

# KENDRICK GAZETTE

VOLUME 62

KENDRICK, LATAH COUNTY, IDAHO, THURSDAY, AUGUST 7, 1952

NO. 32

## NOMINATING ELECTION FOR IDAHO TO BE HELD AUGUST 12

There are but five contests in Latah county for the nominating election Tuesday, August 12. Two other contests are provided, that for nomination for United States representatives. The Republicans have a choice between Erwin H. Schweibert and John T. Wood, incumbent, while the Democrats have a field of four for the same office. They are: Paul A. Eke of Moscow; L. Cotty Lowry of St. Maries; Gracie Pfost of Nampa and the old-timer, Compton I. White of Clarks Fork, who has been in retirement for several terms.

William C. Moore and W. Wayne Smith, both of Moscow, are seeking the nomination for state senator on the Republican ticket, while George F. Brocke, Sr., Kendrick, is the lone aspirant for the same office on the Democratic slate.

A three-way battle is in the offing for state representatives, with two to be nominated. Candidates are Elvon Hampton of Genesee, desiring to succeed himself; Harold Snow of Moscow, and Jack McBride, who gets his mail on a Palouse, Wash., route. The Democrats have also filed three candidates for state representative. They are Hale C. Tognoni, Kenneth L. Holmes and Ben P. Shuey, all of Moscow.

For county commissioner, First District, E. B. Spencer and Alvah Strong are opposing candidates. The latter is an incumbent.

A contest developed for the nomination for probate judge on the Republican ticket. With L. G. Peterson declining to run again, those filing for nomination are: Lloyd G. Martinson and Kent B. Power, both of Moscow.

There is no opposition on the Republican ticket in Latah county for third district county commissioner, sheriff, county treasurer, prosecuting attorney, assessor or coroner. There is no opposition on the Democratic ballot for first district commissioner, sheriff, probate judge and prosecuting attorney, and there are no candidates on the Democratic ticket for county treasurer, assessor or coroner.

Absentee ballots became available at the county auditor's office Monday morning.

With no state officers to be elected in November, the primary ballot is short, but different this year. When you appear at the polls you will be handed a ballot containing the candidates for both parties. When you enter a booth you vote only for candidates on one side of the perforated line, and return it to the clerks. The unused portion of the ballot will also be returned to the clerks or judges. This change is supposed to eliminate the possibility of voting for candidates on two party tickets, which a great many like to do. People so disposed may cross the party lines in November — but not in the primary election — where voting a "straight" party ticket is mandatory.

Registration for the primary closes August 9th. Be sure you register — and vote — vote as you please — but exercise that great American privilege of the ballot — vote!

### Edgar Schneider Killed

Edgar Schneider, 34, 1712 18th St., Lewiston, met death at 10:45 Tuesday night when a pile of lumber fell on him in the stacker department of the Clearwater mills of Potlatch Forests, Inc., Lewiston.

Mill officials said Schneider was walking between two stacks of lumber when the accident happened. One the Kendrick fire siren screamed, right at the peak of the wind storm and in a very short time the Volunteer Fire department was on the job, stack, evidently precariously balanced, toppled and pinned him to the floor. His body was crushed.

Schneider was an army veteran. He is survived by his wife and a daughter, Kathy Ann; his parents, Mr. and Mrs. Fred Schneider, Lewiston Orchards, and a number of other relatives, included in which is a brother, Daymon Schneider, Kendrick — Lewiston Tribune.

Mr. Schneider was known to many here, having visited often with his brother, Daymon.

### Freeman-White Nuptials

Another local young couple joined the ranks of newlyweds Tuesday, Aug. 5, when Miss Connie Freeman, daughter of Harold Freeman, Juliaetta, and Gerald (Jerry) White, son of Mr. and Mrs. E. M. White, Kendrick, were united in marriage at the Court House in Lewiston at 4:50 p. m. by a Justice of the Peace. The groom's aunt, Mrs. Lillie White, witnessed the ceremony.

Both young people are well known here, both having graduated from Kendrick High School. The groom just received his discharge papers after having served four years with the Air Force.

For the present they are at the home of his parents, Mr. and Mrs. E. M. White. Jerry plans to attend the U. of I. this fall, and they will make their home in Moscow.

### Vacation For P.-T. A. Canners

Please note — P.-T. A. canners — the Kendrick school kitchen will not be available for canning operations Aug. 11, 12 and 13, as the room is to be redecorated in preparation for the beginning of school.

### Showing Improvement

Walter McCall, Sr., who was taken to the hospital last week, is reported as still very ill, but out of immediate danger. Mrs. McCall has been at his bedside constantly the past week.

### Thermometer Mounts High

Old Sol is certainly doing his best to bring harvest work to its peak in a hurry these days — for the readings this past week have all been in the high 90's.

Wednesday of last week we had a reading of 94 degrees; Thursday, 95 degrees; Saturday 93 degrees; Sunday, 99 degrees; Monday, 97 degrees, and Tuesday the mercury recorded a high of 99.

Without a shadow of a doubt Monday night was the warmest one of the year to date, for at midnight the thermometer said 75 degrees — which is very unusual for this section. At its lowest point the reading was 63 degrees.

### WHAT CAMERON FOLKS ARE DOING THESE DAYS

Mr. and Mrs. Fred Silflow and daughter Ida of Kendrick; Mr. and Mrs. Harold Silflow and daughter, Mr. and Mrs. Emil Silflow and sons and Teddy and Duane Meske were dinner guests of Mr. and Mrs. Marvin Silflow Saturday evening.

Mr. and Mrs. Glen Wegner and son Glen, Jr., fished at Black Canyon several days of last week.

Mr. and Mrs. Harl Whittinger spent Sunday with Mr. and Mrs. Ray Whittinger and family in the Lewiston Orchards.

Mrs. John Blankenship and Mrs. Marvin Silflow left for Ellensburg, Wash., Tuesday, to attend a three-day convention of Lutheran Sunday School teachers.

Mr. and Mrs. Herman Meyer and family were Sunday dinner guests of Mr. and Mrs. Marvin Silflow.

Mr. and Mrs. James Whittinger were vacationing at Yellowstone Park last week.

Betty Blankenship is visiting with Mr. and Mrs. Kenneth Sinclair at Moses Lake, Wash., while her mother attends the convention at Ellensburg.

Mr. and Mrs. Kenneth Sinclair and Jack Freeman of Moses Lake, Wash., and Miss Elsie Kruger of Lewiston were Saturday evening dinner guests of Mr. and Mrs. Gus Kruger.

Mr. and Mrs. Gus Kruger were Sunday dinner guests of Mr. and Mrs. Ed Nelson and family in Kendrick.

Marsha and Marilyn Ramey of Rosalia, Wash., are visiting in the home of their uncle and aunt, Mr. and Mrs. Walter Koepf and family.

Roy Silflow, Fred and Wally Newman and Loren Pitcher spent several days of last week in the Buffalo Hump country, fishing.

Mr. and Mrs. Ervin McGeachy and family, Kendrick; Mr. and Mrs. Roy Gertje and sons were Sunday dinner guests of Mr. and Mrs. Ed Gertje. Mrs. Harold Parks and son Ronnie and Betty Parks were afternoon callers.

Reggie Wegner is visiting in the home of his uncle and aunt, Mr. and Mrs. Bill Fry, at Elk River, this week.

Norman and Gary Whittinger of the Lewiston Orchards spent last week with their grandparents, Mr. and Mrs. Harl Whittinger.

Mrs. Walter Denner and children of Fix ridge; Mrs. Ida Stoneburner and Miss Emma Hartung were Sunday dinner guests of Mr. and Mrs. John Schwarz.

Mrs. C. H. Fry and Mrs. Dick Fry and son Jimmy, all of Kendrick, are guests of Mr. and Mrs. Glen Wegner for a few days this week.

Mr. and Mrs. Russell Rodgers visited with Mr. and Mrs. August Brammer, Thursday evening.

Mr. and Mrs. Henry Wendt were Spokane visitors, Tuesday.

Mr. and Mrs. Kenneth Wilken, Ernie Helmgartner, Jr., and Mr. and Mrs. Ernest Brammer fished at Black Canyon, Wednesday.

August Brammer, Rev. Meske and Henry Brammer fished in the Bungalow country from Tuesday until Thursday.

Mrs. Fred Newman was a dinner guest of Miss Helen and Ted Mielke Sunday.

Mr. and Mrs. Kenneth Wilken, Mr. and Mrs. Walter Koepf and family, Mr. and Mrs. Henry Wendt, Mr. and Mrs. George Wilken, Mr. and Mrs. Ernest Brammer, Mr. and Mrs. Carl Koepf and Marcia and Marilyn Ramey enjoyed a picnic dinner in the Kendrick park, Sunday.

### Fire Burns Fourteen Acres

A brush and timber fire in the Pine creek section burned over about 14 acres Saturday. Henry Jones, deputy state fire warden, and his crew arrived on the scene shortly after 10:00 a. m., and after brisk fighting brought it under control around 6:00 p. m.

The fire, of unknown origin, but undoubtedly man-caused, should put fear into the minds of everyone — and remind each of his duty in taking safety measures when in the woods.

Mr. Jones says the "moisture" reading is at the inflammable point, everything is tinder-dry and every precaution should be used to prevent fire.

Remember: "Keep Idaho Green" is more than just a catchy slogan — it's a warning.

### Two Local Candidates On Ballot

The names of two local candidates are appearing on the Primary Election ballot — and both are unopposed for their office.

George F. Brocke, Sr., Kendrick, is a Democratic candidate for the state senate.

Eugene Taylor, Juliaetta, is a Republican candidate for the office of county commissioner.

## Vacation Time..

- is the time to be careful too!

1. Hold your match 'til it's cold — then pinch it to make sure.
2. Crush out your cigarette, cigar, pipe ashes. Use an ash tray!
3. Drown your campfire, then stir and drown again.
4. Ask about the law before burning grass, brush, fence rows, or trash.

### Remember - Only you can PREVENT FOREST FIRES!

### PERSONALS AND NEWS ABOUT KENDRICK FRIENDS

Word has been received from Wayland Davis, that he is now located at Kalispell, Mont., and is residing at 46 Second Ave., East in that city. He accepted employment there beginning the first of the month. His old address was Williston, S. D. The news arrived on a postcard showing the exterior and interior of a swanky chicken and steak house (Hennessy's) so we presume that is where he is employed.

Mr. and Mrs. Wm. Riley have received word from their son Pfc. Delmer Riley, U. S. M. C., that he is now stationed at Oceanside, Calif.

W. C. (Bill) Moore, Republican candidate for the state senatorship was a Saturday caller in Kendrick. On Monday, Alvon Hampton of Genesee, a Republican candidate for the state-legislature, was a Kendrick caller. Both men say they favor a change in the present distribution of state school funds. Both called on George Brocke, Sr., with whom they served at Boise in sessions past.

Rev. F. C. Schmidt returned last Friday from Seattle where he had spent six days attending a pastors' school for Methodist ministers.

Mr. and Mrs. Marvin Long took her sister, Miss Marian Lowery, to Colfax Sunday, where she will visit with Mr. and Mrs. C. B. Kennedy. She had been a guest in the Long home for the past three weeks.

Mr. and Mrs. Bud Fey and sons, accompanied by Mr. and Mrs. E. J. Platt and daughter Lois were huckleberrying and picnicking at White Rock Springs, Sunday.

Mr. and Mrs. Edgar Long spent Sunday at the home of her sister, Mr. and Mrs. James Benjamin, Little Bear ridge.

Mrs. Ray Hathaway and daughters of Spokane are here this week, visiting in the home of her parents, Mr. and Mrs. Clifford Davidson.

Mrs. O. E. Havens of Bremerton, Wn., arrived here Saturday to spend some time visiting in the home of her daughter, Mrs. Frank Abrams and family.

Mr. and Mrs. Joe Clayton and family moved into one of the apartments in the Stedman building over the week-end. Mr. Clayton is employed as a mechanic at the Kendrick Garage.

Mrs. W. B. Deobald left Sunday for Seattle, where she will visit her son-in-law and daughter, Mr. and Mrs. James Legg. Mrs. Lester Crocker accompanied her, and will visit her sister, Mrs. Ed. Ohman and family.

Mr. and Mrs. John Johanson and Mrs. Estella Leith drove to Spokane Saturday. The Johansons visited with friends there while Mrs. Leith was met by her daughters, Mrs. Ig. Flaig and Mrs. Bob Spencer, going on to Coeur d'Alene to spend the week-end.

Mr. and Mrs. Jack Travis have as their house guests this week Mr. and Mrs. Melvin Hagen and son Bernard of Kimberly, B. C. (Mrs. Travis is brother) and her sister, Mrs. Effie Baaken of Seattle, and her son, Mr. and Mrs. Loren Baaken and three children of Hardin, Mont.

Mr. and Mrs. Teddy Deobald and daughters of Richland, Wash., spent the week-end here with their parents, Mr. and Mrs. E. A. Deobald and Mr. and Mrs. E. M. White. They were accompanied by Mrs. John Deobald and Verna Easterbrook, also of Richland, who spent the week-end with relatives.

Mr. and Mrs. Jud Lee drove to Twin Falls Saturday to the home of his sister, Mrs. Harry Dodson and family. They took little Chris Dodson, who had spent the past three months with the Lee family, back to his home. The Lees returned Sunday evening.

Mr. and Mrs. H. C. Schupfer and daughter, Mrs. Bud Eichner, drove to Spokane Sunday, returning home Monday.

Mr. and Mrs. John Glenn had as their guests Sunday Mr. and Mrs.

### Leland Houck of Lewiston.

Mr. and Mrs. W. W. Eldridge had as house guests over the week-end her sister-in-law, Mrs. Emma Jones and her niece and husband, Mr. and Mrs. Henry Yeager, all of Spokane. Mr. and Mrs. Elmo Eldridge and children were also Sunday dinner guests.

Mr. and Mrs. Walter Brocke joined Mr. and Mrs. Kenneth Brocke and children and Mr. and Mrs. Frank Brocke, all of Troy, for a picnic near Clarkia, Sunday.

Cpl. Roy White arrived in Lewiston Tuesday from Florida, with his honorable discharge papers in tow. He was met by his parents, Mr. and Mrs. E. M. White, in Lewiston. Roy has been in the service for four years, 20 months of which time were spent on the island of Okinawa. He says home is "really swell."

Dr. W. Wayne Smith, Republican candidate for State Senator on the Latah county ticket; Kent B. Power, Republican candidate for Probate Judge, and Chris Hagen, Jr., all of Moscow, were Kendrick visitors Tuesday.

Harold Goff was down from St. Maries for the week-end. He and his wife spent Saturday in Genesee redecorating their new home. Mr. Goff has accepted a position on the faculty in the Genesee school system and they will move there as soon as Mrs. Goff has completed her summer school work at the University of Idaho.

The home of Mr. and Mrs. Ben P. Cook was the scene of a family get-together Sunday for luncheon to honor Mrs. Cook's uncle, Ernest Peer of Peoria, Calif., whom they had not seen for 30 years. Mr. and Mrs. Kenneth Hoguffer and son of Craigmont brought him over, as he had been visiting in their home. Other present were Mr. and Mrs. R. L. Blewett and son Billy; Lt. Col. and Mrs. Aaron Blewett and family of Moscow, and Mrs. Harold Goff and sons. In the evening all drove to Lenore to enjoy a pick-up supper with Mrs. Cook's sister and family, Mr. and Mrs. Gilbert Geidel.

A family reunion of relatives of Mr. and Mrs. Jack Travis was held Sunday in the Kendrick park, with the following present: Mr. and Mrs. Lawrence Bakken, Darlene, David and Susan of Hardin, Mont.; Mrs. Effie Bakken, Seattle, Wash.; Mr. and Mrs. D. M. Veach, Kellogg, Ida.; Mr. and Mrs. Melvin Hagen and son Bernard of Kimberly, B. C.; Mr. and Mrs. Herman Travis and family of Grangeville, Ida.; James Jessup of Grangeville, Idaho; Mr. and Mrs. Weyne Weyen, Kendrick; Mr. and Mrs. Roy Bryant, Kendrick; Mrs. R. J. Hamblin, Kellogg, Ida., and the host and hostess, Mr. and Mrs. J. G. Travis.

Mr. and Mrs. Floyd Terriff and family of Foremost, Alberta, Canada, arrived here Tuesday for a visit in the J. G. Travis home.

Emulus Brown and son Jerry were in Clarkston Tuesday evening attending a farewell picnic in honor of Mr. and Mrs. Roy Johnson, former Kendrick residents, who are moving this week to Chicago to make their home.

### Fire In Creamery Tuesday Eve.

Tuesday evening about 7:00 o'clock the Kendrick fire siren screamed, and in a very short time the Volunteer Fire department was on the job — and on their arrival at the Kendrick Creamery it was discovered that the three big "V" belts which drive the compressor for the locker room cooling, were slipping on the motor drive — and had created a tremendous amount of smoke, but very little flame.

A shot from a chemical extinguisher was all that was required — the rest being up to the Medals — airing out the creamery and installing new belt.

The blaze was discovered and the alarm turned in by Frank Cantril.

### "Money Man Calls"

Mrs. Frank Abrams received the shock of her life Monday afternoon when Bob Schwarz, KHQ's "Money Man," called to ask her the question — "Who developed the first power driven spinning wheel?" She could not answer it, so had to forfeit the \$55.00 that might have been hers had he called a little later. The irony of it all was, Mrs. Abrams had some reference books out and was in the act of looking up the answer when the phone rang!

Mrs. Abrams young son Richard seemed elated to think she would get \$2.00, which is the customary "courtesy fee," saying: "Gee, two paper dollars, that's mo'een fifty-five, isn't it?"

### STILL NO OFFICIAL WORD AVAILABLE ON BRIDGE

As yet, the Gazette has been unable to obtain any official word on the status of the new Bear Creek bridge — no one, apparently, being willing to talk for publication — as of this date.

However, unofficial word now has it that the new crossing will not be of the overhead type — but rather will cross the tracks about midway between the Ben P. Cook planing mill and cabinet shop, and the old Bear creek bridge — a spot calculated to give the greatest unobstructed view in both directions.

The approaches (also still unofficial) begin with a road build-up near the A. O. Kanikkeberg home in the east part of town, and there takes an easy swing back of the Jack Travis home, almost paralleling the railroad track for a short distance, then crosses the track into the creek bottom, thence up the creek bottom for a short distance, and then on an easy curve across the creek and landing at the rear of the home of Mrs. Dave Gentry. Then in an easy swing to the present roadbed.

We understand that the Bear creek channel is to be dredged and straightened, to permit a straight flow of the waters of this creek into the Potlatch, the two streams' junction forming a "Y" rather than the right-angle "T" as at present.

Potlatch creek, too, is to be dredged, and put back into its old channel at the base of the hill and bluff, rather than being allowed to pursue the meandering course it now uses. This operation would complete the "Y" junction of the two creeks mentioned previously.

The big rock bluff to the east of the Roy Glenn home is to be blasted away, and used as rip-rap and base for the creek channel crossing and abutment guards.

We repeat, all the above is unofficial, no one apparently being willing to talk for publication.

There is one point, however, that is official, J. H. Cairns of the Lewiston office, stated that the work was to be rushed to the limit, in an attempt to complete it before the fall rains begin and the creeks rise.

### Club Holds Two Meetings

The Big Bear Ridge 4-H Club has held two meetings in the past three weeks.

The members met at the home of Leland Slind on July 21. A short business session was held, followed by recreation and refreshments. It was decided to hold a square dance on September 6th.

Another meeting was held August 4th at the Community hall. The two high-lights of this gathering were demonstrations and basket weaving.

The following demonstrations were given: "Tractor Servicing and Cost Records," Don Ingle, "Making a Hemming Gauge," Barbara Dunham; "Making an Underwriters Knot," Richard Weber; "Pressing and Mounting Forestry Specimens," Richard Dunham.

"Basket Weaving," led by Donald Ingle, was enjoyed as the main event of the evening.

Refreshments were furnished by Larry Galloway.

The next meeting will be held on August 18, at the home of Richard Weber. "Glass Etching," is planned for recreation.

### Wanted To Save Dad Money

Little Richard Abrams evidently wanted to save his parents, Mr. and Mrs. Frank Abrams of Kendrick, money on the family car (at least on operating expenses) so last Saturday he took off the gas cap and finished filling the gas tank with water — unknown to his parents.

Mrs. Abrams and children took the car and headed for Lewiston to attend church. Just about the time they reached the E. M. White home in the west part of town, the gas in the fuel pump and carburetor became exhausted — and the car coughed and died — right on the spot.

Help was obtained, the car taken to the Kendrick Garage, and there examination revealed the cause of the "stopping."

After draining the gas tank (about 18 gallons), the fuel pump, carburetor, etc., the car ran as good as new. Richard, however, undoubtedly will not try filling the tank with water again!

### New Cavendish Correspondent

Mrs. Everett Blackburn, who has been our correspondent at Southwick for the past several months, has resigned, as the family is leaving that neighborhood.

Mrs. Leo Koch is now corresponding for the Gazette, and any help you can give her in the gathering of news will be appreciated by her, as well as by us.

### NEWSY ITEMETTES FROM AMERICAN RIDGE AREA

#### Hi-Hope Club Meeting

The Hi-Hope Club will meet in the Kendrick park next Thursday afternoon, Aug. 14, at 2:00 o'clock, with Mrs. Wayne Davis and Mrs. Ed. Kent demonstrating "Textile Painting." All will answer roll call with "A Hot Weather Tip." Bring your picture for the Scrap Book and an idea for a Fair booth.

#### Other News

Stevie Krause of Spokane, and Barbara Carlson of Genesee have been visiting in the Andy Cox home. Mr. and Mrs. Andy Cox and Andy Sue and Barbara Carlson took Stevie Krause back to his home in Spokane on Wednesday.

Mr. and Mrs. Ed. Kent were Sunday dinner guests of Mr. and Mrs. Gordon Penland at Leland.

Mr. and Mrs. Bob Albro of Seattle; Mr. and Mrs. Werner Brammer and daughter of Mr. and Mrs. Ira Havens were Wednesday evening callers in the home of Mr. and Mrs. George Havens.

Mrs. Walter Benschoter and daughters Judy and Diana assisted Mr. and Mrs. Tom Greene and daughter of Nez Perce to move to Milton-Freewater, Oregon, Sunday, where he will teach this coming year.

Wanda Peters of Leland is spending a few days with Nita Benschoter.

Mr. and Mrs. Frankie Benschoter and Mr. and Mrs. Albert Bailey and daughters of Juliaetta were Thursday visitors in the George Havens home.

Mrs. Stanley Mills and daughters of Moscow spent the week-end with her parents, Mr. and Mrs. Ira Havens. All were Saturday evening visitors in the George Havens home.

Mr. and Mrs. Don Benschoter and of Craigmont; Dr. and Mrs. Dan Guy of Lewiston; Mr. and Mrs. Ray Coon and daughter and Mr. Gardner of Peck, were Sunday guests in the Frankie Benschoter home. Mr. and Mrs. Geo. Havens and sons Rayner and Charles were evening callers.

Mr. and Mrs. Norla Callison and family were Sunday dinner guests of Mr. and Mrs. Hugo Eberhardt of Lenore.

George Giese of Fix ridge was a Monday evening caller in the Harry Benschoter home.

Mr. and Mrs. Warney May, Jr., were in Moscow on Monday, taking delivery of a new tractor — a D-4.

Mr. and Mrs. Grant Morgan and daughter Florence of Puyallup, Wn., and Mr. and Mrs. Archie Morgan of Moscow were Monday dinner guests in the Ed. Kent home. Mrs. Myrtle Cochran of Juliaetta joined the group for supper.

Mr. and Mrs. Walter Bigham and Mr. and Mrs. Ernie Andrews, the latter of Lewiston, were fishing several days last week, and reported fair luck. Frank Hill of Lewiston and Wesley Andrews stayed at the Bigham home while they were away.

Mrs. Norla Callison and daughter Nancy, and Mrs. Harley Eichner were Saturday callers in the Ira Havens home.

Mr. and Mrs. F. D. Farnsworth and son of Moscow were Friday evening visitors in the home of Mr. and Mrs. Geo. Havens and family.

Mr. and Mrs. Norla Callison and family and Mrs. Harley Eichner were Moscow visitors Tuesday afternoon.

Mr. and Mrs. Tom Green and daughter of Nez Perce were Friday over-night guests of Mr. and Mrs. Walter Benschoter and family.

Mr. and Mrs. Kenneth Hunter of Moscow were Sunday visitors in the Harley Eichner home.

Mrs. Bud Eichner accompanied her parents, Mr. and Mrs. Herman Schupfer, to Spokane Sunday afternoon.

Warney May, Sr., of Lewiston, assisted his son, Warney May, Jr., several days last week, preparing the combine for harvest.

The Benschoter Bros. started combining Saturday; Virgil Hurlburt began on Wednesday; Geo. Havens began combining for Werner Brammer on Wednesday — and others plan to begin operations in a few days.

Your reporter is sorry that she was unable to reach all by phone — as the wind of Tuesday evening put the telephone line out of order.

Mr. and Mrs. Bud Eichner were Sunday dinner guests of Mr. and Mrs. Harley Eichner.

### About Our Next Issue

Our next issue will be a "Twenty Year Ago" one, so far as we are able to make it. The ads, however, will be up to date — as no price of twenty years ago could possibly apply.

Most Kendrick merchants (where possible or practical) are repeating their advertisements to let us get a short vacation — and know that our hard working correspondents will enjoy it, too.

We have endeavored to give all possible news of "Twenty Years Ago" — through most of July and up to the middle of August — and hope you enjoy reading it.

### Entertain Moscow Guests

Sunday, Mr. and Mrs. Keith Forney and children and Mr. and Mrs. Bob Lind, all of Moscow, were dinner guests in the Paul Lind home.

Mrs. Paul Lind was a visitor in Moscow on Monday.

### Wow-Wow-Wow!

Recently a woman won a divorce from her husband because she failed to get the fur coat he promised her while courting her. Suppose something like that ever happens to politicians! — Carson, S. D., Press.

**GOLDEN RULE**

Aug. 5 — Mr. and Mrs. L. L. Yenni visited at the D. V. Kuykendall home Wednesday evening.

The Southwick Homemakers Club will meet with Mrs. Goldie Mustoe on August 14, with Rachel Armitage as co-hostess. Decisions on our Fair booth will be made that day.

Loy Martin returned to his work at Grangemont following a lay-off due to a severely injured finger.

A number of ladies in two cars went to Lewiston Orchards Thursday morning and picked 270 pounds of apricots and two boxes of summer apples for the school lunch program. About 12 or 15 ladies gathered at the school kitchen that afternoon and canned and made jam.

Mr. and Mrs. Warner Ziemann of Moscow visited his brother, John Ziemann, here, Wednesday.

Mrs. Pat Holliday and son of Lewiston Orchards, came up Saturday evening to visit her parents, Mr. and Mrs. D. V. Kuykendall and family, returning home Sunday evening.

Mrs. Oscar Lawrence accompanied Mrs. D. V. Kuykendall to Kendrick Thursday morning.

Doris Ann and Steven Christensen spent Friday night and Saturday with their grandparents, Mr. and Mrs. Glen Betts, while their parents went on to Lewiston.

Mr. and Mrs. Ralph Stage and son spent the week-end near Kamiah with his sister, Mrs. Bud Adamson and family.

The Ernest Cowger family have moved into their house, from the former Bill Cowger place, now owned by Mrs. Daisy Stage. Mr. and Mrs. Ralph Stage are preparing to move onto that place.

**STONY POINT NEWS**

Mr. and Mrs. C. C. Belknap, Marvin Belknap, and his daughter visited Sunday with Mr. and Mrs. Newt Heath.

Pfc. Lee Heath, who is stationed at San Louis Obispo, California, arrived here Sunday evening for a harvest furlough.

Mrs. Forrest Gibbs and family of Spokane, arrived here Monday evening to spend a week visiting in the Newt Heath home.

Mr. and Mrs. Newt Heath expect another daughter and her family, Mr. and Mrs. Allen Scroggins and daughter, to arrive Thursday for a visit. They are on their way from Maryland, where Mr. Scroggins was recently released from the navy, to Richland, Wash., where they plan to make their home.

Mrs. Helena Brown is enjoying a visit from her cousin, Mrs. Wilbur J. Downs, Mr. Downs, and their granddaughter, Patty Downs. They arrived Sunday evening from Oroville, Wash. Miss Downs home is in Okinogan, Wash.

Mr. and Mrs. Glen McKay visited one night last week with Mr. and Mrs. Ernest Steigers.

Keith Steigers and Don Cooke spent the week-end floating down the river on a rubber raft, and fishing. They reported good results.

Robert Stevens is home on leave from the navy for two weeks. He was honored at a family gathering at Spalding, Sunday.

**Babies Are Big Business**  
Babies are big business today, says the current Reader's Digest. Sales of toys, baby foods and baby furniture have increased more than 500 percent since 1939, and the baby-goods business has rocketed to an all-time high of over \$5 billion a year.

Shop at Blewett's Grocery Market, Kendrick, for all kinds of fresh and fresh-frozen fruits and vegetables, fish and fowl. Serve yourself and save. 1-adv

**BIG BEAR RIDGE NEWS**

Mrs. Claribel Ingle Anderson arrived here from Los Angeles, Calif., last week for a visit with relatives and friends here.

Mr. and Mrs. Danny Kechter and children of Southwick were Sunday guests at the Ed Galloway home.

Mrs. Wm. Leland and daughter, Mrs. Alice Kappel and three daughters of Spokane are visiting at the home of the former's daughter and latter's sister, Mrs. Oscar Slind and family. Leland Slind, who had been visiting in Spokane, returned home with them. On their return to Spokane Tuesday Maxine Slind went with them for a visit in the home of her cousin, Marilyn Paetel.

Mr. and Mrs. A. Kleth are spending some time with their daughter, Mrs. Ralph Kaye, in Lewiston. Mrs. Kleth is gradually improving.

Verne Dunham is combining grain near Pomeroy, Wash.

Rev. and Mrs. Louis Belk and daughter Joan of Le Mars, Iowa; Mrs. Peter Hesby of Deary; Miss Maxine Slind and Mrs. Johanna Nelson drove to St. Maries, Coeur d'Alene and Luthervan, Thursday.

The Lutheran church picnic held at Laird Park, Sunday, was largely attended. Rev. Louis Belk of Le Mars, Iowa, was guest speaker for the morning service.

Mrs. George Backer of Deary visited at the home of Mr. and Mrs. Henry Galloway and family, Sunday.

Dawn Marie Nelson of Kendrick spent last week at the Grant Clemenhagen home.

Joan Belk, Le Mars, Iowa, was a Saturday over-night guest of Maxine Slind.

Miss Minnie Russell spent the past week at the home of her sister, Mrs. A. C. Wilson. Miss Russell was accompanied by her uncle and aunt, Mr. and Mrs. Clarence Shapley of Sedro Woolley, Wash.

Cpl. Jay Dee Wilson returned to Camp Hanford, Wash., on Monday, after spending a furlough at his home here.

On Sunday Mr. and Mrs. A. C. Wilson and son Wayne attended a picnic in Natatorium park, Spokane. In the nature of a family reunion the following were present: Mr. and Mrs. Clarence Shapley and Miss Minnie Russell of Sedro Woolley, Wash. (the honor guests); Mr. and Mrs. Howard Russell, Mr. and Mrs. Ralph Gundersen, Mr. and Mrs. James Green and Mr. and Mrs. Sidney Wilson, all of Spokane; Sgt. and Mrs. Donald Russell and three children of Fairchild Air Base; Miss Orpha Grinstead and James Martin of Yardley, Wn.; Emmett Martin of Chester, Wash.; Mrs. Lana Harvey and children of Dishman, Wash.; Mr. and Mrs. Lyle Cabbage of Seattle; Cpl. Jay Dee Wilson of Camp Hanford, Wash. and Miss Leona Wilson of Pullman, Wash.

**Harvesting Speeding Up**  
More and more trucks, with heaps of golden grain showing above their grain boards, may be seen on their way down Kendrick's Main street, headed for the warehouses — as the hot weather of the past week has brought more and more fields into the "ready stage."

Both local warehouse managers, W. A. Watts of the Kendrick Rochdale Co., and Ben Westendahl, of the Lewiston Grain Growers — are singing the song they have been singing for many years past — "wait until your grain is ready! Don't cut it green!" Both say there is ample storage room in Kendrick to care for all crop needs — so wait until that wheat is ready for the combine.

Green-cut grain shrivels, has a lower test, and creates a fire hazard in the warehouses. Weather conditions are "tops" for harvest" — so be sure your grain is ripe.

Wheat is said to be of very good quality, although there is some smut, probably due to the late, wet spring. Yields are said to be running very satisfactorily, with reports of 50 bushels to the acre common.

**Wind Does Plenty Of Damage**  
The brief, but high velocity wind storm which visited Kendrick and vicinity Tuesday evening did plenty of damage in the short time it blew.

When it first arrived the blow was from the west, and the air was filled with fine dust which sifted into every crack and crevice of local homes. After about 15 minutes the wind reversed itself and blew from the east — and during these periods tore sections of metal roof loose from the Blewett building, broke limbs from trees, ripped a few shingles from home and outbuilding roofs and littered streets with small debris of all kinds.

The blow lasted only about 30 minutes.

**Called Out On Fire**  
The brush crew employees of the local state forestry department left early Wednesday morning for the Absahka area, called to fight a fire evidently set by the lightning which accompanied a brief but brisk wind storm Tuesday evening.

**New Arrival**  
Mr. and Mrs. Allen Baker, Clarkston, are the proud parents of a baby girl, born to them Tuesday, Aug. 5, at the Davidson Nursing Home, Kendrick.

**Attend Election School**  
Mrs. Estella Leith, Mrs. George F. Brocke, Sr., Mrs. Elmo Eldridge, Mrs. Roy Glenn and Norla Callison attended a school of instruction for election board members at the court house in Moscow, Tuesday.

**Controlled Storage Keeps Apples Prime**  
Regulated Atmosphere System Is Recommended

The answer to whether apples will taste as good in May as they do in September is "yes"—if they are apples from specially constructed controlled-atmosphere storage. That is the opinion of Prof. R.M. Smock, of Cornell university's agricultural experiment station. More than 100,000 bushels of apples are in 15 such storages in New York state, the first of their kind in the country. "When they come

It sort of puts the apple to sleep and it never awakens until brought out into store temperature.

out in April or May or June," Smock says, "the apples are expected to be of prime quality." Results of 10 years of experiments show that controlled-atmosphere storage will double the ordinary storage life of McIntosh, provided the rooms are properly constructed and operated. Good results also were obtained with Delicious and Northern Spy when the varieties were stored separately.

**Sweet Potatoes Make Valuable Farm Crop**

Many North Carolina farmers who have never planted sweet potatoes for market should be able to increase their farm income this year through the cultivation and sale of this root crop, according to H. M. Covington, extension horticulture specialist for the state college extension service.

The U.S. department of agriculture has requested farmers to increase their production of sweet potatoes by 12 per cent. Even if such an increase is planted, production would still be about 10 per cent under the 1937-46 annual average.

Farmers who plan to increase their sweet potato acreage this year to have some for sale, should consider market outlets before planting, Covington states.

**Automatic Defroster**

A household device which automatically defrosts the refrigerator and is a fine electric clock has been put on the market.

The defroster, the company stated, eliminates the housewife's periodic, usually messy defrosting chores which are so often put off until she finds time and a thick, insulating coat of frost has accumulated on the freezing unit.

Automatically, the defroster turns the refrigerator off at 1 a.m. each day, and then, again automatically, switches it back on after the thin skin of frost is removed from the unit.

During the shut-off periods, moisture created by the melting film is circulated through the box.

With the defroster, which is a precision timing instrument, any electric refrigerator, old or new, easily can be made self-defrosting.

**Chlordane Is Effective Ant, Cockroach Killer**

The newest and most effective insecticide against cockroaches and certain kinds of ants is "chlordane."

Two-per cent chlordane sprays, with oil or water base, now are for sale in many department, drug and hardware stores.

These sprays leave an invisible, odorless film on surfaces to kill pests which come in contact with it.

**Finishes Pre-Tested**

The term "industrial-finishes" is applied to the finishes used by manufacturers to enhance their products. Before being applied, they are subjected to many special tests based upon the kind of usage to which the article may be subjected. For example, in addition to tests for adhesion, and hardness, finishes for refrigerators, stoves and kitchen cabinets are tested for their resistance to various foods, such as lemon juice, butter, lard and vinegar—as well as to various cleaning materials.

**Wooden, Aluminum, Ladders**

The rung of a wooden ladder will bend downward about one-sixth of an inch for a 150-pound person stepping on its center. An aluminum ladder is constructed so that the deflection is much less. If it were built like the wooden ladder, the deflection of the aluminum rung would be about a ninth as much as for the wooden rung under similar conditions. This is because aluminum is nine times as rigid as wood (white oak).

**Adrenal Gland Plays Role When One Suffers Injuries**

Another step forward in better understanding the important role played by the adrenal gland in helping the body recover from injuries has been achieved, a University of Michigan doctor states.

Dr. Jerome W. Conn, an associate professor of internal medicine, reported to the American Association for the Advancement of Science on research he has been conducting at the university.

His study has shown that the adrenal gland calls upon a substance in the blood known as cholesterol to help in producing the huge amounts of adrenal hormones needed in prolonged periods of stress which the body undergoes at the time of an injury.

Cholesterol, produced largely by the liver, is the basic compound of adrenal hormones, including cortisone, the hormone found to be beneficial in the treatment of rheumatoid arthritis, Dr. Conn says.

In his experiments, Dr. Conn found the cholesterol content of the adrenal gland could be reduced 70 per cent within three hours by artificial stimulation which produced conditions similar to those created within the body during periods of prolonged stress.

This artificial stimulation was achieved through use of ACTH, the pituitary gland hormone which causes the adrenal gland to produce its hormones.

The effect of this prolonged stimulation of the adrenal gland has important implications for future study of several diseases, including those of the heart, liver and kidney as well as hardening of the arteries, according to Dr. Conn. These diseases are all associated with an unusual production or use of cholesterol.

**Wool Scarce; Give Blankets Extra Care for Longer Life**

Treat your wool blankets with the gentle care that precious possessions deserve. Textile scientists of the U.S. department of agriculture have pointed out that U.S. production of wool this year is one of the lowest on record.

Frequent airing of blankets in use not only is good sanitary practice but helps them last longer and hold their fluffy warmth and comfort. When a blanket is thrown back loosely so fresh air reaches both sides, the wool has a chance to get back its natural springiness which makes for warmth. But care should be taken not to throw a blanket over anything sharp, such as a peaked bedpost, which may pierce or pull it, or on anything that may stain it. Loose bed springs, sharp metal corners or even roughened wood may also catch and tear blankets or other bedding.

For best service and comfort blankets should be large enough to come up well over shoulders and still tuck firmly in the bottom of the bed. Short blankets often wear out early because they take so much pulling and strain.

A blanket stays clean longer if the bed is made so that the sheet turns back over the top of the blanket 8 to 12 inches. If the sheet is too short, a strip of cloth, basted over the top or the full length of the blanket, is good protection against soiling the wool. A covering over the blanket, or even a third sheet used on top, gives added warmth because it holds still air in the fluffy wool.

**For Pig Protection**

A pair of clean rubber boots is worth more than any medicine in protecting pigs from a fatal intestinal disease called transmissible gastroenteritis. Best means of controlling it is to move healthy pigs as far away as possible from the sick ones. Many farmers do this, a veterinary medical bulletin points out, but they overlook the fact that their shoes can spread the infection. Attendants who have walked through infected hog quarters should put on a pair of clean boots before entering healthy quarters, the bulletin cautions. The disease, believed to be caused by a virus, is marked by severe diarrhea, vomiting, and rapid loss of weight. Young pigs are hit hardest, with death losses sometimes running as high as 90 per cent.

**Foresee Billion Barrels Jet Fuel from Oil Shale**

Jet engine fuel by the billions of barrels can be produced from the Green river oil shale formation in northwestern Colorado, Dr. J. D. Lankford, acting chief, of the United States bureau of mines oil-shale demonstration plant in Rifle, Colo., reports.

Low cost oil shale mining already has been found feasible, Dr. Lankford says, and he predicts that the present trickle of 100 to 300 barrels of gasoline and Diesel fuel from the formation will become a mighty torrent as techniques improve.

"It is estimated that 88 volume per cent of the crude shale oil could be converted into a hydrogenated product containing a premium Diesel oil and a high-quality jet fuel practically free of sulfur, oxygen and nitrogen compounds," Dr. Lankford stated. "If desired, the hydrogenated material could be converted easily to gasoline by standard petroleum refining processes."

"The United States bureau of mines oil-shale demonstration plant at Rifle, Colo., is engaged in an integrated research and experimental program to point the way toward the development of a tremendous natural resource, oil shale, for possible wartime emergency and for the ultimate peacetime production of liquid fuels by private industry."

"Billions of barrels of liquid fuels are potentially available from the oil shale of the Green river formation of northwestern Colorado. Research and development work will be necessary over an extended period of time to bring this great natural resource to the stage where utilization will be possible."

**Pocket Radiation Indicator Developed for Average Man**

An accurate pocket-size radiation indicator, so simple that the man on the street can learn to read it after a few minutes instruction, has been developed at the atomic energy project on the Los Angeles campus of the University of California.

The device was developed by Dr. George V. Taplin and Clayton Douglas of the U.C.L.A. medical school's atomic energy medical research staff.

It measures radioactivity by a color change of chemical solutions in small vials. The chemicals are inexpensive, and it is estimated that the instrument could be produced on a large scale very cheaply.

The vials fit into a compact case about the size of a pack of paper matches, which could be worn around the neck like G.I. dog tags. They also could be adapted to a pencil-like container for the pocket. The new radiation indicator was specifically designed to measure large doses of gamma and X-rays immediately after an atomic blast.

It also lends itself to the development of important peacetime applications, says Dr. Taplin. For example, it could be useful in the calibration of such radiation equipment as fluoroscopes and X-ray machines. It might be used to measure radiation from radio iodine absorbed by the thyroid gland in treatment of hyperthyroidism.

**Origin of April's Fool**

It was the habit of observing July as the beginning of the year that is said to have started the whole idea of All Fools' Day. From its reputed origin in France, it quickly spread to other countries. We have such varied terms as the English "noddies, gawbies and April gobs," the French "April Fish," and the Scottish "April Gowks." While there are other theories about April Fool's day, the calendar story located by research librarians with Childcraft seems that when King Charles XI of France adopted the reform calendar in 1564, many Frenchmen refused to go along with the new January 1 New Year's. When they continued to celebrate on July 1, they were made the butt of countless jokes—receiving mock party invitations, fake gifts, and pretended ceremonious visits of congratulation.

**United Nation's Building**

Along the banks of East river on the Island of Manhattan between 42nd and 48th streets the Secretariat building of the United Nations is towering to the sky as workmen are rushing it to completion so that it can be occupied before the end of the present year. The structure will be 39 stories high. It is one of four units that will complete the headquarters as a "workshop for world peace." Contracts for the other three units have not yet been let but it is believed they will be completed during 1951.

**Suggestion for Farmers**

The average farmer spends 50 per cent of his time around the farmstead. This can be materially reduced by piping water to the point of use rather than carrying it. For example, consider what carrying water to a flock of laying hens involves. If the water point is 60 yards from the hen house, as it is on many farms, the farmer will carry approximately 10 tons of water a distance of 25 miles per 100 hens per year in addition to walking another 25 miles to the water point.

**Ask for More Trained Men For Animal Disease Study**

Solution to some of the nation's most costly animal disease is being slowed by lack of highly trained research men.

There is urgent need for giving promising young scientists an opportunity to learn the techniques of animal disease investigation.

The only way this can be done is by a long range fellowship program.

Such a program has been sponsored by the AVMA for the past six years. Under this program, which will be expanded as funds permit, research-minded graduates of colleges of veterinary medicine get financial aid to engage in animal disease studies at leading scientific institutions. This gives them background and experience needed for unraveling highly complex diseases.

Many livestock and pet owners who ask for "more research to solve disease problems" have given too little thought to how the job might be done.

Finding out what causes a perplexing animal disease isn't much different from tracking down a dangerous criminal, and neither is a job for anyone but a well-trained person.

The Federal Bureau of Investigation would not put a man on any of its cases without first training him in FBI methods. The same advantage should be given to people interested in disease investigation.

Funds for expanding the fellowship project should come from private sources rather than the federal government "because the nation already has gone too far toward dependence on federal hand-outs."

**Mastitis Germs Live 5 Days on Broomstick**

Harmless though it may look, that broom in the corner of the barn might be the means of starting a new case of bovine mastitis.

The germ responsible for most cases of bovine mastitis can stay alive for as long as 20 days on objects around the barn, and for as long as 26 days anywhere on a cow's skin. From these jumping-off places, the germ can eventually get into a cow's udder, where it starts the disease known as mastitis.

Survival time of the germ was observed after mastitis-infected milk was poured on manure, hair, wood, bricks, udder cloths, and other materials commonly found or used around dairy barns.

The germ stayed alive for 4 days on rubber boots, 5 days on a broom handle, 7 days on an udder-washing cloth, 8 days on a bucket, 13 days on hair, and 20 days on hay. However, when some of these objects were treated with a disinfectant before being smeared with infected milk, the germ didn't do so well. Enough of the disinfectant lingered to cut down the survival time to a day or less.

This research emphasizes the need for clean barns, clean cows, clean attendants, and prompt disinfection of any object that gets splattered with milk.

**Use of Columbium**

John Winthrop, Jr., who supervised the construction of America's first successful blast furnace at Saugus, Massachusetts, in 1643, found an unidentified rock fragment near his home. About 150 years later, an English chemist, Charles Hackett, saw this fragment in the British museum, analyzed it, and thus discovered the element columbium. Today, this element is playing an increasingly important part in the manufacture of stainless and heat resistant steels for such uses as jet aircraft engines.

Columbium is one of the most recent elements to find use in the steel industry. It was used commercially as an alloy in the 1930's, although experimental work had been done with it as early as 1920. Last year 632,000 pounds of columbium metal was consumed in the manufacture of steel.

**Origin of Camouflage**

The origin of the word camouflage has, it seems, been lost in the shuffle. One of the stories told in connection with it is that, during the Indian troubles in the Southwest, one Jacques Camou built a circular mud fort. This fort had large square openings at regular intervals around the walls. Through these, the garrison of the fort would fire. As the Indians' shots also found their mark through these openings, Camou painted the entire fort like a checkerboard—with large black squares on a white field. This confused the Indians so they were unable to determine at which dark squares to aim.

**Thermal Snow Removal**

Thermal snow removal from sidewalks and driveways by means of embedded piping is a new and interesting development in the heating industry. The snow is removed automatically and without effort by the heat from pipe coils installed under the surface of the pavement. Hot water, circulated through the coils, transfers its heat to the pavement, thus melting the snow and keeping the surface dry. Automatic snow removal is economical. There is no necessity for using snow shovels or chemicals. All the owner does is to turn the switch to start the system in operation when the snow begins to fall.

**Student Study Record High**

All the pessimistic prognosticators who have been saying that today's college students are too jittery over world conditions to stick to their studies are entitled to one blush of shame. For the first time in its 63-year history, the University of Idaho has had less than 1 percent of withdrawals during the academic year.

Withdrawals are figured on the 11th week of the second semester, and this year the total has been only .99 percent. The average for the pre-war years was about 3 percent, but the withdrawals started shrinking rapidly after World War II. "We thought that the post-war drop in withdrawals was largely due to the high percentage of older GI's," said President J. E. Buchanan, "but now we have very few GI's. The current all-time low in withdrawals cannot be attributed to students staying in college to get their military training through the ROTC rather than an Armed Forces camp, because the withdrawals for women are proportionately low. Academic standards have not been lowered, but failing students are fewer, which simply means that both men and women are

doing more studying. Their purpose is serious, their stability is good."

**Pasture Fine For Chickens**  
 U. of I., Moscow — Pasture is generally associated with dairy cattle, beef cattle, sheep and hogs. Yet pasture is also highly desirable for raising pullets.

"High quality pasture forage can reduce feed costs from 10 to 20 percent, or a minimum saving of five pounds of feed for each pullet reared," says a University of Idaho bulletin.

Good management and rotation are necessary in the poultry-pasture program, says the publication. Using a pasture every second or third year for poultry reduces the possibility of diseases building up in the soil. Birds also do better housed in small range

shelters. As many as a thousand pullets may be grazed on an acre, depending upon the productive capacity. Weather permitting, they may go on the pasture when they are 8 to 10 weeks old. Moving range houses every week or two makes sure of even grazing.

**He Knew How, Anyway**  
 When my shy and retiring nephew, who is anything but a forceful speaker, came home from college with a grade of A in Public Speaking, the family asked him how on earth he did it.

"Well, we were marked chiefly on our ability to hold the attention of the class and I decided to find a subject that would do just that. I read up on Indians and spoke on 'The Correct Procedure to Skin and Shrink a Human Head!'"

**STATES, COUNTIES SHOULD  
SHARE WATER PROJECTS**

In a talk to the Institute of North-  
west Resources at Corvallis, Ore.,  
Col. T. H. Lipscomb, division chief of  
the U. S. Army Engineers, has ad-  
vanced the proposition that state and  
local governments should bear a por-  
tion of the cost of vast multiple-  
purpose projects for the development  
of our rivers. This proposal is not  
new or radical as it will seem to  
many who have become used to  
Uncle Sam doing it all and demand-  
ing all the authority to go with it.

Old-timers in the Willamette Val-  
ley project will remember that it was  
originally proposed that states and  
counties should share at least a por-  
tion of flood control costs. This  
thinking went "out the window" be-  
cause of the depression and the ad-  
vent of the New Deal and the entry  
of the federal government into the  
field of planning and doing for every-  
body. This might be a summary of  
what happened:

"States, counties and cities were  
out of cash and out of credit to fi-  
nance their share. — Uncle Sam con-  
trols the money-making power and  
has no ordinary limitations on his  
credit."

It was easy for Uncle Sam to take  
over but, in our opinion opportuni-  
ties for local participation were over-  
looked. These great projects are paid  
for out of the revenues from the  
sale of power and water (supposedly)  
and other services to the people who  
live in the immediate area. It would  
be entirely possible to finance a  
state or local portion of these costs  
by the common device of revenue  
bonds were assigned some equity in  
these projects.

Partnership — "Should the fed-  
eral government take state and local  
governments into any such partner-  
ship?"

It has long been our belief that  
the Federal government could and  
should. Our opposition to Valley  
Authority legislation has always been  
based on our strong opposition to  
federal over-lordship in a great re-  
gion such as ours. We have always  
maintained:

"Whoever controls life-giving water  
and all that goes with it, can control  
not only the economy but the polit-  
ics and the daily lives of the peo-  
ple. No form of regional government  
or super-government should be set  
up in which the people of the region  
are deprived of a voice and vote in  
determining the policies. Nobody can  
say that such an over-lordship as  
TVA will always be benevolent. Rate  
controls can be used as a form of  
tax and the power to tax is the  
power to destroy."

Valley Authority advocates have  
always contended that the Federal  
government cannot admit the people  
of the region into any voting partner-  
ship because the Federal govern-  
ment is the sole owner, responsible  
to all of the people of the United  
States. There is nothing to bar part-  
nership under contracts and com-  
pacts. Nor is there any reason why  
the people of the region, through  
their state and local governments,  
should not be assigned equities in  
these projects in proportion to the  
payments which they actually make.  
(Subject, of course, to federal needs  
in time of national danger.)

Suggestions which Col. Lipscomb  
has made are not unreasonable; nor  
are they "academic." In our highway  
programs we have excellent patterns  
of partnership without over-lordship,  
bringing administration close to the  
people of each state. — Eugene (Ore)  
Register-Guard.

**Find Clue to Mortality  
Among Baby Calves, Pigs**

Nobody knows definitely why  
many newborn calves and pigs die  
shortly after they begin to nurse,  
but a theory advanced by research  
veterinarians is winning accept-  
ance because it seems to be the  
most logical explanation yet of-  
fered.

Picture a starving man who eats  
food that makes him violently ill,  
only to die from the illness rather  
than from starvation, and you will  
have an idea of what is believed to  
be happening to countless pigs, and  
calves too, on the nation's farms.  
The main difference is that the  
newborn animals die after consum-  
ing their mother's milk—the very  
thing upon which they depend for  
life.

This is how the trouble starts:  
While the cow or sow is pregnant,  
she is attacked by a virus disease  
that may or may not be apparent  
to the owner. Her natural body  
forces produce substances called  
antibodies that fight off the infec-  
tion, and at the same time some  
of these antibodies find their way  
to the unborn calf or pig.

Large amounts of them also go  
into the colostrum or first milk,  
that will nourish the youngster  
after birth. These disease-fighting  
substances have a sensitizing effect  
on the unborn animal. Then, after  
birth, when the youngster starts to  
consume colostrum, it gets a large  
dose of the antibodies and dies  
from shock.

Prevention of such losses is a  
problem now confronting veterinar-  
ians. While the colostrum from af-  
fected cows and sows is obviously  
harmful, it also has many prop-  
erties vital to the survival and health  
of calves and pigs. Ordinary milk  
and other feedstuffs do not contain  
all of these essential properties,  
and so far satisfactory artificial  
foods have not been developed for  
practical farm use.

LEWISTON PHONE 275

**Appointed To Polio Office**

Boise — Mrs. Frankie Alworth of  
Twin Falls has been appointed Idaho  
Advisor of Women's Activities of the  
National Foundation for Infantile  
Paralysis, it was announced this  
week by the March of Dimes organi-  
zation.

Assuming state-wide responsibility  
for polio volunteer activities at a  
time when polio incidence is climb-  
ing upwards in Idaho and across the  
nation, Mrs. Alworth will direct her  
initial effort toward channeling fac-  
tual information about the disease to  
the general public. She will also seek  
wider volunteer participation in the  
education and patient care programs  
sponsored by the National Founda-  
tion. Working closely with women's  
clubs, organizations, health and wel-  
fare groups, Mrs. Alworth will co-  
ordinate community preparedness and  
polio awareness measures and see  
that activities and services of local  
National Foundation chapters are  
widely known throughout the state.

Among her first responsibilities will  
be the institution of educational ex-  
hibits in the various county fairs to  
be held during the late summer and  
fall months.

**Idaho Dwellings Increase**

The census bureau reports that the  
number of dwelling units in Idaho  
increased from 152,835 in 1940 to  
189,801 in 1950.

**Veterinarians Tell Ways  
To Prevent Pig Scours**

These five suggestions for keep-  
ing scours out of the spring pig  
crop are offered by swine disease  
authorities of the American veteri-  
nary medical association:

1. Set up a definite schedule for  
feeding the sow. Irregular feeding  
results in an uneven flow of milk  
that causes nursing pigs to go hun-  
gry at one feeding and then scour  
from overeating at the next.
2. Don't overfeed the sow. New-  
born pigs often scour because the  
brood sow is being overfed. Give  
her only warm water and no solid  
feed the first day after farrowing  
and a small amount of bran or oats  
the second day. After that, the  
ration can be increased a little  
each day so that she is on full feed  
within two weeks.
3. Feed a balanced ration. If the  
sow gets too much corn, her litter  
is almost sure to scour.
4. Keep sows away from mud  
holes, manure, and filth. Many cases  
of pig scours are traceable to filth  
consumed while nursing.
5. Protect pigs against sharp  
changes in temperature. Failure to  
keep pigs warm when the weather  
suddenly turns cold will cause out-  
breaks of digestive trouble.

**Saws Used in Home**

The saws commonly used in the  
home are the hacksaw and the  
handsaw. The hacksaw is used to  
cut metal and the handsaw to cut  
wood. There are two types of  
handsaws, the rip saw to cut with  
the grain and the crosscut to saw  
across the grain. All saws should  
be kept sharp. In starting a saw  
cut, the thumb of the left hand  
should be used to guide the blade  
until the cut is started at the de-  
sired location. The first stroke  
of the saw should be in the up direc-  
tion. Sufficient pressure should be  
used when starting the cut so that  
the saw immediately begins to bite  
into the wood.

# Potlatch Chief Sez

Published by the Kendrick Creamery

## HELLO, THERE, FOLKS —

Yes, we know it's been hotter than hot for these past several days — but that's just the time to enjoy "Potlatch Chief" Ice Cream, with its chilly smoothness and delightful flavor appealing to even the most fastidious. It's quick and easy to serve as a dessert, as a snack, or as a treat to that unexpected company. It's made in all the standard flavors, plus specials. Next time you are down town take home from a quart to a gallon. Keep it on hand all the time.

"I can't marry him, mother; he is an atheist — doesn't believe there is a hell."  
Mother: "Marry him, dear, and between us we'll convince him he's wrong."

Going picnicking, camping, fishing? Sooner or later you are, and you'll be packing a lunch. Now

that lunch will be all the more delicious if you spread those sandwiches with "Potlatch Chief" Butter. It's made from pasteurized cream. It has a pure, sweet taste, a delightful aroma and smooth texture. Try it once — you'll use it always.

Waiter: "Do you want the dollar steak or the dollar and a quarter steak, sir?"

Diner: "What's the difference?"  
Waiter: "You get a sharp knife with the dollar and a quarter steak!"

Don't slave and sweat over a hot stove canning. Do it the quick, easy, modern way, by freezing. We have locker boxes that will fit every purse and purpose. Come in and look them over. Then "can" the easy way.

And don't forget — we want to buy your cream!

### LINDEN ITEMS

Sunday guests in the Ray Cuddy home were Mr. and Mrs. James Holt and children of Kendrick, and Shirley Holt of Lewiston. They were evening callers in the Erlewine home. Carolyn, Eileen and Michael Holt have just terminated a three-day visit with their grandparents, Mr. and Mrs. Cuddy.

Mrs. James Cuddy and children from Woodland, Wash., visited this week in the Ray Cuddy home.

Mr. and Mrs. Arlie Allen were Sunday guests of Mr. and Mrs. Claude Pipping at Orofino.

Mrs. Veda Butler of Lewiston spent from Saturday until Monday with Mr. and Mrs. Gil Erlewine.

Mrs. James Cuddy and children, and Carolyn and Eileen Holt were Saturday dinner guests of Mr. and Mrs. Clement Israel and daughter.

Mrs. Clement Israel attended the Friday afternoon Stanley party at the home of Mrs. Adrienne Clemenhagen in Kendrick.

On Tuesday Mr. and Mrs. Clement Israel went huckleberry with Mr. and Mrs. Grant Clemenhagen — and had very good luck. (We'd like to know where they went!)

The Friendly Neighbor Club, with its lesson on "Textile Painting" will be held later in the fall, when the busy harvest-time rush is over.

Mrs. Dick Parsley and Mrs. Arlie Allen were huckleberrying in the Three Bear area on Thursday. Harley Perryman and son Gene and Dan Kechter also picked berries in the afternoon. Moderate luck was reported, as most of the patches had been picked over.

Art Foster and children; Wilma and Billy Wilson and Clarence Alexander picnicked on the Potlatch Sunday.

Art Foster and children were Lewiston visitors on Monday.

Mr. and Mrs. David Briggs and daughter of Lewiston spent Monday with Mr. and Mrs. Gil Erlewine. Clarence Alexander was a morning caller.

Any "Friendly Neighbor" club

member interested, or able, to attend the Leader-Training meeting of the Extension Club workers in Moscow, on the following dates, please get in touch with Mrs. Alva Craig for further information: Thursday, Aug. 21 — "What Makes a Home Happy"; Tuesday, Aug. 26 — "Family Recreation"; Thursday, August 28 — "County Council Meeting."

### SOUTHWICK NEWS

Members of the Southwick School Lunch program made a trip to the Lewiston Orchards Thursday, July 31, and picked apricots and apples for canning for the lunch program. Those making the trip were Eula Davis, Ruth Armitage, Margaret Miller, Neil Lohman, Beverly Miller, Christina and Patsy Cuddy.

On Thursday afternoon of July 31, eighteen ladies of the Southwick district gathered at the school lunch room and canned apricots and made jam for the school.

Wm. Elliott returned to Lewiston Tuesday after spending several days at the home of Russell Perkins of Southwick.

Mr. and Mrs. Lloyd Randall, Jr., visited in Southwick this week, taking home their son, Russell, who spent a vacation at the home of Mr. and Mrs. Russell Perkins, his grandparents.

Mr. and Mrs. Leland Marvin and daughter Leslie Gayle, attended the wedding of S Morris Bailey, U. S. N., and Miss Melva Fordyce at the Clarkston Presbyterian church on Sunday, August 3.

The Homemakers Club met Thursday with Mrs. Mary Lawrence for an all-day session. Those attending were Marie Kuykendall, Viola Martin, Alma Betts, Ruth Armitage, Joyce Marvin, Agatha Perkins and Mary Lawrence. The next meeting will be at the home of Mrs. Given Mustoe.

### JULIAETTA ITEMS

The Irwin family and relatives from Ritzville, Wash., Walla Walla, Wash., Palouse, Wash., and Lewiston met in the Spalding park Sunday to celebrate the birthday anniversaries of Wm. Carlton and Hazel Hill. It was warm, but pleasant, and all enjoyed the lovely dinner as well as the personal visits.

Mr. and Mrs. Oliver Clark are again at their home here, having returned from Spokane, where they had spent the past several weeks, August 1st.

Mr. and Mrs. Jack Mead returned last Monday from a trip to Crater Lake, Ore., Boise and Fayette Lake. They brought back a quantity of colored lava rock for use in the rock garden at their home.

Notice: If you wish to retain your correspondent here, please send your news items to me — C. E. Irwin.

Mr. and Mrs. J. Fauch of West Covina, Calif., spent a week here visiting her parents, Mr. and Mrs. H. C. Dickerson. They left for their home a week ago last Monday.

Tessie and Bonnie Dickerson of Twin Falls, arrived here Friday to spend some time with their grandparents, Mr. and Mrs. H. C. Dickerson.
