is said to fruit in about 60 days and produce large, sweet, full-flavored berries all season long.

Seasoned gardeners recommend picking off the first blossoms so as to enable the roots to develop plenty of strength. They point out that while you may lose the first few fruits, you will gain in much bigger yields later in the summer.

**Grand Champion**

Iowa State College won the grand championship of the 52nd International Livestock Show with a 1,240 pound Aberdeen Angus steer, Toby. In 1950 Toby won the reserve championship and now is the only steer ever to return and capture the higher award. Shown with Toby are (left to right) Chief Judge A. D. Weber; W. W. Prince, president of the Union Stock Yards; Jess C. Andrews, president of the International Exposition; and George Edwards, herdsman for Iowa State College.

**Time of Plowing Should Depend on Type of Soil**

Ohio State University farm experts report type of soil should determine whether a farmer plows his land in fall or spring. Tests over a 14-year period indicate spring plowing is preferable on light soils. If plowed in the fall the ground has a tendency to become compacted by spring. On heavier soils tests show late fall plowing gives as good or better granulation of the soil than spring plowing.

**...when you seek justice, you want a lawyer who serves you, not the state!**

We salute the men and women of the legal profession. Here in the Inland Empire and throughout America, they have done much to protect the rights, freedoms, and privileges we all enjoy under the Constitution.

As lawyers, they are free to act fearlessly in the interests of their clients. As judges, they are free to administer laws justly.

YOU have a great stake in the continuance of their freedom—which is linked closely to American freedom of enterprise. When you seek legal advice or service, you want your lawyer to represent you and have your interests at heart. You don't want him to be a servant of an all-powerful government, as most lawyers are in totalitarian countries—communist, fascist, or socialist.

What has this got to do with your electric service? Plenty! If your electric service, medical service, and one after another of this country's professions and industries are "taken over" by government, your lawyer must soon serve the government, too—and will no longer be free to serve you and protect your freedoms!

**THE WASHINGTON WATER POWER COMPANY**

### Step-Ramp Loading Chutes Are Safest Many Livestock Yards Are Remodeling Ramps

Livestock markets across the nation are continuing in their program of modernization and the installation of step-ramp chutes to replace old wooden chutes that cause great damage to animals.

Cattle prefer steps to the old-style cleats. Many animals are injured and much meat lost from bruising due to the constant prodding necessary to get the animals up and down the old ramps, cattlemen have reported.

The Chicago stock yards recently opened 12 of the modern step-ramp chutes. Of concrete and steel construction, the new chutes are designed to ease the task of unloading stock, and insure safe and

Cattle prefer steps to the old-style cleats and amble safely down a ramp of the new style unloading dock without the usual prodding. This type of ramp is becoming very popular in markets across the nation.

efficient operations. Galvanized steel fencing and grates add to the safety features of the dock area. Waffle-grid concrete floorings provide safe footing for animals during the penning process.

The first truck to unload over the ramps brought 24 head of Hereford and Angus steers shipped by Carroll Snola of Onslow, Ia.

### Cracked Corn Found Best Feed for Suckling Lambs

Tests made at the University of Kentucky experiment station indicate cracked yellow shelled corn is the cheapest and best ration for the creep-feeding of suckling lambs.

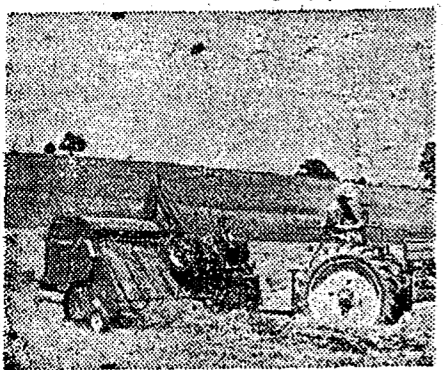

Experiments carried on over a period of nine years compared cracked yellow corn with mixtures of feeds. These included cracked corn, crushed oats and pea-sized linseed oilmeal; cracked corn and commercial milk substitute, and a third ration composed of "sweet feed" made of corn, oats, bran, linseed oilmeal, molasses and salt.

The experiment was conducted under the most controlled conditions possible, Kentucky educators reported.

The conclusion of the experimenters: "None of the three more costly mixtures showed any consistent or significant superiority to corn alone in rate of gain, efficiency of gain or market finish of the lambs."

The experiments were not designed to answer the question of whether creep-feeding pays, but rather to determine what rations are best for creep-feeding under Kentucky conditions.

### Baler

This automatic baler is a good example of how machinery is saving manhours on the farm. The baler can package a ton of hay in less than half the time needed by hand methods. With only the tractor driver in the field, this machine automatically picks up hay, slices it, presses it into compact packages and then ties the bale with two strands of twine. Further information is available at local machinery dealers or in the local hardware stores.

### Rice Is Most Important Food in the World Today

Although most Americans believe the statement exaggerated, rice is the most important food crop in the world today. It is the basic food of more than half of the world's population. In recent years the cultivation of rice has increased in this country, but in Asia it is the important crop because it is virtually the only food millions of people have—their means of sustaining life.

### Squirrel Provides Big Part Of Nation's Yearly-Game Bag

Although it is generally recognized as a prolific game species of extensive range, comparatively few people realize the truly important part the squirrel plays in the nation's game bag.

Several years ago the Remington Arms Company, Inc., conducted a survey of national wildlife resources and sportsmen's hunting preferences. The survey revealed that the squirrel ranked second only to the rabbit as the most sought-after game species in the country.

A recent analysis of "Hunters' Scorecards" returned to the office of the Mississippi Game and Fish commission placed the squirrel in an outstanding position in the hunting activities of the sportsmen of the Magnolia state. The analysis brings to light the fact that 79 per cent or 150,000 of the licensed hunters in Mississippi sought squirrel during the 1950-51 hunting season. The cotton-tail rabbit and the Bob White quail practically tied for second high rank, with the rabbit nosing out the quail by the slight margin of 47.15% to 47.12%. Next in line was the lowly 'possum with the somewhat surprising score of 23.06%, topping the dove's rating of 21.58%.

A breakdown of the analysis in hunting activity percentage and estimated total statewide kill follows: deer 6%, 1,370; wild turkeys 1.35%, 249; quail 47.12%, 2,119,532; squirrel 79.83%, 2,418,574; rabbit 47.15%, 900,360; coon 16.2%, 208,712; 'possum 23.06%, 386,145; dove 21.58%, 522,876; ducks 8.97%, 182,217.

### Patients On Salt-Free Diet Given Hope for Meal Variety

Patients on a monotonous salt-free diet were given the hope of adding more variety to their meals in two reports on further experiments in the recently developed exchange resin therapy. Exchange resin compounds have been administered to patients having congestive heart failure, cirrhosis of the liver, or kidney ailments which cause excessive fluids to collect in the system. The resin compounds eliminate the sodium which locks in the fluids. Because of this action, it becomes possible for the patient to take more sodium in his diet than would otherwise be possible.

In a report on resin therapy presented by Drs. Carl Voyles, Jr., and Edward S. Organ, Duke University School of Medicine, Durham, N. C., it was concluded that, "Resin therapy is a useful adjunct to conventional therapy in the management of chronic congestive heart failure, and it can be used safely in conjunction with strict sodium restriction in patients who are followed closely. Resin therapy also makes possible the addition of sodium chloride in amounts sufficient to render the diet more palatable," the report added, and it facilitates the action of mercurial compounds that help in fluid elimination.

The second report on exchange resin therapy reviewed studies by Drs. B. L. Martz, K. G. Kohlstaedt, and O. M. Helmer, at the Lilly Clinic for Cardiovascular Research, Indianapolis.

### Sleep Anywhere

One of the most energetic causes of sleep is fatigue. It is said that prisoners upon the rack have slept through sheer exhaustion while undergoing the horrors of torture. In a like manner, if one is tired enough he will be able to sleep on the floor or on any manner of uncomfortable bed, although he will not thoroughly relax. To the person who has known the luxury of sleeping on a good quality bed, though, sleeping on a worn out, sagging mattress and spring is almost as much torture as going to sleep on a prisoner's rack.

### War and Peace

Development of the flame thrower, which first became a military weapon during World War II and has been used extensively by the Army in Korea, led to the peacetime perfection of a highly proficient weed killer. Tests at the Army Chemical Corps Center, at Edgewood, Maryland, proved that a thin jet of burning, jellied gasoline would kill weeds between rows of plants without harming the plants themselves.

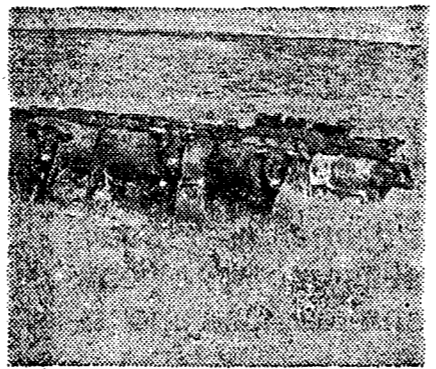

### Deciding Issue

If it had not been for the magic of the name "George Washington" the fabulous Phineas T. Barnum may have lived out his life in obscurity as a poor country storekeeper. One day, the man who was to become known as "the greatest showman on earth" heard an interesting story of a remarkable Negro woman, Joice Heth, who claimed to be 161 years old. When he went to see her, purely out of curiosity, she asserted that she had been the nurse of George Washington. Barnum became so excited upon discovery of documentary evidence to back up her claims, he decided to sell his store and exhibit the strange old woman in the east. The tour proved so successful, and stirred up so much interest, he was inspired to engage in other similar ventures. Finally, he formed the partnership with James A. Bailey, out of which grew the most famous circus in America.

### Shorthorn Breeders Conduct Experiment 102 Bulls Put Through First U. S. Program

Shorthorn breeders recently put 102 bulls through an obstacle course in the Nebraska range country with a view to toughening them up for a unique show and sale held at Broken Bow, Nebr., last month. Converting farm bulls from mid-western herds to rugged range

The drove of Shorthorn bulls above were part of the Broken Bow experiment to toughen up 102 animals to be used in cross-breeding programs in large commercial herds. The project was sponsored by the American Shorthorn Breeders Association.

bulls for service in large commercial herds of the west, the program was called the Range Bull project. The bulls were judged in groups of two and three, in the manner of "Camp Showings" in Argentina, and then sold to western cattlemen who wanted them for regular herd sires or for cross-breeding programs. It was the first such program in the United States.

The animals were consigned by 48 breeders in the middlewest and east and were turned out to range on July 1.

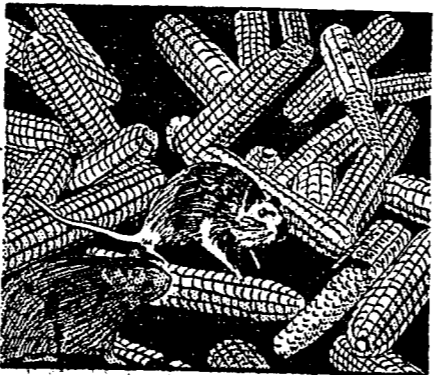

### Gasoline on the Farm Is 'Liquid Dynamite'

Gasoline on a farm is "liquid dynamite" and must be handled with extreme care to prevent explosions and fires. It is estimated that annual farm losses from gasoline fires amount to more than \$7,000,000.

Here are eight safety rules the farmer should follow:

1. Gasoline should be stored in steel drums in underground tanks at least 75 feet from any building.
  2. Gasoline or kerosene should never be left in open containers in any building.
  3. Gasoline or kerosene should never be handled in the presence of an open flame or other source of possible ignition.
  4. In pouring gasoline, make sure the pouring and receiving receptacles are grounded, to avoid static sparks.
  5. Never use gasoline, benzene, or other flammable material for dry cleaning.
  6. Never use gasoline or kerosene to start a fire in a stove or elsewhere.
  7. Make sure cans or tanks used in storage of gasoline or kerosene are painted red, marked plainly and in large letters.
  8. Never forget that gasoline or related petroleum products are the most potentially dangerous things you have on your farm.
- Observance of these rules will cut down farm fire losses.

### Rat Control

The farmer who has 20 rats on his farm is feeding them at a cost of \$40 a year. In other words, it costs farmers \$2 a year to keep one rat. Three rats eat and destroy as much feed as two laying hens require in a year's time. This is sufficient reason for every farmer to execute a rat-killing and control program.

### Poultrymen Are Advised To House Best Pullets

House only the best pullets that probably will produce well for the entire laying year, poultry experts advise. Those chickens that are under-developed, or generally unthrifty looking, will seldom produce well and should be marketed. And when housing pullets, it is generally wise to keep together those of the same age and stage of development. Smaller birds have a better chance this way.

**GOLDEN RULE**

July 22 — The Southwick Homemakers Club met Wednesday afternoon at the home of Mrs. Helen Cowger, the gathering taking the form of a surprise party in honor of the birthday anniversary of Mrs. Cora Jennings. Nineteen ladies were present to enjoy the afternoon. After the honor guest had opened and displayed her gifts, punch, cake and ice cream were served. The next meeting will be at the home of Mrs. Mary Lawrence, July 24. "Pickle Making" will be our topic.

Several ladies gathered at the Denzil Kuykendall home Thursday and picked strawberries for the school lunch program.

Loy Martin is laid off from his work at Grangemont, suffering with an injured finger.

Ishmael Martin spent Saturday at the Martin home here. His mother, Mrs. Roy Martin, went back to Lewiston with him, returning home Sunday with A 2/c and Mrs. Stanley Martin.

Mr. and Mrs. Oscar Lawrence and Caroline spent Sunday with her sister, Mrs. V. Volle Wyman and family at Culesac.

Mrs. Pat Holliday and son came up from Lewiston the first of the week to assist her mother, Mrs. D. V. Kuykendall, with berries and hoeing. Jerry Kuykendall went home with them to spend a few days.

**Life Insurance Funds Going To Nation's Defense Plants**

Life insurance funds are moving to the aid of the defense activities of the country in increasing volume, and loans made by the life insurance companies in support of the defense program may reach \$3,500,000,000 for 1951, according to the Institute of Life Insurance.

"In keeping with the usual policy of directing new funds into channels where they may be most useful for the national economy, the current trend in life insurance investments is towards meeting the capital needs of the preparedness program," Holgar J. Johnson, Institute president, commented. "This is in line with the voluntary credit restraint program under which defense needs have precedence over all other elements in the economy. Defense financing now accounts for the greater part of the life insurance company placement of policyholder funds in business and industry."

More than \$1,000,000,000 has been loaned by the life insurance companies so far this year to defense plants and indications are that a like amount may be loaned in the remaining months of the year.

In addition, some \$800,000,000 has this year been invested in loans to utility companies and railroads, which are basically involved in all defense activities. This amount may be nearly doubled by the end of the year. Thus, the total of financing made available during the entire year for defense industries or defense-supporting activities may come to \$3,500,000,000.

The loans for defense or defense-supporting purposes represent two-thirds of all loans made in the first six months by the life companies to business and industrial concerns, and the ratio has been increasing since mid-year.

**CAMERON NEWS**

Mr. and Mrs. Marvin Silflow and family were Sunday dinner guests of Mr. and Mrs. Fred Silflow, in Kendrick.

Roy Blankenship spent Sunday and Monday in the John Blankenship home.

Mr. and Mrs. August F. Wegner and sons Vern and Wayne took a vacation trip last week, going through Glacier National Park and on to Calgary, Alberta, Canada. They also stopped at Banff and Lake Louise, arriving home Saturday evening.

The Luther League gave a home movie show at the hall Sunday evening. Slides on India and Africa were also shown. Refreshments of cake and coffee were served at the close of the evening.

Mr. and Mrs. August F. Wegner entertained at a dinner Monday evening honoring the birthday anniversary of their daughter, Mrs. De Sullivan. Those present besides the guest of honor and family were Mr. and Mrs. Glen Wegner and children, and Verne and Wayne Wegner.

Mr. and Mrs. Gus Kruger, Mrs. Walter Silflow, Ed. and Richard Nelson, the latter two of Kendrick, fished on Cranberry creek last Friday. We did not learn their luck.

**Application For Hunt Permits**

The fish and game department reminded sportsmen this week of existing regulations governing big game special hunt applications now being received from resident and non-resident hunters.

Officials said all hunters who obtained permits for any special moose hunt in Idaho during any previous season are not eligible to apply again.

Antelope hunters who received permits in 1951 cannot apply for them in 1952 or 1953. Regulations also prohibit persons who draw antelope permits this year from applying for any special antelope hunt in 1953.

In addition, department officials stated hunters successfully drawing permits this year for the Big Wood River Special Elk hunt, the Focattello Special Elk hunt and any mountain sheep or mountain goat hunts cannot apply for these hunts in 1953.

These restrictions give unlucky applicants of past years a better chance to obtain permits, officials concluded.

**VILLAGE TREASURER'S REPORT**

The Treasurer's semi-annual report of the receipts and disbursements for the Village of Kendrick, beginning December 31st, 1951, and ending June 30th, 1952.

**TO FAMILIES WE HAVE NEVER SERVED**

Those who have never had occasion to engage the services of a funeral director must rely upon what others say, when the inevitable need arises. For almost fifty years Vassar-Rawls have been noted for professional skill, fair dealing, liberal policies. This reputation is your safe guide in calling a funeral home.

**Contrary To Superstition, Oysters Edible Year-Round**

Contrary to superstition, oysters are edible in all 12 months. Hot-weather shipping problems helped to build the R-month legend. The taboo remains appropriate even with modern refrigerated transportation, however, since May to August is the natural spawning season. The adult female oyster's feat of discharging as many as a half-billion eggs in this season leaves her a bit too thinned down for prime succulence.

Shad were surpassed only by cod and salmon among U.S. commercial fisheries before the turn of the century. Overfishing, industrial pollution, and high dams barring the way to upstream spawning grounds have forced shad far down on the list now. Although the Chesapeake Bay still accounts for one fish out of three, the total catch is less than one-fifth that of 19th century peak seasons.

Crabs, alewives, rockfish, croakers, sea trout, and menhaden all figure importantly in Chesapeake Bay commerce. Like oysters and shad, they are studied for rehabilitation purposes by such organizations as the Chesapeake Biological Laboratory at Solomons, Maryland, and the Chesapeake Bay Institute, Baltimore.

**Pearls and Pipelines**

Iranian nationalists have laid verbal claim to Bahrain, oil-rich island across the Persian Gulf where Arabian dhows put in bearing huge milky pearls from the sea floor. Persia has been claiming Bahrain without avail since 1783, however. An independent sheikdom under British protection, Bahrain is the site of an American oil field and refinery. Saudi Arabia's oil wells were joined with the Mediterranean coast in 1950 by the competition of Tapline, a 1,068-mile, 30-inch pipeline across the burning Arabian desert. American and British engineers proposed to build next an even bigger "Middle East Inch" (34-36 inches in diameter) from Abadan to the Mediterranean. Iran's oil would thus be linked by a tunnel of steel with the Western world—if the hot desert wind from Tehran does not blow the project away.

**Turbans**

In a survey of "fashions down through the ages," made by The Book House For Children the turban was found to be a favorite head covering of many ancient peoples, among them, the Armenians, Babylonians, and Phoenicians. Today's favorites include variations of the cloche, beret, and "beanie," a small disc of felt or straw that is anchored to the head, usually with hatpin or veiling.

**Color Blindness**

Most common in color blindness is the confusion of red and green, which may affect as many as 80 men and 5 women per thousand population. One person out of several thousand has trouble with yellows and blues. Very rare is complete color-blindness, in which everything is seen as black, gray and white. Not more than a hundred such cases have been reported in the scientific literature. Even a partially color-blind person usually learns to name colors properly a great deal of the time. For example, one with red-green deficiency may learn by experience that what he sees as dull dark yellow is really red, while a light yellowish-gray is what other people call green.

# Potlatch Chief Sez

Published by the Kendrick Creamery

## HELLO, THERE, FOLKS —

Yes, it seems that hot weather is on its way back — and with it harvest comes nearer and nearer. Now we appreciate the harvest rush, but you have those cows to care for anyway, so just take a few minutes more time and see to it that they have plenty of fresh water and salt, as well as feed — for higher cream production. And don't forget to cool and care for that cream and bring or send it in to us often — it will pay!

The lovely thing yanked her lovely self out of the clutches of the sailor and flung eye daggers at him. "Who," she snapped, "said you could kiss me?"  
"Everybody on my ship," replied the sailor.

Ice Cream? What better dessert can you serve that harvest crew than "Potlatch Chief" Ice

Cream. Delicious, nourishing, refreshing. Just the hot weather item everyone likes — and quick and easy, too.

Missionary: "I suppose tonight's banquet will be quite a thrilling feast?"

Cannibal: "You have no idea how you will be stirred!"

Want a quick, easy salad for these hot days? Let us suggest "Potlatch Chief" Cottage Cheese. It's delicious served plain, or with fruit and lettuce. You'll love it — so will your guests.

Man: "There's a fellow who's going places."

Friend: "Ambitious?"

Man: "No, his wife is out of town!"

And don't forget — we want to buy your cream!

## LINDEN ITEMS

Mr. and Mrs. Louis Alexander are enjoying a visit from her mother, Mrs. Sylvia Jenks, of Lewiston.

Mrs. Lester Weaver left Friday for Omak, Wash., to visit with a sister. Mrs. Lyons left on Friday of last week, and returned home Sunday from Yakima, Wash., where she visited her invalid sister.

Mr. and Mrs. Gene Mattoon and son Johnnie of Lewiston were Sunday supper guests of Mr. and Mrs. Chas. Keeler. The Mattoons were returning from a vacation trip into Canada.

On Tuesday the Gold Hill Harvest-er group met at the Robert Chilberg home, with 20 children attending, and with Mrs. Alva Craig superintending. Flower pots were painted, bulb boxes covered with wall paper, and a date set for their picnic. A social hour was enjoyed, and a delicious lunch then served by Mrs. Chilberg.

On Sunday the Gold Hill Harvest-er picnic was held in the Kendrick park.

Mr. and Mrs. Ray Butler and daughter Davida and Miss Shirley Tucker, all of Fort Angeles, Wash., spent Tuesday until Thursday with Mr. and Mrs. Gil Erlwine and son Jerry.

Mrs. Marion Souders and Mrs. Gil Erlwine attended the Upholstery Workshop in Troy, Tuesday through Monday. The work was under the guidance of Mrs. Helen Hunter, Moscow. On Friday Elbert McProud came to the Workshop and made a tape recording to be used on the "Farm Program" broadcast at 12:30 on Monday, July 28, over station KREL.

We have just learned of the birth of a baby son to Mr. and Mrs. Ted Grinolds. Mrs. Grinolds is in Moscow at this time and Mrs. Jake Grinolds is helping care for the family at home during the mother's absence.

Raymond Whybark was a Sunday guest in the Louis Alexander home. Mr. and Mrs. Clement Israel left Wednesday for Seattle to attend the wedding of his sister, Miss Aletha Israel and William Clark. Little Rise was a guest of her grandparents, Mr. and Mrs. Grant Clemenhagen of Big Bear ridge, until her parents return

on Monday. Mrs. Myrtle Stone left on Tuesday after a several-days-visit with the Alexanders.

Raymond Whybark spent Saturday night with his sister, Mrs. Earl Gaskill and family at Juliaetta. On Sunday Mr. and Mrs. Gaskill and children and Mrs. Whybark accompanied Raymond to the Gold Hill church for Sunday School and church services. Mr. Gaskill, in the absence of Rev. Norbo, delivered the message for the day.

The tape recording of the Troy Upholstery Workshop, made by Elbert McProud, county agent, was used on the Farm Program Monday of this week, instead of Monday of next, as originally scheduled. It seems some part of the regular program failed to materialize, and the recording was then used.

Mr. and Mrs. Arley Allen returned Monday evening from a week-end trip to Eugene, Oregon, where they attended a family reunion of Mrs. Allen's relatives — there being 89 in attendance. Of all these, the Allens traveled the farthest to be present. Enroute, they looked up a cousin of Mr. Allen's at Silverton, Oregon. After much driving around and many questions they found the place, but his cousin and family had gone to Missouri on a visit. They then visited Mr. and Mrs. Claude Vaughan at Albany, Ore., and Mrs. Anna Thompson and daughter, Miss Helen Thompson, at Eugene, Oregon.

## CAVENDISH ITEMETTES

Mr. and Mrs. Walter Sewell and daughters; Mr. and Mrs. Johnnie Sewell and Mr. and Mrs. Elmer Sewell and children were Sunday visitors at Coeur d'Alene.

H. W. Lansing is at the home of his daughter, Mrs. Agrell, in Moscow, recuperating following an operation.

Mr. and Mrs. C. F. Lansing and children; Mrs. Julia Carey, Alden Carey, Lowell Huffman, Mr. and Mrs. Frank Carey, Mr. and Mrs. Glen Newman and Jerry Koch spent last week-end fishing at Lake Pend Oreille.

Bertha Jenkins of Kooskia is visiting with her aunt, Mrs. Richard Cosner.

Mrs. Bill Pace of Moscow spent the week-end with her aunt, Mrs. Leo Koch.

Mr. and Mrs. Percy Homans and children and Mrs. Eva Paquin and children of New York are visiting at the home of their aunt, Mrs. Julia Carey.

Mrs. Chas. Daniels and son of Orofino spent the week-end at the home of Jess Daniels.

Mr. and Mrs. Maurice Hudson and family and Mr. and Mrs. Junior Hudson and son were Lewiston visitors on Sunday.

Jim McGuire, Mr. and Mrs. James Reece and family, Mr. and Mrs. E. E. McGuire and Georgia and Billy Reece picnicked at Spalding park Sunday. The event was in honor of Jim McGuire's birthday anniversary. Doyle and John Huffman of California arrived Sunday for a visit in the home of Doyle's grandmother, Mrs. Julia Carey.

Mrs. Frank Carey is in Moscow helping to care for her grandfather, who is very ill in the hospital there.
